Phil's Forecast:

There are many teams in the NFL that can lose a starting QB & play just as well & we've seen that many times TY. There are probably 4 tms that cannot as the irreplaceable QB's would be Brady, P Manning, Brees & Rodgers. GB figured to be all alone in 1st place after MNF but lost Rodgers on the 1st drive. Seneca Wallace is a far cry from him, hitting just 11-19-114 & GB was outgained by CHI at home 442-312 in their 7 pt loss. Only on the team 9 weeks, Wallace will get all the snaps with the 1st unit in practice & I expect a much better performance. On the other side of the field is QB Foles who had an amazing 7 td passes LW. Talk about a reaction to an injury, prior to MNF, GB was favored by 9 & they are now a 1.5 pt fav. One of my fav theories is the inj system when a major player is injured, 3 things happen. His tm plays at an absolute peak to prove they are not a one man show. Their foe lets up. The line moves. GB has the #15 rated D (#6 L4W) & the home edge while PHI comes in with the #32 D in the NFL & I'll go against the grain & call for GB to win this one at home.

BEST BET: Green Bay 27 Philadelphia 20
