Home team has won 8 str & SU is 8-1 vs SJSt. LY's score was misleading as SU had 3 2Q scoring drives totaling 22 yds. SU has won 4 straight home openers by an avg 31 ppg.

Home tm has lost all 3 gms. LY SU only led 10-7 w/2:14 2Q as Duke missed 27 & 45 yd FG's. SU led 17-7 at HT & opened the 2H up w/B2B early 3Q td's after Duke was SOD in RZ & fumbled in at their own 39.

The home team is 1-5. LY down 7 SU went 76/10 pl to tie the gm w/:38 left. After an exchange of td's in the 1st two OT's SU got a td/2pt to open the 3rd OT and USC fumbled on 1 & gl from the S4.

83rd meeting. The L2Y SU has had the 2 biggest MOV's in this series history (41 & 44). LTH the Cardinal got the shutout as they allowed just 107 yds (2nd fewest all'd in school history, SJSt had 80 yds in '71).

Stanford has won B2B meetings and just once in series history has had a 3 gm winning streak. LY SU led just 16-10 at HT but shutout UA in the 2H limiting them to 136 yds on 5 drives.

The visitor is 4-12. LTH Notre Dame had a brief 3-0 lead but the Cardinal scored 34 of the gms next 37 pts. SU allowed 141 (40%) of the Irish's 351 yds on their L/2 drives.

SU is 3-7 but won the L/2. LTH SU handed Cal its worst loss in this rivalry S/'30. Cardinal scored on its 1st 8 poss (led 45-0 into 4Q) and didn't punt until 3:39 left (Cal gained 47% of their off in 4Q).

SU won 4 str vs WSU by an avg score of 45-14. LY SU led just 10-7 at HT but scored td's on 5 of their 6 2H poss limiting WSU to just 2 yds before L/2 4Q garbage drives. Into '12, SU is 15-3 hosting P12 foes.

The Cardinal have won 3 straight in this series by an avg 17 ppg but lost their last trip to Boulder in '90 (21-17). SU was 6-12 from 2006-'09 in Pac-12 AG's but 8-1 the L2Y.

LY SU only led 17-13 late 3Q before 3 str td drives that amassed 201 yds, OSU was held to 79 yds the last 26:53. This was Stanford's first win in the state of Oregon since '05.

SU has lost 5 str trips to Eugene. LTH SU led at HT by 7 but were shutout in the 2H all'g 264 yds w/3 TO's.

The Cardinal are 1-6 their last 7 trips vs UCLA but did win the LTH. SU shutout UCLA 35-0 which was their first in the series S/'41 (its was the 1st of 3 shutouts in 2010 for Stanford).

CALIFORNIA GOLDEN BEARS

CB Marc Anthony

POSITION OUTLOOK FOR 2012

QUARTERBACKS - During his coaching career (HC & OC) Jeff Tedford has had six #1 NFL DC QB's incl Aaron Rodgers. Cal received inconsistent QB play 3 straight yrs with just 190 ypg (53%) in '08, 223 (55%) in '09 and a Tedford era low 175 (56%) in '10. Brock Mansion was forced into the lineup at the end of '10 and Cal's bowl hopes went out the window as he threw for just 646 (49%, 2-5). LY Mansion battled soph Allan Bridgford (PS#15, least mobile) and transfer Zach Maynard (PS#253) who threw for 2,694 (58%, 18-15, 300 rush, 11 st) in '09 at Buffalo. Maynard began a distant #3 but won the job and had a fine start. He is arguably the most mobile QB in the Tedford era but after 3 int (and a lost fmbl) vs USC then 4 int vs UCLA 2 wks later, he nearly lost his job. Bridgford played in 4 hitting 13-32-184 (40.6%). Maynard threw for 2,990 (57.0%, 17-12). This year Mansion (2 att LY) departs and battling for the #3 spot are soph Austin Hinder (PS#13), Kyle Boehm (6'3" 221 rFr, PS#17) and true frosh Zach Kline (PS#4, IFS) who led the Gold squad to a win in the spg gm. This unit is vastly more exp'd than it was heading into LY and should have its best QB numbers in 5 yrs as Maynard hit 66.4% over the last 4 games.

RUNNING BACKS - Cal did not have a 1,000 yd rusher the 8 yrs prior to Tedford's arrival, but he produced one in each of his first 7 yrs (4 of whom are still on NFL rosters) including JJ Arrington's record setting 2,018 (7.0) in '04. He was followed by Marshawn Lynch (#1DC '07), Justin Forsett (#7DC '08) and Jahvid Best (#1DC '09). Best was banged up in '09 and Shane Vereen (PS#25) led with 952 (5.2). Cal uses a 2-back rotation with the top 2 RB's normally balanced, however, Vereen was Cal's offense in '10 rushing for 1,167 (5.1, #3 in rec's). Isi Sofele was #2 (338, 4.9). LY they had to replace Vereen (#2DC) and then FB Eric Stevens suffered a torn ACL. It was the first time in a long time that Cal did not have an accomplished vet returning. Sofele (PS#116) is a 5'8" 183 lb waterbug while JUCO CJ Anderson (PS#122JC) is a powerback. Sofele led with 1,322 (5.2) while Anderson added 345 (4.8) extending Cal's run of the top 2 comb for at least 1,500 yds to 9 consec yrs. Brendan Bigelow (PS#19) drew comparisons to Best after his soph yr of HS but suffered 2 torn ACL's. He ply'd in 11 LY (25, 4.2) but said this spg that he feels he's at full strength and has his outstanding spd back. TY they lose FB's Will Kapp (Joe's son, 5 st, 63 yd), John Tyndall (1 st) and TB Covaughn DeBoskie-Johnson (321 yds 3Y). Not in the PSL are Trajuan Briggs (5'11" 222 So, PS#62), Daniel Lasco (6'1" 204 rFr, PS#41), Mike Manuel (5'9" 198 Sr) who may move to WR and Darren Ervin (5'10" 197 rFr, PS#133). This unit is vastly more exp'd and should continue that streak of 1,500 yd seasons.

RECEIVERS - In '09 Marvin Jones (PS#20, inj '08) was the #1 rec (651, 15.1) while TE Anthony Miller was #3 (357, 13.7). Jones led again with 765 (15.3) in '10 and VHT true frosh Keenan Allen (PS#3) was #2 with 490 (10.7). All 3 ret'd LY. Allen, who is the half brother of QB Maynard, led with 1,343 (13.7) becoming the 6th player in school history to top 1,000 yds rec (90 yd td rec vs UW also Cal rec) while Jones was #2 with 846 (13.6). TY they lose Jones (13 st, #5DC CIN), Miller (13 st, 263, 11.0) and Michael Calvin (6 st, 269, 13.4) while Allen missed all of spg after ankle surgery. Overall the group is less experienced but with Allen back, still figures to be a top-notch unit with all 3 projected WR st'rs being VHT's.

OFFENSIVE LINE - In '10 Cal had to replace two OL st'rs including their 1st Tm P10 LT but had 70 car sts returning. LT Matt Summers-Gavin (8 st '09) had just 4 sts (knee) and Cal's numbers dropped for a 2nd straight year to 159 ypg rush (4.4, 23 sks). LY they had to replace 2 st'rs but got back Summers-Gavin so it was like having 4 st'rs back. The unit stayed healthy (1 st lost) but actually slipped again to 155 ypg (4.2, 28 sks). TY they lose 1st Tm P12 LT Mitchell Schwartz (13 st, 4Y st'r, #2DC CLE), RG Justin Cheadle (13 st, 3Y st'r) and Mark Brazinski (6'3" 306 Jr, PS#35, 4 gm 2Y) who tore his ACL in spg. They go from 85 to 63 car sts but add in PS#45JC Matt Williams (RS LY) and PS#28 true Freddie Tagaloa which should stop their downward trend of rushing numbers.

DEFENSIVE LINE - Cal's defensive strength this past decade has been their DL play. In '10 they had to replace a #1DC DE but had 2 st'rs back to the 3-man front including Cameron Jordan who turned down the NFL. Cal held Oregon to a reg season low of 2.9 ypg rush but surprisingly their numbers slipped to 132 ypg rush (3.6) with 34 sks. LY they had to replace #1DC DE Cameron Jordan and a starting DT. They did have 3 back with 4+ car sts and added in PS#10, #16, #23, #25 and #98 true frosh. I called it a solid unit but said it would be down a few notches and the Bears slipped to allowing 3.8 ypc (129 ypg, 34 sk). Surprisingly PS#10 Viliami Moala (495 bench) only had 4 tkls. Deandre Coleman is a powerful combo of size and athleticism but had just 2 st (19 tkl, 2 sk). TY they lose 2nd Tm P12 DE Trevor Guyton (13 st, 46 tkl, 5.5 sk, #7DC MIN), DE Ernest Owusu (9 st, 30 tkl, 4.5 sk) as well as DL cch Tosh Lupoi who spent the L/4Y developing this position (also one of the nation's top recruiters). Cal's frosh are now all exp'd and while they have just 1 ret st'r (same as '11) they look stronger and I expect more production out of Moala and Coleman.

LINEBACKERS - In '10 Cal had to replace their #4 and #5 tkl'rs but added 5 VHT true frosh. Surprisingly, those 5 had very little impact (3 tkl). Mike Mohamed was the #1 tkl'r in '09 (112) and '10 (95) but LY they had to replace him (1st Tm P10, #4 car tkl'r, #6DC) and one other st'r (28 tkl). They ret'd 2nd Tm P10 Mychal Kendricks (#4 tkl'r) and their #2 tkl'r, DJ Holt. Their ppg rose slightly to 24.2. TY they lose the P12 DPOY in Kendricks (11 st, #1 w/107, 3 sk, 11.5 tfl, #2DC PHI), 2nd Tm P12 ILB Holt (13 st, #2 tkl'r, 10.5 tfl) and OLB Ryan Davis (3 st, 8 tkl). They return the top 4 OLB's although none st'd more than 7 LY and the leading returning tkl'rs were #10, #14 and t-#15 in tkls. They do have 9 VHT's in the 3-deep but I will call them down a notch in '12.

DEFENSIVE BACKS - Cal had some excellent finishes in my PDR at #10 in '04, #11 in '05, #26 in '06 and #3 in '08. In '09 they had 9 of their top 10 back (all 4 st'rs). Shockingly Cal slipped to #94 (lowest s/'01, #96). In '10 they had to replace 3 st'rs incl a 2x 1st Tm P10 CB (#7DC). Despite the losses, I said Cal could only improve and they rose back to their accustomed PDR (#17). LY they had to replace 3 DB (comb 22 sts). They did have 30 sts from '10 back and Cal moved up to #16 (56.3%, 19-12). TY they lose S Sean Cattouse (12 st, 75 tkl, 2 int, 2 pbu), S DJ Campbell (13 st, 71 tkl, 2 int, 5 pbu, #7DC CAR) and CJ Moncrease (1 st, 13 tkl). They return players who started 32 gms LY so they are on par with '11 in terms of experience.

SPECIAL TEAMS - In Tedford's first 9 yrs they were #33, #47, #69, #34, **#2**, #49, #71, #56 and #50 in my ST rankings. P Bryan Anger was excellent in both '08 and '09 and they added ST coach Jeff Genyk (former EM HC). Giorgio Tavecchio missed crucial FG's vs AZ and Oreg but his 53 yd'r vs UW was the 3rd longest in Cal history. Vincenzo D'Amato, who was 7-12 FG (L47) in '09, was beat out by Tavecchio (11-16 L53). True frosh Keenan Allen (PS#3) was the top KR (22.6). LY I expected continued improvement with Anger and Allen back and Cal moved up to #37. Tavecchio hit an outstanding 20-23 FG (L54, t-#2 Cal hist) but missed 6 xp's (7 TB on 76 KO). Anger avg 44.2 with a net of 39.7 (#10 FBS). They were below avg on KR and PR. TY they lose Anger (#3DC JAX), Tavecchio and LY's top KR and PR and figure to drop a few notches.

COACHES - Jeff Tedford was the Pac-10 COY in his first season ('02) and again in '04. Tedford took over a 1-10 team and led the Bears to 9 winning seasons (5-7 in '10) in the L/10Y. He previously was the OC at both Oregon and Fresno and has produced many fine NFL QB's. The 2nd yr OC is Jim Michalczik, who was the OL cch here from '02-'08 (OL cch NFL '09-'10). Tedford was the primary play-caller LY, a duty that he has taken upon himself during several occasions here. DC Clancy Pendergast is in his 3rd season after spending 15Y in the NFL (incl DC at ARZ '04-'08 and KC '09).

PHIL'S FORECAST

In 2004, I called Cal my #2 Surprise Team and forecasted they would go from 8-6 to a potential 10 or 11 win season. In a road trip to USC, Cal had 28-12 FD and 424-205 yd edges but came up short failing to score on 1&gl and losing by 6. Those 6 pts cost them the P10 Title and a trip to the Nat'l Champ game. The Bears were +158.5 ypg (+23 ppg!) in P10 play, even better than USC! Cal has failed to get back to that level in the past 7 yrs. After a #14 finish in '06, Cal has now finished 5 straight yrs outside the Top 25. They did make the Top 10 during the ssn in each of the next 3 yrs. In '07 they were 5-0 (#2 AP) but went just 1-6 down the stretch. After mediocre 9-4 and 8-5 seasons, Cal was picked 7th in the P10 media poll in '10 and wound up with their first losing season s/'01 as the Bears went 4-3 at home but 1-4 on the road. They had the weakest off in P10 play (292 ypg) but the best def (334 ypg). LY all their HG's were moved to AT&T Park in San Fran while Memorial Stadium was renovated. Cal opened with a solid win over Fresno, 36-21. They were outgained 582-370 at Colo but won in OT. After holding Presbyterian to 48 ttl yds (won 63-12), Cal had 1st and goal at the UW2 with :42 left, down by 8, but was SOD. They led Oregon 15-14 at half but lost 43-15. TO's did them in for a 2nd str Thurs night game as they had a 329-313 yd edge but 5 TO's resulted in their 8th str loss to USC. They dominated Utah (223-27 yds 1H) and led 34-0 in the 4Q. At UCLA QB Maynard threw 4 int (7 int USC/UCLA) and they lost by 17. After waxing Wash St 30-7 they beat Oreg St 23-6 with a 424-270 yd edge. At #8 Stanford on a soggy field and pelting rain they nearly pulled off the upset vs their rival but lost by 3. Sofele rushed for 145 and they knocked Ariz St out of the P12 Champ gm, 47-38. In the bowl they were held to 195 yds (7 rush) by Texas and lost by 11 to finish 7-6. They were +47.9 ypg (4th best P12) despite their 4-5 record in the P12 while having just 11 ret sts and playing a brutal schedule. TY the Bears return to their home stadium, get 5 P12 HG's and will get themselves to their 8th bowl in 9 years.

The last time Cal won 2 str in this series was '97 & '98. Cal is 3-10 vs OSU. LTH Cal trailed 28-0 at HT

as Cal's 7 1H poss ended in 5 punts, a fum and time. Three of Cal's L/4 series wins have come in Corvallis.

POSITION OUTLOOK FOR 2012

QUARTERBACKS - A reoccurring theme under HC Mike Riley is that a QB struggles in his first yr then gets much better in his 2nd. Derek Anderson had a 24-24 ratio in his 1st yr under Riley and 29-17 as a Sr. Matt Moore had an 11-19 ratio in '05 but improved to 18-7 in '06 (61%). In '10 Ryan Katz (PS#33) started 12 and threw for 2,401 (60%, 18-11). LY I said it was Katz's 2nd year and I expected significant improvement but he missed most of spring and parts of Aug which allowed rFr Sean Mannion, who is taller with a serviceable arm to get the bulk of the 1st tm reps. After Katz struggled in the opening loss to FCS Sac St, Mannion came off the bench in the 2H. Katz and Mannion rotated vs Wisc but Mannion st'd the final 10 taking every meaningful QB snap the rest of the way. Mannion threw for 3,328 (3rd best schl hist) hitting 64.5% (16-18 ratio). He set OSU rec's for comp and att's (40-66) vs Ariz St but also had 4 int's. Mannion threw for 376 and 4 td's vs WSU and had 11 straight 200+ gms (2 shy of Anderson's '03 rec). Katz (104 yd) transferred so the bkps are Cody Vaz (PS#68) who hit 6-17-48 in '10 but DNP LY while Jack Lomax (PS#90) is the son of former NFL QB Neil (DNP L2Y). Riley has a 2nd year QB and Mannion should improve accordingly.

RUNNING BACKS - From '98-'10 OSU had 4 RB's in Ken Simonton, Steven Jackson, Yvenson Bernard and Jacquizz Rodgers who combined for 16,408 yds with a P12 best eleven 1,000 yd ssns. LY they had to replace "Quizz" and Jovan Stevenson was the most exp'd back (137, 5.3 '09, RS '10). No true frosh had ever st'd the first game at OSU until Malcolm Agnew (PS#68) did and he rushed for 223 and 3 td's vs Sac St but did have a crucial 4Q fumble. Agnew was inj'd and played in only 6 but still led with 423 (4.8). Jordan Jenkins (6'1" 209 Sr) st'd vs Wisc but finished (12 gm) with just 42 (2.2). They did not have another 100 yd back until Agnew got 103 vs WSU and no RB topped 50 in the final 5. Stevenson had 99 vs AZ and 3 td's vs Wash but finished #2 with only 229 (4.0) as he missed 3 (knee). True frosh Terron Ward was #3 (211, 3.3). Also in the mix TY are Storm Woods (PS#134) and true frosh Chris Brown (PS#36). LY was the first time s/'04 that OSU did not have a 1,000 yd rusher. The running game has dropped from 158 ypg in '08 to 140 in '09 to 120 in '10 to just 87 LY (lowest s/'04). I look for big time improvement in those numbers especially if Agnew can remain healthy and Brown makes an immediate impact.

RECEIVERS - OSU has had some fine WR's under Riley including Mike Hass, James Newson and Sammie Stroughter, their top 3 career leaders. In '09 James Rodgers led with 1,034 (11.4) and had 303 rush (5.2) out of the fly-sweep. TE Joe Halahuni had 35 rec which was 1 short of Joe Newton's schl TE record ('06). In '10 Rodgers was lost (ACL) after 4 sts (215, 13.4, RS). Markus Wheaton led with 675 (12.3). Halahuni had 390 (13.0) and Jordan Bishop (PS#121), who was an AA on the track tm in '10, was #3 (353, 16.0). LY those 3 ret'd. Rodgers missed the first 2 and the finale but was #2 (514, 11.4, 75 yd rush). A bigger, stronger, faster Wheaton led again with 986 (13.5). Halahuni missed the first 2 and never regained form (268, 8.6). Brandon Cooks became the first true frosh to start the year at flanker and finished #3 with 391 (12.6). Bishop finished #4 (384, 12.4) despite missing 3 the final 4. TY they lose Rodgers (9 st) and Halahuni (1 st). Even with the loss of their #1 career leader in receptions (222) and a top notch TE, this unit could be stronger as neither was 100% in '11.

OFFENSIVE LINE - In '09 OSU had to replace a #2DC LT and a 2nd Tm P10 LG. They had a left handed QB so the blindside was covered by RT Mike Remmers and true frosh Michael Philipp (PS#13) started all 13 at LT (1st true OL to st s/'97). OSU avg 140 ypg rush (4.1, 29 sk). In '10 they had to replace a 1st Tm P10 RG but had 4 st'rs back. LT Philipp missed 3 (inj) but it surprised me the #'s dropped to 120 ypg rush (3.7, 35 sk). LY they had to replace a 2nd Tm P10 C and Philipp RS after battling inj's and losing his starting job so they had 3 st'rs back (69 car sts). Ret sts C Grant Johnson and RG Burke Ellis missed a comb 6 sts and OSU's rush numbers plummeted to 87 ypg (3.3, 27 sk). TY they lose Remmers (12 st, 4Y st'r), Ellis (8 st, 2Y st'r), Johnson (10 st, 3Y st'r) and Geoff Garner (2 st) but Philipp returns so it's like having 3 st'rs back (50 car sts). While slightly less exp, this unit should remain healthier and can only put up improved numbers. They also add in an impressive OL class (7) incl a PS#24 (UCLA trans) and a PS#15 (true).

DEFENSIVE LINE - Mike Riley almost always has a top-notch D-line. In '07, despite having just 2 st'rs back, they led the FBS in rush D (71 ypg, 2.1) with 44 sks. In '10 they had 3 ret sts incl DT Stephen Paea, who drew constant double teams. Paea was named the P10 DPOY but OSU allowed 180 rush ypg (4.3), its worst s/'96. LY they lost all 4 st'rs incl Paea (#2DC) and a #5DC. The unit had just 7 sts back from '10. Scott Crichton was dominant at times (74 tkl, 6 sk, Frosh AA, schl rec 6 FF) but they did lose Castro Masaniai to a broken leg after 5 gm and later DE Taylor Henry (5 st). TY they lose DT Kevin Frahm (11 st, 34 tkl, 1 sk), Henry (17 tkl, 3 sk) and Ben Motter (13 tkl) then suffered the tragic loss of true frosh Fred Thompson who passed away in Dec. After LY's inexp unit allowed 197 (4.8), its worst ypc in over 20 yrs and most ygg s/'96, they should be much stouter up front in '12.

LINEBACKERS - OSU has had six LB's drafted s/'02. Riley takes a lot of pride in this group calling it the West Coast version of "Linebacker U" and saying his LB's all have the ability to rush the passer and drop into coverage. In '10 OSU all'd 26.8 ppg, their worst in 5 yrs as they had to replace their #1 and #2 tkl'rs. LY they had to replace their #1 and #5 tkl'rs. The MLB is supposed to make the bulk of the tkls in OSU's gap cancellation D however their 3 MLB's were all inj'd. A saf led in tkls, which is never a great sign for a Beavers' D and OSU slipped to 30.8 ppg. TY they lose SLB Cameron Collins (11 st, 55 tkl, 3.5 tfl) and Tony Wilson (2 st, 11 tkl) making this unit more exp'd. They add in a PS#77JC and are a solidly improved group that can only remain healthier.

DEFENSIVE BACKS - In '08, OSU had 3 DB st'rs back and finished #12 in my PDR (#7 '06, #10 '07). In '09 they had to replace all 4 st'rs (2 DC's) losing 139 career sts (7 car st ret). Naturally OSU dropped down to #68 (23-8 ratio). Beaver CB's are generally left out on an island as OSU blitzes heavily. In '10 they only had to replace 1 st'r. Surprisingly OSU finished #88 (62%, 23-10). LY they had to replace 3 st'rs (1st Tm P10 CB). Things got so bad that Josh LaGrone, who had retired in Aug, ret'd (7 tkl, 5 gm) and the inexp unit again finished #88 (64.1%, 28-11). TY they lose HM P12 S Lance Mitchell (11 st, #3 tkl'r, 2 int, 6 pbu), LaGrone and CB Brandon Hardin (#3DC CHI) who was denied a 6th yr of eligibility (missed '11 w/shldr inj). This group (3 ret sts) is much more exp and should make a large climb in my PDR.

SPECIAL TEAMS - OSU usually finishes strong in ST's under Riley but after a #4 finish in '06 they slipped to #83 in '07, #49 in '08, #32 in '09 and #38 in '10. Last year Johnny Hekker broke OSU's single gm P record (52.5 vs Utah). Trevor Romaine had 2 low kicks (1 xp) blk'd vs Stanford although the FG att was 50 yards. He hit 15-22 FG (L46, 2 miss 50+). Jordan Poyer avg 14.1 on PR's and was the top KR (680, 22.7). Hekker avg 44.0 (39.1 net) which helped OSU finish #52. While most of the key players are back. They do lose Hekker, and figure to slip a few notches in '12.

COACHES - Mike Riley began the turnaround at OSU in '97 as he inherited a team filled with ply'rs recruited for the wishbone. Riley left in '99 to be an NFL HC (SD) but ret'd to Corvallis in '03. Danny Langsdorf is the OC (8th yr) and was previously an off asst with the NO Saints ('02-'04) and an OC for the CFL Eskimos ('00-'01). DC Mark Banker is in his 10th season and was also here in Riley's first stint (DB cch '97-'98).

PHIL'S FORECAST

Oregon St snapped a TWENTY-EIGHT yr streak of losing seasons in '99 and finished #4 in the AP in '00. OSU was 51-166 (23.5%) in the 80's & 90's but has gone 88-61 (59%) from '00-'11. OSU is 53-20 (72.6%) in Reser Stadium s/'00. Mike Riley ret'd to Corvallis in '03 and has had six out of 9 winning yrs and in almost every year, finished higher than my expectations. From '01-'05 OSU finished unranked but then in '06 finished #21 AP, #25 in '07 and #18 in '08. In that '08 season (just 10 ret sts) they stunned #1 ranked USC at home, the 3rd straight yr they knocked off a Top 10 tm (2nd time it was USC). They had 10 ret sts again in '09 and went 8-5 but were unranked after a bowl loss to BYU (#16 prior). OSU was +78.7 ypg in P10 play in '09 and had 15 ret sts in '10. They played two Top 10 non-conf tms on the road (TCU, Boise). The season did not go as expected as they were -45.9 ypg (first time s/'98 outgained by P10 foes) and leading rec'r James Rodgers was OFY after Wk 4. LY they had just 12 ret sts and lost RB "Quizz" Rodgers but my respect for Riley had me placing the Beavers on my Most Improved List. After I wrote the magazine they lost 3 st'rs so they actually had just 9 back. One of the reasons I liked OSU was the fact that they had a 2nd yr QB (see QB) but Riley benched Katz so they basically had a 1st yr starting QB which I did not expect. They were stunned in the opener by FCS Sac St 29-28 (OT) despite a 496-367 yd edge. OSU was a banged up tm in Sept. At Wisc, while they lost 35-0, they were only outgained 397-284. UCLA got a TD with 6:15 left and beat them by 8 in Reser. They led Ariz St 13-0 in the 2Q but lost by 15. They dominated Ariz leading 30-6 in the 3Q. BYU HC Bronco Mendenhall played at OSU so the game was important to him and BYU came in and got the upset win 38-28. OSU managed to win in Seattle against WSU 44-21 in a legit revenge game. In their 2nd straight AG at Utah they lost by 19 (-3 TO's) despite a 17-13 FD edge. They trailed Stanford just 17-7 in the 3Q as SU was in a USC/Oreg sandwich and playing in the wet and cold but SU won by 25. Cal drilled them, 23-6. OSU did beat UW, who was w/o QB Price for all but 1 drive (OSU 484-315 yd). In their ssn finale the Beavers were dominated by the Ducks 49-21 and their 3-9 record was their worst s/'96. There are a lot of signs pointing upward. LY they lost 59 sts to inj, were -8 in TO's, had poor off (17.1) and def (13.3) ypp's, had a Stock Market Indicator of 3.5 (pg 27) and this year have 15 ret sts and a 2nd yr starting QB. They also played a school rec 10 true frosh in '11. While OSU avoids USC, they draw Wisc and BYU in the non-conf but still have a solid shot at returning to the post season.

First meeting. OSU lost LY in OT to an FCS opp but 14 players made their 1st career starts and they played a school rec 8 True Fr. Colonels went 1-10 LY incl losses to WMich (38-7) & Louisiana (38-21).

OSU is 0-2 vs UW incl LY's shutout. The Beavers ran just 18 (28%) of their 65 plays in Badger territory (just 2 in the RZ). Into '12, OSU is on a 1-7 run vs non-conf foes (beat Louisville '10).

Bonus: The Beavers are 2-11 in AG's vs non-conf foes S/'03.

OSU is 1-3 in trips to the Rose Bowl. LTH OSU had a 14-7 2H lead but allowed a 20pl drive late 3Q to tie it. UCLA went 49/8pl nailing a 51 yd GW fg as time exp'd (OSU's L/4 poss ended in 3&outs).

OSU has not lost in Tucson S/'97 (5 str winning visits). LTH was just a 2 pt gm but OSU never trailed leading by 9+ three times. Into '12, OSU is 2-7 on the Pac-12 road (only wins at UA & WSU).

The Beavers are 6-2 vs the Cougars but the 2 losses both came in Corvallis. LY's gm was tied 14-14 mid-2Q but OSU opened it up w/20 unanswered. OSU is 18-7 their L/25 P12 HG's.

This will mark only OSU's 3rd trip to Provo (1-1). The Bears did win LTH 10-7 but that was in 1986. LY OSU trailed wire to wire & their final td was w/:23 left.

OSU started the series 8-2-1 but are just 1-4 the L/5 meetings. LY the Beavers trailed 24-0 into the 4Q as they missed a fg, were SOD at U37, int at midfield and int at U21.

Visitor has dropped 3 str but OSU is 7-1 vs UW. LTH both schools blew plenty of chances for a win in reg (0 pts in 4Q). OSU elected to go for the W in the 2OT after the td but Katz's 2 pt conv pass fell inc.

LY QB Mannion broke OSU's rec for comp/att (40-66). OSU led 13-0 but ASU scored 3 td's in a 6:16 span prior to HT. OSU trailed 21-20 mid-3Q but mustered just 84 yds as their L/6 drives ended on 3 punts and 3 ints.

OSU last dropped 3 str vs SU from 1993-'95. LTH OSU was shutout in P12 play for the 1st time S/'02.

LY in San Fran, OSU only trailed 14-6 at HT. In the 2H OSU was shutout but fum at the C3 and int'd at C4 & C20.

116th Civil War. Series has been played every year S/'45. LY the game was tied 7-7 but OSU then allowed 35 str pts. The Beavers have dropped 4 str vs the Ducks by an avg 19 ppg.

WASHINGTON HUSKIES

C Drew Schaefer

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In 2007 rFr Jake Locker (PS#8) became the first UW QB to start his 1st career game s/'70 (Sonny Sixkiller). Locker hit just 47% in '07 (14-15) then was OFY in the 4th gm of '08. Steve Sarkisian brought in a pro-style pass attack and Locker went from running once every 1.7 passes in '08 to once for every 3.5 in '09. Locker threw for 2,800 (58%, 21-11) in '09. He turned down being a possible top 10 NFL DC in '10. Sarkisian's goals were 62% and to improve Locker's ratio to a 3-1 avg but he threw for 2,265 (55%, 17-9) leaving as a #1DC. Bkp rFr Keith Price had 164 yds (51%, 2-0). Price (PS#87) was solid in the spring and I speculated he could actually improve upon Locker's stats. Price threw for 3,063 (66.9%) while setting the UW record for td passes with 33 (11 int), bettering Sarkisian's Sr year projections for Locker. He didn't start vs Oregon St (inj) and Nick Montana threw for 226 (57.1%, 3-2) on the season before transferring. Price (now healthy after sprains to both knees LY) returns and added to the mix are rFr Derrick Brown (PS#42), Thomas Vincent (PS#174), Wil Smith (6'2" 194 rFr) along with PS#5 and #14 true frosh. Price won't improve much upon LY's stats but this unit is vastly more experienced than it was going into '11.

RUNNING BACKS - UW had seven 1,000 yd rushing ssns (4 diff ply'rs) from 1989-97 and after a 9 yr drought, Louis Rankin had 1,294 (5.6) in '07. In '08, UW's RB's were banged up (no RB ply'd more than 9) and the leading rusher had 338 (4.5). In '09 rFr Chris Polk (PS#18) became the first ever UW frosh to top 1,000 with 1,113 (4.9) despite a shoulder injury (2H yr). In '10 Polk had the 2nd best game here with 284 vs WSU (Hugh McElhenney 296 vs WSU'50). He had 177 in the bowl to finish with 1,415 (5.4). True frosh Jesse Callier (PS#93) had 433 (5.6). LY those 2 ret'd and vs Arizona Polk became the first UW player to have 100 yd rushing and 100 yd receiving in the same gm. He finished #1 with 1,488 (5.1) and had 332 rec (10.7). Callier had 260 (5.5) while true frosh Bishop Sankey (PS#38) added 187 (6.7). Not listed in the PSL are Antavius Sims (6'2" 205 Jr, PS#164JC) and Cole Sager (5'10" 212 Sr). Polk left early for the NFL (UFA PHI) leaving a huge void in this unit.

RECEIVERS - UW had everyone back in '10 and Jermaine Kearse led with 1,005 (16.0) while D'Andre Goodwin was #2 (530, 12.0). Devin Aguilar (banged up) dropped to 352 (12.6) after recording 593 (14.1) in '09. True frosh James Johnson (PS#58) was #3 (422, 10.8). LY they only had to replace Goodwin and added PS#1 TE (IFS) and PS#8 WR true frosh. Those 2 VHT's lived up to their potential as TE Austin Seferian-Jenkins was #3 with 538 (13.1) and Kasen Williams came on down the stretch and finished #4 with 427 (11.9). Kearse had a monster bowl (198, 39.6) propelling him to #1 (699, 14.9) with Aguilar #2 (611, 14.9). Seven players had 200+ yds. This year they lose Kearse (12 st) and Aguliar (8 st) but return Cody Bruns (PS#34) who RS (7 rec '10) as well as those talented true frosh who now have a year under their belts. Despite losing their top 2, this unit could be even stronger.

OFFENSIVE LINE - With a mobile QB behind center in '07 (Locker 986 rush yds, 5.7) UW had their best ypg rush (203) s/'00 and their best ypc (4.9) s/'90. They had 4 st'rs back in '08 but plummeted to 99 ypg rush (2.8, 31 sk) with Locker and various RB's hurt. In '09 they had to replace 2 st'rs but improved to 139 ypg (4.3, 28 sk). In '10 they had 4 st'rs back (88 car sts) and improved to 172 ypg (4.7, 24 sk) despite 7 diff starting lineups. LY they had to replace a 4Y and 3Y st'r along with a bkp (7 st). They had 3 st'rs back and 6 VHT's (61 car sts). UW's rush yds dropped to 154 ypg (4.4, 34 sk) as QB Price had just 10 yds rush (Locker 385 '10). They did have 2 soph and a rFr as st'rs and 4 OL started all 13. LT Senio Kelemete (13 st, 3Y st'r, #5DC ARZ) became the first UW OL to earn 1st Tm All-conf honors s/'01 but he departs along with Nick Wood (2 st, 5 gm) and RG Colin Porter (13 st) who suffered a career ending shoulder injury. They have 3 st'rs back (62 car sts) making them about as exp'd as LY but their rush numbers may depend on who is replacing RB Polk.

DEFENSIVE LINE - UW has produced a lot of top-notch DL's incl Steve Emtman, Jason Chorak and Larry Tripplett. In '08 they were inexp'd and undersized with 4 true frosh. They were overmatched and yielded a ghastly 241 ypg (worst s/'75) and a UW rec 5.7 ypc. They had 5 w/st exp back in '09 and improved to 149 ypg (4.5, 29 sk). In '10 UW's DL was inexp and regressed to 190 ypg (4.7, 28 sk). LY they had 6 back w/ st exp and added in UCLA transfer Josh Shirley (PS#16). The Huskies had a pair of 330+ lb DT's (Semisi Tokolahi & Alameda Ta'amu). I thought UW would have its best def rush ypc s/'06 but instead they allowed 309 rush (5.6) to Neb, 446 (10.1) to Stanford, 482 (9.3) to Baylor and as a result DC Holt and 2 other D asst's were fired after the bowl. TY they lose DE Everrette Thompson (13 st, 41 tkl, 2 sk) and HM P12 DT Ta'amu (13 st, 30 tkl, 3.5 sk, #4DC PIT) but return 3rd Tm Fr AA Shirley (8.5 sk) who started 7 LY. New DC Wilcox had Shirley playing a hybrid OLB/standup DE role in the spg as the Huskies gradually move to a 3-4 scheme. I look for continued improvement from the UW front who also get the nice coaching and recruiting upgrade of DL cch Tosh Lupoi (L/4 yrs at Cal).

LINEBACKERS - In '09 UW got back EJ Savannah (#1 tkl'r '07, miss '08) as well as their #1, #3 and #4 tkl'rs. UW trimmed their ppg all'd from 38.6 to 26.7. In '10 they had to replace their #1 tkl'r (#3DC) and Savannah (#6 tkl'r) but did return their #2 and #4 tkl'rs. They slipped to 29.3 ppg. LY they lost 1st Tm P10 OLB Mason Foster (#3DC) who was #2 in the nation in tkls (161, 12.5 tfl). Also gone was UW's single season tfl leader Victor Aiyewa (12 st, #4 tkl'r, 18 tfl). They ret'd their #3 tkl'r but the rest of the LB's had a comb 20 tkl. Their ppg rose to 35.9. TY they lose 1st Tm P12 MLB Cort Dennison (13 st, #1 tkl'r w/128, 8 tfl) but return 5 of their top 6 making them much more experienced.

DEFENSIVE BACKS - In '05 the Huskies allowed 24 td passes (most UW hist) and in '07 re-broke the record allowing a 27-11 ratio (#93 in my PDR). UW's DB's were banged up in '08 (#113, 24-7) and '09 (#92, 16-8). In '10 they ret'd 8 who st'd in '09 and added true frosh Sean Parker (PS#14). I called for UW to have their best PDR in yrs and they rose to #46 (194 ypg, 60%, 15-12). LY they had to replace a 2nd Tm P10 SS but had 7 of the top 8 back. While they were 11th in P12 pass D all'g 285 ypg (62.8%, 22-10), they finished #54 in my PDR because they took on the nation's 2nd toughest slate of QB's (Luck, Griffin, Barkley). This year they lose CB Quinton Richardson (8 st, 40 tkl, 5 pbu) but return 6 who have st'd 4+ including HM P12 CB Trufant (16 pd). They are on par with '11 in terms of experience and should cut down the ypg.

SPECIAL TEAMS - Former HC Ty Willingham inherited a group that was just #105 in my ST rankings in '04 and his four units finished #102, #95, #91 and #113. Sarkisian's first two units were #84 and #101. LY P's Kiel Rasp and Will Mahan avg 43.5 (40.3 net!). Erik Folk improved to 8 TB on 76 KO and also hit 11-16 FG (L53, 10-13 from 40+). Kevin Smith and Jesse Callier helped the tm avg 23.3 on KR. This yr they lose outstanding K Folk as well as both P's and figure to take a step back from their solid #49 finish of 2011.

COACHES - Steve Sarkisian took over in '09 after 7 yrs at USC with a 1 yr stint with OAK as the QB coach in '04. He spent '07 and '08 as asst HC/OC with the Trojans (QB cch 1st 5Y). After taking over an 0-12 team they went 5-7 in his first yr but have now two B2B bowls for the 1st time s/'02 since. The new OC is Eric Kiesau who previously served as a pass gm coor/WR cch with Cal ('11, '02-'05) and Colorado ('06-'10) where he took over as the OC the L2Y. The D struggled LY and will field an entirely new cch staff in '12, headed by the high profile hire of DC Justin Wilcox. Wilcox was previously the DC for Tennessee ('10-'11) and Boise St ('06-'09).

PHIL'S FORECAST

The Huskies, thanks in part to probation (low scholarships), had a streak of TWENTY-SEVEN non-losing seasons snapped in '04. The Huskies then had 6 straight losing yrs incl Sarkisian's 1st ssn of '09. I mentioned in the '09 magazine that coming off an 0-12 season in '08, UW was probably the most improved team in the NCAA but due to facing my #16 tough sked, I did not put them on my Most Improved List (I expect those tms to be in bowls). Their jump from 0-12 to 5-7 included upsets of #3 USC and #19 Cal and was the biggest jump s/'70 when Sonny Sixkiller led them from 1-9 to 6-4. UW did make my Most Improved List in '10. Of the BCS conf teams, only Duke and Baylor had longer droughts without a bowl. UW did need to win their last 3 to get to a bowl. They had been blown out by Neb 56-21 at home during the reg ssn but upset Neb 19-7 in Jake Locker's final gm in the Holiday Bowl. LY the Huskies had 14 ret sts and while they lost the #8 pick in the draft, I felt they could have improved passing numbers. UW was fortunate to get past defending FCS Champ EW (outgained 504-250). After beating Hawaii 40-32 they lost by 13 in their 3rd match vs Neb in a little over a year. Cal was SOD at the UW2 with :21 in a 31-23 win. After whipping Utah 31-14 on the road, UW beat a banged up Colo tm at home to move to 5-1 (best start s/'01). UW was #22 and only trailed 17-14 in the 2Q vs #7 Stanford but were rolled 65-21. After trailing Ariz 10-0, they rallied for a 42-31 win. Oregon did have a big game vs Stanford on deck and in the last gm at Husky Stadium (prior to renovation), UW lost to the Ducks by 17. They then lost to USC by 23 on the road and did not have QB Price vs Oregon St until late and lost by 17. They did beat Wash St by 17 in the Apple Cup for their 7th win and led Baylor 35-24 at the half but lost a shootout (closer than final) in which they all'd a UW rec 777 yds. On the positive side, UW has 13 ret sts incl QB Price but did lose RB Polk. On the negative side, they had an off ypp of 12.3 (65% chance weaker rec). They draw USC out of the South, have 5 P12 AG's and despite their 5-4 conf record LY they were -20.9 ypg. They also play all of their 2012 HG's at CenturyLink Field (Seahawks stadium) during the renovation. Facing LSU, Stanford, Oregon and USC in the 1H of the ssn, this season may echo 2010 where a strong 2H gets them to a bowl even though they have 4 road trips in their final 6 wks of the season.

WASHINGTON ST COUGARS

LT John Fullington

POSITION OUTLOOK FOR 2012

QUARTERBACKS - The Cougars have had a storied history of QB's including 1st Rd DC's like Drew Bledsoe, Ryan Leaf and Jack Thompson. Alex Brink left after '07 as the career passing leader (#3 Pac-10). The Cougars struggled to replace him the next 2 yrs. They avg 320 ypg passing in '07 but in '08, using 4 diff QB's, avg just 146 ypg (53%, 6-21), their lowest ypg in over 2 decades. In '09 Jeff Tuel (PS#77) became just the 2nd true frosh to start here (Bledsoe). Tuel burned his RS in wk 4, started 5 (789, 59%, 6-5) but then missed the L/3 with a dislocated kneecap. Marshall Lobbestael (PS#124) had 3 sts in '08 (571, 52%, 4-4) and 3 sts in '09 (655, 47%, 3-8). Tuel had a fine yr as a soph in '10 throwing for 2,780 (60%, 18-12, #3 rush) while Lobbestael played in just 6 (7-15-61). LY Tuel didn't start the opener (flu) but came in during the 1Q and was lost to a broken clavicle. Lobbestael threw for 361 (5 td's) vs UNLV with Connor Halliday also chipping in 110 (2 td's). After 3 gms, Lobbestael was actually leading the Pac-12 in pass efficiency. Tuel ret'd to the starting lineup vs Stanford but was re-inj'd vs OSU and was OFY. Halliday threw for 494 vs ASU, just 37 shy of Alex Brink's WSU record but in his first st a wk later vs Utah he threw 4 int's in a 3 pt loss, Halliday ply'd most of that gm with a lacerated liver which ended up costing him the rest of his ssn. Lobbestael st'd the finale and finished with 2,584 (61%, 19-8). He had an interesting career as he had replaced a QB or been replaced in non-garbage time situations 19 times and departs. Tuel should have a fine senior ssn and put up improved numbers in Mike Leach's pass happy offense (19-21-285 in spg gm) while Halliday, David Gilbertson (6'1" 201 Jr) and Cody Clements (6'1" 197 rFr, PS#77) are solid backups.

RUNNING BACKS - Dwight Tardy became the first Cougar RB to lead the team in rushing 4 straight yrs ('06-'09) but his totals were just 667 (4.6), 676 (4.7), 481 (3.6) and 417 (3.9). In '09 Logwone Mitz (PS#136) had 160 (3.0) and true frosh Carl Winston added 142 (3.9). In '10 they had to replace Tardy. Cal transfer James Montgomery (PS#21, inj '09) led but with just 478 (3.9) while Mitz was #2 (263, 3.6) and Winston #4 (90, 3.2). LY they had to replace Montgomery but I expected big things from diminutive rFr Rickey Galvin (PS#120) who broke his arm on his first carry in the '10 opener. No WSU RB totalled more than 88 yds in a game (Galvin vs UCLA) but Galvin's 602 (5.3) was the best total here s/'07. Carl Winston had 442 (3.6) while true frosh Marcus Mason (PS#238) was #3 (153, 8.1). TY they only lose Mitz (1 st, 135, 3.8). The top 5 RB's in the spring were all 5'9" or shorter (Leach said they all looked the same from behind). While I doubt they'll get a 1,000 yd rusher in Leach's Air Raid, this unit is much more experienced.

RECEIVERS - The top 3 rec's ret'd in '10 plus they got the huge addition of 6'4" Marquess Wilson who instantly became their best offensive player. While Jared Karstetter led again in rec's (62) he was #2 in yds with 658 (10.6). Wilson led (#2 P10 rec ypg) with 1,006 (18.3!). He was the first frosh and 9th WSU WR to hit 1,000. Daniel Blackledge (212, 9.2 in '09) was #3 (456, 15.2). LY Wilson's numbers improved to 1,388 (16.9) with 12 td's (#6 FBS rec ypg) while Karstetter was #2 (700, 11.7). Isiah Barton (165, 8.7 '10) was #3 (638, 13.0) and rFr Bobby Ratliff (PS#160) was #4 (348, 12.4). TY they lose Karstetter (12 st) and Barton (8 st). Despite the loss of their #2 and #3 rec's, I look for improved numbers with Leach touting rFr Dominique Williams (PS#236) in spring and Wilson will contend for the FBS rec yds title.

OFFENSIVE LINE - For years WSU was hit with inj-plagued O-lines causing poor rush numbers with just 95 ypg (2.7) in '08, 71 (2.4) in '09 and 91 (2.6) in '10. That '10 unit also all'd 51 sks (#119 FBS, 13.3%). LY they had to replace a 2Y C (#6DC) and a 3rd Tm P10 RT (4Y st'r). I wasn't exactly going out on a limb LY calling for them to put up improved rush numbers and they accomplished that small feat improving to 100 ypg (3.1, 40 sks, 8.1%) despite losing Wade Jacobson after 4 sts (11 st '10). TY they lose HM P12 LT David Gonzales (11 st, 2Y st'r), HM P12 RG BJ Guerra (12 st, 3Y st'r) and C Andrew Roxas (12 car st). They go from 67 car sts to 57 and now will use Mike Leach's blocking splits (all'd 9 sk in spg gm) but with 3 who started 7+ LY and the return of Jacobson, they could show continued improvement.

DEFENSIVE LINE - When I think of Wash St, I think of fierce pass rushing D-lines as the Cougars always had a top-notch unit under former HC/DC Bill Doba. Even in '07 when the unit was hit hard by inj's, they yielded just 163 ypg (3.9) which was their "worst" s/'00. In Wulff's first season ('08) they had to replace 3 DL (comb 20 st). The unit was again hit hard by inj but it was surprising that they dropped all the way to 248 ypg and 5.8 ypc (4.5 prev high 1991!). In '09 they had to replace 3 st'rs, yet again were hit hard by inj's and allowed 236 ypg with a ghastly 5.9 ypc. Despite 4 ret sts in '10, they only improved to 220 ypg (5.6, 23 sk). LY they had to replace 3 DL (comb 21 sts) but had 3 back with 8+ car sts. I said they should continue to show improvement and they made major strides (157 ypg, 4.4, 17 sk). TY they lose HM P12 DT Brandon Rankin (9 st, 20 tkl, 2.5 sk) and move DE Travis Long (12 st) to LB so they have 2 returning starters to the new 3-man front.

LINEBACKERS - LY WSU had to replace one st'r but had 4 of the top 6 back. CJ Mizell (PS#23) was in the doghouse (poor spring) but rededicated himself and started 9. With 2 st'rs back, they improved slightly from 35.8 ppg to 31.8. This year they lose Mizell (9 st, #4 tkl'r, 2 sk, dismissed), 2nd Tm P12 WLB Alex Hoffman-Ellis (12 st, #1 tkl'r, 11 tfl) and Mike Ledgerwood (3 st, 28 tkl). Sekope Kaufusi (6 st, #6 tkl'r) was also previously dismissed from the program but Leach hinted that he may have a chance to return. Interestingly, they signed 4 true frosh LB's LY but walk-on Cyrus Coen was 1 of only 2 true frosh to start after Darryl Monroe (PS#160) tore his Achilles in the opener. This year they have 0 ret LB st'rs (assuming Kaufusi doesn't return) but move in DE Long to a LB/DE hybrid spot in the new 4-man group. The defensive front 7 is my biggest question mark on the 2012 squad.

DEFENSIVE BACKS - In '09 this unit was hit hard by inj's and finished #108 (67%, 21-10) in my PDR. In '10 they had to replace 2 st'rs (#2 tkl'r) but did have 6 back w/st exp. Their st'rs at the end of the year were a Jr, a soph, a rFr and a true frosh as the only Sr missed 5 (inj). The Cougars finished #105. LY they ret'd 7 of their top 8 but surprisingly finished just #108 (64.2%, 24-8). TY the entire 2 deep returns and I'll call for significant improvement in my PDR.

SPECIAL TEAMS - The Cougars were #100 in my ST rankings in '07 and in Wulff's 1st 2 yrs (lack of depth) were #106 & #116. WSU had improved to #51 in '10 but without their specialists dropped to #101 in '11. LY Andrew Furney took over at K and hit 14-16 (long 51) but did not match Nico Grasu's leg on KO's as they had led the nation in KR defense in '10 (17.0) but Furney and Alex Gauper comb for just 1 TB on 70 KO (23.7 KRD) LY. Former QB Daniel Wagner took over at P and avg 40.8 (36.8 net). This year they lose their P and top KR but do add Mike Bowlin (PS#111JC, previously at Oregon) who has a strong leg. While not an overwhelming group, WSU should have a good sized climb up my ST rankings.

COACHES - The turn of the century looked to be a promising time in Pullman as the Cougars had B2B2B 10 win seasons ('01-'03) under Mike Price ('89-'02) and Bill Doba ('03-'07). Doba averaged what seemed at that time a disappointing 6 wins per season and was shown the door in '07. Paul Wulff was hired in '08 and LY was his best season at 4-8 as Wash St was just 9-40 in his 4Y tenure. The university opened their checkbook and made a splash by hiring Mike Leach. All Leach did as a HC at TT was continuously outperform expectations getting the Raiders to a bowl game in all 10 of his seasons. Leach calls his own plays for the Air Raid offense. Mike Breske has more than 30 yrs of exp and will be the DC which he was most recently at Montana ('10-'11), North Dakota St ('09) and Wyoming ('03-'08).

PHIL'S FORECAST

Younger readers will find this hard to believe but WSU had the 2nd best record among Pac-10 schools from '01-'04 at 35-14 and actually finished #10 in the final AP poll in '01, #10 in '02 and #9 in '03! The fall has been gradual and difficult before bottoming out with a 4-32 record the L/4 yrs in P10/12 play. In Paul Wulff's first year ('08) they went 2-11 overall (1-8 P10, -273 ypg) with an upset of UW (2OT) keeping them out of the cellar. In '09 they dropped to 1-11 and 0-9 P10 and were -260 ypg (217 ypg worse than #9)! In '10 the Cougars were 1-8 in the conf and 2-10 overall and this time were "only" -140 ypg in the P10. Wulff noted that in "every game right now we're 3 or 4 plays away. We're that close. It wasn't long ago that it was 20 or 30 plays." LY they had 15 ret sts (3rd most P12) and once again made great strides. Their 123 pts in the first 2 were the most in any 2 game span since 1907 as they opened up 2-0. They led 24-14 in the 3Q when they roughed the P and SDSt rebounded for an 18 pt win. WSU went into Colo and got 77 and 90 yd td drives in the last 5:04 and pulled out a 31-27 win. In their 3rd straight AG, they had a 389-371 yd edge at UCLA but lost by 3. They only trailed Stanford 10-7 at the half but lost by 30. At CenturyLink Field (Seattle) for a HG vs Oregon St, they got back QB Jeff Tuel but he was inj'd again and they lost by 23. They only trailed Oregon 15-10 at half in Autzen and only lost by 15. In steady rain at Cal, they trailed 30-0 at one point having 61 yds in pen's and 55 yds in offense and lost 30-7. Versus ASU they lost QB Lobbestael early in the 1Q but rFr Halliday threw for 494 yds on a wet, snowy day vs a warm weather tm to upset the Sun Devils 37-27. They were 4-6 and still had a shot at a bowl when they lost in the snow to Utah (OT) starting their 3rd string QB who ply'd with a lacerated liver. In the season finale, they lost to UW by 17 and Wulff was fired and Mike Leach was brought in. While WSU only improved to 2-7 in the P12, they made great strides (-39.4 ypg). They have 14 ret sts TY and also have some solid QB's to plug into Leach's pass happy offense. Leach got TTech to a bowl in all 10 ssns and has a shot at keeping that streak alive here.

WSU is 2-0 vs EW w/2 shutouts but L/gm was in 1908! While a HC at TT ('00-'09) Leach beat EW 49-24 in '08's ssn opener. Eagles went 6-5 LY (lost 30-27 at UW) after being FCS Champs in '10.

WSU is a perfect 5-0 vs UNLV with their last and only trip to Las Vegas in 1991, a 40-13 win. LY Washington St hammered UNLV allowing just 158 yds (lowest ttl since 125 by Colorado in '04).

WSU is 3-4 vs CU (all gms after 1981). LY WSU trailed 27-17 w/5:11 left but went 77/7pl for a td & 90/5pl hitting a GW 63 yd td pass w/1:10. The win was secured after WSU rec a fum at their 38 w/:55.

WSU's 5 str losses are the most in series by either tm. LY WSU only trailed 15-10 at HT but could not get any closer than 9 in the 2H. WSU outgained UO which marked the 1st tm to do so at Autzen S/'09.

The visitor is 5-1 (WSU is 10-5 S/'77 in Corvallis). LTH WSU snapped a 16 gm conf losing streak. Cougars led 21-0 mid-3Q (258-138 yd edge) & maintained a DD advantage the entire 2H.

While the HC at TT Leach beat Cal in the '04 Holiday Bowl 45-31. LY WSU trailed 30-0 after 3Q's as their only score came early 4Q after a Cal fum. Into '12, WSU is just 6-29 S/'04 hosting Pac-12 foes.

Bonus: Washington St has dropped 16 str vs ranked foes by an avg 29 ppg.
Bonus: Into 2012, the Cougars are 3-19 L5Y on the P12 road.

WSU is 1-6 in trips to Tempe (4 str losses). LTH WSU lost 42-0, in fact they have been shutout their L/2 visits.

WSU is just 4-10 in the Apple Cup. LY WSU trailed 14-0 but cut the deficit to 21-14 at HT and 28-21 after 3Q's. In the 4Q WSU tossed a costly int at the W8, punted twice and were stopped (time) at W42.

PHIL STEELE'S 2012 BIG EAST FORECAST

1. USF - A quick check of LY's standings show USF at the bottom of the conf at just 1-6 and you would think they were one of the BE's weaker teams. On the contrary, USF was +26.4 ypg in BE play (#2 of returning BE members) and in their 6 losses, they had 2H leads in FIVE of them. LY's squad had just 11 returning starters while this year's group has 15. Skip Holtz always had his units overachieve at E Carolina and should show that '11 was an aberration. With the Bulls having just 3 BE away games this year, they get my call to win their first ever conf title and BCS bowl berth.

2. LOUISVILLE - The Cardinals figure to be the preseason favorite to win the BE this year as they narrowly missed out on the title last year despite starting the season 2-4. They had 24 starts lost to injury LY, have 15 returning starters (only 10 LY), get 4 BE games at home including a vital one vs USF and have the league's top QB in Teddy Bridgewater. They are also the BE's most veteran team (77% lett ret). UL was -31 ypg in BE play LY but this is clearly HC Strong's best team in his 3rd year giving them a great shot at the Title.

3. RUTGERS - Had Rutgers not lost HC Greg Schiano I may very well have picked them 1st in the BE this year. They will be led by a dominant defense which has my #2 D-line, #1 LB and #1 DB's in the league plus my #2 rated O-line. In fact they rank in the top 2 in 6 of the 9 categories on the next page. RU has 4 BE AG's (3 vs my projected top 4) and LY only had 5 starts lost to injury but they remain a clear contender for the league title.

4. PITTSBURGH - There is no doubt this Panther team has talent. In fact, their +55 ypg LY in league play is #1 in the conf among returning team's. With RB Ray Graham and a veteran QB, Pitt could challenge USF as the best offense in the league and also has one of the top D's. They are a team that had 3 net close losses LY, had 30 starts lost to injury and this year returns 14 starters. I would easily have picked Pitt higher in the BE standings but technically they're on their 6th HC in the last 15 games and switch schemes on offense from the spread back to the pro-style attack once again. This is a dangerous, talented team in the Big East with 2 of my 9 sets of power ratings calling for them to go 6-1 in BE play but due to the coaching turmoil, I will pick them here. Pitt does make my Most Improved List.

4. CINCINNATI - UC was a little on the fortunate side last year as they were +12 in TO's, had 2 net close wins, recorded beneficial offense and defensive ypp's (see pg 309) and despite their 5-2 BE record, were actually -10.8 ypg, the 5th best. This year they have just 11 returning starters, the 2nd fewest in the league and return just 67% of their lettermen (3rd fewest). They also lose the 2nd most All-Conf players of any team in the league. Even with all that said, the Bearcats do have 4 BE HG's (3 on the road) and plenty of talent with 5 of their 9 positions ranking in my top 3 in the BE. While they won't match LY's 10-win total, UC is a legitimate contender in a wide open BE.

6. CONNECTICUT - Paul Pasqualoni did not step into a good situation last year as Conn was coming off a BCS bowl in a season where they were -86.1 ypg in BE play. This time the Huskies, with their new HC and trying to learn new schemes on both offense and defense, were -111.1 ypg in the BE (last) but still finished a respectable 3-4. This year they get solid additions at QB and WR which will make their offense far more explosive. Their D is even stronger, as in fact I rate it in the upper half of the Big East. Five of my 9 sets of power ratings call for the Huskies to be bowl eligible this year.

7. SYRACUSE - Doug Marrone has had the Orange outperform my expectations in each of his 3 years. They have still finished in the basement of the BE in 2 of those 3 years and this year have just 12 returning starters with their 66% lettermen returning being the 2nd fewest in the league. My main set of power ratings does call for the Orange to go 3-4 in the Big East but the rest of my power ratings and my personal opinion see them a notch below that. If Marrone gets this group to overachieve again, they could very well find themselves in the postseason.

8. TEMPLE - Temple was arguably the best team in the MAC the L/3 yrs but did not win a single conf title. They did, however, make it to a couple of bowl games and dominated Wyoming in last year's New Mexico Bowl. Temple will struggle with their step up in competition to a BCS conf as they have just 8 returning starters (3 fewer than the next closest Big East team). They are by far the most inexp'd team in the league but Coach Steve Addazio will have them performing to their highest potential and there is decent talent here. Temple does get 4 of the BE games at home with just 3 on the road.

Pittsburgh
WR Mike Shanahan

BIG EAST NOTES: Next year Boise St and San Diego St will join as football only members while SMU, Houston, UCF and Memphis will join in all sports. Navy will join the Big East in 2015. Temple was a very late move this year coming in from the MAC after West Virginia left early for the Big 12. Pitt and Syracuse will depart for the ACC next year. The Big East was 26-14 in non conf play LY but 8 wins were vs FCS. They were 4-10 vs AQ conf's but 14-4 vs non AQ conf's. They did land 5 bowl bids and went a solid 3-2 in those with wins over SEC, Big 12 and ACC tms. Two team finished in the Top 25 and they had 12 players selected in the NFL draft (tied for 6th best). From the original 8 Football Big East teams, 6 will have left after '12 (5 to ACC, 1 to Big 12) and only Rutgers and Temple (kicked out but now back in) will return for '13.

USF BULLS

DT Cory Grissom

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Matt Grothe (PS#55) started as a rFr and finished as the #2 career passer here. He would have been #1 but after breaking the BE career record for ttl off (Pat White WV 10,875) he tore his ACL in gm 3 of '09. RFr BJ Daniels (PS#76) took over and had a roller coaster season. In Daniels' first start he threw for 215 (126 rush) and led the upset of Fla St. He alternated good and bad gms and in USF's losses hit 48% (126 ypg, 2-7). Daniels finished with 1,983 (54%, 14-9) and accounted for 58% of USF's off (#1 rush, 772, 4.4) despite not starting until Wk 4. In '10 Daniels once again had his moments with his worst being momentum changing int's just before the half vs Florida and WV. Daniels threw for 1,685 (58%). He opened with a 4-10 ratio (7-3 after) but was the bowl MVP. He rushed for 259 (2.3) despite a lingering quad inj. Bobby Eveld did a great job running the scout tm in practice so it was no surprise to HC Skip Holtz when he took over for the inj'd Daniels in the 2H vs Miami and led them to the win. Eveld made his first career st vs Conn (22-41-195, 1-3). LY both ret'd and Daniels had his best season throwing for 2,585 (58.9%, 13-7, 601 rush). Daniels had a stretch of 129 passes without an int and also set a USF record with 409 yds vs Cincy. Daniels had 371 total yds vs Syr but was inj'd a little over 5 min into the 3Q vs Miami. Eveld hit 5-9-36 yds in the 2H and started vs L'ville (20-35-210). Daniels ret'd vs WV but hit just 21-44-226 with a crucial pick six and also fumbled on a late drive. Adding depth to the unit is Matt Floyd (6'1" 201 rFr, PS#91). This year both QB's return and Daniels should have his best year yet.

RUNNING BACKS - From '06-'09 this unit was hit by inj's and lacked production. The leading RB rusher in '06 had 436 (3.6), '07 645 (4.7), '08 407 (4.0) and '09 581 (4.5). Moise Plancher was the top rusher in '09 and was awarded a 6th yr. In '10 two bkps quit and Demetris Murray (PS#90), who had 77 (5.5) in '09, emerged with 115 vs WKU and 106 (8.2) vs L'ville and finished #2 (542, 4.5). True frosh Marcus Shaw (PS#69) had 105 (8.8). LY they added in VHT Darrell Scott (PS#1) who had 438 (4.0) in 2 yrs at Colo. They had to replace their top guy Plancher (793, 4.5) but Scott, despite inj's, rushed for 814 (5.3) which was the most for a RB here since Andre Hall (1374, 5.1) in '05. Murray added 503 (4.2) while QB Daniels was #2 and WR's were #4 and #5. Not listed below is Willie Davis (5'9" 203 rFr, PS#70). This year Scott left early for the NFL (UFA DAL) and Murray will team with PS#84JC Michael Pierre while Tye Turner (6'3" 255 So, PS#215) and WR Lindsey Lamar (174, 1 st RB '09) may also get a look. USF's RB unit should be just as strong.

RECEIVERS - Former HC Jim Leavitt's rec corps were usually filled with size and speed. In '10 they had to replace their career rec leader and then AJ Love (#2, 489, 18.8) tore his ACL and Sterling Griffin (#4, 265, 18.9 '09) also RS due to inj. Just 1 of their top 6 was back. Holtz called the unit "the land of the misfit toys" as 3 of the top guys were moved from other positions like former QB Evan "Sure Hands" Landi who was #2 (390, 13.9). Lindsey Lamar was one of the nation's Top 5 HS sprinters and finished #3 (161, 6.4). LY they did have to replace their top guy (685, 14.6) but had 4 of their top 6 back and also returned Griffin and Love. Griffin was on pace for a record setting year (40 rec F/7 gms) when he missed 4 (inj) but still led with 530 (12.3). Deonte Welch was #2 with 433 (14.0) and Victor Marc (PS#59QB) was #3 (357, 10.8) while Landi was #4 (297, 10.2). Ten players topped 100 yds. This year they lose Love (6 st, 122, 13.6) and Joel Miller (6 rec) but return 9 w/st exp and add in 2 VHT's as well as VHT Florida transfer WR Chris Dunkley (PS#11) and are also deep at TE incl former QB Isaac Virgin (6'4" 256 Jr, PS#165) and Jeff Hawkins (6'4" 261 Sr, PS#68) who missed LY (ACL). The Bulls should have one of the BE's stronger receiving corps.

OFFENSIVE LINE - In '10 USF had 4 st'rs back and maintained good health with 4 OL starting all 13. USF still avg'd just 145 ypg (3.9, 26 sk). LY they lost a 1st Tm BE C (2Y st'r), a 2nd Tm BE RT (3Y st'r) and a 2Y starting LT. They had just 2 st'rs back but new LT Mark Popek had 9 car sts and I said they could improve in Holtz's 2nd season. They moved up to 182 ypg rush (4.6) with just 16 sks (3.7%). All 5 OL started all 12. TY they lose 1st Tm BE LG Jeremiah Warren (3Y st'r), 3rd Tm BE C Chaz Hine (3Y st'r) and bkp C Kevin McCaskill (3 gm). While their career sts drop from 62 to 46, they have 3 ret sts (2 LY), add in two JC's (IFS) and could continue their upward trend.

DEFENSIVE LINE - USF is always tough vs the rush with their "worst" showings in FBS ball being 3.9 ypc which they all'd in both '05 and '09. In '08 a George Selvie-led DL all'd just 95 ypg rush (2.8). In '09 they had 3 st'rs back incl Selvie and added PS#3JC Jason Pierre-Paul. Surprisingly their rush D slipped to 135 ypg (3.9, 25 sk). In '10 they had to replace 1st Tm BE Selvie (#7DC), Pierre-Paul (#1DC) and a DT (6 st). They actually improved to 126 ypg (3.5, 30 sk). LY they had to replace 3 st'rs (#3DC). I called for a bigger impact from DE Ryne Giddins (PS#7) who had 2 sts as a rFr (ankle surg '09). Giddins earned 2nd Tm BE and was #3 in sks (5.5). USF improved to 107 ypg (3.0, 39 sk) despite having just 1 st'r ret up front. TY they lose DT Keith McCaskill (11 st, 29 tkl, 4 sk), DE Patrick Hampton (12 st, 23 tkl, 4 tfl) and DE Claude Davis (16 tkl, 6 sk). They do have 5 of their top 8 back making them more experienced and stronger.

LINEBACKERS - In '10 USF had to replace 2 st'rs (#1, #4 tkl'rs). Former HC Leavitt said that Sam Barrington was the best true frosh LB in USF history (1 st, 41 tkl) and that incl players like Ben Moffitt, Kawika Mitchell and Stephen Nicholas. Perhaps their most physically gifted LB was PS#14JC Jacquian Williams (28 tkl '09). Barrington finished as the #3 tkl'r as USF allowed 20.0 ppg. LY they had to replace 2nd Tm BE Williams (13 st, #1 tkl'r, #6DC) and their #6 tkl'r (1 st). They had 2 ret sts (0 in '10) and added JUCO Mike Jeune but USF dropped to 22.7 ppg. TY they lose Curtis Weatherspoon (10 tkl) but return all 3 st'rs (#1, #2, #3 tkl'rs, 35 of 36 sts). I'll call this a solidly improved unit and one of the Big East's top LB corps.

DEFENSIVE BACKS - In '06 and '07 USF had the best CB combo in the NCAA and their 2 shutdown corners all'd USF to blitz often. USF was #21 and #7 in my PDR with an amazing 23 int in '07. In '08 both departed (#1, #5DC's) and USF dropped to #49. They had to replace 2 st'rs in both '09 (#41) and '10 (#56, lowest s/'04). LY they had to replace their top cover CB (#6DC) but had 7 of their top 8 back incl 3rd Tm BE SS Jon Lejiste. Unfortunately starting CB's Quenton Washington and Kayvon Webster collided vs Miami (both conc's) missing 1 st but USF improved slightly to #50 (61.2%, 16-12). TY they lose CB Quenton Washington (11 st, 45 tkl, 9 pd) and 2nd Tm BE FS Jerrell Young (12 st, 51 tkl, 2 int, 2 pbu) but should move up in my PDR.

SPECIAL TEAMS - USF has had some top-notch ST finishes like #17 in my ST rankings in '01, #14 in '02 and #9 in '03. Surprisingly they dropped to #58, #55, #97, #78, #56 and plummeted to #102 in '09. In Holtz's first year they improved to #67 and with everyone back I thought it could be one of the Big East's better ST units in '11. P Justin Brockhaus-Kann (34.2 net '10) almost lost his job (34.7 tm net). Maikon Bonani was 17-21 FG (2 miss 50+) in '10 but hit just 19-26 (L49) while Marvin Kloss had 9 TB on 71 KO. They lost their top PR Terrence Mitchell for the final 8 gms so Victor Marc (crucial fum PR vs Rut) and Evan Landi split the duties. TY the unit returns intact and after LY's disappointing #98 finish, should improve.

COACHES - Skip Holtz came here in '10 after back to back CUSA Titles at East Carolina ('08-'09). He now faces his former Connecticut team (HC '94-'98) annually. Todd Fitch has been his OC for 8 seasons (EC '07-'09, Conn '96-'98). The new DC is Chris Cosh who was previously the DC at both Kansas St ('09-'11) and Maryland ('06-'08).

PHIL'S FORECAST

USF didn't play their first football gm until '97 and were guided by Jim Leavitt from day 1. They joined the Big East in '05 and did not have a losing ssn in that span although in Leavitt's final 2Y they were just 5-9 in Big East play. In '07 they rose as high as #2 at 6-0 but finished 9-4. In '08 they rose to #10 (5-0) but finished 8-5 (-8 in TO's). In '09 they lost star QB Grothe to inj and BJ Daniels' first start was a 17-7 upset of #18 Fla St but he ran hot and cold and USF finished just 8-5. I was high on USF in '10 as Holtz gets the most out of his talent having bagged B2B CUSA Titles despite not having the most talent and he inherited a USF squad that had underachieved. Holtz guided USF to their 6th straight bowl while ending 4 gm series losing streaks to both Cincy and Rutgers. They did have their 3rd straight BE losing ssn at 3-4 and their -43 ypg was 3rd worst but they then beat Clemson 31-26 in the bowl to finish at 8 wins for the 3rd straight yr. Holtz did have just 11 ret sts LY (lost 15 lett fewest BE) while having just 3 BE HG's. USF had just 9 Sr's on the 2 deep. The Bulls became just the 9th tm to win in their first ever meeting at ND (23-20) but were outgained 508-254 in the game. USF dominated Ball St, Florida A&M and UTEP (comb 159-48) and was 4-0 (ranked #16). They were favored at Pitt but were dominated 44-17. Conn got a 10 yd FR td with 7:06 left and pulled out a 16-10 win. Cincy got a td with :12 left for a 37-34 win in a game USF led 27-17 early 4Q. USF had a 381-228 yd edge and led Rutgers 17-3 in the 4Q missing a 27 yd FG with :02 left in reg and losing in OT. At this point, Holtz correctly pointed out that the team was 3 plays away from being 7-1. They blasted Syracuse on a Fri night, 37-17, but then Daniels was inj'd in the 3Q vs Miami (lost by 3). They led Louisville 17-10 at half but lost at home by 10. USF led WV 27-20 but gave up a 52 yd IR td and 90 yd KR td in a 30-27 loss (USF 397-364 yd edge). USF also had a key fumble on FD at the WV28 when they were driving to take the lead (3:02 left). It was the Bulls first losing season s/'04. TY they are a much more exp'd group with 15 ret sts and despite their 1-6 BE rec LY they were +26.4 ypg. They also had 4 net close losses giving them a 91.4% chance of improvement (pg 309). USF makes my Most Improved List and gets my call to earn their first ever Big East Title, to finish the ssn ranked for the first time and to land in a BCS bowl.

First meeting. The Bulls are 5-1 the L6Y in road openers (6-9 all-time). USF joined the BE in '05 and since are 9-4 in non-conf away gms (9-1 run, only loss at #8 Florida ('10) in that span).

HT has won 3 str. LY USF led 17-3 w/7:38 left. RU had a 98 yd KR for a td, forced 2 punts and got a 34 yd td pass to tie the gm w/1:01. USF missed a 27 yd fg as time exp'd and lost in OT after an int.

LY was the schools only prior gm. The Bulls led 37-0 with a 30-8 FD and 486-132 yd edge after 3Q. Cardinals gained 41% of their yds (93) in the 4Q. Into '12, USF is 5-0 in non-conf AG's vs non-BCS opp's S/'05.

The last and only gm was in '09, USF won 17-7. USF led 14-0 into the 4Q. They forced 3 TO's, stopped FSU at their 1 and FSU missed a 44 yd fg. FSU cut the deficit to a TD but a sk/fum led to a USF fg w/3:44 left.

First meeting. Temple had IND status in '05 & '06 and was in the MAC L5Y after being "kicked out" of the BE in '04 (rejoin TY). The Bulls are 9-16 on the Big East road (4-10 L4Y).

Bonus: The Bulls are 1-6 the last 2 yrs in BE HG's (5 str losses by an avg 5 ppg).

USF is 5-4 vs UL (avg MOV by winner is 17 ppg). LTH the Bulls trailed 14-3 late 2Q but were sparked by a 100 yd KR td, eventual winning in OT (USF is 8-1 all-time in OT).

USF is 6-1 but HT has dropped 3 str by 13 ppg. LY USF led 17-10 late 2Q then scored the gms next 13 pts as SU's only 2H score came on a 58 yd td pass w/3:41 left. USF's only loss was by 4 pts (avg win by 24 ppg).

Holtz was the UC HC from '94-'98 (34-23). LY USF led 10-9 but allowed a td off a 10 yd FR w/7:06 3Q. USF also had a fumble at C16, was int'd at the C19 & C38 and missed 2 FG's (+86 yds).

USF is 1-3 vs Miami but the LTH won in OT. USF led 10-0 mid-3Q but needed an int at their 12 w/:05 to force OT. Into 2012, the Bulls are 13-4 vs instate schools.

USF is 1-5. LTH USF snapped a 4 gm series losing streak despite 16 less FD's and being outgained by 212 yds.

LY USF led 14-13 and only trailed 20-17 at HT. USF is 3-6 in home finales with 3 str losses by 9 ppg.

LOUISVILLE CARDINALS

C Mario Benavides

POSITION OUTLOOK FOR 2012

QUARTERBACKS - The Cardinals have had some excellent QB's in the last 16 yrs including Chris Redman, Dave Ragone, Stefan LeFors and Brian Brohm, who all earned Conf Off POY honors and were drafted by the NFL. In '09 they had to replace their starter and then both of the proj'd replacements transferred after the spring (0 car att ret). Three diff QB's played and comb to hit 56% with a 9-11 ratio. 5'10" Will Stein started gms 8 and 9 and threw for 450 (55%, 0-1). In '10 Adam Froman (PS#75JC), who had 7 st in '09 (1354, 60%, 6-5), took control but missed 4 gm (inj). He threw for 1,633 (61%, 11-4) while Stein was #3 hitting 9-14-72. The QB's improved their ratio to 22-7. LY only Stein ret'd but I proj'd true frosh Teddy Bridgewater (PS#7, IFS) as the st'r. Stein st'd the opener and Bridgewater came in for 1 series, threw an int and did not return. Stein threw for a career high 349 vs FIU but then inj'd his shoulder vs UK and the Bridgewater era began as he helped lead UL to their 1st win over UK in 4Y (2 td passes). Stein att only 5 passes after that. Bridgewater (2129, 64.5%, 14-12) started the final 10 setting a UL frosh passing rec (Chris Redman 1773 '96). UL finished #2 in the BE in pass eff and this year both QB's return. Bridgewater now is experienced and is one of the BE's best.

RUNNING BACKS - HC Charlie Strong would prefer to have one feature RB and in his first yr ('10), he had that in Bilal Powell. Powell (#3 rusher '09), rushed for 1,405 (6.1) finishing just shy of breaking Howard Stevens' 1971 (10 gm) mark of 1,429 despite missing nearly 2 full gms. Powell had seven 100 yd gms tying the UL record (Frank Moreau '99, Walter Peacock '73) while Jeremy Wright was #2 with 327 (5.5). Victor Anderson (PS#30) had 1,047 (5.7) in '08 but just 473 (5.3) in '09 and 286 (4.5) in '10. Anderson was the frontrunner LY and led the tm in rushing but with just 539 (4.7). They moved QB Dominique Brown (PS#64), who ran the wildcat, to RB and he finished #2 with 533 but with a pedestrian 3.8 ypc. Wright finished #3 (334, 4.6). The unit had just one 100 yd rusher (Wright, 108 vs Rut) all year with P Chris Philpott's 40 yard run on a fake punt being the longest run for the team over the first 7 games! Even with the loss of their starter, I look for improved production from the RB corps.

RECEIVERS - LY the Cards had to replace their top 2 rec's but they had just 470 and 440 yds. The leading returnees were Josh Bellamy (PS#57JC, 401, 13.8), Andrell Smith (377, 15.1) and TE Josh Chichester (PS#31, 317, 14.4). Despite their presence the top WR turned out to be rFr Michaelee Harris (PS#38) who tore his PCL in the winter and did not return until Aug but still led with 455 (12.3). True frosh Eli Rogers (PS#38) was a yard off the lead with 454 (11.1) while Chichester was #3 (393, 14.0). Smith had 207 (18.8) while soph Jarrett Davis (5'9" 174) had 102 (8.5). This year they lose Bellamy (5 st, 280, 11.7) and Chichester (12 st) but return their top 2 (Harris tore ACL prior to LY's bowl, OFS) making this unit more exp'd.

OFFENSIVE LINE - From '03-'06 the O-line paved the way for 5.7, 5.6, 4.8 and 5.0 ypc rushing. In former HC Steve Kragthorpe's 3 yrs ('07-'09) they dropped to 4.2, 4.3 and 3.5 ypc in '09 with just 125 ypg (lowest s/'02) with 37 sks (10.1%). That unit had to replace 2 st'rs (#1, #5 DC's) and in '10 they had 9 of then top 10 back (one of the 4 ret sts lost his job). The Cards improved mightily to 175 ypg rush (4.8) and all'd just 17 sks (4.7%). LY they had to replace a 1st Tm BE RG, 1st Tm BE LT (2Y st'r, #6DC) and a pair of 2Y st'rs as well as 2 bkps. The unit had just 25 car sts with 24 by C Mario Benavides who missed the first 3 gms (knee). Given that criteria, you would assume a large drop and as expected the Cards plummeted to 122 ypg rush (3.4) while they allowed 41 sks (10.8%), their most s/'02. TY they lose RT Ryan Kessling (13 st) and LT Hector Hernandez (3 st) and with 74 car sts returning, this should be an improved line that is on par with the 2010's version.

DEFENSIVE LINE - Former HC Bobby Petrino's final 3 DL's ('04-'06) allowed just 3.1, 3.0 and 3.4 ypc rush while avg 42 sks per year. In Kragthorpe's 3 yrs they yielded 4.4, 4.2 and 4.3 ypc while avg just 18 sks. They only had 1 st'r back in '09 and in '10 ret'd 2. Strong constantly referred to the DL as undersized (258 lb avg). DL coach Clint Hurtt wanted to split the snaps between the st'rs and bkps 60/40 and 3 frosh were in the 2 deep (2 true BJ Butler & Brandon Dunn comb 12 sts). Surprisingly the Cards improved to 144 ypg (4.0) with 39 sks. LY they had to replace 1 st'r and 2 other DL (5 st, 9 sk). While they went from 2 ret sts to 3 and gained some size, Hurtt said he had never been around a group of DL that were as beat up as they are now" in early Nov. No DL started more the 9 but the Cards still had their best mark s/'00 with 101 ypg rush (3.0, 33 sks). TY they lose DE Greg Scruggs (5 st, 19 tkl, 4 sk, #7DC SEA), Randy Salmon (6 st, 20 tkl, 5 tfl) and William Savoy (9 st, 27 tkl, 5 sk). They return 7 w/st exp and are another yr bigger and can only remain healthier.

LINEBACKERS - In '10 the LB unit had to replace 2 st'rs (#1, #2 tkl'rs) and ret'd their #6 and #9 tkl'rs (comb 15 sts '09). HC Strong said "It's a LB friendly defense" and the new starting LB's had better PS#'s than the previous ones did. UL allowed just 19.4 ppg, their best s/'06. LY they had to replace 1 st'r (#3 tkl'r) and 2 bkps (6 st, 32 tkl). They ret'd their #4 and #6 tkl'rs and allowed 20.1 ppg. TY they lose 2nd Tm BE MLB Dexter Heyman (13 st, #1 tkl, 4.5 sk, 11.5 tfl, 3 int) and Terence Simien (10 tkl). They return their #3 and #7 tkl'rs and add in 3 VHT true frosh so even with the loss of their top guy, they look on par with LY's unit.

DEFENSIVE BACKS - The Cards had inexp'd and injury plagued secondaries and finished #113 in my PDR rankings in '07, #102 in '08 and #106 in '09. In '10 they returned 5 w/st exp but still had to replace 3 st'rs. The Cards avg'd just 18 sks ('07 to '09) and with a stronger front 7 (39 sks '10), UL to climbed to #41. LY they had to replace 2 st'rs (#3DC) then lost both FS Shenard Holton and CB Anthony Conner each after 6 sts. Not surprisingly the Cards dropped to #66 (60%, 20-10). TY they lose CB Conner (21 tkl, 1 int), NB Mike Evans (6 st, 51 tkl, 2 int, 3 pbu) and Holton (26 tkl). They have 6 back who st'd LY and add in VHT Gerod Holliman (PS#20). The Cards should make a good size jump in my PDR this year.

SPECIAL TEAMS - UL finished #65, #102 and #60 in my ST rankings from '07-'09 but despite having to replace their top RM, K and P, they surprisingly moved up to #18 in '10 as Chris Philpott and Josh Bleser comb for a net of 37.1 while Philpott had 16 TB on 69 KO and hit 14-18 FG (L46). Victor Anderson and Jeremy Wright avg'd 30.4 on KR. Last year everyone but PR Doug Beaumont (15.2) ret'd but they dropped slightly to #27. Philpott tied the UL rec with a 52 yd'r (bounce off upright) vs Rutgers (also 51 yd'r vs UC). The PR avg plummeted to 4.9 (#102) which doesn't even incl 2 muffed punts vs Pitt. This year they lose Philpott and Bleser but rFr K John Wallace (PS#6) hit 11-14 as a Sr in HS (misses 57 & 59). Still, after B2B solid finishes, expect a dropoff this year.

COACHES - Charlie Strong served as the Florida DC ('03-'09) under Ron Zook and Urban Meyer and as SCar's DC under Steve Spurrier and Lou Holtz. Strong led the Cardinals to their first winning season in 4 yrs while earning BE co-COY honors in his first season here. Strong replaced OC Mike Sanford in Oct LY with 1st yr QB cch Shawn Watson (Neb OC '07-'10) taking over (will continue on in that role). 3rd yr DC Vance Bedford was the DB cch at Florida ('08-'09) and for the Chi Bears ('99-'04). The Cards finally have some stability on defense as they had 4 diff DC's the 4 previous seasons.

PHIL'S FORECAST

When former HC Howard Schnellenberger got UL's program turned around, he said the Cardinals were on a collision course for the Nat'l Championship. The '06 season was probably that year. Despite losing star RB Michael Bush to injury and QB Brohm for 2 gms, they blew a 25-7 lead vs Rutgers or they would have played in the Nat'l Title game. Then-HC Bobby Petrino left for the NFL and the next 3 yrs UL failed to have a winning record under Steve Kragthorpe, despite entering '07 ranked #10. After being picked #1 or #2 in the Big East every yr since joining in '05, they were picked 7th in '08 and after a 5-2 start, finished just 5-7, which was their first losing season s/'97 (tied last BE 1-6). Kragthorpe was let go after a 4-8 record in '09 (-104 ypg BE). Charlie Strong had just 12 ret sts in '10 and UL was picked last in the Big East but he guided the Cards to their first bowl in 4 yrs. They tied TCU with 27 Sr's (2nd FBS) but did play 9 true frosh. UL also added an upper deck and new suites to its stadium (cap 42,000 to 55,000). They beat SM in the bowl to finish 7-6. LY they only had 10 ret sts (fewest BE). They had 3 net close losses in '10 which gave them an 81% chance of improvement. Despite their 3-4 BE record in '10 they were +28 ypg (4th best). UL beat FCS Murray St but then allowed 74 and 83 yd td rec by T.Y. Hilton and a 71 yd IR td and despite a 24-9 FD edge, lost to FIU 24-17. They upset rival UK 24-17 and in their next gm Bridgewater got his first start but Marshall got a td with 1:49 left to beat them 17-13. They were tied with NC 0-0 at half but trailed 14-0 when they got a garbage td with :41 left to lose by 7. Their record dropped to 2-4 as they blew a 16-7 halftime lead vs Cincy. Rutgers missed 31 and 25 yd FG's in the 2Q and UL pulled the 16-14 upset at home to start their 2H turnaround (5-1). They whipped Syr 27-10 and then upset WV (key play blk FG td) despite being outgained 533-351. They had 16 Sr's in their FHG but Pitt led 21-7 when UL got a td with :12 left to "only" lose by 7. UL got a 100 yd KR td on the 1st play and a lateral for a td on the last play to win 34-20 at Conn. They trailed USF 17-3 with :35 left in the 1H but rallied for the improbable 34-24 win and actually had a shot at the BE Title if Cincy lost their finale, but UC won and UL was relegated to the Belk Bowl in NCSt's backyard. Despite a 391-329 yd edge, UL lost by 7. TY the Cards are much more exp'd (15 ret sts) and had 2 net close losses LY. They had a def ypp of 16.3 and while they were 5-2 in the BE, they were -31.0 ypg (7th best). They are the preseason favorites to win the BE led by QB Bridgewater and this is Strong's best team in his 3 years.

LY UL snapped a 4 gm series losing streak. UL led 24-10 w/11:15 left. UK pulled w/in a td and had a FD at the L22 but 4 plays later was SOD w/:46. UL is 10-4 in home openers (all 4 losses vs UK).

First meeting. Into '12, UL is 16-5 at home vs non-conf opp's since joining the BE in '05. Bears went 2-9 LY incl losses at Ark (51-7) and Oregon (56-7). UL is 8-0 S/'99 vs FCS tms (avg win by 31 ppg).

HT is 3-1 S/'96. LY's gm was scoreless in the 1H (UL missed 2 FG's, was SOD at the NC43 & tossed an int at NC17). UL trailed 14-0 until a td w/:42 left. UL is 6-2 S/'04 hosting non-conf BCS tms.

LY was the schools only prior meeting. HC Strong was on the Florida staff for 3 stints and in his final yr prior to UL ('09) helped beat FIU 62-3 as the DC. UL is 8-3 in road openers (3-0 vs non-BCS).

UL won B2B trips. LTH ('02) UL won 20-17 despite trailing 17-3 at HT as they limited SM to 106 2H/OT yds. Both blew multiply chances in reg/OT but after UL hit a fg in 2OT, SM's fg went wide right (4th miss of gm).

Bonus: Louisville has dropped 4 straight home finales by an average 12 ppg.
Bonus: Into 2012, Louisville is 5-12 their last 17 Big East AG's (5-1 run).

UL has lost B2B visits to Pitt (5 all-time road defeats by at least 17 pts). LTH UL trailed just 6-3 at HT but Pitt opened the 2H w/B2B td drives & UL's first 2 poss ended on a fum (set up td) & a missed 30 yd fg.

HT is 7-2. LY UL trailed 17-3 late 1H but went on to score 17 str. UL trailed again, 24-20 into the 4Q, but held USF to 62 yds & forced 2 TO's in the comeback. It was UL's 1st reg ssn win in the state of FL S/'72.

Prior to UL's 4 gm slide they had won 9 of 10 vs UC. LY UL led 6-0 and 16-7 at HT. In the 2H UL was held to just 80 yds (2.2 ypp) as they ran just 5 plays in UC territory w/the deepest penetration to the UC40.

UL is 2-3 vs TU but has won B2B gms incl a 62-0 hammering in '06 (L/meeting). UL had a 671-230 yd & 31-12 FD edge. Into 2012, the Cardinals are 5-9 the L/4 yrs hosting BE foes.

In BE play UL's 6 wins have been by 13 ppg (2 losses by 5 ppg). LTH UL's win broke their 11 gm BE road losing streak. UL went 90/12pl to go up 8 early 4Q holding SU to 32 ttl yds their L/4 drives.

Connecticut: UL has won B2B gms. LY UL led 14-0 (opening KO ret 100 yds). UC trimmed the deficit to 4 at HT but UL scored the next 14 (to mid-4Q). UC trailed 28-20 & rec an onside w/:11 left but UL got 36 yd FR td.

UL is 1-4 in New Brunswick but won LTH. They scored td's on their first 4 drives to lead 28-0.

RUTGERS SCARLET KNIGHTS

WR Brandon Coleman

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '06 Rutgers had to replace their career passing leader Ryan Hart and then had to replace their new career passing leader Mike Teel (29-13 as st'r) 3 yrs later. In '09 VHT true frosh 6'5" Tom Savage (PS#9) set Big East frosh rec's for pass yds and td's (2211, 52%, 14-7). Savage struggled with rib and hand inj's in '10 and had to feel like Wally Pipp as true frosh Chas Dodd st'd the rest of the year. Dodd is generously listed at 6'0" but in HS he threw for over 10,000 yds in the same type of off. Dodd threw for 1,637 (55%, 11-7). LY Savage transferred and the bkps were a pair of true frosh in VHT Gary Nova (PS#27) and Mike Bimonte (PS#67). Nova had better measurables than Dodd and guided the comeback win over Syr and st'd the next 5. Dodd led the team to a come-from-behind win vs USF and st'd the final 4 while Nova threw for 298 in the 4Q (down 40-10) vs Conn. Nova (1533, 51.1%, 11-9) has tremendous upside, but also had a lot of TO's while Dodd threw for 1,574 (56.7%, 10-7). I look for new HC Kyle Flood to have a clear cut starter going into the ssn but no matter who wins the job, they should see improved production.

RUNNING BACKS - From 2002-'04 Rutgers avg'd just 91 ypg rush (2.5) but in '05 true frosh Ray Rice became the 2nd 1,000 yd rusher here in 30 yrs (Terrell Willis '93 & '94) with 1,120 (5.7). In '06 Rice set RU and BE rec's with 1,794 (5.4) and reset those rec's in '07 with 2,012 (5.3). Rutgers slipped to just 115 ypg rush (3.3) in the 4 yrs since he left. Joe Martinek led in '09 with 967 (4.7) but was inj'd in '10 (276, 3.2). They conv true frosh WR Jordan Thomas to RB and he led, but with only 417 (4.4, lowest for #1 s/'02). Thomas was moved to DB and Martinek to FB LY as they added VHT true frosh Savon Huggins (PS#7). Huggins scored the team's first td but it was very surprising that he rushed for just 146 (2.6) in 9 gms prior to a ssn ending knee injury. Jawan Jamison missed NC (gm 2) but became the most effective back, leading with 897 (3.9) incl 200 vs Cincy and 131 in the bowl. TY they lose Martinek (8 st, 123, 5.1, #5 rec) but I expect significant improvement upon LY's paltry 98 ypg (2.8) especially if Huggins lives up to his VHT status.

RECEIVERS - In '05 Tres Moses left as RU's #1 career receiver. It took Kenny Britt just 3 yrs to top his numbers. They had to replace #1 & #7 DC's in '09. Tim Brown (5'8") became just the 4th RU player with 1,000+ rec yds (1150, 20.9!). True frosh Mohamed Sanu was #2 (639, 12.5) while also finishing as the #2 rusher (346, 5.6) being utilized out of the Wildcat. In '10 they had to replace Brown. Mark Harrison is 6'3" 230 with 4.38 spd and had 240 yds vs Cincy LY and 4 td's (tied RU rec). He finished with 829 (18.8). Sanu was Savage's favorite target (21 rec 1st 4) but had just 23 over the final 8 (inj). LY Sanu focused purely on being a WR and set a BE single season record for rec with 115 rec's (Larry Fitzgerald, '02) and led with 1,206 (10.5) becoming the career receptions leader with 210 (Brian Leonard, 207). VHT Brandon Coleman (PS#35) is 6'6" 220 with speed but had only 3 rec in the first 7. In the last 6, he had 480 yds (223 vs Conn) and appears to be the next great RU WR. Quron Pratt was #3 (327, 10.2) while Harrison (5 st, 274, 19.6) was banged up. TE DC Jefferson (PS#20QB) is a solid blocker. TY they must replace 4th Tm AA Sanu (#3DC CIN) but this unit has excellent size and speed and is still one of the top BE units.

OFFENSIVE LINE - This unit has struggled in recent years. They had 86 car sts ret in '09 and their OL coach said it could be their best unit yet but they slipped to 3.6 ypc and 40 sks (12.2%). In '10 they had to replace three 3Y st'rs (#1DC) and dropped to 101 ypg (2.7) and a modern NCAA record 61 sks (18.8%). LY they ret'd 4 st'rs (89 car sts) but shuffled their positions through the first 5 gms before finally settling. Their numbers dropped to 98 ypg rush (2.8) but with half the sks (30, 6.3%). TY they lose 1st Tm BE RG Art Forst (8 st, 4Y st'r), 2nd Tm BE LG Desmond Wynn (13 st, 2Y st'r), Caleb Ruch (9 st, 3Y st'r) and RT Desmond Stapleton (2 st '11, 12 st '10). While the Knights have just 2 st'rs back (43 car sts) and lose their 2 all-conf OL's, they should improve upon last year's rushing numbers especially with adding in MD transfer RJ Dill (33 car sts) and PS#23, #25, #42 and #91 VHT frosh.

DEFENSIVE LINE - In '09 RU had to replace 2 st'rs but did return rFr Scott Vallone (lightning quick for his size) and bkp DE Jonathan Freeny who led in sks (9.5). The Knights improved allowing 103 ypg (3.0) with 40 sks. In '10 they had to replace one st'r (3rd Tm BE, 6.5 sk) and ret'd 6 of their top 8. Rutgers was devastated with a tragic loss vs Army when Eric LeGrand suffered a paralyzing neck injury (13 tkl, 2 tfl). The tm had allowed 14.4 ppg and 270 ypg over the first 5 but 35.1 ppg and 448 ypg after. LY they had to replace 3 st'rs (3rd Tm BE). Projected starting DE Jamil Merrell missed the first 4 (inj) then DE Michael Larrow was lost after 5 sts. With basically 2 ret sts (Abreu st'd at LB '10) RU's rush D improved to 139 ypg (3.8, 36 sk) but that was still 7th in the BE. TY they lose DE Abreu (10 st, 29 tkl, 3 sk, 3 tfl) and 3rd Tm BE DT Justin Francis (13 st, 64 tkl, 6.5 sk, 6.5 tfl) but do have 8 of their top 10 back including Vallone and VHT true frosh Darius Hamilton (PS#6) and look stronger.

LINEBACKERS - In '10 the unit had to replace their #1 and #3 tkl'rs. RU allowed 26.5 ppg, their highest s/'04. LY they had to replace their #1 tkl'r and moved their #7 tkl'r to DE. They ret'd their #3 tkl'r and moved FS Khaseem Greene (#4 tkl'r) to LB so they had 2 st'rs back. The Knights improved to 18.3 ppg while Greene proved to be a tackling machine (BE co-DPOY, 141 tkl). Jamal Merrell moved to DE in the spring but back to LB in the fall and he st'd 12. TY they return their top 3 st'rs (#1, #2 and #8 tkl'rs) making the unit more exp'd and stronger.

DEFENSIVE BACKS - With exp'd units in '06 and '07 RU moved up to #42 and #32 in my PDR. They only lost 1 st'r in '08 but dropped to #106. In '09 they had to replace 2 st'rs (#6, #7DC's) but climbed to #51 (56%, 13-15). In '10 they had to replace 2 st'rs but fell to #103 (62%, 19-8). LY they moved FS Greene to LB and had just 1 st'r back. I still called for them to climb in my PDR and that they did all the way up to #14 (51.8%) with an impressive 8-19 ratio. TY the Knights lose SS David Rowe (13 st, 59 tkl, 3 int, 4 pbu) but have 7 of their top 8 back and get back Mason Robinson (PS#59RB) who tore his ACL Wk 1. This is the best secondary in the Big East.

SPECIAL TEAMS - Rutgers finished #40 in my ST rankings in '04, #21 in both '05 and '06 and after a surprising drop to #103 in '07, they were #57, #25 and #41 the next 3 yrs. LY the ST had some great efforts which won gms but also some poor efforts that lost some. San San Te hit 20-31 (L50). JUCO P Justin Doerner edged out VHT true frosh Anthony DiPaula (PS#8) and avg 40.3 (36.6 net) and had 7 TB on 68 KO. Top RM Mason Robinson RS while Jeremy Deering was exciting as a KR (31.2) incl a 98 yd KR vs USF (key play). Rutgers is #1 in the NCAA w/21 blk'd kicks the L2Y. The Knights moved up to #15 and this year despite only losing San San Te (4Y K) could find it difficult to remain near the top.

COACHES - NJ native and former HC Greg Schiano was here for 11 seasons. He led RU to their first ever Top 10 ranking in '06 (FWAA's COY) and took them to bowls in 6 of the L7Y. He left for the NFL (Tampa Bay) just days prior to signing day and took many of his asst's with him. Kyle Flood (asst here s/'07, co-OC '09-'10) takes over the head coaching duties. The new OC will be Dave Brock who comes over after 3 yrs as BC's TE cch and 10 gms as the interim OC there LY. He was also the OC at Kan St ('08) and Temple ('02-'04). The new DC is Robb Smith (4 yr asst here) and they add LB cch Dave Cohen (DC WMich 2 yr) who was also the HC at Hofstra ('06-'09).

PHIL'S FORECAST

Greg Schiano had his moments in his tenure at Rutgers. RU had endured a 25-gm Big East losing streak (ended in Schiano's 3rd ssn '03) and coming into '06 they had just 5 winning seasons the previous 25 yrs. They got as high as #7 in '06, finished 11-2 at #12 after earning their first bowl win in their 137 year history. Their 11 wins tied the 1976 team record while the D allowed just 14.3 ppg (best s/'80). In '07 they opened up #16 AP but finished just 8-5. They still were the first team in NCAA history to have a 3,000 yd passer, 2,000 yd rusher (Ray Rice) and two 1,000 yd rec's in the same season. In '08 they opened 1-5 but won their last 7 and were a Big East best +62.4 ypg. In '09 they had a great shot at the Big East Title due to their schedule. Even benefitting from +20 in TO's they shockingly finished just 3-4 in BE play. In '10 they had just 12 st'rs back and just 3 Big East HG's. Those factors had me calling them 6th (5th BE media). RU did lose a pair of #1DC's and finished 1-6 in the BE and was -132 ypg (worst) and 4-8 overall, their first losing season s/'04. LY they got the benefit of 4 BE HG's and had 14 st'rs back (3rd most BE) and brought in a super class of true frosh. They were the media's pick for last place in the BE but I had them a couple notches higher. RU opened with a 48-0 win over NCCU. They then benefitted from +5 in TO's vs NC but still lost 24-22 (outgained 405-244). They outgained Ohio by 6 yds and won by 12. They went into Syr and had a 23-15 FD edge and won by 3 in 2 OT's. The yds were even vs Pitt but they won 34-10 after some fortunate Panther TO's in the 2H. They trailed Navy 17-7 in the 3Q but prevailed 21-20. At L'ville they dropped an open td pass mid-4Q and missed 31 and 25 yd FG's losing by 2. Against WV in the snow, they had a 31-21 lead at half but in the 4Q were int'd in the EZ then had a poor throw on a fake FG and another fumble that led to a WV td and they lost by 10. RU trailed USF 17-3 mid-4Q but prevailed in OT with USF missing a 27 yd FG at the end of reg. RU got past Army 27-12 and then Cincy had a soph QB making his first road st and RU held them to 225 yds in their 20-3 win. RU had a 430-290 yd edge vs Conn with an outside shot at winning the Big East but lost 40-22 as they were -5 in TO's. The bowl was played in RU's backyard and they beat Iowa St 27-13. Schiano left for Tampa Bay and Kyle Flood has 15 st'rs back but had beneficial off (12.8) and def (17.0) ypp's. They have 4 AG's in the BE (just 3 HG) but have the league's best defense and will contend for the BE Title.

PITTSBURGH PANTHERS

RB Ray Graham

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In 2009 the QB job was a 3-way battle but Bill Stull had a better than expected year throwing for 2,633 (65%, 21-8). Tino Sunseri (PS#29) played in 5 (114, 59%, 2-0). Sunseri was the clear-cut starter in '10 and while he struggled early, he improved and threw for 2,572 (64%, 16-9). LY Sunseri had to learn a new offense and despite getting a little bigger, stronger and quicker, he struggled at times with the frantic pace of the offense. Walk-on true frosh Trey Anderson (ran same off in HS as then-HC Graham ran here) beat out rFr Mark Myers (PS#125) for the bkp spot but did throw a costly int after opening the 3Q vs Rutgers. Against Utah, Anderson and Sunseri comb to hit just 9-30-50 in the wind. After that game Sunseri took almost all of the snaps at QB the remainder of the ssn. RFr Anthony Gonzalez (6'3" 215 So, PS#28) was susp'd the first 2 and worked at HB and as the Wildcat option vs Syr (1 pass att '11). Myers completed 1 pass (also bkp P) and Anderson threw for 55 (36.4% 0-3). Sunseri's numbers actually got weaker throwing for 2,616 (64.2%, 10-11). This year the unit must learn their 3rd off in 3 yrs but should be able to improve upon '11's disappointing stats. Keep an eye on true frosh VHT Chad Voytik (PS#10) who could win the job in August.

RUNNING BACKS - LeSean McCoy (PS#8, 210 lbs) had 1,000 yds in '07 & '08. In '09 their top 3 departed. True frosh Dion Lewis was 2nd Tm AA as he rushed for 1,799 (5.5) eclipsing McCoy's BE frosh record. True frosh Ray Graham (PS#31) rushed for just 349 (5.7) but was the star of the spg in '10. Lewis, a hard-nosed inside runner, rushed for 1,061 (4.8) while Ray Graham (fast & shifty) added 922 (6.2) including 277 vs FIU (#2 Pitt hist, Tony Dorsett 303 vs ND '75). LY they had to replace Lewis (#5DC) but Graham was on his way to a spectacular season with his 734 (5.8) which were the most ever by a Pitt RB after 5 gms. Unfortunately he tore his ACL vs Conn. Transfer Zach Brown (PS#151) had rushed for 1,152 in 3 yrs at Wisconsin. He rushed for 336 (4.1) before getting banged up vs WV and true frosh Isaac Bennett saw all his action in the final 5 (237, 4.1). Graham still led with 958 (5.8) and this year they only have to replace Brown. Not listed in the PSL below are Corey Davis (5'11"' 180 So, PS#230) and ND trans EJ Banks (5'11" 185 Jr, PS#52). They also add uber VHT true frosh Rushel Shell (PS#3) and if Graham regains '11's form, this will be one of the top RB units in the country.

RECEIVERS - In '09 Jon Baldwin led Pitt WR's with 1,111 (19.5) and TE Dorin Dickerson (PS#8) earned 1st Tm AA with 529 (10.8). In '10 they had to replace Dickerson (#7DC) and with inexp'd QB's, Baldwin's numbers dropped to 822 (15.5). Mike Shanahan was #2 with 589 (13.7) and rFr Devin Street added 318 (12.7). LY they had to replace Baldwin (#1DC). Street led with 754 (14.2) while Shanahan was #2 (493, 12.6). HB/TE Hubie Graham (Illinois trans, PS#32) was #3 (325, 11.6). Cameron Saddler was #4 with 207 (10.9) despite missing the final 5 (inj). TY the unit returns intact and they should put up much improved numbers.

OFFENSIVE LINE - In '09 Pitt had 4 OL st'rs back and improved to 180 ypg rush (4.9, 15 sk, 4.4%). In '10 they had to replace 3 multi-yr st'rs, but ret'd two 1st Tm BE caliber OT's. Their numbers dipped a little to 166 ypg (4.6, 23 sk, 6.4%). LY they had to replace a 1st Tm BE LT (#5DC) and their C. The 3 ret sts missed a combined 15 gms as the unit was decimated by inj's (8 diff starting lineups). VHT rFr Matt Rotheram (PS#49) took over a starting job (2 st) but broke his ankle vs Conn. Pitt slipped to 140 ypg rush (3.5) and all'd a modern day NCAA record 64 sks (15.0%). TY they lose RG Lucas Nix (8 st, inj, 3Y st'r), LT Greg Gaskins (6 st) and RT Jordan Gibbs (13 st, 2Y st'r). OG Chris Jacobson (13 st '10, 3 st inj'd '11) was granted a 6th yr plus they add in a Penn St (PS#41) and JC transfer who sat out LY. They have 52 car sts back and can only improve on LY's poor numbers.

DEFENSIVE LINE - In '09 Pitt lost 1 DL st'r but had 4 back who had been full-time st'rs and I called it the best DL in former HC Dave Wannstedt's 5Y. They did not disappoint allowing 106 ypg rush (3.3) with an FBS high 47 sks (36 by DL!). In '10 they had to replace 2 st'rs then star DE Greg Romeus played in just 2 (inj, 8 sks '09, 0 '10). Pitt dropped to 120 ypg rush (3.5, 34 sk). Wannstedt was high on his 4 frosh signees in TJ Clemmings, Bryan Murphy, Aaron Donald and Khaynin Mosley-Smith calling them the DL of the future. Jabaal Sheard earned BE DPOY and DE Brandon Lindsey led the BE in tfl (17.5). LY they had to replace Sheard (#2DC), Romeus (#7DC) and 2 bkps (17 tkl). Basically 3 st'rs ret'd to the new 3-man front. While soph Aaron Donald st'd just 5, he had 11 sks. Pitt only improved to 117 ypg (3.3) with 43 sks. TY they lose DT Chas Alecxih (13 st, 57 tkl, 6.5 sk, 9 tfl), NT Myles Caragein (13 st, 44 tkl, 2 sk), DE Lindsey (13 st, 54 tkl, 8.5 sk) and DE Justin Hargrove (1st, 13 tkl, 2.5 tfl). They switched back to a 4-man front and Wannstedt proved to be prophetic as his '10 signees are all in the 2 deep incl 3 proj st's.

LINEBACKERS - Pitt has had 2 FWAA AA LB's in the L6Y in HB Blades ('06) and Scott McKillop ('08). In '10 they had to replace a 1st Tm BE MLB (#3 tkl'r) but ret'd their #1 and #12 tkl'rs. The unit had produced a 1st Tm BE MLB 5 str yrs but that streak ended in '10. LY their top 7 LB's ret'd incl their #2, #3 and #9 tkl'rs and Pitt all'd 22.8 ppg. TY they lose 1st Tm BE WLB Max Gruder (13 st, #1 w/116, 8.5 tfl), SLB Tristan Roberts (7 st, #4 tkl'r, 2 tfl) and Greg Williams (10 st, 48 tkl, 7 tfl). They get back PS#26 Dan Mason (3 st true '09) who missed most of the L2Y (inj) while Ejuan Price (PS#75, orig Ohio St) was productive as a true frosh (5 st, 27 tkl, 4 sk) and moved inside to MLB in the spg. Todd Thomas played almost all of '11 with a partially torn ACL (OFS). I like the athletic talent of this group but it is a little less exp'd.

DEFENSIVE BACKS - Pitt ranked in the top 3 of the FBS in ypg pass D twice in Wannstedt's 6 yrs. In '09 Pitt had 7 of their top 8 back (4 VHT). Surprisingly, they only finished #43 in my PDR (light slate opp) but did snag 15 int's. In '10 they had to replace 2.5 st'rs (1st Tm BE CB). I thought that despite the losses they would move up in my PDR and they did to #28. LY they had to replace a 1st Tm BE SS and a starting CB but did have 6 of their top 8 back incl 2nd Tm BE FS Jarred Holley (PS#31). They had 41 sts ret (44 in '10) but slipped to #62 (60.9%, 16-8) with the fewest int's in the BE. They did lose SS Jason Hendricks after 7 sts. TY they lose 2nd Tm BE CB Antwuan Reed (13 st, 30 tkl, 7 pbu) and NB Buddy Jackson (1 st, 34 tkl, 4 pbu). They have 4 back who had 6+ sts LY and add Mich trans Ray Vinopal (6 st, 33 tkl, 4 pd '10). I look for them to make a significant improvement in my PDR.

SPECIAL TEAMS - Pitt was #13 in my ST rankings in '06 then #55, #29, #66 and #52 the next 4Y. LY they had to replace their K/P in Dan Hutchins (39.8 net, 18-25 FG) but had their top RM back. Kevin Harper (PS#17) missed his first 2 FG's but finished 21-31 and his 52 yd'r in the rain vs Cincy was the longest ever at Heinz Field (NFL incl)! Soph Matt Yoklic avg 41.2 (36.4 tm net). Their return game was avg but Pitt was +2 in td blks and finished #39. This year all of the key players are back incl ST's ace Andrew Taglianetti (6 car blk'd punts) and they should move even higher in my ST rankings.

COACHES - Dave Wannstedt was the HC here for 6 seasons and despite 26 wins in his final 3Y (most here s/'81-'83), he was forced out prior to the '10 bowl. Since that move the Panthers have had an interim HC for the '10 bowl, hired and 16 days later fired Mike Haywood, hired Todd Graham from Tulsa who left for Ariz St and utilized Keith Patterson as their interim for the '11 bowl. Paul Chryst takes over after being the OC at Wisconsin ('05-'11) and at Oregon St ('03-'04, '97-'98). Chryst brought Bob Bostad with him from UW to run the offense (L6Y UW OL cch) but he left in Feb and WR coach Joe Rudolph steps in (UW TE cch '08-'11). The new DC is Dave Huxtable who was the UW LB cch LY and spent the previous 7Y at UCF (DC '08-'10).

PHIL'S FORECAST

The Pitt coaching changes have been unusual. Walt Harris ('97-'04) went to bowls 5 str yrs and in his final ssn, they won the Big East Title (Fiesta Bowl) despite having just 9 ret sts. He was forced out. In Wannstedt's 2nd ssn ('06) they avg'd 31.8 ppg, (best s/'81) but were just 6-6. Wannstedt was on his way out in his 3rd yr but knocked #2 WV out of the Nat'l Title gm securing him another yr despite being 5-7. In '08 Pitt made my Most Improved List and Wannstedt had his 1st winning yr here (9-4). In '09 six of my sets of power ratings called for a DD win ssn and they had their first 10 win yr s/'81 and it could have been even better. The WV gm was meaningless as a BCS bowl relied on what they did vs Cincy. In that UC gm Pitt led 31-10 but lost by 1. In '10 Pitt was #15 and was the preseason BE favorite (22 of 24 votes). I did not have them in my Top 25 as they had benefitted from +10 in TO's in '09 and had just 11 ret sts (last in BE). Wannstedt called it the youngest tm in his 6 yrs. Pitt lost a couple of close gms and dropped to 8-5 but still won a share of the Big East Title. Surprisingly Wannstedt was let go and the players dedicated the bowl to him and dominated UK 27-10 and were +95 ypg (2nd best BE). They hired Miami, Oh's Mike Haywood but then after 16 days he was let go and they brought in Todd Graham. Graham had piloted my MIT in the country in '10 as Tulsa went from 5-7 to 10-3. Pitt had 2 net close losses in '10 and 4 BE HG's with 8 HG's overall in '11. Unfortunately Pitt lost 5 diff key st'rs to inj incl RB Ray Graham. They opened with wins vs Buff and Maine and led Iowa 27-10 in the 4Q but lost. They led ND 12-7 in the 4Q but lost by 3. They dominated as a home dog vs USF on a Thurs night, 44-17. The yds were even at 271 vs Rut but they were -3 in TO's and lost by 24. It was a windy day vs Utah which affected their pass gm and they were -3 in TO's again and lost by 12. They bounced back vs Conn 35-20 but lost Ray Graham to inj. Pitt led Cincy 23-13 in the 3Q but lost 26-23 despite a 397-366 yd edge. After beating L'ville by 7 (UL td :12 left) they had a 20-7 lead over WV with a 217-74 yd edge but suffered their 5th blown 2H lead and lost by 1. They knocked off Syr in a bowl elim gm and then surprisingly Todd Graham left for Ariz St and a fractured tm was dominated by SMU in the bowl. New HC Paul Chryst is technically their 6th HC in the last 15 gms (interim incl). LY's tm was #2 in the BE at +55 ypg but finished tied for 4th (4-3). They had 3 net close losses LY. Two of my 9 sets of power ratings call for 10 wins. Since Pitt had a losing record LY they make my Most Improved List.

CINCINNATI BEARCATS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Tony Pike entered '09 as a Heisman candidate but was inj'd early and Zach Collaros threw for 1,434 (schl rec 75%, 10-2 ratio, 344 rush) starting 4. Collaros had the job in '10 but had little time to throw due to a shaky O-line. He missed Syr (gm #8) with a knee injury and wore a knee brace after that but still led the BE in total off and pass yds (2902, 59%, 26-14, #2 rush 202). LY he ret'd and soph Munchie Legaux (PS#30) beat out GT transfer Jordan Luallen (PS#28) for the bkp job. Collaros fractured his ankle vs WV (gm 4) and missed 3 gms but ret'd for the bowl (1940, 61%, 15-10, #2 rush 234). Legaux played well vs WV but in his first start (at Rut) hit just 12-31-158 then split time with Luallen in the next 2 (Luallen 77 yd, 9.6 rush vs Syr). Legaux threw for 749 (47.4%, 5-4,185 rush, 4.5). Added to the mix TY is rFr Patrick Coyne (PS#47), a pair of true frosh and Sr Brendon Kay (PS#42) who came out of spg I-A on the depth chart. Collaros departs with the highest comp % (61.9) in UC history (min 200 att). While there was a severe drop off after he went out LY, I like the replacements and they may not drop as much as you would think statistically.

RUNNING BACKS - From '06-'08 the Bearcats used a RB-by-committee approach (zero 100 yd rushers in '08). The top single season rusher in that span had 709 (4.4). True frosh Isaiah Pead (PS#52) only played in 7 gms in '08 (194, 6.5). In '09 Pead had the best ypc of any RB in the Big East (6.7) and his 175 vs WV was the best single gm ttl for a UC player s/'04. He led with 806. In '10 Pead had 197 on 10 att in the 1H vs Miami, Oh and finished with 1,029 (6.6!) despite missing 2 gms. LY Pead became just the 3rd UC player to top 1,000 in B2B seasons (Reggie Taylor 3x '84-'86, James Bettis '80-'81) when he rushed for 1,259 (5.3, #4 rec). QB's were the #2, #4 and #5 rushers with George Winn (PS#144) having 219 (5.5, 69 yd td in bowl). VHT true frosh Jameel Poteat (PS#20) surprisingly had just 108 (4.7). Adam Fearing (5'9" 183 Sr) added 46 (6.6) while Chris Burrell (5'7" 170 So, PS#265) RS. While I like Poteat's potential and they do add a PS#107JC and two HT frosh, it will be tough replacing an outstanding RB like Pead (#2DC STL).

RECEIVERS - In '09 UC had to replace their career leading rec Dominick Goodman but Mardy Gilyard led for a 2nd straight yr with 1,191 (13.7). Armon Binns was #2 with 888 (14.6) and soph DJ Woods (PS#55) added 640 (12.5). In '10 they had to replace their new career leader Gilyard (#4DC). Binns led with 1,101 (14.7) while 6'1" Kenbrell Thompkins (PS#20JC, 4.4 spd) RS. Woods was #2 with 898 (15.8) but lost 4 fumbles (2 vs Okla). LY they had to replace their #1 and #3 rec's along with their starting TE. Surprisingly soph Anthony McClung (217, 9.9 in '10) led with 683 (13.9) and Thompkins lived up to his VHT billing with 536 (12.2). TY they lose Woods (13 st, 450, 12.2) and TE Adrien Robinson (11 st, 12 rec, #4DC NYG). I look for more out of soph Dyjuan Lewis (PS#24) along with former QB Luallen (PS#28) and rFr May Morrison (6'1" 169). With the return of their top 2, I look for improved production.

OFFENSIVE LINE - Former HC's Mark Dantonio ('04-'06) favored a larger O-line in his tenure here while Brian Kelly ('06-'09) wanted a slimmed down version. HC Butch Jones in his first year ('10) had the OL trim another 10 lbs per man. In '10 they had to replace a 1st Tm BE C and 2nd Tm BE LT and the OL struggled mightily (18 sk F/4 gm) but improved, allowing just 15 sks over the last 8. UC improved to 157 ypg (4.7). LY they had to replace a 2nd Tm BE C (#6DC, 3Y st'r), a 2nd Tm BE LT (2Y st'r) and their starting RG. I noted that while they were less exp'd (2 ret sts, 39 car sts), they could improve and they accomplished just that (179 ypg rush, 4.6, 22 sks). Four OL started all 13 but unfortunately this year 3 of them depart in 1st Tm BE LG Randy Martinez (2Y st'r), 2nd Tm BE LT Alex Hoffman (3Y st'r) and C Evan Davis. Seven of their top 10 are back but they lose their top 2, returning 28 car sts and may be down a notch in '12.

DEFENSIVE LINE - In Brian Kelly's first 2 yrs he had exp'd D-lines and the team allowed just 114 ypg rush in both '07 and '08 (3.2, 3.3 ypc) while generating 42 and 39 sks. In '09 they shifted to a 3-4 and had to replace all 4 st'rs (#2DC). They brought in VHT Minn transfer Alex Daniels (8.5 sk) and surprisingly only slipped to 144 ypg (3.6, 37 sk). In '10 they switched back to a 4-3 D and had just 1 st'r back but were more exp'd (68 tkl, 8 sk in '09 to 137 tkl,12.5 sk '10). Cincy improved to 135 ypg (3.5) but with only 27 sks. LY OLB Walter Stewart moved to DE full-time (4 st DE '10) and their top 8 all ret'd (two 300 lb Sr DT's) making it their most veteran unit in yrs. They allowed just 95 ypg rush (#6 FBS) and a 2.7 ypc with 46 sks (led nation in tfl). TY they lose BE co-DPOY and 3rd Tm AA DT Derek Wolfe (13 st, 70 tkl, 9.5 sk, 12 tfl, #2DC DEN), 3rd Tm BE NT John Hughes (11 st, 51 tkl, 5 sk, 7.5 tfl, #3DC CLE), Monte Taylor (17 tkl, 4 sk) and Rob Trigg (12 tkl, 2.5 sk). This should still be one of the BE's top DL but they lose their top 2 and won't match LY's figures (best s/'97) and probably won't maintain as good of health (only 1 lost st).

LINEBACKERS - In '05 UC had to replace their entire 2 deep at LB and that D gave up 31.4 ppg. The next 3 yrs, they had exp'd units and improved, allowing 19.6, 18.8 and 20.1 ppg. In '09 they switched to a 3-4 D and lost all 3 st'rs (#1, #3, #4 tkl'rs). In '10 they had to replace their #1 tkl'r, a 10 gm st'r plus 3 bkps (6 st, 62 tkl) but ret'd their #2 and #6 tkl'rs and moved back to a 4-3. The D went from allowing 23.1 ppg to 28.0 despite JK Schaffer finishing #2 in the BE in tkl/gm. Maalik Bomar was the #2 tkl'r and Walter Stewart #4. LY they moved Stewart to DL so 2 st'rs returned. UC trimmed their ppg by over a td to 20.3. Schaffer became the 5th player in UC history to eclipse 100 tkls 3 straight yrs. TY they lose 1st Tm BE Schaffer (13 st, #1 tkl'r, 4.5 sk, 8.5 tfl, 3 int) and Ben Pooler (2 st, 11 tkl). They have 2 ret sts (#5, #11) just like LY but lose their top guy and may be down a notch.

DEFENSIVE BACKS - The Cats finished in the top 43 of my PDR 6 of 7 yrs heading into '09. The '08 unit had to replace 3 NFL DC CB's (#1 and #2 at UC in career int). UC dropped to #75. In '10 they had 1 st'r back. They had produced 4 straight 1st Tm BE FS's but that streak ended and the inexp'd unit finished just #110 (65%, 25-8). LY the entire 2 deep ret'd. Newcomer FS Malcolm Murray (PS#64JC) was lost to an ACL in the opener while CB Dominique Battle started just 5 (ACL) and CB Reuben Johnson played in just 8 (inj). Despite the inj's, they still moved up to #52 (60.2%, 17-16). This year they lose FS Wesley Richardson (13 st, 71 tkl, 5 pd) and Reuben Haley (8 tkl). They do return 3 st'rs (also ret Murray) and 5 who have been full time st'rs and will improve again in my PDR.

SPECIAL TEAMS - In the 3 yrs prior to Brian Kelly's arrival, UC finished #106, #113 and #82 in my ST rankings. In Kelly's 3 seasons they finished #21, #1 and #8. Butch Jones had finishes of #88, #55 and #46 at CM and UC had to replace RM extraordinaire Mardy Gilyard (30.5 KR, 2 td, 12.6 PR, 1 td) and dropped to #63. LY they had to replace K Jacob Rogers (UC #1 car scorer). K Tony Miliano hit 17-25 FG (L48) incl tying a UC rec with 4 FG's vs Pit. Pat O'Donnell avg 41.9 (37.3 tm net) in '10 and improved to 43.8 (38.8 net) in '11. They comb for 9 TB on 83 KO. True frosh Ralph David Abernathy ret'd his first KO 60 yds and his last 90 yds finishing #14 in the FBS (26.5). UC moved all the way up to #12 and with most of the key players back, could be in my Top 20 once again.

COACHES - Brian Kelly led UC to B2B Big East Titles and BCS bowls before moving on to ND. Butch Jones had replaced Kelly at CMich and led them to B2B MAC Titles and 3 straight bowls (27-13 3Y) and again filled Kelly's spot here. OC Mike Bajakian served as OC/QB coach for 3 yrs under Jones at CM helping develop QB Dan LeFevour. Tim Banks and John Jancek were co-DC's LY. Banks left to become DC at Illinois while Jancek remains after previously spending 5 yrs at Georgia (LB cch, co-DC '09).

PHIL'S FORECAST

Nippert Stadium is the 4th oldest playing site in college football. In Mark Dantonio's final year in '06 UC reached 8 wins for the first time s/'97 but in Brian Kelly's 3 yrs they reached 10, 11 and 12 wins finishing #17, #17 and #8 despite not being ranked s/'76! The UC record for pts in a ssn had been 409 and Kelly's '07 squad had 472 while his '09 squad had 502. The '09 season was remarkable as the Bearcats had just 1 ret st'r on D and yet had a 12-0 reg ssn record and rose as high as #4. I pointed out in '10 that there were many factors pointing towards a downturn as they had 4 net close wins in '09, were +9 in TO's and were breaking in a new HC. UC was still picked #2 in the Big East media poll and ranked #26 (AP). HC Butch Jones pointed out that they had only 12 players who played on offense or defense in the Sugar Bowl and that the majority of '09's team was gone. Many players played way too many snaps as depth was lacking. UC fans weren't happy when they slumped to 4-8. That '10 squad was -15 in TO's but were actually +36 ypg in the BE (3rd best) despite being 2-5 in conf play. LY the D ret'd 10 st'rs which was their most in 5 yrs and the offense had both Collaros and Pead back. My final sentence LY was that UC made my Most Improved List and was a legitimate contender for the Big East Title. UC went to +12 in TO's and improved to 10-3. They whipped AP, 72-10 but were mauled at Tenn 45-23. They beat Akron 59-14 (led 49-0 half). NCSt's D came in depleted by inj's and UC got revenge for the '10 loss, 44-14. They shutout rival Miami, Oh 27-0 then trailed L'ville 16-7 at HT but won 25-16. At USF, UC got a td with :12 left to pull out a 37-34 win. They trailed Pitt 23-13 mid3Q but Pitt missed a 50 yd FG at the end in a 3 pt win. Collaros was hurt in the 2Q vs WV and they lost by 3. With bkp QB Legaux getting his first car st they lost to Rut, 20-3 (outgained 385-225). Legaux and Luallen QB'd the final 2 BE gms and they won both by a combined 65-40 margin. They finished in a 3-way tie for 1st in the BE, knocked off Vandy in the bowl and finished #25 AP. TY they have just 11 ret sts and despite their 5-2 record in the BE they were -10.8 ypg (6th best). LY they had an off ypp of 11.6, a def ypp of 17.5 and benefitted from +12 in TO's and 2 net close wins. I don't see them matching LY's 10 win total but if they get better than expected QB play, they will be a contender in the Big East.

CONNECTICUT HUSKIES

RB Lyle McCombs

POSITION OUTLOOK FOR 2012

QUARTERBACKS - UC has struggled passing the football ever since career leader Dan Orlovsky (#5DC) departed after the '04 season (281 ypg, 63%). Since then they have avg'd just 149 ypg (51%), 141 (51%), 186 (56%), 140 (50%), 217 (57%), 151 (53%) and 195 (51%). LY they had to replace their top 3 QB's and the unit ret'd 0 career att's. True frosh Michael Nebrich (most mobile), Johnny McEntee (trick passes YouTube sensation, most accurate) and Scott McCummings (PS#100) battled. McEntee st'd the opener but all 3 QB's saw action. McCummings ran the ball 7 times for 23 yds and hit his only pass for a 55 yd td in that gm. Versus Vandy McEntee hit just 10-27-99 with 4 TO's (3 int's). The 3 QB's comb to only hit 15-36 vs Iowa St (McCummings 10 rushes). McEntee seized the job vs Buffalo and the next week he threw for 300 yds and 4 td vs WM. McEntee's roughest outing was 2-13-20 in the 1H vs Pitt but they stuck with him as the starter as the other 2 had just 4 more pass att the rest of the season. McEntee threw for 2,110 (51.3%, 12-8). HC Paul Pasqualoni said he wasn't wild about playing true frosh and Nebrich (6'1" 208 So, PS#61) played in just 8 (5-14-69). McCummings (5-10-157-2-0) was the #2 rusher with 285 (3.9). TY all 3 return from a unit that was last in the BE in passing (195 ypg) and pass eff (113.2). They could all lose out to either Chandler Whitmer (PS#58JC) or true frosh Casey Cochran (PS#41) who were both IFS.

RUNNING BACKS - UC has had some very productive RB's. Donald Brown was the BE OPOY in '08 (2nd Tm AA) finishing #1 in the NCAA with 2,083 (5.7, 18 td's, #1 DC). In '09 Andre Dixon and Jordan Todman became the first duo in UC history to each rush for 1,000+ in a single ssn. In '10 they had to replace Dixon and Jordan Todman had 1,695 (5.1, #2 FBS ypg). They got USC transfer DJ Shoemate (PS#5) but he had a couple of costly fmbl's which limited his carries to 28 (115, 4.1). LY Todman left early for the NFL (#6DC) and they also lost their FB (#5DC). Shoemate entered camp #1 but suffered a career ending injury. Lyle McCombs is just 5'8" 166 but very quick and rushed for 141 and 4 td's in the opener. UC had 2 small quick backs in true frosh Deshon Foxx and McCombs along with 2 bigger backs in soph Martin Hyppolite (6'0" 214, PS#221) and true frosh Max DeLorenzo (PS#119). McCombs led the RB's in all 12 gms while topping 100 in 6 gms. Hyppolite (inj) missed the ssn. Converted DB Jonathan Jean-Louis was the #2 RB but with only 23 att's (79, 3.4). This year they only lose Shoemate, FB Mark Hinkley (9 st, 7 rec) and Jean-Louis. True frosh Joseph Williams was IFS and LB Mike Osiecki (6'2" 228 So, PS#102) moves to FB. UC avg'd just 3.1 ypc rushing (lowest s/'01) and this unit is vastly more experienced.

RECEIVERS - UC has not had a 1,000 yard receiver since Carl Bond and John Fitzsimmons in 1998. The unit was generally regarded as a weakness from 2005-'08. LY they appeared to have their top 3 back but Michael Smith (#1 w/615, 13.4 in '10) was inelig and 4 bkp WR's (comb 153 yds) trans over the summer. The top returnees were Kashif Moore (452, 12.6), TE Ryan Griffin (245, 7.9) and Isiah Moore (147, 9.8). Dropped passes hurt UC, especially vs L'ville (9). Kashif Moore led with 604 (14.7) while Isiah Moore led in rec's (43, 566, 13.2). Griffin didn't start until Wk 5 but was #3 (499, 15.1). TY they add 2 VHT's in BC transfer Shakim Phillips (PS#22) and Clemson transfer Bryce McNeal (PS#13)! They do lose their top 2 rec's, but have more talent, get back Smith and are stronger.

OFFENSIVE LINE - In '08 UC had 3 st'rs back incl six with 8+ car sts. UC set a school FBS record with 216 ypg rush (5.1) while allowing just 15 sks (4.6%). In '09 they had to replace a #2DC LT and their C (2Y st'r) and dropped to 171 ypg (4.2, 21 sk). In '10 they only had to replace 1 st'r but only improved to 175 ypg (4.5, 15 sk). LY they had to replace a 1st Tm BE RG (3Y st'r) as well as a 2 yr st'r but ret'd 2nd Tm BE C Moe Petrus and 1st Tm BE OT Mike Ryan (71 car sts). With a new system, the numbers surprisingly plummeted to 119 ypg rush (3.1) with 41 sks (11.4%, #118 FBS). TY they lose 1st Tm BE C Petrus (12 st, 4Y st'r), 2nd Tm BE OT Ryan (12 st, 3Y st'r) as well as LG Gary Bardzak (2 st). This is one of those rare situations where a team is less talented (lose top 2) and less exp'd (48 car sts) but should actually improve upon LY's poor numbers.

DEFENSIVE LINE - The Huskies' D-line had performed as expected with veteran units ('05 & '08) allowing just 3.4 ypc rush and less exp'd units ('06 & '07) yielding 4.5 and 4.4 ypc. In '09 UC had to replace 3 st'rs (133 ypg, 3.8). In '10 they had to replace a 1st Tm BE DE (11.5 sk) but had 3 st'rs back. Surprisingly UC allowed 143 ypg (3.9, 27 sks). LY UC had 5 back who started 7+ incl all 4 st'rs (1st Tm BE Jesse Joseph) only losing 1 bkp as DT Kendall Reyes turned down the NFL. Joseph missed the first 5 sts (inj) but as expected, UC improved to allowing 86 ypg and a paltry 2.7 ypc (best numbers s/join FBS) to go along w/35 sks. TY they lose 3rd Tm AA DT Reyes (12 st, 46 tkl, 4.5 sk, 9 tfl, #2DC SD), DT Twyon Martin (11 st, 40 tkl, 3.5 sk, 6 tfl) and Marcus Campbell (4 tkl). They return 5 of their top 8 and Joseph (8.5 sk '10, 1 LY) should return to form but they figure to be down a few notches in '12.

LINEBACKERS - LY UC had to replace 1st Tm BE MLB Lawrence Wilson (#1 tkl'r, #6DC), Greg Lloyd (#7DC) and Scott Lutrus (9 st, 59 tkl). They did return their #2 tkl'r in Sio Moore as well as Jory Johnson (5 st, 35 tkl 2Y). With the loss of 3 solid LB's, the unit looked weaker. UC slipped some to all'g 24.3 ppg (highest s/'06). Moore finished tied for 2nd in the BE in tfl (16). TY the entire 2 deep returns (#1, #2, #3 tkl'rs) and they add in MD transfer Ryan Donohue (PS#124) making them much stronger and more exp'd. Graham Stewart (PS#34) transferred from Fla in May and will apply for a hardship wavier.

DEFENSIVE BACKS - After experienced units finished #25 & #16 in my PDR from '07-'08 with a 2Y ratio of 21-41, a less exp'd unit plummeted to #93 in '09. In '10 UC had to replace a starting CB (#7DC) and FS (2nd Tm BE). They had 2 st'rs back but their 4 st'rs comb for 2 int's and 11 pbu in '09. With so much youth then HC Edsall worked as the S coach (all soph st'rs F/4 gms) and they moved up to #40 (59%, 16-20). LY they had a veteran unit but UC finished with the NCAA's worst pass D in the Big East (#113 FBS, 281 ypg) but they allowed 57.8% (22-18) vs a tough slate of opp QB's and actually ranked #55 in my PDR. They also had a tough rush D forcing tms to throw more. TY they lose SS Jerome Junior (9 st, 60 tkl, 7 pd), FS Harris Agbor (5 st, 26 tkl, 3 pbu) and CB Gary Wilburn (2 st, 21 tkl). They return 4 who have 7+ sts in a season and while they are not quite as experienced, could be stronger.

SPECIAL TEAMS - UC had an uneven pattern in ST finishing #115, #70, #36, #96, #30, #103 and #28 from '03-'09. They stayed near the top in '10 (#17) as K Dave Teggart hit 25-31 FG (L52) and KR Nick Williams was #1 in the NCAA (35.3). Teggart tied his own BE record vs Iowa St by hitting two 50+ FG (50 & 52). He finished first in UC history in car FG (74), xp's (129) and pts (350) hitting 22 of 28 FG (4-4 50+) on the yr. P Cole Wagner improved his net to 37.2 while Chad Christen had 14 TB on 62 KO. Williams was still the top KR (24.9) and the top PR (5.6). Still, UC slipped to #46. TY they lose Teggart but could improve if Williams regains his '10 form and a reliable K is found.

COACHES - Big East vet Paul Pasqualoni was the Syracuse HC for 14Y ('91-'04) and took them to 9 bowls. He is back for his 2nd ssn after spending the previous 6 yrs in the NFL (DC @MIA '08-'09, DAL '05-'07,'10). OC George DeLeone is in his 2nd ssn and held the same position at Syr ('99-'04) and Temple ('06-'07) and then was the Miami Dolphins' TE cch ('08-'10). DC Don Brown was the MD DC ('09-'10) and also has 12 yrs of HC exp (UMass '04-'08, N'Eastern '00-'03 and Plymouth St '93-'95).

PHIL'S FORECAST

Paul Pasqualoni won 4 Big East Titles at Syracuse but LY I mentioned he stepped into a tough situation here. UC has never beaten a team that has finished ranked (AP). In '07 UC earned their first ever AP ranking and were also ranked in '08 but never finished ranked during Randy Edsall's regime. They were Big East co-Champs in '07 despite being -83 ypg (2nd worst). The next 2 yrs they finished 3-4 in Big East play but 8-5 overall. UC had 16 ret sts in '10 and was perhaps the most fortunate team in the country. UC was 2nd worst in the BE at -86 ypg but with smoke and mirrors, finished in a 3-way tie for 1st at 5-2. UC had losses like 30-10 to Mich, 26-0 to L'ville and 48-20 in the bowl to Okla. When the tm had opened 3-4 Edsall was almost forced out the door but they would have 3, 2 and 3 pt wins in their final 5 to actually get to the BCS Fiesta Bowl. The '10 group benefitted from being +12 in TO's. Pasqualoni inherited 15 ret sts in his first yr. They took on my #90 rated schedule (pressn) and were 21-4 in Rentschler Field the previous 4 yrs and had 4 BE HG's. Still, one year after overachieving, they missed the postseason for the first time since '06. They beat Fordham (35-3) but had just 193 yds at Vandy in a 3 pt loss. They jumped out to a 10-0 lead vs Iowa St but a couple of missed FG's kept them from leading by more and they lost 24-20. After beating Buff 17-3 on the road they lost by 7 at home to WM giving up a td with 1:35 left. They went into the half trailing WV 10-9 but lost 43-16. They were outgained 339-253 by USF but got a little of that '10 magic in former HC Skip Holtz's return to Conn and pulled out the win, 16-10. They were pounded at Pitt (outgained 306-80 at half). Pasqualoni faced the tm that had fired him and they beat Syr 28-21 at home. UC had a 329-299 yd edge but UL got a 100 yd KR and 36 yd FR for td's and UC lost 34-20. UC had 24 and 40 yd td drives after TO's early and beat Rutgers 40-22 despite being outgained 430-290. They needed to beat Cincy for their 6th win but trailed 28-6 at half (outgained 225-64) despite the Bearcats starting a bkp QB. UC finished 3-4 in BE play but they were -111.1 ypg which was the league's worst. They also benefitted from +8 in TO's. On the positive side it is Pasqualoni's 2nd yr and they have 14 ret sts and are a +3.0 on my Stock Market Indicator (pg 27). Five of my 9 sets of power ratings call for them to be bowl eligible and I like the added talent at QB and WR.

SYRACUSE ORANGE

DE Deon Goggins

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Since Donovan McNabb departed, this team has been plagued by erratic QB play. In former HC Greg Robinson's 4 yrs ('04-'08) the team completed just 46, 52, 53 and 47%. RFr Ryan Nassib (PS#93) was the projected st'r in '09 but after my magazine went to press, the Orange brought in Duke basketball player Greg Paulus. Paulus was a PS#4 in '04 and had not played football in 4 yrs but started all 12. Paulus set SU records for comp 67.7% (Bill Scharr, 63.3 '89) and for comp's with 193 (RJ Anderson, 186 in '03). Paulus threw for 2,024 but did have a 13-14 ratio. Nassib, who is more mobile and has a stronger arm, threw for 422 (53%, 3-1) in 10 gms and was used in the "Stallion" formation as he runs the zone read option well. In '10 Nassib threw for 2,334 (56%, 19-8, 216 gross rush). Nassib had a lower comp % due to throwing deeper passes but reset the comp record (202). RFr Charley Loeb (6'4" 212 Jr) had 5 att. LY they added John Kinder (6'3" 181 So, PS#62, Sct tm '10, mobile) and true frosh Terrel Hunt (6'3" 203, PS#89). I said Nassib should be one of the most improved QB's in the NCAA and he threw for an SU rec 2,685 (62.4%, 22-9) besting Marvin McGraves (2547, '93). Nassib also matched an SU rec with 29 comp (37 att) vs RI. No other QB had an att. Nassib returns while true frosh Ashton Broyld (PS#87) was IFS (also practiced at RB and WR) so I look for improved numbers once again.

RUNNING BACKS - Last year SU had to replace Delone Carter (#4DC) who led with 1,233 (5.3). The top returnees were Antwon Bailey (PS#86) who had 554 (4.9, #5 rec w/ 306), soph Prince-Tyson Gulley (PS#181, 74, 5.7) and FB Adam Harris (21, 2.6). They also added in true frosh Adonis Ameen-Moore who at 244 lbs reminds some of Jerome Bettis (downhill runner). Bailey led with 1,051 (4.4). Jerome Smith (PS#150) added 134 (3.6) while Gulley had 89 (4.9, 4 gm, OFY shldr) and Ameen-Moore had just 40 (3.3, 4 gm, OFY shldr). This year they lose their 1,000 yd rusher again plus FB Harris (10 st) and have less career yards returning. Adding depth to the unit are FB Travon Burke (6'1" 253 rFr) and RB's Steve Rene (5'7" 176 Jr, PS#132) and Greg Tobias (5'10" 169 So). HC Doug Marrone may also use true frosh QB Broyld here to get his playmaking ability on the field.

RECEIVERS - In '10 Van Chew (10 rec 2 yrs) led with 611 (14.9). Marcus Sales (PS#35) was a poor practice player but when Alec Lemon (397, 12.4) was out, they were forced to play him and he was solid on the field finishing #2 (414, 15.9). TE Nick Provo had 365 (11.1). LY Sales was susp for the season and SU receivers had trouble getting separation and defenses stacked the line. Lemon avg'd 31 ypg in games 4-8 but had 157 vs Conn and 179 vs USF becoming the first SU receiver with B2B 100 yd gms s/'07 (Taj Smith). Lemon also surpassed Mike Williams and Kevin Johnson's SU record of 60 rec with 68 (834, 12.3). Provo set the SU rec for TE's with 51, was #2 with 537 (10.5) and was nearly a Mackey Finalist. Chew added 471 (12.7). Big things were expected from rFr Jarrod West but he landed in the doghouse and had just 151 (9.4). This year they lose Chew (12 st), Provo (12 st) and Dorian Graham (260, 10.8). They get back Sales but Lemon is questionable after shoulder surgery in the spring. While less exp'd they could be improved if everyone is healthy.

OFFENSIVE LINE - In Doug Marrone's first year ('09) the OL had to replace two 3Y st'rs and then shuffled the line to make it bigger for better run blocking. Only 1 OL started all 12 (st'd at 2 diff pos's). They slipped to 127 ypg rush (3.6, 27 sk). With just 1 st'r back in '10 (just 34 car sts ret) they improved to 140 ypg (4.1, 33 sk). LY they had to replace a 3rd Tm BE C (3Y st'r) but returned a Marrone era high 57 car sts. All 5 OL st'd all 12 so it was surprising that the rush numbers dropped to 120 (3.6, 29 sk). TY they lose RT Michael Hay (12 st, 2Y st'r) and 1st Tm BE RG Andrew Tiller (12 st, 2Y st'r, #6DC NO) but return 3 st'rs incl 1st Tm BE LT Justin Pugh. They now have 63 car sts and can only improve upon LY's unexpectedly low rush numbers.

DEFENSIVE LINE - Despite having a veteran D-line in '07, SU yielded 208 ypg rush (4.8), their worst ypg s/'86 and the D had the fewest sks in the FBS (9). In '08 SU "only" yielded 189 ypg (5.0, 16 sk). In '09 they only had 2 ret sts but both were inj'd (comb 13 sts). Marrone did a phenomenal job as they somehow led the Big East in rush D (102 ypg, 3.0) and their 35 sks were the most s/'01 (40). In '10 they had 6 of their top 8 back but had to replace NT Arthur Jones (#5DC). The Orange slipped a little to 136 ypg (3.6, 27 sk). LY they had to replace 2 st'rs and a productive bkp (3 st). I said that while they were a little less experienced, they should at least match '10's production. Their top DL, Chandler Jones, missed 5 sts (inj) but the Orange still improved slightly to 128 ypg (3.5, 28 sk). TY they lose 1st Tm BE Jones (7 st, 38 tkl, 4.5 sk, #1DC NE), DE Mikhail Marinovich (11 st, 24 tkl, 2 sk) and DE Torrey Ball (6 st, 31 tkl, 3 tfl). They have 2 st'rs back once again and add in 2 JC's and could be stronger.

LINEBACKERS - In '10 SU had two LB's on the preseason Bednarik watch list and allowed just 19.3 ppg, their best s/'01. LY they had to replace 1st Tm BE Doug Hogue (#2 tkl'r, #5DC), 1st Tm BE Derrell Smith (13 st, 2Y st'r, #1 tkl'r) and 2 bkp (comb 25 tkl). They ret'd 1 st'r and the rest of the LB's had 16 career tkl. They had just 8 schlp LB's and 8 of their 11 LB's on the roster were either 1st yr players or walk-ons. The unit was hit by injuries (no LB st'd all 12) and slipped to yielding 28.5 ppg. TY the unit returns intact and is stronger and much more exp'd.

DEFENSIVE BACKS - The Orange finished just #90, #117, #107 and #111 in my PDR from '06-'09. In '10 they had 5 back who had 7+ sts in '09 giving them their most exp'd secondary in yrs. I called for SU to have the best finish in my PDR since '05 (#36) and they did, finishing #64. LY they had to replace both starting CB's and a S (5 st, #8 tkl'r). The Orange dropped to #84 (62.4%, 21-10) as no DB started more than 10 (inj's and susp). TY they lose CB Kevyn Scott (9 st, 29 tkl, 2 int, 4 pbu), Olando Fisher (1 st, 17 tkl) and FS Phillip Thomas (10 st, #1 tkl'r, 3 pbu, 6 int). This unit is on par with '11 in terms of exp and should improve in my PDR.

SPECIAL TEAMS - Under Paul Pasqualoni, Syracuse had some fine finishes in my ST rankings including #2, #11, #8 ('95-'97) and #15 in '02. In Greg Robinson's 4 yrs they finished #80, #45, #51 and #46 showing that even in down years SU does well in my ST rankings. In Marrone's first 2 yrs ('09-'10) they finished #93 and #44. LY they had to replace their outstanding P Rob Long (38.5 tm net) and top PR (10.3). Ross Krautman had an SU record 16 straight FG's end on a 32 yd blk'd FG vs WF in the opener. P Shane Raupers avg 37.4 but true frosh Jonathan Fisher (PS#24) took over and avg 39.3 (tm net 34.8). Krautman had 3 TB on 53 KO's. Syracuse was -4.5 on PR and -1.0 on KR and only finished #90. TY all of the key players are back and I'll call for a good sized jump in my ST rankings.

COACHES - Doug Marrone was the OC with the NO Saints ('06-'08) and an OL coach with the NYJ ('02-05). He is a disciplinarian who weeded out many players in his first season ('09). In his 2nd season he led the 'Cuse to their first bowl win s/'01. Marrone called his own plays in '10 but LY promoted Nathaniel Hackett (QB cch here '10) who was an NFL off quality control cch (TB '06-'07, BUF '08-'09). DC Scott Shafer (4th yr) was previously the DC at Michigan ('08), Stanford ('07) and W Mich ('05-'06).

PHIL'S FORECAST

Former HC Paul Pasqualoni only had one losing season in his 14 yrs. In his final season ('04) they faced the toughest schedule of any Big East team yet still won a share of the Big East Title (4-way tie) and went to a bowl. They fired Pasqualoni and the next 4 yrs were disastrous under Greg Robinson. Any time you switch from an option based attack to the West Coast offense, you can expect a 3 to 4 year learning process (ask ND and Neb). They went just 10-37 in that 4 yr stretch (3-25 in BE) and were by far the worst in ypg each year (-142, -158, -187, -141 ypg). Doug Marrone came in and cleaned house. I circle players that are either inj'd or leave the program on my magazine pages and amazingly SU had 30 circles by the end of '09. I thought Marrone did a solid job in his first year with the fewest schlp players in the FBS guiding the team to a 4-8 record and despite a 1-6 mark in conf play they were +4.9 ypg (3rd in BE). In '10 they were up to 75 schlp players, had 14 ret sts, and were coming off an '09 ssn when they had 41 sts lost, plus had a def ypp of 12.1 (pg 309). The Orange were picked 7th by the BE media (1 pt ahead of L'ville) after having been picked last in each of the previous 5 yrs. By mid Oct they were down to 60 healthy schlp players. SU amazingly won all 4 BE road games for the first time since the conf began and got to their 1st bowl s/'04. After beating KSU in the Pinstripe Bowl, SU finished 8-5 for their best record s/'01. LY they had Marrone's deepest squad (82 schlp ply'rs) and only 3 BE AG's (4 home). Pointing downward was the fact they had 4 net close wins (pg 309) in '10. SU overachieved in each of Marrone's first 2 seasons and I said they would not match the 8 wins and called for them to finish last in the BE. SU trailed WF in the opener 29-14 when WF lost their starting QB and they rallied for a 36-29 OT win. After getting past RI by 7, they trailed USC 38-10 in the 4Q and lost by 21. They missed an xp vs Toledo but it was counted as good and SU won in OT (BE later admitted their officials blew the call). At the half RU had a 187-88 yd edge but SU led 7-3. SU led 13-3 in the 3Q but lost in 2OT. SU jumped out to a 24-7 lead but needed a 21 yd FG on the last play to beat Tulane, 37-34. SU played by far its best game of the ssn vs WV with a 49-23 win on a Fri night. They were outgained 343-246 and lost by 17 at L'ville. Pasqualoni (new HC at Conn) hosted SU and UC had five 1H TO's and the game was tied at 7 but UC won 28-21. At home vs USF they lost by 20. Cincinnati had a bkp QB but still prevailed at SU, 30-13. In the finale with the winner gaining bowl eligibility, Pitt defeated the Orange 33-20 and SU fell to 5-7. LY, while they were 1-6 in the BE, they were only -11.9 ypg. They did have 2 net close wins. TY they have 4 BE away games (only 3 at home) and just 12 ret sts with the 66% lett ret the lowest in the league. Marrone has overachieved my expectations each year and my main set of power ratings calls for 5-7 so they might be an upset away from a bowl.

TEMPLE OWLS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 Vaughn Charlton and Chester Stewart split the QB job. Stewart made 4 starts and completed just 40% (514, 3-3) and the team had their weakest totals of the Al Golden era (146 ypg, 48%, 13-14). In '10 Charlton (6'4" 252) moved to TE and Stewart started the first 7 (842, 53%, 4-5). Mike Gerardi (1290, 60%, 10-8) started the final 5 and set a TU record for a 1st yr st'r with 368 vs Kent St. RFr Chris Coyer hit 2-2. LY all 3 ret'd and they added in PS#197JC Clinton "Juice" Granger. The QB race went down to the wire and Stewart was susp'd for the opener and Gerardi beat out Coyer for the 1st start. Stewart got his first start vs MD and hit 9-9 but later had 2 straight gms without topping 100 yds passing (UB, BG). Coyer had just 1 rush vs Ball St (74 yd td) while also posting a 68 yd TD run vs Villanova as he is a perfect fit for Addazio's offense (mobile, athletic, good arm). I was impressed with Coyer vs Ohio as he sparked the offense and took the starting job. He was inj'd (hand) vs Kent St but ret'd for the bowl and was named off MVP (8-12-169, 71 rush). For the ssn, Coyer only had 50 pass att's (463, 60%, 6-0) and 69 rushes (562, 8.1). Overall TU's 3 QB's threw for just 127 ypg (58.6%, 11-4). This year they lose Stewart (743, 65.1%, 2-2) and Gerardi (442, 50.8%, 3-2) but return Granger (RS), Connor Reilly (PS#119) and add VHT Penn St transfer Kevin Newsome (PS#10). Temple is in the 2nd year of the Addazio system and should have much improved numbers.

RUNNING BACKS - One of the best kept secrets in college football was Temple RB Bernard Pierce. In '09 he was not cleared until 2 days before the opener but he became the first TU RB to have B2B 200+ gms (212 Tol, 267 Navy) since Paul Palmer ('86, #2 Heisman). He missed the final 2 but finished with 1,361 (5.8) and was a frosh AA. Matt "The Bug" Brown who is 5'5" (165 lbs) added 156 vs Kent St and 172 vs Ohio, finishing #2 with 529 (5.9). Pierce was promoted for the Heisman in '10 but was banged up (only 5 st) and had just 728 (4.7). Brown led with 830 (5.1) incl 226 vs Army. LY both ret'd and Pierce was the MAC East Off POW four times while Brown earned the honor twice (1 as KR). Pierce rushed for a TU rec 27 td's (5 vs MD, also TU rec) despite being banged up again missing 1 (1481, 5.4). Brown started and played every offensive snap in the win over Miami and finished with 916 (5.9, 3rd Tm MAC). The #3 RB was Kenneth Harper (128, 3.9). Pierce (3x 1st Tm MAC) declared early for the NFL (#3DC BAL) and while Brown is capable, his size will not allow him to be an every down back the entire season.

RECEIVERS - Michael Campbell led the tm in rec in both '09 (419, 15.5) and '10 (724, 16.1). They had to replace Campbell LY but had 5 of their top 6 back. The leading returnee was 6'4" Rod Streater (#2, 481, 16.0 in '10) and while he had the best ypc in '11 at 21.1, he had just 19 rec (401). TE Evan Rodriguez (PS#43, 247, 11.8 in '10) led with 479 (13.7, 1st Tm MAC). Joe Jones was #3 with 322 (10.7). Only one other rec topped 100 yds on the ssn and that was soph Deon Miller (253, 14.1). TY they lose Streater (7 st), 2x 1st Tm MAC Rodriguez (12 st, #4DC CHI), TE Matt Balasavage (9 st, 1 rec) and Jones (8 st). While this unit is less exp'd and loses their top 3, they could actually produce better numbers in the 2nd yr of the new system.

OFFENSIVE LINE - When former HC Al Golden took over in '06 he said the O-line had not had a full year in the weight room and would improve after that ssn. In his first yr they had just 54 ypg rush (1.9) with 48 sks. As projected, they made improvement each year and in '09 rushed for 187 ypg (4.4, 21 sk). In '10 they lost a 2nd Tm MAC LT but had 4 st'rs back (107 car sts, avg 324 lb). Just 1 OL st'd all 12 with 10 diff OL starting (inj's) and they dropped to 150 ypg (4.2, 24 sk, 8.1%). LY they had to replace a pair of 1st Tm MAC OL but even with just 3 ret sts they had 111 car sts. I mentioned they should maintain better health and Temple made great strides improving to 257 ypg rush (5.2, 21 sk, 10.6%). TY they lose 1st Tm MAC LT Pat Boyle (13 st, 2Y st'r), LG Derek Dennis (13 st, 3Y st'r), 3rd Tm MAC RT Wayne Tribue (13 st, 3Y st'r), C John Palumbo (5 st, 2Y st'r) and C Jeremy Schonbrunner (8 st). They are much less exp'd (1 ret st'r, 29 car sts) plus with the fact that they lose their star RB, I'm not going out on a limb by saying their numbers will be down.

DEFENSIVE LINE - TU had some horrible rush D's including 6.0 ypc in '06 (worst 20 yrs) but made strides under Golden. In '09 TU had to replace 2 st'rs (#3 DC). They ret'd NT Andre Neblett who drew constant double teams while Adrian Robinson earned MAC Def POY (13 sk). Temple went from allowing 166 ypg (4.1, 18 sk) in '08 to the #18 FBS rush D (108 ypg, 3.2, 34 sk) in '09. In '10 they had to replace 1st Tm MAC Neblett and moved DE Amara Kamara (9 st) to LB. They ret'd a pair of 1st Tm MAC DL's in Robinson and DT Muhammad Wilkerson. As expected, the numbers slipped a little to 140 ypg rush (3.6, 24 sk). LY they had to replace Wilkerson (#1DC) and a 1st Tm MAC NT. They had 6 w/st exp and moved TE Morkeith Brown back to DE. They also added in Marshall transfer John Youboty. Temple improved to 124 ypg (3.6, 33 sk). TY they lose their star in 3x 1st Tm MAC DE Robinson (13 st, 52 tkl, 6.5 sk, 7 tfl), 3rd Tm MAC DE Morkeith Brown (13 st, 40 tkl, 4 sk) and Morris Blueford (15 tkl) but should still be strong up front.

LINEBACKERS - LY Temple had to replace their #2 and #4 tkl'rs but did have a pair of senior st'rs and improved to allowing 13.9 ppg, their best since 1962. TY they lose 1st Tm MAC Tahir Whitehead (12 st, #3 tkl'r, 13.5 tfl, #5DC DET), 3rd Tm MAC Stephen Johnson (13 st, #1 w/123, 4.5 tfl) and Quinten White (15 tkl, 1 sk) as they only return their #7 and #10 tkl'rs. While they have 1 ret st'r like LY this group is less exp'd, have an upgraded schedule and will move down a few notches.

DEFENSIVE BACKS - In '08, Temple had 3 st'rs (9 w/st exp) back. They had their best finish in my PDR s/'96 at #69. In '09 they had just 2 st'rs back. Even though FS Jaiquawn Jarrett was 1st Tm MAC, Temple dropped to #96 as tms had to throw more often with a tougher rush D. In '10 they had to replace 1.5 st'rs but had FS Jarrett and PS#26 Marquise Liverpool at CB. As you would expect, Temple improved to #58. LY they had to replace those 2 (Jarrett #2DC) but ret'd 5 who had 7+ car sts. I said that despite the loss of their 2 stars, they could come close to '10's finish and they improved to #45 (57.4%, 13-15). TY they lose Kee-Ayre Griffin (12 st, 49 tkl, 3 int, 2 pbu) and FS Kevin Kroboth (13 st, #2 tkl'r, 3 int, 7 pbu). Six of the top 8 are back again and they don't lose a #2DC and will be strong once again.

SPECIAL TEAMS - From '04-'07 Temple had a comb 7 wins and their ST units ranked #112, #119, #113 and #117. In '08 I called for a big upswing and they moved up to #38, then they fell back to #51 ('09) and #69 ('10). LY they had to replace their P (33.6 tm net), top PR and KR James Nixon (29.2 '09, 23.4 '10). They ret'd K Brandon McManus (13-20 FG, long 53, 7 TB KO). I said Temple could improve and they exceeded my expectations. McManus hit 16-22 FG (L41) and had 22 TB on 78 KO while avg a super 45.8 (net 38.6). Matt Brown avg 25.1 on KR and 10.1 on PR and they even recorded a fake punt for a TD vs Buf. Since '99 Maryland had the longest streak w/o a blk'd punt (139 gms) but Rod Streater ended that streak. TY all of the key players return and while this unit looks to be improved, they may actually slip a few notches in my ST rankings (#6 LY).

COACHES - Steve Addazio was on the Florida staff for 6 seasons ('05-'10, L2 as OC). Previously he was an OL cch at Indiana ('02-'04, OC in '04), ND ('99-'01) and Syr ('95-'98). Addazio's 9 wins was the highest ever for a 1st year HC here and he led them to their 2nd ever bowl win ('79). LY's OC Scot Loeffler took the same post at Auburn and TY Ryan Day (WR cch BC L5Y) takes over. The DC is Chuck Heater (DB cch Florida 6Y) who's been a college coach s/'76 at 9 diff schools (mostly DB cch) and coached with Urban Meyer at 4 diff D-1 schools.

PHIL'S FORECAST

Coming into '09, the Owls had not had a winning season in an amazing 18 str yrs and in '08 they topped 4 wins for the first time s/'90. The Big East booted Temple out after the '04 ssn. Playing as an Ind without any chance of winning a conf title and taking on a killer schedule, they struggled. I called for them to join the MAC in '05 and '06 and they finally did so in '07. In their first 2 yrs in MAC play they went 8-8 and in the last 3 yrs 17-7. Temple was actually -71 ypg in conf play in '08 but in '09 they were finally up to their full allotment of schlp players. I pegged the Owls as one of my Most Improved Teams meaning I expected them to go from a losing season to a bowl. The Owls were 7-1 in the MAC but lost to Ohio (without RB Pierce) and surprisingly were only +4.8 ypg. They finished 9-4 but did lose to UCLA in their first bowl s/'79. Temple appeared to be the best team in the MAC in '10. Showing their depth, Temple played just 5 frosh after playing the most frosh in the nation in '06 and '07. An NFL scout called them "big, big, big and athletic" and Joe Paterno said "there weren't any fat kids out there, they were all rangy kids." Temple again lost RB Pierce late (inj) and lost to both Ohio and Miami without him and finished 5-3 in the MAC and failed to get to the Title gm. Despite having a win over the Big East Champ, and being 8-4, they did not get invited to a bowl. I mentioned that Addazio stepped into a good situation as Temple could have easily been a MAC Champ in both '09 and '10 had Pierce not been inj'd so despite just 12 ret sts, I pegged them 2nd in the East (media 3rd). At times, Temple played like the best tm in the MAC. They destroyed Villanova and Akron (comb 83-10) and barely lost to Penn St 14-10. Temple then thrashed MD 38-7. They outgained Toledo 318-305 but due to being -3 in TO's, lost by 23. They shut out Ball St and Buff in B2B wks (76-0). They were stunned at BG, 13-10 and then lost at Ohio by 4 in a gm that determined the East Title. TU did not have Pierce and gave Coyer his first st vs Miami and won 24-21. They then whipped Army, KSU and WY in the bowl by a combined 113-45 and finished 9-4 getting their first bowl win s/'79. Temple was +56.6 ypg in MAC play (4th best) and did have 2 net close losses. Factors pointing downward is that they were +9 in TO's LY, had beneficial off (12.5) and def (22.4) ypp's, only have 8 ret sts (fewest in the BE) and lose their top ply'r in RB Pierce. None of Temple's wins the L3Y have been vs a MAC tm that achieved a winning record. This looks like a rebuilding year with the step up to a BCS conf.

PHIL STEELE'S 2012 MOUNTAIN WEST FORECAST

1. BOISE ST - Last year I had Boise pegged as the highest rated non-BCS team and while they blew their MW Title (and a possible shot in the National Title game) with a missed FG against TCU, Boise did finish as the highest ranked non-AQ team (#8). This is the least exp'd team HC Chris Petersen has fielded with just 7 ret st'rs. Despite the inexp, I still pick them to win the MW as I learned my lesson in 2004 which was the last time this team had this little exp (10 ret st'rs, lost NCAA's #1 pass eff QB and WAC POY). I actually pegged Boise 2nd in the WAC that year but they finished #1 at 11-1 despite the inexp. Boise does have to play Nevada on the road in the finale which may be the deciding game in the MW this year. While they lost the last time there, the Broncos still get my call as the best team in the MW in 2012.

2. NEVADA - Nobody really expected Nevada to win the WAC in 2010 but when Boise missed a late FG in Reno, the Wolf Pack did just that. They actually finished 13-1 and #11 in the final AP poll. TY's team is not as strong as that version which was led by QB Colin Kaepernick but as long as QB Cody Fajardo stays healthy, they have a shot at repeating 2010's magic. UN gets Boise at home in the season finale and just as important is the fact that their 3 conf road games are vs my bottom 3 teams. They should be a solid favorite in all of their MW games with the exception of Boise and possibly Air Force. The MW Title game could be decided on Dec 1st as my two MW favorites square off.

3. FRESNO ST - Many times when a long-time successful HC has a disappointing final season his successor steps into a good situation and that is the case for Tim DeRuyter. Fresno was actually +25.3 ypg in WAC play LY despite their 3-4 record. They were -14 in TO's, had 2 net close losses and a def ypp of 12.4 while earning +4.0 in my Stock Market Indicator. FSU also goes from having just 10 to 14 ret st'rs and as long as QB Carr adapts well to the spread offense, this will be one of the most improved teams in the country. They make my coveted Most Improved Teams (pg 19).

4. AIR FORCE - The Falcons rarely return a lot of st'rs and this year have just 6 back which is the fewest since 2004 when they went just 5-6. With 14 st'rs back LY, AF underachieved as expectations were extremely high yet they finished just 3-4 in the MW despite being +67.3 ypg. AF avoids Boise and will be under the radar this year which is where they perform best.

5. SAN DIEGO ST - There are some factors that have me calling for the Aztecs to drop TY. They were +12 in TO's, have just 12 ret st'rs, lose their 2 best players (QB Lindley and RB Hillman), play 4 of the MW's toughest teams on the road and don't get to face NM. I have great respect for HC Rocky Long and this is a team that can overcome those obstacles. While they won't match LY's 8 reg ssn wins, it looks like it could be a 3rd straight postseason for the Aztecs.

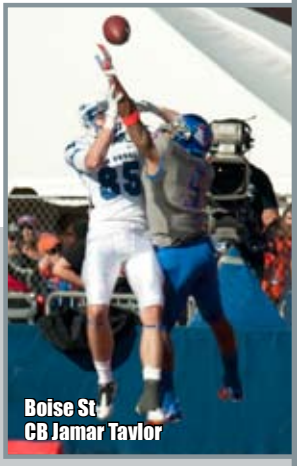
5. WYOMING - Things went WY's way LY as they won 8 reg ssn games but did benefit from 5 net close wins, +12 in TO's, beneficial offensive ypp (14.9) and also TY are -3 in my Stock Market Indicator (pg 27). TY's WY team is stronger than the 2011 version and now has a veteran QB after playing as a true frosh in '11. They also get a beneficial MW schedule drawing both NM and UNLV on the road which means they host both teams directly above them and the team directly below them. They lose just 16 lettermen (fewest MW), and while they were -39.6 ypg in MW play, they have a shot at a 2nd consecutive postseason.

7. COLORADO ST - LY I was very high on CSU and while the Rams opened up 3-1, they lost 2 key defensive players to injury, suffered some close losses and finished a disappointing 3-9. They were one of the rare teams that made my MIT list that didn't make it to bowl eligibility. This year's team has that capability. They did expel 3 key players in the spring in DE Capi, LB Orakpo (trans) and NT Paulhus and if the 2 DL return, CSU has the talent (15 returning starters), the synergy (new HC fresh off a National Champ) and the schedule (avoid UN). While the potential loss of all 3 expelled players is daunting, I still think Colorado St has a decent chance to become bowl eligible.

8. HAWAII - Last year Hawaii was actually the media's preseason favorite to win the WAC but I had the Warriors picked lower than everyone else. They started 5-3 but then lost QB Moniz to injury and lost 4 of their final 5 games finishing tied for 4th in the WAC at 3-4. UH was -19.6 ypg. TY they have just 10 ret st'rs (3rd fewest MW) and are undergoing a coaching change and scrapping the 4 WR offense. Two of their HG's are against the MW's top teams and I will call for UH to have fewer than 6 wins overall for just the second time in 12 yrs.

9. UNLV - Things have not gone the way Bobby Hauck would have liked as at Montana he had an 80-17 record incl 7 straight playoff appearances but here has won just 2 games in each of his first 2 years being -148.3 and -143.5 ypg in MW play. This year UNLV has just 12 ret st'rs and their 25 lett lost is most in the league but this is stil Hauck's strongest team in 3 years and most of their HG's in MW play are winnable so they could easily finish higher than this projection.

10. NEW MEXICO - TY My main 3 sets of power ratings call New Mexico the weakest team in the MW. There is no doubt the last 3 years they have been one of the weakest FBS members with a combined record of 3-33 while being outgained in the MW by -78.6, -208.5 and -179.8 ypg. Bob Davie will quickly have NM pointed upward and while this team is one of the most improved in the country, they do have a lot of ground to make up on the rest of the conf. However, I'll still call for them to at least equal the amount of wins they had in the previous 3 years combined.



Boise St CB Jamar Taylor

MW Notes: The Mtn Network which has ceased operations was only available in 13 million homes (Big Ten Network in more than 80 million). The conference quickly inked a deal for their games to be broadcast on a variety of different stations in '12. Next year Boise and San Diego St depart for the Big East but San Jose St and Utah St will be added and there has been talk of a possible merger with CUSA. The MW was 23-17 in non-conf gms LY with 7 wins vs FCS tms. They were 2-8 vs AQ and 14-9 vs non-AQ. They had 12 players taken in the draft. While they went 2-3 in bowls they finished with 2 teams in the Top 25 incl 1 Top 10 but do lose TCU to the Big 12.

BOISE ST BRONCOS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Boise has had some fine QB's excel in their system. Bart Hendricks was the Big West OPOY twice ('99 & '00) and Ryan Dinwiddie ('00-'03) left as the Broncos' career passing leader setting the NCAA record for career pass eff (168.9). In '08 I projected VHT rFr Kellen Moore (PS#24) to win the job even though he was not the starter out of spring. Moore became the first frosh QB to start the opener here and showed how much success a VHT could have in this system. He threw for 3,486 (69%, 25-10) and followed that up in '09 by throwing for 3,536 (64%) with an amazing 39-3 ratio. In '10 he was the FWAA's AA QB and finished 4th in the Heisman voting after throwing for 3,845 (71%, 35-6) and leading the NCAA in pass eff (182.6). The 2nd most att's in '10 belonged to Joe Southwick (17-24-202). LY Moore set the NCAA record for most wins by a starting QB with 50 (3 losses by 5 ttl pts) and became the 1st player in FBS history to top 3,000 ttl and 3,000 pass yds in 4 diff seasons. Moore threw for 3,800 (74.3%, 43-9). He leaves holding almost every Boise passing record and finished as the 2nd least int'd QB in FBS hist. Southwick played in 8 (198, 76.7%, 1-1) and rFr Grant Hedrick played in 8 (3 att) as the Wildcat QB (70 rush, 8.8). TY those 2 return and will battle rFr Jimmy Laughrea (PS#55) and true Nick Patti (PS#65) who was in for spring. I expect the new Boise QB to put up similar numbers to past QB's but clearly, there will be a drop off replacing a player like Moore.

RUNNING BACKS - In '09 Doug Martin (the "Muscle Hamster") was the #2 rusher with 765 (5.9) and Jeremy Avery led with 1,151 (5.5). In '10 Martin took over with 1,260 (6.3) while Avery dropped to 495 (5.2). DJ Harper, who was coming off an ACL inj, was lost after 3 (160, 8.9). LY they had to replace Avery but Martin with his aggressive, violent running style became the 5th Boise rusher with B2B 1,000 yd seasons (1299, 4.9). Harper finished #2 557 (4.8) and Drew Wright had 218 (5.1). TY they lose Martin (#1DC TB) and Raphiel Lambert who tore his ACL in spg. Not listed below are Phillip Hogan (5'6" 163 rFr) and FB Jamal Wilson (6'1" 240 rFr). Harper was granted a 6th year and will be another productive Boise RB but I'll call this unit down a few notches TY.

RECEIVERS - The WR's were the biggest concern on the team heading into '11 as they had to replace the school's #1 and #2 career leading rec's in Titus Young (#2DC, 1215, 17.1) and Austin Pettis (#3DC, 951,13.4). The leading returnees were Tyler Shoemaker (582, 18.2), TE Kyle Efaw (299, 12.5) and Geraldo Boldewijn (changed name from Hiwat) who had 160 (14.5). Boldewijn, who is the biggest (6'4") and fastest of the WR's, sat out the first 4 and had just 266 (14.0). Shoemaker led with 994 (16.0) and a schl rec 16 td's (Pettis, 14 in '09). Frosh Matt Miller set the BSU frosh record for rec's with 62 (679, 11.0) and rec td's (9) incl a 46 yd Hail Mary vs WY which he caught on his back. Mitch Burroughs (PS#151) was #3 with 500 (10.2). TY they lose Shoemaker (7 st) and Efaw (8 st, 264, 8.5). Not listed below are TE's Jake Hardee (6'3" 231 rFr) and Hayden Plinke (6'4" 240 Fr). Even with the loss of 2 st'rs, incl their top guy, this unit is more exp'd and less of a question mark TY.

OFFENSIVE LINE - In '10 Boise had 4 st'rs back (88 car sts). As you would expect they improved to 200 ypg rush (5.4) with just 8 sks (1.9%, #2 FBS). LY they had to replace 2 st'rs (2nd Tm WAC G) but did return 98 car sts (#13 FBS) incl 1st Tm WAC LT Nate Potter and 2x 1st Tm'r C Thomas Byrd. Byrd started only 4 (inj) and new starting RG Jake Broyles was lost after 3. With the move up in competition, Boise's numbers dropped to 172 ypg rush (4.5) but Moore's quick release kept them at 8 sks (1.7%). TY they lose 1st Tm MW Potter (13 st, 4Y st'r, #7DC ARZ), C Byrd (4 st, 3Y st'r) and RG Chuck Hayes (10 st). The Broncos have had a 1st Tm All-Conf LT 8 yrs running. They do return 2nd Tm MW LG Joe Kellogg, RT Charles Leno (who protected Moore's blindside) and 64 car sts but the sks will likely climb with an inexp'd QB.

DEFENSIVE LINE - In '10 the entire 2 deep ret'd and I said Boise could top '06's dominant rush D totals (89 ypg, 3.2). They allowed just 2.9 ypc (104 ypg rush) and had 49 sks (best s/'97). LY they had to replace a 1st Tm WAC DE but ret'd 1st Tm WAC DT Billy Winn, 1st Tm WAC DE Shea McClellin and 2nd Tm WAC NT Chase Baker. They also ret'd PS#39JC Tyrone Crawford (bench 225 28x) who had 7 sks in '10. Boise surprisingly slipped to 110 ypg (3.5, 24 sk) despite the fearsome front 4 as they had to take on an option team in AF (97.2 ypg w/o them) and tougher competition. TY they lose 1st Tm MW DE Crawford (11 st, 44 tkl, 6.5 sk, 7 tfl, #3DC DAL), 1st Tm MW DE McClellin (13 st, 50 tkl, 7 sk, #1DC CHI), 2nd Tm MW DT Winn (12 st, 33 tkl, 3 sk, #6DC CLE), NT Baker (10 st, 22 tkl, 2.5 tfl) and DE Jarrell Root (6 st, 24 tkl, 2 sk). They ret only 5 car sts and could have 2 or 3 frosh starting but do add a PS#23JC.

LINEBACKERS - In '09 Boise incorporated the NB into the D, which I include with the LB's. In '10 the entire 2 deep ret'd (8 w/st exp) with 4 full-time st'rs. They even moved DE Byron Hout (PS#30) to LB and he stared 9 st (inj) earning 2nd Tm WAC. Boise allowed just 12.8 ppg (#2 FBS). LY they had to replace a 1st Tm WAC NB (#4 tkl'r) and 2 bkps (4 st, 52 tkl). They ret'd 2 st'rs and bkp JC Percy (3 st, #2 tkl'r) and I called them just as strong. A surprising stat to me was that a LB hadn't led the team in tkls s/'07 or been a 1st Tm All-Conf selection s/'06. Hout broke the first streak (#1 tkl'r) but they only landed two 3rd Tm MW LB's. Boise slipped to allowing 18.7 ppg. TY they lose Hout (13 st, 4 tfl), WLB Aaron Tevis (13 st, #6 tkl'r, 2.5 tfl) and NB Hunter White (3 st, #9 tkl'r). HC Chris Petersen will mold a solid group but this unit is clearly less exp'd (return #5, #18, #21 tkl'rs).

DEFENSIVE BACKS - Over the last 10 years Boise has been #8, #6, #15, #52, #15, #20, #4, #11, #2 and LY #40 in my PDR. LY they had to replace a 1st Tm WAC S (#1 tkl'r), 2nd Tm WAC CB (#7DC) and a bkp. The main reason for their drop was likely due to inj's. Jerrell Gavins looked like the best CB with 3 int's in 3 gms but was OFY. Jamar Taylor started just 9 and Ebenezer Makinde only 4. The banged up secondary got lit up by TCU (473 yds), SDSt (350) and in the bowl (395). TY they lose SS Cedric Febis (11 st, 49 tkl, 1 int), FS George Iloka (13 st, #2 tkl'r, #5DC CIN), Quaylon Ewing-Burton (4 st, 26 tkl) and SS Travis Stanaway (3 st, 38 tkl). They do have 6 back who drew starts LY and I'll count it as 2 ret st'rs which is one more than LY. Boise should remain healthier and move back up to their normal level.

SPECIAL TEAMS - Boise has always had a top-notch ST unit and from '99-'08 they finished #32, #23, #28, #28, #2, #4, #19, #59, #10 and #2. All of their key players were back in '09 and I had them rated as the #1 ST unit in my magazine and they finished #1. In '10 they slid to #31. LY P Brad Elkin avg 42.0 (tm net 37.8, 25 I20) while rFr Dan Goodale became the 3rd of the last 4 starting K's to have walked on from a local HS. A FG crushed Boise fans in '10 (Nev) and LY Goodale missed a 39 yd GW attempt vs TCU. He and Michael Frisina comb to hit 6-9 (L32) and missed 8 xp's. I expect a schlp frosh to take over at K. In '11 despite losing their K, P and top KR's I said they could improve and they exceeded my expectations finishing at #11. They lose their P and top KR but a Top 25 finish here is becoming commonplace.

COACHES - In 6 short ssn Petersen has become BSU's career leader in wins (Tony Knapp 71-19-1, '68-'75) and has led them to 6 str 10 win ssns (tied FBS longest active streak, VT). Petersen is the only HC to ever win the Paul "Bear" Bryant COY Award twice ('06 & '09) and added the Bobby Dodd COY in '10. OC Bryan Harsin left for Texas after '10 and Brent Pease took the Florida OC job TY. Robert Prince becomes the 3rd OC in 3Y and ret'd here LY (BSU '01-'03) as the pass gm coor. Prince was the WR cch at Colo ('10) and an NFL asst for 6Y. DC Pete Kwiatkowski is in his 3rd ssn after being promoted from DL cch ('06-'09).

PHIL'S FORECAST

Boise St joined the WAC in '01 and despite coming from the lower level Big West conf, they thoroughly dominated the league for their 10 yr stay. While the Broncos didn't win EVERY championship, they went a remarkable 75-5 (94%) in WAC play (+161 ypg). In my '06 magazine I projected Boise to earn a BCS bowl berth. I had to sweat out a couple of games but they ran the table then beat Okla in the Fiesta Bowl (#5 AP). In '07 I proj Boise's run of 5 str conf champs to end and that's exactly what happened (10-3, NR). In '08 they went 12-1 with their lone loss to TCU in the bowl (by 1) and finished #11. In '09 **I listed Boise as the #1 non-BCS team** despite having the fewest schlp Sr's in the FBS (4) and they did not disappoint going a perfect 14-0 topping TCU in the Fiesta Bowl while finishing #4. In '10 they had an amazing 19 ret sts. After they knocked off VT, not a day went by that Boise and the BCS Title game were not brought up in the same sentence. That all ended on a chilly night in Nevada when Boise missed a pair of key FG's and blew a 24-7 lead. They beat Utah 26-3 in the bowl and finished #9. In '11 they moved to the MW and only 2 of the 47 FBS tms that switched conf's s/'92 had made it through their new league unscathed but Boise was the consensus pick to win the MW. I had pegged Boise as my top rated non-BCS tm and they actually came within 1 play of playing in the National Title gm. They had 14 ret sts and were ranked #5 AP. As part of their contract they could not wear their blue uniforms at home for MW games. They beat Georgia, 35-21 in Atlanta. They beat one of the MAC's best (Toledo) on the road 40-15 then steamrolled one of CUSA's best (Tulsa) pulling QB Moore with 9:25 left in the 3Q (34-0). Revenge was on their mind and they led Nev 30-0 after 3Q's. Fresno didn't cross midfield until it was 30-0 (2Q). Boise waxed Colo St (schl rec 742 yds). Petersen surprisingly did not spend any extra prep time for the AF option and it showed as they gave up 26 pts and 408 yds and only won by 11. After a bye they were tied late 1H with UNLV (14-14) but went on to a 48-21 win. Boise missed the gm winning FG in a 1 pt home loss to TCU and their 66 gm reg ssn win streak was snapped. They beat SDSt 52-35. Vs Wyoming they had a 46 yd Hail Mary td pass with :00 left in the half to lead 13-7 and won 36-14. In Moore's FHG they shut out NM 45-0 and in the bowl they dominated Ariz St 56-24. They go from having one of the most exp'd tms in the country the L2Y to having one of the least as they return just 7 st'rs including 2 on D and of course lose their legend, Moore. LY they were +174.9 ypg which was tops in the MW. The last time they had less than 10 ret sts was '96 and that tm went 2-10. The last time they lost their QB and had just 10 ret st'rs, however, they went 11-1 in '04 and Boise is my pick to win their first (and final) MW Title.

NEVADA WOLF PACK

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Colin Kaepernick took over mid '07 and earned WAC FPOY, WAC OPOY in '08 and became the FIRST player to ever have 3 consec 2,000 pass/1,000 rush yd seasons. In '10 Kaepernick left as a #2DC after becoming the 1st player in NCAA history to top 10,000/4,000 career yds. Tyler Lantrip was the bkp in '09-'10 and had 7 series comb vs Utah St and Idaho in '10 guiding 4 td's. He played in 6 (155, 62%, 46 rush). Lantrip began '11 as the st'r and had some success but rFr Cody Fajardo, who HC Chris Ault said threw better than Kaepernick did as a frosh and could also run like him, started to see more time. Ault was none too pleased when Fajardo deemed himself not healthy enough to play vs Boise but he took over the job vs UNLV after Lantrip was benched. Lantrip came off the bench mid 2Q and threw for 366 but Fajardo was the st'r until being inj'd vs Utah St. Fajardo fumbled 4 times in his last 2 full gms and Lantrip started the reg ssn finale and threw for 340. Fajardo led with 1,707 (68.8%, 6-6, 694 rush) but only finished (inj) 3 of his 8 sts. Lantrip threw for 1,553 (61.5%, 10-6, 197 rush) but departs TY. Fajardo focused on beating tms with his arm this spring after having a run-first mentality LY. This unit is vastly more exp'd and I expect improved numbers.

RUNNING BACKS - It's not hard for Ault to recruit RB's here. In '05 BJ Mitchell led the WAC in rushing (1399, 5.4) while in '07 Luke Lippincott did so again (1420, 5.3). Lippincott was lost in Wk 2 of '08 and Vai Taua led the conf (1521, 6.4). In '09 Lippincott had 1,034 (7.7) and Taua 1,345 (7.8) but was "just" #2 in the WAC. Their fastest RB, Lampford Mark, had 558 (5.5) comb in 2Y. Mike Ball (PS#90) was impressive as a rFr with 184 (12.3) and 5 td's vs UNLV but just 36 (5.1) the rest of the yr. In '10 (Lippincott gone) Taua led the WAC with 1,610 (5.7, 19 td). Mark rushed for 413 (7.5) and Ball had just 259 (6.8). LY they had to replace Taua. Ault calls his main back a "Nevada Back" meaning "a guy who can carry the ball 6 straight times and gain yardage every time." That moniker was used for Ball who was responsible for all 27 carries (139, 5.1) by the RB's vs TT. He DNP vs UNLV but 2 gms later had 198 (7.6) vs Fresno. Ball finished #2 (704, 5.2) despite having no carries in 6 gms incl the last 5. Mark rushed for 185 vs NMSt, which began a streak of 6 str 100 yd gms and led with 911 (5.7). Soph Stefphon Jefferson was #4 (429, 6.1). TY they lose Ball and Mark but bring in Tony Knight (orig commit to NCSt) whose size and natural strength has never been seen at RB in the Pistol. He has already said his goal is to be named MW FPOY. While just a little less exp'd than '11, they will once again have solid production.

RECEIVERS - UN was expected to return their top 2 WR's LY (lost #7DC TE) in Rishard Matthews (879, 15.7) and Brandon Wimberly (482, 11.8). Wimberly was shot in the abdomen in Aug so they basically had just 1 of their top 4 back. It was a senior-laden group and Matthews led the WAC with 1,364 (15.0) while Shane Anderson (PS#168, 2 rec '10) was #2 with 526 (13.1). TE Kolby Arendse was #3 (340, 13.1) and conv QB Corbin Louks had 303 (11.7). TY they lose Matthews (12 st, #7DC MIA), Anderson (9 st), Louks (2 st), TE Scott Frisbie (4 st) and Tray Session (4 st, 291, 12.7). Wimberly and Sudfeld (OFY gm 1 LY) both had a solid spring plus UN adds in PS#130JC Nigel Westbrooks. They lose their #1 and #2 rec but could be just as good.

OFFENSIVE LINE - Chris Ault gave his OL the nickname "The Union" in '85 and has retained it each year he's been a HC here. UN has had at least one OL named All-WAC in each of the past 11 ssns (eight 1st Tm, ten 2nd Tm). In '09 they led the FBS paving the way for an outstanding 345 rush ypg (7.4). In '10 they lost 2 st'rs and opened holes for 292 ypg rush (#3 FBS, 6.1, 12 sks, 3.2%). LY they had to replace 2 st'rs (1st Tm WAC G) but without Kaepernick, the numbers dropped to 248 ypg rush (5.1, 17 sk). TY they lose OG Steve Haley (13 st, 2Y st'r), C Jeff Meads (3 st LY, 14 st '10) and C Jordan Mudge (11 st). While they have 3 st'rs back like LY, they move up to 75 car sts (64 LY) and return both of their All-WAC players in 1st Tm OG Chris Barker and 2nd Tm T Jeff Nady. I will grade this unit as stronger than '11 but keep in mind they are stepping up to the MW and may not improve much upon LY's numbers.

DEFENSIVE LINE - In '08 UN had to replace 1.5 st'rs (2nd Tm WAC DE) but finished #6 in the FBS in rush D (89 ypg, 3.1, 36 sk). In '09 they were the only FBS team to return 2 DL who recorded double digit sks in '08 in DE's Dontay Moch (11.5) and Kevin Basped (10). Surprisingly the rush D slipped a little to 112 ypg (3.6) with 31 sks. In '10 they had to replace 2nd Tm WAC Basped (9.5 sk) and a starting DT. They did add 4 JUCO's and I thought they would come close to '09's numbers. Nevada yielded 120 ypg (3.9, 35 sk). LY they had to replace 1st Tm WAC DE Moch (8.5 sk, #3DC) and one other st'r. They ret'd 2nd Tm WAC DT Brett Roy but I figured they would drop coming off a yr where all 4 DL started all 13. Roy earned 1st Tm WAC (10 sk, 66 tkl) but Nevada slipped to 147 ypg rush (4.5, 24 sk). TY they lose DT Roy (13 st), 3rd Tm WAC DE Kaelin Burnett (13 st, 51 tkl, 5 sk), DT Zack Madonick (5 st, 20 tkl, miss 6 w/inj), DT Willie Faataualofa (1 st) and DE Albert Rosette moves to LB. They return Jack Reynoso (OFY after 8 gm) and a former UCLA commit, plus add a PS#68JC but with the loss of their top guy, I'll call this unit down a few notches.

LINEBACKERS - In '10 UN had to replace 1 st'r (#2 tkl'r) but ret'd their #3 and #6 tkl'rs incl 2nd Tm WAC James-Michael Johnson. Then-DC Andy Buh called Johnson a more athletic Kirk Morrison (NFL st'r 6 yrs) who he had cch'd at SDSt. For the 2nd straight yr all 3 LB's started every gm with Johnson earning 1st Tm WAC (#1 tkl'r). LY they had to replace 1 st'r (#2 tkl'r). UN all'd 69 pts to Oregon and 25.2 ppg on the ssn (21.5 excluding UO). TY they lose their top guys in Johnson (13 st, #2 w/100, 6.5 tfl, #4DC CLE) and 1st Tm WAC Brandon Marshall (13 st, #1, 7.5 tfl, #5DC JAX). They add in DE Albert Rosette (12 st '11) at MLB. While they return 4 of the top 6 like they did LY, the top returnees were only #8, #10 and t-#15 in tkls so this unit looks weaker.

DEFENSIVE BACKS - Nevada has had an excellent run D but their pass D has struggled and in '08 as they yielded 312 ypg (54%, 31-16, #62 PDR). In '09 they had 3 st'rs back but allowed 298 ypg (62%, 33-8, #117). In '10 they had to replace 2.5 st'rs but added a couple of JUCO's and I said they could only improve. In the previous decade UN had 1 DB named All-WAC (Joe Garcia '05-'06). Their most exp'd DB, Isaiah Frey (10 st '09), set a goal to make All-WAC and did so (2nd Tm). UN improved more than I expected moving all the way up to #21 (243 ypg, 56%, 15-12). LY they had 7 of the top 8 back and Ault felt they had the potential to be the best secondary in decades. The unit lived up to that billing as they finished #10 (48.3%, 25-15). TY they lose 1st Tm WAC CB Frey (13 st, 37 tkl, 5 int, 15 pbu, #6DC CHI) and Bubba Boudreaux (7 tkl). They have 7 of the top 8 back incl 2nd Tm WAC SS Duke Williams. While they won't move up much in my PDR, they could be the MW's best.

SPECIAL TEAMS - Since Ault's return, UN has finished #96, #99, #71, #99, #112, #49, #99 and #104 in my ST rankings. LY they had to replace their P and then had some inj problems at K with Anthony Martinez (3-5 FG, L25) and Allen Hardison (8-11, L48) both going down. P Jake Hurst hit 3-4 FG (L24) and also avg 41.5 (net 34.8). UN has not had a KR td s/'98 (Del Bates). Kendall Brock was the top KR (21.6) but TY they lose P Hurst and PR Rishard Matthews (13.3, 1 td). While this is not an overwhelming group, they could move up a little in my ST rankings.

COACHES - Chris Ault led Nevada to 7 conf titles and a 163-63-1 record from 1976-'92 and '94-'95 and is in the College Football Hall of Fame! He was the AD here from 1986-'03 and took over as HC in '04 for his 3rd stint here (vacated AD duties). He has guided UN to 7 bowls in the last 8 yrs (WAC COY '10). TY Ault hired Nick Rolovich who was Hawaii's OC the L2Y. It is unclear if Ault will relinquish play-calling duties for the first time in his 28 year career but he did hire Rolovich so he could be more of an all-over HC. The new DC is Mike Bradeson, whom Ault promoted from within (safety cch L2Y).

PHIL'S FORECAST

Chris Ault is Wolf Pack football. In '05 Nevada had their first winning season s/'98. They went 9-3 after beating UCF in the Hawaii Bowl and at 7-1 were WAC co-champs. They have got-ten to a bowl every year since but in '07 lost their bowl to drop to 6-7 for the only losing season in that span. In '10 I pointed out that they had 15 st'rs back and their +166 ypg in '09 was actually the best in the WAC (yes, better than Boise's +144). I also pointed out that they got the WAC's biggest game (Boise) at home on a Friday night making them a prime contender for the WAC Title and called for them to top '09's 8 win total. They started 4-0 and were ranked for the first time s/'48 and got to 6-0 but lost at Hawaii 27-21. They won their last 6 incl the biggest one, an upset of #3 Boise St 34-31 in OT and went on to a 13-1 finish and ranked #11! They were 7-1 in the WAC. LY they had to replace QB Kaepernick and RB Taua. I called for a large drop off from their 41.0 ppg but they got the toughest 4 WAC opp at home and appeared poised for a 2nd straight WAC Title. They opened with a brutal non-conf schedule losing at Oregon 69-20 then just got past SJSt, 17-14 (SJSt int'd in EZ at end). UN led TT 28-14 but gave up a td with :36 left and lost by 1 despite a 562-441 yd edge. Boise got their revenge and led 30-0 before UN got on the board in the 4Q. UN then beat UNLV and NM by a comb 86-7 then beat Fresno 45-38. They beat NMSt and Hawaii both by 14 to pull to 6-3. At home vs LT, basically playing for the WAC Title, they dominated with a 272-43 yd edge at half. UN led 20-3 in the 4Q but amazingly lost, 24-20 and the next wk was a virtual repeat. They had a 290-134 yd edge at half at Utah St (500-373 for the gm) but lost by 4. They waxed Idaho 56-3 to get to the Hawaii Bowl where they came up just short vs SM, 24-17. TY UN steps up to the MW and while they have just 12 st'rs back, they do have exp at QB and LY had 2 net close losses with my Stock Market Indicator of +3.5 (pg 27). UN at +141.9 was by far the best in the WAC LY and the Wolf Pack look like a prime MW contender and get the potential deciding gm at home on Dec 1st where they have to repeat their magic of '10. They will top LY's 7 win total.

FRESNO ST BULLDOGS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '10 PS#56 Derek Carr (David's brother) battled Ryan Colburn for the starting job. Colburn won it and threw for 2,817 (63%, 23-9) while Carr (10-14-112 '09) RS. Then-HC Pat Hill thought Carr is the type of QB that could take him to a BCS bowl. Carr was the clear-cut starter LY and in the first 7 gms threw for 1,665 (60.3%, 12-5) and improved to 1,879 (65.1%, 14-4) the final 6. Carr's 5 td's vs Idaho matched Paul Pinegar's 5 in the '04 bowl. The bkp was rFr Greg Watson (PS#109, 2 gm, 1 att). LY I said that despite the loss of a 2 yr st'r, Carr should come close to '10's numbers and they were actually stronger. TY they switch to the no huddle spread and Carr should be one of the MW's best QB's.

RUNNING BACKS - FSU has produced a 1,000 yd rusher in 14 of the last 17 yrs. In '09 Ryan Mathews led the NCAA in rushing ypg tying a WAC record with eleven 100 yd gms (LaDainian Tomlinson, TCU). Mathews finished with 19 td's and a FSU rec 1,808 (6.6) topping Rodney Davis' 1586 in '02. True frosh Robbie Rouse was #2 (479, 5.8). In '10 they had to replace Mathews (#1DC). Rouse has 4.3 speed and is a small target at 5'7" 185 but became the first player in FSU history to top 200 in B2B gms. After rushing for 769 in 4 gms, he broke his hand vs Boise (missed 2) and he finished with 1,129 (5.5). LY they added in UCLA transfer Milton Knox (PS#8). Rouse went 400 carries before his first career fumble. He finally stayed healthy and had eight 100 yd efforts (1549, 4.7) on the 2nd most carries in the FBS (93.5% of Fresno RB carries). Rouse needs just 317 yds to become FSU's career leader. Knox surprisingly had just 84 (4.2) playing in 13. With the deep backfield LY, Hill opted to RS true frosh Dillon Root (PS#105) who has the best top-end speed of the 3 (4.38) and is the tallest. Not listed below are Michael Harris (5'10" 200, Sr, PS#158) who moved from DB in spring, Jerry Kelly (5'7" 170 Jr), Darryl Cash (5'10" 190 So), Jonathan Norton (5'8" 185 Jr) and FB Tapa Taumoepeau (6'3" 235 Sr, 4 st '09-'10, inj'd LY). While it will be tough for Rouse to improve much he will be one of the MW's top RB's.

RECEIVERS - In '10 the Bulldogs had to replace 3 of their top 4 rec's. Jamel Hamler (#2 '09, 503, 13.6) led with 812 (15.0) and Jalen Saunders (4.31 spd) who was expected to GS, was #2 (462, 15.4). Rashad Evans had 424 (10.9) and rFr AJ Johnson added 241 (12.1). LY they only had to replace Hamler. Devon Wylie, the fastest player in FSU history (4.29 spd), managed to stay healthy and led in rec's (56) and was #2 in yds (716, 12.8). Saunders finished with 1,065 and an impressive 21.3 ypc becoming the first FSU WR to top 1,000 s/'01 (both Bernard Berrian and Rodney Wright). Six players caught 30+ passes. RFr Josh Harper (PS#51) finished #3 (497, 14.2). TY they lose TE Ryan Skidmore (7 st, 5 rec), Wylie (5 st, #4DC KC) and Saunders who went through spg but opted to transfer in early April. They lose their top 2 WR's and must learn a new system.

OFFENSIVE LINE - Pat Hill used to be an OL coach so this unit was always a priority and he liked converting DL's to add speed and athleticism. In '09 FSU had 3 st'rs back and improved to 229 ypg rush (5.4), their best s/'92, but allowed 21 sks (most s/'03). In '10, they had all 5 st'rs back (107 car sts, #9 FBS). While the RG started just 3 (inj) it shocked me that their numbers plummeted to 151 ypg (4.0) with 36 sks (9.9%). LY they had to replace 4 multi-yr starters (11.5 yr st exp) incl two 1st Tm All-Conf and a #7DC. They had 2 st'rs back (40 car sts, #99 FBS) and I speculated that while far less exp'd, they could actually improve. They improved the ypc to 4.1 with just 20 sks (4.5%) despite being hit hard by inj's (only 2 OL st all 13). TY they lose 1st Tm WAC LT Bryce Harris (13 st, 3Y st'r) and 2nd Tm WAC RG/C Leslie Cooper (11 st) but have 8 of the top 10 back (51 car and 5 w/7+ sts). Even with the new offense, losing their top 2 and moving into a tougher conf, this unit could top last year's numbers.

DEFENSIVE LINE - In '09 Fresno had only 1 st'r back and slipped to 214 ypg rush with a ghastly 6.0 ypc and just 11 sks. In '10 they only had to replace 1 st'r (5 ret w/6+ sts). DE Chris Carter was the fastest DL in FSU history (4.58). I said they should be vastly improved and they trimmed it to 158 ypg (4.6) rush (best s/'06) with 37 sks (33 by DL!). LY they had to replace 3 st'rs incl the WAC DPOY in Carter (11 sk, #5DC). They did return 1st Tm WAC DT Logan Harrell (10.5 sk) but I expected them to drop a few notches. They allowed 167 ypg (4.8, 22 sk). TY they lose 1st Tm WAC DT Harrell (13 st, 71 tkl, 6 sk, 11 tfl), NT Chase McEntee (13 st, 28 tkl, 2 sk) and Donahvaughn Pritchett (1 st, 3 tkl) but get back Anthony Williams (485 bench) who had 16 tkl (2 sk) in '10 but was susp'd LY. They are bigger and will switch to a 3-4 so they must replace just 2 st'rs.

LINEBACKERS - LY FSU lost 2x 1st Tm WAC Ben Jacobs (#1 tkl'r, 52 consec sts) and #10 tkl'r Shawn Plummer was inj'd (RS) but they did return their #2 and #4 tkl'rs. They should've been stronger but their ppg rose to 35.2 (highest ever!). TY they only lose OLB Kyle Knox (10 st, susp 2, #5 tkl'r, 6 tfl). Not in the PSL is Damion Whittington (6'1" 245 Jr, PS#95). They have 5 of their top 6 back incl 1st Tm WAC Travis Brown (PS#45, #1 tkl'r) plus add in a starting DE and return Plummer to the new 4 man unit. They will improve this year.

DEFENSIVE BACKS - After 6 seasons with an avg finish of #37 in my PDR, Fresno has been just #99, #61, #75, #66, #62 and was #74 last season. In that span, FSU has the fewest number of int in the FBS with just 5, 4, 5, 8, 8 and 5 (DB's 25 int in 5 yrs). LY they had to replace 2 st'rs. Hill said that FS Phillip Thomas (12 st '10, 64 tkl, 9 pbu) had the potential to be one of the best S's in FSU history but he broke his leg in the opener. TY they lose CB Isaiah Green (10 st, #7 tkl'r, 4 pd), SS Zak Hill (6 st, 31 tkl, 1 pbu), CB Jermaine Thomas (3 st, 14 tkl) and SS JB Dock (16 tkl). With the return of Thomas, who already has the new coaching staff raving, I'll call for their highest finish in my PDR s/'05 (#44).

SPECIAL TEAMS - Since '02 FSU is #1 in the NCAA in blocked kicks (66). From '03-'09 former ST cch John Baxter had units finish #14, #24, #5, #9 and #20. K Kevin Goessling hit 15-16 (L52, schl rec 15 str) in '09 then 21-26 (L52, schl rec 18 str) in '10 but LY slipped to 10-17 (L48) LY, still becoming the career leading scorer (Derek Mahoney 364, '90-'93). P Andrew Shapiro avg 37.4 (34.9 net) in '10 as FSU dropped to #68 in their first yr w/o Baxter. Last year they had everyone back but dropped to #97. Wylie was an electrifying PR (15.4, 2 td) and Shapiro improved to 39.7 (net 35.8). Isaiah Burse got the NCAA record for KR (74) and KR yds (1580) in a ssn. They were -2 in the blk/td category and -4.0 on KR. This year they lose Goessling, 4 year LS Bobby Shepard and Wylie but could still improve upon last year's unusually low finish.

COACHES - Anybody, Anywhere, Anytime was the mantra of former HC Pat Hill. The legendary coach spent 15 ssns here with 11 bowls but zero outright WAC Titles. After a schl record tying 9 losses LY FSU made the change. Tim DeRuyter becomes the 17th HC here after serving as Texas A&M's DC the L2Y (interim HC bowl). He's been a DC (or co-DC) at Air Force ('07-'09), Nevada ('05-'06) and Ohio ('02-'04, '95-'98). Dave Schramm will run the offense after being at Utah for 7 yrs (RB cch '05-'08 and '11, OC in '09 and co-OC in '10). Schramm's goal is to have FSU avg 90 offensive plays per gm in the new spread offense (avg'd 68 per game LY). Nick Toth will be an FBS DC for the first time as he was LB & ST cch at Tex A&M ('10-'11), the DB cch at The Citadel ('09) and the DC at DII Ashland ('07-'08) and Mercyhurst ('06).

PHIL'S FORECAST

A very surprising stat to me is that Fresno has not finished higher than 2nd in the WAC s/'99 and their last outright conf title came in '89 (Big West). This despite the fact that FSU has pulled a lot of upsets, flirted with a BCS bowl and has been one of the WAC's marquee teams. Their high point came in '05 when they were 8-1 after destroying Boise 27-7 and then nearly upset #1 ranked USC the very next week. There was talk that it was the greatest team in schl history. FSU accepted the bid to the Liberty Bowl after the USC gm and would actually lose 10 of their next 11 stretching into '06 (7 straight losses were worst in 77 yrs). After that unusual 4-8 record in '06, they rebounded with 4 straight bowls. In '08 it surprised me that Fresno was the preseason WAC favorite (I picked Boise). Fresno finished just 7-6 (Boise 12-0). In '10 FSU had 7 HG's for the first time s/'94 and 15 st'rs back but finished 8-5 incl a bad 40-17 bowl loss to NIU. LY Fresno had just 10 st'rs back (2nd fewest WAC), had 4 WAC AG's, had 2 net close wins in '10 and I said they would be a dog in 7 or 8 gms. They were a dog in 7 and finished a poor 4-9. In the opener, they had a crowd edge vs Cal at Candlestick but lost 36-21 (outgained 417-218). Versus #10 Neb they had a 444-438 yd edge but lost by 13. After expected wins vs N Dakota (outgained 323-319, only won by 5) and Idaho they were favored over an SEC tm and led 28-27 in the 3Q but lost. For the 6th str yr Boise destroyed them, this time 57-7. They trailed Utah St 21-14 at half but rallied for a 31-21 win to move to 3-4 but then lost at Nev by 7 and were dominated at home by LT (trailed 34-7 half). They got into a shootout with NMSt and had their first loss in series history (18 gm), 48-45. That clinched a losing record but they then upset a Hawaii tm that was w/o QB Moniz. SJSt handed FSU a 27-24 loss in the Dogs final WAC gm. In the finale, FSU led SDSt 21-14 at half but allowed a td with 1:09 left and lost. Hill was let go and DeRuyter steps into a situation in which almost every factor points up. Fresno had 2 net close losses, was -14 in TO's, had a def ypp of 12.4, earns a +4.0 in my Stock Market Indicator (pg 27), has 14 st'rs back and was +25.3 ypg in WAC play last year despite their 3-4 record. Fresno makes my coveted Most Improved List as I will call for them to return to the post season and to finish in the top half of their new conference.

AIR FORCE FALCONS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Shaun Carney became the first ever true frosh Falcon QB to start an opener and left after '07 as the career leader in passing (5391), total off (7952) and comp % (61.9). In '08 AF went from a 4th year starting Sr to a comb 7 career gms. True frosh Tim Jefferson led an 84 yd td drive vs Navy and took over the starting job. He won his first 5 sts and threw for 655 (55%, 387 rush) en route to being the MW FPOY. Jefferson, a quiet leader with a solid arm, was banged up as a soph (848, 57%, 5-2, 254 rush) and Connor Dietz, who is more of a runner and is fiery, had 3 sts and threw for 197 (47%,1-0, 369 rush). In '10 Jefferson threw for 1,459 (52%, 10-6) and was the #2 rusher (794, 5.2). Dietz only played in 5 (124 ttl yds). Jefferson became the all-time leader for wins (28) by an AF QB topping Dee Dowis (22 '86-'89). He also became the first ever service acad QB to start 4 bowls and the first at AF with 6 wins over Army/Navy. Jefferson threw for 1,637 (60.7%, 14-7, 553 rush) but had zero 100 yd rush games in his career. Dietz played in 9 with 15 att and 252 rush (6.6). Tucker Tipton (5'10" 188 Sr) played in 4 (2 att). Dietz has plenty of exp, but losing a 4 year starter, I'll call it down a few notches with more running and less passing.

RUNNING BACKS - The FB was the main ball carrier in former HC Fisher DeBerry's wishbone offense but that has not been the case under current HC Troy Calhoun. A TB has led the team in rushing in 3 of his 5 yrs. In '08 the top 4 TB were all frosh and soph. Converted QB Asher Clark was #2 with 588 (4.5). Clark worked at QB in the spring of '09 which slowed his progress. In the final 5 he had 481 and finished #2 again (865, 5.7). FB Jared Tew led with 970 (4.1) but with 87 more rush att than Clark. In '10 both ret'd and Tew was the #2 rusher after 7 (540, 4.9) but missed 5 (inj). Clark joined an exclusive club when he became the 3rd AF TB ever to crack 1,000 (1031, 5.7). LY they had to replace Tew. Wes Cobb was the st'r there but is just 196 lbs. His bkp Mike DeWitt passed the eye test for a FB at 6'1" 220. DeWitt had 108 vs Boise, 4 td's vs NM and finished #2 (567, 4.8) while Cobb was #4 (425, 4.2). I think of the WRZ as a RB as Chad Hall in that spot in Calhoun's first year rushed for 1,478 (6.4). Jonathan Warzeka started 12 in that spot but was used more as a WR LY as he tied for the tm lead in rec (31) and was the #6 rusher (244, 8.7). Clark (13 st) leaves as the #2 career rusher. Also gone is Warzeka (865 car rush yds) and Darius Jones (137, 9.8 LY). Not in the PSL is Jon Lee (5'10" 190 So, PS#267) who has 122 yds as a true. Cobb moves to TB and the FB spot looks strong but it's going to be tough to replace Clark's production.

RECEIVERS - With the WRZ used more as comb WR/RB, this position includes just one WR and a TE. Last year they had to replace both st'rs. Zack Kauth had the most td rec in a gm here s/'77 with 3 vs CSU (33, 40, 50 yds) and finished #1 with 620 (20.0!) but just 5 td's. Mikel Hunter was #3 with 244 (17.4!) and Joshua Freeman (122, 30.5 '10) added 154 (11.0). TY they have to replace Kauth (12 st), Freeman (6 st) and TE Daniel Pickett (9 st, 2 rec) but this unit is on par with LY in terms of exp.

OFFENSIVE LINE - Since this is a service academy, inexp lines do better than expected. In '10 they had to replace all 5 st'rs (two 1st Tm MW) and had 1 car st (2nd lowest FBS). Amazingly they paved the way for the best ypg rushing (307, 5.3) s/'02 while allowing just 5 sks (3.0%) as all 5 st'd all 13. LY they had to replace 2 st'rs (2nd Tm MW RT). They had 3 st'rs back and 7 of the top 10. With the more exp'd line (40 car st), AF improved to 315 ypg rush (5.7) with 10 sks (4.9%) which were their best numbers s/'96. As with many option teams they perform their best down the stretch and avg'd 350 (6.2) in their last 3 reg ssn games. TY they lose 1st Tm MW RG AJ Wallerstein (13 st, 2Y st'r), RT Kevin Whitt (13 st) and both C's in Michael Hester (4 st, 1.5Y st'r) and Jeff Benson (9 st after Hester inj'd). TY they have just 2 st'rs back but are almost even with 39 car sts and should be on par with LY's fine edition.

DEFENSIVE LINE - In '09 AF had to replace 2 starters but returned 6'5" 275 Ben Garland who earned 1st Tm MW. Despite being less exp'd than '08, the unit allowed just 134 ypg rush (3.7), their best ypg s/'99. In '10 they had to replace 2 starters including Garland and then lost a proj'd starting DE in the opener. The numbers dropped to 202 ypg (4.8, 14 sk). LY they had to replace a 2nd Tm MW DE. The unit was devastated by inj's with NG Ryan Gardner missing 4, DE Zach Payne being lost after 4 sts and Harry Kehs missing 2. This time AF yielded 220 ypg (5.0), their worst s/'88 (18 sks). TY they lose 5 of their top 7 DL's in Gardner (8 st, 22 tkl), Kehs (10 st, 31 tkl), Payne (11 tkl, 2 sk), NG Ben Kopacka (1 st, 7 tkl) and DE Ross Fleming (2 st, 18 tkl). While less exp'd, this unit can only remain healthier and I'll call for better numbers.

LINEBACKERS - LY AF had to replace their #6 tkl'r but ret'd their #1, #3, #5, #10 and #15 tkl'rs. Surprisingly they slipped to all'g 28.4 ppg. TY they lose OLB Patrick Hennessey (7 st inj, #7 tkl'r, 7 tfl), ILB Jordan Waiwaiole (12 st, #4), 1st Tm MW ILB Brady Amack (13 st, #1 tkl'r, 5 tfl), Harrison McWilliams (5 tkl) and Ken Lamendola (#1 '08, 5 tkl LY, inj). They return their #3, #8 and #11 tkl'rs but LY's banged up D yielded the most ppg s/'05 so while less exp'd, they could improve.

DEFENSIVE BACKS - Despite having to replace 3 st'rs, AF finished #48 in my PDR in '08. With an exp'd unit in '09 they moved up to #24 (10-20 ratio). In '10 they ret'd 3 st'rs incl 1st and 2nd Tm MW CB's. Teams threw away from CB Reggie Rembert but he still became the first 1st Tm AA here s/'92. AF was #24 again (55%, 10-12). LY they had 7 of the top 8 back (lost Rembert) but perhaps due to a banged up front 7, AF slid all the way down to #98 (62.8%, 21-12). TY they lose CB Josh Hall (10 st, 43 tkl, 1 int, 4 pbu), 2nd Tm MW CB Anthony Wright (13 st, 54 tkl, 2 int, 4 pbu), 1st Tm MW FS Jon Davis (13 st, 94 tkl, 4 int, 3 pbu) and FS Kevin Jablonsky (12 tkl, 1 sk). Navy HC Ken Niumatalolo said that Davis was one of the best service academy S's he'd seen in 14 yrs and Calhoun said that never once did he look at a single rep and discover Davis could have gone harder. They do return 3 who had 3+ sts and while clearly less exp'd, they can only move up in the PDR.

SPECIAL TEAMS - In '09 AF finished a remarkable #4 in my ST rankings as Anthony Wright (18.2) had the first PR td here s/'98 and Jonathan Warzeka avg 27.9 on KR. In '10 they had to replace their exceptional P (39.5 net). Warzeka was solid again on KR (28.7) but AF dropped to #47. In '10 K Erik Soderberg lost his job after struggling with consistency and that happened again LY. K Parker Herrington hit 15-18 FG (L45) earning 1st Tm MW and David Baska only had 32 punts (40.8, 35.5 tm net). AF avg 10.8 on PR and 21.3 on KR and dropped to #61. TY they lose Warzeka and Soderberg (2-2 PAT, 0 FGA). Baska has 4.4 spd and a 39" VL (1 of top 5 athletes tm) but spent spg with the baseball tm and Will Conant impressed. Air Force could continue to slide.

COACHES - Troy Calhoun is an '89 graduate of AF (1st alumnus as HC here) and is just the 6th cch in schl history. In '06 he was the OC for the Hou Texans and an asst with Denver prior. AF has 3 OC's. QB cch Blane Morgan and OL cch Clay Hendrix have been co-OC's the last 5 yrs and WR cch Mike Thiessen has been co-OC the L3Y (6 as WR cch). Charlton Warren has been co-DC the L3Y and will handle the play calling with Matt Wallerstedt's move to A&M. Alumni Steve Russ has been hired as co-DC from WF where he spent the L4Y (DB cch).

PHIL'S FORECAST

Troy Calhoun stepped into a great situation. In Fisher DeBerry's last year ('06) AF suffered 5 close losses and despite a 4-8 record and having to face #11 Tenn and #9 ND, they were only outscored by 2 ppg. Calhoun's first team achieved AF's best ever MW record (6-2). There were some factors pointing to a weaker record in '08 as AF was -13.6 ypg in MW, benefitted from +10 in TO's, had just 8 st'rs back and just 48% lett ret. Calhoun did a great job getting AF to 8 wins. They did catch some breaks again (see '09 mag). The Falcons got to 8-2 before losing their last 3. The '08 squad benefitted from +13 in TO's. In '09 they had 68% lett ret. AF went 5-3 in the MW and for the first time under Calhoun, had a positive ypg at +35.5 in MW play. AF had 4 net close losses in '09 (pg 309). AF improved to 9-4 in '10 despite going from +22 in TO's to +5. Their 4 losses were to tms with a comb record of 44-9 (#2, #6 tms final AP) and 3 of their losses were by a comb 10 pts. AF did snap Navy's streak of 7 straight CIC Trophies and they finished +61.6 ypg in conf play. LY they had 4 MW HG's and were 21-11 in MW play under Calhoun. Expectations were extremely high as they had 14 st'rs back incl a 4 yr starting QB, a 1,000 yd TB and exp at every key position with many calling it AF's most talented tm yet. They were picked 3rd in the MW (highest under Calhoun) and the prep tm was 8-3. In Calhoun's first 4 yrs, they were +50 in TO's but were even in '11. For the first time ever they did win at least 7 gms for 5 str ssns (5th consec bowl). AF dispatched SD but in their home showdown vs TCU trailed 21-0 and 35-9 in the 4Q. After beating another FCS foe 63-24 (schl rec 792 yds off) they led Navy by 18 in the 4Q but needed OT for the win. They were dominated by ND (trailed 42-16 half). It was 17-17 at half vs SDSt but AF was -2 in TO's and lost by 14. BSU HC Chris Petersen did not spend extra prep time for the option and it showed as AF had 408 yds but still lost 37-26. After blasting NM 42-0 (1st conf road shutout s/'97), they were dominated by Army in the 1H trailing 14-0 (286-81 yds) and Army was SOD at the 1 then fumbled into the EZ blowing scoring opp's. AF rallied for a 10 pt win and its 2nd str CIC Trophy. Despite playing in 60 mph winds which benefits a running tm, they lost to WY by 8. They beat UNLV and CSU (comb 90-38) but lost the bowl to Toledo as their 2 pt conv att was stopped at the end (407-339 yd edge). TY AF drops back to their more normal 6 ret st'rs but they were #3 in the MW at +67.3 ypg LY despite their 5th place (3-4) finish. I will call for a 6th consec bowl despite AF being the least exp'd (#124) tm in the FBS.

AF lost the only prior meeting 13-7 but that was in '56. AF is 18-3 in home openers (7 str wins by 32 ppg). The Bengals went 2-9 LY (8th str losing ssn; 18-71) including losses at WSU (64-21) and BYU (56-3).

AF lost its only visit to Ann Arbor 24-7 but that was in '64 (also only prior meeting). Since BCS was formed in '98, AF is 4-5 in 'true' AG's vs BCS. AF is 13-3 in road openers (3-3 vs BCS w/3 losses by 4 ppg).

Bonus: AF is 53-27 all-time in CIC gms. LY won their 18th Commander-in-Chief's Trophy (Navy has 12, Army 6).
Bonus: AF is 21-27 in MW AG's (3x's in the conf's 13 yrs of existence has AF finished above .500).

AF is 9-1 incl 5 str wins by 18 ppg vs UNLV. LTH the Falcons trailed 17-7 late 2Q but got a 90/12pl td drive before HT. In the 2H AF limited UNLV to just 68 yds on 4 poss (AF 343 rush yds, 5.5).

The Falcons have beat the Rams 6 str by 19 ppg. LY AF trailed 7-0 after 1Q but at HT led 31-7 as they outgained CSU 280-67 in the 2Q. AF is 13-7 L5Y in MW HG's (1-3 LY).

AF lost 7 straight vs Navy from '03-'09 but now has B2B wins. LY AF led 28-10 4Q but all'd 18 pts in the L/9:34. In OT AF blocked Navy's XP and they hit theirs for the win.

Last year AF had a series high 5 game win streak snapped. LTH the Falcons trailed 14-7 into the 4Q but had 78/16pl & 80/14pl td drives, outgaining the Cowboys 129-20.

LY was the first series shutout since the 1st gm in '57. The Falcons led 35-0 at HT but NM had 3 TO's, missed 2 fg's & was in AF territory its L/4 drives never punting in the 2H.

These two new MW opponents are 1,100 miles apart. LY common foes were Boise, UNLV & New Mexico with Nevada going 2-1 (+261 ypg) and Air Force also 2-1 (+126 ypg).

Air Force is 22-2 vs Army and they haven't lost at West Point S/'96 (7 str wins by 19 ppg). LTH Falcons trailed 6-0 & only led 21-16 w/2:22 3Q but went on a 21-6 run to pull away.

LTH AF never led. AF did get within 2 w/2:08 left (2ptng) but their onside failed and SDSt iced it w/a 56 yd td run. LY in AF's loss they allowed SDSt a KR td and 2 one play td drives (28/1pl & 57/1 pl).

AF lost 52-30 in the L/meeting ('01). LTH AF won 34-7 in 1996. The Falcons are 11-4 S/'97 in home finales. Their only common opponent LY was UNLV who AF beat 45-17 & UH lost to 40-20.

AF is 4-2 (1st gm in '93). LTH ('96) AF trailed 31-3 at HT. FSU up 7 had a fg blk'd w/3:43 left & AF drove 80 yds for td to send the gm to OT. In OT FSU missed a fg & AF completed the comeback w/a GW 9 yd td run.

Air Force has finished the regular season on the road 6 of the last 7 years (3-3).

SAN DIEGO ST AZTECS

CB Leon McFadden

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '07 Kevin O'Connell left as the school's #3 career passer (#3DC). I expected Ryan Lindley (PS#74) to win the job in '08 and former HC Chuck Long said he'd never been around a frosh that was able to read D's like he did. Lindley set frosh records for att (427), comp (242), pass yds (2,653) and td's (16). In '09 Lindley ret'd but went from operating out of the shotgun to taking snaps under C and it took awhile to adjust. Lindley threw for 3,054 but just 55% (23-16). Lindley threw for 3,830 (most here s/'90, 58%, 28-14) in '10 incl 528 vs Utah (most s/'91). RFr Jake Bernards (PS#182) played in 2 (1 att). LY Lindley was hurt by an inexp'd WR corps and his numbers dropped to 3,153 (53.0%, 23-8) despite taking almost every snap with rFr Adam Dingwell playing in 3 (1 att). Lindley broke almost every schl passing record and BYU's Max Hall's career MW record (11,365). Lindley departs (#6DC ARZ) but SDSt gets Oreg St transfer Ryan Katz (PS#33, 12 sts '10) who will battle Dingwell, Bernards and the mobile rFr Chad Jeffries (PS#67). True frosh Matt Morin (PS#69, 6'2" 220) will probably RS. While they may improve upon LY's stats with a more exp'd rec corps, this unit is less exp'd with the loss of a 4 year st'r.

RUNNING BACKS - The Aztecs' leading RB had just 354 (4.0) in '07, 490 (4.1) in '08 and 558 (3.6) in '09. Former HC Hoke was high on Ronnie Hillman in '09 but he GS. Walter Kazee became the first true frosh in 6 yrs to top 100 in a game finishing #2 (371, 4.3). Heading into '10 one of the team's biggest goals was to improve the running game (#116 FBS '09, 78 ypg). Hillman exploded onto the scene with 1,532 (5.8) breaking Marshall Faulk's frosh rushing record (1,429). Hoke called Kazee lb for lb the team's toughest player and he had 320 (4.8) while playing in pain. LY Hillman added 16 lbs of muscle and was #2 in the FBS in rushing when he sprained an ankle vs CSU, limiting him to 3 carries vs Boise. He still improved to 1,711 (5.5) with 19 td's. His B2B 1,000 yd seasons were the first here since NFL HOF Faulk ('92-'93). Kazee was also inj (OFY) vs Colo St. With the top two inj'd, SDSt turned to rFr Adam Muema (PS#155) vs Boise and he responded with 119 (9.2) en route to 253 (6.0) for the yr. Not listed in the PSL are Dwayne Garrett (6'0" 190 rFr, PS#180), Chase Price (5'8" 200 rFr, PS#223) and FB Chris Gordert (6'0" 225 Sr). Hillman left early for the NFL (#3DC DEN) and it will be tough to approach his level of productivity.

RECEIVERS - In '10 SDSt had 2 NFL caliber WR's in Vincent Brown and DeMarco Sampson who comb for 2,572 rec yds (18.9) and 18 td's. Both departed LY (#3, #7DC's) then their top 3 proj'd WR's were lost prior to the yr in Ezell Ruffin (acad), Jay Waddell (inj) and Dominique Sandifer (inj). The leading returnee was TE Gavin Escobar who highlighted a deep TE group. Colin Lockett moved from DB to WR and led with 970 (16.7) while Escobar was #2 (780, 15.3) and walk-on soph Dylan Denso was #3 (634, 12.9). Not listed in the PSL below are TE's Hunter Hewitt (6'5" 240 Sr) and PS#128JC Aaron Boesch (6'5" 230 So, IFS). They go from a below average, inexp'd group to an exp'd unit with added talent from USC trans Brice Butler (PS#17) putting them in much better shape heading into '12.

OFFENSIVE LINE - In '08 SDSt had their weakest totals s/'02 with 73 ypg rush (3.1) but did allow just 21 sks (4.3%). In '09 they had 3 OL st'rs back and shifted to more power run blocking but surprisingly only improved to 78 ypg rush (2.9, 16 sks, 3.6%). In '10 they had to replace a pair of 2 yr st'rs but had 4 back who started 7+. I said there should be significant improvement in the 2nd yr of Hoke's schemes and the same 5 started at the same position for all 13 for the first time s/'01. They greatly improved to 161 ypg rush (4.8) allowing a miniscule 9 sk (2.1%). LY they had to replace 1 st'r (2nd Tm MW C, 4Y st'r). They only used a 7 man rotation (4 Sr's) and the OL missed just 1 start with 3 OL earning All-MW. The Aztecs improved to 184 ypg rush (4.9, 11 sks). TY they lose 1st Tm MW LT Tommie Draheim (13 st, 3Y st'r), 3rd Tm MW RT Kurtis Gunther (13 st, 2Y st'r), LG Emilio Rivera (13 st) and bkp Mike Matamua (8 car st). While they go from 4 ret st'rs to 2, surprisingly the car sts only dropped from 83 to 63. This is clearly a less exp'd group, although they do return their 2nd Tm MW C Alec Johnson and move TE Bryce Quigley (10 st '11) bumping the car sts up to 75.

DEFENSIVE LINE - In '07 SDSt yielded 5.3 ypc rush, their worst in over 50 yrs. In '08 they were decimated by inj's and yielded 248 ypg (5.1) and in comparison Rocky Long's rush D's at NM allowed under 3.8 ypc 9 of his 11 yrs. SDSt switched to a 3-3-5 and the numbers improved greatly in '09 to 166 ypg rush (3.9). In '10 all 3 st'rs ret'd and as expected, the numbers improved to 149 ypg (3.7, 28 sks most s/'04). LY SDSt lost a 3rd Tm MW DE and 2 other DE's (13 st, 39 tkl, 3 sk). They ret'd 3rd Tm MW DT Jerome Long but lost proj starting DE Neil Spencer (3 st, 25 tkl '10) over the summer. With an inexp'd and banged up front, the Aztecs slipped to allowing 170 ypg rush (4.1, 28 sk). This year they lose DE JJ Autele (11 st, 30 tkl, 4 tfl), 2nd Tm MW Long (13 st, 73 tkl, 5 sk, #7DC KC), 3rd Tm MW DE Larry Gibbs (6 st, 34 tkl, 2 sk) and have only 9 sts back from '11. Despite the losses, this unit is equal to '11 in terms of experience and Rocky Long performed magic at New Mexico with the D-line so I would expect improved numbers.

LINEBACKERS - At NM, Long's LOBO was technically a S but basically a LB type (remember Brian Urlacher?) so I list the AZTEC position in the LB write-up. In '09 SDSt had 3 starters back and while they had to replace their #1 tkl'r, Long said they were 14 deep in the unit. Naturally the Aztecs allowed 6.7 ppg less. In '10 they had to replace their #1, #3, #5 and #8 tkl'rs. They did return their #2, #6 and #7 and I said they could be just as strong despite the losses. The Aztecs improved to 22.1 ppg (8.4 less). Last year they had to replace their #2 and #6 tkl'rs but ret'd #1, #4, #8 and #10 (more exp'd). SDSt slipped to yielding 25.0 ppg. This year they lose 1st Tm MW Miles Burris (13 st, #1 tkl'r, 8 sk, 11.5 tfl, #4DC OAK), WLB Logan Ketchum (8 st, #8 tkl'r, 4.5 tfl), Khalid Stevens (4 st, 15 tkl) and Demetrius Barksdale (5 st, 32 tkl, 3 sk). They return their #3, #5, #6 and #14 tkl'rs and should produce better numbers, even with the loss of their top guy.

DEFENSIVE BACKS - The Aztecs' "Dark Side" Defense finished #26, #34 and #7 in my PDR from '03-'05 but slipped to #79, #96 and #116 from '06-'08. In '09 they had 4 new st'rs but still finished #65 (59%, 15-11) in then-DC Long's new D. In '10 they had 2 st'rs back and improved to #51 (52%, 18-10). LY they had to replace a CB (11 pbu) and SS (#5 tkl'r). Teams avoided 1st Tm MW Leon McFadden allowing CB Larry Parker to earn 1st Tm MW on the other side with 7 int (most s/'69) and 9 pbu. The Aztecs were #76 in my PDR (56.0%, 18-15). TY they lose Parker (13 st, 65 tkl) and SS Dey Juan Hemmings (2 st, 19 tkl, 4 pd). This unit is more exp'd with 3 st'rs back and should move up in my PDR despite losing a 1st Tm MW CB.

SPECIAL TEAMS - SDSt was #67, #108, #46, #98, #94 and #90 in my ST rankings from '05-'10. Last year with almost everyone back I thought they had a shot at their best ST finish in 7 years but they still were just #72. Abelardo Perez went from hitting 17-22 (L53) to just 6-15 (L42). SDSt has made recruiting a K a priority and brought in Seamus McMorrow (PS#35). While the kicking game should improve, they lose 2x 1st Tm MW P Brian Stahovich (37.7 net) and could have a big drop in my ST rankings.

COACHES - Brady Hoke was here for 2 short yrs and led the Aztecs to their first bowl s/'98. DC Rocky Long replaced him as HC LY. Long was previously the HC at New Mexico ('98-'08) where he took the Lobos to bowls in 5 of his last 7 yrs. Long called his own defensive plays at NM and while he hinted at hiring a DC, he handled those duties himself. OC Andy Ludwig returns for his 2nd yr on the Mesa (17 yr OC).

PHIL'S FORECAST

Amazingly SDSt did not have a winning season from '99-'09 and was just 27-48 in MW play from '00-'09. In '10 they were coming off 3 seasons with a comb MW record of 6-18 (-130 ypg). Despite those factors, SDSt made my Most Improved List (#6). As you know any tm that lands on that list has a 70% shot at going from a losing season to bowl eligibility. All 9 sets of my PR's called for them to be bowl eligible and the Aztecs did not disappoint getting their first winning season s/'98. They had a dream coaching staff with Brady Hoke as the HC, Rocky Long as the DC, former Aub OC Al Borges as the OC and former NFL MVP Brian Sipe as QB cch. They had 2 NFL caliber WR's, super true frosh RB Ronnie Hillman and a veteran QB, Ryan Lindley. They finished 9-4 including a 35-14 win over Navy in the bowl. LY Hoke and Borges left for Mich and SDSt lost their 2 star WR's and had just 5 st'rs back on D. Their 4 losses in '10 were by a comb'd 15 pts and I called for another bowl. Rocky Long knows how to defend the option and opened up vs a pair of option tms winning both. They were fortunate vs Wash St but got their first win over a P12 tm s/'95. They trailed 24-14 in the 3Q but roughing the P gave them a FD and they would go on to a 42-24 win. They took on ex-coach Hoke who knew the tm inside and out and lost at Mich 28-7 (only -37 yds). After losing to TCU at home, 27-14 (446-296 yd deficit) they took on another option tm and won at AF 41-27 on a Thurs night. The Aztecs missed 39 and 27 yd FG's along with an xp and lost to WY at home 30-27 (trailed 30-13 half). Long beat his old tm NM (+324 yds) then Colo St lost QB Thomas in the 2Q on a cold and windy day. His bkp hit just 6-15-26 and SDSt prevailed 18-15. SDSt trailed Boise 42-14 at half and lost by 17 and actually trailed UNLV 14-0 in the 2Q before winning 31-14. They trailed Fresno 21-0 mid-2Q but rallied for a 35-28 win. In the bowl SDSt trailed UL 19-3 early but took a 30-29 lead with :35 left. However, UL nailed a 50 yd FG as time expired handing SDSt a 32-30 loss. TY the Aztecs lose Hillman and Lindley but they have 12 st'rs back. They benefitted from +12 in TO's in '11. They won't top LY's 8 reg ssn wins but should still get to a 3rd straight bowl.

SDSt is 0-2 vs UW. L/gm ('97) SDSt lost 36-3. Aztecs were outgained 467-196 & outFD 20-10. SDSt has won B2B road openers after dropping 17 str. SDSt is 4-26 in non-conf AG's since joining the MW ('99).

LY was the schools first ever meeting. SDSt never trailed but the gm was tied 20-20. Aztecs went 55/8pl for a 42 yd fg w/9:29 left. Army had a FD at the SDSt25 but was SOD w/1:00 at SDSt40.

First meeting. Fighting Sioux went 8-3 LY (Great West co-Champs) and 2 losses were at Idaho (44-14) & Fresno (27-22). Into '12 the Aztecs have won 9 str hosting non-conf foes.

The L/time SDSt dropped 3 str was from 1949-'52. In the L/gm ('08) SDSt trailed 21-0 late 2Q and never got closer than 11 pts in the 2H (outgained 476-146, -15 FD). In fact SDSt's only td came on a 28 yd IR.

WYOMING COWBOYS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 Austyn Carta-Samuels (PS#85) was the first true frosh to start at QB here since Rick Costello in '74. In '10 he threw for 1,702 (61%, 9-8) but decided to transfer and all the bkps were gone. LY true frosh Brett Smith (PS#57) was IFS and won the starting job largely due to his "experience." Battling for the bkp spot were true frosh Adam Pittser (PS#86) and late JC signee Colby Kirkegaard. Smith is a dual threat QB who "runs angry" and finished as the tm's #1 rusher with 710 (5.1) and 10 td's. While his throwing motion has been called unorthodox, he threw for 2,622 (61.0%, 20-11). OC Gregg Brandon calls him a gym rat. SDSt HC Rocky Long said, "He never gets rattled. You'd like to think that a freshman wouldn't be as confident." Kirkegaard played in 4 (10 att). They also used Sam Stratton as the "Wild Sam" QB vs Boise (perhaps to keep Smith healthy) and he rushed for 54 (3.9) in that gm. This year the unit is vastly more exp'd. Smith is the 2nd MW FPOY in 3 seasons (Carta-Samuels, '09) and set the conf record for ttl off yards by a frosh with 3,332 (Andy Dalton TCU, 2691, '07). He missed this past spring so Kirkegaard got a lot of quality snaps and improved as the session went on, however, this is Smith's offense and as long as he stays healthy I expect improvement.

RUNNING BACKS - Wyoming has had just one 1,000 yd rusher s/'99 (Devin Moore 1301 in '08). In '09 they had to replace their "Thunder and Lightning" duo of Moore and Wynel Seldon. True frosh Alvester Alexander led with 640 (4.7). In '10 WY had to replace their #2 rusher (498, 4.0). Alexander improved to 792 (4.2) and had 14 of the tm's 17 rush td's (QB had other 3). He had 390 (6.6) in the last 3 incl a schl rec 5 td's vs CSU. Alexander led the RB's again LY with 695 (4.6, 200 yd rec). They moved in KR/LB Ghaali Muhammad and he had 379 (6.3) in 8 but was then OFY and they took the RS off true frosh Kody Sutton. In 6 gms Sutton had 146 (4.9). He had 56 vs AF but a 3Q fumble led to an AF td and he had just 17 att's in the next 4. This year Muhammad is back at LB and Alexander left early for the NFL (undrafted). QB Smith was the Pokes best runner at the end of LY (finished #1) and OC Brandon has said he does not want that to happen again this year. Sutton and Brandon Miller (364, 5.5) are the top returnees and it may be hard for the unit to top the 4.9 ypc rush they avg'd LY (best here in more than 20 years).

RECEIVERS - Wyoming has had a storied history at WR with 2 of their 3 career leaders ranking among the top in the NCAA but no WY player has had more than 705 yds in a season s/'05. LY the Cowboys had to replace their top 2 rec's with the leading returnees being Chris McNeill (257, 9.2), Mazi Ogbonna (183, 10.2) and TE TJ Smith (175, 21.9). McNeill started to blossom into that go-to receiver (111 vs SDSt, 99 vs TCU) but was OFY and in just 9 sts still led with 504 (12.0). Robert Herron had a career high 104 (14.9) vs Weber St but only finished #5 w/379 (8.8). Ogbonna was #2 with 430 (10.8) and Josh Doctson emerged late (129 vs CSU) and had 393 (11.2). This year they lose Ogbonna (12 st), Doctson (9 sts) and possibly Sam Stratton (PS#115, 3 rec LY), who missed spring and may apply for a MedRS. This unit is still more exp'd and I expect that someone could top that 705 barrier.

OFFENSIVE LINE - Last year WY had to replace one 4 yr st'r but had 4 st'rs back (78 car sts), good size and I called it a much improved group. They did suffer numerous injuries and only once all season did they start the same O-line for 3 straight gms (final 3). C Nick Carlson had problems with his shotgun snaps forcing Brandon Self to switch positions over the last 4. WY improved to 182 ypg rush (4.9) and trimmed the sk total to a paltry 2.8% (12) aided by the mobile Smith. This year they lose 2nd Tm MW OT Clayton Kirven (11 st, 4Y st'r), John Hutchins (12 st, 2Y st'r) and Self (9 st). They drop to 2 st'rs back (64 car sts) and while they should stay healthier and add in a JC (IFS), they may drop a notch in '12.

DEFENSIVE LINE - The Cowboys' rush D numbers have been atypical in 4 of the L/5 yrs with veteran units having weaker numbers and inexperienced units having stronger numbers. The only year that met expectations was '10 when 9 of their 10 DL were either in their first season or had switched positions. That year they slipped to 206 ypg rush all'd (4.6, 20 sk), their weakest s/'03. LY the unit was bigger and more exp'd and all 4 st'rs ret'd but DT Patrick Mertens was OFY in Aug. Once again WY went against the grain as the team went from 3-9 to 8-5 but they ranked #115 FBS allowing 232 ypg (5.1, 22 sk). TY they lose 2nd Tm MW DE Josh Biezuns (13 st, 63 tkl, 5 sk) and 2nd Tm MW DE Gabe Knapton (13 st, 81 tkl, 6.5 sk) but return 6 of the top 8 and get Mertens back. Despite losing their top 2 DL's, with basically 3 st'rs back (same as LY), I'll call for the Pokes to have an improved rush D after LY's poor numbers.

LINEBACKERS - In '06 the Pokes all'd just 22.0 ppg, their best s/'98. The numbers steadily increased each yr topping out at 30.3 in '10. Last year they had to replace 2 LB's (comb 6 st, 61 tkl) then moved Muhammad (#4 tkl'r) to RB. They had 2 starters back and improved slightly to 27.8 ppg. This year WY loses 2nd Tm MW Brian Hendricks (13 st, #1 w/105, 3.5 tfl) and Luke Anderson (4 st FS, L/8 at LB) moves back to S but is expected to see time all over the field. They return 4 of their top 6 incl Korey Jones (5 st DE, 6 st MLB). Muhammad returns along with Oliver Schober (3 st, 46 tkl '10) who DNP in '11 (inj). I will call for a 2nd straight drop in the ppg allowed.

DEFENSIVE BACKS - Wyoming had experienced secondaries in '09 and '10 but fell to #73 & #76 (worst s/'03 in my PDR). LY they had to replace 3 st'rs including their #1 tkl'r as well as their #2 tkl'r who was the highest Cowboy taken in the draft (#4DC) s/'97. With just 1 st'r back, WY finished #101 (60.9%, 18-13). The lone returning st'r, CB Tashaun Gipson, was moved to FS after 4 sts but still earned 2nd Tm MW. This year they lose Gipson (#3 tkl'r, 3 int, 5 pbu). The Pokes predominantly ran a 3-3-5 this spring and do have 9 of the top 10 tkl'rs back from this unit so they are a lot more experienced and should make a good climb in my PDR.

SPECIAL TEAMS - HC Dave Christensen calls this unit the "Special Forces." In '08 they plummeted to #118 in my ST rankings and in Christensen's first year I called for a good-sized climb and they overachieved my expectations moving up to #30. They ended a 30 game drought without a PR of 20+ yds. In '10 the unit ret'd almost intact so I was surprised to see them drop to #80. LY they only had to replace their K but slid to #99. They were actually #120 in PR (-1 yd thru 5 gm) when Chris McNeill had a 76 yd PR vs UNLV. P Austin McCoy avg 21.8 in the 2nd gm but got back on track finishing with a 40.2 avg (net 36.7). True frosh Daniel Sullivan (PS#37) hit 7-11 FG (L/48) and had 6 TB on 63 KO. Sullivan spent his spring break at K camp which helped him improve his leg strength and consistency. TY they lose McCoy but could improve in the rankings.

COACHES - Dave Christensen took over as HC in '09 (OC for 12 yrs under Gary Pinkel at both Toledo and Missouri). OC Gregg Brandon is in his 2nd season and prior to arriving was the OC at Virginia ('09) as well as the HC at Bowling Green ('03-'08) leading the Falcons to 3 bowls. The new DC is the seasoned Chris Tormey. This former HC (Idaho '95-'99, Nevada '00-'03) was most recently at Wash St (LB's LY), Hawaii (Saf's & ST's '09-'10) and Washington (LB's '04-'08).

PHIL'S FORECAST

From '00-'02 Wyoming was just 5-29. Joe Glenn appeared to have them pointed in the right direction as in '04 they earned their first bowl s/'93 where they upset UCLA. They opened up '05 at 4-1 but Glenn's troops went just 15-27 in his final 3.5 yrs. In '08 the Cowboys were -22 in TO's and had 4 diff QB's (7-17 ratio). Dave Christensen stepped into a great situation in '09 with 8 st'rs back from a D that allowed just 330 ypg. They caught a lot of breaks getting to their first bowl in 5 yrs. I pointed out in '10's magazine that the Cowboys had an amazing 6 net close wins (pg 309), had just 6 sts lost to injury and had gone from -22 in TO's to +8. Despite being 4-4 in the MW in '09, they were -108 ypg. They did not defeat an FBS team with a winning record in the reg season and their 6 losses were by 27 ppg. In '10 Wyoming had 15 st'rs back and Christensen said "every kid in the program is faster than they were 1.5 yrs ago." I felt the team was even more talented than the '09 version but called for a weaker record. As expected, the bottom dropped out as they fell to 3-9 and last in the MW (picked 5th in pressn poll). However, they were -95 ypg, only 3rd worst. LY WY had 13 st'rs back but the schedule got easier going from a preseason ranking of #42 to #85. In the opener, Weber St missed a 53 yd FG on the final play (WSU 541-463 yd edge). They blasted Texas St (618-189 yd edge) then BG got a td with :03 left but WY blk'd the xp for the road win, 28-27 to open 3-0. Neb fans were abundant and the Cowboys were overmatched (WY trailed 31-7 4Q). They jumped out to a quick 12-0 lead vs Utah St but were steamrolled 63-19. They whipped UNLV 41-14, then jumped out to a 30-13 lead vs SDSt and held on for the 3 pt win (SDSt miss 2 FG & xp). WY benefitted from +5 in TO's vs TCU and led 20-17 in the 3Q but lost 31-20. On a very windy day (up to 60 mph) which would appear to benefit the more run oriented AF, WY pulled out a 25-17 win. They got revenge vs NM, 31-10 (upset in '10) then were thinking MW Title when they travelled to the blue turf. It was 7-7 when Boise got a Hail Mary on the last play of the half to go up 13-7 and WY lost by 22. CSU was without its QB and was int'd in the EZ just before the half and WY won by 3. Temple ran all over WY in the bowl (255, 5.0) and WY finished 8-5. WY does have just 12 st'rs back but is more exp'd at QB. They did benefit from 5 net close wins, +12 in TO's, a very beneficial off ypp (14.9) and are -3 in the Stock Market Indicator (pg 27). While they will not match LY's 8 reg season wins, they have a solid shot at a 2nd straight bowl.

WY is 0-4 vs UT losing by 25 ppg. In the L/gm ('10) WY led 7-6 late 2Q but allowed 28 unanswered. The Cowboys are 1-9 in road openers being shutout 3x's (won LY at BG).

In '10 WY won at Toledo, 20-15 in their only prior meeting. WY led 20-0 w/1:30 left 3Q as Toledo gained 48% (179) of their yds after. Cowboys are 17-1 in home openers incl 9 str wins by an avg 18 ppg.

First meeting. Cowboys have won 22 str vs teams w/FCS status (L/loss in '82). The Mustangs went 6-5 LY incl a 49-21 loss at SDSt. Cal Poly has had 8 winning ssns in the L/9 yrs.

WY is 4-1 vs UI (only series loss in 1921). This is WY's first gm at the Kibbie Dome (built in '71, enclosed in '75). LTH (Moscow in '50) WY won 14-7. Into '12, WY is 13-8 in non-conf gms L5Y.

Bonus: The Cowboys have won 2 straight home finales by a combined 75-10 but are just 3-9 the last 12. WY's War Memorial Stadium is the highest FBS stadium (7,220 ft).

Series is tied 2-2. First meeting S/'00. LTH ('97) WY won 34-30. The lead changed hands 4x's in the final 7:07. WY got the GW td w/:20 left but had to stop Nevada at their 4 on the gm's final deep pass.

The home team is 2-5. LY the Cowboys trailed 17-12 after 3Q's. WY went 79/16pl for a td (2ptng) w/7:40 left. AF's L/3 drives ended in a fmbl at WY24, a 48 yd FR td and int at WY35.

WY is 3-1 S/'95 vs FSU. L/gm was the '09 NM Bowl (WY won in 2OT). LTH ('97) the Cowboys lost 24-7. WY trailed 21-7 at HT but for the gm had a 353-326 yd edge (+7 FD, -3 TO).

LY the Cowboys had a 7-0 lead into the 2Q but allowed 36 str pts (WY was outgained 374-51 in that span). Into 2012, Wyoming is 6-10 their L/16 MW home gms (3-1 L/4 with an avg score 34-14).

104th "Border War". The L/time WY has won 4 str was 1970-'73. LY WY led at HT 14-6 but trailed into the 4Q 19-14. WY got a 90/11pl td drive w/8:46 left holding CSU to a SOD at W41, SAF & int their L/3 drives.

WY is just 3-9 vs NM. LTH WY led 21-7 late 2Q but lost by 3 as NM hit a 38 yd fg as time exp'd. LY's 31 pts was WY's most of ssn vs an FBS tm but it was also the fewest NM allowed vs an FBS tm.

Into '12, WY is 11-38 on the MW road. LTH WY led 13-7 into the 2Q but was outgained 312-134 the L/3 Q's.

Home tm was 6-0 from '03-'08 but is 0-3 L3Y. LY WY led 30-13 at HT & despite getting shutout & outgained

COLORADO ST RAMS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In former HC Steve Fairchild's first 3 ssns ('08-'10), he had a 1st time starting QB each year. In '09 the QB's avg just 197 ypg (55%, 14-15). In '10 I projected true frosh Pete Thomas (PS#21, IFS) as the st'r and much improved QB play. Thomas, in his first 3 gms, had a 1-6 ratio but finished with 64.7% comp, a frosh QB record at the DI level (Peyton Manning 61.8% Tenn '94). His 2,662 yds (11-13 ratio) broke the MW record for passing yds in a season by a Fr (SDSt Ryan Lindley '08) and broke the schl Fr record (Caleb Hanie 1204 in '04). Thomas threw all but 2 passes (trick plays) and took all but 9 off snaps. LY they added in Kan St transfer MJ McPeek and mobile true frosh Garrett Grayson (PS#164, ,GS '10). Thomas started the first 9 (1607, 61.7%, 7-8) but did have trouble connecting deep with his WR's. He was OFY vs SDSt and Fairchild opted to take the RS off of Grayson. Grayson got his 1st start at TCU and finished with 542 (55.8%, 2-6), rushing for 193 (Thomas -36). Thomas trans to NCSt so Grayson will battle rFr Conner Smith (PS#95), new HC Jim McElwain's recruit Craig Leonard (PS#212, IFS) and McPeek (no action LY). This is a new offense and new QB but they could top '11's numbers.

RUNNING BACKS - In '08 CSU's 4.2 ypc was their best here s/'03. In '09 they had to replace Gartrell Johnson (1476, 5.3, #4DC) and the top RB, Leonard Mason, had 766 (4.9). Mason led again in '10 but with 513 (5.6). RFr Chris Nwoke was #2 with 357 (4.8) while UCLA transfer Raymond Carter (PS#14) had just 235 (3.6). Heading into LY Fairchild said he didn't mind if he had a RB-by-committee. Nwoke had one 100 yd gm in the first 8 before breaking out with 232 vs SDSt and 269 (3rd best FBS LY) vs AF in a losing effort. Nwoke has tremendous power to go with 4.5 spd and led with 1,130 (5.7). Carter ran for 158 vs WY (Nwoke inj) and finished #2 (584, 4.8). TY they lose Carter (7 st) and Derek Good (99, 6.6) but get the addition of Texas A&M trans Mister Jones (PS#74). Not in the PSL are Davon Riddick (6'0" 204 rFr, PS#226), Donnell Alexander (5'11" 205 rFr, PS#247) and FB's George Maumau (5'11" 241 rFr, PS#272) and Joe McKay (6'1" 226 Jr, 11 gm LY). The team's 4.4 ypc was their best s/'03 and they will challenge that mark in '12.

RECEIVERS - In '10 Lou Greenwood moved from RB to WR, adapted well and led with 474 (13.9). 6'3" Byron Steele had 14 rec (15.1) in the first 3 but was banged up and had just 6 after (#3, 313, 15.6). LY Steele (susp/inj) played in only 8 (7 rec). After 4 gms CSU had no deep passing game with only three 20+ yd pass plays (just 1 to a WR). Versus SJSt, Greenwood had 149 yds with td's of 41 and 25 yds and Thomas Coffman had 2 rec for 92 yds incl a 47 yd td. TE Crockett Gillmore finished #1 with 468 (10.4) and was the first TE to lead tm in rec s/'84 (Keli McGregor). Greenwood was the only WR with more than 15 rec and finished #2 (396, 15.2) and FB Joe Brown was #3 in rec's. TY they lose Matt Yemm (4 st, 207, 13.8), Steele (3 st) and TJ Borcky (1 st, 13 rec). This unit should be a lot more productive and do a better job of getting separation.

OFFENSIVE LINE - In '10 CSU had to replace three 3 yr st'rs and a 4 yr st'r and had just 30 car sts ret. The numbers dropped to 113 ypg (3.5) and the 44 sks (11.2%) allowed were 3rd worst in the FBS, although C Weston Richburg earned 1st Tm Fr AA. LY they had 4 st'rs back (59 car st) but lost Joe Caprioglio after 3 sts. The more exp'd unit improved to 167 ypg rush (4.4, 35 sks, 10.2%). TY they lose 2nd Tm MW OT Paul Madsen (11 st, 3Y st'r), OG Jake Gdowski (12 st, 2Y st'r) and C Tyler McDermott (2 st). The unit struggled in the spring and in the 1st scrimmage allowed 27 sks in 131 plays. At one point they put out a call across campus for OL with OC Baldwin saying they didn't even have a 3 deep but he expects 18 OL in camp this fall. They return Caprioglio so it is like having 4 st'rs back (56 car sts) and CSU could improve, even in a new system.

DEFENSIVE LINE - In '10 CSU had to replace 3 DL st'rs and the less exp unit all'd 198 ypg (5.0). LY they had to replace 2 st'rs (1st Tm MW NT) then lost DE Broderick Sargent (11 st, 37 tkl, 2 sk '10) on the 4th snap of the ssn. Nordly Capi jumped out with an NCAA rec 4 FF in the opener and led the nation in sks in 5 of the first 6 weeks, finishing with 10 (most here s/'98, Joey Porter 14). However, their numbers slipped even more to 234 ypg (5.5, 26 sks). TY they lose NT Nuku Latu (9 st, 15 tkl, 2.5 tfl). Adding depth is Te'Jay Brown (6'2" 260 Jr, 3 st NT LY). Sargent returns (OFS) but is slated to move to OLB although he could line up at DE depending on if CSU is playing a 3 or 4 man front. Capi and NT Colton Paulhus were both expelled in April (can appeal) and are very unlikely to return TY but if they do, CSU would have 7 of their top 8 back so I would look for vastly improved numbers. If they do not, CSU has its work cut out for them.

LINEBACKERS - In '08 two starters were back (#1, #3 tkl'rs) plus they added Mychal Sisson, who became the first CSU player to earn consensus Frosh AA honors (#1 tkl'r, 8 tfl). In '09 with Ricky Brewer (#2 tkl'r) susp, they had just 1 st'r back and were hit hard by inj's. Sisson was #1 again. In '10 Brewer was the first Ram LB to have multiple 100 tkl seasons in his career since Eric Pauly ('02-'03). Brian Orakpo's little brother Mike made quite an impact playing behind Brewer as a true frosh (37 tkl, 2 sk). LY they had to replace 2 st'rs (#1, #4 tkl'rs) then Sisson (inj) played in just 5 (3 st, 28 tkl). That made it a lightly exp'd group and CSU allowed 31.3 ppg. TY they lose Sisson, Michael Kawulok (11 car st, inj), Orakpo (11 st, 87 tkl, 3 tfl) and 1 bkp (3 tkl). CSU returns 2 full-time st'rs (#1 & #2 tkl'rs) plus adds in DE/OLB Sargent and could improve.

DEFENSIVE BACKS - The Rams have only finished #86, #66, #90, #101, #104, #118 and #89 in my PDR the last 7 years. Last year they had 3 st'rs back and were deep at CB but thin at S and Elijah-Blu Smith (6 st) was playing through a right shoulder tear. They all'd 61.8% w/a poor 19-8 ratio. TY they lose Smith (24 tkl, 2 pbu), SS Ivory Herd (10 st, 50 tkl) and Ezra Thompson (23 tkl) but return 5 of the top 8 and could be headed for their best finish in my PDR s/'04 (#55).

SPECIAL TEAMS - In '09 Fairchild brought in true frosh P Pete Kontodiakos (PS#19). He booted every P and avg 40.9 (net 31.6), but that unit finished just #105 (#100 '08). In '10 they finished #46. LY Derek Good had 778 KR yds (24.3) and Lee Clubb added 390 (26.0) but CSU was -0.5 on KR yds (allowed 24.6). K Ben DeLine hit 16-22 FG (L43) in '10 but struggled LY (4-8, L42) and Chad VanderMolen hit 6-8 (L44). Kontodiakos improved his net to 38.7 (43.6 avg). TY they lose DeLine, VanderMolen and Good but could still move up again in my ST rankings (#85 LY).

COACHES - Sonny Lubick arrived in '93 and guided CSU to 9 bowls in his 15 yrs with 6 league titles. Steve Fairchild had the difficult task of replacing a legend and after a bowl win his first ssn the Rams went just 3-9 each of his L3Y. They opened their wallets and brought in Jim McElwain who was Bama's OC from '08-'11 and Fresno's OC in '07. Dave Baldwin was hired as OC after holding the same role at Utah St ('09-'11), N Mex ('07-'08) and Mich St ('03-'06). He was a HC for 4Y at San Jose St ('97-'00). McElwain hired co-DC's in Al Simmons (UTEP S cch LY, Cal's DB cch '08-'10) as well as Marty English (DC WY '09-'11).

PHIL'S FORECAST

Sonny Lubick recorded 10 straight winning seasons incl 6 conf titles from '94-'02. Unfortunately CSU did not have a winning season in any of his final 4 yrs and got to just 1 bowl ('05). In Lubick's final year ('07) they had 4 close losses and 31 sts lost to injury. Those factors pointed to improvement for new HC Steve Fairchild despite having just 12 st'rs back. Fairchild caught some breaks in his first year and thanks to 2 net close wins in '08, finished 7-6. In '09 they had to replace their QB, RB and 5 of their def front 7. They had just 35% of their off yards ret (#107 FBS) and after opening 3-0, they lost their final 9. They became the first team to lose 8 MW games (0 conf wins 1st time s/'81). In '10 my biggest concern was the O-line (1 ret st'r) and they allowed 44 sks of their true frosh QB. CSU avg 16.5 ppg, their lowest s/'81 (13.7). The D, with 6 st'rs back, allowed 34.7 ppg, their highest s/'81 (41.8). LY a myriad of factors called for improvement as they had an off ypp of 20.3 in '10, a more veteran line and for the first time in Fairchild's tenure, an exp'd QB. They also got 4 MW HG's (only 3 away) and made my Most Improved Teams list. 70% of the teams that make my MIT go from a losing record to a bowl but CSU was one of the few disappointments. NM fmbl'd at the CSU18 with :23 left and CSU snapped an 11 gm road losing streak. They jumped out to a 31-0 lead over N Colo and won 33-14. Colo got a td with :12 left in the half following a blk'd punt and beat CSU (28-14) who had already lost their top def LB Sisson and top pass rusher DE Sargent. CSU rebounded to beat Utah St on the road, 35-34 (2OT), was 3-1 and looked bowl bound. They had a 458-450 yd edge but SJSt got a td with :54 left to pull out the 38-31 win. They were dominated by Boise (outgained 742-231) and then lost to UTEP by 14 (outgained 456-255). The game that probably hurt the most was their loss at UNLV by 3 where they had a 480-361 yd edge and UNLV got a 5 yd td run with 1:20 left. They lost starting QB Thomas and Grayson hit just 6-15-26 vs SDSt and they lost by 3. Grayson's first start was the road loss to TCU where CSU actually had a 408-372 yd edge. They lost to AF by 24 then CSU had a 19-14 3Q lead despite playing without 4 susp ply'rs but they lost by 3 to WY. New HC Jim McElwain was Alabama's OC and in the Title gm the Tide rolled up 384 yds vs LSU. In fact, he steps into a good situation as the team was -4 in TO's, potentially has 15 st'rs back and had poor ypp's (see pg 309) LY. They had three top def players expelled in the spring (1 will transfer) and if the other 2 return CSU could still get to that magical 6 win total.

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '05, UH had to replace Timmy Chang, who left as the NCAA's all-time career passer (17,072). Colt Brennan took over and in 3 yrs threw for 14,193. Surprisingly the UH record for comp % in a season was just 60% (Chang) and in Brennan's best year ('06) he threw for 5,549 (73%, 58-12, #1 NCAA pass eff). After Brennan left in '07 they had 2 yrs of inexp'd and injury plagued units. In '09 when the starting QB went down, walk-on Bryant Moniz, who was #4 in Aug, took over. Moniz suffered a conc and Shane Austin started vs SJSt (gm 9, 299 yds). In 4 gms Austin threw for 545 (62%, 2-3). Moniz threw for 2,396 (57%, 14-10). Moniz missed most of '10 spg but was reinstated in May. He topped Brennan's '06 school record by 1 yd with 560 vs SJSt in just over 3Q's. Moniz led the nation in '10 in total off 367 ypg, pass yds (5040) and td's (39) while Austin had 33 att's. Moniz had 102 rush in '10 but in the '11 opener he rushed for 121 and 3 td's, the highest s/'95 (Glenn Freitas 122, 4 td). Moniz tied an NCAA record with 7 td's in the 1H vs UCD incl a schl rec for yds passing in a half w/424. Unfortunately, Moniz (10 st, 2733, 62.5%, 22-5) broke his ankle vs Nev. Austin started vs Fresno but struggled and David Graves took over but was inj'd in the 3Q of his first st vs Tulane and he and Austin split snaps the rest of the yr. Graves threw for 768 (57.3%, 5-2) and Austin for 500 (53.4%, 2-3). While Moniz and Austin both depart TY, they add in Utah St transfer Jeremy Higgins (6 passes in '10) who RS here LY. Cayman Shutter (PS#124, 1 gm LY) was susp in early April and is ? this year. The new offense is not as pass-happy and there will be a drop in the numbers.

RUNNING BACKS - LY UH had to replace their first 1,000 yd rusher s/'92 in VHT Alex Green (PS#44JC) who had 1,199 (8.2) and was the #3DC GB. The unit had 0 career ret yds. I proj JUCO Sterling Jackson (220 lbs, 10.7 100m) to win the job but he only st'd 1 (246, 4.3). Joey Iosefa (240 lb rFr) led with 548 (5.0) and QB's were #2 and #4. TY the unit returns intact. Chow likes to work a FB into his offense for 15-20 plays a game, but that group was devastated by inj's in spg. Dustin Elisara (6'0" 270 So, PS#90) suffered a knee inj so they added in LB's Justin Vele (6'0" 240, PS#295) and Jordan Monico (5'11" 240 Sr, PS#349) with plans to work frosh Ethan Watanabe (6'2" 265, PS#138TE) there once he arrives. However, even with the problems at FB, UH ret's Iosefa and adds rFr Will Gregory (PS#94) making it much more exp'd. I expect a large upgrade in production.

RECEIVERS - In the past, the Warriors used 4 WR's, rarely using a FB or TE. LY they had to replace 4 of their top 5 rec's (top ret Royce Pollard 901, 14.1). The two biggest losses were Greg Salas (#1 NCAA, 1889, 15.9, #4DC) and Kealoha Pilares (1306, 14.8, #5DC). The unit was hit hard by inj's with only soph Billy Ray Stutzmann starting all 13 (#2, 910, 11.7). Pollard was banged up but still led with 1,011 (14.2). Jeremiah Ostrowski had 11 rec vs Wash but missed 3 and finished #3 (687, 10.6). They had to take the RS off true frosh Trevor Davis vs NMSt (2-48) and he started the final 6 (#4, 366, 13.1). Allen Sampson tore his ACL vs NMSt (4 st, 186, 10.3). TY the only losses are Pollard (12 st) and 3 bkps (comb 8 gm, 2 rec). Not in the PSL are Breyden Torres-Keohokapu (5'10" 165 Sr, 2 rec LY), Corey Paclebar (5'7" 170 Jr, 5 rec LY) and Duke Bukoski (6'0" 205 rFr, PS#268). Their top 4 rec's in '10 comb for 4,607 (14.4) but LY just 2,974 (12.3). TY they add a FB and TE so while the unit should remain healthier and has more exp, they will certainly not have as many pass opportunities.

OFFENSIVE LINE - Former HC June Jones did an outstanding job developing the line and in his 9 yrs here had 7 OL's drafted. In '08 they had to replace 2 st'rs (1st Tm AA) but surprisingly allowed a near-NCAA record 57 sks (11.6%, 3.2 ypc). In '09 they had to replace 2.5 st'rs and began with 5 fifth yr Sr's. As expected, the unit showed improvement with 4.5 ypc allowing "just" 36 sks (6.3%). In '10 they had to replace 4 st'rs (24 car sts ret, #113 FBS) but once again had a Sr laden group. The less exp'd unit put up similar numbers (106 ypg, 4.8) with 40 sks (6.5%). LY they had to replace all 4 st'rs (two 2nd Tm WAC) and seemed to be on par with '10 with 21 car sts but their lone ret st'r, Austin Hansen, DNP (susp) leaving UH with 1 career start returning. The unit was further decimated by inj's with only 1 OL starting 12 and only 2 others starting 10+. They dropped to 95 ypg rush (4.1, 41 sk, 6.9%). TY they lose 2nd Tm WAC LG Brett Leonard (12 st), C Matagisila Lefiti (6 st), C London Sapolu (8 st), G Andrew Faaumu (10 st) and LT Clayton Laurel (9 st). While TY's unit is lightly tested, they do have 3 with starting exp (20 car sts, only #119) and should remain healthier meaning better success than LY's beleaguered unit.

DEFENSIVE LINE - In '09 UH had just 1 DL st'r back and was also inexp'd at LB and they allowed 202 ypg rush (4.9, 19 sk), their highest s/'04. In '10 they had to replace 2 st'rs but added AZ trans Kaniela Tuipulotu, who earned UH's Most Outstanding Def Player Award. They improved to 136 ypg (3.6) with 30 sks. LY they had 6 of the top 8 back (lost 2 st'rs) and at times played 4 DT's across the line. Surprisingly the rush D slipped a little to 142 ypg (3.9) but with 35 sks. TY the losses are heavy. Gone are 2nd Tm WAC DT Vaughn Meatoga (13 st, 38 tkl, 3 sk), 2nd Tm WAC DT Tuipulotu (13 st, 32 tkl, 4 tfl), DE Zach Masch (10 st, 40 tkl, 1.5 sk) and DE Liko Satele (18 tkl, 3 sk, 1 tfl). With only 1 st'r back I'll call this unit down a few notches.

LINEBACKERS - In '10 UH had to replace their top 2 tkl'rs for a 2nd straight yr and while they had 4 w/st exp, the leading returnees were just the #5 and #12 tkl'rs. UH still improved to allowing 25.5 ppg. LY they had to replace 2 who comb for 4 st (55 tkl) but ret'd 1st Tm WAC Corey Paredes (151 tkls) and 2nd Tm WAC Aaron Brown (#3 tkl'r). Surprisingly they allowed 29.1 ppg. TY they lose 2nd Tm WAC Paredes (13 st, #1 w/107, 6.5 tfl) and 1st Tm WAC Brown (#2 w/103, 13 tfl, #7DC STL). They return one st'r (#4) and the 5 other returnees comb for just 26 tkls.

DEFENSIVE BACKS - UH had a veteran secondary in its magical '07 Sugar Bowl ssn and finished #28 in my PDR (#60 in '06). In '08 they had to replace 3 st'rs and dropped to #76. In '09 they had to replace 8 DB's (comb 58 sts). Of the 7 who st'd in '09, they had a comb 38 career tkls (0 car sts). As expected they dropped even further to #107. In '10 they were the polar opposite in terms of exp and made a huge jump to #44. LY they had to replace 1st Tm WAC FS Mana Silva (UH career rec 14 int just 2Y) as well as 2 other st'rs and a bkp. They ret'd just 2 of the unit's 14 int's and slipped to #80 (58.3%, 28-14). TY they lose 2nd Tm WAC SS Richard Torres (13 st, #5 tkl'r, 3 int, 4 pbu), CB Tank Hopkins (13 st, #8 tkl'r, 13 pd), Kenny Estes (1 st, 14 tkl) and Kawika Borden (5 tkl). This unit has a little more exp and should move up in the PDR.

SPECIAL TEAMS - In former HC McMackin's first 3 yrs UH finished #116, #67 and #82 in my ST rankings. LY they added in Dick Tomey as the STC. UH did have 6 kicks blk'd which hurt them but improved to #32. Two K's comb to hit 9-14 FG (L47). In '09 Australian Alex Dunnachie avg 39.2 in his first year of American football (net 36.5) and in '10 sometimes out-kicked the coverage (43.0, 36.3 net). He changed his punting style in '11 and avg just 39.7 but improved the tm net to 38.4. Tyler Hadden had 2 TB on 73 KO. UH's 5 blk'd kicks (John Hardy-Tuliau 4) were the most s/'04 (5). Soph Mike Edwards (PS#73) was the top KR (24.7) earning 2nd Tm WAC and 25 year old true Fr Scott Harding was a 1st Tm Frosh AA PR (19, 7.4). TY they lose cch Tomey but with everyone back, should have another top-notch unit.

COACHES - Greg McMackin got UH to bowls in '08 and '10 but was let go after going 6-7 for a 2nd time in 3Y. Honolulu-born Norm Chow gets his first shot as a college HC after putting in 39 yrs in the college and NFL ranks. He was recently the OC at Utah ('11), UCLA ('08-'10), USC ('01-'04), NCSt ('00), BYU ('82-'99) and the NFL Titans ('05-'07). Chow plans on calling his own offensive plays. OC Tommy Lee was the HC at Montana Western ('01-'07) and an asst at Utah (QB's '95-'97, OC '98-'00). Thom Kaumeyer was an NFL asst for 5Y (JAX DB cch '09-'11, ATL '00-'01). He was also the DC at SDSt crafting the "Darkside D".

PHIL'S FORECAST

In the last 21 yrs, Hawaii has improved its record by at least 4 gms 5 times including 1999 when I called for UH to be the Most Improved Team in the NCAA. They did not disappoint going from 0-12 in '98 to 9-4 in '99. That, at the time, was the biggest single season turnaround in NCAA history. In fact, my magazine was around for 4 of those 5 turnaround seasons and in each of those 4 yrs UH made my Most Improved List meaning I thought they would go from a losing record to a winning record and they did. In '07 they were coming off an 11-3 record and I actually projected them to play in the Sugar Bowl which was laughed at by many. UH gave me a couple of scares but went 12-0 and got to the Sugar Bowl (lost to Georgia). The next 2 yrs, UH went a comb 13-14 (1 bowl). UH had a losing season in '09 at 6-7 but was -11 in TO's (pg 322) and in '10 was back on my MIT List. UH was picked just #5 in the WAC poll but exceeded everyone's expectations. They finished WAC co-champs at 7-1 beating UN at home 27-21 but getting plastered by Boise 42-7. They were 10-3 and #24 when they lost to Tulsa 62-35 at home in the bowl but won 10+ for the 5th time s/'92. LY they did return QB Moniz back but had just 7 other st'rs back and had benefitted from +12 in TO's and 2 net close wins in '10. Surprisingly UH was the media's choice for 1st place in the WAC. UH opened with a solid 34-17 win over Colo but then lost by 8 at Wash. Shockingly they lost to UNLV 40-20 on their 2nd straight gm on the mainland. After an expected win over UCD, it surprised me that they beat LT 44-26 on the road (494-368 yd edge). On a Friday night they lost to SJSt by 1 and then had expected wins over NMSt and Idaho to open 5-3. They led Utah St 28-7 at half (352-153 yd) but USU got a td with :14 left to pull out the upset. The next wk vs Nev, Moniz was inj'd late in the 1Q (OFY) and they lost by 14 (528-307 yd deficit). At home vs Fresno they were outgained 272-110 at half with a bkp QB and lost by 3. They got past Tulane by 12 but in the ssn finale needing a win vs BYU for a bowl, UH led 13-10 at HT but lost 41-20 and finished 6-7. They were 3-4 in the WAC and -19.6 ypg. This year they have just 10 st'rs back plus lose Moniz. LY's team did have 2 net close losses and they do bring in Chow as the new head man. They go through a scheme change on offense so this figures to be a rebuilding year and they won't match last year's 6 win total.

UNLV REBELS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 true frosh Caleb Herring (PS#120) was impressive with the scout tm but RS. In '10, despite returning 11 gm st'r Omar Clayton, Mike Clausen became the 6th QB to start a lid-lifter for UNLV the last 7 yrs. He hit 4-10-23 (3 sk) and was pulled in the 3Q and moved to DB. Herring (strongest arm) saw his first action in the 2H vs Idaho (gm 3). Three times Herring came off the bench to lead the team to its only td, but those were all vs bkps. Clayton started 12 and threw for 1,818 (56%, 13-9) while Herring threw for 365 (50%, 4-3). Clayton left as the #2 career passer. LY Herring had to fend off HC Bobby Hauck's recruits Taylor Barnhill, Sean Reilly (JUCO) and true frosh Nick Sherry (PS#70) who ended up RS. To say Herring (7th new opening day st'r in 8Y) had some rough outings would be an understatement. He had 3 IR td's basically giving Southern Utah the game and then did not complete his first pass until 4:17 was left in the NV gm (1-14-8, 5 sk). Reilly, who had an int problem in Aug, got the start vs WY (7-16-79, 3 drops) and Colo St, but tossed a 52 yd pick 6 on the 2nd series vs CSU and Herring came in and led the win. Reilly was just 4-13 in 3 gms after that. The 6'4" 240 rFr Barnhill started vs NM and despite playing TE for the previous 6 wks and never throwing a college pass, hit 7-10-54 and then 4-12-48 in his start vs TCU. For the season, UNLV avg'd 110 ypg (3rd lowest FBS behind only Army & Navy), 53.5% with a 10-10 ratio and Herring's 1,004 yds pass were the lowest ttl to lead the tm s/'98. This year they all return but Barnhill went to LB and USC transfer James Boyd (PS#8DL) moved to DE on the last day of spring. I think Sherry will win the job and can only produce better numbers.

RUNNING BACKS - UNLV has not had a 1,000 yd rusher s/'04 (Dominique Dorsey, 1261). In '10 true frosh Tim Cornett (sprinter HS) had only 107 over the first 5. He got his first start Wk 6 and became the first frosh ever to lead UNLV in rushing with 546 (3.8). He also tied a Rebel frosh record with 8 ttl td's. LY GS Dionza Bradford rushed for 104 in his 1st st (WY), had 122 vs Colo St, then 152 vs NM before an arm injury (46 yd last 3 gm). Cornett filled the void rushing for 104 vs AF and 136 vs SDSt. Cornett is the first UNLV player to have career td's rushing, rec and on a return since Henry Bailey ('91-'94). Bradford came up 9 yds short of the frosh rushing record (624, James Wofford '97). Cornett led with 671 (5.6) while Bradford was #2 with 615 (4.6) and Randle was #3 (489, 4.4). They lose Bradford (left tm) but Cornett is poised to become the 1st UNLV RB to lead the tm in 3 consec years since Michael Morton ('79-'81) and the unit could improve again.

RECEIVERS - In '10 the Rebels had to replace their career leader, Ryan Wolfe. They ret'd 6'3" Phillip Payne (5 sts true '08, 436, 15.0) who was #2 in '09 (661, 11.4). They also had back Michael Johnson (#3, 484, 11.3 in '09). Payne was susp for 2 after a criticizing Tweet (follow me @ philsteele042) but still led with 689 (17.2!) while Johnson was #2 (571, 11.2). New HC Hauck brought the TE back into the offense and Austin Harrington was #3 (163, 10.2). LY those 3 all ret'd but the numbers dropped as Payne led with just 509 (11.6), Johnson was #2 (285, 9.2) and Harrington #3 (164, 10.9). TY the Rebels lose Payne (11 st), Johnson (12 st), TE Anthony Vidal (12 st, 55 yd), Harrington (2 st) and Mark Barefield (2 st, 36 yd). Despite this unit losing its top 4 rec's and being vastly less exp'd, they could actually produce better numbers if a solid QB emerges.

OFFENSIVE LINE - UNLV had a veteran O-line in '10 (4 st'rs back, 86 car sts) but actually dropped to 103 ypg rush (3.0) with 35 sks (9.9%). LY they had to replace 3 multi-yr st'rs (comb 9.5 yrs st exp). They added in Allen Carroll (PS#35) but he was never cleared and the unit had zero seniors. They lost Andrew Mack over the summer (7 st in '10) and over the final 5 had 3 frosh starters. It surprises me that UNLV improved to 164 ypg rush (3.9) but did allow 35 sks (13.0%) with more of an emphasis on the run game. This year they only lose LG Sean Tesoro (5 st) and Hauck calls this spot the most veteran on the team, "because we have 2 Sr st'rs." With 69 car sts back UNLV is vastly more exp'd.

DEFENSIVE LINE - In '09 UNLV had an exp'd D-line but surprisingly yielded 5.7 ypc (221 ypg), their worst ypc s/'96 and had just 15 sks. In '10 they had to replace 2.5 st'rs and ret st'r Isaako Aaitui tore his ACL in spring and played with a knee brace. My proj'd starting DT Ramsey Feagai tore his MCL (1 tkl) in the opener. The Rebels allowed 223 ypg (5.2) with a miniscule 12 sks (#115 FBS). LY they had to replace 2 st'rs and 2 bkps. I looked for improvement provided there were no more unexpected losses. The Rebels trimmed down to 194 ypg rush (4.9) but just 14 sks (#108 FBS). TY they lose 2nd Tm MW James Dunlap (12 st, 47 tkl, 6.5 sk), DE Matt Kravetz (7 st, 23 tkl, 2.5 tfl), DE BJ Bell (5 st, 14 tkl) and Ian Bobak (14 tkl). They do return 3 who started 6+ LY and get the huge addition of PS#8, USC transfer James Boyd who worked at QB for most of the spring practices. UNLV should show continued improvement.

LINEBACKERS - In '10 UNLV had to replace its #1 tkl'r but had 5 of the top 6 back. The 3 st'rs were all Sr's but the unit slipped to allowing 39.7 ppg, the most s/'96 (45.9). LY they had to replace all 3 st'rs (#1, #3, #4 tkl'rs). Tani Maka (PS#145, DNQ at UCLA) had 1 start and 34 tkls in '10 and they also moved in RB CJ Cox. The unit added VHT Princeton Jackson (PS#19JC) but surprisingly he had just 1 start (39 tkl). UNLV slipped to allowing 40.4 ppg ranking #118 in the FBS. TY they lose Nate Carter (12 st, #1 tkl'r, 3.5 tfl) and Cox (6 st, 12 tkl). This unit is more exp'd and I look for a bigger year from Jackson and much improved numbers.

DEFENSIVE BACKS - UNLV has struggled in pass D as from '05-'09 they finished #115, #113, a surprising #51 then #110 and #109 in my PDR. In '10 they had 6 w/starting exp but CB Quinton Pointer (12 st '09) was OFY in week 1 and FS Travis Dixon (7 st '09) had just 2 sts (4 gm). As you would expect, with the coaching change and inexp, UNLV finished #114 (64%, 25-7) allowing 14.2 ypc. LY they had to replace 2 st'rs and only improved to #109 (60.9%, 27-7). TY the Rebels lose CB Will Chandler (10 st, 32 tkl, 7 pd), S Daniel Harper (10 st, 61 tkl, 4 pd), Pointer (8 st, 59 tkl, 2 int, 3 pbu), SS Mike Clausen (6 st, 41 tkl, 2 pd) and Deante' Purvis (8 tkl). Overall the unit is less exp'd (1 ret st'r) but can only move up in my PDR.

SPECIAL TEAMS - UNLV was #62 and #61 in my ST rankings in former HC Mike Sanford's final 2 yrs ('08-'09). In '10 they had to replace their P/K Kyle Watson (9-14 FG, 37.8 net) and I called for them to drop a notch to two. True frosh Nolan Kohorst (PS#29) hit 8-11 FG (L47). Deante' Purvis was the top KR in '09 (23.3) but true frosh Marcus Sullivan avg 27.9 and was the MW STPOW vs SDSt when he set the UNLV single gm record with 224 KR yd. He did lead the MW in KR yds but the Rebels dropped to #85. Last year they added in JUCO P/K Chase Lansford whose father, Mike, was the barefooted K with the LA Rams ('82-'90). Lansford avg'd 43.7 and hit 8-11 FG (L52) at JC in '10. UNLV again turned in a similar finish at #91. Kohorst hit 9-14 FG (L50, missed a 52 yd'r) and Lansford avg 41.2 (35.9 net) and had 7 TB on 33 KO. This year they lose their top KR but Sullivan is back (missed LY) and they should easily top last year's finish.

COACHES - Bobby Hauck is in his 3rd season here as HC coming from Montana where he guided the Grizzlies to an 80-17 record and 7 straight playoffs including making it to 3 FCS Champ games in 7 years. The first 2 seasons Hauck kept the same coordinators that he had at UM and while still on the staff, he demoted them in Feb '12. Brent Myers (TE cch L2Y) was the OL coach at L'ville ('07-'09) and will be the OC here this season. JD Williams will be the new DC after handling the DB's here the L2Y and served as the DB coach at Utah ('09), Wash ('06-'08) and Cal ('02-'05) prior.

PHIL'S FORECAST

UNLV has had just 1 winning season in the last 17 yrs (8-5 in 2000). Mike Sanford took over in '05 and in his 5 yrs the team was a league worst 8-32 in MW play with the next closest being Colo St (12-28). The Rebels did have some moments such as almost knocking off #5 Wisc in '07 and beating #15 Ariz St in '08. UNLV could have easily been bowl eligible in both '08 and '09 with some tough losses going 5-7 each year. In '10 they brought in Bobby Hauck from Montana. Many called for immediate improvement but there were signs the record would get weaker and I called for their 7th straight losing ssn. The '09 squad remarkably only had 5 sts lost to injury and despite their 3-5 league mark, they were -119 ypg (MW worst). Normally when a new HC comes in there is a large overhaul but only 2 schlp lettermen left after Hauck's first spring. As expected, they did not catch the same luck and routinely had 20-25 players on the injury list. UNLV dropped to 2-11 (-148 ypg MW). For the first time in schl history no UNLV player made 1st or 2nd Tm All-Conf (at least one each yr s/'82 when they joined Big West). LY they were even less exp'd with just 10 st'rs back and I called for an 8th str losing season. UNLV finished 2-10 (-143.5 ypg MW). They lost their first 2 by a comb 110-24 but then stunned Hawaii 40-20 (365-290 yd edge). UNLV gave up 3 IR td's (35, 22 and 74) and lost to FCS Southern Utah 41-16 at home despite a 402-256 yd edge. They lost to NV and WY on a 2 gm road trip by a comb 78-14 but at home, despite being outgained 480-361, beat Colo St by 3. UNLV surprisingly was tied with Boise 14-14 with :30 left in the half but would lose by 27. Even with a 13 gm road losing streak, they were favored at NM and lost outright, 21-14, then AF beat them by 28. It was interesting that in their final 4 gms they were part of 4 senior day games with only 1 of them their own. In their FHG they led SDSt 14-7 at half but lost by 17 and then were rolled by TCU 56-9. At home they were -25 ypg and on the road were -272 ypg. This year's squad is still young as they have just 11 schlp seniors with only 6 on the post spg 2 deep. Hauck now enters his 3rd yr and their def ypp LY was 11.0 (pg 309). Despite just 12 st'rs back (tie 4th fewest MW), this figures to be Hauck's best tm in his 3 years here.

NEW MEXICO LOBOS

QB BR Holbrook

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '10 the Lobos had to replace Donovan Porterie (#3 career passer) and it was a 4 man battle. In '09 BR Holbrook almost took the starting job after a big gm vs AF (gm 3) but came down with mono. Holbrook won the job in '10 and started the 1st 2 but underwent knee surgery and Tarean Austin (PS#81) became NM's first true frosh starting QB s/'88. Holbrook played in 7 (4 st) and led with 619 (53%, 2-6). Stump Godfrey (4 st, 7 gm) threw for 553 (59%, 5-3) and Austin (2 st, 7 gm) for 398 (49%, 2-4). Last year Godfrey transferred and Holbrook's knee caused him to miss time again. Then-HC Locksley thought Austin was more mobile so he began as the starter. Against SHSt (gm 4) Holbrook came off the bench and threw for 289 yds and when Locksley was fired after the gm, interim HC George Barlow anointed him the starter. Austin hit just 4-12-33 after that. Holbrook was basically the only QB available at the end of the year (Austin out w/acad) and finished with 1,490 (59.7%, 4-7) while Austin threw for 706 (51.3%, 3-1). TY they lose Austin and then rFr Dustin Walton (PS#82) trans in spg but they do get 2 solid newcomers. The new OC likes to run the option and Holbrook had 93 (1.5) rush LY, but ran a lot during spg and says his knee is 100%. No matter who takes the snaps, the QB numbers should improve from last year's 56.6% and 7-8 ratio.

RUNNING BACKS - Rocky Long had a TB run for 1,000 yds in 7 consec seasons and NM had a 1st Tm MW RB every year from 2002-'07. In Mike Locksley's first year the top RB had just 427 (5.5). That year ('09) Kasey Carrier (speed) pulled off his RS in gm 7 and finished with 269 (4.4). Carrier led in '10 but with only 373 (3.6), the lowest for a leader here s/'91. James Wright, the only true power back, had 304 (3.4). While they both ret'd LY, Carrier (inj) RS. Wright started 7 but rushed for just 220 (3.6) and saw his PT decrease. True frosh Crusoe Gongbay (PS#139) was an aggressive downhill runner and avg'd 4.6 ypc (500 yd, 5 of NM's 10 rush td's). Soph Demarcus Rogers was #2 with 242 (3.0). Gongbay requested a release but even with the loss of their top rusher, in a more run based offense, I look for the most yds from a RB here since at least '08.

RECEIVERS - In '08 NM had to replace a pair of 1,000 yard rec's (both 1st Tm MW). The top 3 in '08 did not even combine for 1,000. In '09 the top 3 comb for 1,194 (11.3) but had just 8 td's and in '10 comb for 1,234 (13.0) and 10 td's. The top 2 ret'd LY in Ty Kirk (477, 12.6) and TE Lucas Reed (459, 13.9). Locksley brought in 2 big-time transfers in Lamaar Thomas (PS#9, Ohio St, 4.31 spd) and Deon Long (PS#42, WV). Thomas had 156 (17.3) but was OFY after 4 gms. Long, despite being banged up led with 809 (17.2) and Kirk was #2 with 376 (8.0). The unit was hit hard by inj's. In fact, vs SDSt true frosh CB Jamal Merritt moved to WR during the week and led with 2 rec's for 18 yds. By Nov, 9 of NM's 10 longest plays were by WR's Long, Thomas and Kirk with Kirk and Thomas already OFY and Long hobbled. TY they lose Long (9 st, trans), Michael Scarlett (5 st, 6 rec) and Martize Barr (1 st, 8 rec) but this unit looks stronger and should maintain better health.

OFFENSIVE LINE - Under Rocky Long the Lobos annually featured one of the biggest OL's in the NCAA and they nicknamed themselves "The Hitmen." In Long's final season they had just 14 car sts ret (2nd fewest FBS) and the inexp'd group surprisingly opened holes for 208 ypg rush (4.6, 18 sk). In '09 they only had to replace 2 st'rs and took a drastic turn downward (100 ypg, 3.3, 41 sk, 8.7%). In '10 they had to replace 3 st'rs (1st Tm MW C) and avg 108 ypg (2.9, 27 sk). LY they had to replace 3 st'rs and ret'd 20 car sts. The Lobos moved up to 113 ypg rush (3.4, 30 sk). TY they lose RG Mike Muñiz (10 st) and LG Jon Washington (3 st) but have 4 st'rs back (65 car sts) making them much more exp'd. As long as they stay healthy (depth is thin), they should have their best numbers s/'08.

DEFENSIVE LINE - Rocky Long felt the team could not recruit top-notch, big DL's so his 3-3-5 defense was the perfect fit and NM was always tough vs the run. In his final season the Lobos allowed just 122 ypg (3.3). In '09 they switched to a 4-3 and had 4 new st'rs. While the numbers were the worst in 9 yrs, they were still respectable at 165 ypg rush (3.9, 23 sk). In '10 they only had to replace 1 st'r and returned 2nd Tm MW DE Johnathan Rainey (9.5 sk). NM's numbers shockingly slid to 250 ypg rush (5.3), their worst s/'91 and they had just 11 sks (avg 33 sk prev 10 yr). LY they had to replace Rainey (only 5 st '10, inj) and 2 other DL (comb 18 sts) then a proj'd starting DT (PS#68) transferred. They still had 2 st'rs back although Ugo Uzodinma lost his spot (3 st). The Lobos regressed again to 247 ypg (5.5) with 10 sks (t-#116 FBS). TY they switch to a 3-4 and lose 3rd Tm MW DE Jaymar Latchison (10 st, 45 tkl, 2 sk) and DT Brett Kennedy (6 st, 10 tkl). With the return of Uzodinma they have 4 back who made starts including 3 BCS transfers and can only improve over LY's horrific numbers.

LINEBACKERS - With the departure of Long, the LOBO position made famous by Brian Urlacher disappeared from the NM defense. The '09 group also had to replace 2 st'rs (#2, #5 tkl'rs). Carmen Messina led the FBS in tkls (162). In '10 they had to replace their #2 and #4 tkl'rs. Messina still led the MW with 115 tkls despite being hobbled. LY they brought the LOBO back to the D. They had Messina plus their #3 and #4 tkl'rs back and slightly improved on ppg all'd. TY they lose 2x 1st Tm MW Messina who again led the MW (#7 FBS) and departs as the MW career tkl leader topping UNLV's Adam Seward ('01-'04). Also gone are LOBO Martize Barr (4 st, 21 tkl, 2 tfl) who also spent time at WR and Spencer Merritt (1 st, 61 tkl). They do have 3 back who have been full time st'rs incl Joe Stoner (12 st, 67 tkl '10) and add in Maryland transfer Javarie Johnson (PS#22, ACL LY). The Lobos did allow 41.7 ppg (#119 FBS) and despite losing their top LB, should improve.

DEFENSIVE BACKS - In Long's last 2 yrs NM finished #22 and #56 in my PDR. They had to replace 3 st'rs (#4, #6 DC's) in '09 then Ian Clark (9 st '08) was lost after 3 gms. As expected, the unit dropped to #114. In '10 they had to replace 2.5 st'rs (#3, #5 tkl'rs) and finished #107 (60%, 25-4). LY they had all 4 st'rs back but CB DeShawn Mills (12 st '10) played in just 4 (4 tkl). TT QB Doege hit 40-44 (90.9%) setting an NCAA record for QB's with 40 comp. The Lobos had some horrific numbers allowing 72.6% with 21 td's and just 3 int's and finished dead last. TY they lose CB Anthony Hooks (12 st, 62 tkl, 3 pbu), SS Zach Dancel (8 st, 32 tkl, 2 pd), FS Bubba Forrest (9 st, #2 tkl'r, 2 pbu), DeShon Marman (3 gm, 20 tkl) and Meiko Locksley (11 tkl). The returning players combined for 24 starts including 4 with 7+ career starts and can't get any worse.

SPECIAL TEAMS - NM produced a 1st Tm All-MW K in 2 of Long's final 3 yrs. They finished #14 in my ST rankings in '07 and #53 in '08. In Locksley's first 2 yrs, the Lobos dropped to #107 and #118. LY they ret'd their K James Aho (8-9, L51) and P Ben Skaer (40.5, 31.9 net) as well as top KR Emmanuel McPhearson (24.3). Aho hit just 6-12 FG (L47) while the tm "raised" the net to 33.2 (#112 FBS). Deon Long was a solid KR (23.6) but the team had just 12 PR yds all ssn (1.3)! Long set schl and MW records with 378 all-purp yds vs SHSt. The Lobos finished #120, their 2nd straight bottom 5 finish. Davie's final ND squad finished #15 in my ST rankings and despite the loss of Aho & Long, there is only one way to go.

COACHES - Rocky Long's 11Y tenure ended in '08 after a 4-8 season despite having taken the Lobos to bowls in 5 of his last 7 yrs. Mike Locksley showed just how much Long overachieved as he produced 2 wins in 2 1/2 seasons. They now bring in Bob Davie who has spent the last 10 yrs as a TV analyst. The defensive minded Davie was previously the ND HC ('97-'01), ND DC ('94-'96) and Tex A&M DC ('89-'93). The OC is Bob DeBesse who spent the L2Y as OC at FCS SHSt. He was also a HC at Texas St ('97-'02). The DC is Jeff Mills who was a DB cch at Washington the last 3 yrs.

PHIL'S FORECAST

New Mexico has not won a league title s/'64 and I was shocked after the '08 season when Rocky Long stepped down. They could easily have had a winning season in Long's last year but suffered some tough losses (+42 ypg MW). With HC Mike Locksley, fans were expecting a decent season and the explosive offense they felt was missing under Long. I pegged them last in the MW, although they had never finished lower than 6th. The Lobos plummeted to 1-11 (-79 ypg MW) but still had 3 players voted 1st Tm MW, more than any team except the Big 3 (BYU, TCU, Utah). In '10 I picked the Lobos last again and things got worse. They did match the previous year's 1-11 but dropped to a MW worst -209 ypg. Long's teams were almost always among the most physical in the MW but Locksley wanted speed-type training brought in. With the coaching change, they lost about 30 scholarship players who would have otherwise been Jr's or Sr's in '10. NM had losses by 72, 49, 42, 35, 35, 33, 25 and 24 and their lone win came by 3 vs WY. Even a previously winless UNLV beat them 45-10. LY the Lobos had 15 st'rs back. I wrapped up the forecast LY by saying while you would assume there is only one way to go with NM (a stronger rec), it's a killer schedule and Locksley made my list of Top 10 Coaches on the Hotseat (PhilSteele.com). Locksley felt it was his fastest team yet. They were picked 8th by the media. Because NM hosted UNLV I picked the Lobos 7th and they finished in a 3-way tie for 6th (or last). They outgained Colo St 329-270 but lost by 4 at home. After expected blowout losses to Ark and TT (comb 111-16), they lost at home to an FCS SHSt tm that ended up playing in the title game and fired Locksley after an off-field incident following that contest. Interim HC George Barlow did not have a lot of success in his first 5 as they lost to NMSt at home by 14 then took on 4 bowl tms and lost by a comb 195-14. UNLV was a poor road tm and NM beat them with a 415-329 yd edge. They then lost their last 2 by a combined 76-10. Bob Davie was hired and the indicators pointing upwards show 14 st'rs back, that they were -8 in TO's and had extremely poor off (24.7) and def (11.8) ypp's (see pg 309). The Lobos have a 22 game road losing streak which is the longest in the nation. NM is one of the most improved tms in the country and I will call for them to win as many games in '12 as they did in '09, '10 and '11 combined.

PHIL STEELE'S 2012 CUSA FORECAST

CUSA EAST

1. UCF - Two years ago I picked UCF to win their CUSA East and they delivered finishing #21 after beating Georgia in the bowl. LY the Knights were the CUSA media's favorite, but I had Southern Miss. HC George O'Leary has had a lot of up and down seasons and TY is poised for a return to the top. LY UCF had an amazing 6 net close losses (pg 309) and goes from 10 returning starters to 16 while also getting the all important game vs Southern Miss at home. Even though they pulled both SMU and Tulsa out of the West, they are my pick for #1 in the East and 5 of my 9 sets of power ratings call for a double digit win season.

2. SOUTHERN MISS - LY I pegged SM to win the CUSA East and they not only got to the CUSA Title game, they cost the conference buckets of cash by upsetting the BCS bound Cougars on the road and they finished with a school record 12 wins. LY they benefitted from 2 net close wins while TY SM only has 10 ret st'rs and loses their 4 yr starting QB, 5 of their top 8 tkl'rs and their HC. Still, this is a very talented team and their game Oct. 13th at UCF will likely determine if they can get back to that CUSA Title game.

3. EAST CAROLINA - EC could have easily made it to a bowl LY if not for inj's as they were a banged up team vs both UTEP and Marshall. They do lose their QB, but in HC McNeill's offense, that position is always productive. LY EC was +41.8 ypg in conf play despite their 4-4 record in CUSA and they go from 10 to 15 returning st'rs and should remain healthier. This is McNeill's strongest team in his 3 years here and the defense, which improved by over a td LY, could do the same this season. The Pirates make my Most Improved List.

4. MARSHALL - LY Marshall made it to and won a bowl gm with just 13 ret st'rs and inexp'd QB's. TY they again have 13 returning st'rs but a veteran QB and he along with the RB's and WR's are all in the upper half of CUSA in my rankings. Despite their 5-3 CUSA record LY, MU was -67.1 ypg and this yr draw both Tulsa and Houston out of the West and will likely miss the postseason.

5. UAB - New HC Garrick McGee steps into a decent situation as UAB was better than their final record each of the last couple of years. This team does go from 16 ret st'rs down to 11 and had to deal with some McGee-to-Arkansas distractions in the spring. They draw both Houston and Tulsa out of the West but do get their 3 winnable games out of the East all at home and should be able to avoid the basement for a 5th straight year.

6. MEMPHIS - TY's Memphis team is much stronger than LY's edition which was last in the CUSA at -230.9 ypg and only won one CUSA game (2-22 L3Y) despite benefitting from +12 in TO's. There are a good number of HT's and VHT's in their lineup and the Tigers have 14 ret st'rs after having just 7 LY making them a much improved team but have a lot of ground to make up. Since they get Tulane and Rice at home they have a chance at topping last year's CUSA record.

CUSA WEST

1. HOUSTON - LY Houston was my #1 Most Improved team coming into the season and they lived up to that advanced billing going from 5-7 to 13-1, the largest turnaround of any team in the FBS LY. Naturally it was a dream season led by QB Case Keenum as they went 12-0 and were ranked #7 until they dropped the CUSA Title game at home. TY Houston loses Keenum and things didn't go well for them in '10 without him (just 3-6). Still, it's a very talented UH team that plays a manageable schedule and 6 of my 9 sets of power ratings calls for a DD win year. They only have 3 true road games in the CUSA and avoid both SMiss and UCF. Despite the loss of their coach and the NCAA's all-time leading passer, this team has a shot at repeating as CUSA West Champ.

1. TULSA - Six of my 9 sets of power ratings call Tulsa the best team in the CUSA West with 3 others calling them 2nd best. This year they could open the season as strong as 8-0 but have a brutal November including 3 road gms at Ark, Houston and SMU and a HG vs my CUSA East favorite, UCF. The schedule makers have set up a very exciting Nov for CUSA football fans.

1. SMU - LY SMU had to play SM, Tulsa and Houston all on the road (lost by 24, 31, 30) but TY get all 3 of those foes at home. Three of their CUSA road games are vs teams that had a comb 6 conf wins LY. My main ? is the O-line where they return 1 starter but the skill players are solid as is the defense. SMU was also -16 in TO's and has the talent, schedule and the coach to win the West.

4. UTEP - Most of my 9 sets of PR call UTEP the 7th best tm in CUSA behind the 6 league powers. They were -8 in TO's LY and are more exp'd but draw the toughest sked in CUSA as they are the only tm that has to play each of the league's 6 top (UH, SMU, Tulsa, SM, EC, UCF). Their non-conf slate isn't very favorable either drawing Okla, Wisc along with Ole' Miss. I think this is Price's best tm in his last 6 years but unfortunately they could be an underdog in as many as 9 games making a winning season a difficult proposition.

5. RICE - LY Rice was 3-5 in CUSA despite benefitting from +8 in TO's as they were -67.6 ypg (4th worst). They did have 38 sts lost to injury. TY they go from 16 ret st'rs to just 10 which is the fewest in Bailiff's tenure with the 2nd fewest being 2009 (11) when they finished just 2-10. Rice only has 3 CUSA HG's and 2 are vs league powers so this looks like a rebuilding season.

6. TULANE - This is a decent situation for HC Johnson to step into as TU was better than their final record LY and went to a interim HC. Tulane actually ranks in the upper half of my position rankings at QB, LB and DB and has a more favorable schedule than does Rice getting the Owls and UAB at home giving them an excellent shot at escaping the basement. Still, 1st yr HC's have to learn players' strengths and weaknesses, players have to learn new schemes, there is usually some attrition and I expect a lot of true frosh to play, which is why I'll call them to finish here.

CUSA Notes: The CUSA loses Memphis, UCF, Houston and SMU to the Big East next year but will add FIU, LTech, NTexas and UTSA. Last year was the first time that CUSA had TWO Top 20 ranked teams at the end of the ssn with Houston at #18 and SMiss at #20. LY with those 2 tms finishing ranked CUSA has had 4 diff teams the last two years (UCF #21, Tulsa #24 in '10). When SMiss upset UH on the road in the title game it cost the league a spot in a BCS bowl and millions of dollars. SMiss had 12 def/ST td's LY which was #1 in the FBS (Louisiana #2 w/8). CUSA was 4-1 in the bowls LY including two wins over BCS schools (#24 Penn St and Pitt). They were 5-17 in the reg season vs BCS conf's, the best mark of the non AQ leagues. They were 5-2 vs the MW and WAC but 2-6 vs the MAC and SBC. This year C-USA has SIX bowl spots in the Liberty, Beef O'Brady's, Armed Forces, New Orleans, Hawaii and Ticket City and is a secondary selection in the Military. They avg'd 60.6 ppg in conf gms in '10 but dropped to 56.9 ppg LY. This year they lose 4 of their top 6 in pass eff and the top 5 in total off plus 3 of their 4 thousand yd rec's. SMiss has the most wins over 10 yrs (54) but UH is tops over the last 5 yrs (30) while Tulsa has the best win % over 7 yrs (71%, started in CUSA '05). After talk about a proposed merger with the MW it looks like CUSA will be a stand alone league next year spanning from Florida to Texas.

UCF KNIGHTS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '08 UCF had to replace their QB. Due to inj's true frosh Rob Calabrese (PS#78) got 8 st (664, 39%, 108 rush). In '09 they added Wake Forest transfer Brett Hodges (PS#125, 402, 66%, 3Y). Calabrese started the first 2 but Hodges started 10 of the last 11. After the team threw for just 1,395 in '08, Hodges threw for 2,438 (60%, 17-13) in '09 while Calabrese, who was booed as he entered in the 4Q vs Miami, threw for 260 (54%, 3-0) for the season. Calabrese began '10 as the starter but true frosh Jeff Godfrey, who directed 2 scoring drives in the opener, took over when UCF trailed NCSt 28-7 and started the last 12. Godfrey threw for 2,159 (67%, 13-8, 566 rush, 10 td) and was CUSA FPOY. Calabrese threw for 316 (64%, 2-2) but tore his ACL vs Marshall (gm 6) on a td run. The bkp was rFr Blake Bortles (PS#142). Godfrey was #1 in CUSA in pass eff in '10 but UCF seemed to tailor the offense to more pocket passing. Godfrey's production dropped to 1,898 (69%, 5-5, 405 rush). Bortles replaced Godfrey in the 1Q vs SM (gm 10) and on the final drive hit 9-10 (24-34-248 gm) leading them to the potential game winning td (2ptng). Bortles threw for 958 (68.2%, 6-3). Rafael Echemendia (6'2" 200 Jr) is an FCS transfer and ran the scout tm LY. They add in Colo St transfer Nicolas Ranieri (6'2" 206 PS#92, IFS) and VHT Missouri transfer Tyler Gabbert (PS#25) who arrives this fall. Calabrese RS last year, could continue to run the Wildcat like '10, and may be used as an HB/WR. Godfrey, who orig planned to trans has an opportunity to return and may also be used at WR. There's a lot of talent with many options and they should top last year's passing numbers (238 ypg, 68%, 11-8).

RUNNING BACKS - In '09 Latavius Murray (PS#43) tore his ACL and Brynn Harvey (6'1" 209, PS#166) had a fine year with 1,109 (4.2). Ronnie Weaver had 86 (4.5). In '10 Murray moved to HB and Harvey suffered a knee inj in the spring and RS. Weaver rushed for 890 (4.8) while Murray moved back to TB and rushed for 637 (5.7). LY the trio all ret'd so it looked like CUSA's best RB corps. Harvey led with 574 (4.6) and Weaver had 299 (3.9). Murray finished with 549 (5.6) incl 233 vs UTEP (4th best UCF hist) and was also the #5 rec (242, 14.2). Sr FB Billy Giovanetti (5'11" 230) has 13 sts in 3Y. Added in this year is Cedric Thompson (6'0" 218 rFr, PS#141) and VHT Miami, Fla transfer Storm Johnson (PS#20). This year the only loss is Weaver (5 st) and I look for the Johnson, Murray and Harvey group to outproduce the numbers of LY's trio (1422, 4.7).

RECEIVERS - Last year UCF lost their top 3 rec's (comb 1753, 15.1) and the top returnees were AJ Guyton (PS#42) who had 353 (12.6) and Quincy McDuffie (144, 11.1). Three frosh who O'Leary were high on emerged. JJ Worton led with 531 (13.0). RFr Josh Reese (PS#99) was #3 (461, 15.4) and Rannell Hall had 4 rec's. McDuffie finished #2 with 482 (11.2) and Guyton #4 with 404 (15.0). TY they lose Guyton (8 st) and TE Adam Nissley (11 st, 235, 11.2). They add in QB Calabrese, potentially QB Godfrey and WR Breshad Perriman who was a star in spring. This unit is more experienced (top 3 back) than it was heading into last year and looks stronger.

OFFENSIVE LINE - In '10 UCF had their most exp'd OL (4 st'rs ret) s/'07 (235 ypg rush, 4.9, 20 sks). The numbers improved to 188 (4.4) with 20 sks (6.8%). LY they lost a 1st Tm CUSA RT (3Y st'r, #3DC) and their LT (1.5 yr). They did return 4 who had 7+ career sts (87 car sts) but went from 4 ret sts to 3 and the numbers dropped to 169 ypg (4.3) with 25 sks (7.2%). TY they lose 2nd Tm CUSA RT Nick Pieschel (11 st, 4Y st'r), OG Cliff McCray (8 st, 3Y st'r) but once again have 3 st'rs back and add in GT transfer Phil Smith (3Y st'r) so their career sts climb to 89 and they ret 4 that have been full time st'rs.

DEFENSIVE LINE - UCF had a veteran D-line in '09 and allowed just 83 ypg (#4 FBS, 2.6) with 38 sacks. In '10 they had to replace 314 lb DT Torrell Troup (#2DC), a 1st Tm CUSA DE and another starting DT. They did return CUSA DPOY DE Bruce Miller (13 sk '09). Despite the losses, UCF still only allowed a solid 108 ypg rush (3.4) with 32 sks. LY UCF lost Miller (#7DC), a starting DE and DT but ret'd 2nd Tm CUSA Darius Nall who tied a team high with 8.5 sks despite not starting. After losing 3 st'rs for the 2nd straight year, the numbers were almost identical to '10 yielding 109 ypg rush (3.8) but with only 17 sks. TY they lose Nall (10 st, 24 tkl, 5 tfl) and bkp DT Barry Snider (6 tkl). It will be tough to top LY's numbers but I expect the sacks to rise with their most experienced D-line in 3 yrs and they are one of CUSA's best.

LINEBACKERS - In '10 UCF had to replace their #1 tkl'r (1st Tm CUSA) and 2 bkps (comb 5 st, 46 tkl). They did get back Chance Henderson (11 sts, #4 '08, inj '09) and ret'd their #2 and #3 tkl'rs. With a veteran unit, UCF allowed just 17.1 ppg, their best since 1989 (16.8 DII). LY they had to replace 2 st'rs and a bkp (#2, #4, #8 tkl'rs). They did bring in a pair of JUCO's who were IFS but neither made the 2-deep. They also moved in RB Jonathan Davis (PS#24), added Ray Shipman who hadn't played since his freshman yr of HS (Mr BB in Fla) and VHT Leilon Willingham (PS#38). Despite very few LB's returning, UCF still allowed just 18.3 ppg. TY they lose MLB Josh Linam (11 st, #3, 10 tfl) and Willingham (3 st, 19 tkl) but have 4 of the top 6 back (#5, #7, #8 tkl'r) and this may be CUSA's top LB corps with the 2 ret sts now in their 2nd year of playing the position.

DEFENSIVE BACKS - In '07 this unit returned intact and climbed all the way up to #14 in my PDR with 24 int's. In '08 they had the most exp'd secondary in the FBS and moved up to #8 (14-18 ratio). In '09 I called this unit BY FAR my biggest concern on the team. They had to replace 186 career sts (50 car int). O'Leary did say that Josh Robinson (PS#102), Kemal Ishmael, AJ Bouye and rFr Jarrett Swaby were further ahead than any frosh he'd coached at UCF. Robinson was the #5 tkl'r and led all FBS frosh with 6 int's. UCF still plummeted to #83. In '10 they had 3 st'rs back and as expected, rose to #12. LY they had to replace 2 st'rs and 2 bkps (comb 2 st, 43 tkl). They did return two 1st Tm CUSA DB's in Ishmael (#1 tkl'r) and Robinson (conf high 15 pbu). They lost CB AJ Bouye after 7 sts (ACL) but UCF still finished #13 (54%, 12-9). This year they lose CB Robinson (12 st, 48 tkl, 17 pd, #3DC MIN) but have 4 of the top 5 back.

SPECIAL TEAMS - George O'Leary always fashions a fine ST unit as they were #8 in my ST rankings in '07, #24 in '08, #24 in '09 and #9 in '10. LY 3 fumbled punts resulted in 2 td's and a FG for their opp's incl crucial td's by BYU and FIU. Rannell Hall was a dangerous KR (31.0). Nick Cattoi hit 10-15 (L48) while Shawn Moffitt hit 5-9 (0-3 40+). Cattoi had 7 TB on 53 KO. P David Bohner improved to 41.2 but with only a 33.0 net. UCF slipped but only to #22 and even with the loss of Cattoi and Bohner, they could find themselves in my Top 25 again.

COACHES - O'Leary led GT to a 52-33 record and five bowls in 7 years. In 8 yrs here he has 2 CUSA Titles in 3 trips to the championship and 4 bowl appearances (only bowls in UCF history). O'Leary was the CUSA COY in '05, '07 and '10. Charlie Taaffe is in his 4th season as OC and has 20 yrs as a HC in both the CFL and NCAA (Hamilton '07-'08, Montreal '99-'00, The Citadel '87-'96 and Army '81-'86). UCF is on their 4th DC in 3Y's as they hired Ted Roof in Dec but he left for Penn St a month later. Jim Fleming takes over after 1 season here as LB cch (Kent St LB '10, Akron DC '04-'09).

PHIL'S FORECAST

George O'Leary inherited a 3-9 team and there was a lot of attrition with the new HC (73 schlp players) and UCF finished 0-11. In '05 I picked the Knights higher than any other magazine (most had them last). Nine of their top 68 were walk-ons, but after UCF lost their first 2 (17th str loss) they became the 7th team in NCAA history to go from winless to bowl-eligible. They had the biggest turnaround in the NCAA in '05 (+8 wins) before dropping the CUSA Title game (51,978 crowd) and were in their first bowl in their 10 yr IA history. With an enrollment of 53,000+, they are the 3rd largest FBS university. In '05 they were only +2.9 ypg despite a 7-1 CUSA record and benefitted from +12 in TO's with 3 net close wins (pg 309). As expected, UCF's record dropped in '06 to 4-8. In '07 they made my Most Improved List again and opened Bright House Stadium which ignited the fan base. They nearly upset #6 Texas in the first ever sellout at UCF. The Knights finished as CUSA Champs at 10-4 (+139 ypg CUSA best). In '08 O'Leary continued his up/down trend (4-8). In '09 they were back on my Most Improved List and back to the post season (8-4) before losing to Rutgers in the bowl. In '10 I called for UCF to have their first B2B winning seasons s/'01-'02. I said they would top '09's 8 win total and they were my pick to win the CUSA East. UCF had a dominant D and the last time O'Leary had 18 Sr's they won the CUSA Title ('07). UCF got to the CUSA Title game (beat SMU) and in the bowl upset Georgia and for the 1st time ever, finished ranked (#21). LY UCF was the media's pick to win the CUSA East but I was not as high on them. UCF had a beneficial off ypp (11.7, pg 309) and despite being CUSA Champs were only 4th best at +64 ypg. UCF had just 10 ret sts (#11 CUSA) and drew both SMU and Tulsa out of the West as well as SMiss on the road. While they opened up beating an FCS tm and BC by a comb 92-3. They had a 300-238 yd edge at FIU but lost with FIU getting a 51 yd FR on the last play of the 1H keying their 17-10 upset. UCF had a 399-260 yd edge at BYU but lost by 7. After beating Marshall in a heavy downpour 16-6 (387-130 yd edge) they lost by 21 at SMU. Then on a Thurs night were upset by UAB 26-24 (outgained 501-331). After whipping Mem 41-0, they lost to Tulsa at home on a Thurs by 7 and then scored a td on the final play against SMiss but went for 2 and the win and came up short. At EC they gave up a 56 yd td run with 2:10 left and once again lost by 7 before dispatching UTEP in the FHG for 15 Sr's leading 31-0 in the 4Q. TY there are a lot of signs pointing upward. UCF had SIX net close losses, have 16 ret sts and despite their 3-5 CUSA record were +39.8 ypg (5th best). While they do pull SMU and Tulsa out of the West, they get SMiss at home. UCF not only makes my Most Improved List, they are my pick to win the CUSA East.

UCF has dropped all 3 trips to Akron. LTH ('03) UCF trailed 21-3 at HT and were outFD 30-15 and outgained 504-317 in the 38-24 loss. The Knights are 2-11 in road openers (beat Buf '10 & NCSt '07).

First meeting. O'Leary and Urban Meyer squared off in '06 (only time as HC's) when UCF lost 42-0 at #7 Florida. Into 2012, the Knights are 3-17 since 2002 in non-conf away gms (1-7 the L/8).

LY (1st meeting) UCF was up 7-0 and driving late 2Q but FIU got a 51 yd FR td and took the momentum into HT. The Knights are 13-3 in home openers. UCF is 1-9 L16Y vs instate opp's (only W in '03 vs FAU).

Bonus: Into 2012, UCF is 16-12 on the CUSA road but went 0-4 last year.

First Meeting. The Knights are 1-10 hosting current BCS schools but LY beat Boston College. Into '12, UCF is 24-9 at Bright House which opened in '07. Under O'Leary UCF is just 4-10 off a bye wk.

HT is 4-1. LY's loss eliminated UCF from a bowl. The score was tied for a 4th time at 31 when UCF allowed a 68/4pl drive (56 yd td run) w/2:10. UCF ret'd the KO 72 yds but were int'd in the EZ 4 plays later.

UCF is 1-6 (4 str losses by just 7 ppg). LY these tms exchanged scores 6 different times in the 4Q. Trailing by 7 UCF went 89/12pl hitting a 25 yd td pass as time exp'd. UCF down 1 elected to go for 2 but fired inc.

UCF has won 7 of 8 with the only loss in '90 (1st meeting). LTH UCF had already locked up a spot in the CUSA Title gm but showed no letdown (led 37-10 late 4Q).

UCF is 3-2 in Huntington incl 3 str wins. LTH was a Wed Night "White Out" but UCF controlled leading 28-7 early 3Q. The gm did not have a HT due to a 1 hr 8 min lighting delay w/6:12 2Q.

SOUTHERN MISS GOLDEN EAGLES

BAN Jamie Collins

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '08 rFr Austin Davis broke numerous schl single ssn records (like Brett Favre's 16 td passes by a frosh) throwing for 3,128 (58%, 23-8 w/508 rush). He set schl rec's with 461 vs Rice and 5 rush td's vs UAB. Davis was lost in Wk 5 (foot) of '09 (1165, 69%, 10-2). Davis took nearly all of the snaps in '10 (3103, 63%, 20-6, #3 rush) setting a schl rec with 278 comp's. LY the bkp was rFr Arsenio Favor (PS#163) who has a strong arm and a knack for the deep ball. They incorporated a Tim Tebow like package for him. Davis topped Favre as the career passing leader by over 3,000 yds and had his best season (3496, 60.2%, 30-11, 352 rush). Davis won the Conerly Trophy (state of MS top college ply'r) and Burlsworth Trophy (top CFB player to begin career as a walk-on). Favor played in 7 (49 ttl yd) and had knee surgery in March (not back until Sept). Battling for the spot are Chris Campbell (PS#90, pocket passer), rFr Ricky Lloyd (PS#73) and 2 true frosh including Anthony Alford (PS#7) who I think will start if he does not opt to turn pro in baseball. They go from a 4Y st'r to 3 car att's (just like '08) while also adjusting to a coaching change.

RUNNING BACKS - In '09 Damion Fletcher became the 9th RB in NCAA history to top 1,000 yds rushing for 4 str yrs (incl '07's schl rec 1,586). Naturally in '10 they had to replace Fletcher. The leading returnee was Tracy Lampley (122, 5.8). I proj'd rFr Kendrick Hardy (PS#16) as the starter. Hardy did not get a rush att in the first 3 vs FBS foes but with the top 2 banged up, got 101 (9.2) vs Mem and 147 (8.6) vs UAB. He later exploded for 205 (7.9) vs UH and led with 903 (6.5). Desmond Johnson (PS#141) played in just 10 (inj'd, 611, 5.3). Lampley st'd 6 but was never really 100% (384, 5.9) and moved to WR in '11 (#6 rec, 203, 7.8 in '10). LY they added in explosive rFr Jamal Woodyard and soph Jeremy Hester (PS#139). Fedora said it was the tm's deepest unit with 5 quality RB's and he would need them all. Johnson st'd then was inj'd (3 st, 7 gm, 424, 5.7). Both Woodyard and Hardy were inj'd in the 2H vs Rice. They moved in KR/DB Reggie Hunt and brought Lampley back from WR. Woodyard st'd 5 and led with 732 (6.7) while Lampley was #2 (1 st RB, 463, 5.1). Hardy was #3 (4 st, 426, 5.9) with Hester (2 st) adding 291 (4.9). TY everyone returns with the exception of Woodyard (will RS) and they add in two solid true frosh making it the deepest RB corps in CUSA.

RECEIVERS - In '10 SM had to replace 3 of their top 4 rec's and the top returnee was Quentin Pierce (PS#158) who had 247 (9.9) in '09. Pierce was banged up but finished #3 (454, 11.9). Kelvin Bolden (PS#29JC) led with 722 (15.7). LY they had to replace their #2 and #4 rec's. Ryan Balentine (4 st, 82 yds '10) emerged and led with 742 (15.1). RB/WR Tracy Lampley was #3 with 574 (12.2) and Bolden led in rec while finishing #2 with 671 (11.6). Soph Dominique Sullivan (PS#76) had 461 (14.4) and Pierce added 166 (9.8). TY they lose Bolden (12 st) and Balentine (11 st) along with William Spight (5 st, 159, 10.6). Lampley will likely return to WR full-time but I'll call this unit down a notch with the loss of their top 2.

OFFENSIVE LINE - In '10 SM had to replace 4 starters (26 car sts ret). RT Jason Weaver was OFY after 2 starts. Surprisingly the lightly experienced unit improved to 201 ypg (4.7) with 17 sks. LY they had to replace 2 st'rs (1st Tm CUSA C). They had 3 st'rs back (39 car sts). The more exp'd unit paved the way for 205 ypg with an impressive 5.2 ypc (17 sk, 3.5%). TY they lose 1st Tm CUSA OT Lamar Holmes (14 st, 2Y st'r, #3DC ATL) and Thomas Edenfield (2 st). RT Weaver (2nd Tm CUSA LY) was granted a 6th year so 4 st'rs return (80 car sts) and PS#86JC Vincent Brown (10 gm LY) should fill the opening and this looks like CUSA's top O-line.

DEFENSIVE LINE - In HC Bower's final season, SM had 6 Sr's in the 2 deep (all 4 st'rs) and yielded 134 ypg (3.8). Naturally the losses were heavy in Fedora's first year and 9 diff DL's started including 1 true, 2 rFr, 3 soph and a JC. It surprised me that they only allowed 140 ypg rush although their 4.2 ypc was the worst s/'04 with just 20 sks (lowest s/'97). In '09 the top 7 DL tkl'rs ret'd and they improved to 131 ypg (3.6, 34 sk). In '10 SM only had to replace 2 DL's (comb 7 st, 56 tkl, 7 sk). They trimmed it to 113 ypg (3.6, 27 sk) their best s/'01. LY they had to replace 2 st'rs and 2 bkps but I called them equal to '10 and the stats were similar (119 ypg, 3.3, 27 sk). TY they lose 1st Tm CUSA DE Cordarro Law (14 st, 64 tkl, 9.5 sk, 12.5 tfl), 2nd Tm CUSA DT Terrance Pope (13 st, 32 tkl, 1.5 sk, 4 tfl), DE Deddrick Jones (9 st, 34 tkl, 2.5 sk, 4 tfl) and DT Andrew Burns (10 tkl, 1.5 tfl). They do return 2nd Tm CUSA Jamie Collins (14 st, #2 tkl'r, 19.5 tfl) and Khyri Thornton (7 st, 24 tkl, 9 tfl). They are close to last year in terms of experience (1.5 st'rs back) but figure to have their streak of 3 straight seasons of stronger rush D numbers halted.

LINEBACKERS - SM LB's were named CUSA DPOY 4 out of 5 yrs from '03-'07. In '09 they had to replace 1st Tm CUSA Gerald McRath (#1 tkl'r, #4DC) and their #2 tkl'r. Fedora was impressed with how quickly true frosh Jamie Collins picked up the D (48 tkl as DB) and moved him to LB. In '10 they ret'd their #1 tkl'r in Korey Williams (121 tkl, 7.5 sk) and #2 Ronnie Thornton (114 tkl, 10.5 tfl). SM surprisingly yielded 29.5 ppg (worst s/'69, 30.7)! LY they had to replace 1 LB (5 st, 27 tkl) and they moved Collins to DE. I count the SPUR S in the LB write-up. They lost 1 of their 2 ret sts when Williams went down after 4 sts yet SM improved to 20.8 ppg. TY they lose 1st Tm CUSA Ronnie Thornton (14 st, #1 w/111, 8.5 tfl), Williams (35 tkl, 3.5 tfl, denied 6th yr), Jeremy Snowden (9 st, 56 tkl, 6 tfl) and Cameron O'Neal (5 st, 26 tkl). The top returnee is Jerrion Johnson (#14 tkl'r) and this unit looks weaker in '12.

DEFENSIVE BACKS - From 1995-'08 SM had just 1 finish lower than #51 in my PDR (#70 '05). They had all 4 st'rs back in '09 and it was very surprising that they dropped to #72. In '10 they had to replace 2 st'rs (1st Tm CUSA FS). DC Todd Bradford said CB was the biggest ? into '10. SM still improved to #59 (57%, 28-17). LY they had to replace 2.5 st'rs but did add 2 JUCO's (both IFS). SM rose all the way to #9 (57.6%, 14-19). TY they lose 1st Tm CUSA Marquese Wheaton (14 st, 59 tkl, 3 int, 10 pbu), SS Kendrick Presley (12 st, 58 tkl, 1 int, 3 pbu) but return 2nd Tm CUSA CB Deron Wilson (14 st, #4, 4 int, 13 pbu). With 6 of the top 8 back, this unit is on par with LY but probably won't match their lofty PDR finish.

SPECIAL TEAMS - In '09 true frosh P Peter Boehme avg'd 38.5 (36.4 net) while fellow true Tracy Lampley was the top PR (14.5, 1 td, also 27.6 KR). The unit finished #18. In '10 K Danny Hrapmann (1 of 3 Groza finalists) hit 26-31 (L/54). Boehme avg 39.2 (tm net 36.3). Surprisingly the unit was just #62. LY I said they would have one of the most improved ST and rated them #9. The Eagles did not disappoint (#10). Hrapmann hit 23-34 FG (L/49, 3 miss 50+). RFr Corey Acosta (PS#30, 51 yd FG spg) was 2-2 on FG (L/42). Boehme and Hrapmann comb for a net of 39.0. Lampley was the top KR (21.3) and PR (11.5). TY they do lose their super K and while weaker, this is still one of CUSA's top units.

COACHES - Larry Fedora spent 4 productive seasons here (34-19) finishing with a schl record 12 wins last season. Fedora moves on to NC and replacing him is Ellis Johnson. Johnson was the DC at 5 schools incl SCar the L4Y (asst HC), Miss St ('04-'07) and here in '98-'99. He has HC exp at The Citadel ('01-'03) and Gardner- Webb ('83). OC Ricky Bustle was the Tulane QB cch LY and the HC for Louisiana ('02-'10) prior. DC Tommy West also has HC exp (Memphis '01-'09, Clemson '94-'98) and spent LY as the UAB DC.

PHIL'S FORECAST

Jeff Bower had a very successful 17 yrs as a HC here (29 yrs overall). In Larry Fedora's first year ('08) it appeared they were headed for their first losing season in 15 yrs ('93). They opened up 2-6 but swept their final 4 and overcame a 10 pt bowl deficit to finish 7-6. Despite their 4-4 CUSA record, SM was +99 ypg (best East) and had a much more veteran team in '09. QB Austin Davis was inj'd midseason but SM got their first perfect home record (6-0) s/'99 as they beat Tulsa 44-34 in the FHG for 19 Sr's. They lost to EC on the road to finish 2nd in the East then had a disappointing bowl loss to MT to finish 7-6 again. In '10 they did draw the top 2 tms out of the West (UH, Tulsa) and played UCF on the road. LY a lot of indicators pointed upwards. After being just +3 ypg in conf play in '09, SM was back to +94 in '10 (#1 CUSA). SM was 8 pts away from a perfect CUSA record and 11-1 reg ssn mark with 3 net close losses (pg 309) and finished 8-5. They had 17 consec winning seasons tying the previous tm mark set from 1951-'67 (4th longest active streak). While none off my 9 sets of power ratings called them the most talented team in CUSA LY, all of them had them as #2 and their schedule had 4 sets calling for a possible 12-0 finish. They outgained La Tech 379-244 but only won by 2 in heavy rain. They jumped to a 17-3 lead vs Marshall in the 2Q but lost 26-20, an outcome that still puzzles me. After whipping SEL 52-6, they beat a bowl bound BCS tm in Virginia, 30-24 on the road leading 27-16 in the 4Q. The next 5 wks they won by an avg of 23 ppg and then got past UCF 30-29 with the Knights going for 2 after scoring a td on the final play (SM 519-364 yd edge). They were then on a short wk at UAB needing just 1 win to clinch the CUSA East and were upset by the Blazers 34-31. After bouncing Memphis, SM cost CUSA a hefty paycheck knocking Houston out of a BCS bowl with their 49-28 win on the road to wrap up the CUSA Title. Fedora took the NC job but still coached the bowl game and they knocked off Nevada 24-17 as their 12 wins were the most in schl history. TY Ellis Johnson takes over a team that had 2 net close wins, positive off (12.5) and def (16.5) ypp's as well as one that goes from 14 ret sts to 10. They lose their QB and 5 of their top 8 tkl'rs, all indicators pointing downward for '12. Despite all of those factors, there is no denying that SM is one of the most talented teams in CUSA and while they will not match LY's 12 win total, it will be another successful season.

HT is 2-5. LY SM trailed 7-0 but got a 97 yd IR, 60 yd PR & 15 yd blk'd punt ret all for td's to lead 21-7 after 1Q. SM did tack on a 79 yd IR td before HT to go up 38-14 despite being outgained by 121 yds.

First meeting. Into 2012, the Golden Eagles are 4-10 S/'05 on the road vs non-conf foes but have won 3 str by 12 ppg. SM last meeting w/a SBC tm was a 42-32 loss to MT in the '09 New Orleans Bowl.

SM has lost 5 str vs UL but the L/3 by a combined 8 pts. The L/meeting was in the '10 Beef 'O' Brady Bowl. SM led 28-21 early 4Q but allowed a 95 yd KR td & 68/12pl drive for a 36 yd fg w/6:33.

Golden Eagles are 0-2 vs the Broncos with a 22 pt loss in '07 and a 17 pt loss in '08. Entering 2012, SM is 12-1 S/'05 hosting non-conf opp's (6 str wins and only loss in that span was to Boise St).

SM has won all 3 trips to Orlando. LTH UCF was ranked for the first time in school history but SM battled back from a 14-0 deficit to take a 31-14 4Q lead on their way to the upset.

HT has won 2 str after opening 1-4 (1st gm in '05). LY SM led 17-3 but all'd the next 23 pts deep into the 4Q. SM did cut the lead to 6 and rec an onside kick w/1:22 but was int'd at M43 3 plays later.

Just the 4th meeting. LTH ('08) SM lost 45-40 but both tms had 25+ FD and 570+ yds. SM never led and trailed by 19 w/6:48 4Q before 2 td drives. Into '12, SM is 19-11 the L/7 yrs on the CUSA road.

SM has dropped 3 str to UAB (all upsets). LY on Thurs Night the gm was tied for the 4th time at 31-31 when UAB went 49/13pl hitting a 38 yd fg w/3:04. SM was SOD at the UAB45 w/1:08.

LTH ('08) SM needed a win for bowl eligibility. SM led 7-6 at HT but in a 8 min span scored 21 unanswered.

HT is 1-3. LY's gm was tied 10-10 at HT, SM lead 17-13 after 3Q & limited UTEP to 20 4Q yds (just 8 plays).

SM has won the L/3 gms by an avg score 40-14. LTH SM led 24-6 with a 253-88 yd edge at HT. Last years win over the Tigers clinched the CUSA East Title for the second time (2006).

EAST CAROLINA PIRATES

POSITION OUTLOOK FOR 2012

QUARTERBACKS - EC has had some fine QB's incl David Garrard, Jeff Blake and Marcus Crandell. James Pinkney left after '06 as the #2 career passer. Patrick Pinkney (not related) started the next 3 yrs and in '09 he threw for 2,947 (59%, 15-12). One of his bkps was Rio Johnson (PS#111). In '10 I projected BC transfer Dominique Davis (PS#68JC) to start. He joined in the fall and beat out walk-on soph Brad Wornick. Davis had 3 starts as a rFr at BC in '08 (741, 46%, 6-4). He went on to set EC records for pass yds and td's in a ssn. Of course, playing in the pass-happy Texas Tech spread offense helped as he threw for 3,967 (65%, 37-16) finishing only behind Cam Newton in pts responsible for. Wornick played in 5 (13-19). LY they added rFr Shane Carden (PS#258) who ran the TT offense in HS (McNeill recruit) and true frosh Cody Keith (PS#126). In LY's magazine I said the unit went from 0 exp to a record setting senior but it would be tough to improve upon '10's fine numbers and Davis threw for 3,225 (67.6%) with just 25 td and 19 int (benched in 3Q vs UH after 3). He had a schl record with 417 vs UNC and set the NCAA record for most comp in a row with 36 (10 vs Mem, 26 vs Navy) while also breaking the single gm record (23, Tee Martin Tenn '98, Aaron Rodgers Cal '04). In just 25 games Davis set 15 single gm, ssn, or career Pirate passing records. Rio Johnson played in 4 (20-29). TY they lose Davis but I expect whoever wins the job to put up solid numbers in this offense.

RUNNING BACKS - Even if you are not familiar with EC, you likely are familiar with Chris Johnson who is one of the NFL's top RB's. Johnson rushed for 1,423 (6.0) in '07 here while also setting an NCAA bowl rec with 408 all-purp yds. In '08 it was an injury plagued unit and in '09 Dominique Lindsay led with 1,180 (4.9). In '10 Jonathan Williams led with 847 (5.5) and was the #4 rec (431, 8.3). LY the top RB returnee was Michael Dobson (62, 5.6). EC got off to a slow start with just 70 rush yds (1.6) in the first 2 gms but did have 4 new OL and took on the great D's of SC and VT. VHT JC Reggie Bullock (PS#85JC), the National JUCO rushing and td leader in '10, had 169 vs UAB but was inj'd vs Houston (0 sts after). He did have 104 vs Navy and finished #2 with 428 (4.5) playing in just 6. Soph Torrance Hunt (PS#159, 4.3 spd) moved from WR (spg) and led in 5 of the 6 that Bullock missed and had a game winning 56 yd td run vs UCF (longest of McNeill era). He led with 489 (4.5). Dobson added 221 (3.5). Versus Marshall (bowl elimination gm) the depleted RB unit had to bring in TE Zico Pasut (5 att, 18 yds). Naturally this unit is a lot more exp'd, they add in UNC transfer Hunter Furr (PS#90) and Chris Hairston (6'0" 180 rFr, PS#169) and could be one of the CUSA's top RB units.

RECEIVERS - In '10 Dwayne Harris (#1, 978, 11.8 '09) led the Pirates again with 1,123 (11.1, also #4 rush). JUCO Lance Lewis was #2 with 1,116 (12.5) and #3 was Michael Bowman (434, 9.2). LY they had to replace Harris (all-time EC leader, #6DC). Lewis finished #2 (600, 10.0) but was #1 when he was inj'd vs Tulane (gm 8) and walk-on rFr Justin Hardy, an electric multipurpose player, surprised everyone by leading with 658 (10.3). Hardy had 222 (9.7) in Lewis' absence. Andrew Bodenheimer was #3 (484, 10.5). Soph Justin Jones (PS#34TE) only played in 6 (6 rec) and McNeill called him a player that they missed. TY they lose Lewis (8 st), Michael Bowman (4 st, 180, 9.0) and Joe Womack (180, 9.0). They are a little more exp'd and add in Arkansas transfer Lance Ray (PS#120JC).

OFFENSIVE LINE - Due to inj's in '07 and '08 they ret'd 114 car sts in '09 and I called them one of the FBS's Most Improved O-lines. All 5 OL st'd all 14 and they improved to 152 ypg rush (4.0) with just 14 sks (3.1%). In '10 they had to replace 2 all-conf OL but did have 3 st'rs back (82 car sts). In the new offense the rush numbers dropped to 119 ypg (4.3) but they allowed just 15 sks (2.4%). LY they lost a 1st Tm CUSA LT (2Y st'r), a 2nd Tm CUSA RG (4Y st'r) and a 4Y starting guard. They then lost their C over the summer so they had just 17 car sts ret. As you would expect, EC's numbers got weaker (109 ypg worst s/'04, 3.3, 30 sk, 5.7%). TY they lose C Doug Polochak (4 st), OT Steven Baker (9 st) and Hugh Parker (2 st). They have 7 of the top 10 back (5 st'd 6+, 68 car sts) and will surely stay healthier as LY's group was missing as many as 3 st'rs at the end of the year. This should be one of the most improved O-lines in the country.

DEFENSIVE LINE - EC had solid rush D's in Skip Holtz's last 3 yrs with the best numbers coming in '09 (78 car sts) when they allowed 120 ypg rush (3.8). In '10 they had to replace all 4 st'rs (0 car st) incl a pair of 1st Tm CUSA DL (#2 & #7 DC). I called it my biggest concern on the team. Making matters worse, they lost DT Michael Brooks and DE Marke Powell at the start of Nov. As expected, EC allowed 227 ypg (5.3), their worst in 20+ yrs (just 15 sk). LY they switched to a 3-4 D and had to replace 1 st'r and the 3 ret sts started all but 2 gms. Naturally EC made large strides allowing 174 ypg (4.5, 23 sk). TY they only lose bkp NG Antonio Allison (14 tkl, 1 sk) and DE Derrell Johnson moves to OLB. This is still not an overwhelming unit as the 3 proj st'rs had just 3 sks last year, but it is the most exp'd D-line that McNeill has fielded here.

LINEBACKERS - In '09 Holtz felt the starting LB's were the best in his tenure and they allowed just 21.9 ppg. In McNeill's first year they had to replace all 3 st'rs (#2, #3 and #4 tkl'rs) and the 3 who did start only comb for 1 st (39 tkl) in '09. EC had a drastic drop off allowing 44 ppg (#119 FBS) in '10. LY they had to replace a 1st Tm CUSA WLB (#1 tkl'r) and 2 other st'rs (#2 and #6 tkl'rs). The unit had 5 st'rs back from '10 (actually more exp) and they improved to 32.3 ppg. TY they lose Cliff Perryman (7 st, #8 tkl'r, 3.5 sk) and Marke Powell (5 st, 40 tkl) but move in DE Derrell Johnson (12 st, 39 tkl). They basically return 4 st'rs and 8 w/starting exp making this unit vastly more exp'd than the previous 2 editions that McNeill has fielded.

DEFENSIVE BACKS - EC had a veteran secondary in '08 and moved up to #27 in my PDR (#98 in '07). They ret'd 2 st'rs (63 car sts) in '09 and finished #55. In '10 they had to replace 2 st'rs (1st Tm CUSA FS, #1 tkl'r). With a much weaker front 7, EC dropped to #101 (60%, 31-11). LY they had 7 of the top 8 back (#3 and #4 tkl'rs incl 1st Tm CUSA CB). I called for a good sized jump in my PDR and the Pirates moved up to #59 (60.5%, 17-7). TY they lose CB Derek Blacknall (11 st, 31 tkl, 8 pd), 2nd Tm CUSA CB Emanuel Davis (11 st, 62 tkl, 8 pd) and SS Bradley Jacobs (12 st, #4 tkl'r, 4 pd). While 5 of the top 8 are back, they go from 3 st'rs back to 1 and will drop some in my PDR although they did sign 3 JUCO's (2 IFS).

SPECIAL TEAMS - In '09 EC finished a lofty #15 in my ST rankings as Dwayne Harris set and EC rec with 3 KR td's (27.0) and P Matt Dodge was 1st Tm CUSA (39.1 net). The unit lost Dodge and dropped to #53 in '10. Ben Ryan avg'd 39.4 (36.2 net) in '10. He ret'd LY but after an 11 yd punt vs Tulane, they st'd using Australian Phil McNaughton (9 punts) and the tm's net was a poor 29.6 (worst in FBS s/'09). MD transfer Mike Barbour hit 16-18 (L52, 1 miss 50, 2nd Tm CUSA) in '10. LY He slipped to 12-17 but to me, more impressively he nailed 54, 57 and a Pirate rec 58 yd FG (2 miss 50+). EC was -7.5 on PR and -3.3 on KR and -5 in the td/blk category. It was still surprising they slipped all the way to #111. TY they lose their K, P, top PR & KR and while not an overwhelming unit, it has to improve, right?

COACHES - Ruffin McNeill spent 10 yrs as an asst at Texas Tech (L/2 as DC) but returned to his alma mater in '10. He helped lead TT to an Alamo Bowl win as the interim HC and got EC to a bowl in his first year here. Third yr OC Lincoln Riley was just 27 yrs old when he came here and was the WR cch at TT for 3 yrs. The DC is Brian Mitchell who also came from TT (CB cch '06-'09) and previously spent 11 yrs as a defensive asst at his alma mater, BYU.

PHIL'S FORECAST

Skip Holtz had a 5-6 record his first year then rattled off 4 straight winning seasons. In '07 they were picked 6th by the media but finished 2nd while setting a single season record for points (403). In '08 they had 16 st'rs back and I called for them to win the CUSA East. EC upset #17 VT and #8 WV and were mentioned as a possible BCS bowl tm before losing 3 straight to drop to 3-3. They rebounded to get to the CUSA Title game and beat Tulsa despite being only +2.8 ypg in conf play (6th best). Holtz did it again in '09 winning a 2nd straight CUSA Title and this time they were +50 ypg (4th best). They did have a 24-10 FD edge in the bowl vs Ark but lost, finishing 9-5 again. In '10 Holtz left for USF and they had to replace their entire defensive front 7. I called for a rebuilding year and a losing season. Ruffin McNeill did a fine job and caught some breaks. They got to a bowl but were waxed by Maryland 51-20 and finished 6-7. EC allowed an eye popping 44 ppg and 479 ypg on D. LY they avoided SMU and Tulsa in conf play but only 3 of my 9 sets of power ratings called for bowl eligibility. EC led SC 17-0 and 24-14 at half but lost 56-37 due to 2H TO's. They were tied with VT 10-10 in the 4Q (led at half) but lost by only 7 despite only 112 yds of offense. EC had a schl record tying 7 TO's vs UAB but still won 28-23. They trailed UNC 28-3 at half and lost by 15, then were buried by Houston 56-3. EC whipped Mem 35-17, then upset Navy on the road 38-35 with Davis hitting a perfect 26-26 for 251 in the 1H. Navy did have a FG go off the right upright on the last play. After another expected win over Tulane (34-13) injuries began to mount. They had a 284-165 yd edge at half vs SMiss but gave up 2 IR, a PR and a blk'd punt td and lost 48-28. A banged up EC faced a very healthy UTEP squad and lost on the road, 22-17. Needing to win out, they beat UCF at home 38-31 and a win over Marshall would have gotten them to a bowl but they lost in OT. Had they remained healthier they probably would have made it to a bowl and LY were -14 in TO's and had a def ypp of 11.7 giving them a 73.2% chance of an improved record. They were also #4 in CUSA at +41.8 ypg. This year they go from 10 st'rs back to 15. EC makes my coveted Most Improved List and should get to a 2nd bowl in McNeill's 3 years.

31st meeting. EC won 5 str but there has been just 1 gm S/'79 ('09 ssn opener). EC led 24-0 and 29-7 into the 4Q but ASU cut the deficit to 5 & had the ball only to have a 4&10 from their 48 fall inc w/:16.

EC has won 3 str trips to Columbia incl the LTH 21-3 ('99). The Pirates were outgained 302-274 (-5 FD) but took advantage of a +3 TO ratio. EC is 1-9 S/'02 in 'true' road openers (W by 4 pts, avg L by 21 ppg).

EC had their series high 2 gm win streak snapped LY but the LTH trailed 20-0 after 1Q being outgained 144-8. Down 5 after allowing a 32 yd IR td, EC went 72/8pl for a GW td w/4:36 left (SM was SOD at SM30).

The Pirates last and only win in Chapel Hill was in '75 (0-7-1 since). LTH EC led 17-14 mid-3Q but from that point were outgained 243-52 (25 yds coming on the last drive w/:43) allowing 28 unanswered.

EC is 2-1 vs UTEP (all gms after '07). LY EC led into the 4Q 17-16 but allowed a 80/2pl (77 yd td run) "drive" w/7:04. EC went 3&out and then was int'd on their final drive from their own 28.

The Pirates are 9-2 vs the Knights but lost the LTH. After trailing 14-0 EC got within 7 three different times but never led. Into '12, the Pirates are 13-8 since '07 on the CUSA road but just 1-4 L/5.

EC has won 6 str vs Memphis by an avg 18 ppg. LY the Pirates trailed 10-7 at HT despite a 194-118 yd edge (UM 1 yd FR td). In the 2H EC put the gm away scoring 28 unanswered.

EC has won 5 str vs UAB by 14 ppg. LTH EC scored a series/ssn high 54 pts but all'd a series high 42. EC trailed 35-27 into the 4Q but had 4 str td drives incl a 11/3pl (after 56 yd PR) and a 28/4pl (after fum KR).

HT has lost L2Y. LY EC trailed 35-31 in the 4Q but went 77/15pl scoring a td w/2:14 (Navy missed a 42 yd fg as time exp'd, hit upright). EC has allowed an avg 403 rush ypg (6.6) vs Navy ('06, '10 & LY).

Pirates are 1-4 vs the Cougars in regular season meetings. LY East Carolina did hit a 54 yd fg but were mauled 56-3 in their largest CUSA loss ever.

LTH ('08) EC trailed 24-21 but went 80/9pl hitting a 24 yd GW td pass w/1:41. TU was int'd w/:28 near midfield.

EC is 5-2 vs MU but lost LY. EC went 82/15pl forcing OT w/a 6 yd td pass w/:14 (converted two 4D's). MU got a 1 yd td run and EC was int'd on 4&12 from their 27 (gm sent Marshall to a bowl as both tms were 5-6 coming in).

MARSHALL THUNDERING HERD

POSITION OUTLOOK FOR 2012

QUARTERBACKS - The Thundering Herd has had a pair of #1 DC's at QB in Chad Pennington and Byron Leftwich. Since Leftwich departed after '02 this unit has struggled. Bernard Morris had a good year in '07 throwing for 3,149 (64%, 17-10) and became Marshall's only QB to top 1,000 career rush yds. In '09 they added Florida's Mr Football AJ Graham (PS#100). However, Brian Anderson (PS#105) won the job and threw for 2,646 (58%, 14-13). In '10 Anderson almost lost his job to Graham but Graham was inj'd and played in just 2 (10-12-95). Anderson threw for 2,358 (57%, 20-15). LY I thought Graham would win the job and put up better numbers but the surprise starter was true frosh Rakeem Cato (PS#97) who was not even IFS but ran the same offensive system in HS. Graham saw his first action in the 4Q vs Ohio (gm 3) and then took over 4 wks later vs Rice, moving the offense. Graham started the next 4 (incl Rice) but then was inj'd in the 2Q vs Tulsa (gm 10) and OFY. He had the Herd's first 100 yd rushing gm (Rice) of the year and vs UAB also became the first 5 td passer s/'03 (Stan Hill). Graham threw for 714 (62.1%, 7-4, #3 rusher) while Cato threw for 2,059 (59.9%, 15-11) in 9 sts. It is very impressive that MU was 4-6 after Tulsa and true frosh Cato guided B2B wins to close out the year and led them to a bowl win. This year Graham departs and added to the mix is Blake Frohnapfel (PS#125 rFr) and true frosh Gunnar Holcombe (PS#108). Cato could have the best numbers here s/'07.

RUNNING BACKS - Marshall has had only three 1,000 yd rushers s/'98. Ahmad Bradshaw (PS#34) was arguably the top RB the Herd has ever had. The Virginia transfer rushed for 1,523 (6.1) in '06 and has since helped the Giants win 2 Super Bowls. In '07 true frosh Darius Marshall (PS#51) led with 631 (5.1) in 9 sts. In '08 he had 1,095 (4.9) and in '09 led again with 1,131 (5.0) but left early for the NFL (not drafted). Martin Ward (5'10" 209 Sr, PS#57) was the bowl MVP and finished #2 in '09 (393, 4.8). He led in '10 but with just 345 (3.6). Travon Van (PS#73) impressed the coaching staff during '10 practices. LY MU struggled on the ground with cutback RB's and after the UCF loss HC Holliday said that Van and soph Tron Martinez were clearly his top 2 RB's. Martinez (3 st true, 262, 3.4) led with 649 (4.1) while Van was #2 (551, 3.9). Surprisingly Ward had just 4 rush attempts. The unit returns intact this year and they add in VHT Miami transfer Kevin Grooms (PS#27) along with Remi Watson (5'11" 200 rFr, PS#149) who RS LY and MU looks much stronger.

RECEIVERS - In '10, 6'3" Aaron Dobson was the team's fastest player and after finishing #3 in '09 with 362 (24.1), he led with 689 (15.7). NFL caliber TE Lee Smith (PS#9) was #2 with 358 (9.4). LY they had to replace their #2 and #4 rec's and Dobson led again but this time with just 668 (13.6) while Antavious Wilson (#1 in '09 724, 342 but inj '10) was #2 with 462 (15.9). Troy Evans was susp in August but still started 8 and was #3 (337, 11.2). TY they lose Evans and Wayne Bonner (4 rec, 22.5). Holliday also raved about converted RB 5'10" Andre Booker who had 2 st and 116 rec yds (19.3) LY. This figures to be a much improved group and one of CUSA's best. With a more stable QB situation and a ton of athleticism in this group, it would not surprise me to see a huge spike in the numbers.

OFFENSIVE LINE - In '10 Marshall had to replace 2 st'rs but then their starting RT was dismissed for the last 2 gms. Marshall QB's were sacked just 2 times in the first 9 but 11 in the final 3! Surprisingly the Herd's numbers dropped to 97 ypg (3.4, 13 sk, 3.1%). LY they had to replace 3 st'rs (1st Tm CUSA). They ret'd 63 career starts and while the sacks rose to 27 (6.6%) the ypg improved to 120 (3.5). TY they lose RT CJ Wood (13 st, 3Y st'r), 2nd Tm CUSA LT Ryan Tillman (11 st, 4Y st'r) and Chris Bowers (10 gm). They have 3 returning st'rs (44 car sts), add PS#116JC Gage Niemeyer (IFS) and should be an improved group.

DEFENSIVE LINE - In '07 star DE Albert McClellan ('06 CUSA DPOY) suffered a torn ACL and the Herd slipped to allowing 191 ypg (4.8), their worst s/'01. They improved the next 2 yrs with veteran D-lines and in '09 allowed just 135 ypg (4.3, 27 sk). In '10 they had to replace 2 st'rs (4 of top 8) incl McClellan. DE Vinny Curry finished with 12 sks (1st Tm CUSA). The Herd trimmed the rush D ypc to 3.9 (145 ypg). LY they had to replace 3 DL (comb 13 st) but had 3 st'rs back and 7 who started in '10 (51 car st) including Curry. DT Marques Aiken was orig ruled OFY but sought a 2nd opinion and started all 12 (not 100%, 39 tkl). Despite Curry's presence, MU all'd 150 ypg rush (4.1) with 27 sks (3rd straight year rushing numbers increased). TY they lose CUSA DPOY Curry (13 st, 77 tkl, 11 sk, 11 tfl, #2DC PHI), NT Delvin Johnson (12 st, 42 tkl, 10.5 tfl), Trevor Black (20 tkl, 4.5 tfl) and Brandon Bullock (8 tkl, 1 sk). They return 5 of their top 8 but with the loss of Curry figure to be down a notch or two this year.

LINEBACKERS - Mario Harvey was one of the hardest hitters in the CUSA. In '09 he ret'd (#1 tkl'r) along with their #5 tkl'r and MU all'd 3.4 ppg less. Harvey was back again in '10 (#1) along with #4 Kellen Harris and they only had to replace 1 st'r (#6) but all'd 28.8 (4.5 ppg more). LY they had to replace 2x 1st Tm CUSA Harvey (143 tkl, 17.5 tfl) but ret'd 5 of the top 6. The proj'd starting 3 had 35 car sts and 285 tkls but with the loss of their top player, the stats stayed nearly the same at 28.6 ppg. TY they lose WLB Kellen Harris (5 st, #6 tkl'r), HM CUSA Tyson Gale (13 st, #2 tkl'r, 12.5 tfl) and 3rd Tm CUSA George Carpenter (13 st, #3 tkl'r, 4 sk, 4.5 tfl). They return their #4 and #13 tkl'rs but overall this unit is less exp'd and may be down a few notches.

DEFENSIVE BACKS - Heading into '10 Marshall had finished #112, #61 and #71 in my PDR. They appeared to return 3 st'rs but one was dismissed and another was inj'd (4 sts). They still moved up to #34 (56.8%, 18-11). LY they returned 3 st'rs losing their SS (#4 tkl'r). Despite a solid pass rush, MU slipped to #58 (62.6%, 24-14). TY they lose CB Rashad Jackson (10 st, 41 tkl, 4 int, 9 pbu), FS Omar Brown (13 st, #1 tkl'r, 4 int, 4 pbu) and Tyrone Carper (12 gm, 7 tkl) while SS Devin Arrington (#4 tkl'r) moves back to LB. True frosh DJ Hunter (PS#36) was so impressive on the scout tm LY he would have played if not inj'd. This unit is less exp'd but does add 2 VHT's (Hunter and true AJ Leggett) and could actually improve in the PDR.

SPECIAL TEAMS - Marshall finished just #95 in my ST rankings in '10 but had almost everyone back LY. Andre Booker was the top RM (24.8 KR, 10.8 PR). Tyler Warner, who hit 5-8 FG (L/41) in '10, missed 2 FG vs L'ville and was benched. Justin Haig connected on a 24 yd'r vs L'ville but missed a 40 yd'r vs UCF and Warner regained his spot and connected on the final 8. P Kase Whitehead (34.2 net '10), avg 40.1 (36.5 net). Marshall moved up to #59. TY they lose Whitehead and Warner and could make a significant drop.

COACHES - Mark Snyder got the Herd to a bowl in his 4th season ('09) but was let go after just a 22-37 record (resigned before bowl). Marshall lured longtime WV asst Doc Holliday to Huntington. Holliday spent 2 yrs ('08-'09) as WV's Assoc HC and also spent 3 yrs as Assoc HC at Florida ('05-'07) under Urban Meyer. Holliday is widely considered one of the best recruiters in the nation. Co-OC Bill Legg was the OC at FIU ('08-'09) and spent 5 yrs at Purdue (L/2 co-OC). Co-OC Tony Petersen was an Asst HC at S Dak ('09) and QB cch at Iowa St ('07-'08). Petersen was a record-setting QB at Marshall in the late '80's. The DC is Chris Rippon who was Rutgers' ST coor in '09 and ST/DB coach at Ole Miss ('05-'08). He also served as DC and ST coor at Syracuse for 12 years.

PHIL'S FORECAST

Marshall stepped right in from IAA in '97 and dominated the MAC winning the conf title 5 of their first 6 yrs. In '05 HC Mark Snyder inherited just 5 st'rs. He did not take over until AFTER spg practice and it was MU's first yr in CUSA. I didn't make a lot of fans in Huntington happy when I called for MU to finish LAST in CUSA East, even below UCF (0-11 yr prior)! The Herd trailed in all 11 (incl IAA W&M). They had 3 very fortunate wins (comb 5 pts) and finished 4-7. Marshall had their opportunities in each of the next 3 yrs but finished with just 5, 3 and 4 wins. In '09 Marshall made my Most Improved Teams list which meant I thought they would make it to a bowl. The Herd did not disappoint but after landing a Little Caesars Bowl berth, Snyder was fired and DC Rick Minter was the interim HC when MU defeated Ohio 21-17 for their first winning season in 6 yrs. They managed to lure Holliday away from WV and had 13 ret sts in '10 but lost some stars like RB Marshall, TE Cody Slate and DE McClellan. I pegged them 4th in the CUSA East and that is where they finished (4-4). Marshall was -59 ypg in CUSA play (3rd worst). LY MU ret'd 13 st'rs but they pulled both Houston and Tulsa from the West and WV, VT, L'ville and Ohio in non-conf play. They did have my #3 rated D-line and #1 set of DB's in CUSA. After losing to WV in a game that was called early 4Q, MU upset SM 26-20 despite trailing 17-3 in the 2Q. They were pounded by both Ohio and VT (comb 74-17) but got their 2nd upset beating L'ville on the road 17-13 (353-281 yd edge). In the pouring rain at UCF they were outgained 387-130 and lost by 10. They got a td with 1:49 left after Rice fumbled at their own 23 late and beat the Owls 24-20. MU was then pounded at Houston, 63-28. They led UAB 38-0 at half (UAB off upset of UCF) and won 59-14 but then were thrashed by Tulsa (trailed 42-3 half). The Herd trailed Memphis 22-10 in the 4Q but got a late score to pull out the win again, 23-22. Then in their season finale with both teams needing a win for a bowl, they got past EC 34-27 in OT. They beat FIU 20-10 in the bowl to finish 7-6. MU now has an exp'd QB but despite their 5-3 and 2nd place CUSA East finish, they were -67.1 ypg in CUSA play (5th worst) and benefitted from 5 net close wins (pg 309). Holliday is doing a great job here but since they pull Tulsa and Houston out of the West, it'll be tough for the Herd to return to the post season.

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In Joe Webb's senior season ('09) he started all 12 and led all FBS QB's in rush yards with 1,427 (6.3) and 11 td's. Webb also threw for 2,299 (60%, 21-8). Many of the HC's I met at CUSA media days had their own Joe Webb story talking about how elusive he was. Webb was the #6DC of the Vikings and has started 3 NFL games. Probably one of the biggest questions heading into '10 was who would replace him as he was basically UAB's offense in '09. David Isabelle began as the starter but Bryan Ellis took over and threw for 2,940 (56%, 25-12) while Joe Bento had 2 att. LY Ellis was the clear-cut starter and was backed up by a more mobile Jonathan Perry. Ellis inj'd his leg vs Tulane (gm 2) and suffered a conc vs EC (gm 3). He ret'd vs Tulsa but was inj'd again and played in just 4. Perry threw an int on his first pass vs Tulane but threw for 410 yards vs Memphis, the most since Darrell Hackney threw for 417 in the '04 bowl. His 457 yards of total off was also the 3rd most in schl history (John Whitcomb 533, '94; Joe Webb 459, '09). Perry threw for 2,042 (58.0%, 10-8) and was the #3 rusher (294, 3.2). Added to the mix are a pair of rFr in Austin Brown (PS#113) and Mike Miller (6'2" 195, PS#254) and new coach McGee's recruits Josh Greer, (PS#129, IFS) and Ben Craft (PS#156). Perry has a lot more experience than he had heading into LY (0 car att) and I look for improved numbers from the Blazer QB's.

RUNNING BACKS - The Blazers have operated a TB-by-committee approach that has not produced a 1,000 yd RB rusher s/'96 (only time by a RB in schl history). In '10 I had high expectations for JUCO Pat Shed and he set a UAB record for all-purp yds with 2,125 and led with 847 (5.4). Shed also led with 47 rec (#4 in yds). LY they had to replace 2 of the top 3 RB's but Shed ret'd and they added in VHT Georgia transfer Dontavius Jackson (PS#22). Unfortunately Shed was injured and played in just 5 (223, 3.7). Surprisingly Jackson played in just 7 (83, 4.2). Soph Greg Franklin (53, 4.8 in '10, PS#262) led with 430 (5.1) adding 284 (13.5) rec while true frosh Darrin Reaves (5'10" 210, PS#257) was #2 with 372 (4.7). Everyone but Shed is back and I'll call for improved numbers from the RB's.

RECEIVERS - LY UAB had to replace 2 of their top 3 rec's including their #3 career leader, Frantrell Forrest (558, 14.3 in '10). The leading returnee was Patrick Hearn (536, 15.3). Heading into '11 HC Callaway said their best WR was Nick Adams (6'2", 4.5 spd, great hands, 277, 18.5 '09) who had RS in '10. Adams finished #2 with 390 (13.4) and soph Jackie Williams led with 607 (10.5). Hearn was #3 with 364 (11.7) and Jamarcus Nelson (fastest WR) was #4 with 358 (21.1) despite being #8 in rec's (17). RFr Jay Davis replaced a susp Williams vs Memphis and had 7 catches. The TE's were very inexp LY and true frosh Kennard Backman was the most complete of the trio but had just 6 rec's. The best blocking TE was Sam Accursio (245 lbs, 1 rec) while the best receiver was conv WR Nolen Smith (273, 14.4). Everyone is back so this should be an improved group.

OFFENSIVE LINE - In '09 UAB had a veteran O-line (78 car sts) and a mobile QB in Joe Webb and rushed for 230 ypg (6.0) with 24 sks. In '10 they had 4 st'rs back (91 car st) losing a 4 yr starting C. With less mobility at QB, the numbers dropped to 156 ypg (4.5) but with just 12 sks (2.6%). LY UAB had 4 st'rs back again (118 car st). Surprisingly the rush numbers dipped again to 129 (3.9, 18 sk, 4.1%). TY they not only have new schemes, but have to replace 2-time 1st Tm CUSA LT Matt McCants (11 st, 3Y st'r, #6DC NYG), LG Caleb Thomas (12 st, 2Y st'r), RG Terence Edge (12 st, 4Y st'r), C Darion Smith (12 st, 2Y st'r) and OT Greg Calhoun (1 st). McCants was the first ever UAB OL to be taken in the draft. Only 1 player returns with starting exp in Chris Hubbard (17 car sts). The rush numbers have dropped each of the L2Y but even with the inexp at OL the numbers could be better TY with a mobile QB and a fine set of RB's.

DEFENSIVE LINE - UAB's D in '01 was nicknamed "The Steel Shield" and allowed just 1.9 ypc rushing and incl #1 and #2 DC's. The rush D slipped the next 6 yrs never allowing less than 3.7 ypc. In '07 they allowed 257 ypg (5.7) with just 17 sks. In '08 they had all 4 st'rs back and improved to 167 ypg (4.8). With 7 of the top 8 back in '09 UAB improved to 144 (4.2). In '10 they had to replace 4 DL (comb 27 st) and posted similar numbers (151 ypg, 4.2, 23 sk). LY the Blazers again lost 2 st'rs and 3 bkps. Two of my proj'd st'rs were lost over the summer. 1st Tm CUSA Elliott Henigan missed the first gm w/inj and never recaptured his 2010 form (15.5 tfl in '10, 3 '11). UAB slipped to 203 ypg (5.2) and their 8 sks was the worst in the NCAA. TY the Blazers lose DT Henigan (10 st, 37 tkl) and DT Adam Arthur (12 st, 19 tkl, 1.5 tfl). They return 6 of the top 8 with 3 of them being true frosh LY and should have one of the more improved DL's in CUSA. In the spring the D-line accounted for 26 of the team's 28 sks in 3 spring scrimmages incl the spring game.

LINEBACKERS - In '09 UAB had a lot of athletic talent at LB but it was young and inexp'd. In '10 the unit ret'd intact. Lamanski Ware (11 st, 71 tkl in '09) was inj'd (3 st). Marvin Burdette (2 st, 43 tkl '09) came on strong in the 2H and finished as the #1 tkl'r with 114 (8 tfl) earning 2nd Tm CUSA. LY they had 5 LB's back with 5+ career sts. Daniel White (9 st '10, #3) was dismissed in Sept and later reinstated but had just 6 tkls. UAB allowed 36.8 ppg (most in schl hist!) and TY they lose Ware (12 st, #3 w/75, 7 tfl) and Drew Luker (25 tkl). White suffered a serious knee inj at the end of spring and DA Autry is dealing with a medical issue making both ? for '12 ssn. However, they return the #2, #4 and possibly #6 tkl'rs from LY and can only be stronger.

DEFENSIVE BACKS - UAB finished #81 in my PDR in Callaway's first year and despite having a veteran unit, slipped to #100 in '08. In '09 they had to replace 3 st'rs and the unit was my biggest ? on the team. They slipped down to #110 (65%, 27-11). In '10 UAB climbed to #66 (58%, 24-9). LY they had 3.5 st'rs back and added in 3 JUCO's. I called for a large improvement but not much went right for the Blazers and they plummeted to #117 (71%, 26-9). Only 2 DB's started more than 8. TY UAB loses CB Marquis Coleman (12 st, 26 tkl, 2 int, 2 pbu), CB TJ Ballou (7 st, 28 tkl, 2 int, 3 pbu), SS Chase Daniel (8 st '10, 2 st '11, 31 tkl), FS Jamie Bender (12 st, #1 tkl'r, 2 int, 6 pbu), CB Terrell Springs (3 st, 31 tkl, 2 pbu) and Andre Hicks (8 st, 40 tkl). This unit has a grand total of 4 sts returning from LY (131 car sts lost!) but the good news is that they cannot drop much more in the PDR.

SPECIAL TEAMS - K/P Swayze Waters almost single-footedly guided the team to a #29 finish in my ST rankings in '07 and #47 in '08. In '09 they lost Waters and finished #108 and in '10 just #98. LY they had their top PR/KR back in Pat Shed but he played in just 5 (inj). Jackie Williams did fine as a PR (11.0). Nick Adams set the schl record with 194 ret yds vs Tulane (92 yd td). Two true frosh battled it out at K. Ty Long (PS#16) won and hit an outstanding 16-19 FG (L49) but had zero TB on 51 KO. Long could be the top K in CUSA this year. P Trey Ragland improved the net to 37.4. This year they will need a punter to emerge quickly in order to top LY's #89 finish.

COACHES - The UAB football program has struggled being in the middle of SEC country. Since 1993 the high mark has been 7 wins and there have been 7 straight losing seasons. Neil Callaway was let go after a 3-9 season (5th yr). New HC Garrick McGee spent the last 4 years at Ark including the final 2 as OC and prior to that was the OC for N'western ('04-'07). Jeff Brohm comes from Illinois as the OC where he was the OL cch/asst HC the last 3 years. The DC is Reggie Johnson who was also at Arkansas the last 4 years in the role of LB cch. McGee was a hot rumor to take over at Arkansas this spring.

PHIL'S FORECAST

In 2006 Watson Brown, who took over the IAA program in '95 and transformed UAB to IA the next ssn, had a hard luck year (5 close losses, 13 st'rs out for the yr by wk 12). It was UAB's worst season in their short history (began '91) at 3-9. Neil Callaway took over in '07 and had to replace 27 schlp Sr's and with the coaching change, suffered a large amount of attrition. Not counting frosh, only 40 players were on schlp. They returned 8 st'rs (2nd fewest FBS) and had 6 frosh and only 6 Sr st'rs by year's end. As expected, they were on the short end of many blowouts going just 1-7 in CUSA play (-188 ypg, 110 ypg worse than #11). They finished a schl rec worst 2-10. In '08 they had 14 st'rs back, were up to 73 schlp players and improved to 4-8. Their -61 ypg was 4th best in the East (7th overall). In '09 with dynamic QB Webb they were up to 79 schlp ply'rs and improved to 5-7 with a couple of tough losses causing them to just miss out on the postseason. In '10 UAB had 14 st'rs back but did have to replace Webb. They outplayed the 2 SEC teams they faced missing 5 FG's vs Tenn (544-287 yd edge) and later had a 24-18 FD edge at #24 Miss St (led in 4Q). UAB finished just 4-8 again. LY Callaway remained and was the lowest paid coach in CUSA. UAB also had the lowest recruiting budget and arguably the worst facilities in the conf. The schedule maker didn't do them any favors as six of their 8 CUSA foes had a bye the wk before playing them while UAB had to play 12 gms in 12 wks. They got rolled by Fla 39-0 then shockingly at home vs Tulane lost 49-10. EC had a schl rec 7 TO's but UAB couldn't take advantage and still lost by 5. They led Troy 23-14 but all'd a td with 4:07 left and lost 24-23. UAB led MSU 3-0 at half (181-118 yd edge) but lost 21-3 and only trailed Tulsa 24-20 at half (led 17-10) but lost by 17 to fall to 0-6. On a Thur night they put up 501 yds vs the CUSA's #1 rated D and upset UCF 26-24 but lost by 45 to Marshall and to UH by 43. UAB's DC Tommy West was the ex-HC at Memphis and they actually trailed 35-17 in the 3Q but beat the Tigers 41-35 putting up 601 yds. UAB upset league champ SM on a Thurs night, 34-31 but the next wk FAU got their only win of the season vs them, 38-35. UAB does go from 16 ret sts to 11 and brings in the 39 yr old Garrick McGee as HC. UAB was #11 in CUSA at -110.4 ypg in CUSA play despite their 3-5 record. They draw Houston and Tulsa out of the West and Ohio St and S Caro on the non-conf sked and this looks like a rebuilding year.

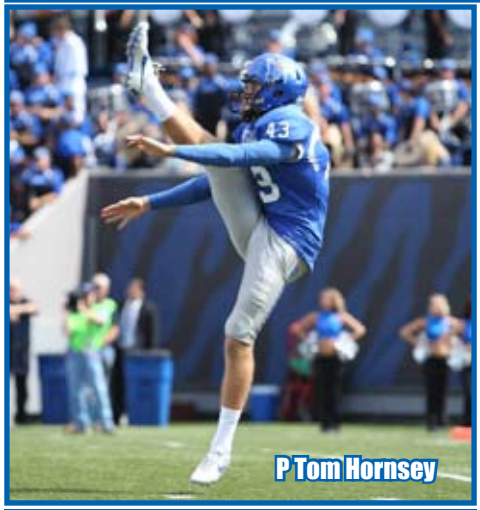
MEMPHIS TIGERS



POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 three diff QB's started and Memphis threw for 215 ypg (60%). QB coach Eric Price said he never had a frosh starter but would have a true frosh start for him 2 straight yrs. In '10 true frosh Ryan Williams (IFS) beat out Andy Summerlin (PS#61JC, RS) and Miami, Fl transfer Cannon Smith (PS#64). Williams threw for 2,075 (57%,13-10) and Smith threw for 246 (51%, 1-3). Smith moved to DB and Williams transferred. Summerlin won the job but was inj'd in the 1Q of the opener and true frosh Taylor Reed took every snap over the next 4 (and 1st 3Q vs Rice). Summerlin came in during the 4Q vs Rice and hit 9-13-137 but then inj'd his ankle. Against EC, with Reed and Summerlin banged up, Skylar Jones st'd but inj'd his hip in the 4Q and Reed hit 5-12-53. Reed took almost all of the snaps in the next 3 then broke his fibula vs UAB and Summerlin st'd the finale. Reed threw for 1,690 (57.3%, 10-4). Summerlin transferred and Reed was here for spg but is expected to transfer as well. While they must learn a new system, they added in Texas Tech transfer Jacob Karam (PS#33, IFS) who is my favorite to win the job and he should top LY's numbers (2283, 54.9%, 10-8).

RUNNING BACKS - Curtis Steele became Memphis' 4th 1,000 yd rusher gaining 1,223 (5.6) in '08. In '09 Steele again led with 1,239 (6.3, 15 td) despite missing 3 sts. In '10 they had to replace their top 3 RB rushers and Gregory Ray led with 676 (4.3). True frosh Jerrell Rhodes (PS#102) missed a couple of gms (conc) but finished #2 with 469 (4.0). LY they had to replace 2 of their top 3 RB's. Rhodes had 28 yds before getting inj'd in the opener (played just 3 gm) and finished #3 (152, 5.1). Billy Foster (PS#135JC) moved from WR and led with 479 (3.6) and was the #3 rec (299, 13.6). True frosh Artaves Gibson (good blend of speed and power) had 85 (5.0) vs Miss St in the opener but surprisingly ended with just 316 (3.0). TY they lose Foster (10 st) who had the 2nd longest rec (93 yd) in schl history, but I'll call for improved production.

RECEIVERS - In '10 Memphis had to replace their #1 and #2 career receivers and the most exp'd returnee was Marcus Rucker (PS#201) who had 241 (13.4) as a rFr. He led in '10 with 704 (17.2). Tannar Rehrer was #3 with 284 (12.3) and Curtis Johnson #4 with 230 (10.5). LY Foster (#5 in '10) moved to RB and they also had to replace their #2 WR Jermaine McKenzie (409, 16.4). Rucker st'd the first 2 and was #1 with 17 rec's for 171 yds but then was inj'd and played in just 5 more finishing #4 with 195 (9.8). Rehrer led with 70 rec but avg just 8.5 ypc as he was a solid possession receiver picking up many FD's in key situations. RFr Kevin Wright was #2 with 398 (11.1). Johnson missed the 1st 5 and finished #5 with 183 (18.3). TY they lose their #1 rec Rehrer (6 st), TE Andrew Ene-Ita (10 st, 5 rec) and WR Cam Baker (1 st, 5 rec) but have everyone else back including a VHT and should have improved numbers.

OFFENSIVE LINE - In Larry Porter's first year, he inherited 5 ret sts and while they had to learn new schemes, it surprised me that their rushing numbers dropped from 158 ypg (4.4) with just 17 sks in '09 to 92 ypg (2.9) with 37 sks (11.0%) in '10. It was the first time they had rushed for under 100 ypg s/'95. LY they had to replace 3 st'rs (34 car sts ret). They added a couple of JUCO starters LY but dropped even more to 84 ypg (2.7) but did trim the sacks to 27 (6.6%). It was a banged up group with just 2 OL's starting all 12. TY they lose RG D'Angelo McCray (5 st, inj, PS#8), 3rd Tm CUSA LT Ronald Leary (12 st, 3Y st'r) and Michael Antonescu (1 st). They basically have 3 st'rs back and 5 who started 5+ LY (42 car sts) and even in a new system, can really only improve upon LY's poor numbers.

DEFENSIVE LINE - In '07 UM allowed 5.1 ypc rush, their highest in over 18 yrs. They improved in each of the next 2 years (4.7 and 4.4) although the rush D did go from allowing 153 ypg in '08 to 174 in '09. Surprisingly in '10 with 3 st'rs back the Tigers did not improve (172 ypg, 4.4, 14 sk). LY they had all 4 st'rs back (7 w/st exp) and I clearly expected improvement with the DL almost looking like the team strength. It surprises me that they slipped to allowing 192 ypg (5.1, 14 sk). TY they lose a pair of 3rd Tm CUSA DL's in DE Frank Trotter (12 st, 61 tkl, 5 sk, 8 tfl) and NT Dontari Poe (#1DC KC, 12 st, 33 tkl, 8 tfl) while also losing Tommy Walker (8 st, 33 tkl, 6 tfl), Daniel Thomas (2 st, 16 tkl, 1 tfl) and Dasmine Cathey (1 st, 19 tkl, 1 tfl). While they lose 5 of their top 8 incl a rare #1DC they move to a 3-man front which will dilute those losses. The numbers were poor LY so they could actually improve.

LINEBACKERS - LY UM had to replace its #1 tkl'r by far in Jamon Hughes (147 tkl, 67 more than #2) and a bkp (1 st, 35 tkl). They then lost DeRon Furr (PS#30, 10 st, 58 tkl '10) over the summer and the unit, which often started 2 LB's in 2010, had just 4 starts returning. This year, in the new D, I include the DAWG giving them a 4 man unit. They only lose Terrence Thomas (12 st, #1 w/106, 5 tfl) but have 5 of the top 6 back making them a more experienced unit that can really only improve upon last year's 35.1 ppg allowed.

DEFENSIVE BACKS - Memphis had a banged up secondary in '09 so despite having 3 st'rs back they finished a poor #113 in my PDR. Injuries hit the unit hard again in '10 (only 1 DB with 9+ sts). Memphis finished dead last in my PDR (289 ypg, 66% 38-8). Last year they had to replace 6 DB who comb for 41 sts including the NB position. Mohamed Seisay (12 sts) then transferred over the summer so it was a lightly experienced group with 4 players comb for just 9 sts. Memphis managed to move up to #111 (64.6%, 27-12) as they did get the addition of converted QB Cannon Smith (PS#64) who was their #6 tkl'r. This year they only lose Lavaris Edwards (2 st, 6 tkl) making them much more exp'd (6 players comb 46 sts) and should make a good sized jump in my PDR.

SPECIAL TEAMS - The Tigers have finished above #69 in my ST rankings just once in the last 11 yrs. In Porter's first year they were #106 but had all of their top players back so I expected improvement. In '10 Tom Hornsey was a FWAA Frosh AA as he avg 42.7 (net 37.0). He played Australian rules football and came in as a 21 yr old. In his 2nd year he avg 42.0 (net 35.1). Paulo Henriques hit his last 9 FG's in '10 to finish 14-18 (L47), but was just 8-15 (1-3 50+) LY. He had hit 7 of his first 10 but unlike '10 hit just 1-5 down the stretch (8 TB on 45 KO). Against EC Keiwone Malone ret'd a punt 37 yds which was 32 more than the team had on PR in the entire '10 season but they still finished with just 93 (9.3). The team was -5.0 in KR and finished #100. New ST coor James Shibest (SEC ST coor 11 yrs) was named by one source as the ST COY in '09 and came on board here last Dec. This year they have everyone back and I do like the individual pieces and I'll call for them to move up a few spots in my ST rankings.

COACHES - Tommy West took over as HC in '01 and despite getting the Tigers to 5 bowls from '03-'08 he was let go after going 2-10 in '09 season. Larry Porter was let go after a 2Y record of 3-21. They hired 35 yr old Justin Fuente who spent the L3Y as co-OC at TCU. Prior to that he was TCU's RB cch ('07-'09) and Ill St's OC ('04-'06). The OC is Darrell Dickey who was the N Texas HC from 1998-'06 and has been an OC at Utah St ('07-'08), New Mexico ('09-'10) and Texas St last year. Barry Odom will be the DC. Odom had been on Missouri's staff s/'03 but spent the first six years in an administrative role before coaching safeties from '09-'11.

PHIL'S FORECAST

After finishing 3-9 with -14 turnovers in Tommy West's 2nd year (2002), Memphis was the typical Turnovers=Turnaround team in '03. They won more than 7 for the first time s/'76 (1st bowl s/'71). The Tigers were a CUSA best +151 ypg. In '03 and '04 they had B2B 8+ win seasons incl being ranked for the first time ever in the AP poll in '04 (#25). In '06 they had 11 ret sts and I called for them to finish last in the CUSA East on these pages and Memphis did just that (2-10). In '07, Memphis made my Most Improved Teams list and went 7-6 (6-2 CUSA) but lost their bowl to FAU. In '08 they got to a bowl at 6-6 but after a 27 pt loss to USF, finished 6-7. In '09 nothing went right for West (2-10, -85 ypg) and it proved to be his 9th and final season here. They finished 2nd in the CUSA East in 3 of his last 5 yrs. In '10 they had just 13 ret sts and drew both Tulsa and UH out of the West with their 4 CUSA HG's against the top 4. I picked them last in the East and the Tigers were the worst team in CUSA going 0-8 (-150 ypg, 55 worse than #11). Their lone win came vs MT, which was starting a 3rd string QB. LY I pegged them last in the East again as they had only 7 ret sts from the weakest tm in the league. They lost their first 2 by a comb 106-17. After beating FCS Austin Peay 27-6, they were shutout by SMU 42-0. They had a shot at knocking off MT for a 2nd str yr but MT got a 33 yd td pass with :11 left to win 38-31. They lost a pair of CUSA gms by 22 and 18 but then upset Tulane (interim HC) on the road despite being outgained 459-289 (79 yd IR td, blk'd punt). After a 2nd shutout loss (41-0 to UCF) they all'd 66, 70, 69 and 77 yd drives in the 4Q and lost 41-35 to UAB. UM led Marshall 22-10 in the 4Q but QB Reed was inj'd in the 3Q and they lost by 1 and then were whipped by SM, a tm in need of a win for the CUSA Title gm. UM had about 5,000 fans in the stands for UAB and about half that vs Marshall and Porter was let go after just 2 ssns. New HC Justin Fuente comes over from TCU. A surprising number is that UM was +12 in TO's LY. They were -230.9 ypg in CUSA play (120.5 worse than #11). Pointing upward is that they are a more veteran squad with 14 ret sts, had poor off (16.9) and def (14.0) ypp's and had 3 net close losses. The Tigers have an accustomed amount of HT's and some VHT's meaning there is potential to surprise but with the 3rd HC in 4 years, this looks like another rebuilding season.

HOUSTON COUGARS

RB Charles Sims

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Kevin Kolb started as a true frosh and had a storied 4 yr career topping David Klingler as the school's career leading passer. In '07 rFr Case Keenum took over and had a record setting career. In his 2nd year he set an FBS record with 25 straight comp. In '09 he was #8 in the Heisman vote (5671, 70%, 44-15). Keenum was inj'd vs UCLA (gm 3 and OFY) in '10. David Piland (PS#152) stepped in and started the last 8 throwing for 2,641 (58%, 24-14). The team's ypg passing dropped from 434 to 327 (70.3% to 61.6%). LY Keenum (granted 6th yr) became the NCAA's all-time leading passer with 19,217 yds. Keenum threw for 5,631 (71.0%, 48-5!) and would have been in Heisman contention but lost the CUSA Title gm (2-2 ratio) and did not get invited to NY. Keenum is the first player in NCAA history to have three 5,000 yd seasons. This year they must replace Keenum (left w/virtually every NCAA career passing mark) and bkp Cotton Turner (652, 64.9%, 6-1). Piland RS last year and is the clear frontrunner and I list his competition below which also includes Drew Hollingshead (6'3" 210 Jr, PS#73). While they also lose HC Kevin Sumlin, their numbers will not drop down to '10's standards but clearly there should be a drop compared to '11.

RUNNING BACKS - From '02-'07 UH had four 1,000 yd rushers. In '08 true frosh Bryce Beall led with 1,247 (6.3) along with 496 rec yds (14.6). In '09 Beall split carries with true frosh Charles Sims (PS#124). Sims led with 698 (5.3) and had 759 rec yds (10.8) while Beall had 670 (4.8, 311 rec yd). Sims RS in '10. Beall led with 870 (5.3) and Michael Hayes (PS#90JC, late signee) started 3 (#2, 629, 4.2). LY all 3 ret'd. Sims ran for a career high 207 (20.7!) vs Tulane and led with 821 (7.5). Hayes was #2 with 727 (5.3). This year they lose Beall (311, 5.9, 4 st) and Hayes (5 st) but Sims is back and they add in 3 HT true frosh plus Kenneth Farrow moves over after starting spg as a DB. While not as deep I look for Sims to be one of CUSA's top RB's.

RECEIVERS - In '10 everyone ret'd but with QB Keenum getting inj, they did not match 09's numbers. Patrick Edwards led with 1,100 (15.5), James Cleveland was #2 (800, 14.0) and Tyron Carrier had 480 (9.1). Kierrie Johnson was #3 (572, 15.5). LY they had to replace Cleveland and Johnson. I noted that while the unit was less exp'd, they could put up better numbers with Keenum's return and they did. Edwards led with 1,752 (19.7, 20 td) and Justin Johnson (421 yds 1st 3 yrs) was #2 with 1,229 (14.1) and the duo made up 1 of just 2 teams with a WR tandem with 10+ td's each (Baylor). Edwards topped Elmo Wright ('68-'70) for career td rec's and vs Rice had 318 yds and 5 td's. Carrier almost became a 3rd 1,000 yd rec'r with 958 (10.0) and RB's were the #4 and #5 rec's. This year they lose Carrier (13 st), Edwards (13 st), Johnson (14 st) and EJ Smith (10 st, 310, 10.7). Adding depth this year are Dominique Sanders (6'1" 190 So, PS#152) and Damian Payne (6'0" 208 So, PS#164. Naturally with the loss of their top 4 rec's and Keenum, I expect a significant drop in the UH receiving numbers but they do add the school's first ever 5 star recruit Deontay Greenberry (PS#10) and PS#80 Aaron Johnson (QB in spg) may see time at the XWR.

OFFENSIVE LINE - In '10 UH had to replace 2 st'rs but did move in Isaiah Thompson (24 st DL). The numbers improved to 153 ypg (4.5) with 12 sks. LY they had to replace 3 multi-yr st'rs (7.5 yrs st exp) but ret'd 1st Tm CUSA Chris Thompson. When Thompson started here at 285 lbs, he was one of the biggest OL's but LY he was actually one of the smallest showing the size of the OL had increased as the unit avg 6'3" 299. The unit, which had 56 car sts, benefitted from great health as all 5 st'd all 14 but the numbers were similar (149 ypg, 5.0, 19 sk, 2.8%). TY they lose 1st Tm CUSA Thompson (4Y st'r) but have 9 of their top 10 back making this a more veteran unit (71 car sts).

DEFENSIVE LINE - They had to replace 3 DL starters including CUSA Def POY Philip Hunt (14 sk) in '09 and I wrote that the DL was the team's biggest concern as they were undersized and inexperienced. The Cougars allowed 227 ypg rush (highest s/'94) and 5.1 ypc. In '10 they added BYU transfer Matangi Tonga (PS#44JC) and strength coach Larry Jackson called DE David Hunter "freakishly strong" (450+ bench). UH shifted back to a 3-4 and lost DT Zeke Riser (14 st '09) to an ACL so they had just 1 st'r back. The unit improved a little to 209 ypg (4.8) with 20 sks. LY they had to replace Tonga (9 st) but had 2 st'rs and Riser back plus they added in PS#109 JC NG Dominic Miller (13 st). UH improved allowing just 172 ypg rush (4.2) with 31 sks. TY they lose their top guy in Hunter (11 st, 39 tkl, 5 tfl) but have 5 of their top 6 back and Riser (4 st, 17 tkl) is another year removed from his injury. Add in PS#33 JC Lloyd Allen (23 tkl, 4.5 tfl) and I'll call for continued improvement as they move back to a 4-man front.

LINEBACKERS - In '09 UH had to replace their #3 tkl'r then lost 2 LB's to injury. True frosh Phillip Steward st'd 9 (#4 tkl'r). In '10 they had to replace their #2 tkl'r. Marcus McGraw (#1 tkl'r in '08) was #3 in the FBS with 156 tkls in '09 and led in '10 with 110. Matt Nicholson (#7 in '08, miss '09) ret'd in '10 to start 9 (inj, #7 tkl'r). Steward finished #2. LY the only losses were Nicholson and Efram Oliphant (#5 in '10) who RS (3 st, 66 tkl '10). They returned their #1, #2, #3 and McGraw bulked up to 228. The UH D finally showed some teeth allowing just 22.4 ppg, almost 10 pts better than '10. TY they lose 1st Tm CUSA Sammy Brown (14 st, #3 tkl'r, 13.5 sk!, 16.5 tfl) and 2nd Tm CUSA McGraw (14 st, #1 tkl'r w/141, 2.5 sk, 12 tfl). They get back Oliphant (may also see time at DE) and their #2 tkl'r (106) true frosh Derrick Mathews as well as #4 Steward. They lose 2 of their top 3 but have 2 st'rs back to a now 3 man unit.

DEFENSIVE BACKS - They only had to replace 2 st'rs in '08 and UH surprisingly slipped from #55 in my PDR to #94. In '09 they only had 1 st'r back then lost 2 proj'd S's over the summer but improved a little to #84. In '10 they had to replace 2 st'rs and improved to #75. LY they basically had to replace 3 st'rs. They did add in 2 JUCO CB's and a Texas A&M SS but it was surprising that they moved all the way up to #15 (55%, 19-21). TY they lose FS Nick Saenz (#7 tkl'r, 3 int, 2 pbu) but do have 7 of their top 8 back. This unit is more exp'd and stronger and has the best CB combo in CUSA, but probably won't match last year's PDR.

SPECIAL TEAMS - UH's best finish in my ST rankings under Briles was his first season at #50. In his final 4 yrs they were #115, #106, #92 and #90. In Sumlin's first year they moved up to #59. In '09 I said they should be one of CUSA's top ST units. The ST units were a major part of the team's success as they blk'd 6 kicks, had 5 KR td's and finished #29. While new HC Levine was the ST coor from '08-'11, UH has blk'd 16 kicks and ret'd 8 KR td's while setting 11 school records. RFr Matt Hogan hit 12-12 FG's (51 yd gm winner vs Tulsa). In '10 UH dropped to #60 but had all of the key players back LY. Matt Hogan set the NCAA record for consec PATs in a season (78) finishing 91-92 and hit 13-17 FG (L38, 2 miss 50+). Jordan Mannisto had 26 TB on 84 KO. Richie Leone upped the tm net to 36.2 and the unit rose to #38. This year they have their K and P back but do lose their top KR (25.2) and PR (14.0) so may not move up much in my rankings.

COACHES - The last 2 HC's have used UH as a launching point towards the BCS. Art Briles ('03-'07) was 18-8 his L2Y leaving for Baylor while Kevin Sumlin ('08-'11) took the A&M position. Tony Levine was named interim for LY's bowl and was then given the permanent job. He's been the ST coor here s/'08 and was asst HC in '10-11. Previously Levine was an NFL asst ST cch (CAR '06-'07) and also the ST coor at L'ville and LaTech ('02). Despite getting promoted from within the organization, he basically fields an entire new staff. The OC will be Mike Nesbitt who was the OC at SF Austin in '11 and at West Tex A&M (OC '10, QB cch '07-'09). DC Jamie Bryant was the LB cch here LY and spent '02-'10 at Vanderbilt (DB cch, DC L2Y).

PHIL'S FORECAST

Art Briles took a team that had won just 3, 0 and 5 games the previous 3 seasons to 4 winning seasons in his 5 yrs. They were my pick to win the CUSA West in '06 (#3 by media) and they won the CUSA Title going 10-4 with one of their losses coming on a last play Hail Mary. In Briles' last season here, even after losing QB Kevin Kolb, UH still avg 34.5 ppg (8-5). In Kevin Sumlin's first year UH finished 8-5 again (40.6 ppg). All they had to do was beat Rice to win the CUSA West but they lost by 14. They did win their first bowl s/'80 when they knocked off AF 34-28. In '09 Case Keenum (3rd yr) led them to 42.2 ppg including upsets at #5 Okla St, vs TT and at Miss St. They won the CUSA West (10-2) but in the CUSA Title gm and the bowl (rematch vs AF), were -8 in TO's and dropped both. After reaching #13 in gm 10 they finished unranked. In '10 UH was the favorite to win CUSA and put up 122 pts in the first 2 but then dropped 2 of the next 3 and Keenum was OFY. UH still managed 37.7 ppg but had their first losing season since '04. Keenum was granted a 6th yr in '11 and I used UH as my Most Improved Team in the country and the Cougars did not disappoint. They had the largest improvement of any team (record-wise) going from 5-7 to 13-1. During the yr they did trail LT 34-7 late 3Q but broke into the AP Top 10 for the first time s/'90. QB Keenum also set the NCAA passing record in gm 9 vs UAB and ESPN Game Day was on hand vs SMU. At 12-0 they would have had a BCS bowl berth if they knocked off SMiss at home in the CUSA Title game. They did have 3 close wins but for the ssn beat foes by an avg of 49-22. They were outgained 486-428 by SMiss in a 21 pt loss but then in the bowl put up 600 yds vs Penn St with Levine as the HC. Naturally there are numerous indicators calling for a weaker UH record this year. While they have 12 ret sts (same as '11) one of those lost is Keenum. UH was +3 net close wins, +16 in TO's, had very positive off (12.2) and def (17.0) ypp's and had a +5.5 gain in wins (see Stock Market pg 27). UH was +252 ypg in CUSA play (#1 by 97.8 ypg) and even with a new coach, must be considered a contender in the West. While they won't match LY's 13 win total, the Cougars are still a legitimate contender in the West and 6 of my 9 sets of power ratings call for them to have another double-digit win season.

TULSA GOLDEN HURRICANE

DE Cory Dorris

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In Paul Smith's first year as a starter ('05) he threw for a CUSA & Tulsa record 5,065 (60%, 47-19). He left after '07 as TU's all-time passing leader. In his first year as a starter (22 att prior), David Johnson had a much better season than expected throwing for 4,059 (65%, 46-18) in '08. In '09 Texas transfer GJ Kinne (PS#24) won the job but unlike Johnson, who had a veteran supporting cast, Kinne had an inexp O-line and backfield. Kinne threw for 2,732 (61%, 22-10), but threw 8 of his 10 int in the L/5 (tm went 1-4). In '10 I called for Kinne to be one of CUSA's top QB's and he threw for 3,650 (60%, 31-10) and for a 2nd consec yr was the #1 rusher (561, 3.6). LY Kinne's numbers were down a bit, perhaps because they faced 4 top 10 tms and he was inj'd vs Okla St (knee brace 2 wks). Kinne still earned 2nd Tm CUSA and threw for 3,090 (63.3%, 28-12, 405 rush). He finished as TU's #2 all-time passing leader. Kalen Henderson played 3Q vs OSU and hit just 6-20-104 and in 5 gms completed just 27.6%. Battling him for the starting job TY are rFr Joseph Calcagni (PS#94) and VHT Cody Green (PS#21) who had 5 sts for Nebraska (657, 54%, 5-3, 254 rush). Keep in mind Kinne was a PS#24 trans from Texas and while this year's QB will be productive, it will be tough replacing an All-Conf 3 year starter.

RUNNING BACKS - Tarrion Adams rushed for 1,225 (5.6) in '07 and 1,523 (6.2) in '08 becoming Tulsa's single season and career leader. Powerful inside runner Jamad Williams rushed for 523 (6.1). HB Charles Clay had a comb 449 rush (5.6) and 1,488 rec yds (13.8) in his first 2Y. In '09 they struggled to replace Adams and QB Kinne's 393 yds was the lowest total for a leading rusher here s/'71 (Mike Ridley, 311). In '10 Kinne led again (561) and WR Johnson was #2 (560, 10.2). Alex Singleton (PS#112) had 74 vs BG and 93 vs UCA but finished with just 391 (4.7). True frosh Ja'Terian Douglas (PS#89) had 335 (7.8) while ex walk-on rFr Trey Watts (son of JC) had 197 (3.2). Those 3 ret'd LY as they went to a TB by committee with great success. Watts led in 7 gms but finished #2 (881, 5.6, #5 rec). Kinne only led in 1 and Singleton (279, 3.4) also led in 1. While Douglas led in just 4, he had 173 vs OSU, 137 vs UAB, 194 vs Mar and 92 vs UTEP finishing first with 883. His 7.9 ypc was the best here for a RB s/'52. This yr the trio of RB's (comb 2043, 5.8 '11) returns intact and added to the mix is Zack Langer (5'11" 204 rFr, PS#129).

RECEIVERS - In '07 the rec's were very inexp'd but true frosh Trae Johnson was a very productive #2 with 1,088 (15.5). In '08 true frosh Damaris Johnson was #2 with 743 (14.0) and Trae's numbers dropped to 475 but with a 23.8 avg! Brennan Marion led in both '07 (1244, 31.9) and '08 (1112, 25.9). In '09 they had to replace Marion and D Johnson led with 1,131 (14.5). In '10 D Johnson led again but with just 872 (15.3) while Trae added 498 (16.6). True frosh Thomas Roberson (PS#145, 4.4 spd) was #4 (367, 12.2) and soph Ricky Johnson (PS#91) had 351 (16.0). LY the unit took a huge hit when D Johnson was susp'd prior to the season (eventually never returning). Willie Carter (one of tm's fastest) had 135 (27.0) in the opener, then 160 vs Rice and 173 vs SMU but despite not topping 65 in the final 5 games he was still #1 (868, 14.2). Bryan Burnham was #2 with 850 (15.7) while TE Clay Sears was #3 with 469 (12.7) and Jordan James added 391 (12.6). TY they lose 1st Tm CUSA TE Sears (12 st), WR Ricky Johnson (2 st, 14 rec), TE Michael Britton (2 st, 2 rec) and Nathan Largen (6 rec). TU has 3 of their top 4 back making them much more exp'd and get back Roberson who RS and add a Nebraska transfer (PS#98).

OFFENSIVE LINE - In '10 TU had 9 of their top 10 OL back and the unit was a big factor in my calling Tulsa my #1 Most Improved Team. Their numbers improved to 217 ypg rush (5.3, 28 sk). LY not only did all 5 st'rs return but they added in ND transfer Matt Romine (PS#18) and 4 OL started all 13. I called it the best O-line in CUSA and they finished #1 in rushing in conf gms (214, 4.9) and only allowed 9 sks (3.3%). TY they lose 1st Tm CUSA LG Clint Anderson (13 st, 3Y st'r), 3rd Tm CUSA LT Tyler Holmes (13 st, 4Y st'r), RT Romine (13 st), David Lazenby (13 gm) and Eric Sproal (7 gm). They have 3 back who have been full-time st'rs with Brian DeShane starting the L2 LY (9 sts '10). This remains one of CUSA's best but goes from 113 car sts and a VHT BCS addition to 70 car sts.

DEFENSIVE LINE - Rush D has not been a strength at Tulsa. In '06 I called for their best numbers in 2 decades and they trimmed their ypc to 4.2 and their 138 ypg rush allowed was their best in 17 yrs. They stayed in that area the next 4 yrs. LY they had to replace 1 DL st'r but had 5 of their top 6 back and switched to a 4-3 (2 st'rs back 4 man unit). The unit allowed just 128 ypg (3.3, best 20 yr) with 27 sks. TY they lose 1st Tm CUSA DE Tyrunn Walker (13 st, 41 tkl, 8 sk, 5.5 tfl), Durrell Finch (5 tkl, 2 sk) and Rashad Robinson (21 tkl, 1 sk) but have 6 of their top 8 back (top 4 DT's avg 6'4" 296). They look even stronger despite the loss of their top guy and Cory Dorris was unblockable in the spring.

LINEBACKERS - Tulsa had all 4 LB starters back (#1, #2, #6 and #8 tkl'rs) in '09 with all 4 starting all 12. Surprisingly they still allowed 27.3 ppg. In '10 they had to replace their #2, #5 and #10 tkl'rs plus 2 other LB's (comb 43 tkl) but ret'd their #4 and #7 tkl'rs. 2009's #1 tkl'r BAN DeAundre Brown moved to LB but RS meaning the 4 man unit had just 1 st'r back. They only slipped to allowing 30.3 ppg. LY they had to replace their #4 tkl'r but ret'd their #1 and #2 tkl'rs along with Brown to a new 3-man group. Brown missed the first 4 gms and never did start (25 tkl). The D trimmed it to 27.3 ppg. This year they lose 1st Tm CUSA MLB Curnelius Arnick (#1 tkl'r CUSA w/159, 13 st, 2.5 sk, 4 tfl) and CANE Alan Dock (13 st, #5, 2.5 tfl). They return their #2 tkl'r and should finally get a full yr out of Brown. While I expect the ppg to decrease, this unit is a little less experienced than the '11 version.

DEFENSIVE BACKS - Tulsa had three top 30 finishes in my PDR from '03-'06. In Graham's first 3 seasons, they were a disappointing #99, #97 and #60. In '10 they had to replace 2 st'rs and Graham said that FS Dexter McCoil reminded him of Bobby Blackshire ('04-'06) but 3" taller. I mentioned the unit was not quite as exp'd but still solid and Tulsa finished #60 again. LY they had to replace 1 st'r (3rd Tm CUSA, #7 tkl'r) and CB John Flanders (3Y st'r) RS so they had 6 of their top 8 back incl 1st Tm CUSA Marco Nelson (#3 tkl'r). I called for TU's best finish in my PDR s/'06 and they did even better finishing #28 (59.5%, 25-18). TY they lose CB Milton Howell (13 st, #7 tkl'r, 4 int, 7 pbu) and S Trent Wilkins (27 tkl). They have 6 of their top 8 back incl 2nd Tm CUSA McCoil who is already tied with Jeff Jordan (1962-64) and Nate Harris (1980-84) for the career int mark (13), Nelson and Flanders (HM CUSA, 45 tkl, 13 st in '10). This could be the best secondary in CUSA.

SPECIAL TEAMS - In '09 K Kevin Fitzpatrick (PS#74) hit 13-14 (L51). Damaris Johnson avg 24.6 on KR and 14.2 on PR and TU moved up to #37 in my ST ranking (#66 in '08). In '10 they finished #25 (P Michael Such 39.5 net). LY they lost Such but then Johnson was OFY. They didn't slip as far as you would expect (#55). Kevin Fitzpatrick became Tulsa's career scoring leader hitting 15-18 FG (3-3 50+). Cole Way lost his P job to Fitzpatrick in the 2H of the yr (tm net 36.9) and their return gm was avg. Cory Dorris (3 blk's '11) did however stop UH K Matt Hogan's NCAA streak of xp at 78 with a blk. TY they lose star Fitzpatrick but should improve in the return gm and add in PS#17 true frosh Daniel Schwarz who has a huge leg and picked Tulsa over Bama, LSU and Texas!

COACHES - Bill Blankenship was named the HC 4 days after Todd Graham left and less than 3 wks before signing day in Jan '11. He had never been a college HC or coor prior to coming here in '07 (22 yrs Okla HS system). He was the starting QB here in '77 and '79 and had coached the RB's, WR's and ST's in his previous 4 yrs here. The OC is Greg Peterson (OC N Colo. '10, Colo St '08-'09). He spent 12 yrs at KSt incl 2 as a co-OC. The DC is Brent Guy who was the HC at Utah St ('05-'08, 9-38). He was the UNLV LB cch in '10 and was with L'ville in '09. His last role as DC was at Ariz St ('01-'04).

PHIL'S FORECAST

Tulsa is the smallest FBS school but after consec 1 win seasons, in Steve Kragthorpe's first year of '03, they had the FBS's largest turnaround going from 1-11 to 8-5. Kragthorpe achieved 3 winning seasons and 3 bowls (29-22 4Y) and won the CUSA Title in '05. Todd Graham's first 2 yrs opened strong as in '07 they had their first 10 win season s/'91 and became the first tm in NCAA history to have a 5,000 yd passer, three 1,000 yd rec's and a 1,000 yd rusher and won their bowl by 56! In '08 they had to break in a new QB but still improved to 11-3 (won bowl by 32). In '09 Tulsa dropped to 5-7 but in '10 was my #1 Most Improved Team and managed to double their win total and it could have been even better. In the opening game they led 49-45 and EC got a 33 yd Hail Mary pass on the final play. They had 2 FG's blk'd and missed an open td pass vs SMU and lost by 3. Tulsa beat Hawaii 62-35 in the bowl, finished #24 and even upset ND and CUSA favorite Houston on the road. LY Tulsa had 18 st'rs back but lost HC Graham. They also lost their top WR, RM Damaris Johnson, and a starting CB prior to the ssn. TU was +78 ypg (3rd best) and tied for the CUSA West Title in '10 but they were +17 in TO's and had 2 net close wins. New HC Blankenship inherited a brutal schedule with 3 top 10 tms (Okla, Okla St, Boise). While TU opened as expected, losing to those 3 powers by 33, 26 and 20 they also steamrolled through CUSA with a perfect 7-0 mark with only 1 win by less than 17 (7 pt road win at defend champ UCF). Tulsa had a shot at the CUSA West Title and only trailed #8 UH 20-16 late 3Q but lost 48-16 at home. They could only put up 272 yds vs BYU in the bowl and lost 24-21 to finish 8-5. TY TU has just 13 st'rs back (16 LY) but was +109.4 ypg (3rd best CUSA) and -6 in TO's LY. Tulsa could open as strong as 8-0 but look at that November slate finishing at Ark, at Houston, home vs UCF and at SMU. How they do during that gauntlet will determine whether or not they can take home the CUSA West Title.

SMU MUSTANGS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - From 1996-'05 SMU's completion % for a season only topped 52.8% ONCE and that was in '04 (54.4%)! They have not finished below 55.5% in any of the last 6 yrs. When June Jones arrived in '08 he susp the ret st'r and went with true frosh Bo Levi Mitchell who threw for 2,865 (58%, 24 td) but also had 23 int (worst NCAA). In '09 Mitchell ret'd but Jones pulled the plug and went to true frosh Kyle Padron who threw for 1,922 (67%, 10-4, #5 pass eff FBS) and had an SMU record 460 in the bowl (5-1 as st'r). In '10 Padron dropped to 59% but still set an SMU ttl offense record throwing for 3,828 (31-14, 244 rush). LY Padron had 2 int's in their first 2 poss vs A&M and was then surprisingly replaced by JJ McDermott. Padron fell out of favor and played in just 3 (20 att, 3 int). McDermott struggled at times and in the 4 losses as a st'r, he had a 2-9 ratio. He threw for 3,421 (59.8%, 17-16). This year they lose McDermott and Padron. They have 1 SMU car att ret in Stephen Kaiser (PS#66) but I expect the QB to be Texas transfer Garrett Gilbert (PS#2) who played in the Nat'l Title gm in '09 and st'd 14 gms for the Horns in 3 yrs. He will join the tm in the summer after grad. I expect SMU's pass numbers to improve.

RUNNING BACKS - In '08 SMU's top rusher had just 190 (4.1). A year later, Miami, Fla transfer Shawnbrey McNeal became the first ever 1,000 yd rusher (1188, 5.0) in June Jones' 11 yrs as a college HC. True frosh Zach Line (230 lbs) was #2 (189, 3.9) and no other RB had a rush att. McNeal left early for the NFL (undrafted). Line was the frontrunner into '10 but SMU figured to have a more "explosive" RB emerge. Line had diff intentions and grabbed hold of the job and never let go. He even topped McNeal's numbers with 1,494 (6.1). Line ret'd LY and was the focal point of the offense (1st Tm CUSA) and led again with 1,224 (5.9) despite inj's. Kevlar was added to his shoulder pads to soften blows and he missed the final 2 (toe inj). 280 lb DL Rishaad Wimbley (425 bench) moved to RB in Aug and st'd vs Pitt in the bowl (115 yd the gm prior vs Rice) finishing with 178 (4.4). Walk-on true frosh Jared Williams was #2 (180, 4.3) and K.C. Niemchi (6'1" 215, PS#180) RS. This year all 3 return (Williams inj in bowl and ?) and this unit is one of the best in CUSA.

RECEIVERS - June Jones has had some fine receivers and inherited both Aldrick Robinson and Emmanuel Sanders who thrived in Jones' offense and finished as the #1 and #2 career leaders in yds. LY they had to replace Robinson (1301, 20.0). They ret'd #2 Cole Beasley (1060, 12.2), #3 Darius Johnson (845, 10.8) and #4 Bradley Haynes (326, 9.3). RFr Der'rikk Thompson was a deep threat and finished #4 with 411 (13.7). Johnson led with 1,118 (14.2) and Beasley (#3 all-time rec) became the first SMU rec with B2B 1,000 yd seasons (1040, 12.1). Wilkerson had 21 sts and 760 (11.1) in '08-'09 and was inelig in '10. He ret'd and was #3 (561, 12.8). Under HC Jones, SMU has fielded the top 3 all-time receiving leaders. TY they lose Beasley (12 st, 1st Tm CUSA), Wilkerson (12 st) and Haynes (2 st, 2 rec). They do have their top guy back and should get better play out of the QB's putting this unit on par with '11 despite being a little less experienced.

OFFENSIVE LINE - In June Jones' first year SMU had to replace 3 multi-yr OL st'rs then suffered inj's while having to learn a new system. Their numbers plummeted with 3 frosh st'rs to 41 ypg rush (2.3, 27 sk, 5.7%). In '09 they had 3 st'rs back and improved to 110 ypg (3.8) but with 36 sks (7.6%). In '10 SMU had 3 st'rs back and improved to 139 ypg (4.8, 34 sk). LY the entire 2 deep ret'd incl six that had been full-time st'rs. C Blake McJunkin was inj'd (1 st). Six players made sts (all upperclassmen, 5 Sr's) but surprisingly the numbers dropped to 114 ypg (4.2, 31 sk). This is my biggest concern on the '12 squad as they must replace 2-time 1st Tm CUSA LT Kelvin Beachum (13 st, 4Y st'r, #7DC PIT), RT JT Brooks (12 st, 3Y st'r), LG Josh LeRibeus (13 st, 2Y st'r, #3DC WAS), RG Kelly Turner (13 st, 2Y st'r) and C Bryce Tennison (12 st, 4Y st'r). McJunkin received a 5th year but they go from an amazing 158 car sts (#1 NCAA) to just 34 ret (#107) and with just 2 of them coming LY.

DEFENSIVE LINE - In '08 (2 st'rs back) SMU yielded 226 rush ypg, the most s/'95 (4.9). In '09 they had to replace 4 DL (comb 31 sts) but did get back an '07 st'r and added PS#61JC Marquis Frazier (500 bench). SMU also got the unusual addition of Margus Hunt (6'8" 295, SMU track tm) as '09 was his first yr in organized football. The lightly exp'd unit still improved to 167 ypg rush (4.4). In '10 they had to replace 1 st'r and allowed just 145 ypg (3.7) with 29 sks (most s/'06). LY the 2 deep ret'd and I said the Mustangs had the best D-line in CUSA and in conf play they all'd just 98 ypg rush (2.9) and were #2 in sacks. TY they lose 1st Tm CUSA DE Taylor Thompson (13 st, 44 tkl, 8 sk, #5DC TEN), 2nd Tm CUSA DE Frazier (11 st, 46 tkl, 3.5 sk) and DE Szymon Czerniak (11 tkl). Hunt is now an exp'd Sr and while solid, this unit is clearly less exp than '11's version.

LINEBACKERS - LY they had to replace a 2nd Tm CUSA LB (#2 tkl'r), their #5 tkl'r (13 st) and a bkp (1 st, 22 tkl). They ret'd their #1 and #4 tkl'rs and I speculated they could improve their ppg for a 4th straight year which they did to 23.1. TY they only lose Victor Jones (7 st, 27 tkl) but return the top 4 incl 2nd Tm CUSA Ja'Gared Davis (#2), 2nd Tm CUSA Taylor Reed (#1) and Cameron Rogers (#4). This is the most exp'd they have been in years and should continue to improve.

DEFENSIVE BACKS - SMU had just 1 st'r back in '08 and slipped to #117 in my PDR. In '09 they ret'd all 4 st'rs and FS Chris Banjo was chosen to wear Jerry LeVias' #23 jersey and was the #2 tkl'r as a soph. SMU had just 8 int in '08 but had 9 in the first 2 gms of '09. As expected, the more exp'd unit moved up to #44 (55.9%, 20-17). In '10 they had to replace 2 st'rs but only slipped to #47 (59.3%, 18-10). LY they had 3 st'rs back incl 2nd Tm CUSA Banjo (#3 tkl'r) and 1st Tm CUSA CB Richard Crawford. It looked like Jones' best secondary yet so it's surprising that they slipped to #70 (64.1%, 15-6). TY they lose 2x 1st Tm CUSA CB Crawford (13 st, #7 tkl'r, 2 int, 13 pbu, #7DC WAS), FS Banjo (12 st, 2 pbu), S Justin Sorrell (2 st, 29 tkl, 3 pbu) and Chris Castro (6 tkl). This unit is less experienced, should move up in my PDR.

SPECIAL TEAMS - In '09 SMU was a disappointing #88 in my ST rankings. In '10 they had to replace their top KR (24.2) and PR (13.8) but ret'd Texas A&M transfer Matt Szymanski (7-12 FG, L61, 35.0 net) and added 6'8" DL Hunt (7 blk'd kicks). Surprisingly they dropped to #108. LY they brought in ST guru Frank Ganz Jr from UCLA (#10, #20 '09-'10). Despite losing Szymanski they moved up to #79. K Chase Hover (8-10 FG, long 34) missed the final 2 games with injury. P Matt Stone only avg 37.7 (34.5 tm net). Crawford had a 92 yd PR td with 142 PR yds vs UCF (2nd highest SMU hist) but surprisingly had just 47 other PR yards. Despite the loss of their P and top PR, SMU should finish close to last year's rank.

COACHES - June Jones was the Hawaii HC for 9 years incl being named COY taking over an 0-12 tm and getting them to 9 wins. He was lured here in '08 with a huge salary increase and better facilities. Jones has now led 3 squads to the Most Improved Team in the NCAA after an 8-5 ssn in '09 (was 1-11 in '08). Jones took the Ariz St job prior to the bowl but was back here a wk later. He calls his own plays but hired Jason Phillips from Houston where he was the co-OC the L4Y (49 ppg LY) and joins Dan Morrison as co-OC's TY. The DC is Tom Mason (5th yr) who was previously the LB coach at Fresno for 7 yrs.

PHIL'S FORECAST

From 1981-1984 SMU was among the nation's best teams going 41-5-1 but the "Death Penalty" hit and after their return in 1989, they had one winning season from 1989-'08 (1997). Phil Bennett had them knocking on the door with 5 and 6 win seasons in '05 and '06 but in '07 they had many close losses (3 in OT) and finished just 1-11. In June Jones' first season ('08) SMU susp their ret st'r QB and true frosh Bo Levi Mitchell started. The close losses continued and they finished 1-11 again (-122.7 ypg CUSA) with 17 straight conf losses and their 5 net close losses were #1 in the FBS. They were -13 in TO's but played league powers Tulsa and Houston tough (led both in 4Q). In '09 they ret'd 16 st'rs and were #6 in my "Going Up" section due to their easier schedule (pg 327). SMU also made my Most Improved List in '09 and went 8-5 including a 45-10 win in the Hawaii Bowl (1st bowl s/'84)! They finished as CUSA West co-Champs and their 7 game jump was best in the country. Jones had the NCAA record at Hawaii as UH went from 0-12 to 9-4. The season after that historic jump Hawaii went just 3-9. In '10 SMU had 13 ret sts and had benefitted from 3 net close wins in '09 and despite their 6-2 CUSA record, were -24.4 ypg in conf play. As you would expect, SMU's record dropped but Jones had them 7-5 and in the CUSA Title game where they outgained UCF but lost. In the bowl vs Army, SMU had a 413-229 yd edge but lost by 2 due to TO's. SMU was the 2nd best team in CUSA in ypg at +85.5 ypg, was -12 in TO's and had 38 sts lost to injury. All those factors plus 18 ret sts had them pointed upwards but SMU had to play A&M, TCU, S Miss, Tulsa and Houston (all on the road). Despite that brutal schedule, I called for their 3rd winning season s/'84. After an expected loss at A&M, SMU rattled off 5 wins including beating their 2nd ranked team since the death penalty (TCU on the road!) and then beat defending CUSA Champs UCF at home by 21. The Mustangs were 5-1 yet -9 in TO's. They lost to SMiss 27-3 then were pounded at Tulsa in a 2nd str road trip 38-7. Two wks later after an expected Tulane win, they lost to Navy by 7 then travelled to Houston with Gameday on hand but did not have RB Line and were mauled 37-7 (UH 513-263 yds). They were -4 in TO's but beat Rice 27-24 then took advantage of a Pitt tm without its coach in the bowl holding them to 205 yds for an 8-5 finish. TY SMU has just 10 ret sts but RB Line is back and they were -16 in TO's LY (pg 322). They now get Houston and Tulsa at home with much more manageable road trips and despite their inexp, have a great shot at the CUSA West Title.

UTEP MINERS

DT Germard Reed

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '07 five QB's battled to replace UTEP's career leading passer Jordan Palmer. Trevor Vittatoe (monster arm) became the first UTEP QB to top 3,000 in 3 consec seasons. In '10 Vittatoe suffered an ankle injury and was questionable for each of the last 6 games but started each. He threw for 2,756 (54%, 22-13). LY JUCO Nick Lamaison (PS#155), who originally signed at Tenn in '09, battled Jay Hall (PS#95), Carson Meger (PS#187) and NMex trans Tate Smith. HC Mike Price also called true frosh Blaire Sullivan (PS#131) the potential face of the program. Lamaison earned JC OPOY and was IFS. He was 27-1 as the starter at JC throwing for 3,993 (60%, 30-12) in '10. Lamaison won the job and threw for 365 in the opener (2nd highest debut, Billy Stevens' 500 in '65) but was injured in the 3Q vs SMU (separated shoulder). He missed 4 sts and finished with 1,718 (58%, 12-10). When Jay Hall took the opening snap vs NMSt, it was the first time that they had 3 diff starting QB's in 3 str gms dating back to '65. Meger got the surprise start vs USF and had a good game. Lamaison ret'd and att all but 1 pass over the next 5 but was inj'd again. Meger, Smith and Hall all played vs Tulsa but Lamaison ret'd for the finale. Meger (no huddle w/him at QB) threw for 669 (63.4%, 2-5) and Hall threw for 281 (36.4%, 0-2). TY they must replace Smith (7 att) but the unit is vastly more exp'd and Lamaison should be one of CUSA's top QB's.

RUNNING BACKS - In '07 I called for UTEP to have the most improved rush attack in the NCAA and they did, going from 58 ypg to 148. In '09 Donald Buckram broke the single season rushing record held by Fred Wendt (1546 in 1948) with 1,594 (6.2) and 18 td's and was also the #3 rec'r (453, 15.1). The #2 RB had just 126 (3.2). In '10 Buckram was never 100% and only played 8 gms and was #2 (335, 4.1). Joe Banyard (PS#221, TCU trans) led with 623 (5.7) in 5 sts. Leilyon Myers, who is a change of pace back, had 216 (4.2). Vernon Frazier (blazing speed) was #3 with 231 (6.1). LY they only lost Buckram. Banyard had the 4th best game in UTEP history with 240 vs UH and later Frazier had 167 vs Colo St as UTEP had their 2nd best 3 gm stretch of rush yds in the modern era (878, 1984) with 877. Banyard led with 832 (6.6) while Frazier avg a nifty 7.1 (434 yds). Myers was #3 (368, 3.5). This year they lose all 3 and the front runner is Nathan Jeffery (PS#246) who had 166 (6.4) LY. Jeffery missed some time in spring (knee) but when referring to him, HC Price said, "The Miners have a RB." Naturally with the loss of their top 3, I'll call this unit down a few notches.

RECEIVERS - LY UTEP had to replace Kris Adams (#1, 1070, 22.8) as well as their #3 and #4 rec's (comb 572, 13.0). Their top 2 returnees were Marlon McClure (343, 11.4) and Donavon Kemp (181, 10.1). McClure was lost over the summer so the unit was lightly exp'd. Lamaison's favorite target at JUCO in '10 was Mike Edwards (1,267 yds) who also joined the Miners. Edwards, who has a good work ethic, proved to be Lamaison's favorite target here as well and led with 657 (13.1). Kemp was #2 in rec after 7 sts in '10 but then tore his ACL. He started showing his old form in Aug (missed spring) and finished #2 with 456 and an impressive 19.8 ypc. RFr Jordan Leslie (PS#155) was #3 (430,14.3). TY they lose Kemp (11 st), Russell Carr (6 st, 119, 9.9), Julio Lopez (5 st, 233, 9.3) and 3 others (comb 4 st, 19 rec). Edwards was limited in spring with a groin injury, but will be ready for the fall. With 3 of the top 5 back, this unit is vastly more experienced than '11.

OFFENSIVE LINE - In '09 UTEP had 86 career sts ret (9 of top 10 OL) and improved their numbers to 151 ypg (4.5, 25 sk), the best ypc in over 20 yrs. In '10 they had to replace 2 st'rs (62 car sts ret) along with 2 other OL (comb 9 sts). Injuries caused them to use a diff OL in each of the final 7 games. UTEP slipped to 137 ypg rush (4.3, 18 sk). Last year the losses were heavy as they had to replace all 5 st'rs and returned just 7 car sts. As you would expect, UTEP's sack total rose to 35 (8.8%), but they actually paved the way for 155 ypg rush (4.5) which are the best numbers of the Price era. TY they lose RG Nathan McCage (12 st) but have 9 of the top 10 back (53 car st) and will need a RB to step up to match or top LY's numbers.

DEFENSIVE LINE - In UTEP's first 2 yrs of the 3-3-5 D they all'd 199 ypg rush (5.1) in '08 and 201 ypg (5.0) with a veteran DL unit in '09. In '10 only 2 of the top 7 ret'd and they switched back to a 4-3. The inexp'd front still improved to 184 ypg (4.9) but the D had just 14 sks (lowest s/'01). LY they had to replace a starting DE (HM CUSA) but ret'd 8 of the top 9 DL. Surprisingly UTEP's rush D numbers slipped a hair to 190 ypg (5.2) and while the sks increased to 24, they had 6 vs NMSt and 7 vs Colo St (11 in other 10). TY they lose DE Bernard Obi (12 st, 26 tkl, 1.5 sk) and DT Jamie Fehoko (12 st, 22 tkl, 4.5 tfl). While they go from 3 st'rs back to 2, LY's unit underachieved and with 6 of the top 8 back, I'll call them stronger in '12.

LINEBACKERS - In '10 UTEP had to replace their #1 and #9 tkl'rs. They did return 2.5 st'rs (#3, #4, #11). Their most athletic LB was Jamie Irving (23 tkls '08-'09) who earned a starting job (#2 w/79). UTEP allowed just 27.5 ppg, their best total in 5 yrs and a big reason was the improved LB corps. LY they had to replace 1 LB (5 st, #7) but ret'd their #2, #4 and #5 tkl'rs. Unfortunately Irving took a MedRS. Jeremy Springer (12 st '09, lost job '10) st'd all 12. They added VHT Josh Fely (PS#61JC) who st'd 4 (#3 tkl'r, 3 sk). UTEP slipped a little to 30.3 ppg. TY they lose Royzell Smith (10 st, #10), Springer (#1, 5 tfl) and Isaiah Carter (7 st, #4, 4.5 tfl). They do return Fely and Irving so are on par with '11 in terms of exp.

DEFENSIVE BACKS - UTEP's DB's have played to their expectations. With exp'd units in '04 and '06 they finished #36 and #58 in my PDR. With inexp'd units, they finished #90 in '05, #83 in '07 and #104 in '08. After a #87 finish in '09, UTEP had to replace 3 st'rs in '10 but finished #78. LY they had to replace their #1 tkl'r and 3 other DB's (comb 10 sts, 62 tkl). They did have 3 st'rs back and added in a pair of JC's (IFS). Once again UTEP performed as expected as the secondary rose to #39 (59.9%, 16-12). TY they lose CB Antwon Blake (12 st, 46 tkl, 8 pd) and FS Travaun Nixon (6 st, 50 tkl, 4 int) but do have 6 of the top 8 back making them as exp'd as '11.

SPECIAL TEAMS - Price puts an emphasis on ST's. In his first 4 yrs UTEP finished #17, #48, #25 and #34 in my ST rankings. The next 2 yrs they dropped to #80 and #81. In '10 they rose back up to #12 with dangerous KR (31.0) and PR (13.1) Marlon McClure as well as P Ian Campbell (37.0 net). LY they appeared in good shape but then McClure was lost over the summer. Showing how good Price's schemes are, Vernon Frazier finished #7 in the FBS (30.5) on KR and the tm was above avg on PR (10.0). True frosh Steven Valadez had 21 TB on 64 KO. Dakota Warren hit 12-20 FG (L57) in '10 and 13-22 (L47) in '11. Campbell improved his punting avg to 46.1 (40.5 net!). Warren did have his 72 str xp streak snapped. UTEP would then amazingly miss 4 of their next 6 xp's over 3 gms. UTEP rose to #26 and only lose Frazier TY and will be strong again.

COACHES - Mike Price enters his 9th year here. He previously guided Wash St to a pair of Rose Bowls and three 10 win seasons in his 14 yrs there. Price was the Pac-10 COY in '92, '97 and '01. Aaron Price (Mike's son) is in his 9th season here and is the lone OC (co-OC L4Y). The DC for the 3rd season is Andre Patterson who was UNLV's asst HC/DL cch ('08-'09) and worked under Price at Weber St and Wash St. Patterson was also the HC of Cal Poly ('94-'96).

PHIL'S FORECAST

In '04 Mike Price took over a team with 17 st'rs back that was -15 in TO's in '03. UTEP was coming off 3 consec 2 win seasons and had just 3 winning seasons s/'71 prior to his arrival. I called them the WAC's surprise team and my #3 Most Improved Team. UTEP finished 8-3 and lost the Houston Bowl to Colorado by 5. In '05, the Miners opened 8-1 and needed to win just 1 of their final 2 to win the CUSA West. Price was 16-5 at this point and 11-3 in conf play. They lost to a pair of tms with losing records and lost the bowl to finish "just" 8-4. Since then they've had 6 consec losing seasons and have gone just 17-33 their L/50 conf gms. They were preseason CUSA West favorites in '09 and knocked off both UH and Tulsa but lost winnable games and finished 4-8. The best thing coming out of '09 was that they finally snapped their streak of having lost 20 str reg season finales. They had 5 losses by a td or less, the most in UTEP history and despite their 4-8 overall record they were +77.3 ypg in CUSA play. Eight of my 9 sets of power ratings called for them to be bowl eligible in '10. UTEP probably would have had a winning season but star RB Donald Buckram (#4 FBS ypg '09) was banged up (just 335 rush). QB Vittatoe was far from 100% healthy but UTEP opened 5-1 and even knocked off eventual CUSA West Champ SMU and got to the New Mexico Bowl (lost to BYU). LY UTEP had just 10 st'rs back and had zero players make the preseason CUSA tm. I called it a rebuilding yr but UTEP came close to a bowl at 5-7. They needed OT to get past Stony Brook. They lost QB Lamaison vs SMU and lost by 11 with SMU getting a FR td off of bkp QB Hall with 2:39 left. With Hall at QB, they got a crucial 60 yd run on a fake punt to key a 16-10 road win at NMSt. After getting whipped by USF on the road, 52-24, UTEP, which had 39 sts lost to inj in '10, was almost in perfect health when they hosted Houston on a Thurs night. Banyard rushed for 240 and they suffered a narrow loss, 49-42. They beat Tulane 44-7 and CSU 31-17 at home to move to 4-3. They were tied with S Miss 10-10 at HT but lost by 18 and were outgained by Rice 671-392 but led 31-27 before losing by 4. With full health, they beat a banged up EC at home, 22-17 (429-254 yd). They lost to Tulsa (meaningless for TU) 57-28 (w/o QB Lamaison) in the FHG for 22 Sr's in their first day game s/'09. Lamaison ret'd and they trailed UCF 31-0 in the 4Q (a win would have sent them to a bowl). Five wins was more than I expected but UTEP was -92.4 ypg in CUSA (3rd worst). TY they have 13 st'rs back which makes them more exp'd than LY and they were -8 in TO's in '11 almost qualifying for my Turnovers=Turnaround. This is Price's best team in the last 7 yrs but unfortunately, they draw CUSA's toughest schedule (pg 202) and probably won't top LY's 5 win total.

RICE OWLS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Chase Clement became the first player in Owl history to top 10,000 yds of total offense and the first in CUSA to top 1,500 rush and 8,000 pass. In '08 Clement threw for 4,119 (67%) with an amazing 44-7 ratio (693 rush). I expected Alabama transfer Nick Fanuzzi (PS#22) to win the job in '09. Fanuzzi was injured and missed a few but still threw for 1,598 (60%, 11-8). In '10 Taylor McHargue (PS#170), who almost burned his RS in '09 was the surprise starter in Wk1. Bailiff liked McHargue's mobility and they were facing a blitzing Texas D. McHargue was inj'd the next week vs NT and Fanuzzi started 8 and threw for 1,681 (63%, 11-9). McHargue retook the spot and his mobility kept some plays alive. He threw for 491 (57%, 6-1) in 3 sts and was the clear-cut starter into '11. McHargue played in 9 (1072, 57.5%, 8-5, 124 rush). He opted to wear a glove vs Tulsa and had 2 int's and a fumble on the first 3 poss and after 8 pass att's vs UH, McHargue had zero the rest of the year. Fanuzzi, after losing his starting job, didn't create a fuss and ended up winning it back. He threw for 405 (70%, 3-0) vs UTEP but threw for just 112 ypg the final 3 (1123, 58%, 7-2, 72 rush). They also ran the Wild Owl and Turner Petersen hit 7-11-74. This year Fanuzzi departs (4 st) and battling McHargue will be rFr Driphus Jackson (PS#110), Michael Poynter, Guy Billups (6'0" 180 rFr, PS#169) and 2 true frosh. Rice's numbers were not bad last year at 197 ypg (58%, 15-7) and could be just as strong this year.

RUNNING BACKS - In '09 Rice's top RB had just 491 (5.1). In '10 I projected Michigan transfer Sam McGuffie (PS#7) as my preseason CUSA 2nd Tm RB despite not playing a single down for Rice and he did not disappoint. He led the Owls in rushing with 883 (4.5) and also in rec's with 39 (384 yds, 9.8). True frosh Jeremy Eddington, who Bailiff hoped to RS, led in rushing for each of the last 3 games running the wildcat offense (#2, 365, 6.2). Tyler Smith added 279 (4.0). Last year everyone ret'd but McGuffie was banged up and even played some slot WR (158, 4.2). Smith led with 860 (5.5) while Petersen, who ran the ball out of the Wild Owl as well as TB, had 485 (4.8) and Eddington added 62 (2.5). This year they lose their top guy in Smith and McGuffie was working at slot WR in the spring but could return here full time if needed.

RECEIVERS - Last year Rice returned their top 2 rec's in TE Luke Willson (425, 12.9) and 6'5" WR Vance McDonald (396, 14.1). Willson's numbers dropped a little to 313 (10.8) and McDonald was #1 with 532 (12.4). RB Smith was #3 and rFr Mario Hull was #4 with 181 (10.6). This year they lose Randy Kitchens (7 st, 177, 11.1), Michael Pattersen (1 st, 2 rec) and TE Brent Hotard (2 st, 3 rec) but have 9 of their top 10 back and could add in RB McGuffie on a full-time basis. Also adding speed to WR are some solid frosh and that is why I feel they'll have improved numbers this year.

OFFENSIVE LINE - In '09 Rice had to replace a pair of 4 year st'rs and with just 2 st'rs back (31 car sts, #108 FBS), they slipped to 109 ypg (3.2) with 30 sks. In '10 all 5 st'rs were back but they lost their LT and C for 4 gms each to injury. The unit had 91 car sts and improved to 159 ypg rush (3.9, 27 sk). LY they had to replace their LT (3Y st'r) but had 8 of their top 10 back (109 car sts). I called it Bailiff's best O-line in his 5 yrs but despite having 4 full-time Sr st'rs, the stats were similar (151 ypg, 3.9, 21 sk). TY the losses are heavy. Gone are 3rd Tm CUSA LT Jake Hicks (12 st, 4Y st'r), RT Tyler Parish (8 st, 3Y st'r), C Eric Ball (8 st, 2Y st'r), LG Davon Allen (12 st, 3Y st'r) and C Keshawn Carrington (5 st '11, 20 sts '09-'10). The unit drops to last in the FBS w/15 car sts ret but did not play up to their level of exp LY and they add in a VHT (PS#92JC).

DEFENSIVE LINE - In '10 Rice appeared to have 9 back w/st exp but then lost two '09 st'rs prior to the ssn including their star, DE Scott Solomon. DE Cheta Ozougwu earned 1st Tm CUSA and despite the unexpected losses, they improved to allowing 145 ypg (4.1) but had just 14 sks. LY they had to replace Ozougwu (12 st, #7DC) and a starting DE but got a stronger Solomon back (38 reps 225) and Bailiff said "We are better because he is back." Solomon st'd all 12 so it surprised me that the numbers slipped to 183 ypg rush (4.8, 21 sk). TY they lose 2nd Tm CUSA Solomon (55 tkl, 8.5 sk, 5 tfl, #7DC TEN), NT Michael Smith (12 st, 23 tkl, 4 tfl) and NT John Gioffre (12 st, 22 tkl, 1.5 sk). They do have 5 of the top 8 back but the leading returning DL had just 1 sk LY. While the numbers probably won't drop much, this unit is clearly less exp'd and talented.

LINEBACKERS - While Rice plays a 4-2-5, I list the SS here as it is the closest of the 3 S's to a LB. In '10 they had to replace their #5 tkl'r but then lost 2 st'rs midseason. They still managed to improve from allowing 43.1 ppg to 38.5. LY they had to replace 2 st'rs (#7, #8 tkl'r) and 2 bkps (20 tkl). They ret'd their #4, #6, #9 and #10 tkl'rs but Trey Briggs (9 st, #6 tkl'r '10) RS. Surprisingly LSU transfer Kyle Prater (PS#40) who made a name for himself on the scout tm in '10, had just 19 tkls. Soph Cameron Nwosu (PS#153) became the first Rice LB to top 100 tkls (108) since Brian Raines in '07 and also added 2 FR td's (3rd Tm CUSA). TY they lose Justin Allen (12 st, #2 tkl'r, 10.5 tfl) and Matt Nordstrom (25 tkl) while 2 of the 3 who split time at SS move to KAT and FS which leaves Tanner Leland (2 st, 43 tkl) to man the spot. They basically have 2 st'rs back (Briggs ret's) and Prater should finally live up to his VHT billing.

DEFENSIVE BACKS - Rice finished just #118 in my PDR in '09. In '10 they had to replace their #2 tkl'r but had 6 of their top 8 back. The more experienced unit only moved up to #115 (62%, 34-6). Travis Bradshaw was 2nd Tm CUSA and the #2 tkl'r while KAT Corey Frazier was the #1 tkl'r with CB Phillip Gaines #3. Last year the top 8 all ret'd but they lost FS Bradshaw in Aug and a bkp (4 st) transferred. Still, they had 3 st'rs back while newcomer Bryce Callahan earned 2nd Tm Fr AA and they moved up to #96 (61.7%, 32-13). TY they lose FS Xavier Webb (12 st, #4 tkl'r) and CB Chris Jammer (11 st, 28 tkl, 3 pbu) but I think Rice should move up in my PDR again.

SPECIAL TEAMS - Rice was #86, #116, #92 and #66 in my ST rankings prior to '10. RFr K Chris Boswell tied a Rice rec with 4 FG vs NT hitting 11-17 (L50). P Kyle Martens (PS#38) improved the team net from 38.2 to 39.9 (#6 FBS) and was the first Owl to be honored by the AFCA s/'91. Rice moved all the way up to #21 and LY had everyone back. Boswell had a 60 yd FG that bounced off the crossbar against NW. He also had crucial 54 (3rd long schl hist) and 51 yd FG's into a strong wind vs Tulane. He hit 17-21 FG with his 17 tying Rice's single season record (James Hamrick '85). LS Trevor Gillette was perfect on 131 snaps while Martens avg 43.6 (39.7 tm net). They were +2.8 yds on PR and -2.0 on KR. Overall Rice finished #60. TY they lose Martens. I have Boswell preseason 1st Tm CUSA, and they should finish in the upper half of my ST rankings.

COACHES - In '06, Todd Graham took over for 12Y HC Ken Hatfield and made the switch from the wishbone. He took a 1-10 tm to its first bowl in 45 yrs but left after one season. Rice got its 3rd HC in 3 yrs in David Bailiff, who spent the prior 3 seasons as the Texas St HC (21-15). In his 2nd yr he led Rice to 10 wins (most s/'49). John Reagan became the 4th OC in 4Y in '10 but is now in his 2nd yr and was previously at Kansas (run gm coor '05-'09). Bailiff replaced a 5Y DC by promoting Chris Thurmond. He was the DB cch LY and was also DB cch at Kentucky ('08-'10) and Houston ('06-'07).

PHIL'S FORECAST

The Owls had just 6 winning seasons s/'61 with Ken Hatfield being responsible for 3 in his 12 yrs here. In Hatfield's final year they were -17 in turnovers and had 29 of their top 44 being either frosh or soph (just 10 Sr's). Todd Graham stepped into a great situation and with QB Chase Clement and WR Jarrett Dillard they got to their first bowl s/'61 going 7-6. Rice is the 2nd smallest FBS school with undergrad enrollment of under 4,000. They tried to fill their 70,000 seat stadium but in '05 avg just 10,072. In '06 the Owls refurbished Rice Stadium and reduced the capacity to 47,000 adding a new $1.1 million FieldTurf surface which kept them healthier after playing on rock-hard artificial turf. In HC Bailiff's first year they slipped to 3-9. In '08 with Clement and Dillard both Sr's, Rice had another magical year at 10-3. They were 7-1 in CUSA but just +21.3 ypg. That '08 squad had 22 Sr's and benefitted from +15 in TO's and 3 net close wins. In '09 they lost Clement, Dillard and their top RB and as expected, Rice dropped to 2-10. In '10 they ret'd 24 of their top 26 tkl'rs, had 9 st'rs back on offense and added Michigan transfer Sam McGuffie at RB. As expected, the Owls improved, doubling their win total to 4-8. Last year Rice lost only 6 players from '10's final wk depth chart and had avg 46 ppg and 512 ypg their final 3 gms. They had 16 st'rs back but their non-conf slate featured 4 AQ schools. After losing to Texas, Rice knocked off Purdue, blocking a 31 yd FG at the end and opened 1-1. They held Memphis to 2 FG's, the first time they allowed 0 td's s/'95 and started 2-3. Rice fumbled at their own 23 with 3:31 left (up 3) vs Marshall and QB McHargue was inj'd in the 4Q and they had just 20 yds in the 7 plays after his injury. After expected losses to Tulsa and Houston, Rice was 2-6 and had to win out for a bowl. They had 671 yds (3rd most schl hist) vs UTEP and won 41-37 but lost by 22 at NW. In the FHG for 25 Sr's, they got past Tulane 19-7 getting a 54 yd FG with :11 left 1H into a strong wind. In the season finale vs SMU, they were outgained 216-63 at the half but led 17-14 in the 4Q (lost 27-24) to finish an identical 4-8. TY the team is much less exp'd with just 10 st'rs back and despite their poor record they were +8 in TO's LY and -67.6 ypg in CUSA play (4th weakest). The non-conf slate is more manageable and HC Bailiff had his contract extended through 2013. Still this looks like a rebuilding year and topping LY's 4 win total will be tough.

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Believe it or not, Tulane sent 4 consec QB's to the NFL in Shaun King, Patrick Ramsey, JP Losman and Lester Ricard, who left after '06. Three QB's comb to hit just 51% in '07, their lowest s/'96 (49%). TU improved to 56% in '08 then in '09 rFr Ryan Griffin started the final 6 (1382, 64%, 9-6). In '10 Griffin threw for 2,371 (60%, 14-8). LY he ret'd but his #'s dropped a little partially due to the inexp'd receiving corps which had numerous drops and ran wrong patterns. Griffin threw for 2,502 (55.6%, 13-10). DJ Ponder (6'2" 199 Sr, PS#253) played in 7 (18-48-214). In the mix TY are Ponder, Nick SanGiacomo (6'3" 209 rFr, PS#79), Jordy Joseph (5'9" 184 So, PS#534) and true frosh Devin Powell (PS#239). HC Johnson says Powell brings something else to the offense (reminds him of Michael Vick). This unit could feature a 4 year starter or a true frosh.

RUNNING BACKS - Bob Toledo liked to have one feature RB and he inherited a great one in '04 in 225 lb Matt Forté (4.45 speed). Forté was the leading rusher for TU from '04-'06 but his highest total was 859 (5.3) in '06. Toledo saddled up and rode this workhorse in '07 as Forté rushed for 2,127 (5.9) with 23 td's (#2 DC). In '08 André Anderson (PS#110) had 864 (5.0) but missed the final 5 games (inj). Anderson remained healthy in '09 and rushed for 1,016 (4.3, #3 rec). Showing Toledo's workhorse mentality, WR Jeremy Williams was the #2 rusher (38 att). In '10 they had to replace Anderson but Orleans Darkwa had 3 td's in the opener (most for TU Fr in a gm s/Forté). Darkwa runs in a lot of heavy package formations as he is physical at the point of attack and can run through arm tackles. He broke Mewelde Moore's frosh rush rec (890) with 925 (5.0) and had 5 consec 100+ gms. Albert Williams had 370 (4.3) in 4 sts. Darkwa had a toe injury at the start of LY and was never 100% but he did lead in rec's with 37 (8.2) and rushing with 924 (4.4). Williams rushed for 281 (4.6) but had fumble problems and dropped to #3 after Memphis. True frosh Robert Kelly (PS#173) had 332 (4.5) and true frosh Dante Butler had 68 (11.3) before being susp'd the final 3. Not listed in the PSL below are Derrick Strozier (5'8" 179 Jr, 8 sts DB LY) and FB's Stephen Barnett (6'0" 209 Sr, PS#251) and Taylor Bullock (6'2" 225 So, PS#168QB). They lose FB Kasey Stelly (2 st) and Williams. If Darkwa remains healthy, I look for significant improvement in the Tulane rush offense.

RECEIVERS - Last year Tulane had to replace 4 of their top 5 rec's and then their top returnee, Ryan Grant (515, 15.6 in '10) was inj'd in the opener and OFY. The inexp'd receiving corps featured dropped passes and ran wrong routes. Soph Wilson Van Hooser led with 487 (13.5) while true frosh Justyn Shackelford (PS#308) was #2 with 404 (13.0). Converted QB Joe Kemp, who had 154 (11.0) in '10, had 272 (9.7). True frosh Xavier Rush came into the Syracuse game with 1 career rec but had 2 td's in that game and finished with 338 (14.1). This year they only lose Kemp (13 st) making this unit much more experienced plus they have added talent with the return of Grant.

OFFENSIVE LINE - In Toledo's first year ('07) the O-line paved the way for 201 ypg (4.9) with 19 sks. They never came close to those numbers in his last 4 yrs. In '10 Tulane had 4 starters back (87 car st) and I called for their best numbers in 3 years, which they achieved (barely) improving to 128 ypg (3.5) with 28 sks. Last year they had to replace a 2nd Tm CUSA LT (3Y st'r) and their C (4Y st'r). They dropped to 62 car sts but despite losing 2 long-time st'rs, they had 3 starters back and I said they could improve. Tulane cut the sack total to 23 (5.0%) and increased the ypc to 3.8. This year the Green Wave lose C Joey Ray (13 st), RG Emmanuel Aluko (13 st) and LT/LG Harris Howard (13 st, 3Y st'r) so they have just 2 full-time starters back although the career starts only dropped to 50.

DEFENSIVE LINE - Tulane had a veteran DL in '07 and allowed 133 rush ypg, their lowest ypc (3.9) s/'97 (3.8). In '08 they had to replace 2 DT's (83 car st). The numbers still surprised me as they yielded 218 ypg and their 5.7 ypc was their worst in over 20 yrs. In '09 they only had to replace 1 st'r but only improved to 205 ypg (4.9, 15 sk). In '10 TU had to replace 3 st'rs but had 5 of their top 8 back incl 6 w/st exp and added Iowa transfer Dezman Moses (susp first 2). Despite having just 1 st'r back, TU improved to 196 ypg (5.0, 25 sks). Last year they had to replace a 1st Tm CUSA DT and 2 bkps (comb 3 sts, 11 tkl). With 3 st'rs back, it looked like their best DL s/'07 and Cedric Wilson bulked up to 300 lbs (600 squat). Tulane did indeed have their best rush D numbers s/'07 (165 ypg, 4.6, 27 sks). This year they lose 2nd Tm CUSA DE Moses (13 st, 52 tkl, 9.5 sk), DT Chris Asumnu (12 st, 20 tkl, 1.5 tfl), DT Wilson (13 st, 20 tkl, 2 sk), DE Josh Smith (13 tkls) and DT Shane Delery (6 tkl). They drop to 1 ret st'r and lose their top 2 DL's. The Green Wave have improved their def rush numbers the last 4 yrs but it will be very difficult to extend that to 5.

LINEBACKERS - In '10 TU had to replace their #2 and #7 tkl'rs and moved SLB Shakiel Smith (#4) to FS. While they had zero starters back, they brought in Duke transfer Trent Mackey who lived up to his PS#60 VHT billing earning 1st Tm CUSA (#1 tkl'r). All 3 st'rs ret'd LY. Surprisingly, TU yielded 37.5 ppg, their highest s/'01. Then-DC Steve Stanard did say that Mackey is probably one of the best effort guys on the team and it showed, as he led again with 145 tkls (4.5 sk, 9.5 tfl) earning B2B 1st Tm CUSA. The #2 tkl'r was 76 tkls behind! TY the unit's only loss is Steven Funderburk (13 tkl) and even though the DL is less exp'd, they could see their best numbers in a decade.

DEFENSIVE BACKS - When Tulane had super CB Lynaris Elpheage they finished #11 in my PDR ('02) but from '03-'09 finished #65, #96, #93, #106, #116, #84 and #116. In '10 they had to replace 2 starters but moved Smith to FS so it was like having 3 starters back. It still surprised me that Tulane improved to their best finish since '02 at #48 in my PDR (54%, 21-10). Last year they had to replace 2 st'rs who were 1st & 3rd Tm CUSA. Even with Tulane's poor record, they still were a respectable #64 (61.6%, 20-12) playing in the high flying CUSA. This year they lose Taylor Echols (2 st, 14 tkl) and CB Jordan Sullen (12 st, #7 tkl'r, 10 pbu) but return 7 different DB's who earned sts last year and add WR Brandon LeBeau (4 st). While they probably won't move up much in my PDR, it is a more experienced group and they add in VHT Darion Monroe (PS#47) who de-committed from Texas A&M.

SPECIAL TEAMS - This has clearly been a weakness for Tulane as they were #110 in my ST rankings prior to Toledo then finished #114, #107, #118 and dead last in '10 at #120. That '10 unit had to replace their P, K and top KR. LY they brought in a new long time ST coordinator John Hendrick and had a veteran unit. They surprisingly were only #116. True frosh Robert Kelly had 213 yds on 7 KR in the opener topping Jeff Liggon's record of 171 in 1996 then set a Tulane single season record for number of KR with 64 for 1,305 yds (20.4). Cairo Santos hit 13-16 FG (L39) as a true and last year slipped to 11-18 (L49) with six misses from 40+. P Jonathan Ginsburgh numbers were similar (33.8 net '10, 34.7 tm net last year). This year all of the key players return and I'm not exactly going out on a limb here, but I'll call for their best ST finish since '03 (#40).

COACHES - Tommy Bowden left after a 12-0 season in 1998 and it's been a struggle since. Tulane hopes to piggyback the Saints excitement with the hire of New Orleans native and Saints' WR cch Curtis "CJ" Johnson. Prior to spending the L6Y in the NFL he spent 10 seasons as the WR cch for Miami, Fl. The OC is Eric Price who was in the same role at Memphis ('10-'11) and for his Dad at UTEP ('04-'07). The co-DC's are Jon Sumrall (U of San Diego L5Y, DC L/2) and NFL vet and alum Lionel Washington (12Y DB cch GB & OAK).

PHIL'S FORECAST

Only one coach s/'82 has had consecutive winning seasons here (Tommy Bowden '97-'98). Bob Toledo took on a tough schedule his first year and the team showed improvement on the field but kept the same 4-8 record. Tulane went from -118 ypg (CUSA in '06) to -14 ypg in '07 winning 1 more conf game. In '08 they had to replace their outstanding RB Matt Forté (2,127 in '07) and had their moments but then lost their top WR and RB midseason (inj) and their 10 losses tied a school record. They had just 13 ret sts in '09 but still managed to improve to 3-9 going from -128 ypg in CUSA play to -92. Toledo spoke of the lack of home field advantage with sparse crowds saying "it's like going to practice sometimes." In '10 they had just 11 ret sts but in '09 were -16 in TO's (pg 322). The Green Wave showed improvement again to 4-8 and were actually +3.4 ypg in CUSA play, their first positive yds s/'00! That squad did benefit from 3 net close wins (pg 309) so even with a more veteran unit LY (14 ret sts), Tulane's record actually got weaker. They scored their most pts in an opener s/'98 beating SEL 47-33 and it was 3-3 vs Tulsa late 2Q but they lost by 28. TU was a DD dog at UAB but won 49-10 with a 540-193 yd edge to open 2-1. Surprisingly the Green Wave would not win another game. They lost at Duke 48-27 (trailed 31-10 half). On a 3rd straight road game, and having to face the option, they were routed 45-6 at Army. Syr did need a 21 yd FG on the final play to pull out a 37-34 win at Tulane (TU 471-356 yd edge). TU had a 229-184 yd edge at the half vs UTEP but trailed 31-7. HC Toledo was fired and Mark Hutson took over as interim HC. They lost to lowly Memphis in his first game, 33-17, despite a 459-289 yd edge. They dropped their last 5 games by 21, 21, 56, 12 and 12 pts being outgained by 185 ypg. TY former NO Saints WR coach Curtis Johnson takes over and inherits a good situation. Tulane has 14 ret sts, was -7 in TO's, had poor off (16.15) and def (10.95) ypp's and despite their 1-7 record in CUSA play, was actually only -51.7 ypg (7th best). I do expect Johnson to play a lot of big frosh recruits and with the coaching change, this is a rebuilding year but they could be favored in as many as 3 home games giving them a shot at topping LY's 2 win total.

TU has won the L/2 gms ('98 & '10). L/gm TU trailed 7-0 but later holding to a 3 pt lead got an int at their 24 w/:48 to stop a comeback. TU is 4-7 in home openers incl 0-7 in that span vs FBS tms.

TU's only win in this series was in '68. LTH QB Griffin had a career high 412 pass yds but TU trailed 24-7 at HT and then allowed td's on the first 4 drives of the 2H. TU has been outscored 146-34 in 3 trips to Tulsa.

Bonus: HC Curtis Johnson spent the L5Y as the WR's coach for the New Orleans Saints and prior to that was with Miami, Fl ('96-'05), Cal ('95), SMU ('94), San Diego St ('89-'93) & Idaho ('87-'88, alma mater).

TU is 6-33 vs Ole Miss incl 10 str losses by 17 ppg (last series win in '88). L/gm ('10) TU trailed 24-3 at HT never getting closer than 11 pts in the 2H. Into '12, TU has lost 5 str hosting BCS tms.

TU is 2-0 all-time vs ULM. The L/meeting was in '08, TU jumped out to a 17-0 lead and led 24-3 late 4Q before a garbage ULM td. Into '12, the Green Wave are 8-16 vs non-conf foes.

TU is 20-4 all-time incl 4 str wins by 33 ppg but the last game was in 2000 (TU 38-37). The Green Wave are just 1-4 away vs non-BCS teams the L7Y with the win at Army in 2009.

HC Johnson was the WR cch at SMU in '94. Home team is 3-1 the L4Y. LY the Green Wave trailed 31-0 at HT being outgained 286-51 and despite 24 3Q pts never got closer than 2 td's in the 2H.

Visitor is 2-4 in this series but has won L2Y. LTH saw 5 lead changes. Tied 24-24 mid-4Q TU went on B2B scoring drives as they int'd UTEP twice (one setting up GW td and the other in the EZ w/1:15 left).

LY's win snapped a series 2 gm losing streak. Gm was tied 7-7 late 1Q but TU scored 42 of the next 45 pts (39 & 55 yd IR td's). Into '12, Tulane is 4-16 the L5Y hosting CUSA foes.

The home team has won 3 str. LY the Green Wave trailed 13-0 into the 3Q. TU cut the deficit to 6 and had the ball w/6:36 but punted and allowed a 60/9pl td drive w/1:04.

TU is 2-10 all-time in Memphis including 3 straight losses (wins in '81 & '98). LTH ('08) TU trailed 31-0 in the 3Q being outFD'd 32-10 (-266 yds). TU has dropped 12 str Nov AG's by 24 ppg.

TU is 2-9 all-time vs EC incl 4 straight losses. Last year TU trailed 14-13 late 2Q but allowed the gms final 20 pts (had just 97 ttl 2H yds). Tulane is 1-3 in home finales.

The Green Wave L/series win was in Houston ('02). LTH TU trailed 21-0 but cut the deficit to 5 mid-4Q. After stopping UH, TU was int'd its next 2 drives (latter ret for a td) as UH went just 37 yds for 14 pts in a misleading final.

PHIL STEELE IS PROUD TO BE A PARTICIPANT ON THE VOTING COMMITTEE FOR THE LOTT IMPACT TROPHY

THE LOTT IMPACT TROPHY

The Lott Trophy was named in honor of Ronnie Lott – a two time All-American for USC and College Football Hall of Fame inductee. Ronnie Lott went on to win four Super Bowl rings with the San Francisco 49ers, made 10 trips to the Pro Bowl and earned a spot in the Pro Football Hall of Fame. Always known as a fierce competitor, he was a leader who had an IMPACT both on the field and off.

The Lott Trophy was established by The Pacific Club IMPACT Foundation to honor college football's Defensive IMPACT (Integrity, Maturity, Performance, Academics, Community and Tenacity) Player of the Year. The award is unique because it represents the first trophy to give equal weight to personal character as well as athletic performance. If you want to make an IMPACT and help restore personal character to American sports, make a tax deductible contribution to The Pacific Club IMPACT Foundation today. Call Karen Ringer at 949-428-0042 or visit www.lottimpacttrophy.com. We thank you for your support.

PHIL STEELE'S 2012 INDEPENDENT FORECAST

1. NOTRE DAME Brian Kelly had a streak of 6 straight years where he surpassed my magazine's expectations but during his years at ND, they are 0-2 in that category. The Irish do play a killer schedule with road games at Mich St, Okla and USC along with 2 home games vs teams that were in BCS bowls LY (Michigan, Stanford). They even have to endure a trip overseas to Ireland. Still, this team has 14 ret sts and is clearly the best Kelly has put on the field with a legitimate Top 20 offense and defense. I will call for them to achieve their most wins since 2006.

2. BYU This is a veteran BYU squad with 29 seniors and 14 returning starters. They finished LY on a roll winning their final 4 games and if QB Riley Nelson has his best season as a senior, they are capable of another DD win season despite having to face Utah, Boise St, ND and GT all on the road while drawing 2 Pac-12 teams at home.

3. ARMY Coming off a fortuitous bowl bid in '10, things did not go well for Army last year. They had won 5 road games (incl bowl) in 2010 but went 0-6 on the road LY and dropped to 3-9. TY they have 15 ret sts, were -9 in turnovers, and have a bevy of other indicators pointing upward (see Phil's Forecast pg 234). This team is superior to the 2010 bowl squad and I'll call for their 2nd bowl bid in 16 years.

4. NAVY Navy was very disappointing at 5-7 ending their streak of 8 str winning seasons. This year they are a more veteran squad with 13 ret sts and had 5 losses LY by a total of 11 pts but still ended up just 1 win away from bowl eligibility. Their 5 HG's this year are vs teams that were a combined 15-44 in '11 and the Middies make my Most Improved List which means they should make it back to the post season. Overall they play a tougher schedule than Army and that's why I call them 4th with the Cadets having a decent shot at ending Navy's amazing 10 straight wins in the rivalry.

Independent Notes: There used to be a large group of Independents in College Football back in the '80's with teams like Penn St, Pitt, ND, SCar, Miami (FL) and Fla St among the 40 current FBS tms that were an Ind at least 1 year s/'78 (yr switch to IA and IAA). BYU made this a 4 tm group LY but now Navy will be joining the BE in 2015 so they will shrink again. Army, Navy and BYU are all guaranteed bowl slots if they are eligible and this year I will call that for the FIRST time ever EVERY Ind team in the country makes it to a bowl!! ND plays both Navy (plays both ND and Army) and BYU while BYU and Army each only have 1 gm vs an Ind tm.

NOTRE DAME FIGHTING IRISH

TE Tyler Eifert

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 rFr Dayne Crist (PS#5) was Jimmy Clausen's bkp and had 20 att's, the unit's only exp into '10. HC Kelly was reluctant to call planned runs (a staple in the spread) due to the lack of exp behind Crist and his lack of mobility but Crist's 4 rush td's were the most here s/'99 (Jarious Jackson 7). Crist was having a fine season (2033, 59%, 15-7) when he was OFY early 1Q vs Tulsa (gm 9). Tommy Rees (PS#49) hit 33-54 vs the Golden Hurricane and became the first ND frosh to have 4 td's in a game. Rees would go 4-0 as a starting QB (1,106, 61%, 12-8) as two Irish QB's topped 1,000 for the first time s/'83. Rees avg 205 ypg in the L/5 while Crist had 254 ypg in his first 8 sts. LY they added the more athletic Kelly recruits Andrew Hendrix (PS#12) who was impressive on the scout team in '10 and true frosh Everett Golson (PS#20). Hendrix may have the most complete skill set among the 4 QB's and Golson is the most explosive athlete. Crist won the job in Aug but when ND trailed USF 16-0 at HT in the opener, Kelly went with Rees who started the rest of the year. Rees threw for 2,871 (65.5%, 20-14) but has struggled with TO's despite his 12-4 career record as a st'r. Hendrix (249, 48.6%, 1-2) played the 2H vs Stanford and led a pair of scoring drives and was brought in as a change of pace QB in the bowl. Crist opted to transfer (164, 63%, 0-1) and Kelly then signed PS#1 Gunner Kiel. Now in the 3rd year of Kelly's system, I look for by far the best production from this unit no matter which QB wins the job.

RUNNING BACKS - From '07-'10 the top RB had not come close to 1,000 yds with the highest total being 697 in '09. Cierre Wood (PS#4) was #1 in '10 with 603 (5.1). LY they had to replace their #2 and #3 rushers. Jonas Gray (PS#5) finally lived up to his potential with 791 (6.9) but tore his ACL vs BC (gm 11). His12 rush td's were the most s/'98 (Autry Denson). At midseason his 8.4 ypc was better than George Gipp's 91 year old rec of 8.1, but he finished with 6.9 which still was in the top 5. Wood (1102, 5.1) became the 10th Irish 1,000 yd rusher (first s/'06 Darius Walker). TY they lose Gray (4 st) but Theo Riddick will play both RB and WR. Not listed below are PS#13 USC transfer Amir Carlisle (5'10" 185 So) and Cameron Roberson (6'0" 218 So, PS#36). I'll call the unit down a notch with the loss of its most explosive player but there's talent across the board and they add in 2 more VHT true frosh.

RECEIVERS - In '09 I called the Irish the #1 rec corps in the country and the top 3 rec's were all #1 or #2 DC's. Golden Tate became the first Irish WR to win the Biletnikoff Award (1496, 16.1). Michael Floyd (PS#2) DNP in 5 (795, 18.1). TE Kyle Rudolph added 364 (11.0). In '10 they had to replace Tate (#2DC) and Floyd led with 1,025 (13.0). Rudolph (#2DC) was the nation's top TE but played in just 6 (328, 11.7, inj) and was replaced by Tyler Eifert who was #3 (352, 13.0). Converted RB Theo Riddick (PS#24) was #2 (414, 10.4) despite missing 4 and true frosh TJ Jones (PS#20) was #5 (306, 13.3). LY Floyd broke Tate's '09 ssn mark for rec's with 100 and was #1 (1147, 11.5). Eifert (803, 12.7) was a finalist for the Mackey Award and set the ND ssn record for rec's by a TE with 63 (Ken MacAfee '77). Riddick was #3 (436, 11.5) and Jones #4 (366, 9.6). I like the talent of this unit but with the loss of a player like Floyd(#1DC ARZ), who was the Irish's highest drafted player s/'94, I'll call it down a notch.

OFFENSIVE LINE - ND O-lines are usually loaded with VHT's but the OL stats haven't reflected it recently. In '07 they allowed an NCAA worst 58 sks (14.9%) and only avg 75 ypg rush (2.1). They showed some gradual improvement in '08 (110, 3.3, 22 sk) and in '09 (128, 3.8, 25 sks). In '10 they had to replace 3 multi-yr st'rs (105 sts lost) and learn new schemes. ND's numbers were similar (127 ypg, 4.0, 20 sks). LY they only had to replace one 3Y st'r. They had 9 of their top 10 back (63 car st) and the Irish's numbers (160 ypg, 4.8) were their best s/'01 while the 17 sacks allowed (3.6%) were the fewest s/'98. TY they lose RG Trevor Robinson (13 st, 3Y st'r) and RT Taylor Dever (13 st, 2Y st'r). While they drop from 4 to 3 ret sts, their 65 car sts surpasses LY and in the 3rd year of Kelly's system should be just as strong.

DEFENSIVE LINE - The D played well early in '09 but collapsed over the final 4 (263 rush ypg, 5.7) which dropped the season totals to 170 ypg (4.8). In '10 they switched back to the 3-4 and only lost 1 DL (7 st). They improved to 142 ypg (4.0, 27 sk) including just 92 ypg (2.9) in the last 4 yrs. LY they had 5 of their top 6 back and had the NCAA's best Fr DL class. Kelly said that Aaron Lynch, Stephon Tuitt, Troy Niklas and Louis Nix are physically imposing and get your attention right away. Lynch's 14 QBH were the most s/'06 (Victor Abiamiri 14). Four of their top 6 were frosh and the unit improved to 139 ypg (3.8, 25 sk). TY they lose DE Ethan Johnson (9 st, 14 tkl), DE Lynch (6 st, 33 tkl, 5.5 sk, April trans) and Niklas (1 st, 20 tkl) moves to TE. Even with the unexpected loss of their top pass rusher, this unit should impress again in the 3-4.

LINEBACKERS - In '09 the Irish had just 1 ret st'r (#5 tkl'r) to a new 3 man LB unit. True frosh Manti Te'o lived up to his PS#1 billing starting 9 with 57 of his 63 tkls (#4) in the last 8 games. In '10 they had to replace 2 LB (3 sts, 36 tkl) and ret'd their #2, #4 and #10 tkl'rs. They switched back to a 4 man group and Te'o led again (133, 9.5 tfl). The D improved to allowing 20.2 ppg (best s/'02). LY they had to replace their #7 and #10 tkl'rs but did have 2.5 st'rs back (#1, #5 tkl'rs). ND allowed 20.7 ppg. Te'o had some ankle issues and differences with Kelly so it was surprising that he opted to return passing up the chance to be a likely #1 DC. TY they lose OLB Darius Fleming (13 st, #5 tkl'r, 7 tfl, #5DC SF) and Steve Filer (PS#1, 5 tkl) but have 5 of their top 6 back (#1, #6, #10, #13). This group has 11 VHT's and should be one of the top LB units in the country.

DEFENSIVE BACKS - In '10 the Irish had to replace 1 st'r and they improved from #81 in my PDR to #37 (62%, 11-18). Last year they had 7 of their top 8 back and surprisingly only finished #73 (59.7%, 23-8). TY they lose S Harrison Smith (#2 tkl'r, 10 pbu, #1DC MIN), CB Robert Blanton (13 st, #3 tkl'r, 2 int, 6 pbu, #5DC MIN) and CB Gary Gray (13 st, #4 tkl'r, 2 int, 5 pbu). They did start 5 DB's often so despite the loss of 3 who each st'd all 13, they have 2 S's back with 10 and 8 sts (#7, #9 tkl'rs). Even though this unit is less experienced, they should improve in my PDR.

SPECIAL TEAMS - Charlie Weis' units finished #39, #64, #93, #30 and #74 in my ST rankings. Brian Kelly's ST units at Cincy were #21, #1 and #8, but #33 here in '10. LY it was surprising that a veteran unit dropped to #45. True frosh Kyle Brindza had a 65.3 KO avg, the best ever here and also made a td saving tkl vs Mich St on a KR. David Ruffer (10-16) became only the 2nd K here with at least 3 career FG's of 50+ (Harry Oliver). KR George Atkinson had 2 td's (avg 26.1), becoming the 1st Irish player with multiple KR td's in a ssn s/'97. In the reg ssn the Irish had as many muffed punts as they had in PR yds (3) ranking dead last in the FBS at 0.3 per PR. Ben Turk improved his avg to 40.3 (34.6 tm net). TY they lose Ruffer but should improve in my ST rankings.

COACHES - Brian Kelly who led Cincinnati to B2B BCS bowls incl a 12-0 reg season in '09 replaced Charlie Weis after the Irish went 16-21 from '07-'09. OC Charley Molnar ('10-'11) left for the UMass HC job. New OC Chuck Martin coached under Kelly at Grand Valley St and was the HC there from '04-'09. He coached DB and S's his first 2 seasons here. DC Bob Diaco led a Cincy defense with 1 ret st'r in '09 to 110 tfl (#3 FBS). Prior to that he was the LB/ST cch at Virginia (3 yr). Diaco was named asst HC TY and will be co-DC along with Kerry Cooks (LB cch LY) who was previously at Wisc (DB cch '06-'09).

PHIL'S FORECAST

In '05 Charlie Weis stepped into a great situation as he inherited 10 ret sts on offense and led the Irish to a BCS bowl (Fiesta). Weis was named the FWAA COY. In '06 the Irish opened at #2 (AP) and got to 10-1 but then lost to #3 USC by 20 and to #4 LSU by 27 in the bowl. They also had a 26 pt home loss to Mich. With 9 ret sts and a true frosh QB in '07, it ended up being a record breaking year for all of the wrong reasons. ND opened the season 0-5 (all 5 by DD) and finished 3-9. Nine true frosh started at some point. In '08 the Irish were my #1 MIT and went from a losing season to a bowl but blew a DD lead 3 times. They did get their first bowl win s/'93. Heading into '09 their 15 losses the previous 2 yrs were the most in ND history. They went just 6-6 and got rid of Weis who actually had a weaker win % than Bob Davie and Ty Willingham. All 6 of the Irish's losses were by 7 or less. In '09 at UC Brian Kelly became the first FBS HC to surpass my magazine forecast for 6 str yrs. That streak stopped in '10 as I expected a DD win season here. The Irish did improve to 8-5 (best in 4Y) and LY Kelly had a veteran squad with 17 ret st'rs. I mentioned they could be favored in their first 11 games and they were. Expectations were high and with a manageable schedule, I listed them in my Top 10. They had an amazing 508-254 yd edge vs USF but lost 23-20 due to -5 in TO's incl a 96 yd FR td. It was Mich's first ever night HG and the Irish led 24-7 (410-141 yd, 22-5 FD) going into the 4Q. Denard Robinson's 16 yd td pass with :02 left gave UM the miracle comeback as ND lost 35-31. The Irish then beat Mich St 31-13, got past Pitt 15-12 (398-268 yd edge) then waxed Purdue and AF to move to 4-2. They had the situational edge vs USC as they were off a bye, for a night HG while catching USC in a P12 sandwich with Stanford on deck. USC led 17-10 but ND was poised to get back in it when Crist fmbl'd a snap at the USC1 and it was batted back and ret'd for a td. USC won 31-17 with a 443-267 yd edge. ND got expected wins over Navy, WF, MD and BC although they only beat WF by 7 and BC by 2 but were +140.5 ypg in those contests. They were dominated by Stanford 28-14 and blew a 14-0 2H lead in the bowl loss to Fla St. The Irish finished 8-5 once again. TY ND does have 14 ret sts and was -15 in TO's LY. Despite their killer schedule, I will call for their most wins here s/'06.

ND is 6-1 vs PU incl 4 str wins by 15 ppg. LY ND outgained PU 342-92 (28-0) coming out of the locker room (1 & 3Q's). The Fighting Irish are 12-4 in home openers (3 of 4 losses by 7 pts or less).

L/time ND beat MSU in B2B yrs was '93 & '94. Visitor has dropped 4 str (7 str wins prior). LTH ND blew a 4Q lead and in OT up 3 all'd MSU to fake a 46 yd fg (4&14) which turned out to be a GW 29 yd td pass.

ND is 1-5 vs UM incl 3 str losses, all by just 4 pts each. LY ND led 24-7 into the 4Q. With :30 left ND was up 31-28 but allowed UM a 64 yd pass (on 2&10) and a GW 16 yd td pass w/:02 for a stunning loss.

Bonus: Into 2012, the Fighting Irish are just 17-16 since 2007 at ND Stadium.

ND won the L/reg ssn gm in '90 and the L/meeting in the '10 Sun Bowl. ND had a 27-0 lead in the 1H and after 3Q's had a 325-214 yd edge. HC Kelly is 11-4 in his career after a bye week (0-2 LY).

27th meeting & 16th str season. Prior to '08 ND never had a losing streak but has dropped 3 str by 15 ppg. LY ND trailed 21-0 at HT being outgained 300-85. LTH SU's Marecic scored off & def td's :13 apart.

HT has won 3 str (all S/'03). In the L/meeting ('05) the Irish won 49-23 w/a 511-392 yd edge. ND only led 28-23 w/5:38 3Q but went on B2B td drives & put the gm away w/a 83 yd IR td w/9:24 left.

Notre Dame's only series loss was in 1956. LTH ('66) ND pulled the shutout 38-0. Into 2012, the Fighting Irish are just 2-13 their L/15 gms vs ranked foes and 9-14 their L/23 'true' road gms.

ND is 14-4 vs Pitt since 1988. LY the Irish trailed 12-7 into the 4Q but limited the Panthers to just 53 4Q yds (2.8 ypp) as they went on an 85/11pl td drive w/6:48 (6 yd td pass on 2&gl).

ND had lost 6 str from '01-'08 but is 3-0 L3Y. LTH ND led 21-0 early and shutout BC in the 2H (allowed just 116 yds, 93 on L/2 poss). The tms have combined to avg 32 ppg the L4.

LY was the schools 1st game. Notre Dame trailed 17-10 at HT but limited WF to 92 2H yds scoring the GW td w/9:04 3Q. ND is 9-3 in home finales but just 2-2 the L4Y.

ND is just 4-12 S/'96. LTH ND down 3 went 77/7pl for a GW td w/2:23 left. Irish had the "luck" on their side as USC dropped a sure td pass at the ND15 & 4 plays later were int'd at the ND1 w/:36 left.

BYU COUGARS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - When I think of BYU I think of great QB's. Ariz St transfer Max Hall (PS#52) left in '09 as the MW career pass leader and his 32 wins topped Ty Detmer. Riley Nelson (PS#65) is not your prototypical BYU QB as he is an undersized running QB who lacks a powerful arm. He started 7 at Utah St in '06 (925, 55%, 6-7) sparking what was then a moribund offense. After a MSN Nelson hit 7-10 in '09 (122 rush) as Hall's bkp. HC Bronco Mendenhall alternated Nelson and true frosh Jake Heaps (PS#2) in '10 before Nelson, who st'd 3, was OFY. Heaps (1-6 ratio after 7 gms) had a 14-3 ratio over the final 6. Heaps threw the lowest total (2316, 57%, 15-9) for a BYU passing leader since Matt Berry in '03 but still set every BYU frosh passing record and was the clear-cut starter heading into '11. Heaps st'd the first 5 but struggled and Nelson led the comeback win vs USU and the job was his. Nelson suffered a partially collapsed lung in the 1Q vs Idaho and Heaps led the win. Heaps started vs NMSt (21-36-238) but Nelson ret'd vs Hawaii (25-37-363). Heaps (1452, 57.1%, 9-8) transferred prior to the bowl and Nelson finished with 1,717 (57.4%, 19-7). Backing up Nelson (8-1 as st'r LY) are James Lark (PS#58, 4-9 pass 2 yr), Taysom Hill (6'2" 210 Fr, PS#26, orig Stan) who ret'd from a mission and was IFS, Jason Munns (PS#23) and Alex Kuresa (5'11" 180 rFr, PS#68). Like LY, BYU has a clear-cut starter but should have improved stats.

RUNNING BACKS - Harvey Unga (1227, 5.0) not only broke the BYU frosh rushing record (733) but also the MW frosh record in '07. In '08 his stats dipped a bit to 1,132 (4.7). True frosh JJ Di Luigi (PS#94) was compared to LaDainian Tomlinson but had just 48 (3.7). In '09 Unga was rarely 100% during the year but still topped 1,000 for the 3rd straight year (1087, 5.2). Di Luigi had 248 (5.5) and Bryan Kariya (118 all-purp vs Okla) had 199 (3.6). In '10 Unga left BYU after spring (#7DC supp draft). Di Luigi led with 917 (5.2), Kariya added 537 (3.9) and Josh "Juice" Quezada had 505 (5.1). The trio avg'd 151 ypg rushing in '10 but just 61 ypg after 3 gms LY. In fact, Michael Alisa (3 att 1st 5 gm) became the featured RB and rushed for 455 (5.4). Di Luigi led with just 584 (5.0) while Kariya (4.0) and Quezada (3.5) both had 298 yds. TY they lose Di Luigi (7 st) and Kariya (3 st) but I look for improved production from the RB's.

RECEIVERS - In '10 this unit was plagued by dropped passes, failure to separate and uneven blocking. A RB led the team in rec and the top WR was rFr Cody Hoffman (527, 12.5) with 137 and 3 td's in the bowl. McKay Jacobson (PS#38), who had 547 (19.5) in '06, was the team's top deep threat in '09 (24.2) but was just #2 (556) as he missed 4 (inj). Surprisingly Jacobson was #3 in '10 (410, 11.1). LY they had a much more exp'd unit and even added rFr Ross Apo (PS#30). The unit lost its top 3 TE's to injury but the WR's had unusual size and speed for BYU. 6'4" soph Cody Hoffman led with 943 (15.5) and 6'3" Apo was #2 with 453 (13.3). Not listed below are WR's Mitch Mathews (6'6" 215 rFr, PS#92), Dalin Tollestrup (6'1" 182 Sr), Rhen Brown (5'10" 178 Sr) and TE's Mike Edmunds (6'4" 215 Fr, PS#181), Devin Mahina (6'6" 245 So, PS#32) and Kaneakua Friel (6'5" 244 Jr, PS#97) who made 1 st LY. TY they only lose Jacobson (9 st, 323, 12.9) and I really like the size/speed combination of Hoffman and Apo.

OFFENSIVE LINE - In '09 BYU's lone ret st'r, Matt Reynolds, fractured his hand in Aug. Surprisingly the young O-line (23 car sts, #117 FBS) opened holes for 146 ypg rush (4.0, 23 sks). In '10 they had 9 of the top 10 back (66 car sts). The numbers improved to 168 ypg rush (4.2) with 4.9% sks. Last year they had 4 st'rs back including LT Reynolds who turned down the NFL but the numbers were similar (160 ypg, 4.2, 3.7% sks). This year they lose Reynolds (13 st, UFA CAR, schl record 52 consec sts), C Terence Brown (13 st, 3Y st'r) and LG Marco Thorson (3 st). The OL was decimated in spg as they had 9 players on the injury report. They go from 107 car sts to 77 but should come close to LY's numbers.

DEFENSIVE LINE - In '09 BYU ret'd almost the entire 2 deep and improved to 110 ypg rush (3.4). In '10 they had to replace 2 st'rs then ret st'r Romney Fuga was lost after 4 (ACL). The less exp'd group didn't do bad all'g 139 ypg (3.9, 24 sks). LY they had to replace a 1st Tm MW DE but got back Fuga and added USC transfer PS#5JC Hebron Fangupo (330 lbs). DE Matt Putnam was not cleared until late so they had basically 2 st'rs lost but still improved to 112 ypg (3.7) with 24 sks. TY they lose 2nd Tm Ind Fangupo (10 st, 26 tkl, 6 tfl), DE Putnam (6 tkl, 2 tfl), DE Graham Rowley (1 st, 16 tkl, MSN) and their bkp (12 tkl, MSN). They ret 2 st'rs plus get back Russell Tialavea (PS#51, 26 st '06-'09) and Ian Dulan (17 st '06-'08). They also add a VHT PS#32 true frosh Bronson Kaufusi and Simote Vea (5'11" 270 Sr) was granted a 6th yr. I'll call for continued improvement despite losing a top-notch DL.

LINEBACKERS - In '10 BYU had just 10 car sts ret (Jordan Pendleton). Mendenhall thought BYU was better vs mobile QB's due to depth at OLB. Pendleton was OFY after 5 sts but surprisingly BYU all'd just 21.6 ppg. LY they had to replace a 3rd Tm MW MLB (#2 tkl'r) then Jadon Wagner made himself eligible for the CFL draft. Wagner changed his mind and they added USC transfer Uona Kaveinga (PS#36). Kyle Van Noy (PS#38) was the only player in the country with a stat in every D column plus a blk'd K and FR td. Despite a much more exp'd group the ppg was similar (20.4). TY they lose WLB Wagner (6 st, #9 tkl'r, 2 sk), SLB Pendleton (7 st, #11, 4 sk) and SLB Jameson Frazier (6 st, #12, 2.5 sk). While they lose 19 sts from LY, they return the top 3 LB tkl'rs (#1, #2, #4) so I'll call them as having 3 st'rs back and this is one of the better LB corps in the country.

DEFENSIVE BACKS - After B2B top 20 finishes, BYU plummeted to #93 in my PDR in '08. They had to replace 2 st'rs in '09 but still moved up to #33. In '10 they only lost 1 st'r (#3 tkl'r) but did lose a FS after 3 sts. BYU still moved up to #25 (53%, 20-16). LY they had to replace 3 st'rs (1st and 3rd Tm MW) and the unit was my only concern on the '11 squad. Surprisingly BYU moved up to #17 (57.9%,13-13). TY the Cougars lose CB Corby Eason (13 st, #7 tkl'r, 14 pbu), FS Travis Uale (13 st, #6 tkl'r, 3 int, 4 pbu) and Carter Mees (15 tkl). While they may not top LY's PDR, they have 1 more ret st'r than '11 which means more experience.

SPECIAL TEAMS - Mendenhall's first unit finished #100 in my ST rankings and I called for them to be one of the most improved ST units in '06 and they were #20. They were inexp in '07 and dropped to #60. In '08 everyone was back (#26). In '09 (#69) and in '10 the unit ret'd intact. O'Neill Chambers became BYU's all-time leader in KR yardage (1612) passing Mike Rigell ('98-'01). K Mitch Payne set BYU's record for most career and consec PAT's with 162. He also passed his brother Matt for first all-time on the MW career K pts list. Payne hit 17-21 FG's (L48). LY they ret'd P Riley Stephenson and he avg'd 42.2 (37.0 net). Justin Sorensen (PS#1) had 17 TB on 67 KO and hit 15-25 FG's (3 miss 50+). BYU moved from #43 to #33. KR Cody Hoffman (27.1 in '10) reset Chambers' record avg 24.4 incl a 93 yd KR td vs UCF (1st here in 13Y). With everyone back, they could improve.

COACHES - Bronco Mendenhall was the DC under Rocky Long at New Mex for 5Y prior to coming here in '03 as the DC. The Cougars went 6-6 in his 1st yr as HC ('05) but have gone 60-18 since incl three 11 win seasons. QB cch Brandon Doman (8th yr here) took over as OC in Jan '11. He admitted that he tried to be too complex LY and simplified the scheme this spg. Mendenhall started as his own DC, but in '08 relinquished those duties. After 5 gms in '10 (all'd 28.8 ppg) Mendenhall again took over as DC (held 11 of L/16 reg ssn opp's to 17 pts or less).

PHIL'S FORECAST

When Gary Crowton took over in '01, it was a dream yr as BYU piled up 44 ppg, 524 ypg and was 12-0 lobbying for a BCS bowl berth. After losing their bowl, BYU finished 12-2 (#25). BYU then had 3 consec losing yrs! Bronco Mendenhall took over in '05 and they went 6-6. The next 4 yrs BYU finished 11-2 (#16), 11-2 (#14), 10-3 (#25) and 11-2 (#12) and were 29-3 in the MW including 8-0 in both '06 and '07. In '09 they knocked off #3 Okla (1st win vs top 10 s/'90) and moved as high as #7 but lost to Fla St and #10 TCU and landed in their 5th consec Las Vegas Bowl. In '10 BYU lost RB Unga over the summer and alternated QB's every other series. BYU started 1-4 (15 ppg off) but finished strong winning 5 of their last 6 incl a 52-24 bowl win over UTEP with their lone loss in that span coming on a 42 yd blk'd FG vs Utah. They had 14 st'rs back LY along with some momentum and I gave them a great shot at a DD win ssn despite playing Ole Miss, Texas, Oreg St, TCU and Hawaii all in AG's. BYU beat Miss on the road 14-13 (+102 yds) after trailing 13-0 in the 4Q. They led UT 13-3 at half but lost by 1. They were -5 in TO's vs Utah and at half had a 227-187 yd edge but trailed 14-10 and suffered a 54-10 blowout loss. Vs UCF they were outgained 399-260 but won 24-17. ARMY BLACK KNIGHTS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Trent Steelman at 165 lbs was the Army prep QB in '08 and he guided that team to a 7-3 record incl a win over Navy prep. His nickname is "The Man of Steel" because of how he gets up after the pounding he takes running the Army triple option. Steelman became the first frosh to start every game (12) at Army since frosh were allowed to start in 1944. He became the first Army QB s/'92 to top 600 net rush (706, 3.5) and he threw for 637 (49%, 3-2) in '09. In '10 he hit the weight room hard (+15 lbs) and became the first Army player to have a rushing td in 6 str gms s/'88 (Mike Mayweather). He was also the last starting QB in the FBS to throw an int (gm 9) in '10. Steelman improved to 995 (53%, 7-3) and was the #2 rusher (721, 3.7, 11 td). Max Jenkins (PS#95) had 5 passes and 14 rush att's. Both ret'd LY. Steelman st'd the first 7 giving him 32 str starts, topping Leaman Hall's ('75-'77) Army record (30) but he was inj'd in the 2Q vs Vandy. Jenkins came in for a few series but then frosh Angel Santiago QB'd the rest of that gm. Jenkins (voted tri-captain by teammates) started vs Fordham (1 of 2 pass) and was 2-10 vs AF but still almost guided the upset. Santiago got the start vs Rutgers (6-15-77, 72 rush). Steelman ret'd vs Temple but went out after 2 plays (Jenkins and Santiago comb 2-12). Steelman ret'd vs Navy and finished with 424 (53.3%, 3-2, #2 rush, 645). Gino DeBartolo (6'2" 200 So, PS#160) saw action in 1 gm (4 rush att) as a true. Jenkins and Santiago comb to hit 13-52-181-2-2 (281, 3.6 rush). Steelman should have his best year provided he stays healthy but will be pushed by Santiago.

RUNNING BACKS - In their first year of the option offense ('08), FB Collin Mooney got 231 carries which was 188 more than the #2 RB. He set the single season rushing record with 1,339 (Mayweather 1338, '90). In '09 they had to replace Mooney and had a lightly exp'd group and the top RB had just 673 (6.1). In '10 I said the biggest addition to the team was Jared Hassin who would finally give Army the power FB they needed (potential 1,000 yd rusher). Hassin did not have his first 100 yd gm until Wk 6 (back inj) but would rattle off 4 str becoming just the 6th Cadet in history to do so. Hassin (also #3 rec) led with 1,013 (5.3). LY they added in true frosh Larry Dixon (PS#146) who outrushed Hassin with 542 (6.2) while Hassin (rarely 100%) finished #5 (450, 4.6). True frosh SB Trenton Turrentine rushed for 98 (4.7) in 3 gms but was then OFY. Ellerson said they always loved the way Raymond Maples (physical) got started but he is now learning to finish his runs. Maples had 52 in the first 2 gms but led with 1,066 (7.3!). SB Scott Williams (5'8" 165 Jr) on just his 6th carry of the ssn looked to score vs AF but fumbled into the EZ for a TB. Williams did not get another att the rest of the year. Malcolm Brown (343, 5.5 in '10) rushed for 572 (7.1) and was the #2 rec. Army returns 12 of their top 13 rushers and this is a very deep and talented cadre of RB's that return a pair of 1,000 yd rushers for the 1st time ever.

RECEIVERS - Naturally in the option offense the rec's don't get a lot of action except for blocking. In '10 an inexp'd group was led by Davyd Brooks (238, 15.9) and Austin Barr (215, 15.4). Those 2 were banged up early LY and 6'5" soph Jared McFarlin had 4 catches in the opener. He missed 3 (inj) and had just 3 more rec. Brooks and Barr are both solid blk'rs and Brooks led again (179, 17.9). TY they lose Brooks (9 st) and Barr (8 st, 42 yd) but I expect TY's top 2 WR's to combine for more yds than LY's 342.

OFFENSIVE LINE - Service academies never return a lot of st'rs. In '09 Army lost 4 OL st'rs and 2 bkps but they performed well (204 ypg, 4.1, 10 sk). In '10 they had an atypical veteran unit (4 ret sts, 72 car sts). Army made big strides to 252 ypg (4.5) while allowing just 8 sks. LY they lost 4 full-time multi-yr st'rs (comb 9.5 yrs starting exp). They returned just 21 car sts and then were devastated by inj's starting the same lineup in B2B gms just twice (11 diff OL's started). Surprisingly the Cadets rushed for 347 ypg (5.6) allowing 11 sks (11.3%). TY they lose RG Joe Bailey (4 st), LT Brad Kelly (6 st), OT Mike McDemott (9 st) and Robert Kava (8 st) but have 45 car sts ret (3 w/6+ sts). While they might not match LY's rush ypg, this unit is more exp'd coming into '12 and should stay healthier.

DEFENSIVE LINE - In '10, Army had to replace 2 DL st'rs but they did ret DE Josh McNary (Army rec 12.5 sk '09). Army installed a Bandit position (hybrid DE/LB) and improved to all'g 139 ypg (4.2, 25 sk). LY they had to replace McNary (Army career rec 49 tfl, 10 sk in '10) as well as 2 other st'rs. Their lone ret st'r, Jarrett Mackey, was OFY after Wk 1 so the unit was extremely inexp'd and undersized with AJ Mackey the largest DL at 260 lbs. LB Andrew Rodriguez (85 tkl '09, DNP '10) was ? into '11 but started 11 at DE. As you would expect, the rush D numbers went up to 195 ypg (4.9, 18 sk). TY they lose Rodriquez (59 tkl, 1.5 tfl), DT AJ Mackey (12 st, 37 tkl, 6.5 tfl), Bill Prosko (7 tkl) and 2 bkps (16 tkl). With the return of Jarrett Mackey it is like having 3 st'rs back making them much more experienced and tougher vs the run.

LINEBACKERS - In '10 the unit ret'd intact (#1, #2 and #3 tkl'rs) but they were hit hard by inj. By the end of Sept they were starting 2 LB's and 5 DB's. LY they had to replace 1 st'r (#1 tkl'r, 12 tfl) and 1 bkp while Rodriquez (12 st '09) moved to DE. They did return their #2 tkl'r. The Cadets' ppg slipped to 28.3 (24.3 in '10). TY they lose Steven Erzinger (11 st, #1 w/103, 7.5 tfl) and 2 bkps (comb 3 tkl). They return Geoffery Bacon (#3 tkl'r as true) and their #7 tkl'r while 7 ret w/st exp making them more exp'd.

DEFENSIVE BACKS - Army had 3 DB starters back in '09 and yielded just 56% (13-13). That was #47 in the NCAA pass eff but they slipped from #92 to #99 in my PDR due to the light slate of opp QB's (3 option tms). In '10 they had 3 st'rs back and improved to #81 (57%, 22-14). LY they had to replace 2 st'rs (#3, #6 tkl'rs) and 2 bkps (5 st, 54 tkl). They then lost CB's Richard King (9 st '10) and Antuan Aaron (6 st '10) during the offseason so they had just 1 st'r back. 6'3" true frosh Hayden Pierce (st'r prep tm '10) made 10 starts and Army finished #90 (57.6%, 19-8). TY the unit returns intact and should have their best finish in my PDR since at least '94 (#73).

SPECIAL TEAMS - In former HC Bobby Ross' final season, Army finished an outstanding #23 in my ST rankings. In '07 they dropped to #59 then #111, #106 and #76. Josh Jackson was the top PR in '10 (7.3) and '11 (3.7) and Army was -6.6 on PR and -2.0 on KR. LS Frank Ceva won the West Point brigade wrestling title in his soph year but missed '10 (ACL). Alex Carlton had a streak of 11 str FG's but missed his first 3 of '11 and in the final 8 only att 3 FG's (23, 18, 19 yds). Carlton also missed 5 of his 38 xp's. P Kolin Walk (4 punts, 41.0) was replaced by Chris Boldt (39.8, tm net 34.0) and Eric Osteen had 10 TB on 57 KO. The Knights finished #114 and despite a few losses, can only improve.

COACHES - Rich Ellerson brought in the triple-option offense from Cal Poly where he had 3 Great West Titles in 8Y. Ellerson learned the triple option from GT HC Paul Johnson when they coached together at Hawaii ('87-'91) with Navy HC Ken Niumatalolo (QB) and Navy OC Ivin Jasper (QB/SB). In his 2nd season Ellerson led the Black Knights to their first bowl s/'96. The OC is Ian Shields (OC Cal Poly '08). Ellerson has co-DC's in Payam Saadat (DC CP 3 yrs) and Chris Smeland who spent 15 yrs as a DC (Mich St, L'ville, Utah St, Haw). The staff returns intact for a 4th consec season.

PHIL'S FORECAST

Army used to be one of the NCAA's powerhouses winning three str National Titles from 1944-'46 while notching 14 Top 25 finishes in their history. Those years are long passed. They have not beaten a Top 20 team s/'72. From 1997-'08 Army was a poor 30-108 and had not won more than 4 gms in a season s/'96. In 2000 Army made the fatal mistake of shifting from the option to a passing offense and the next 4 yrs they were just 5-42 and became the first ever IA team to go 0-13 ('03). Bobby Ross took over in '04 and brought the team back to more of a rush offense and then Stan Brock took over in '07 and in '08 started the move back to the option. Rich Ellerson ran the triple option offense at Cal Poly and stepped into a good situation in '09 as Army had been softening their schedule and had already gone through the growing pains of changing schemes in '08. After being -14 in TO's in '08, they improved to +5 and their record improved from 3-9 to 5-7 including knocking off an SEC team (Vandy). In '10 they had 14 ret sts (unusually high for service acad) and I projected them to be in the Armed Forces Bowl. While Army lost for a 9th str time to Navy, they did get to that bowl and beat SMU 16-14, (outgained 413-229) to finish 7-6. Their 1st winning ssn s/'96. That squad did benefit from +16 in TO's and LY had just 10 ret sts. A strength of the '10 unit had been their perfect 4-0 record in true AG's but LY that road prowess disappeared (0-8 away from Michie) and they dropped to just 3-9. They trailed NIU 49-6 after 3Q's. They outgained SDSt (446-292) but Aztecs HC Rocky Long was facing his 3rd str option tm (incl bowl) and SDSt won 23-20. Army upset NW at home 21-14. Ball St had a 45-7 lead after 3Q. Tulane was on their 3rd str road trip and battling the option as Army steamrolled them 45-6. The Cadets led winless Miami 28-14 but lost by 7, then had a bye before travelling to Vandy. They lost QB Steelman in the 2Q and lost 44-21. Fordham is a pass offense and in wind and snow Army won 55-0. They dominated AF (286-81 yd edge in 1H) but fumbled twice near the EZ and only led 14-0. Despite a 366-301 yd edge they lost by 10. They had a 177-109 yd edge at half vs Rutgers but lost 27-12 (Rut 56 yd td run 1:57 left). They were shutout at HT by a strong Temple D and lost by 28. Then tied 21-21 into the 4Q they lost to Navy by 6. Signs point upward for TY. LY they had 3 net close losses (pg 309), were -9 in TO's, had poor off (16.0) and def (12.7) ypp's and avg'd 6 wins in '09-'10 but had just 3 LY (pg 27). They also have an unusually high number of ret sts (15) including QB Steelman and they st'd more freshmen (11) than Sr's (9) LY. After failing to reach a bowl for 13 consecutive seasons, Army makes my Most Improved List and gets their 2nd bowl bid in 3 yrs!

NAVY MIDSHIPMEN

SB Gee Gee Greene

POSITION OUTLOOK FOR 2012

QUARTERBACKS - HC Ken Niumatalolo usually tailors Navy's offense to the strength of their QB. He has had some powerful QB's like Ricky Dobbs, who broke Tim Tebow's NCAA record for rushing td's by a QB (27) and some speedy QB's like Kriss Proctor. In '10 Dobbs threw for 1,527 (55%, 13-6) and was the #1 rusher with 967 (3.6). Proctor hit 2-5 and ran for 304 (9.5). LY Proctor had an uneven year. He was inj'd (disloc elbow) in the 2Q vs EC and Trey Miller fumbled on his first possession but he later led Navy on 3 td drives. The strong armed Miller ran a spread offense in HS and was the point guard on his state title basketball team, so he's used to having the ball in his hands. Miller started vs ND hitting 5-13-33 (55 rush) but Proctor QB'd the rest of the year. Proctor threw for 787 (50.5%, 7-6) while Miller threw for 205 (41.4%, 3-0). Proctor was the team's #1 rusher with 914 (4.3) and Miller added 150 (3.1). Despite the loss of their starting QB, Miller is a little more exp'd than Proctor was heading into LY and has shown tremendous accuracy in spring.

RUNNING BACKS - Navy's triple option offense uses a FB and 2 slotbacks with the FB getting the bulk of the carries. Alexander Teich, who was smaller than a normal Navy FB but had 4.5 speed, started the first 5 gms in '09 but suffered a severe ankle injury. Teich ret'd in '10 and led the RB's with 863 (5.9) while SB Gee Gee Greene had 492 (6.8). LY Teich had 408 (5.2) in the first 4 games, despite missing 1 (susp SM) and led the RB's with 883 (4.7). Greene (1 of tms fastest) rushed for 501 (7.8) while speedy SB John Howell rushed for 340 with a team high 9.7 ypc. Aaron Santiago (257, 8.3) missed 6 with a broken forearm and Navy was 5-1 with him and 0-6 without. FB Maika Polamalu (Troy's cousin) is described as a workhorse while Noah Copeland set a single ssn record at NAPS in '10. This year they lose 2nd Tm Ind Teich (11 st), Santiago (6 st), Delvin Diggs (1 st, 186, 5.2) and Mike Stukel (106, 5.6). This group is a little less exp'd but Greene has been a stabilizing factor as heading into 2012 he's made 25 straight starts. This unit could very well match LY's numbers.

RECEIVERS - Navy's WR's do not get a lot of touches but are excellent blockers. They sometimes call themselves "wide tackles." In '10 Navy had to replace their top 3 rec's and LY had to replace their top rec in Greg Jones (662, 20.1). SB's were #2 and #3 and the leading returning WR was 6'4" Brandon Turner (PS#129) who had 113 (28.2). They had more drops than usual LY but Turner (300 yds) led with an impressive 21.4 avg while soph Matt Aiken was #2 with 201 (15.5). This year both return and CB Shawn Lynch (5 st) moves in. The only loss is Doug Furman (8 st, 1 rec) so this is the most exp'd unit they've had in 3 yrs.

OFFENSIVE LINE - In Niumatalolo's 2nd year they had 3 ret sts (36 car sts) but surprisingly they avg'd just 281 ypg rush (4.8 ypc, weakest s/'01). They allowed a mind boggling 20% sks (22). In '10 they had 3 st'rs back (57 car sts) but lost RT Matt Molloy (19 car sts) after 4 gms. They improved to 285 ypg (5.3) and allowed just 10 sks (6.4%). LY they only had to replace one st'r and had an unusually veteran O-line for a service academy (61 car sts). Rutgers HC Greg Schiano said it was the strongest O-line he had seen at Navy as far as knocking people off the ball. The OL opened holes for 312 ypg rush (5.4) and allowed 14 sks (10.4%). TY they lose 1st Tm Ind C Brady DeMell (12 st, 2Y st'r), 1st Tm Ind RG John Dowd (12 st, 2Y st'r), 2nd Tm Ind RT Ryan Basford (12 st, 2Y st'r), David Sumrall (3 st), Zach Dryden (7 gm) and Eric Douglass (12 gm). They have 2 ret sts and their 34 car sts is more the norm for Navy but this group is less exp'd than '11.

DEFENSIVE LINE - In '09 Navy had a veteran DL that was banged up but still improved to 122 ypg (3.9) with 22 sks. In '10 they had to replace 3 DL (comb 20 st, 66 tkl). I said the unit was slightly less exp'd but should maintain better health. Navy actually slipped to allowing 166 ypg rush (4.6) and the sks dropped to 18 perhaps due to losing all 4 LB st'rs from '09. LY they had to replace 3 DL who comb for 26 sts (101 tkls). With just 1 st'r back they slipped again allowing 187 ypg with their 4.8 ypc the highest s/'01 (just 14 sks). This year they lose DE Jabaree Tuani (12 st, 52 tkl, 5.5 sk, 7.5 tfl), NG Jared Marks (10 st, 24 tkl), Joshua Jones (5 st, 25 tkl, 3.5 tfl) and Jamel Dobbs (3 st, 18 tkl) but return 3 who started last year and should improve upon '11's poor numbers.

LINEBACKERS - In '07 Navy had an extremely inexp'd LB corps and the D yielded 36.4 ppg. They had 3 st'rs back at LB in '08 and improved to 22.0 ppg. In '09 they had 7 of their top 8 back and improved to 19.4 ppg. In '10 they had to replace all 4 st'rs (#1, #2, #5, #8, #12 tkl'rs) but only slipped to 23.3 ppg. LY they had to replace a 1st Tm Ind (#1 tkl'r) and two 2nd Tm Ind (#3 and #4 tkl'rs). They did return 3 with a comb 11 sts, which was 11 more than they had in '10. The LB corps was banged up and they slipped to allowing 28.9 ppg. TY they lose Jarred Shannon (3 st, 28 tkl), Caleb King (2 st, 31 tkl), Mason Graham (2 st, 11 tkl) and Max Blue (6 tkl). They have 3 ret sts (#1, #4, #6 tkl'rs) as Tra'ves Bush (10 st, #2) moves to ROV and are much more exp'd and part of a stronger Navy D.

DEFENSIVE BACKS - In '07 Navy's DB's were inexp'd and inj plagued and finished dead last in my PDR (70%, 32-10 ratio!). With a more exp'd unit, they only climbed to #108 in '08. In '09 they had to replace 3 st'rs but rose to #59 (59%, 15-13). In '10 they ret'd their top def player in ROV Wyatt Middleton and 6'2" CB Kevin Edwards (track tm sprinter). They did lose outstanding FS Emmett Merchant after 3 sts. With their most star studded secondary in yrs, they slipped to #111 (68%, 22-7). LY they had to replace those 3 and their starting FS. With just 1 ret st'r, Navy finished where you would expect at #115 allowing **74.3%** with a 14-10 ratio. TY they lose S Kwesi Mitchell (11 st, #5 tkl'r, 2 int, 2 pbu), CB David Wright (5 st, 21 tkl, 1 pbu) and Gary Myers (7 tkl). Four return who had 5+ sts LY as DC Buddy Green went to a youth movement and this group is much more exp'd and will easily make a good sized climb in my PDR.

SPECIAL TEAMS - Navy finished #76, #113, #69 and #107 in my ST rankings from '03-'06. They skyrocketed to #15 in '07 but fell back to #81, #80 and #104. LY they had to replace their K and P. Jon Teague hit a Navy rec 54 yd FG (Todd Solomon, 52 '84) in the opener but had a 34 yd FG with 4:43 left vs Rutgers blk'd, it was the 3rd straight gm he had a kick blk'd including the key 35 yd xp vs AF in OT. Versus EC, his game tying 42 yd FG bounced off the upright. Teague had 10 TB on 67 KO. After a missed FG vs ND, Niumatalolo opened up the FG duties but Teague held on to the job and hit his last 4 FG (10-15, L54) incl 23 and 44 yd FG's in the 4Q vs Army. Gary Myers avg 5.4 on PR in '10 and Matt Aiken avg 5.0 in '11. Marcus Thomas was the top KR in '10 (21.7) and in '11 (22.1) incl a 90 yd KR td vs EC. Navy's projected P left over the summer so true frosh Pablo Beltran (PS#35) took over and avg 37.5 (tm net 35.4). Navy still finished #64. This spring ST's were a focus as the coaches made an exaggerated point that this unit cost the team a possible 4 wins. They had 4 kicks blk'd and either missed a kick or botched a snap in 8 of their 12 gms. While they return their top P, KR and PR, history isn't on their side for a jump in my rankings.

COACHES - Ken Niumatalolo (1st Samoan HC in NCAA history) served as asst HC and OL coach under Paul Johnson. He was the OC at Navy from '97-'98 and the off play caller at UNLV ('99-'01). His first game as HC was the '07 bowl. Niumatalolo's 8 wins were the most by a Navy first year HC s/'34. Ivin Jasper is in his 5th year as OC (10Y Navy QB cch prior). The DC is Buddy Green who is in his 11th season here after leaving the same position at his alma mater, NCSt. Green turned down a lucrative offer from Tennessee this year.

PHIL'S FORECAST

Navy was just 11-45 from '98-'02 which includes Paul Johnson's first season. They got their first bowl bid s/'96 in '03. Navy then went to 8 straight bowls but were ranked just once and that was after their '04 bowl win (#24) when they finished 10-2. Ken Niumatalolo has done a good job taking over for Johnson, with the team going 27-13 in his first 3 yrs. Niumatalolo's '09 squad achieved 10 wins when they knocked off Missouri 35-13 in the Texas Bowl. In '10 they had a streak of 7 str Commander-in-Chief Trophies and 15 str wins vs their military rivals snapped with a loss to AF. Navy went 9-3 but lost their bowl to SDSt 35-14. Navy benefitted from 2 net close wins and in Niumatalolo's first 3 yrs had just 12,10 and 11 st'rs back so having 10 back LY was not cause for concern. Their schedule difficulty did increase and I said they would not match '10's nine wins. It was a very disappointing 2011 with their first losing season s/'02. They blew out Delaware and WKU (comb 80-31). They led SCar 21-17 in the 4Q but came up 3 pts short. They trailed AF 28-10 but got a td with :19 left to force OT but lost by 1. They took their first 2 drives for 144 yds before SM even had an offensive play but trailed 7-0 due to a blk'd FG for a td and a SOD at the 1 and got rolled 63-35. At Rutgers they led 17-7 in the 3Q but again lost by 1. EC QB Davis hit 26-26 in the 1H and 40-45 for the game and Navy's 42 yd FG bounced off the upright 2 plays after a td was ruled inc (another 3 pt loss). After being rolled by ND 56-14 (Miller 1st st) they had to win out to get to a bowl. They destroyed Troy 42-14 and got past SMU on the road despite 0-2 passing. On their 2nd str long trip SJSt RB Rutley had 234 ttl yds vs them as they were outgained 465-344 and had their bowl hopes end. They did get their 10th str win over Army but it was 21-21 after 3Q and Navy needed 23 and 44 yd 4Q FG's to win. Navy had 3 net close losses (5 losses by ttl of 11 pts) and their 2 yr avg of 9.5 wins is 4.5 more than they had LY (see Stock Market pg 27). Discipline and Service Academies go hand in hand as Navy has proved finishing #1 in the NCAA for 3 str seasons with the fewest penalties. Navy has 13 ret sts but was +9 in TO's LY. Navy's 5 HG's are vs tms that were a comb 15-44 in '11 and the Middies make my Most Improved List meaning I call for them to get to their 9th bowl in 10 years.

This will be billed as the Emerald Isle Classic. The gm will be played in Dublin at Aviva Stadium which took 3Y to bulid (2007-'10) and holds 50,000. In '96 these schools also played in Ireland (ND won 54-27).

Navy is 3-7 in State College but won their L/visit in 1974, 7-6. That gm also marked the series L/meeting. Navy is 6-2 in 'true' road openers (only losses vs #6 Ohio St in '09 & Ball St in '08).

Navy is 8-0 vs VMI incl a 37-10 win in the L/meeting ('03). The Keydets finished 2-9 LY with a loss at Akron, 36-13. Navy has won 4 str home openers and are 7-2 since 2003.

LY's loss to SJSU cost Navy a bowl gm. Navy trailed 10-0 but took a 24-20 lead into the 4Q. SJSU scored on the opening 4Q play. Navy was then SOD (S28), punted (N21) & SOD (S45).

The L/4 gms in Colorado Springs have been decided by a td or less. LTH Navy had their 7 gm series winning streak snapped. Navy was int'd at the AF22 w/:25 left on their final drive.

Navy has won the only two prior meetings ('03 & '10). Midshipmen rushed for a comb 967 yds (10.8) in those gms. LY in the 2nd of a B2B road trip the Midshipmen dropped both of their gms by 3 pts each.

Navy is 0-2 all-time vs Indiana but the L/meeting was in 1986 and both prior gms were played in Bloomington. Including B2B losses, the Midshipmen are 2-4 since '06 on Homecoming.

LTH Navy scored a modern-era record 76 pts. The Midshipmen led just 28-21 at HT exploding in the 2H. This will mark the 3rd str ssn these schools will square off with the visitor winning both.

First meeting. Mids are 21-5 in Annapolis in Nov. Incl FAU, Navy faces 8 FBS & 2 of LY's FCS tms on TY's slate that finished in the bottom half of LY's rush D stats (IN, AF, SJ, Troy, Army, CM, EC & TxSt & VMI)

Midshipmen are 5-0 vs SBC teams including a 28 pt win LY over Troy in their only prior meeting. Last time Navy failed to bowl in B2B ssns was 2001-'02.

First meeting. Texas St is in their 1st season as a WAC member. Navy has won 9 straight home finales by an avg 22 ppg. Navy is 7-2 prior to Army (6-0 when at home).

Army: LY in the 112th meeting Navy led 14-0 early but the game was tied twice (at 14 and 21).

Navy never trailed & clinging to a 6 pt lead stopped Army w/4:31 left at the N26 (last legit threat of the gm).

PHIL STEELE'S 2012 MAC FORECAST

MAC WEST

1. WESTERN MICHIGAN - Last year I had WM tying for the West Title but they lost a pair of games in the MAC's windiest stadiums (NIU, EM) and also lost a heartbreaker to Toledo 66-63. WM has 14 ret sts and unlike LY, none of their 4 MAC AG's come vs teams that had a winning record LY, they avoid the top 3 teams out of the East plus host both Toledo and NIU. With an easier MAC schedule, a veteran O-line and the MAC's best QB, WM gets my call to win the MAC West Title and perhaps Cubit's best record here at Kalamazoo.

2. NORTHERN ILLINOIS - NIU did have 3 net close wins LY and benefitted from +6 in TO's. TY they lose QB Harnish (MAC POY) and 4 of their OL's. NIU could easily have B2B MAC West Titles under their belt and have had B2B 11 win seasons. They only returned 10 st'rs LY and this ssn have 12 but lose 21 lett. NIU draws UMass, Akron and Buffalo out of the East (2 comb MAC wins LY) and had just 7 starts lost to injury LY. While I don't see them matching the last 2 year's 11 win total, they could come close as they look much stronger on D and their game Oct 27th at WM will probably determine the MAC West Title.

3. TOLEDO - Toledo looked like the team to take home the MAC West Title last year getting both WM and NIU at home. Both games had over 120 pts on the scoreboard with UT losing one by 3 and winning one by 3. They still finished 9-4 incl a bowl win over AF. Last year they benefitted from +16 in TO's. This year they are the least exp'd team in the MAC with just 8 ret sts (fewest MAC) and their 21 lett lost are 2nd most (tied) in the league. Naturally, they face both WM and NIU on the road and are the only one of the West's big 3 to take on one of the big 3 from the East, when they face BG. However, it should still be another successful season for Toledo, even with a new HC.

4. CENTRAL MICHIGAN - CM does pull both UMass and Akron out of the East and LY was -12 in TO's. They figure to be one of the most improved teams in the country as they have the fewest amount of lettermen lost (13) in the MAC and tie for the 2nd most ret starters (16). They will be in the final game of a 3 game road trip when they travel to Toledo and that game might determine whether CM finishes in the upper half of the West standings this year.

5. EASTERN MICHIGAN - There is no doubt that Coach English has this team pointed in the right direction and I love the way he took over and used a "my way or the highway" approach. This team is clearly bigger, stronger and faster than the one he inherited and much more experienced. LY they surprised everyone by winning 6 gms. EM has a hard nosed running gm, a veteran senior QB and a solid D. They do draw Ohio and BG out of the East (both on road) but my main set of power ratings calls for them to be bowl eligible although most of my others don't.

6. BALL ST - Last year Ball St was -123.3 ypg in MAC play (#12) but managed a 4-4 conf record as they caught some breaks. They do have a talented team with a veteran O-line, QB Wenning and RB Edwards but they also play a killer MAC schedule. They host 3 of the MAC's top teams (NIU, WM, Ohio) meaning most of their winnable games are on the road and that has me calling for a weaker record despite them being a stronger team.

MAC EAST

1. OHIO - Last year Ohio had an inexperienced D with just 4 st'rs back but this year return 8 to that side of the ball and return QB Tettleton on offense. Last year Ohio had 3 losses in MAC play by 7 total pts. Two came when their D was banged up. They blew an opportunity in the MAC Title game leading 20-0 at the half. The Bobcats broke through and got their first ever bowl win last year, and this year they have a chance at giving Frank Solich his first MAC Title.

1. MIAMI, OH - Miami caught a lot of breaks in their MAC Title winning season of 2010 and as expected, crashed back down to Earth last year going 4-8. Miami was actually better than their record as they were +25.8 ypg in the MAC and had 2 net close losses. This year they have 16 returning starters and are in the 2nd year of HC Treadwell's systems. They avoid the top 3 teams out of the West and look to find themselves back near the top of the East.

1. BOWLING GREEN - LY when I spoke with Coach Clawson I pointed out that they would likely be an underdog in 7 of their 8 MAC games and that they were. BG still managed a 3-5 MAC record and very nearly became bowl eligible with a couple of tough losses (see Phil's Forecast pg 256). TY they have 17 ret sts (#1 MAC) and a more favorable schedule with 2 of their MAC road gms at Akron and UMass. Despite the fact they have just 3 true MAC HG's, BG makes my Most Improved List and has a great shot at getting to their first MAC Title game since '03.

4. KENT ST - Kent St is the momentum team of the MAC and went 4-1 over the last 5 gms LY after switching schemes at midseason. They figure to get off to a great start TY with their early schedule being the much more manageable part. Kent St has my #1 rated D in the MAC and 16 ret sts but benefitted from +12 in turnovers LY. They need to learn to win on the road as they have just 5 HG's this yr.

5. BUFFALO - The Bulls are an improved team with 15 ret sts in the 3rd yr under HC Quinn. They had some close losses in the MAC or could have easily had more wins LY. The schedule maker didn't do them any favors as they pull the top 3 out of the West. They have just 3 true road gms in the MAC and 2 sets of my power ratings incl my main one, calls for the Bulls to go 4-4 in conf play. LY Buffalo was a much stronger team at home (+105 ypg H, -144 ypg A) and they get Kent St at home (National TV) which means they could move up from here in the standings.

6. AKRON - Akron was clearly the worst team in the MAC LY at 0-8 and -177 ypg. I think the new coaching staff, including HC Terry Bowden and DC Chuck Amato will bring a lot of life to the program but unfortunately the cupboard is bare with just 13 ret sts and no clear cut QB coming out of spring. They are #13 in the MAC in both my O-line and D-line rankings. They draw 3 tough teams out of the West but do get a key game vs UMass at home which has me having them rise from the basement for the first time in 3 years.

7. MASSACHUSETTS - UMass was just 5-6 playing an FCS schedule LY. They do return 10 of their top 13 tkl'rs and have a veteran QB and O-line but play zero FCS foes this year while playing 4 BCS teams. They also draw the top 2 teams out of the West (both on the road), play Akron on the road and play their HG's in Gillette Stadium which is 94 miles away from their campus. This figures to be a transitional year in more ways than one for the Minutemen.

MAC Notes: The MAC has had 11 different bowl teams since '04 with only Kent St (last bowl '72) and Eastern Michigan ('87) not going to one in that span. The MAC has been one of the most stable conferences and while Massachusetts joins as planned, Temple unexpectedly left for the Big East causing the MAC to redo their conference schedules late spring. The MAC was 11-4 in bowls from '98-'05 but then went just 2-15 in bowls from '06-'09. They got back on track the last two years going 6-3 and the team's that played in the title game are 4-0 in that span. The MAC went 26-31 in non-conf play but had 14 wins vs the FCS teams. They had 3 upsets of BCS conference teams in '10 and went 3-26 LY with Western Michigan beating UConn, Ball St knocking off Indiana and Temple crushing Maryland while Toledo got an apology from Big East officials instead of a win over Syracuse. Eleven of the league's pass efficiency leaders are back at QB this year but they do lose 3 of their 4 thousand yard rushers and 4 of their 5 thousand yard receivers. Northern Illinois has the best 3 yr, 5 yr and 10 yr records in MAC play.

WESTERN MICHIGAN BRONCOS

QB Alex Carder

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '10 WM had to replace their career leading passer, Tim Hiller. The bkp in '09 was rFr Alex Carder (PS#148) who hit just 5-7 for 27 yds. RFr Tyler VanTubbergen has an NFL caliber arm but HC Bill Cubit lost confidence in him in August. He played in 8 games (9-13-95). Carder took control in the huddle and has mobility but did have some int problems. Carder set WM records with 43 comp and 64 att vs Toledo but had 6 TO's. His decision making improved with experience as he had a 20-3 ratio over the final 6 games (WM avg 37 ppg). For the season Carder threw for 3,334 (63%, 30-12). LY Carder set a new schl record throwing for 3,873 (65.7%, 31-14). He missed one game (sep shldr). He ret'd in the bowl with 439 yds (31-57) and 3 td's but also had 4 int's. In his absence (vs Akron) the question over who is the future QB was answered when VanTubbergen (6'3" 198 Jr) hit 19-21 (90%) for 252 with 6 td's! He added 60 yds rushing (8.6). Not listed in the PSL are Zack Wynn (6'2" 212 So, PS#258) and Tyler Hrycak (6'2" 184 rFr). Carder should have his finest season as a senior and they now have an exp'd and capable backup.

RUNNING BACKS - Cubit produced 1,000 yd rushers his first 2 seasons ('05 & '06). Brandon West fell short in '07 (848, 4.6) but then delivered B2B in '08 (1026, 5.0) and '09 (1164, 5.4). In '10 Aaron Winchester was the leading returnee with 148 (3.2) but was never 100% healthy and finished #3 (271, 2.9) despite starting 7. Tevin Drake (215 lbs) was the biggest of the 5 RB's but he was cleared late and was not ready to play. Brian Fields (PS#156 rFr) had 107 vs EM and 132 vs Kent St (1st RB to top 100 vs KSU in '10). Drake started the final 3 and led with 405 (10.1 ypc!). In the first 8 games WM rushed for just 92 ypg (2.8) but in the final 4, avg'd 194 ypg (6.1). The 5'8" Fields was #2 with 362 (6.5) and true frosh Dareyon Chance (5'5" 166 So, PS#206, 3 st) added 188 (4.5). LY all 4 ret'd. Drake's poor pass blocking got him benched vs NSt and the unit was banged up. Drake led with 586 (5.6), Fields was #2 with 278 (4.1) while the #3, #4 and #5 rushers were either a WR or QB. TY all of the top RB's return and after 2 yrs of weak production, they can only improve.

RECEIVERS - Cubit has done a fantastic job molding NFL caliber WR's. In '06 WM had to replace #2 DC's WR Greg Jennings (GB) and TE Tony Scheffler (DEN). Jamarko Simmons led 3 str yrs with 668 (11.0) in '06, 980 (11.7) in '07 and 1,276 (12.3) in '08 (UFA GB) and left as WM's #3 car rec. In '09 Robert Arnheim led with 701 (11.9), Jordan White added 681 (12.8) and Chleb Ravenell had 513 (10.7). In '10 the top 5 ret'd and White set a schl record (Simmons '08) with 1,378 (14.7). Ravenell RS (inj). Juan Nunez (#4, 435 '09) had 1,032 (11.3) and 10 td's. Arnheim dropped to #3 with 235 (10.2). LY White was granted a 6th yr and I said it could be an improved unit even with the loss of a 1,000 yd receiver. Biletnikoff finalist White led the way with 1,911 (13.6) and 17 td's setting MAC and school rec's. Ravenell was banged up in Aug but still started 8 and finished #2 with 839 (12.5) while Arnheim was #3 (702, 11.3). Josh Schaffer struggled in practices but emerged vs Toledo with 114 yds (19.0) and should have a much bigger impact. This season they lose their all-time leading rec in AA White (13 st, #7DC NYJ), Arnheim (11 st), TE Dallas Walker (2 st, 7 rec) and Ravenell making the unit far less experienced.

OFFENSIVE LINE - In '10 WM had 9 of their top 10 OL back and added VHT Michigan transfer Dann O'Neill (PS#20). Surprisingly their numbers only went up slightly to 126 ypg (3.9) with 30 sks (6.3%). LY they had to replace a 4Y st'r and a pair of 3 yr st'rs (50 car sts ret). The less exp'd unit did improve the ypc to 4.0 with just 23 sks (4.2%). This year they lose 2nd Tm MAC LT Anthony Parker (13 st, 4Y st'r) but have 9 of their top 10 back including 1st Tm MAC O'Neill. They improve to 68 car sts and this could be the top OL of Cubit's tenure.

DEFENSIVE LINE - In 2008, WM had one of the most exp'd D-lines in the country (108 car sts). They improved to allowing 140 ypg rush (3.8) with 25 sks. In '09 they had to replace 4 DL (comb 38 sts). The less exp'd unit naturally dropped allowing 178 ypg rush (4.7) with just 19 sks. In '10 they had to replace 2 st'rs (3rd Tm MAC NG). Cubit was very high on explosive 303 lb true frosh Travonte Boles. They also moved LB Paul Hazel (10.7 100m) to DE and he became the edge pass rusher the team had lacked for yrs (8 sk). WM showed improvement to 167 ypg (4.3, 28 sk). LY they had 7 of the top 8 back and the nickname for the front four was "Team Train Wreck." They had 2 sizeable run stuffing DT's to pair with the converted edge guy and it surprises me greatly that the numbers slipped to 220 ypg rush (5.4) with just 28 sk. They allowed 494 (9.1) to NIU and 419 (7.0) to Toledo while 7 of their 28 sks came vs Miami. TY they lose MAC Def POY Drew Nowak who had great numbers for a DT (91 tkl, 8.5 sk, 12 tfl) and DE TJ Lynch (10 st, 32 tkl, 2.5 tfl). Nowak will not be easy to replace but this line has too much talent to have as poor of a year statistically as LY, so with 6 of the top 8 back, I'll call for a good sized improvement.

LINEBACKERS - In 2010 the unit had to replace a 2nd Tm MAC LB (#1 tkl'r). They moved their #8 tkl'r to DE but added Wisconsin transfer Dex Jones (PS#73) who teams had to game plan for. Mitch Zajac is not the fastest or most talented LB, but led in tkls with 97. They still allowed just 23.8 ppg, their best s/'06. LY they had to replace a 3rd Tm MAC ROV (#2 tkl'r) and Jones (8 st, #7, 12.5 tfl) as the unit was my biggest ? on the team. New ROV Johnnie Simon was the #1 tkl'r with 114 (10.5 tfl). WM all'd 117 pts in 2 gm while all'g an avg of 28.7 for the ssn. TY they lose Zajac (11 st, #2, 2.5 tfl) but have 4 of their top 6 back and add in a pair of JC's making the unit more exp'd.

DEFENSIVE BACKS - In '06, WM led the NCAA in int (24) and rose to #6 in my PDR. That unit had 3 solid soph st'rs and surprisingly the next 2 yrs with veteran units, they only finished #59 and #52. In '09 they had to replace 4 st'rs (168 car sts) incl a 1st Tm MAC FS (#2DC), 2nd Tm MAC CB and a #7DC CB. They added Miami, Fl transfer Doug Wiggins (9 st). I mentioned on these pages that they may not drop as much as you would think after 2 disappointing finishes and they only fell to #70. In '10 they had 2 st'rs back. Their top CB's were a true frosh, 2 rFr and a soph. WM slipped a little to #83 (59%, 20-15). LY they had to replace 2 st'rs but had 4 back who comb for 30 sts. They moved 5'6" RB Aaron Winchester in and he finished with 84 tkls and 9 pbu. WM finished #83 (62%, 18-12). TY they lose Winchester (13 st, #4 tkl'r, 1 int) and FS Wiggins (10 st, #5, 2 int, 6 pbu) but return 6 of their top 8 (comb 49 sts) and should have their best PDR in at least 3 years.

SPECIAL TEAMS - Cubit's first 6 units finished #56, #77, #38, #68, #70 and #73 in my ST rankings. LY they ret'd all of their key players and put together their best finish yet (#9!). Cubit thought the KR team could be one of the best in the nation led by Dervon Wallace (24.8) and top PR Jordan White was solid (13.1). K John Potter (#7DC BUF) is the most physical K in the MAC and departs with 36 career tkls which is more than any other K or P in schl history. Potter hit 16-22 FG (L/45) and had an outstanding 36 TB on 85 KO. In '10 P Ben Armer (41.2, 35.1 net) was 2nd Tm MAC. He upped the tm net LY to 36.7. Unfortunately this year they are the only FBS team to lose their K, P and main KR & PR which means a drop to their more accustomed rank in my ST rankings.

COACHES - Bill Cubit is an outstanding HC and a fine recruiter who brings a great deal of discipline to the program. Prior to serving at WM, he was the HC at DIII Widener ('92-'96). He's been the OC at Stanford, Rutgers, Missouri and here ('97-'99). In 2007, Cubit again took over the OC duties himself and TY his son, Ryan, will take over as co-OC as well as his QB cch duties. The new DC is Rich Nagy who was the S coach here the last 2 years.

PHIL'S FORECAST

The Broncos have had just 7 losing seasons s/'90 and was a MAC power from 1997-'00. WM finished 1-10 in '04 and in Bill Cubit 's first ssn they became the first MAC team to lose 8 conf games one year and win 5 the next (Cubit MAC COY '05). Despite a 7-4 record, they were not invited to a bowl. In '06 they made their first bowl appearance s/'88 and were a MAC best +63.8 ypg. In '07, with a tough schedule (4 BCS foes), they slipped to 5-7. In '08, I called for them to reach their 4th bowl gm in school history and they went 6-2 in the MAC (9-3) and got to the Texas Bowl. There were signs pointing downward for '09 as they had just 10 ret sts and had 4 net close wins in '08. WM slipped to a disappointing 5-7. In '10 they had just 13 ret sts and had to replace their star QB Tim Hiller but I still put them on my Most Improved List. WM became bowl eligible (not invited) and was much better than their 6-6 record as they were +78.8 ypg in the MAC (2nd best). WM and NIU are the only 2 teams in the MAC that have been plus ypg in conf action each of the L4Y. LY WM had to face 3 BCS tms (4 incl bowl), NIU and Toledo all on the road but did have 15 ret sts. WM gave up 2 def td's vs Mich and lost by 24 in a rain shortened gm (279-288 yds). After beating Nich St they had a much anticipated gm vs rival CM ending a 5 yr losing streak in a dominating 44-14 win. They led Illinois 13-10 at half and nearly pulled the upset. They beat Big East Conn on the road 38-31 and whipped BG 45-21 (BG td 2:30 left). They led NIU 15-10 when they missed a FG late 1H and all'd a FG to only lead 15-13 at HT. In the wind they struggled in the 2H and lost by 29. In an equally windy gm at EM, they led 10-7 but EM got a 50 yd td in the 4Q to pull out a 14-10 win as WM was SOD on 4&inches at the GL. After beating Ball St 45-35, WM had a gm vs Toledo which set MAC rec's for ttl td's (18) and yds (1,439) in regulation losing 66-63. They beat Miami and then even without QB Carder, destroyed Akron 68-19 (VanTubbergen 6 td's). WM suffered a tough, hard luck loss vs Purdue in the bowl as they had 2 SOD and 4 int while allowing 2 rec'd onside kicks and a KR td. TY they return QB Carder and are a little less exp'd with 14 ret sts. WM did have 2 net close losses LY, was -3 in TO's and gets both NIU and Toledo at home. Provided they maintain solid health, this tm could total the most wins of the Cubit era (8th yr) and are my pick to win the MAC West.

NORTHERN ILLINOIS HUSKIES

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '08 NIU's starting QB was not 100% and started just 3 gms. RFr Chandler Harnish (PS#98) became the top rushing QB here (539, 4.6) since Stacey Robinson (1990). He threw for 1,528 (56%, 8-9). In '09 Harnish was the clear-cut st'r and Coach Kill even compared him to CM's Dan LeFevour. Harnish hurt his right knee vs Toledo (gm 7) and had minor surgery missing 3 before returning (not 100%). Harnish greatly improved to 64% throwing for 1,670 (11-6, 229 rush). He missed the '10 spring and did not start the opener but lived up to Kill's advance billing. He threw for 2,530 (65%, 21-5!) and was the #2 rusher (836, 6.1) earning 1st Tm MAC. DeMarcus Grady played in 4 (14-29-93) and 3rd string Jordan Lynch rushed for 362 (11.7) with 81 and 61 yd td runs vs EM. LY Grady moved to WR. Despite a new HC and offense, Harnish was the MAC OPOY throwing for a schl record 3,216 (61.7%, 28-6!, #7DC IND) while becoming the first NIU QB s/'90 to surpass 1,000 yds rush with 1,379 (7.1). Lynch (PS#93) did well when called upon (15-20-166, 246 rush). Naturally he is the only exp'd QB but HC Dave Doeren said he is actually faster and has a stronger arm than Harnish. Battling for the backup spot is rFr Matt McIntosh (PS#81) and this year's true frosh. Naturally going from a 4th yr st'r to a unit consisting of 179 career pass yds, I look for a significant drop in the numbers.

RUNNING BACKS - NIU has surprisingly had 3 players lead IA in rushing in Mark Kellar ('73), LeShon Johnson ('93) and Garrett Wolfe ('06). Heading into '08, NIU had 9 straight years with a 1,000 yard rusher as Justin Anderson (PS#54) had 1,245 (4.5) in '07. In Jerry Kill's 1st season he rotated his RB's (Anderson off knee surg). Five diff players led in rushing over the first 8 and the top RB Me'co Brown had just 510 (4.6) snapping the streak. In '09 the top 4 all returned and Chad Spann led with 1,038 (5.8, 1st Tm MAC) and 19 td's. In '10 Spann led again with 1,388 (5.4). LY the leading returnee was Jasmin Hopkins (PS#106JC) who had 366 (9.6) in '10. Hopkins despite being the #2 rusher behind QB Harnish just missed the 1,000 yd barrier with 956 (5.1) and 15 td's. Akeem Daniels was the #2 RB (303, 5.4) and former N Carolina recruit Jamal Womble (PS#105JC, 4.5 spd), who looks like a DE, surprisingly only had 124 (3.4). Adding depth are James Spencer (5'8" 181 So), Cameron Stingily (6'1" 244 So, PS#199, MedRS LY) and Akron trans Giorgio Bowers (5'8" 216 So, PS#176). TY they lose Hopkins (13 st) but this unit is just as experienced as '11.

RECEIVERS - In '09 NIU had an underclassmen-led receiving corps and naturally last year the top 3 rec's from '10 ret'd in Willie Clark (602, 14.3), Nathan Palmer (532, 18.3) and Martel Moore (525, 13.1) while TE Jason Schepler (10 st '10) RS. Surprisingly in the new offense Clark dropped to #5 (292, 16.2) while Palmer was #2 with 695 (14.8). Moore had a huge bowl (8-224) and finished #1 (747, 15.9). Perez Ashford (PS#151) was #3 with 530 (11.3) and rFr Da'Ron Brown was #4 (322, 13.4). This year they lose Palmer (5 st), Clark (0 st) and DeMarcus Grady (2 rec) along with TE's Jack Marks (10 st, 1 rec) and Adam Kiel (2 st). They are a little less experienced than 2011 but do have 3 of their top 4 back.

OFFENSIVE LINE - The Huskies have had one of the top O-line's in the country the last few years. In '09 they had a veteran O-line and opened holes for 195 ypg rush (4.8, 15 sk). In '10 they had to replace a pair of 1st Tm MAC OL's (C 4Y st'r, LG 3Y st'r). The unit had its best production in over 20 yrs with 260 ypg rush (6.3, 13 sk) as Chandler Harnish's scrambling ability did help those numbers (836 rush, 6.1). LY the unit ret'd all 5 st'rs with 6 who had been full-time st'rs (116 car sts). Surprisingly the numbers dipped to 234 ypg (5.5, 12 sk) despite having just 2 sts missed all year. This year they lose 1st Tm MAC C Scott Wedige (14 st, 2Y st'r), 1st Tm MAC LT Trevor Olson (14 st, 4Y st'r), 3rd Tm MAC RG Joe Pawlak (14 st, 3Y st'r) and RT Keith Otis (14 st, 2Y st'r). They drop to 24 car sts (#117 FBS) making them much less exp'd than '11's outstanding unit.

DEFENSIVE LINE - In '10 when I wrote the magazine 1st Tm MAC Jake Coffman had announced he was not returning and they also had to replace a 2nd Tm MAC DE. Coffman changed his mind over the summer meaning 7 of their top 8 were back while Mike Krause (13 st '08, miss '09) also ret'd. Surprisingly their numbers slipped a little to allowing 127 ypg rush (3.9). LY they had to replace 1st Tm MAC Coffman and 2 other st'rs along with 2 backups (comb'd 40 tkl). The Huskies, with just 1 ret st'r, only dropped to 167 ypg (4.0) with 28 sk. TY they lose DT Ron Newcomb (12 st, 49 tkl, 4.5 sk, 8 tfl) and DE Kyle Jenkins (3 st, 29 tkl, 4.5 tfl) but have 6 of their top 8 back including 2nd Tm MAC DE Sean Progar (52 tkl, 5.5 sk, 5.5 tfl). NIU's rush D numbers have been atypical with their experience level but this is a more experienced and improved D-line.

LINEBACKERS - Heading into spring LY this unit appeared in good shape only having to replace a 2nd Tm MAC LB (#1 tkl'r) but both Devon Butler (#2) and Tyrone Clark (#3) ended up RS. They got back Pat Schiller (13 st MLB '09, ACL '10) giving them 1 st'r back. TY they lose Schiller (14 st, #1, 10 tfl) and OLB Jordan Delegal (14 st, #3, 4.5 tfl) but return 4 of their top 6 and get both Butler and Clark back giving them 3 who have been full-time st'rs. NIU went from allowing 18.9 ppg to 30.3 but are more exp'd this year despite the loss of their #1 and #3 tkl'rs.

DEFENSIVE BACKS - In '10, NIU's secondary had 7 of their top 8 back including #1 tkl'r SS Tracy Wilson. I called for NIU to have their best finish in my PDR s/'05 (#34). They did indeed achieve that by finishing #57 (59%, 15-16). Last year they had to replace 3 st'rs (1st tm MAC CB) and 2 bkps. Kill rotated players so the top 4 returnees were the #4 tkl'r and DB's that had 39, 21 and 20 tkls in '10. I noted it was a much less exp'd group and should drop in my PDR and they fell to #86 (56.7%, 29-13). Seven diff players started in '11 and only SS Tommy Davis (5 st, 38 tkl) departs making this unit vastly more exp'd and one of the MAC's best secondaries.

SPECIAL TEAMS - Former HC Joe Novak produced 4 players who earned MAC ST POY in 4 consec yrs and his units finished as high as #8 (2000) in my ST rankings. With an injury plagued team they dropped to #107 in '07. In Kill's 3 yrs the Huskies were #77, #47 and #22 in '10 as they set a NIU record with 6 blk'd punts. Last year I said that they wouldn't block as many punts and had to replace their P and K. As you would expect, NIU slipped some to #47 but did block 3 punts. They would have finished lower as the team had been avg 17.0 on KR's when diminutive true frosh Tommylee Lewis had 195 KR yds (2 td) vs Toledo (Lewis 25.2, tm 19.8). New P Ryan Neir avg 35.7 (net 35.5) with just 10 PR yds allowed. Mathew Sims hit 20-28 FG (L44, 1 miss 50) and true frosh Tyler Wedel had 6 TB on 86 KO. This year everyone returns and they should have one of the finer ST units in the MAC.

COACHES - Jerry Kill took over a program that after 7 straight winning seasons had suffered an inj plagued 2-10 ssn and improved the Huskies to 6-7, 7-6 and 11-3 in his final season before departing to Minnesota after the '10 MAC Championship game. Dave Doeren (DC Wisconsin 5Y) led NIU to a MAC Championship, bowl win and record tying 11 wins in his 1st ssn. Last year's OC Matt Canada left for the OC job at Wisconsin and after PJ Fleck was hired for one day (went to NFL), they brought in Mike Dunbar. Dunbar was out of FB LY but was NMSt's OC in '10 as well as having multi-year stints as an OC at Minnesota ('07-'08) and Northwestern ('01-'06). DC Jay Niemann returns for his 2nd season coming from DIII Hardin-Simmons (co-DC '08-'10) and DIII Simpson (HC '02-'07).

PHIL'S FORECAST

NIU was -17 in TO's in '07, had 3 net close losses, had poor off and def ypp's and had 38 sts lost during the ssn. They went from being an inexp'd team to one with 20 Sr's who all had starting exp in '08. Naturally, in HC Jerry Kill's first year, I made them one of my Most Improved Teams. NIU could have achieved even more but lost 4 gms by a total of 14 pts and then lost in the bowl by 7. They also went through 3 diff QB's due to inj's. In '09 I called for NIU to be bowl eligible again and they upset Purdue on the road 28-21 and got to the International Bowl vs USF. It was the first time they have played in B2B bowls and reached the 6 win mark for the 9th time in 10 yrs. In '10 they went from 3 ret sts on D to 8. All 9 sets of my power ratings called them the most talented team in the MAC West and I called for them to knock off at least 1 BCS foe and finish with their most wins s/'04. NIU surpassed even my expectations as they had their first undefeated MAC season, were +200.1 ypg (121 ypg better than #2!) and won their MAC gms by 31.9 ppg. They knocked off Minn and had a close loss at Illinois. They appeared to have the MAC Title game wrapped up but Miami had a 4th & 20 pass tipped for a FD and got a 33 yd TD pass 2pl later with :33 left. Coach Kill and both coor's left for Minn prior to the bowl and LB coach Tom Matukewicz did an excellent job as interim HC as they dominated Fresno 40-17. LY they had a new HC but ret'd their entire O-line and the MAC's best QB. They did have just 2 st'rs back on defense. NIU led Army 49-6 after 3Q's but the next wk couldn't hold their lead as Kansas got a GW 6 yd TD pass at home with :09 left. Doeren was an asst at Wisc and surprisingly they were mauled by the Badgers 49-7. They jumped out to a 34-7 lead vs Cal Poly but only won 47-30. CM's QB had the best game of his career (387 yd pass) and NIU lost 48-41. The Huskies would then win their final 9 of the ssn. They were outgained by Buff 572-328 and Toledo 589-532 and trailed Ball St 31-14 in the 3Q while only having a 286-280 yd edge vs EM. In the MAC Title game they trailed 20-0 at half but earned their first MAC Title s/'83 when OU's reliable K Weller missed a 4Q 36 yd FG. In the bowl after trailing 13-0 in the 1Q they whipped Ark St 38-20 and finished with an identical 11 wins. NIU was +122.9 ypg (#2 in MAC). After setting off records in '10, the Huskies reset them in '11 with 536 pts and 6,664 yds. While I don't see them matching the last 2 year's 11 win total (ret 4 off sts), they could come close as they look much stronger on D and their game Oct 27th at WM will probably determine the MAC West Title.

TOLEDO ROCKETS

SS Jermaine Robinson

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 true frosh Austin Dantin (PS#118, Beckman recruit) st'd 3 and threw for 962 (66%, 4-4). In the first 4 gms of '10, Dantin hit 61-87 (70%, 5-4) but was inj'd and Terrance Owens' first pass went 53 yds to set up a td. Later in the season Dantin separated his shoulder and Owens started the last 4 gms. Dantin threw for 1,254 (66%, 7-8) while Owens threw for 1,244 (60%, 13-5). Dantin is the stronger runner (442 gross in '10) while Owens is the better passer. Three days prior to the '11 season opener, Beckman announced Dantin would take the first snap but that the two would rotate and they did most of the year. Owens played the majority vs Boise as Beckman felt they needed more passing. Owens tweaked his back vs Syr and Dantin hit 22-32-218 despite having the flu the previous wk. Both QB's had 2 td's vs EM and at midseason they were #1 and #2 in the MAC in pass eff. Dantin suffered a conc vs WM and didn't return until a few token snaps in the bowl. Owens took all of the snaps in the next 3 (70-88, 9-0). The two QB's comb for 2,498 (63%, 20-13) in '10 and improved to 3,426 (68.9%, 33-7) LY while rushing for 392 (3.9). RFr Dwight Macon (6'0" 200, PS#76) hit 2-3-21 while frosh Ryan Gannon (6'2" 190) RS. It will be tough to improve much upon last year's numbers, but Owens and Dantin should again be among the MAC's best.

RUNNING BACKS - In '08 Toledo had to replace Jalen Parmele (B2B 1,000 yds). When the starting RB was inj'd, Morgan Williams (PS#32) set a schl rec with 330 (11.8) vs Miami and set a Toledo frosh rushing record with 1,010 (6.0). In '09 Williams was susp'd the first 2 and DaJuane Collins led with 991 (5.6) ending a streak of 4 straight 1,000 yd rushers. Williams added 444 (6.0) and Adonis Thomas had 151 (5.6). Thomas took charge in '10 and rushed for 1,098 (6.3) with 150+ in 3 of the last 4 gms. Williams had 287 (3.5) and true frosh David Fluellen (PS#185) added 224 (5.9). LY all 3 ret'd. After 115 yds in the opener, Thomas suffered a broken arm vs Syr but got back to form avg 151 ypg the final 5 incl 216 vs WM and topped 1,000 (1071, 6.3) and was also the #3 rec (350, 11.3). Williams had 121 vs Tem, 136 vs BG (3 td) and was the #2 rusher (671, 5.0) and #5 rec (167, 9.8). Fluellen was the top rusher vs Syracuse (54) and EM (74) finishing #3 (493, 5.1). This year they lose their top 2 (comb 1742 rush, 23 td) but move in QB David Pasquale and add JC Jamaal Jackson (PS#103) who rushed for 700 yds (4.4) at JC LY.

RECEIVERS - In '09 the Rockets had to replace their #4 career rec but Eric Page set Toledo true frosh records and was the #1 FBS frosh rec with 1,159 (14.1). TE Danny Noble was #3 (257, 9.9). In '10 they had to replace their career receiving leader, Stephen Williams (1065, 13.5 '09). Page was, by far, the go to rec with 1,105 (11.2) while RB Thomas was #2 with 372. LY they added Illinois trans Cordale Scott (PS#29), a VHT JUCO TE and expected more out of WR James Green (PS#52). Page was the team's biggest offensive weapon and led with 1,182 (9.5). His 5 td rec's vs NIU tied Randy Moss' MAC record ('97) and he became the Rockets career rec leader. Soph Bernard Reedy (5 rec, 4 st, '10) was #2 with 758 (19.0). Surprisingly Scott and Green only had a comb 14 rec. This year they lose Kenny Stafford (10 st, 272, 13.0), TE Noble, who broke his leg after 6 starts (4 rec), TE Jerome Jones (7 st, 10 rec) and Page, who left early for the NFL (undrafted). Scott moves to TE and Reedy will be the go to guy, but this unit is weaker with the loss of their star.

OFFENSIVE LINE - In '09 Tim Beckman inherited a veteran O-line (97 car sts, #13 FBS) incl all 5 st'rs and they each st'd all 12 that yr. They only improved to 160 ypg rush (4.7, 18 sk). In '10 they had to replace a 4Y starting LG but they had 100 car sts back. They improved slightly to 167 ypg rush (4.4, 22 sk), despite all 5 OL starting all 13. LY they lost their top OL (3rd Tm MAC C, 4Y st'r) and a RG (3Y st'r). They still ret'd 85 car sts and both OT's were 4th yr st'rs so I said they could be just as productive. All 5 OL's st'd all 13 (0 sts missed in 3Y) and they opened holes for 214 ypg (5.0) while allowing just 10 sks (2.4%). TY they lose 3 st'rs in 1st Tm MAC LT Mike VanDerMeulen, RT John Morookian and LG Phillipkeith Manley, losing a comb 124 car sts. They drop to 2 ret sts (26 car sts) and after putting up tremendous numbers last year, figure to be down a few notches in '12.

DEFENSIVE LINE - In '07 Toledo had to replace 1 st'r but then lost 2 st'rs in their first 3 gms resulting in their worst numbers in recent history (216 ypg rush, 5.1) with just 9 sks (last in FBS). With 3 st'rs back in '08 they improved to 178 (4.4) but were last again in the MAC with just 10 sks. With 2 st'rs back in '09 they improved to 166 (4.7, 20 sk) and in '10 with 2 st'rs back improved again to 133 ypg (4.0) and the DL had 21.5 of the tm's 29 sks. LY they had 3 full-time st'rs back losing 3 DL (10 st, 61 tkl). Their top DE, TJ Fatinikun, was lost after 6 st but still earned 3rd Tm MAC honors. Their numbers were similar all'g 133 ypg (3.9) and 23 sks. TY they lose DE Malcolm Riley (13 st, 37 tkl, 4 sk), DT Johnie Roberts (12 st, 42 tkl, 1 sk) and DT Johnathan Lamb (13 st, 36 tkl, 3 sk). They do have 5 of their top 8 back (7 DL with 15+ career tkl) and get the return of Fatinikun. This is a less experienced D-line however for 2012.

LINEBACKERS - Toledo runs a 4-2-5 but I list the STAR position at LB. In '10 they had to replace their #2 tkl'r Barry Church (All MAC 4Y), as well as their #3 and #7 tkl'rs. They did return their #1, #6 and #12 tkl'rs and added a JUCO. Archie Donald became the 1st UT player to lead in tkls THREE straight yrs (146), while Dan Molls was #2 as a soph (143, 10.5 tfl). Isaiah Ballard (2nd fastest tm, 4.37) was the #3 tkl'r (83). LY they had to replace Donald then Ballard was lost over the summer. The lone ret st'r, Molls, missed 5 gms (inj) but still finished as the #3 tkl'r. TY they lose STAR Charles Rancifer (9 st, #7 tkl'r, 4 tfl) and Terrell Anderson (6 st, #6 tkl'r, 7.5 tfl). They ret their top 2 LB tkl'rs making them more exp'd and add in Mich trans Vladimir Emilien (PS#91) so they should improve upon LY's 31.7 ppg all'd.

DEFENSIVE BACKS - In '10 Toledo had 3 st'rs back but lost their Top CB over the summer. They added Iowa transfer Diauntae Morrow (PS#62) and he was the #9 tkl'r despite not starting. The Rockets improved to #49 in my PDR (63%, 16-20). LY FS Mark Singer was lost in late Aug so just 3 st'rs returned. With that exp level, it was very surprising that UT slipped to #107 (62.6%, 34-14). TY they lose CB Taikwon Paige (10 st, #8 tkl'r, 2 int, 7 pbu), 1st Tm MAC CB Desmond Marrow (13 st, #1 tkl'r, 3 int, 15 pbu), SS Diauntae Morrow (13 st, #4 tkl'r, 7 pd) and CB Anthony Washington (8 tkl). They get Singer back (like having 2 st'rs ret), move in LB Byron Best (14 car sts) and add Florida transfer Jordan Haden (PS#20). While this unit is not as exp'd as LY's, they can only improve upon their poor PDR.

SPECIAL TEAMS - Toledo, despite the presence of one of the country's best RM in Eric Page, has shockingly finished #104, #120 and #117 in my ST rankings prior to LY. They were #117 in net punting, had 1 TB on 66 KO and hit 6-14 FG in '10 while Page only avg 3.8 on PR. K Ryan Casano was lost to an ACL (2-7 FG) and P Bill Claus hit 4-7 FG (L38). LY for a 2nd str yr I said they could only improve. Page avg 10.9 on PR and despite his KR avg dropping (31.1 to 25.2) as teams kicked away from him, UT was #6 FBS in avg starting position. Casano hit 10-13 FG (L38) while Jeremiah Detmer hit 5-6 FG with his first a 52 yd'r at Syr and he had 6 TB on 94 KO. Soph Vince Penza improved the tm net to 33.3. They all'd 4 ret td (2 vs NIU) but still improved up to #63. TY they lose Page and Casano so they may not move up much.

COACHES - Tim Beckman replaced Tom Amstutz (30Y here, 8Y HC) in '08. Beckman got UT to bowls the L2Y but left for Illinois. OC Matt Campbell was named the interim and then prior to the bowl was named HC (youngest FBS HC at 32). Player friendly Campbell has been on the staff 3Y and spent '06-'08 as BG's OL cch. The co-OC's are Jason Candle (pass gm coor) and Louis Ayeni (run gm) and both were promoted from the staff. The DC is Tom Matukewicz who was previously at NIU as run gm coor & LB cch ('08-'11) and was the Huskies' interim HC for their '10 bowl win.

PHIL'S FORECAST

"Toledo Tom" Amstutz had a record of 45-18 his first 5 yrs and won 2 MAC Titles. It is very surprising to me that his final 3 yrs were all losing seasons even though they knocked off a BCS school in each of those years (Michigan '08). In Tim Beckman's first year he inherited 15 ret sts and UT returned 89% of their lettermen. They had 82% of their tkls ret (#8 FBS) and 82% of their off yards back (#30 FBS). They opened 4-3 but lost a couple of close games and just missed out on a bowl at 5-7. Toledo was +44.6 ypg in MAC play (4th best) despite their 3-5 conf record. A couple of signs pointed towards a bowl in '10 as the '09 squad had a def ypp of 10.8 (pg 309) and they were -10 in TO's. They also opened up a new $9 million indoor training facility and brought in the MAC's top recruiting class. They went 8-4 in '10 and then had a ? replay at the end of the bowl which cost them the win but had their first winning season in 5 yrs. LY Toledo was the most exp'd tm in the MAC (17 ret sts) and was the preseason pick to win the conf. They had just 9 lett lost and got their toughest MAC foes, WM and NIU at home. After rolling over NH, Toledo nearly upset Ohio St being SOD at the OSU17 with :48 left. They got crushed by Boise 40-15 at home and the following wk, Syr had a missed xp counted as good (BE later apologized) and the Rockets eventually lost in OT. Toledo got 4 def takeaways vs Temple and won 36-13 (outgained 318-305). They rolled over EM 54-16 then led BG 28-14 until a late gbg td (456-343 yd edge). They rolled over Miami (176 yds rush 1Q) 49-28 then in what was basically the MAC West Title game, NIU got a td with :19 left as the 2 comb to set several MAC record's (lost 63-60). UT reset those rec's the next wk with 1,439 yds, 129 pts and 18 td's but were on top this time, 66-63 over WM. Toledo beat their final 2 MAC foes by 27 & 17 and then had another high scoring shootout in the bowl 42-41 with AF being stopped on a 2 pt conv at the end for a 9-4 finish. Beckman left for Illinois and OC Matt Campbell coached the bowl and took over as HC. Toledo was a MAC best +125.9 ypg and had a poor def ypp (12.7). On the negative side, they benefited from +16 in TO's, had a strong offensive ypp (11.4) and have just 8 st'rs back (fewest MAC). The Rockets play the toughest schedule of the MAC West contenders playing both WM and NIU on the road but despite their inexp, have an excellent shot at another winning season.

CENTRAL MICHIGAN CHIPPEWAS

LT Eric Fisher

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Dan LeFevour had a phenomenal career becoming the first player in NCAA history to pass for 12,000 and rush for 2,500 while finishing #2 in the FBS with 15,853 yds of total offense. In '09 LeFevour threw for 3,438 (70%, 28-7, 713 rush). In '10 it was a 4-man battle to replace him (#6 DC) and I projected soph Ryan Radcliff (10-21-115, 0-2 '09) as the starter. Radcliff threw the 2nd most passes (466) in a season in schl history (3rd most yds) with 3,358 (61%) but with only a 17-17 ratio. He does not, however, have LeFevour's mobility (-99 rush). Dropped passes also hurt Radcliff in '10. LY they added true frosh Alex Niznak (PS#88, IFS) who is strong, athletic and smart but appeared overwhelmed at times and RS. LY Radcliff's numbers improved to 3,286 (56.7%, 25-16). His best game came vs NIU (387 yds, 4 td) and he also had 436 (#3 most CM) in a loss to Ball St. At one point Radcliff was pulled against Mich St but soph AJ Westendorp (6'1" 229, PS#339) hit just 1-4 with 2 int (0 att rest yr). Radcliff will have to hold off Niznak and Cody Kater (PS#67JC, IFS, orig Cincy) who led Grand Rapids CC to an 11-0 record LY (2218, 68.3%, 19 td, 356 rush). Whoever wins the QB job should cut down on the int totals and improve the position overall.

RUNNING BACKS - CM has not had a RB rush for 1,000 yds since Ontario Snead in '05 (1065, 4.8). QB LeFevour was the team's leading rusher in '07, '08 and '09 (713, 3.9) while their leading RB rusher in '09 had just 559 (5.6). Their leading returnee in '10 was Carl Volny (390, 4.8 in '09). Paris Cotton (321, 3.9 '08-'09) took control early incl 209 vs EM (first 200 yd rush gm for CM ply'r s/'04). By Wk 9 he had lost 4 fumbles and only finished with 651 (4.6). Volny was #2 with 402 (5.0) and rFr Zurlon Tipton added 203 (3.6) with 4 td's in the last 2 gms. LY they only had to replace Volny. Cotton (5'9" 179) had just 64 total yds (0 td) the first 4 gms but vs NIU he had 110 yds rush, 115 rec and 3 td's. Tipton (222 lbs) is a big powerful back that wears down the defense. He missed 5 and finished #3 (370, 4.7). Cotton was banged up but still led with 409 (6.6). True frosh Anthony Garland (PS#233) played in just 8 but led with 141 vs Akron and 78 vs Kent St (378, 4.6). TY they lose Cotton but will top last year's production.

RECEIVERS - In '10 CM had to replace their #1 and #3 career leading rec's (Bryan Anderson, Antonio Brown) who were the top two rec's in each year from '07-'09. The leading returning WR's were #3 Kito Poblah (681, 12.8) and #5 Cody Wilson (226, 9.0). Wilson became just the 6th CM WR to top 1,000 (1137, 13.7, 3rd best CM ssn, tm MVP) while Poblah finished #2 (558, 12.7). 6'3" Jerry Harris was #3 (332, 11.1) and TE David Blackburn #4 (285, 13.0). LY they lost Poblah, while Wilson missed 2 games (inj) but was still #1 in rec's (48) and #2 in yds (526, 11.0). TE Blackburn (11 gm) had 8 rec vs EM and 9 vs Ball St but just 17 in the other 9. True frosh Titus Davis had 366 yds over the last 3 games and led with 751 (18.8). True frosh Courtney Williams was #4 with 385 (18.3). TY they lose Cedric Fraser (4 rec, 1 st) and Blackburn (9 st) while Billy Myler (5'11" 182 So) is ? to return. With the return of 4 of their top 5, this is CM's best rec corps since '09.

OFFENSIVE LINE - In '10 CM had a veteran O-line but lost starting LT Jake Olson (12 st '09) after 3 starts and only opened holes for 106 ypg rush (3.3, 33 sks). Of course losing LeFevour's 713 net yards rushing (Radcliff -99) was a big part of that drop. LY they had to replace two 4 yr st'rs (1st Tm MAC C) but with Olson's return, had 4 back who had been full-time st'rs (69 car sts). They improved to 116 ypg rush (4.2) with just 17 sks (3.7%). This year they lose RG Rocky Weaver (8 st until inj) but have 9 of their top 10 back (94 car sts) and this is easily Enos' top O-line of his tenure.

DEFENSIVE LINE - CM showed improvement in each of Butch Jones' final 2 yrs incl just 123 ypg rush (3.7) in '09, their best in 4 yrs. In '10 they had to replace both starting DE's. CM led the MAC in rush D in '05, '07 and '08 not finishing below #3 in 5 yrs. Despite having both DT's back, they switched to a 3-4 vs WM because they lacked depth. CM slipped to allowing 172 ypg rush (4.5) with 21 sks (lowest s/'04). LY they had to replace a 2nd Tm MAC NT. DT John Williams (12 st '10) only played in 4 (inj) while DE Kashawn Fraser (9 st '10) RS. They were undersized on the DL and had just 1 st'r back. CM put up similar numbers (187 ypg, 4.5) but with just 13 sks. TY they lose Williams (3 st, 16 tkl, 2 tfl) and DE Jason Chomic (2 st, 22 tkl, 1.5 sk) but ret all 4 st'rs (8 DL st exp) making this by far the most exp'd and best DL that Enos has fielded.

LINEBACKERS - In '09 CM ret'd all 3 st'rs (#1, #3 and #5 tkl'rs) and they allowed just 18.9 ppg, the fewest s/'92. Nick Bellore (CM rec 148 tkl in '08) was the top LB while Matt Berning was the #2 tkl'r (108) in '09. In '10 they had to replace 1 st'r but ret'd 6 of their top 8. CM allowed 26.0 ppg but still had one of the MAC's best LB corps as Bellore became just the 6th CM player to be voted 1st Tm MAC three times while Berning was also 1st Tm MAC. LY they lost those 2 but returned their #4 and #7 tkl'rs. The lone ret st'r, Armond Staten, missed 2 but still finished as the #4 tkl'r. CM's D regressed again allowing 33.3 ppg (highest s/'04). This year they lose Staten (9 st, 67 tkl, 5.5 tfl) and MLB Mike Petrucci (8 st, #5 tkl'r, 5 tfl). They return their #6, #7 and #12 tkl'rs and while they lose the unit's top 2 tkl'rs, the losses are not as heavy as last year.

DEFENSIVE BACKS - In '08 CM had a revolving door at DB incl 6 diff lineups and finished #109 in my PDR. In '09 I called for a big jump in the rankings (ret all 4 st'rs) and they did not disappoint with their highest finish ever (#35). In '10 they had to replace 3 st'rs incl a 1st Tm MAC CB and I called for a sizeable drop in my PDR. CM finished #99 (61%, 16-4). LY they had to replace 2 st'rs but had 4 who st'd 4+ in '10. This time I expected a move up in my PDR but CM finished #106 (61.2, 24-8). TY they lose CB John Carr (10 st, #3 tkl'r, 11 pd) and CB Taylor Bradley (3 st, 14 tkl, 1 int). They have 6 of their top 8 back including 1st Tm MAC SS Jahleel Addae (#1 tkl'r, 4 int, 4 pbu) and will make a good sized jump in my PDR.

SPECIAL TEAMS - In '08 CM finished #55 in my ST rankings and had all of their key players back in '09 and had their highest finish ever at #46. In Enos' first year FG's were a problem early (2 K's, 1-8 FG's). David Harman took over and hit 9-12 (L/41, 3 miss 40+). CM plummeted to #115 in '10. LY they only had to replace their P (32.9 net). Enos announced late Aug that K Connor Gagnon (stronger leg) would take over but Harman (missed 2 of his first 4 FG) would get every FG att hitting 13-16 (2 att 40+). Harman did, however, have a key 28 yd miss on the final play vs Kent St. Soph P Richie Hogan avg 39.4 (33.2 net). Harman and Gagnon comb for 10 TB on 56 KO while the return game was average. The Chippewas finished #88 LY and this year all of the key players are back. I will call for continued improvement and give them a shot to approach their best finish ever in my ST ranking (#46 in '09)

COACHES - After CM's MAC Championship in '06, HC Brian Kelly (19-16) left to become the HC at Cincy (now ND). Butch Jones (OC here '01-'03) became the first coach to win the MAC Title in his inaugural season s/'01. Jones led CM to another MAC Title in '09 before exiting for Cincy prior to the bowl, again replacing Kelly. Dan Enos is in his 3rd season as HC after serving as an asst coach at Mich St ('06-'09) and Cincy ('04-'05) and was the OC at NDak St ('03). The OC is Mike Cummings who is in his 4th stint (12th season) with the Chips. Cummings was the OL cch at Marshall ('05-'09) prior to his return. Joe Tumpkin is the DC after spending time at Pitt ('08-'09) and SMU ('05-'07), both as LB coach.

PHIL'S FORECAST

In 1994 CM won a MAC Title but for the next 10 yrs, only finished above 5th once. In Brian Kelly's 3rd year ('06) he guided CM to a MAC Title (9-4, beat Ohio 31-10 Title gm) while Jeff Quinn (now HC at Buffalo) was the interim HC for the Motor City Bowl. Butch Jones took over in '07 and did a superb job in his 3 yrs with a 22-3 MAC record and two MAC Titles ('07 & '09) as CM was ranked in the final poll of '09 (#23) for the first time ever. In '10 I went out on a limb and called for CM to finish FIFTH in the MAC West, a drastic drop from their 12 win total. CM was still picked 2nd in the West in the MAC's media poll. I noted that CM was changing schemes on both off and def, had just 5 HG's and had benefitted from 3 net close wins in '09. Dan Enos became the first CM coach to win his debut since Herb Deromedi (1978) but an 18 game win streak vs MAC East tms was ended with a 3 pt OT loss at Temple (went 0-3 vs East). CM had their first losing season (3-9) s/'04 (Kelly's first ssn). LY CM was one of 4 teams in the country that had to play 12 gms in 12 weeks (no bye) and the only team to have TWO 3 game road trips. CM lost 4 of 5 players that made All-MAC in '10 and had just 13 ret sts. CM dominated SCSt 21-6 (256-137) and led Kentucky 13-6 at half (227-93 yd) but gave up an 87 yd td run in the 3Q and lost 27-13. Rival WM was bent on revenge and ended a 5 game CM series win streak 44-14, MSU led 31-0 at half (45-7 loss). CM upset NIU as Radcliff hit 17-28-387 yds and 4 td. They had a 427-406 yd edge at NCSt and led 17-14 mid2Q, but Radcliff was 1-10 with 3 int in the 3Q (lost by 14). EM got a 30 yard td run with :37 left and CM lost at home, 35-28. EM did have a 350-98 rush edge and at one point led 28-13. CM led Ball St 20-3 in the 3Q (569-455 yd edge) but lost by 4. They led Akron 23-9 in the 4Q but after UA got a td on the final play CM had to stop the 2 pt conv to hold on for a 1 pt win. CM missed a 28 yd FG which would have forced OT vs KSU and lost. Then playing their 4th game in 22 days lost by 15 as Ohio appeared a lot fresher. Toledo whipped them in the final, 44-17 and they finished 3-9 again but were only -34.5 ypg in the MAC. They were -12 in TO's last year, had poor off (17.3) and def (12.9) ypp's and now have 16 ret sts all signs pointing upward. CM is one of the Most Improved teams in the country and have a great shot at bowl eligibility.

EASTERN MICHIGAN EAGLES

TE Garrett Hoskins

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 EM went from running the spread offense to taking snaps from under center. They lost their starting QB to injury and then true frosh Alex Gillett (PS#194) replaced Kyle McMahon and started the final 3. Gillett was the leading rusher in each and finished #2 with 484 (5.1). He threw for 763 but as you would expect from a true frosh, hit just 50% with a 3-7 ratio. In '10 I called for significant improvement in EM's passing numbers (tm 54% 9-16 in '09). Gillett st'd all 12 throwing for 1,633 (56%, 13-13) and was the #1 rusher (766, 4.3). Gillett's 189 rush vs Ball St set an EM single-game QB record. Last year they added rFr Tyler Benz (PS#257) who was a better passer than Gillett and true frosh Mark Iannotti (PS#156). I called for improvement again. Gillett threw for 1,504 (55.1%, 14-7) and was again the #1 rusher (736, 4.4). Benz played in two (2 att). This year everyone returns and I look for continued improvement from the Eagles' QB's.

RUNNING BACKS - EM has not produced a 1,000 yd rusher s/'03. In '10 QB Gillett was the #1 rusher with Dwyane Priest the top RB (716, 4.3). LY they had to replace Priest with the top returnee being Javonti Greene (277, 5.5). He had 155 of his yds vs UVA while becoming EM's 1st player to have 2 td runs of 50+ in a game. In '11 Greene and Dominique Sherrer became the first duo in schl history to each top 100 in B2B games (both gms vs FCS opp) but the two would combine for just one more 100 yd effort (Sherrer, 136 vs Kent). Sherrer missed 5 (knee) but avg 95 ypg (572, 6.1). Dominique White rushed 18 times for 57 yds in 10 games in his career prior to his 164 vs Akron and had 161 vs CM. Greene, White and Sherrer comb for 1,835 (5.0). Joe Fleming (5'11" 238 Jr) made 4 starts at FB with 51 total yards. Ryan Brumfield (5'10" 183, PS#163) played in 7 (36, 2.6) as a true last year. With everyone back someone should threaten the 1,000 yd barrier this season.

RECEIVERS - In HC Ron English's first year (2009), the top rec had just 347 (10.8) and Kinsman Thomas was #2 with 275 (18.3). In '10 they had to replace their top guy and Thomas led with 473 (18.2). TE's were #2 and #3 in Ben Thayer (386, 12.9) and Garrett Hoskins (217, 27.1!). True frosh Donald Scott had 199 (16.6). Scott was 2nd Tm MAC on the indoor track tm (triple jump). LY they had 3 of the top 4 back but Thomas was susp the first 2 and in the doghouse all ssn (3 rec). Soph Nick Olds led with 342 (14.2) and Hoskins was #2 with 328 (14.9). This year they lose #3 Trey Hunter (7 st, 175, 11.7) and HB Corey Welch (1 st, 10 rec). This is not an overwhelming unit but should put up their best numbers of the English era.

OFFENSIVE LINE - In 2010 EM had to replace a LG (4 yr st'r) and a RT (2 yr st'r) but got back an '08 starter (miss '09) so it was like having 4 ret sts. As you would expect, the unit improved and put up their best numbers s/'87 (173 ypg, 4.1) with just 22 sks. In '11 they had to replace 2 OL's (38 and 33 car sts) but had 4 back who st'd 7+ in '10 (64 car sts). They improved again to 218 ypg rush (4.6) and allowed just 19 sks (9.4%) despite just one OL starting all 12. TY they lose RG Bridger Buche (10 st, 3Y st'r) but have 9 of their top 10 back (95 car sts) and English continues to upgrade the unit's athleticism so this is by far his best O-line in his 4 yrs.

DEFENSIVE LINE - In '09 EM's DL had 5 back w/st exp but English said "Right now we're not very big, we're having problems getting off blocks and tackling." While the unit yielded 196 (5.2) in '08, the more veteran unit (3 soph st'd) was dead last in the FBS allowing 277 ypg and 6.3 ypc. In '10 they had to replace a 3rd Tm MAC DE but did have 7 of their top 8 back. The DL was bigger and more physical but the rush numbers were still bad (231 ypg, 6.1 ypc, 10 sks). LY they had to replace 2 DL (2 sts, 18 tkl) but had 8 back with starting exp and I said they should make dramatic improvement in their rush D. EM did just that as they allowed just 141 ypg rush (best s/'69) and just 4.1 ypc (best s/'01) with 23 sks. TY they do lose 2nd Tm MAC DE Brad Ohrman (12 st, 52 tkl, 5.5 sk, Tm Def MVP), NT Brandon Slater (12 st, 37 tkl, 4 tfl), DT Jabar Westerman (7 st, 26 tkl, 4 sk) and DE Javon Reese (18 tkl, 3.5 tfl). With this year's unit less exp'd (1.5 st'rs ret), I expected English to go the JUCO route and he signed 2. English has made strides with his team each year but I'll call for the D-line to take a step back coming off their best numbers in over 40 yrs.

LINEBACKERS - In '10 EM had 5 of their top 6 back for their fourth consec yr but had to replace their #1 tkl'r. Surprisingly EM allowed 43.9 ppg, their most s/'02. LY they had to replace 2 st'rs (#1, #2 tkl'rs). They ret'd their #7, #9 and #10 tkl'rs and added 3 JUCO's who were IFS with two, Justin Cudworth and Blake Poole both winning starting jobs. Despite being less experienced, the unit had an upgrade in athleticism and dramatically improved to allowing 24.3 ppg, their best s/'93! TY they lose MLB Marcus English (7 st, #9 tkl'r), WLB Nate Paopao (21 tkl) and Herb Waits (14 tkl). They return their #1, #8, #10 and #12 tkl'rs, have good size and more exp. If they can match LY's great numbers it should be considered a positive.

DEFENSIVE BACKS - In '08 EM had a veteran unit but surprisingly slipped from #66 in my PDR ranking in '07 down to #114. In '09 they had to replace 2 st'rs but CB Johnny Sears (Mich trans, PS#54) won a spot. Because teams ran the ball at will and led big, EM was actually #1 in the NCAA in ypg pass D (allowed 150.5 ypg). Opponents only threw 225 times (524 rush att) and that coupled with a 16-12 ratio, shows you the accuracy of my PDR as they finished #63. In '10 they had to replace 2 who comb for 17 sts incl Sears but had 7 (all w/st exp) of their top 9 back and added L'ville transfer Latarrius Thomas (PS#84). I said they probably wouldn't match '09's numbers and they dropped to #119 as teams threw more often and EM allowed a horrific 32-2 ratio. LY they had to replace 2 st'rs but did add UCLA transfer Marlon Pollard (PS#31) and 3 JC's who were IFS. I called for a large jump in their PDR and they moved up to #87 (60.2%, 20-5). TY they lose 3rd Tm MAC FS Thomas (#3 tkl'r), SS Willie Williams (12 st, #2 tkl'r, 8 tfl) and CB Nate Wilson (1 st, 12 tkl). This group has 2 st'rs ret just like LY and should be just as strong.

SPECIAL TEAMS - English inherited a ST unit that finished #119 in '08. His first 2 units finished #111 and #113. In '10 they brought in Australian true frosh P Jay Karutz (big leg) and he set an EM game record avg of 49.5 vs Miami with 2 inside the 1. They led the MAC in net punting (39.5) after 4 gms but only finished with a 35.9 net. Surprisingly Karutz did not have improved numbers in '11 (36.0 net). The return game was also avg. Mike Yocum had 5 TB on 48 KO and Kody Fulkerson hit 14-21 FG (2 miss 50+), long 48. The return D was very good and EM climbed all the way up to #25. They should have one of the MAC's best ST units again with better athletes, better depth and both their P & K back.

COACHES - This program has struggled as in the last 2 decades there have been 7 HC's and just one winning season (6-5 in '95). Ron English was the DC at Louisville in '08 and prior to that spent 5Y as an asst at Michigan incl 2 as DC ('06-'07). After going 2-22 in his first 2 seasons English led his team to a 6-6 mark LY earning MAC COY. The OC is Ken Karcher (QB cch Tol '08) who was also Pitt's OC from 1993-'96 and spent 3 years as the OC of the Rhein Fire (NFL Europe) as well as the HC at Liberty (21-46) from 2000-'05. The DC is Phil Snow who coached LB's with the Detroit Lions ('05-'08) and was a Pac-10 DC for 13 yrs (ASU '92-'00, UCLA '01-'02 & UW '03-'04).

PHIL'S FORECAST

EM has not had a winning record since 1995 (6-5) and prior to LY had not won more than 4 games in a season since then. Coming into '11 they were 43-129 (25%) in that 15 year span. EM has only had 6 winning seasons since 1974. The 2002 team set NCAA records for most pts (566) and yds allowed (6,239) in a ssn. In former HC Jeff Genyk's 5 seasons ('04-'08) the team was 16-42 (28%) but actually won the Michigan MAC Championship (beat CM and WM) THREE times. EM was only -25.4 ypg in MAC play despite their 2-6 record in '08. English took over in '09 and said the team did not have the speed he desired at the skill positions or the size on defense. He had 15 ret sts but started the 2nd most true frosh in the country. EM did not adapt well to the coaching change and went 0-12 with a MAC worst -159.4 ypg (90.8 ypg worse than #12 tm). In '10 EM again had 15 ret sts. They had 14 players graduate from '09 and 25 others who either quit or were asked to leave as English cut 13 players who he said were not willing to compete at a high level. At one point in his first season EM drew only 2,401 for Kent St and 1,535 for Ball St but in '10 their lowest came vs NIU (5,147). While EM finished just 2-10, they clearly made some strides (-68.4 ypg MAC, 5th worst). Several signs pointed upward LY. They were #1 (worst) on the def ypp charts (pg 309) and keep in mind '10's MAC Champ Miami was #1 in one of the ypp categories in '09. EM was -11 TO's in '10 and had an off ypp of 17.5. The team was bigger, stronger, faster and with much better athletes than English's 1st ssn. I called for EM to at least double their wins that they had in English's first 2 yrs comb and they did even better finishing 6-6. EM opened 2-0 vs FCS foes. They led Mich 3-0 in the 2Q with a 122-32 yd edge but lost by 28. After an expected 28 pt loss at Penn St, they gave English his first ever MAC home win beating Akron. After losing to Toledo 54-16 they led CM 28-13 but needed a td with :37 left to pull out the 35-28 win. On a windy day vs the passing offense of WM, EM got a 50 yd TD run with 7:46 left, stopped WM on 4th & inches at the GL at the end and they were Mich MAC Champs beating WM 14-10. They could have easily beaten Ball St but settled for a FG with 1:18 left after a 1st & gl at the 1 which a td would have clinched and then gave up a 44 yd FG with :09 left and lost by 2. Surprisingly in their FHG they only had 3,830 on hand but beat Buff 30-17. They were int'd at the GL with 1:47 left and lost to Kent St by 6. They then held NIU's potent offense to just 286 yds but still lost by 6. They did have poor off (16.2) and def (14.4) ypp's again and TY have 14 ret sts. EM has the 3rd longest bowl drought in the FBS spanning back to the '87 California Bowl. This is English's best tm yet and they have a shot at ending that streak.

BALL ST CARDINALS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Nate Davis (PS#35) started as a rFr in '06 and left 3 yrs later as the Cardinals' career passing leader despite leaving early (#5DC). He was the MAC OPOY in '08 throwing for 3,591 (64%, 26-8). Kelly Page (PS#82) threw for 1,019 (53%, 7-9) in '09 but was OFY in Wk 7. In '10 Page had to battle true frosh Keith Wenning, who then HC Parrish compared to Davis. Wenning took over, starting the last 10 and throwing for 1,373 (55%, 14-14). Page threw for 470 (54%, 4-2). They both ret'd LY under a new HC. Prior to the opener, the starter was a GTD but Wenning, who dropped 25 lbs to improve his mobility, took firm grasp of the job. In the first 4 gms he hit 73% with a 7-0 ratio and did not throw an int in his first 185 passes, but then had 3 int's on 4 passes (2 tips) vs Okla. Wenning broke Davis' record for comp's in a season with 287 throwing for 2,786 (63.9%, 19-11, 182 rush). He cut his int's from 1 every 16.8 att in '10 to 1 every 40.8 LY. Page played in 3 (7 att). This year Wenning figures to be one of the MAC's top QB's.

RUNNING BACKS - MiQuale Lewis (5'6") broke Marcus Merriweather's (1618 yds '02) season schl record with 1,736 (5.4) in '08 while rFr Cory Sykes added 428 (5.5). In '09 Lewis (avg spd) struggled with a young O-line and had just 263 (3.3) after 6 gms. In gm #8 vs EMU Lewis (301, 11.6) and Sykes (203, 8.8) became the first FBS duo EVER to have 300 and 200 yds rushing in the same gm! Lewis finished with 871 (4.8) while Sykes had 559 (6.2). Lewis entered '10 needing 669 to become Ball St's career leading rusher but came up short (414, 3.5). Sykes at 5'7" was one of the strongest and fastest but only played in 8 (inj, 260, 5.7). LY they had to replace their top 4 RB's. Soph Barrington Scott st'd the first 5 but was banged up vs Okla and only played 9 gms. True frosh Jahwan Edwards is a Jerome Bettis-type powerback with quick feet and the ability to make people miss. Edwards had 112 vs Buf and 123 vs Ohio. They almost took the RS off of true frosh Horactio Banks (PS#179, 5'10" 177). The bkp in the final 2 was 5'5" Dwayne Donigan (191, 3.3). Edwards led with 786 (4.4) while Scott had 370 (4.2). All are back TY and they add in VHT Tenn trans Toney Williams (PS#43). I look for significant improvement from the RB's in '12.

RECEIVERS - In '08 true frosh Briggs Orsbon led with 813 (12.0) but with a much less exp'd QB in '09 his numbers dropped to 461 (9.0) while 5'9" Torieal Gibson was #2 (337, 13.5). In '10 Orsbon dropped to #2 (295, 10.5) and true frosh Jack Tomlinson, who WR Coach Joey Lynch compared to Dante Love led with 484 (16.7). HC Pete Lembo likes tall rec's and recruited that way but 5'8" 138 lb soph Jamill Smith plays like he's 215 lbs and finished #3 LY with 422 (10.6) while adding 622 return yds. Orsbon regained the #1 spot with 649 (9.8) while Gibson was #2 again with 519 (11.5). Tomlinson was #4 with 394 (9.2) and Willie Snead #5 with 327 (11.7).LY their top 2 returnees had 779 combined yds. This year they lose Orsbon (12 st) and Gibson (9 st) but the top 2 returnees total 816 yards so this unit is just as strong.

OFFENSIVE LINE - In former HC Brady Hoke's 1st year (2003) the O-line was small (avg 268 lbs). In '05, they were plagued by inj's and all'd a MAC high 43 sks and avg'd just 2.9 ypc. Hoke did a good job building this unit and in his final year ('08), with 4 st'rs back they paved the way for 185 ypg rush (5.0) with just 14 sks (3.5%). In '09 they had to replace three 1st Tm MAC OL but only dropped to 159 ypg (4.4) with 30 sks (9.6%). In '10 they had returned 5 st'rs (92 car sts) but 3 failed to start more than 6. They opened holes for 152 ypg (4.1) and trimmed the sks to 16 (5.2%). LY they had to replace a 3rd Tm MAC OT but had 9 of their top 10 back although only 3 st'd more than 9 as they switched schemes under Lembo. Ball St surprisingly slipped to 138 ypg rush (4.2) but with only 11 sks (2.4%). TY they lose C Kreg Hunter (12 st, 2Y st'r), C Jerrod Gray (3 gm '11, 7 st '10) and Rayondon Kennedy (6 gm). This unit is even more exp'd (115 car sts, #1 FBS) and should produce their best numbers since 2008.

DEFENSIVE LINE - Heading into '09 the Cards had not allowed less than 4.6 ypc rush s/'01. Even in their magical '08 ssn, they yielded 163 ypg (4.6). In '09 the new 4-3 D was led by 33 yr old Brandon Crawford and Ball St's exp'd front yielded just 152 ypg (4.0) but had just 15 sks. In '10 they had to replace 2 st'rs incl 2nd Tm MAC DE Crawford but ret'd 1st Tm MAC DE Robert Eddins. Their numbers dropped to 178 ypg (4.6, 14 sks). LY they had to replace Eddins, who often drew double teams, a starting NT and 2 bkp (21 tkl). They ret'd 2 st'rs and a total of just 2.5 sks as they yielded 226 ypg rush (worst s/'99) and 5.1 ypc (16 sks). TY they lose DE Andrew Puthoff (12 st, 46 tkl, 10 tfl), NT Adam Morris (12 st, 48 tkl, 4 tfl), DE Ryan Hartke (12 st, 37 tkl, 3 sk) and DE Lorren Womack (5 tkl, 1 sk). This group is even less exp'd but with a pair of BCS transfers from Ohio St (Jon Newsome, PS#69) and ND (Brandon Newman, PS#46) they will improve on LY's poor numbers.

LINEBACKERS - In '09 then HC Parrish was excited about the signing of true frosh Travis Freeman, who he said could have as great an impact on the D as QB Nate Davis did on the offense as a true frosh. They had to replace 2 st'rs (#3, #9 tkl'rs) but Freeman became the #2 tkl'r as a true. In '10 they ret'd their top 3 LB tkl'rs. LY they had to replace their #4 tkl'r but had 5 of their top 6 back (#1, #3, #8 tkl'rs). I thought they would improve upon the 30.4 ppg all'd in '10 but they slipped to 34.7 ppg. TY Aaron Morris (12 st, #2 tkl'r) is acad inelig but they ret 2 st'rs incl 2nd Tm MAC Freeman (#1 tkl'r). They've had a 3Y slide in ppg all'd and after finishing #103 in the FBS LY should improve.

DEFENSIVE BACKS - Between '02 and '07, Ball St finished #106, #102, #119 (last), #109, #104 and #95 in my PDR. In '08 they had 3 st'rs back and I called for their highest Hoke era finish and they moved up to #40. In '09 they had to replace 1st and 3rd Tm MAC CB's (lost 3 CB, comb 94 car sts). As you would expect, Ball St dropped significantly to #112. In '10 they had to replace 1 st'r and finished #90. LY they had to replace 2 st'rs but ret'd 2nd and 3rd Tm MAC DB's. The unit was hit hard by inj's as all 4 st'rs were out by the end of the 2Q vs Okla and 3 missed vs Temple. They plummeted to #119 (66.7%, 29-10). TY they lose their Def MVP, 1st Tm MAC SS Sean Baker (10 st, #3 tkl'r, 2 int, 4 pbu), FS Joshua Howard (10 st, #4 tkl'r, 3 int) and S Kyle Hoke (2 st, 35 tkl,1 int). Even though they lose Baker the Cards all-time career int leader (18, also 2 FR td), they have 6 back who started LY, should remain healthier and move up in my PDR.

SPECIAL TEAMS - Ball St was a horrible #116 in my ST rankings in '04 but moved up to #65, #28, #50 and #16 from '05-'08. In '09 they had to replace super P Chris Miller but only dropped to #48. They dropped further down to #88 in '10. LY they had to replace a 2nd Tm MAC K and their top RM and finished #80. Briggs Orsbon lacked explosiveness on KR, however, Jamill Smith did avg 10.9 on PR (622 comb ret yds). Steven Schott (PS#27), who had 26 KO in '10, hit 15-20 FG (L44). RFr Scott Secor (PS#60) had 5 TB on 56 KO. Third yr P Scott Kovanda improved the tm net to an outstanding 39.1. This year all of the top players return and Ball St should finish back in the upper half of my ST rankings.

COACHES - Brady Hoke led the Cardinals to a 12-0 regular season in '08 and left for SDSt (now at Mich). Stan Parrish was released after 2 yrs (6-18). Pete Lembo was an FCS HC at Elon (35-22, '06-'10) and Lehigh (44-14, '01-'05). OC Rich Skrosky was also at Elon all 5Y's under Lembo (OL cch 3Y, OC L2Y). DC Jay Bateman was at Lehigh in '05 and DC at Elon for 5Y. Lembo pointed out this is the first time any of the players on defense had the same DC 2 years in a row and the benefit of that showed in the spring.

PHIL'S FORECAST

The Cardinals have won 5 outright MAC Titles since joining the league in 1973 (last in '96). Brady Hoke actually had 4 straight losing seasons but in '06 they had 5 MAC wins for the first time s/'96 and only lost to 3 Big Ten teams by a comb'd 19 pts. In '07 they went 5-2 in the MAC and had their first winning season and bowl s/'96. Ball St had 18 ret sts in '08 and were clearly the MAC's best team. Their previous best start in schl history was 9-0 in 1965 but they ran the table (12-0) and were ranked for the first time EVER moving as high as #12. In the MAC Title game they had a 503-301 yd edge but Buff got 2 long FR td's (28 pt swing) which led to the loss. Hoke left for SDSt and led by interim HC Stan Parrish they were crushed by Tulsa in the bowl to finish 12-2. Parrish, who was the OC (3 yrs), stepped into a tough situation as Ball St had overachieved in '08 and they had to replace an NFL QB Davis, 3 of their top 4 rec's and 4 OL st'rs. Ball St had 4 net close losses in his first year and slumped to 2-10. In '10 they did have 19 ret sts and they doubled their win total to 4-8 (-68 ypg MAC). They only gave Parrish 2 yrs and LY brought in Pete Lembo who led Elon to their first ever FCS playoff berth in '09. They had 2 net close losses in '10 and had 16 ret sts LY with just 16 lett lost. This time Ball St overachieved. They opened with a solid win over Indiana 27-20 (24-18 FD). They were then pummelled at USF 37-7. They led 21-7 1H but needed a td with :29 left to rally past Buff 28-25. They led Army 45-7 after 3Q's rolling to a win but then their DB's got banged up vs #2 Okla (lost 62-6). They lost 42-0 to Temple, the 4th worst margin at home in school history. They got to face a banged up Ohio tm on the road and pulled the upset 23-20 (OU miss FG :36 left). They trailed CM 20-3 in the 3Q (outgained 304-169 half) but rallied for a 31-27 win then had an expected loss at WM (45-35). EM had a 1st & gl at the 1 but settled for a FG with 1:08 left and BSU got a 44 yd FG w/:09 left to win by 2. They were outgained by NIU 710-398 but led 31-14 in the 3Q. They were dominated by Tol in the ssn finale but still finished bowl eligible at 6-6. This year they have 13 ret sts and are in Lembo's 2nd yr but pointing in the downward direction, they benefitted from 4 net close wins (pg 309) and were #12 in the MAC at -123.3 ypg despite being 4-4. Cardinal fans and I will miss Morry Mannies (voice Ball St FB, 56 yrs) who stepped aside at the end of LY. Ball St has a tougher schedule TY and while stronger, likely won't match LY's 6 win total.

OHIO BOBCATS

CB Travis Carrie

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Last year the Bobcats had to replace Boo Jackson who threw for 1,897 (61%, 18-17). They ret'd Iowa St transfer Phil Bates (PS#30) who played in 4 gms for the Cyclones in '08 and hit 9-23-178 here in '10 but was the team's #1 returning rusher with 519. Bates was recovering from shoulder surgery and missed the spring. The coaches were very impressed with Tyler Tettleton (PS#109) feeling he would be perhaps the best QB OU has put on the field in quite some time. Tettleton lived up to their praise and set single season OU marks for td's and pass yds throwing for 3,302 (64.3%, 28-10) and was the #2 rusher (658, 4.0). RFr Kyle Snyder played in just 5 (118 ttl yd) and Bates, running the Wildcat, hit 4-5 (69 rush). This year they lose Bates (1 st at WR, 197 rec yds) and Snyder. Tettleton's only two backups are rFr Derrius Vick (PS#93) and true frosh Gregory Windham (PS#148). Tettleton is one of the MAC's best QB's but they'll need him to stay healthy.

RUNNING BACKS- In '08, Ohio had to replace their career leading rusher Kalvin McRae, who had 1,434 (4.9) in '07. The next 3 years, the Bobcats ran a TB by committee with their top rusher in that span rushing for just 621 (4.2). Donte Harden (PS#193) was suspended the first 6 of '10 but rushed for 244 (4.8) in the final 7 and was the leading returnee. Harden missed 2 LY but led with 986 (5.3) incl an OU single game record with 322 all-purp yds vs Temple. Soph Ryan Boykin added 435 (4.2) while Iowa St trans Beau Blankenship (PS#85) had 462 (5.0) incl 129 vs CM when Harden was out. This year Harden departs but added to the mix is rFr Kyle Hammonds (PS#114) and true frosh Daz'mond Patterson (PS#212) who was IFS. Even with the loss of their top guy, this unit is more exp'd as LY's top 2 RB returnees had just 457 in '10 while this year's duo has almost 900 making this unit just as solid.

RECEIVERS - Last year the Bobcats had to replace their top 2 rec's and TE Troy Hill (6'5" 10, PS#174), who had 3 sts (24, 8.0) as a rFr in '10, was OFY (ACL) in fall camp. The top returnees were Riley Dunlop (387, 14.3) and Jordan Thompson (204, 9.7). Also back was LaVon Brazill who RS in '10 after having 702 (13.2) in '09. Brazill set OU single season records for rec (74), rec yds (1146, 15.5) and td rec's (11). Dunlop was #2 with 586 (13.6) and Soph Donte Foster was #3 (352, 11.7). This year they lose Dunlop (14 st), Brazill (10 st, #6DC IND), Jerry Gross (1 st, 8 rec) and TE Zac Clark (2 rec). While they are replacing their top 2 rec for a 2nd straight year, unlike last year they lack a player like Brazill coming off a RS year so I'll call the unit clearly weaker in '12.

OFFENSIVE LINE - In '10 the Bobcats had to replace 2 st'rs and 2 bkps (comb 5 sts). They had 3 Soph and 2 Jr st'rs with 3 bkps being frosh. With 3 st'rs back, improvement was expected, and despite allowing 12 sks the L/2 gms OU trimmed their total from 30 in '09 to 22 (8.1%) while opening holes for their best ypc rush (4.3, 164 ypg) s/'05. LY they only had to replace a pair of bkps as they ret'd all 5 st'rs and added in Fla St transfer John Prior (PS#117). I called it HC Frank Solich's best O-line here and OU improved to a Solich-era high 197 ypg rush (4.6, 24 sk 5.6%). This year they lose 2-time 1st Tm MAC RT Joe Flading (14 st, 3Y st'r) and LT AJ Strum (14 st, 3Y st'r) but do have 98 car sts back. This remains one of the top O-line's in the MAC but may be down a notch in '12.

DEFENSIVE LINE - In '07, Ohio had to replace 2 st'rs and slipped to allowing 186 ypg rush (4.5), their worst s/'01. They had 2 st'rs back in both '08 and '09 and improved their ypc rush to 4.1 and 3.9. In '10 the 4 who started the final 8 in '09 all ret'd so I expected them to be one of the MAC's top D-line's and OU improved to 123 ypg (3.5, 24 sks). Last year Solich did one of his better coaching jobs in any unit since he's been here. The DL was wiped out as they had to replace all 4 st'rs and a bkp (120 car sts) and the returning DL were a lot smaller than their predecessors. They did get back Curtis Meyers (9 st '08, 0 st '09-'10). They had put up their best rush D numbers in 11 yrs in '10 and this unit was my biggest ? on the team. It did not help when their largest DL, Neal Huynh, missed 6 sts including Temple when OU allowed 308 rush yds (6.8). His replacement, Corey Hasting, was 47 lbs lighter. Their numbers slipped but only to 142 ypg rush (4.0) with their 22 sks far better than I expected. TY they lose DE Meyers (12 st, 29 tkl, 4 tfl) and DT Jeff King (5 st, 9 tkl, 1 tfl) but have 6 of their top 8 back. This unit probably will not improve much statistically but they are clearly stronger and should be one of the MAC's better D-lines.

LINEBACKERS - MLB Noah Keller was the #1 tkl'r and WLB Lee Renfro #2 in both '08 and '09. In '10 the Bobcats had to replace Renfro and their starting SLB (#13 tkl'r). They later lost Keller after 3 sts leaving them very inexperienced but they only allowed 23.8 ppg. Last year they had to replace Chad Clemens (just 2 sts, but #1 tkl'r) and their #7 tkl'r. They ret'd 2 st'rs (#5 and #11 tkl'rs) along with Keller so I called the unit vastly more exp'd despite the loss of its #1 tkl'r. OU improved to allowing 22.1 ppg. TY they lose 2nd Tm MAC Keller (14 st, #1 tkl'r w/116, 8 tfl) and Eric Benjamin (5 st, 28 tkl, 2.5 tfl). They return their #3, #5 and #11 tkl'rs and this unit is on par with '11 in terms of experience despite losing their top guy.

DEFENSIVE BACKS - In '09 the Bobcats' secondary had to replace 2 st'rs (#2 DC) and then 3rd Tm MAC FS Steven Jackson was lost after 4 sts. Despite being a less exp'd unit, they had their highest finish ever in my PDR at #20 (54%, 17-20). In '10 they had to replace 3 st'rs but got back Jackson (like 2 ret sts). It was surprising to see OU slip to #85, their worst s/'05 (61%, 21-17). Last year they had to replace 3.5 st'rs and 2 bkps (comb 40 tkls). They did return Gerald Moore (8 sts '09, inj '10). I said that despite being less exp'd, they could improve upon their poor PDR finish of '10. FS Xavier Hughes was #1 in int's with 3 when he was OFY after 6 sts. OU still moved up to #48 (54.6%, 24-15). TY their only loss is CB Omar Leftwich (12 st, 5 pd). This could be one of the top secondaries in the MAC.

SPECIAL TEAMS - This unit has been a Bobcat strength with 6 top 21 finishes s/'00. They were #5 in '06, #12 in '07 but just #52 in '08. Matt Weller (PS#49) led all frosh K's with 29 FG att (21-29, 2-3 50+). OU blk'd 5 kicks and had 4 PR td's and finished #19 in '09. Brazill became the career leader in PR yds but missed '10 and they also had to replace the #1 career KR, Chris Garrett (27.0). They still finished a solid #15. Last year Brazill, their K and P were back so big things were expected but Brazill avg'd just 5.5 on PR. Weller had 10 TB on 84 KO and Paul Hershey avg'd 40.7 (net 37.8). Weller had a solid year hitting 25-34 (L/49) with only one miss from under 40 yds but unfortunately it was in the MAC Title game (lost by 3). OU still only dropped to #28. This year they lose top KR Harden (25.8), P Hershey and Brazill and will find it difficult to remain close to their accustomed spot near the top of my rankings.

COACHES - Frank Solich spent 6 yrs as HC at Neb compiling a record of 58-19. He was Big 12 COY in '99 and '01 and produced at least 9 wins in 5 of his 6 seasons. Solich ret'd to his home state (from Cleveland) in '05 and LY led Ohio to their first 10-win ssn s/'68. OC Tim Albin, who was the OC at NDSt in '04 and was at Neb from '01-'03 (pass gm coor '03), is in his 8th ssn here. Co-OC Gerry Gadowski is in his 6th ssn and also mentors the QB's. The DC also in his 8th season is Jimmy Burrow who was the DC at NDSt ('03-'04) and a Neb asst ('01-'02).

PHIL'S FORECAST

Frank Solich took over in '05 and it didn't take long for him to work his magic. In '06 he got Ohio to their first bowl since 1968 as they were 9-4 before losing to S Miss in the GMAC Bowl. Coming off a 4-8 season in '08 where they were -12 in TO's, I called them my #2 Most Improved Team in the country in '09. While they were picked as low as 6th in some other preseason magazines, I pegged them to win the MAC East Title and Solich and company did not disappoint. Unfortunately, they got banged up in their reg ssn finale and then lost to CM in the MAC Title game by 10 and then to Marshall in the bowl. Despite their 7-1 record in the MAC in '09 they were -23.9 ypg in conf play but +13 in TO's. In '10 they had a shot at the MAC Title game but were -4 in TO's in the ssn finale vs Kent St and had a streak of 8 str MAC road wins snapped. They were then thrashed in the bowl by Troy. Last year OU was coming off a yr where they had 35 sts lost to injury (pg 324) and despite having just 11 ret sts, I felt they had a schedule tailor-made for MAC success. Their 4 conf AG's were vs tms that finished 1-7, 1-7, 1-7 and 2-6, and they avoided the big 3 out of the West. They were the only one of the top 4 MAC East tms that kept their HC. Those factors not only had me calling for them to appear in the MAC Title game (Miami was media pick) but I gave them an excellent shot at their first double digit win season s/'68. OU dominated NMSt on the road, 44-24 then steamrolled an FCS foe and Marshall (comb 74-10). Four TO's did them in vs Rutgers (only -6 yds). They had a 376-200 yd edge but a blk'd punt and a blk'd FG kept Kent St within 7 and OU moved to 4-1. OU's D was banged up and it cost them 2 wins. They went into Buff and led 31-24 but lost 38-37. Weller missed a 41 yd att with :41 left vs Ball St and their 7 gm home win streak was snapped. Their DL's and DB's started to get healthier and they beat Akron by 17 then RB Harden had 322 all-purp yds in their 35-31 win over Temple. They beat CM by 15 but needed a 23 yd FG on the final play to get past BG. They had already clinched the MAC East Title when they edged conf rival Miami 21-14. In the MAC Title game OU led 20-0 at half but missed a 46 yd 4Q FG and allowed the comeback by NIU in a gm that would have given Ohio their first MAC Title s/'68. They beat Utah St 24-23 for the school's first ever bowl win to finish 10-4. This year the Bobcats are more exp'd with 14 ret sts (+93.2 ypg MAC, 3rd best). They did benefit from 2 net close wins LY but they don't play either NIU or WM. This year's edition is even stronger than the '11 version and capable of topping last year's 10 win total.

MIAMI REDHAWKS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - From '97-'05 Mike Bath, Ben Roethlisberger and Josh Betts threw for a comb 24,832 yds and they comprise 3 of the top 4 career passers here. The next 3 yrs MU's starting QB did not top 2,500 in any season. In '08 Daniel Raudabaugh (9 sts) threw for 1,960 (59%, 8-9). MU did not score in the first 10Q of '09 but rFr Zac Dysert (PS#85) led them to 2 scores during gbg time vs WM and then HC Mike Haywood handed him the job. Dysert threw 16 int and was prone to taking sks but still put up #'s comparable to Roethlisberger's frosh yr (259 ypg, 63%) throwing for 2,611 (237 ypg, 62%, 12-16). In '10 he was 10th in the FBS with 222 comp when he stretched the ball into the EZ (1:47 2Q) vs BG and suffered a lacerated spleen (OFY). Dysert still finished with 2,406 (65%, 13-12). Earlier in the yr when Dysert was lost in the 3Q vs Missouri, Haywood called Austin Boucher's performance "adequate." Boucher started the final 4 and threw for 1,120 (64%, 6-3). He is left-handed and lacks velocity but guided Miami to wins in the MAC Title gm and their bowl. LY both QB's ret'd and they added in true frosh Drew Kummer (6'3" 219, PS#106). Despite having an O-line that allowed 47 sks, Dysert threw for 3,513 (65.8%, 23-11). Boucher played in 5 (10 att). Dysert even broke Roethlisberger's record (40) for comp in a gm (42 vs WM). Not listed in the PSL are Kyle Seyfried (6'1" 202 rFr) and Robbie Plagens (6'1" 190 rFr). Dysert should become the #1 career passer (just 2,300 yds away) and have his best year yet.

RUNNING BACKS - Miami had a 1,000 yd rusher 8 times in 10 years from 1994-'03 but has had just one since (Brandon Murphy, 1070 '05). The leading rusher in '09 had just 291 (2.8). Thomas Merriweather (PS#48) was the #1 rusher 3 str yrs and in '10 had 921 (5.2). Last year the unit was very inexp and went to a RB-by-committee. Soph Erik Finklea moved from LB and led in rushing the first 6 gms (best 90 vs Army) but had just 2 more carries the rest of the season. True frosh Chrishawn Dupuy led vs Tol but with only 13 and Tyrone Jones led vs Buf with 58 (3.6). Justin Semmes (230 lbs) moved from FB to RB and rushed for 100 (4.2) vs Akron and 69 (4.6) vs Temple. He was inj'd and rFr WR Willie Culpepper led with 40 (20.0) on just 2 rushes vs WM. For the season Finklea led with 328 (3.6) while Semmes was #2 with 170 (4.1). This year they only lose Jones (2 st, 99, 2.5) while Dupuy moves to DB and the unit should be MUCH more productive.

RECEIVERS - MU had a remarkable run as Michael Larkin became the RedHawks' career leading rec'r in '04. Martin Nance topped him in '05 then Ryne Robinson topped him in '06. MU had a very young group in '07. Their #2 thru #5 rec were all frosh. Naturally the group was more exp'd in '08, '09 and '10. In '10 Armand Robinson led with 1,062 (11.3) and a schl record 94 rec. LY they ret'd their #2 rec, Nick Harwell (871, 13.6), #3 Chris Givens (385, 14.8) and #4 Andy Cruse (342, 13.7). Harwell had 12 rec vs Minn and then tied Martin Nance's record with 4 consec 100 yd gms. He set a MU record w/ 15 rec's and 229 yds vs Temple and finished #1 by far with 1,425 (#5 FBS, 14.7). Givens, who had 513 (14.7) in '08 was #2 with 695 (11.6) while true frosh Dawan Scott became the fastest MU player to record two 100+ yd gms (8 gm) and was #3 with 424 (21.2). Cruse was #4 with 391 (9.1). Not listed in the PSL are TE's Andrew Gudeman (6'3" 240 rFr, PS#88) and Brian Slack (6'5" 255 Jr, PS#60). TY they lose Givens (9 st) and TE Kendrick Bruton (7 st, 8 rec) but have everyone else back incl their star.

OFFENSIVE LINE - In former HC Haywood's 1st yr ('09) the OL had to replace a pair of 3Y st'rs, a 2Y st'r and adapt to new schemes. The unit struggled with just 70 ypg rush (2.4) allowing the most sks in the NCAA at 58 (10.9%). In '10 the unit ret'd intact and I called for significant improvement. Surprisingly they improved to just 98 ypg (3.1) with 35 sks (7.0%). Over the final 5, after they moved RT Matt Kennedy to LT, they improved to 162 (4.6) ypg rush (63, 2.1, 1st 9). LY they had to replace a RG (14 st, 2Y st'r) and LG (7 st, 3Y st'r) but basically had 4 st'rs back. The unit was hit hard by inj and 2 true frosh had a comb 15 sts. For much of the yr they played 3 st'rs under 285 lbs, something HC Treadwell hopes to avoid by developing a massive OL over the next several years. MU's numbers dropped to 74 ypg (2.4) and were #119 in the FBS all'g 47 sks (10.2%). TY they lose 2nd Tm MAC RG Brandon Brooks (12 st, 4Y st'r, #3DC HOU) and OT Cory Brown (1 st) but are now in the 2nd yr of Treadwell's offense, have 88 car sts ret and should remain heathier.

DEFENSIVE LINE - In '09 10 different DL started and they ret'd 9 of them in '10 while adding Iowa transfer Jason Semmes. MU made dramatic strides improving to 128 ypg rush and 4.0 ypc (best s/'04). The DL also accounted for 16 of MU's 35 sks (Semmes 6). Last year the unit appeared even more exp'd (all 4 st'rs back) but Wes Williams and Will Diaz were both OFY after 3 sts and Mwanza Wamulumba RS. The unit, which had achieved beyond my expectations in '10, regressed to allowing 169 ypg (4.2, 25 sks) in '11. They even moved in starting SLB CJ Marck and he did record Miami's first safety (vs Kent St) s/'07. TY they lose DT Jordain Brown (4 st, 19 tkl, 1 tfl), Marck (8 st, 42 tkl, 3 sk) and Diaz (20 tkl, 5.5 tfl). This veteran unit should post their best rush D numbers s/'04.

LINEBACKERS - In '09 the unit had to replace all 3 st'rs (#1, #2, #4 tkl'rs) and allowed 34.2 ppg, their highest s/1904 (47.2 ppg)! In '10 all 3 st'rs ret'd but 2 comb for just 7 sts due to inj. Jerrell Wedge was the #1 tkl'r in both '09 and '10 while Evan Harris was #4 tkl'r in '09 and #2 tkl'r in '10. Those 2 both ret'd but they moved CJ Marck (#7) to DE. Wedge surprisingly was only the #2 tkl'r while Harris was #8 with just 4 sts (hip flexor). TY they lose Wedge (10 st, 84 tkl, 4 tfl), Ryan Kennedy (10 st, #3 tkl'r, 8.5 tfl) and Na'eem Outler (7 tkl) but moved FS Pat Hinkel (29 car sts) into the unit this spg. Miami allowed just 22.9 ppg, but with the loss of their top 2, this unit is down a notch.

DEFENSIVE BACKS - In '08 MU had to replace 2 st'rs and shuffled the lineup (inj's). They plummeted to #111 in my PDR (21-6 ratio all'd). In '09 they had a veteran secondary and despite a 1-11 record, moved up to #58. In '10 MU only had to replace 1 st'r and improved to #35 (57%, 14-21). LY they had to replace 2 st'rs. MU finished #50 in the NCAA's PDR but my rankings take into account the strength of opp and MU was just #72 (58.1%, 17-10). TY they lose SS Anthony Kokal (12 st, #1 tkl'r, 1 int, 2 pbu) but have 6 of their top 8 back including 1st Tm MAC CB Dayonne Nunley and should make a solid climb in my PDR.

SPECIAL TEAMS - Miami had some fine finishes in my ST rankings this past decade including #16 in '03, #12 in '04 and #28 in '08. They surprisingly plummeted to #119 in '09 (net punt 29.3) in Haywood's first season. With almost everyone back in '10, they only moved up to #97. LY they had to replace their K and top RM. MU allowed blk'd punts for td's in 2 of the first 3 gms. They avg just 20.0 on KR and 3.5 on PR. Mason Krysinski only hit 2-6 FG (L45) with 1 TB on 47 KO. 3 P's comb to avg 37.0 (32.6 net). MU, as the above factors would indicate, was just #102. TY all of their key players return and while not an overwhelming unit, they could improve upon LY's finish.

COACHES - Miami is known as the "Cradle of Coaches" with Sid Gillman, Woody Hayes, Ara Parseghian and Bo Schembechler having coached here. Randy Walker moved on to Northwestern in '99 and Terry Hoeppner left for Indiana in '05. Don Treadwell returned to his alma mater where he was WR and captain of his FB team then coached RB's ('92) and WR's ('93). He was an OC at Mich St ('07-'10), Cincy ('05-'06), Ball St ('03-'04) and his first 6 yrs of coaching were under Jim Tressel at Youngstown St ('86-'91). The OC is John Klacik, with 26 yrs of collegiate coaching exp (DII HC Lock Haven 6Y). The new DC is Jay Peterson who was the LB cch here LY and is in his 2nd stint with the team (DC here '91-'98).

PHIL'S FORECAST

From 1995-'05 the RedHawks had 11 str winning seasons but then suffered through 4 str losing years. In Mike Haywood's first yr of '09, MU went just 1-11 (worst s/'88). They were -24 in TO's in '09 putting them at the top of my Turnovers=Turnaround chart. They also claimed the top spot of my Off YPP as they were at a horrible 22.0, so both charts called for major improvement. I thought Haywood had a much more disciplined approach in '10. MU became the first team in MAC history to go from 1-7 to 7-1 in MAC play and the first team in NCAA history to go from double digit losses to DD wins. They caught a lot of breaks along the way including in the MAC Title game where they got a 4&20 tipped pass for a FD to get past NIU. They then beat MT in the bowl to finish 10-4. Last year they had a new HC in Don Treadwell but he inherited 17 ret sts and they were the MAC media's pick to win the East. I was not as high on Miami for numerous reasons. First of all, they'd benefitted from +11 in TO's in '10 and an amazing +6 net close wins and lost 21 lettermen. I wrote that they would not come close to that 10 win total. Miami did play well in the opener vs Missouri (291-270 yds) but lost and then had a 6 pt loss at Minn (Miami 6 yd edge). They lost to BG by 14 (BG 310-308 yd) but then lost to Cincy 27-0. Interestingly in their 0-4 start, they were only outgained by 38 ypg which had them undervalued at that point. They trailed Army 28-14 in the 3Q but rallied for their 1st win. In 40 mph winds, they were outgained by Kent St 244-166 but prevailed 9-3. After an expected 21 pt loss to Toledo, they benefitted from Buffalo missing their top 2 WR's (inj) and turned a 14-13 lead into a 41-13 win. The RedHawks destroyed Akron 35-3 then played a good game vs Temple, which was w/o RB Pierce and only lost by 3 (Miami 428-310 yd edge). MU was only outgained by WM by 5 yds and lost by 3. Versus an Ohio tm that was looking forward to the next wk's MAC Title game, they lost by 7 (-2 yds). While Miami dropped to 3-5 in MAC play, they were +25.8 ypg, had 2 net close losses, were -4 in TO's and this yr ret 16 st'rs in the 2nd yr of Treadwell's systems. They also had a very poor off ypp (17.5) and this is a team that was the MAC Champ 2 yrs ago. Despite a non-conf slate with Ohio St, Boise St and Cincy, Miami makes my coveted Most Improved List.

POSITION OUTLOOK FOR 2012

QUARTERBACKS - QB Tyler Sheehan took over in '06 and left as BG's #2 career passer and as a senior threw for 4,051 (65%, 27-7). In '10 BG shifted to more of a West Coast offense and coming into the season this unit had just 13 career pass att's, all by soph Aaron Pankratz. As I projected, rFr Matt Schilz (PS#188) won the job and threw for 2,223 (61%) but with just an 8-14 ratio. Schilz was inj'd vs Marshall and could barely throw in practice and had to numb his shoulder for games. Last year Schilz and rFr Trent Hurley split reps during spring and Aug but Schilz retained his job. HC Clawson noted that Schilz was making plays with his feet in '11 eluding the pass rush, something he did not do in '10. Schilz had 437 vs WY (5th best schl hist) but had 4 TO's. After 4 gms Schilz was leading the nation in td passes (14) and later threw for 400 vs Kent St finishing with 3,024 (59.5%) while improving his ratio to 28-13. Hurley played in just 4 (115 yds) while true frosh Matt Johnson (PS#98) and Malik Stokes (PS#101) RS. This year Schilz (Hurley trans) should be one of the MAC's top QB's.

RUNNING BACKS - In '08 BG's leading rusher had just 400 (4.5). In '09 the diminutive (5'7") Willie Geter led with 705 (4.0). With a healthy O-line Geter probably would have topped 1,000 (718, 3.6, #4 rec) as the Falcons avg just 63 ypg (2.1) in '10. BG moved rFr WR Jordan Hopgood (PS#202) to RB and he was #2 (167, 2.2) as the short ydg RB and Wildcat QB. LY they lost Geter but ret'd Hopgood and the team avg (123 ypg (3.7). Anthon Samuel (PS#229) had 141 vs Idaho, the most by a BG player in his first game since '06 (Freddy Barnes 158). Samuel also had 122 vs Morgan St and a schl rec 96 yd TD run vs Miami but missed WV (inj). He topped 100 vs both Tol and Tem and became the first BG Fr RB ever to top 800 yds (Chris Bullock, 769 '06). Samuel missed 2 of the final 4 or would have topped 1,000 but was still MAC FPOY. RFr Jamel Martin (PS#170) rushed for 111 (4.8) vs WV but did not top 50 in a gm the rest of the ssn and was #2 (280, 3.6). Hopgood was banged up missing the L/3 (213, 3.5, 4 td's). With all 3 out in the finale John Pettigrew had 50 vs Buff. This year the unit returns intact and they add VHT Andre Givens (5'10" 185 rFr, PS#46) from Pitt and I think Samuel will be one of the MAC's top RB's.

RECEIVERS - In '09 BG had to replace 4 of their top 6 rec's but Freddie Barnes (1770, 11.4) set an NCAA record for rec in a season (155) and was a Biletnikoff finalist. In '10 they had to replace 3 of their top 5 with the leading returnee being #3 Adrian Hodges (417, 9.1). Kamar Jorden finished #3 on BG's all-time list for single season rec yds (Barnes '09 and Cole Magner '03) with 1,109 (11.6). LY Jorden returned but they had to replace 3 of their top 5 (comb 939, 10.3) with the other leading returnee being TE Alex Bayer (298, 13.5). Eugene Cooper had 4 td's vs Morg St (1st s/Jeff Groth in '78). Jorden had 203 vs Kent St and then 152 vs NIU. He became the first BG rec to have two 1,000 yd ssns and led with 1,089 (14.0). TY they lose 1st Tm MAC Jorden (12 st), Hodges (3 st, 197, 13.1), Ray Hutson (1 st, 12 rec) and Cooper (7 st, 808, 12.1). This year They are deep at TE with the top 3 avg 6'5" 263 and add Michigan transfer VHT WR Je'Ron Stokes (PS#11). This is the least experienced unit on a very experienced team and it will be tough to replace Jorden and Cooper's production.

OFFENSIVE LINE - In '10 the OL had to replace 3 st'rs and had 52 car sts back. Their numbers actually dropped to 63 rush ypg (2.1) with 35 sks (most s/'00). True frosh Dominic Flewellyn, took off his RS and started 8. Due to injuries and lack of depth, DL Jordon Roussos (6 st) and DL Nick Torresso (7 st) moved to OL. BG also lost their LT (inj). LY they had to replace 3 OL (comb 24 sts) but returned 4 who had 7+ sts (63 car sts). As you would expect, there was major improvement to 123 ypg rush (3.7) with 23 sks (5.4%). TY they only lose C/T Ben Bojicic (12 st, 4Y st'r), LT Kyle Bryant (6 st, inj) and Scott Lewis (1 gm). Four of the 6 who logged the majority of the time return (72 car sts). They also add in a VHT PS#89JC (IFS) and clearly have the best O-line in Clawson's 4 years.

DEFENSIVE LINE - In '09 this unit lost all 4 st'rs and their top DL had just 2.5 sks. As you would expect, they allowed 194 ypg (5.4). Eight different DL started including 2 true frosh (5 st comb). In '10 they had to replace 3 DL (comb 20 sts, 52 tkl, 4 tfl). Clawson said a focal point of recruiting was the D-line as it lacked playmakers and size. BG still allowed 208 ypg (5.3) with just 10 DL sacks (17 tm). There were some positive signs as they allowed 253 ypg (5.8) in the first 6 but only 129 (3.8) the next 4. LY they had to replace 2 st'rs. Bkp DT Chris Jones (295 lbs) led in sks (6) in '10 and for a 2nd straight year they returned 2 st'rs and I expected improvement. This time they yielded 203 ypg (4.9, 21 sk) as Jones led the MAC with 8.5 sks. TY they lose DE Kevin Moore (11 st, 32 tkl, 1.5 sk) but have 9 of their top 10 back including 1st Tm MAC Jones and this is by FAR the best D-line that Clawson has fielded here.

LINEBACKERS - LY the LB unit had to replace 2 st'rs (#3, #5 tkl'rs) but did return Dwayne Woods who was by far their #1 tkl'r with 134 (43 more than #2), their #11 tkl'r, Jerry "BooBoo" Gates and their #13 tkl'r rFr Paul Swan. Clawson felt it was his best LB unit in terms of athleticism, playmaking ability and depth and they helped BG to allowing 28.8 ppg (33.6 in '10). This year the unit returns intact including their #1, #2, #5 and #8 tkl'rs with Woods earning 1st Tm MAC. Gates was at Rover (LB/S) last year and moves to Whip TY (SS) but could always return. This is the best LB unit in Clawson's 4 yrs.

DEFENSIVE BACKS - BG was just #88 in my PDR in '07 and I wrote in '08 that I expected a significant climb and they did not disappoint (#26). In '09 they had to replace 1st and 2nd Tm MAC DB's and their star, PJ Mahone, was suspended for 6 games. Not coincidently the team was 2-4 without Mahone (5-2 with him). The less exp'd unit still finished #42. In '10 they had to replace 2.5 st'rs and BG slipped to #89 (63%, 25-14). LY they had 4 ret st'rs but only 1 was able to retain his job. They brought in 3 CB's which Clawson felt was their strongest position of the true frosh. Despite the relative inexp, BG climbed backup to #43 (56.6%, 14-6). TY they lose S Jovan Leacock (2 st, 24 tkl) and S Keith Morgan (35 tkl). If Gates stays at S they have 6 who started 7+ LY making it vastly more exp'd but may have problems moving up much in my PDR.

SPECIAL TEAMS - In '08 BG finished #82 in my ST rankings and in Clawson's first 2 yrs they were #97 and #94. Last year they had to replace their K (4-9 FG), P (36.0 net) and top KR (19.2 PR) as well as their 4 year LS. I summed it up by saying if Clawson could uncover a K they should improve. Soph "BooBoo" Gates was solid on coverage but also a dangerous KR (25.8) earning 2nd Tm MAC. Kyle Burkhardt hit 1-2 FG but after a missed xp vs Miami, Stephen Stein took over and hit 8-11 FG (L39, only 1 att 40+). Burkhardt had 1 TB on 49 KO. They recruited Tyler Tate (PS#61) to handle those jobs but he was hurt. New P soph Brian Schmiedebusch (strong leg) avg 45.3 per punt (40.6 net, #5 FBS!) with 18 I20. He was 1st Tm MAC and a semi-finalist for the Ray Guy Award. Clawson said "he's got a great leg, he gives us time to cover." He was a straight on P at Div II Findlay (42.1 avg '09) but the Falcons changed him into a rugby-style punter. After not having finished higher than #82 s/'05, BG finished a lofty #30 and with almost everyone back, could improve again.

COACHES - Dave Clawson was the HC at Fordham ('99-'03) and Richmond ('04-'07). The Spiders were 11-3 in '07 and had a school record 8,817 yds in '05 and '06 combined. He is a 2-time IAA National COY. Clawson was much maligned as the OC at Tennessee in '08, but took the Falcons to a bowl in his first year here. His OC is Warren Ruggiero (4th yr) who was the Kansas St QB coach in '08 (6 yrs OC at Elon and Hofstra). DC Mike Elko (4th yr) was previously the DC at Hofstra ('06-'08).

PHIL'S FORECAST

Urban Meyer guided BG to 8-3 and 9-3 finishes and they were ranked as high as #20 in '02. In '03 under new HC Gregg Brandon they got as high as #15 and finished first in their division in '03, '05 and '07. In Brandon's last year ('08), BG went 6-6 (2nd East) but did beat both #25 Pitt and WY on the road. Dave Clawson inherited a senior/soph team in '09. They had the most favorable schedule of the teams in the East (faced bottom 3 of West) and had been +38 ypg in MAC play in '08 with 3 net close losses. BG opened 1-4 but finished 7-5 (lost to Idaho on a 2 pt conv :04 left in bowl). From '01-'09 BG went 48-25 in conf play with only 1 losing MAC record. In '10 BG had just 8 st'rs back (lost 22 Sr's). This time BG did not catch the same breaks and suffered their first ever 10 loss season. LY there were a lot of indicators pointing up as they had 3 net close losses in '10 (pg 309) losing 4 gms on the final play. LY BG was finally up to 84 schlp players as in '10 they had 44 schlp players on the bus for some MAC road gms. Of their 14 schlp Sr's, 7 were orig walk-ons. They took on the toughest MAC schedule with home gms vs the top 4 meaning their most winnable gms were on the road. BG still finished a respectable 3-5 (conf) and 5-7 (overall). They dominated Idaho (478-280 yds) then beat Morg St 58-13 (bkps in 2H). They got a td with :02 left vs WY but their xp was blk'd and they lost. At Miami they only had a 310-308 yd edge but got a 96 yd td run in the 4Q giving them the win 37-23. They used WV (lost 55-10) as a paycheck gm resting their top RB and WR and then were rolled by WM, 45-21. BG lost to Toledo by 7 at home but then upset Temple, 13-10 (318-284). They were closer than the final vs Kent St (KSU 9 yd FR td :07 left, BG 445-319 yds). NIU whipped them the next wk (623-334 yds). BG had a bye and then allowed a 23 yd FG on the last play to lose by 1 vs Ohio. They beat Buffalo 42-28 in the finale. BG had four 1st Tm MAC players (most s/'04). BG was -65.9 ypg in the MAC (3rd worst) but had 3 close losses, was -13 in TO's and is a much more veteran tm with 17 starters back and make my coveted Most Improved List.

First meeting. BG is 7-4 in road openers (8 gms vs BCS tms incl wins at Mizzou, #16 Purdue, Minn & #25 Pitt). Falcons are 2-9 since '04 vs BCS schools on the road/neutral site.

BG is 1-1 vs UI (lost '09 bowl). LY BG trailed 7-0 but lead 30-7 into the 4Q. The Falcons are 10-1 in home openers (only loss vs Minn in '08). Into '12, BG is 10-19 S/'05 in non-conf gms.

Rivals are just 26 miles apart. 77th meeting, played every yr S/'48. LTH BG was down 26-7 at HT as their only 2H score was a 71 yd PR td. BG never punted after HT (SOD at T25, int, missed fg & int at T14).

BG is 0-2 vs VT (both gms in Blacksburg) & 0-5 vs the ACC (avg score of 32-15). LTH ('93) the Falcons lost 33-16. Under Clawson BG is 0-4 vs ranked opp's w/an avg score of 49-16.

First meeting. The Rams went 3-8 LY (10th str losing ssn) incl losses at Syracuse (21-14) & UMass (36-27). Since 1999 the Falcons have won 6 str vs FCS schools winning by 42 ppg.

BG is 10-5 vs UA. LTH ('08) the Falcons won 37-33. BG trailed 14-0, 21-7, 24-14 & 27-14 into the 4Q. Down just 5 BG went 74/7pl getting a 21 yd td pass w/4:52 left & later tacking on a 44 yd fg.

KENT ST GOLDEN FLASHES

SS Luke Wollet

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Two of Kent St's recent QB's are now playing big roles in the NFL, but both at diff positions. Joshua Cribbs finished as the career leading passer and is a WR/RS with the Cleveland Browns. In '08 Julian Edelman became the 2nd KSU QB to top 1,000 yds pass & rush with 1,820 pass (56%, 13-11) and 1,370 rush (6.4). He is now a WR/CB/RS for the Patriots. In '09 their starting QB was inj'd in the opener. True frosh Spencer Keith (PS#153) took over throwing for 2,147 (57%, 14-11) but did miss the final 2 (inj). In '10 Keith had hand and thumb inj's and was pulled due to ineffectiveness in 1 gm but still threw for 2,212 (59%, 8-11). LY his bkp was ruled acad inelig over the summer. HC Darrell Hazell had 2 frosh as bkps and neither were ready to play so he was very careful with Keith early on. He simplified the offense around midseason reducing the amount of checks Keith could call at the line. In the first six, Kent St threw for just 568 yds but doubled that over the last six throwing for 1,177. Keith saw his numbers drop to 1,682 (51.1%, 11-8, 49 rush). This year added to the mix is Evan Shimensky (5'10" 175 rFr, PS#112). They add JUCO David Fisher (PS#119) who adds mobility and will challenge for the job. Now in the 2nd year of Hazell's schemes, I expect dramatic improvement from the Kent St QB's.

RUNNING BACKS - In '10 Jacquise Terry (647, 4.7 '09) led with 542 (3.6) in 9 sts. LY Terry rushed for 360 (4.9) but 250 lb true frosh Trayion Durham (PS#92) led with 630 (3.4) while diminutive true Anthony Meray (5'7") was surprisingly a tough inside runner and finished #3 (244, 3.7). This year they lose Terry but I like the Durham/Meray combo plus they add in speedy Dri Archer (4.3 spd, inelig LY) and I look for good sized improvement in the KSU rush numbers.

RECEIVERS - Tyshon Goode led in '09 with 755 (14.2) and did so once again in '10 with 743 (12.6, 59 rec). Sam Kirkland, who had 3 car sts (246, 9.8, '08-'09) stepped up his game and finished #2 with 599 (10.7, 56 rec). They were the first pair of WR's in Kent St history to each top 40 rec's in the same season and both ret'd. Surprisingly Goode dropped to #2 with 316 (13.2) with only 24 rec's while Kirkland tied for the lead in rec's with 32 but had just 285 yds (8.9). Chris Gilbert (moved from CB spring) led with 399 (14.8) and Matthew Hurdle (PS#149) was #4 with 251 (12.6). TE Justin Thompson tied Kirkland for #1 in rec but finished #5 in yds (222, 6.9). This year they lose Gilbert (5 st), Kirkland (9 st) and Thompson (9 st). Despite losing 3 of the top 5, they are in the 2nd year of their new system and should top LY's underwhelming numbers.

OFFENSIVE LINE - In '08 the OL had just 2 ret sts but KSU had a Doug Martin era high 231 ypg (5.3). Of course having mobile QB Edelman helped. In '09 the O-line ret'd 4 st'rs and true frosh Brian Winters (one of tms strongest) earned a starting spot. With the loss of Edelman (1,370 rush in '08 vs 85 yds comb from 3 QB's in '09) their numbers dropped to 115 ypg rush (3.5, 19 sk, 4.8%). The 2-deep had 3 true frosh. In '10 they had 3 st'rs back and had similar stats (114, 3.6, 22 sk). LY they ret'd 4 st'rs (lost 3Y st'r OG). The unit struggled but during the bye, Hazell revamped the O-line moving RT Josh Kline to LG, RG Kent Cleveland to RT and inserting soph Tyler Arend at RG. After the team avg'd just 181 ypg (75 ypg rush) in the first 7 gms, they improved to 356 ypg (154 ypg rush) over the last 5. They also all'd 25 sks in the first 7 games but just 5 in the last 5. It sure will be strange not having Chris Anzevino who snapped the ball the last 4 yrs (st'd all 48 gm) as he departs but 9 of the top 10 return and I look for continued improvement from a Golden Flash O-line that has 101 car sts back (#8 FBS).

DEFENSIVE LINE - I list Kent St in a 4-3 classifying the LEO position (DE/LB) as a DE. In '08, for the 4th straight yr, KSU lost a 1st Tm MAC DL (and 1 other st'r) and slipped to allowing 179 ypg rush with their 4.5 ypc being the highest and their 18 sks the fewest s/'03. In '09 they had 2 ret sts (lost 1st Tm MAC DL) but improved to 137 ypg (3.6, 33 sk). In '10 they had to replace 2 st'rs and one bkp (comb 12 sks) yet I sill rated their DL #3 in the MAC. True frosh Roosevelt Nix led the FBS with 4 FF and led the MAC in sks (10) and tfl (20) despite just 1 start. Kent St led the FBS most of the season in rush D finishing #4 (97 ypg, 2.7) as the D-line had 26 of the tms 35 sks. Last year they had to replace 3 DL (comb 25 sts). In the spring Hazell thought his best DT was Ishmaa'ily Kitchen but Nix surprised him almost on a weekly basis. Nix's numbers were not overwhelming (39 tkl, 4.5 sk, 12.5 tfl) but he drew double and sometimes triple teams. Kent St had solid rush D numbers yielding just 129 ypg (3.5) although the sacks slipped to 26. This year they lose DE Lee Stalker (12 st, 29 tkl, 2 sk), NT Kitchen (6 st, 13 tkl, 2.5 tfl) but return Nix and this unit is clearly one of the MAC's best.

LINEBACKERS - In '10 the Flashes had to replace 1 st'r (#8 tkl'r) but had 5 of their top 6 back (#1, #5, #14). KSU had one of the nation's top rush D's and allowed 22.9 ppg (all'd 22.4 in '09). LY they had to replace a 2x 1st Tm MAC MLB (#3 tkl'r), 3rd Tm MAC WLB (#1) and a bkp (1 st, 19 tkl). While they ret'd their #5 tkl'r, the rest of the LB's comb for just 18 tkls in '10 making the unit less exp'd. KSU only slipped to allowing 24.3 ppg as JUCO WLB CJ Malauulu was the #2 tkl'r with 9.5 tfl. TY they have to replace SLB Kyle Reese (8 st, #10 tkl'r, 4.5 tfl) and WLB Byron Tyson (1 st, 4 tkl). They return their #1 and #2 tkl'rs (both Sr's) making this a more veteran unit.

DEFENSIVE BACKS - In '09 Kent St star FS Brian Lainhart (#2 tkl'r) snagged 7 int's and earned 1st Tm MAC. He was a big reason why KSU rose to #31 in my PDR almost topping '06's exceptional #25 finish. In '10 they had 3 st'rs back incl Lainhart. I was a little surprised they slipped to #50 (61%) but keep in mind their rush D was #4 in the FBS so teams had to pass more often. LY they had to replace 2nd Tm MAC Lainhart (#2 tkl'r) and their starting SS (#6 tkl'r). I thought they would drop a few notches but they actually moved up to #35 (55.7%, 11-14). TY they lose 2nd Tm MAC CB Josh Pleasant (12 st, 59 tkl, 2 int, 11 pbu) but have 7 of their top 8 back incl Calvin Tiggle who had 3 FR's and was the #3 tkl'r despite missing 2 gms and Luke Wollet who was the #4 tkl'r as a soph LY. This unit is more exp'd and should continue to improve.

SPECIAL TEAMS - Perhaps the asst coach with the biggest impact on any position in the country in '09 was Zane Vance. KSU had 3 losses in '06, 4 in '07 and 3 in '08 due to poor ST play and Vance posted that fact on the teams lockers. Vance brought a new attitude to the ST. In the previous 4 yrs KSU finished #107, #117, #82 and #117 in my ST rankings. In '09 with a frosh K and soph P they moved up to #44. Freddy Cortez hit 13-19 FG's (L46). Kent St allowed just 15.0 per KR (#1 FBS) and P Matt Rinehart was 1st Tm MAC. The unit ret'd intact but only finished #54 in '10. Rinehart was 1st Tm MAC (37.8 tm net). Cortez hit 11-17 FG's (L45) and limited opp's to 17.5 KR despite just 2 TB's while the return game was avg. Last year all of the key players ret'd but they lost coach Vance and dropped to #109. Cortez hit 13-17 FG (L49) but missed 5 xp's. He had 15 TB on 48 KO. Rinehart set a school P record avg 42.8 but his net dropped to 33.2. This year they lose Rinehart but can only improve in my ST rankings.

COACHES - Darrell Hazell took over a program in '11 that hasn't had a winning season s/'01. While KSU finished 5-7 they did win 4 of their final 5. Hazell coached WR's at Ohio St ('04-'10) and Rutgers ('01-'03) while also serving as asst HC at both schools. OC Brian Rock was previously a WR cch at Purdue ('08-'10) and a longtime asst at Western Michigan ('92-'05, 5Y as OC). DC Jon Heacock is also in his 2nd season here after replacing Jim Tressel as the Youngstown St HC ('01-'09). He left there with a 60-44 record.

PHIL'S FORECAST

Kent St had THREE alumni selected for the '08 NFL Pro Bowl in Joshua Cribbs, Antonio Gates and James Harrison while Julian Edelman was in the Super Bowl LY. KSU, however, has had just 2 winning seasons since 1977 and one came in Cribbs' first ssn as a st'r in '01. Former HC Doug Martin led the tm for 7 yrs but surprisingly had just 1 non-losing ssn (6-6 in '06). That year I had them as one of my Most Improved Teams in the country coming off a 1-10 ssn. At one point KSU was 5-2 and had the MAC East Title in their control but QB Edelman was not 100% the last 4 and they lost 4 of their last 5. KSU had a near miss in '09 at 5-7 and had 14 ret sts in '10. Martin resigned before the ssn finale and KSU knocked off Ohio, a tm that needed a win to get to the MAC Title game, 28-6. LY Darrell Hazell said he was surprised at how good the talent level was that he had inherited (14 ret sts). KSU's offense got off to an extremely slow start avg just 181 ypg the first 7 going 0-6 vs FBS teams. Hazell shuffled the O-line and the team almost doubled that output with 356 ypg while winning 4 of the final 5 and entered the final wk with a shot at the MAC East Title. KSU had the misfortune of playing the best D in the NCAA in Alabama in their opening 48-7 loss and in the pouring rain they lost to Louisiana 20-12 despite a 186-159 yd edge. They were shutout 37-0 at Kansas St. They had a 33-0 3Q lead vs South Alabama before some garbage scores. They were outgained by Ohio 380-200 but a blk'd FG and a blk'd punt in the 1H had them only lose by 7. Against NIU they totalled just 64 yds of offense. They led Miami 3-0 at half (Miami did not cross it's own 40 until mid 3Q) but lost 9-3 despite a 244-166 yd edge. After the shuffling of the OL, they beat BG 27-15 and then had their first ESPN2 game at Dix Stadium and beat CM 24-21 (Keith ssn high 281 pass) as CM missed a 28 yd FG on the last play. After having their largest MOV over rival Akron s/'74 (35-3), they got past EM 28-22 with EM being int'd in the EZ with 1:47 left. In the ssn finale they led Temple 6-0 but gave up a 100 yd KR and despite a 363-315 yd edge, lost by 18. KSU was -33.3 ypg (5th worst MAC) and did benefit from being +12 in TO's but they have 16 ret sts and are now in Hazell's 2nd ssn. The Flashes should continue LY's momentum (4-1 finish) with a strong start but their schedule gets a lot tougher in the 2H of the ssn. They have my #1 rated D in the MAC which makes them dangerous.

BUFFALO BULLS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 Buffalo had to replace their career passing leader Drew Willy who threw for 3,304 (65%, 25-6) in '08. In '09 Zach Maynard was the clear-cut starter (2694, 58%, 18-15) and his mobility added to the offense (#3 rusher). Jerry Davis went 8-15-145 in 5 gm as a rFr. After the HC change, Maynard transferred to Cal. In '10 Davis won the job and was the first UB QB to throw 3+ td's in 3 of his first 5 gms. He finished with 1,753 (48%, 16-16) but had 6 int's ret'd for td's. HC Jeff Quinn was going to RS Alex Zordich but he got playing time vs NIU and st'd the next 4. Zordich added some QB runs to the offense. He threw for just 428 (42%, 1-6) and was inj'd on a run vs Ball St allowing Davis to start the last 2 (222, 63%, 2-0 vs EM). Buffalo's QB's in '10 completed just 45% (17-23 ratio) and I called for significant improvement. Over the summer they added Cincy trans Chazz Anderson (PS#95). Anderson, who had 3 sts at Cincy (759, 59%, 3-4), won the job and had some big games. He had a 68 yd td run vs Tenn showing his mobility and his 404 pass yds vs NIU were the most from a IA UB QB. His 4th rushing td set a single season school QB 1A record. He threw for 2,454 (56.7%, 11-9, #2 rush 309). Zordich played in 4 (5-12) while Davis, true frosh Joe Licata (PS#84) and Tony Daniel (PS#128, 6'5" 205 rFr) DNP. Anderson's productivity will be tough to replace but Quinn calls this his most talented group of QB's that he's had here.

RUNNING BACKS - In '08 James Starks led UB with 1,333 (4.9) and 17 td's. He missed all of '09 yet was still a #6DC. The Bulls used a RB-by-committee in '09 and true frosh Jeffvon Gill rushed for 252 (6.3). Ike Nduka became the first UB RB to top 100 in each of his first 2 career sts and led with 598 (6.2). True frosh Branden Oliver beat out both in '10 and his goal heading into the ssn was to break Stark's single season record but he didn't fit well in Quinn's spread offense and led with just 298 (2.9). Gill finished #2 with 273 (4.3). Quinn tweaked the offense to allow more downhill running in '11 and the main beneficiary was Oliver. He set school rec's for most carries (306), rush yds (1,395), all-purp yds (1,760) and 100 yd gms (8) and was even the #3 rec (365, 9.6). Gill had 64 (3.4) and the speedy Brandon Murie added 33 (8.2). James Potts (PS#164) was inel. Anthone Taylor (5'10" 202 So, PS#235) had 33 ttl yds. Everyone returns with the exception of Gill and while it will be tough for Oliver to improve much, he is the MAC's best RB.

RECEIVERS - In '10 the Bulls had to replace their #1 career rec in 1st Tm MAC Naaman Roosevelt (954,13.6 in '09), 2nd Tm MAC WR Brett Hamlin (898, 14.0) and 1st Tm MAC TE Jesse Rack (432, 14.4). The leading returnee was Terrell Jackson (250, 10.0). Gill liked the explosiveness and hands of rFr Alex Neutz and Fred Lee. Dropped passes plagued the unit in '10 (4 dropped td's vs Ohio). Marcus Rivers led with 690 (13.8). Neutz was #2 (414, 15.9), Jackson #3 (397, 9.2) and Ed Young #4 (194, 9.7). LY with their top 6 back, Quinn said that it was as solid a group he'd been around in his 28 yrs of coaching. Neutz led with 641 (14.9) despite being OFY after a 2Q inj vs Miami (miss 3.5 gm). Terrell Jackson (explosive PR) was lost after 7 gms. Rivers finished with 615 (10.2). This year they lose Jackson (5 st, 130, 8.7), Rivers (11 st), Young (4 st, 357, 13.2) and TE Aaron Connacher (5 st, 1 rec). They look to have 2 conv QB's starting. With their top guy Neutz back, hopefully they will remain healthier and I look for improved production.

OFFENSIVE LINE - In '10 UB had to replace 3 OL (comb 23 sts). Matt Ostrowski (11 st '09) broke his leg after 3 so they basically had 3 st'rs back and moved to zone blocking from Gill's smash mouth style. The Bulls dropped to 113 ypg (3.1, 27 sk). LY they had to replace 3OL (pair 4Y st'rs). They then lost LT Pat Wilson (11 st '10, RS '11) and Josh Violanti lost his spot. They had 27 car sts among the starters. The Bulls surprisingly improved to just 155 ypg (4.3, 23 sk). TY they lose LT Ostrowski (12 st, 2Y st'r) and Violanti (20 st '09-'10). They have 8 of their top 10 back plus they get the return of Wilson to improve to 72 car sts ret and could be the MAC's top O-line.

DEFENSIVE LINE - In '09 UB had to replace 3 DL (comb 35 sts). DE Steven Means was beat out by rFr Jerry Housey, but Housey missed the last 5 (knee). Means' 2 sks in Wk 6 were actually the first by a DL in '09. Surprisingly, the less experienced unit improved to allowing 132 ypg rush (4.1, 22 sk). In '10 they had to replace 3 DL (comb 23 sts, 9 tfl). Buffalo switched to a 3-4 and all'd 159 ypg but just 3.8 ypc (DL 5.5 of tm's 16 sk). LY they had 1 st'r back on the 3 man front. Colby Way gained 35 lbs (up to 270) and started the last 5 at DE. Buffalo slipped some allowing 181 ypg (4.3) with 16 sks. TY they lose NT Richie Smith (12 st, 45 tkl, 5.5 tfl) and DE Gordon DuBois (7 st, 27 tkl, 2 sk) but return 4 of their top 6 making this unit more experienced and stronger.

LINEBACKERS - In '10 the Bulls had to replace 1 st'r while adding a spot and then lost Scott Pettigrew (11 st, #4 tkl'r '09, RS '10). The lone ret st'r was top LB Justin Winters with Raphael Akobundu having 13 st in '08 (2 st '09). RFr Khalil Mack already had an NFL-type body at 6'3" 244 and was the #3 tkl'r while leading in tfl with 14.5. LY they had to replace their #2 and #4 tkl'rs but ret'd Mack along with 3 LB's who split 9 sts (comb 53 tkl) and also got back Pettigrew. Mack was a one man wrecking crew in the first 4 but teams started game planning for him. He still finished with 5.5 sks and 15 tfl (1st Tm MAC). Pettigrew was not 100% (0 st, 32 tkl) but is now another yr removed from injury. TY they lose Fred Branch (12 st, #1 tkl'r, 4.5 tfl) but have 5 of their top 6 back including Lee Skinner, an All-State wrestler in HS (#2 tkl'r as rFr). They also add Cincy transfer Ryan Paxson and scout tm DPOY Jake Stockman. New DC Lou Tepper had 3 Butkus Award winners at Illinois and authored the 328 pg book "Complete Linebacking." This should be one of the MAC's top LB corps.

DEFENSIVE BACKS - In '09 UB had their entire secondary back for a 2nd str yr and earned their best finish ever in my PDR at #46 (#54 in '05). In '10 they had to replace a 2nd Tm MAC FS but did have a trio of returnees with 71 car sts, but surprisingly dropped to #63. LY UB had to replace a 4x 1st Tm MAC FS in Davonte Shannon (#1 tkl'r), a 1st Tm MAC SS, a #5DC CB and one other st'r. They moved in LB Josh Copeland but even so the unit had just 9 car sts. As expected, Buffalo was #36 in pass yds allowed in the FBS but dropped to #103 in my rankings (59.1%, 25-6). TY they lose Copeland (11 st, #3 tkl'r, 4 pbu) and CB Joe Petit (23 tkl). This unit is much more exp'd and should make a pretty good climb in my PDR.

SPECIAL TEAMS - Heading into LY the Bulls' ST units had only finished #111, #109, #98, #117, #119, #118, #94, #71, #109, #117 and #112. LY they only had to replace their K but that proved important with crucial missed xp's vs Ball St and NIU. Peter Fardon (5-10 FG, L40) lost his spot to Patrick Clarke after a missed xp vs Miami. They had to flip their wings as Fardon is right-footed and Clarke left-footed. Clarke did hit 6-6 FG (L49) and also had 7 TB on 54 KO. P Jacob Schum avg'd 39.0 (tm net 34.8). UB did lose their top 2 PR's (inj) and fumbled 2 punts which led to NIU td's as the return game was below avg. TY they lose Fardon, Schum and their top RM Jackson. The Bulls actually moved up to #93 LY (blk'd 6 kicks) and will shoot for their best finish in 11 years (#71).

COACHES - HC Jeff Quinn came from Cincinnati where he was the OC/OL cch for 3 years and also served as the interim HC in the Sugar Bowl in '09. Quinn was Brian Kelly's OC at C Mich (also interim HC in bowl) and Grand Valley St. OC Alex Wood enters his 2nd season here and was the Miami, Oh WR coach ('10), the Ark pass game coor ('06 &'07), the Arizona (NFL) OC ('04) as well as the James Madison HC ('95-'98). Quinn brings in veteran Lou Tepper as the new DC. Tepper has 101 combined wins as HC at Illinois ('91-'96), DII Edinboro ('00-'05) and DII IUP ('06-'10).

PHIL'S FORECAST

Buffalo joined the MAC and IA ball in 1999 and their best season in their first 8 yrs was 3-8 back in '01. In '07 they came close at 5-7 incl 5-3 in the MAC and were actually +70.1 ypg (3rd in MAC). In '08 a lot of things broke in their favor. They got a 35 yd Hail Mary pass to beat Temple (led for just 1:49). They trailed Army 24-10 but won it in OT. UB beat Akron in 4OT and trailed BG 27-7 in the 4Q but won in 2OT. In the MAC Championship the Bulls were outgained 503-301 but got 2 long FR td's (28 pt swing) and won the MAC Title. UB was actually -2.1 ypg in MAC play (8th best) and they benefitted from +19 in TO's. That of course made them the classic Turnovers=Turnaround team in '09. While they improved statistically (+51.4 ypg MAC), the Bulls did not catch the same breaks and dropped to 5-7 (-7 in TO's). Turner Gill left for Kansas and Jeff Quinn took over switching to the spread offense in '10. UB finished in a 3-way tie for 5th or last place in the East but their -71.1 ypg was by far the best of that trio. After going 13-13 in '08 & '09, they were just 2-10 in '10. LY UB had just 10 ret sts and I mentioned they might be an underdog in their first 8 FBS games and they were (F/9 gms). Their record improved to 3 wins and they were actually #7 in the MAC at -2.7 ypg despite having 1 less MAC win. They were only outgained by Pitt 410-403 but lost by 19. UB then beat Stony Brook 35-7. The Bulls led Ball St 25-21 but gave up a td with :29 left and lost by 3. They had a 319-293 yd edge vs Conn but 2 big plays (64 yd pass to set up a td and 49 yd td pass) were the diff in their 14 pt loss. UB used Tenn as a paycheck game (lost 41-10) but rallied for a 38-37 win with 510 yds vs banged up Ohio. They were shutout 34-0 by Temple. Against eventual MAC champ NIU, UB had a 572-328 yd edge. They trailed 31-10 but after the apparent tying td with :14 left missed the xp. The next wk they were w/o 2 of their top 3 rec's (Neutz inj the 2Q) and after trailing just 14-13 they lost to MU 41-13. UB led EM 17-16 on the road but lost by 13. They buried Akron 51-10 (pulled st'rs late 3Q) but lost to BG in 25+ mph winds, 42-28 (345-355 yd edge). Buffalo was 0-6 on the road and -144 ypg losing by an avg of 35-14 but were 3-3 at home winning by an avg of 31-24 and were +105 ypg. They also had a poor offense (16.5) and defense (13.1) ypp's in '11. Buffalo has 15 ret sts this year. Despite a tough schedule, I will call for the Bulls to top last year's 3 win total and to even flirt with bowl eligibility.

First meeting. Bulls are just 2-13 in road openers (1-7 at BCS schools). UB is 1-19 S/'03 in non-conf away gms (only win at UTEP in '09). UB last finished a ssn above .500 on the road in '96 (IAA status).

UB is 1-1 but the L/gm was in '98, UB won 35-17 (both IAA). Bears went 5-6 LY incl a 58-13 loss at BG. MSU will also play Akron TY on 9/15. UB is 4-9 (B2B wins) in home openers S/'99 (1st yr IA).

Bonus: The Bulls are 0-6 hosting BCS schools losing by an avg score of 32-14.
Note: The KSU game could be moved to Thursday 9/20 due to ESPNU scheduling.

Buffalo has won 4 of 5 but the HT is 1-5 incl 3 str losses. In the last gm ('09) it was tied 3-3 into the 4Q and 6-6 w/5:25 left. UB went 63/11pl hitting a GW 22 yd fg w/:05 left.

UB has dropped 7 str by 25 ppg incl '09 bowl gm. LTH the gm was tied 14-14 at HT. In the 2H UB was outgained 286-126 (73 yds on L/drive in garbage time). The Bulls only 2H score was a 10 yd td drive after a fum.

UB is just 1-7 in Athens. LTH UB trailed 21-0 but cut the deficit to 27-17 early 4Q. The Bulls only got the ball back once in the final 12:04 going 3&out. Into '12, UB is 10-43 in MAC AG's.

The Bulls are 1-7 vs the Huskies, incl 7 str losses (4 at DeKalb by 32 ppg). LTH UB just trailed 21-14 at HT but were shutout in the 2H being outgained 258-123 with 58 yds coming on their final drive (SOD N13).

UB has dropped all 3 meetings (all S/'08) by 19 ppg. LY UB only trailed 7-3 at HT and 21-16 w/13:27 left. The Bulls L/3 drives ended in SOD's at the P38 & P12 while time ran out at the P32 on their final poss.

The home team is 7-1. The L/meeting was in '07, UB won 43-33. UB was outFD'd 31-16 and outgained 526-435 but jumped out to a 30-10 lead thanks to a FR td and a SAF, leading by DD the rest of the way.

UB has lost 11 of 13 conf meetings incl B2B gms. LY UB never led but trailed just 14-13 late 1Q. From that point UB was outscored 27-0 tossing 3 2H ints (2 in EZ). Into '12, UB is 3-10 their L/13 MAC HG's.

UB has lost 7 str home finales by 13 ppg. Bulls are 0-5 vs WM but in the L/2 gms have lost by just 6 & 3 pts. L/meeting ('09) UB kicked a 28 yd fg to force OT but lost after missing a 43 yd fg (WM hit a GW 28 yd fg).

UB has lost 4 str vs UMass by 19 ppg (L/series win in '70). The last gm was in '98 (UB's L/ssn in IAA ball), UB lost 51-27. Overall the Bulls are 4-5 vs the Minutemen as this marks their 1st conf meeting.

Bulls are 3-6 vs the Falcons. In 2010, Buffalo led 28-13 into the 4Q with a 265 yd edge (+17 FD) but needed a missed BG 40 yd fg as time exp'd to hold on overcoming 6 TO's. The Columbus Crew play soccer at this venue.

AKRON ZIPS

WR Marquelo Suel

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 Akron had a returning starter at QB but he was susp for the year after just 2 gms. True frosh Patrick Nicely (PS#80) took off his RS and started the final 7 throwing for 1,349 (54%, 6-6) becoming the first frosh to start at QB here s/'01 (Charlie Frye). Nicely had taken all of his HS and college snaps out of the shotgun but then HC Rob Ianello moved him under C and he was uncomfortable most of the year. In '10 he threw for 1,753 (49%, 10-13). While Nicely ret'd LY, I expected JUCO transfer Clayton Moore to start. Moore (PS#49, orig at Ole Miss) threw for 2,395 (60%) with 23 td's at JC in '10. Moore did start but was banged around by Miami (gm #9, 3 of 19 pass) and over the final 4, hit just 39.8% so his numbers dropped to 1,655 (47.6%, 9-9, 132 rush). Moore did have the 3rd best streak in schl history with 119 passes without an int. Nicely played in 10 (256, 36.1%, 2-2). This year Nicely left the team in the spring and new HC Terry Bowden brings in Dalton Williams, who transfers in and ran a similar offense as a 3Y bkp (RS '10) at SF Austin (28-44-257-3-0 in 10 gm) LY. Whoever wins the job should have vastly improved numbers.

RUNNING BACKS - Akron joined IA ball in 1987 and did not have a 1,000 yd rusher until 2000. The Zips have produced 4 since ('00, '02, '05 & '08). In '10 their top rusher had 877 (4.7) but LY they had to replace their top 6 rushers and the unit had a comb 4 yds in '10 returning. Broderick Alexander did have 198 (3.4) in '09 (3 sts, true). I projected rFr Jawon Chisholm as the starter. FIU Coach Mario Cristobal said "Chisholm is a big guy and finishes his runs well, he breaks tackles and he is a complete back." Chisholm just missed the magical 1,000 yd mark with 961 (4.4) and Alexander added 196 (4.1). After Chisholm had his 3rd straight 100 yd game, Ianello gave some of the credit to Moore for changing plays at the LOS that resulted in significant gains. Chisholm was injured vs FIU and was not the same afterwards with just one more 100 yd effort (CM) the rest of the ssn. This year if Chisholm stays healthy, he should break that 1,000 yd barrier and be one of the MAC's top RB's, even with the switch to a new offense.

RECEIVERS - Akron's record for rec's in a season has been broken or tied 5 times in the last 10 yrs but they haven't come near those totals recently. LY they had to replace 5 of their top 6 rec's with the top returnees being Antoine Russell (221, 17.0) and Keith Sconiers (75, 8.3). 6'3" JUCO Marquelo Suel missed 3 full games and parts of others but showed his potential vs CM (112, 10.2) finishing #2 with 417 (12.3). Sconiers (PS#91) led with 639 (13.6) and Russell was #3 (276, 12.5) despite also playing CB the 2H of the ssn. 6'4" Soph AJ Price (orig at Penn St) was #4 with 196 (16.3). TY they must replace Russell (3 st) but return 11 of their top 12 rec's making this a much more exp'd unit. I like the Sconiers/Suel combo and Akron should have one of the MAC's better receiving corps.

OFFENSIVE LINE - In '10, all 5 of Akron st'rs were 300+ lbs. Two of the OL, Mike Ward and Corey Woods, each finished their careers with 48 consec sts. With 3 st'rs back (84 car sts ret) the Zips were a little weaker with just 113 ypg (3.5) and 33 sks (22 sks F/6 gm). LY they again had 3 ret st'rs, but with the loss of Ward and Woods ret'd just 49 career sts. The unit was hit hard by injuries. In fact they used 10 diff OL lineups butt still put up similar numbers (114 ypg, 3.3, 38 sk). This year they lose RG Zac Kasparek (9 st, 2Y st'r), LT Patrick McCloskey (11 st), RT Jake Anderson (12 st, 3Y st'r) and Paul Simkovich (6 st). This is a less exp'd unit (34 car sts) and will be learning a new offense but could improve upon the last few year's poor numbers.

DEFENSIVE LINE - In '10 the Zips switched from a 3-4 to a 4-3 D but had 4 back who comb for all 36 DL starts in '09. The Zips only improved slightly to 164 ypg rush (4.3) as the DL had 11.5 of the team's 17 sks. LY they had to replace 2 st'rs including a 3rd Tm MAC DE. They added transfer Oren Wilson (PS#134) who had 26 sts for Mich St in 3 yrs and DE John Griggs (orig at Iowa). The Zips lost DE Hasan Hazime after 3 sts and then DT Dan Marcoux after 7 sts (both to ACL). Akron slipped even further to allowing 220 ypg rush (4.9), their worst s/'97 with just 11 sks. TY they lose Wilson (12 st, 38 tkl, 3.5 sk), Marcoux (37 tkl, 1 sk), James Harvey (9 st, 41 tkl, 1 sk), Hazime (10 tkl) and Phil Tonga (4 tkl). They lose their best player and have just 2 st'rs back but should maintain better health and can only put up better numbers.

LINEBACKERS - In '10 the Zips returned their #1 and #2 tkl'rs but allowed 35.1 ppg, a td more than in '09. LY they had to replace their #2 tkl'r but had their top guy back in MLB Brian Wagner (#1 tkl'r '09 & '10) along with their #6 tkl'r. I noted the def could only improve but I was wrong as they slipped to allowing 38.5 ppg, their most s/'97. This year Wagner (1st Tm MAC, 11 st), after having more than twice the amount of tackles as the #2 tkl'r with 147 and 6 tfl, opted to transfer to Arizona. They also lose SLB Matt Little (9 st, #4 tkl'r, 1.5 tfl). They return their #2, #7 and #10 tkl'rs and while I'm sure their ppg will improve, with the loss of their top guy, this group is not as experienced or talented as the '11 version.

DEFENSIVE BACKS - In '09 Akron had to replace 2 st'rs and the more experienced unit moved up to #69 in my PDR. In '10 they had to replace 3 st'rs and as you would expect, the less experienced unit dropped to #117 (63%, 29-8). LY they had to replace 3 DB (comb 13 st, 70 tkl). They still had 3 back with 7+ sts and I thought they would be improved but they were last in the NCAA with just 2 int and finished #116 (63.1%, 23-2). TY they lose CB Manley Waller (12 st, #5 tkl'r, 8 pbu), Antoine Russell (22 tkl) and FS LT Smith (4 st, 36 tkl) moved to WR in spg. Six of their top 8 are back (8 w/st exp) and the unit could be bolstered by the possible addition of Justin Turner (PS#13, orig at Mich). The Zips should have one of the most improved secondaries in the country and can only move up in my PDR.

SPECIAL TEAMS - Akron finished just #109 in my ST rankings in '09 and #110 in former HC Ianello's first year. LY they had to replace their K, PR and KR. TJ Marchese won the kicking job but hit just 3-6 FG (L48), missing a couple of xp's and true frosh AJ Fox (PS#44) who I projected as the starter, took over and hit 8-8 FG's (L/43). P Zack Campbell improved his average slightly to 38.1 (tm net 34.9). The team was -3.0 on PR and -4.5 on KR's with both PR and KR well below average. Fox had 2 TB on 33 KO. Naturally when you have an inexp'd team that is low on scholarships, it hurts the ST unit and they finished #115. LY I summed this position up by saying there was only one way to go, and that was up, but they did not achieve that. However, with a little better depth, I'll call for Akron to move up in my ST rankings in '12.

COACHES - After 4 straight losing seasons, the Zips made a coaching change in 2010 but after a two year, 2-22 record they felt a dramatic change was needed. They re-energized the fan base by hiring from the legendary Bowden family. Terry was named the HC and his resume incudes a 140-62-2 HC record including N Alabama ('09-'11) and Auburn ('93-'98). He will call the offense himself. Jeff Bowden also joins the staff and was the Florida St OC from '01-'06. The DC will be Chuck Amato who has 39 years of exp incl being the HC at NCSt ('00-'06, 5 bowls) as well as Florida St's executive HC ('07-'09) and asst HC ('86-'99).

PHIL'S FORECAST

Akron had a dream season in 2005. They opened 4-5 and appeared out of the MAC East Title chase but won their last 3, had some key teams lose and got to the MAC Title game. They got a td pass with :10 left to upset NIU and amazingly became MAC Champs, their first ever conf title at any level. Akron caught some breaks in many games during the Brookhart era and a new term "Akroned" was born (meaning a team controlled the game vs the Zips but suffered a tough loss at the end). Even with those breaks, UA has now had 6 straight losing seasons since that MAC Title and Akron's all-time record fell below .500 for the first time in 51 years. After years of 5, 4, 5 and 3 wins, the bottom fell out in Rob Ianello's first season as the Zips went 1-11 (-148 ypg MAC worst). I pegged them last in the MAC East as they had a new HC and had to learn new schemes and they only had 12 ret sts. LY the Zips were in better shape with 13 ret sts but they did lose 22 lett and I pegged them for last in the East again. Akron was again the worst tm in the MAC going 0-8 (-177 ypg). The Zips' only win came vs VMI. On the season 9 of their 11 losses were by DD. Their 2 close losses were to E Mich in which the Zips scored a td w/3:18 left (still lost by 8) and C Mich a gm in which they scored 2 td's in the final 2:57 and lost on a failed 2pt conv with no time left. They were non-competitive in their final 4 gms losing by a comb 189-35 (-242 ypg) incl their worst loss to rival Kent St s/'74 (35-3). This year they bring in new HC Terry Bowden and he inherits 13 ret sts and naturally most arrows are indicating an upward trend as the Zips were -9 in TO's and had horrible off (19.6) and def (11.1) ypp's. On the negative side, Akron was -177.0 ypg in MAC play which was over 50 ypg worse than the #12 team so the Zips have a lot of ground to make up. I am excited about the new coaching staff and think Terry Bowden and DC Chuck Amato will have this team overachieving but they play a tough schedule pulling 3 of the top 4 out of the MAC West and will be an underdog in all but 2 games. Their is plenty of rebuilding to do and if you look at the newcomers on the right they are the only non-military FBS program to fail to sign at least one HT or higher. That will change next year with this staff in place as Bowden said he was "selling the recruits on the future here as the facilities are already in place" (opened new on campus stadium in '10). I will call for them to top last year's one win total but I expect the Zips to be playing a lot of frosh by the end of the year to get them ready for Bowden's 2nd season.

MASSACHUSETTS MINUTEMEN

LB Perry McIntyre

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 the Minutemen had to replace their all-time career passer in 2x 2nd Tm CAA Liam Coen. They ret'd Scott Woodward who hit 9-19-97 in '08 and added in PS#381JC Kyle Havens (IFS). Havens started the first 10 (1908, 55%, 9-15) and Woodward started the finale (his final gm) and played in 11 (613, 54%, 2-7). In '10 Havens had every pass att here throwing for 2,692 (64%) with a much improved 20-7 ratio but departed LY. They brought in Kellen Pagel who hit 2-3 passes for 20 yds at BG in '10. Pagel's father Mike was an NFL veteran who played for the Colts and the Browns. They added true frosh Mike Wegzyn (PS#99) and rFr Brandon Hill (PS#126). Pagel started 7 (miss 3 inj) throwing for 1,725 (57.3%, 9-9) while Hill had 3 st (598, 58.3%, 3-3). Raymond Pendagast (6'5" 200 So) started 1 and threw for 237 (61.3%, 1-1). This year they lose Pendagast but add in HC Molnar recruit true frosh AJ Doyle (PS#74). Hill missed the spring due to shoulder surgery. Pagel split time with Wegzyn in the spring and Molnar was pleased with how both picked up the new no huddle spread offense. This unit looks to be in the best shape it's been in since Coen's departure.

RUNNING BACKS - In '08 UMass had to replace a 2nd Tm CAA (Colonial Athletic) RB who led with 1,585 (5.0) and 16 td's in '07. They did return their #2 rusher in Tony Nelson (486, 5.3). Nelson earned 1st Tm CAA honors with 1,325 (5.5) and 12 td's. Chris Zardas had 138 (6.0) and earned 1st Tm CAA at FB. In '10 they had to replace both st'rs and added transfer John Griffin who ran for 1,009 (4.9) in '09 at Northeastern (dropped football). They also returned their #2 rusher in Jonathan Hernandez (4 st, 577, 4.8). Hernandez emerged and earned 2nd Tm CAA with 938 (4.3, also #4 rec). Griffin was productive with 843 (5.0) starting 3. LY they ret'd Hernandez and added Pitt transfer Chris Burns (PS#56). Surprisingly Burns only played in 4 on ST's. Hernandez led again with 1,092 (4.2) but this time the #2 rusher, Alan Williams, only had 140 (4.0). This year they lose Hernandez (10 st, 3rd Tm CAA). Jamal Wilson (5'10" 190) RS LY and they look to add in Michigan transfer Michael Cox (PS#88). It will be challenging for UMass to continue their streak of All-Conf RB's with the move up to the FBS.

RECEIVERS - In '09 UMass ret'd their top 6 rec's led by 1st Tm CAA Victor Cruz (1064, 15.0, 16 td in '08) and 3rd Tm AA Jeremy Horne (895, 17.9, 8 td). Despite losing their all-time leading passer, their pass ypg only went down by 14 ypg (#4 FCS pass off). In '10 they had to replace #1 Cruz (868, 14.7) who went on to star with the NY Giants and #3 Horne (297, 13.5). Their top returnees were Julian Talley (350, 12.5) and TE Emil Igwenagu (288, 12.0) while they did add Hofstra transfer WR Anthony Nelson (520, 13.0, 9 sts). Nelson led with 830 (13.6) and Talley was #2 with 747 (13.3). LY they had to replace 2 of their top 3 incl Nelson, with the top returnees being Talley and both TE's in Rob Blanchflower (4 st, 179, 8.5) and Igwenagu (7 st, 142, 11.8). Talley led but his 759 (12.6) was the lowest for a top WR here s/'01. TY the top 4 all depart incl 1st Tm CAA Talley (11 st), Jesse Julmiste (11 st, 522, 12.1, 1st Tm CAA KR), Tom Gilson (3 st, 446, 11.4) and 1st Tm CAA Igwenagu (10 st, 375, 9.9). Their leading returnee is Blanchflower (208, 11.6). They do add Virginia Tech transfer Jerome Lewis (PS#14) at TE and this unit is probably the team's biggest ? but could still come close to '11's production.

OFFENSIVE LINE - In 09 UMass had to replace 2 st'rs but ret'd 5 who comb for 39 sts including FCS AA LT Vladimir Ducasse. The unit paved the way for 148 ypg rush (4.0) with their 17 sks allowed (4.8%) their "highest" in 6 yrs. In '10 they had to replace Ducasse (#2DC NYG) but ret'd 5 who comb for 33 sts in '09 and added in Northeastern transfer Greg Niland (10 sts) and Syracuse transfer Nick Speller (10 st '09). They had their highest ypg rush s/'06 (168, 4.0, 15 sks). LY they had to replace 1st Tm CAA LG Niland and a C (6 sts). Five ret'd with 38 comb sts in '10. Surprisingly their ypg dropped to 127 (3.5) with 21 sks. TY they only lose 3rd Tm CAA LG Josh Samuda (11 st, 4Y st'r) and Brian Ostaszewski (1 st, 18 car sts). They have 8 of their top 10 back and have pretty good size (avg 308 lbs) and experience (85 car sts). They will have to adjust to the hurry up offense TY but their depth should help them stay fresh.

DEFENSIVE LINE - In '09 UMass ret'd 3 st'rs on the D-line and allowed 75 ypg less rush (120) than in '08 while the ypc dropped from 4.6 to 3.5 although they did have just 13 sks. In '10 they had to replace all four 11 gm st'rs (including 2nd Tm CAA NT, 3rd Tm DT). As you would expect, they yielded 171 ypg rush (4.6) with just 12 sks. LY they had to replace just 1 st'r and the more exp'd unit yielded 157 ypg (3.9) but had 24 sks (most in 4 yrs). TY they lose DE Courtney Jackson (3 st, 12 tkl), DT James Gilchrist (3 st, 13 tkl) and DE Theo Agnew (3 st, 36 tkl, 1 sk) but return 3 with 12+ car sts and add Bernardo Nunez (PS#113) who RS at Pitt in '09. This looks like the Minutemen's best def front s/'07 and they also switch back to the 4-3.

LINEBACKERS - In '08 UMass had to replace an FCS AA LB and a 1st Tm CAA LB who were their top 2 tkl'rs. In '09 they lost all 3 st'rs (#2, #3 and #7) incl a 1st Tm CAA MLB. They then lost a JC LB after 4 sts. Still, the D allowed just 22.2 ppg. In '10 they had to replace their #2 tkl'r but ret'd 2nd Tm CAA Tyler Holmes (#1 tkl'r, 6.5 tfl) and SLB Perry McIntyre (#3 tkl'r) while adding Syr transfer Mike Mele. Surprisingly the defense slipped to allowing 25.2 ppg and 355 ypg. LY they had to replace Mele (t-#1 tkl'r, 110) but ret'd my National FCS DPOY, AA WLB Holmes (12 tfl, 5 int), SLB McIntyre (#5, 9 st) and DJ Adeoba (4 st). With the loss of Mele they allowed 27.9 ppg. TY they lose their star Holmes who was the #1 tkl'r for a 3rd str yr (11 st, 6 tfl) and Shane Viveiros (6 st, 26 tkl) so even with 4 of their top 6 back, they will be down a few notches.

DEFENSIVE BACKS - The secondary ret'd 2 st'rs in '09 including FCS AA FS Jeromy Miles (104 tkl, 3 int) but dropped to #6 (#2 in '08) in CAA pass eff D with a 15-13 ratio. In '10 they lost 2 st'rs incl Miles. They ret'd 4 (comb 22 sts) who each had 26+ tkls. They fell to #8 in pass eff def CAA (18-8 ratio). LY they only had to replace 2 DB's (comb 7 sts, 49 tkl). They ret'd 5 who had a comb 37 sts (#3, #4, #7 and #9 tkl'rs). They did improve to allowing 55.6% but yielded 209 ypg, their highest s/'03 along with a 20-13 ratio. TY they lose CB Kirk Nelms (10 st, 39 tkl, 8 pd) but return 7 who drew sts LY (#3, #9, #11 and #12 tkl'rs). I'll try this again and call for improvement in their pass D numbers in '12.

SPECIAL TEAMS - In '09 K Armando Cuko earned 3rd Tm FCS AA (19-24 FG's). In '10 they had to replace Cuko but returned Virg Tech transfer Caleb Violette who avg 39.0 (35.5) on punts in '09. Violette handled both duties hitting 9-16 FG's (long 37) but his net dropped to 31.8. That '10 unit had to replace both RM including Victor Cruz. Justin Talley was the top PR (13.3) and the top 2 KR comb for 493 yds (22.4). LY Violette missed the yr with a foot injury and bkp Jeff Strait avg 37.3 (32.5 tm net). Brendon Levengood (PS#100) hit 5-7 FG (L38) while Rice transfer Brandon Yelovich hit 3-7 (L24). This year they lose their top KR (24.7) and PR (8.1) along with Yelovich but return Strait and Levengood and should be stronger in '12.

COACHES - Don Brown put together 5 str winning seasons from '04-'08 (43-19) before departing to become Maryland's DC in '09. Kevin Morris could not top 6 wins in his 3Y (16-17) and was let go at the end of LY. UMass, who wanted FBS experience with their transition to the MAC, hired ND OC ('10-'11) Charley Molnar. Molnar has been well travelled making recent stops at Cincy (pass gm coor/ WR cch '07-'09), C Mich (pass gm coor/QB cch '06), Ind St (asst HC/OC '05), W Mich (QB cch '03-'04) and E Mich (QB cch '02). The new OC is Mike Kruczek who spent the L7Y as the OC and QB cch at the pro level working with the NFL's Cardinals and the UFL's Sacramento franchise. Prior to that he spent 18 yrs at UCF incl the last 6 as HC (36-30 rec). The new DC is Phil Elmassian who spent LY at Purdue and has 38 yrs of exp incl 10 as a DC with stops at Ill St, WV, LSU, BC and VTech.

PHIL'S FORECAST

UMass had 7 straight winning seasons and got to the IAA playoffs twice from '04 to '08 losing to Appalachian St 28-17 in the 2006 Championship game and being bumped out by Southern Illinois in the 2nd round in 2007. In '09 HC Don Brown moved on to become the DC at Maryland and UMass promoted OC Kevin Morris to HC. They struggled, having their first losing season in 8 years but surprisingly only lost to Kansas St by 4. In '10 they returned just 9 st'rs but I did say a winning season was possible and UMass upset #4 ranked William & Mary in the opener 27-23, beat #15 James Madison on the road 21-14 and only lost to #19 Richmond by 1 (11-10). Three of their losses came to ranked FCS teams and another loss was at #20 Michigan, by just 5 points. The Minutemen got on the plus side of the ledger at 6-5 and ret'd 15 starters last year, their most s/'05. They opened up an expected 2-0 before losing at BC by 28. They then lost to Old Dominion to drop to 2-2 but won their next two including an impressive road win at Delaware. After dropping their first game in Gillette Stadium to New Hampshire, they beat Richmond to move to 5-3 but dropped their final 3 games by 15 ppg for their 2nd losing season in 10 years and brought in a new HC. UMass does return 10 of their top 13 tkl'rs on D as well as a veteran QB and offensive line. The major questions are the skill players on offense and the step up to FBS football competition as they have ZERO FCS opp's this year and play 4 tms from the BCS. This figures to be a transitional season in more ways than one. This year the Minutemen now must travel 94 miles to their new home stadium (also home to the NE Patriots) after playing the last 47 years in cozy 17,000 seat McGuirk Alumni Stadium. This loss of home field edge and the massively upgraded strength of schedule means a couple of wins this year might be considered a good season for the Minutemen.

PHIL STEELE'S 2012 WAC FORECAST

1. LOUISIANA TECH - Last year I picked LT tied for 2nd in the WAC which was much higher than the WAC media, which had them 5th. LT even surprised me as they went 6-1 winning the league title outright and giving TCU a battle in their bowl. While LT has just 13 ret st'rs, they're actually a little more exp'd than they were LY and now play in the watered down WAC. They do figure to be an underdog in perhaps 4 of their first 5 games but all 9 sets of my power ratings call them the best team in the WAC with almost all of them calling for a perfect 6-0 sweep. This is Sonny Dykes' best team in his 3 years.

2. UTAH ST - Last year was a strange year for Utah St. The 1H of the season they opened up 2-5 losing some games they could have easily have won. The 2H of the year they were one of the most fortunate teams in the country winning 5 games that they could have easily lost. Their luck ran out in the bowl. Utah St was +45.5 ypg in WAC play, a huge improvement from '10 (-135.5) and that is the best of any returning WAC team including defending champ LT (+36.1). Utah St has 12 ret st'rs and 2 veteran QB's but does lose 27 lettermen which is the most in the WAC. Last year they got to 7 wins even though they were -9 in TO's. Despite playing both Louisiana Tech and San Jose St on the road, the Aggies are a legitimate contender in the WAC.

2. SAN JOSE ST - LY SJSt just missed out on my Most Improved List and just missed out on a winning season going 3-4 in the WAC and 5-7 overall. While they were -46.1 ypg in WAC play (3rd worst) they did lead Utah St 20-7 at the half, Idaho 22-7 late in the 1H and were int'd deep in NV terr down by just 3 but lost all 3. Winning only 1 of those would have made them bowl eligible. They have just 11 ret st'rs TY as compared to 18 LY but this is the 3rd yr for HC Mike MacIntyre and most of his first 2 recruiting classes now have playing experience. The Spartans also get a couple of quality transfers and this time make my coveted Most Improved List meaning I think they will be bowl eligible and are a darkhorse in the WAC.

4. IDAHO - LY Idaho only ret'd 11 st'rs but had 4 WAC HG's. They had to have better expectations after coming off of 8 and 6 win seasons but went just 2-10 while being outgained by -122.7 ypg in WAC play (worst). TY they have just 10 ret st'rs and lose 32% of their lettermen. They have my #2 rated ST in the conf and while they play a tough schedule, 3 of my 9 sets of power ratings call for them to be bowl eligible. I look for Idaho to escape the conference basement and possibly move into the upper half of the WAC standings.

5. NEW MEXICO ST - The Aggies are the most inexp'd team in the WAC returning just 7 st'rs and ret 64% of their lettermen from a team that was -60.4 ypg in WAC play (2nd worst). This team does however have potential. I like the overall talent (especially the transfers) DeWayne Walker has to work with and remember LY they lost his starting QB in Wk3. They are strong along the line of scrimmage with my #4 rated OL and #3 DL and have the potential to surprise, despite their lack of experience.

6. TEXAS ST - Dennis Franchione is now in his 2nd year of his 2nd stint at Texas St. They will be highly competitive in league play returning 16 starters and 48 lettermen (73%). Last year they only had 12 ret st'rs. Two of my 9 sets of power ratings call Texas St 5th in the WAC talent-wise and they do play a couple of beatable foes at home in NMSt and Idaho giving them a shot at surpassing my expectations.

7. UTSA - UTSA is making a large jump in just its 2nd year going from an FCS/NAIA laden schedule to one featuring 8 FBS tms. It is interesting to note that they played 4 games vs Div II and lower teams LY. They also faced South Alabama and Georgia St and took both to OT (winning 1). While most of my power ratings have UTSA at the bottom of the WAC, my talent ratings have them within 3 points of a couple WAC teams. I like the talent and the excitement surrounding the program with their 21 ret st'rs but they still have very few upperclassmen and are taking a large step up in competition.

UTSA
DT Richard Burge

WAC Notes: The WAC has taken a step back in my conf ratings. They lost Boise after the '10 season and this year must replace arguably their 3 top programs in Nevada, Hawaii and Fresno St. They do return their conf champ from LY in Louisiana Tech but the other 4 returnees were 59-161 in WAC play since 2005. They bring in a couple of teams that were in the FCS (IAA) LY and with 7 teams, appear to be the shakiest of the FBS conf's. Two WAC teams finished LY in the AP 2010 top 11 which tied them for the 2nd best with the Big Ten and Pac 10 however LY none were ranked at the end of the season and the WAC went 0-3 in bowls. LY the WAC was a respectable 15-31 in non conf gms only 5 of those wins vs FCS tms. Their 18.8% winning percentage vs BCS tms (3-13 record) was better than the MAC and Sun Belt. They did have by far the worst record of any league taking on non BCS FBS conf's at 7-15 with 9-10 being the next lowest. The top 10 rushers in the league depart this year. UTSA and Texas St are both eligible to compete for the WAC Title but neither can play in the post season in their transitional year. UTSA will not be eligible for a bowl until 2014. The WAC champ will take on a MAC team in the Famous Idaho Potato Bowl. Of the 18 first team All WAC players from LY only 6 return to the league in WR Quinton Patton, OL Stephen Warner, P Ryan Allen, TE Ryan Otten, DL Travis Johnson and C Tyler Larsen. WAC tms play 10 non conf gms vs BCS conf, 22 vs non BCS FBS conf and 10 gms vs FCS or lower division tms. The WAC's 3 bowl losses LY were by 7, 7 and 1 pt. That continued a trend from the regular season as WAC tms were tied or leading in the 2H of 17 of their 31 non conf losses. Louisiana Tech had not won the WAC Title since their first year in the league (2001). The biggest improvement LY was by San Jose which went from 1-12 to 5-7. Six WAC players made my AA team including 2 punters. Bobby Wagner of Utah St finished with a WAC record 446 career tackles.

LOUISIANA TECH BULLDOGS

WR Myles White

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In each of Sonny Dykes' first 2 years, they've had a surprise starter at the beginning, replaced him at midseason and got much better results in the 2H. In '10, Steven Ensminger was named the st'r in Aug but returning st'r Ross Jenkins started the opener and was replaced by Colby Cameron who st'd 3 and threw for 461 (59%, 1-5). Tarik Hakmi got 1 st (355, 59%, 2-4) and finally with the tm down big vs Hawaii, Jenkins took over. Jenkins threw for 422 vs Idaho (1st LT QB 400+ s/'03) and had 1,760 (63%, 12-6) for the ssn. LY they had to replace Jenkins and cerebral true frosh Nick Isham (PS#96), who ran the same offense in HS, won the job. Isham st'd 7 and threw for 1,457 (60.3%, 8-7). Cameron didn't pout after being demoted and when Isham inj'd his shoulder vs Utah St, Cameron guided the comeback and took control. Cameron threw for 1,667 (54.9%, 13-3!) in his 6 sts and rushed for 180 (4.2). Taylor Burch (PS#89) ply'd in 12 as the holder (1 pass). Isham left this year but added to the mix is Zach Griffith (PS#189JC) and possibly Scotty Young (6'2" 209 So, PS#11, TT trans). This group is much more exp'd and it will be interesting to see if Cameron can hold on to the job all season.

RUNNING BACKS - LT usually uncovers a solid RB each season. In '04 Ryan Moats broke the school record with 1,774 (6.2). Daniel Porter became the 2nd LT player to have consec 1,000 yd seasons (Moats in '03 & '04) with 1,164 (5.2) in '08 and 1,132 (5.4) in '09 and left as the all-time leading rusher. In '10 I proj'd Tenn trans Lennon Creer (PS#6) as the st'r. Creer rushed for 179 vs Idaho, 252 vs SJSt and had five 100 yd gms. He finished with 1,181 (5.6, #3 rec). Ray Holley (JC) was #2 with 206 (4.2). LY Creer was banged up and dropped to 838 (4.2). Holley was OFY after 4 (144, 4.0) while WR Lyle Fitte (81, 6.8) was OFY after 6. Former walk-on Hunter Lee had 1 att the first 5 games but emerged with 134 vs Idaho, 127 vs Ole Miss, 148 vs NMSt and finished #2 (650, 4.8). This year they lose Creer (10 st) and Tyrone Duplessis (PS#97) who tragically passed away early this year. While this unit should be productive, with the loss of a rare VHT, I'll call it down a few notches.

RECEIVERS - Heading into '10 Dykes thought the WR's were the deepest position on the team saying as many as 12 guys could contribute. Three WR's were then susp'd late Aug (2 were dismissed) and then 2 HT WR's were OFY after 5 and 7 gms. JUCO Taulib Ikharo led with 530 (10.6) and Richie Casey (PS#184) was #2 with 432 (10.3). LY those 2 HT's were both dismissed over the summer and Lyle Fitte (219, 8.8) moved to RB. Quinton Patton (PS#47JC) lived up to his VHT billing and led with 1,202 (15.2) and had a 90 yd td rec vs SJSt. Ikharo was #2 with 537 (9.9), Myles White (PS#96JC) was #3 (414, 13.8) and David Gru was #4 (339, 13.0). TY they must replace Ikharo (12 st) but have everyone else back incl their top guy and add in Tulane trans DJ Banks (PS#93). Provided there are no offseason losses, this is the best rec corps Dykes has had here.

OFFENSIVE LINE - In '09 LT had 91 career sts back (tied for #15 FBS) but in the final 3 they had three frosh start in Jordan Mills (L/5), Kevin Saia and Stephen Warner. LT's O-line numbers slipped a bit to 184 ypg (4.4, 27 sk). In '10 they had 9 of the top 10 back (126 car sts, #3 FBS). They were in the first year of Dykes' offense and their C Lon Roberts (37+ sts) lost his job. The rushing ypg slipped to 171 (4.4, 17 sk). LY they had to replace 3 st'rs (1st Tm WAC LT). They had only 46 car sts but did add in PS#65, #69 and #71 JC's. The rush numbers slipped to 146 (3.7, 25 sk) despite only 1 start missed all year. This year they only lose 1st Tm WAC LT Kris Cavitt (12 st) so they have 9 of the top 10 back (92 car sts) and this is easily the best O-line in Dykes' 3 seasons.

DEFENSIVE LINE - LY LT had to replace 2 st'rs and 2 bkps but I said they were a little more exp'd and with 2nd Tm DE Matt Broha (9 sk) back the unit should be improved. This unit was a key to LT's fine season as they put pressure on the opposing QB's without blitzing. LT improved to 127 ypg rush (3.4) with 32 sks. TY they lose their #2 car sk leader in 1st Tm WAC Broha (13 st, 45 tkl, 7.5 sk), DE Christian Lacey (12 st, 36 tkl, 8.5 sk) and DT Adam Hymel (3 st, 12 tkl). One of the 2 ret sts LY, IK Enemkpali lost this starting spot but still had 33 tkls (3.5 sk). He returns along with 2 other st'rs but with the loss of two DE's (comb 16 sk), they probably won't match LY's fine numbers.

LINEBACKERS - In the LT defense I list the NB here. In '10 the Bulldogs returned Adrien Cole (#1 w/93) and Jay Dudley (#3 w/75). Surprisingly the more exp'd group all'd 30.7 ppg. Cole (#2 tkl'r) only started 6 while Dudley led with 94 tkls. Solomon Randle was #4 in just 6 sts. Last year those 3 and #7 tkl'r, Dusty Rust (5 st) all ret'd. The veteran unit helped LT improve to 23.2 ppg. This year they lose WAC DPOY MLB Cole (13 st, #1 w/128, 13 tfl), 2nd Tm WAC Dudley (#2 w/102, 8 tfl) and Rust (21 tkl). Overall the unit returns its #9, #16 and #18 tkl'rs and must replace its top 3 tkl'rs (NB Boyd moves to SS). This unit will be down a few notches.

DEFENSIVE BACKS - Tech finished #89 in my PDR in '08, #57 in '09 and #95 in '10. LY they had to replace 2 st'rs and SS Boyd was moved to NB so they had 1 st'r back. Their top cover corner, Ryan Williams, was OFY after 2 sts so it was very surprising that Tech moved all the way up to #12 in my PDR (58.5%, 21-21) with the 21 int's being tied at #3 FBS as LT's front 4 got pressure on opp QB's without having to blitz. TY they lose CB Terry Carter (12 st, #5 tkl'r, 12 pd), CB DeMarcion Evans (6 st, 24 tkl, 3 pbu), CB Justin Goodman (2 st, 39 tkl, 5 pd) but 2nd Tm WAC Boyd, (had team's first FR td s/'01) moves back to SS. This unit is much more exp'd and while stronger, will likely drop in the PDR with less pressure by the front 4.

SPECIAL TEAMS - In '09 LT's RM extrodinaire Phillip Livas was banged up and the unit dropped to #75 (#39 in '07, #6 '08). In '10 Livas was healthy and tied an NCAA record with his 8th career comb KR/PR td. Oregon St transfer Ryan Allen (PS#86) took over P (net 37.0). Matt Nelson hit 14-18 FG (L47). I called for them to make a huge climb in the ST rankings and they moved up to #30. Last year they had their K and P back but had to replace Livas. Nelson hit 15-21 (L47) and Dykes said that he'd never been around a P that impacted the game the way that Allen did. He avg 46.1 with an amazing 39 punts I20 (40.1 tm net) and won the Ray Guy Award. Lyle Fitte had an 86 yd KR td marking the 6th straight season LT had a td on a return, the longest streak in the nation. LT dropped slightly to #53. This year the unit returns intact and is one of the top ST units in the entire country.

COACHES - Sonny Dykes is the 2nd str HC here that is the son of a coaching legend (Texas Tech's Spike Dykes) and in his 2nd season he led the Bulldogs to their 1st WAC Title s/'01. Dykes was the OC at Arizona from '07-'09 and an asst at TT from '00-'06 under Mike Leach making him a spread expert (co-OC L2Y). Dykes retained 4 coaches from previous HC Derek Dooley's staff incl DC Tommy Spangler (DC here L5Y). Dykes brought in spread expert Tony Franklin (3rd yr as OC) who was previously the OC at MT ('09), Auburn ('08) and Troy ('06-'07). Both coor excelled LY as the off avg'd over 30 ppg (30.1) for the 1st time s/'01 while the D allowed 23.2 ppg, the best s/'92.

PHIL'S FORECAST

LT was just 3-10 in '06 and 5-7 in '07 but in '08 knocked off Miss St at home and rolled to an 8-5 record. They earned their first winning season s/'05 and first bowl bid s/'01 defeating NI 17-10. Despite their 5-3 WAC record, LT was just +12 ypg in WAC play and benefitted from +9 in TO's. In '09 they had to play 7 road games with one of their home games vs Boise. LT slumped to just 4-8. LT did have 3 net close losses and despite their 3-5 WAC record, were +28 ypg (4th best). Derek Dooley left for Tenn but new HC Sonny Dykes had a good crop of transfers coming in. Playing musical QB's, LT opened up 1-4 but finished strong. In their season finale, they hosted Nevada but lost to finish 5-7. LT was -53 ypg in WAC play and LY they had 4 WAC AG's (3 home). I was much higher on LT than most. The Bulldogs were picked in the media days #4 but I had them tied for 2nd. LT had won their last 2 WAC road games in '10 and went a perfect 4-0 on the WAC road in '11. LT opened 1-3 and while they could have easily been 0-4, they also could have been 4-0. In the rain vs SM, they were outgained 379-244 but only lost by 2. They needed a td with :58 left to force OT vs C Ark (48-42 win). They led Houston 34-7 in the 3Q but stunningly lost by 1. They were tied at 20 late 4Q vs Miss St and in FG range but went for a TD and were int'd in the EZ losing another in OT. After getting blasted by Hawaii, 44-26, they then beat Idaho on the road 24-11. For a 2nd straight season Dykes changed QB's and then LT edged Utah St on the road 24-17 which would eventually determine the WAC Title. Cameron came in with 10:00 to go in the 3Q of that game and guided the tm to wins in each of their final 5. They beat SJSt by 10. Cameron threw for 376 and LT beat Fresno by 20. For the first time ever they were favored at an SEC site and were in a sandwich between Fresno and Nevada but still beat Miss 27-7 (outFD'd 15-19). They went into NV and at half were outgained 272-43 but only trailed 7-0 and had 289 yds in the 4Q getting a td pass with :51 left to take control of the WAC. They buried NMSt 44-0. In the bowl they gave TCU a battle only losing by 7 (396-360 yd deficit). LY LT had 13 st'rs ret (no QB ret) and this year return 13 again but have their QB back. They also play in a watered down WAC. Factors pointing down are that they benefitted from +11 in TO's in '11, had a def ypp of 16.3 and an off ypp of 13.1 (see pg 309) and my Stock Market Indicator (page 27). They were #1 in the WAC LY but were only +36.1 ypg (3rd best). Still LT is #1 in the WAC in all 9 sets of my power ratings and with a much easier schedule could top LY's 8 win total.

UTAH ST AGGIES

QB Chuckie Keeton
C Tyler Larsen

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Diondre Borel, who played 6 gms at WR and QB in '07, took over and started here for 3 straight years. In '09, he was #1 in the WAC in ttl off (279 ypg) throwing for 2,885 (59%, 17-4, 458 rush) setting the school rec with 3,343 yds of total off (Anthony Calvillo, 3,260 '93). In '10 Borel lost his top RB and WR and the O-line was inconsistent and his numbers dropped to 2,108 (53%, 8-13, 298 rush). Last year was a 3-way battle to replace him between JUCO Adam Kennedy (6'5"), rFr Alex Hart (PS#117) and true frosh Chuckie Keeton (PS#123). Hart dropped off the map in Aug. Keeton won the job and was en route to an outstanding year throwing for 1,200 (60.9%, 11-2, 293 rush) when he was inj'd in the 2Q vs Hawaii. Kennedy, who is more of a prototypical passer, led the Aggies to 5 straight wins throwing for 972 (69.1%, 11-4, 239 rush). They now have 2 accomplished st'rs and one of the best QB units in the WAC entering '12.

RUNNING BACKS - Robert Turbin, who was the top RB rusher in '08 with 485 (4.6), was called a star in the making by the new coaching staff and lived up to his NFL potential. They also added speedy and elusive JUCO Michael Smith (4.35 spd, 1002 at JC '08). In '09 Turbin became the first Aggie 1,000 yd rusher since '01 with 1,296 (6.3, #2 rec, 418) and had 18 ttl td's. He and Smith became the first tandem to rush for 100+ here in a game since 1989. In '10 Turbin tore his ACL in Feb and RS. Smith started the first 2 but was OFY and also RS while Derrvin Speight led with 779 (4.1). LY Turbin and Smith both ret'd and Turbin earned WAC OPOY rushing for 1,517 (6.1) while HC Gary Andersen noted there was not much of a drop off when Smith came in (870, 7.6, #7DC TB). QB's and WR's were the next 4 rushers with Robert Marshall adding 61 (4.7). This year they lose their top 2 as Turbin declared early for the draft (#4DC SEA). Not listed below are Joey DeMartino (5'11" 209 Jr, PS#625JC) and Paul Clark (5'8" 186 So, PS#393). Kerwynn Williams (542, 6.7) moves to RB full-time and is the clear cut #1 out of spring but this unit clearly has the biggest shoes to fill replacing a duo that combined for 2,387 yds and 6.6 ypc.

RECEIVERS - In '10 Utah St returned its star WR in Stanley Morrison but he broke his foot (OFY). Matt Austin had 1,134 (16.0) and 13 td's at JC in '08 but was OFY vs Okla and they both RS. Dontel Watkins (PS#205JC) led with 492 (11.7) and Xavier Martin (PS#208JC) was #2 (253, 21.1). Last year with the return of Morrison and Austin, they moved Watkins to DB. Morrison was not 100% healthy but still finished #2 with 441 (15.2) and Austin led with 465 (13.7). TE Tarren Lloyd (6 st '08-'10) earned 2nd Tm WAC with his powerful blocking. This year they lose Morrison (6 st), Lloyd (11 st, 12 rec), Martin (1 st, 6 rec) and Eric Moats (3 st, 190, 11.2). The Aggies return 3 of the top 4 rec's and look even stronger.

OFFENSIVE LINE - In former HC Brent Guy's first year ('05) he said they would have liked to use zone blocking schemes, but since the OL was so light they were unable to. They had to use DL's and TE's to plug holes. His line showed improvement in each of his four years ('05-'08). In '09, under new HC Andersen, they had 3 st'rs back and opened holes for 193 ypg rush (4.7, 32 sk, 8.5%). Andersen did note that the big plays by QB Borel and RB Turbin accounted for the increased production, and not so much the offensive front. In '10 they only had to replace 1 st'r (91 car sts back) but 2 others lost their spot. The Aggies slipped to 169 ypg rush (3.8, 25 sk). LY they had to replace 1 st'r (90 car sts ret) and I called it the best unit in Andersen's 3 yrs. The Aggies' O-line, led by 3 All-WAC honorees (2 were 1st Tm), dominated Auburn on the road in the opener and put up their best rush numbers (283 ypg, 5.9, 18 sks) since 1960 when they avg 312 ypg. TY they lose 1st Tm WAC RG Philip Gapelu (10 st, 3Y st'r), 3rd Tm WAC LG Funaki Asisi (9 st, 2Y st'r) and LG Robert Hill (6 st). USU returns 3 st'rs but their car sts returning drops to 66 and it will be tough to match LY's production. This O-line will challenge to be the best in the WAC and they add in 3 JUCO's.

DEFENSIVE LINE - Utah St has produced some great DL's incl Rulon Jones and Merlin Olsen. In '05, DE John Chick led the WAC in sacks (12.5) and the Aggies allowed just 144 ypg rush (3.9), their best s/'98 (123). In '09 Andersen said the lack of depth on the D-line hurt them late in games. The Aggies slipped to 206 ypg (5.3, 17 sk). In '10 they only lost 4 starts but moved a DE to LB. I expected improved numbers and they allowed 179 ypg (4.9, 13 sk). Last year they had to replace 7 DL (comb 19 sts). While they lost 6 of their top 8, they switched to a 3-4, had 2 st'rs ret while 2 JUCO's won starting jobs incl VHT Bojay Filimoeatu. Andersen did feel they only had 6 strong DL's and depth was lacking. USU made strides yielding just 128 ypg (3.5, 25 sk), their best s/'99. TY they lose DE Quinn Garner (12 st, 31 tkl, 2 sk) and DE Levi Koskan (4 st, 27 tkl, 5.5 sk). Filimoeatu moves to LB so they have 1 st'r back and may drop a little in the rush numbers.

LINEBACKERS - In '10 the Aggies had to replace 3 LB's (comb 14 st, 65 tkl). They did return their #1 tackler in 1st Tm WAC Bobby Wagner and #4 tkl'r Kyle Gallagher. In an effort to add size they moved DE Junior Keiaho to LB and he started 5 before being dismissed. LY they had 5 of the top 6 back incl Wagner (1st Tm WAC) and Gallagher (2nd Tm WAC), plus moved to a 3-4. The Aggies did improve to allowing 27.9 ppg. TY they lose 3x 1st Tm WAC Wagner (13 st, #1 w/147 tkl, 4 sk, 7.5 tfl, #2DC SEA) along with 3rd Tm WAC Gallagher (13 st, 100 tkl, 4 tfl), Maurice Alexander (8 st, #6 tkl'r) and Jason Fanaika (4 st, 14 tkl) but do move in DE Filimoeatu (PS#29JC) full-time (9 st DE, 4 LB LY). They are a lot less exp'd in '12.

DEFENSIVE BACKS - The Aggies finished #48 in my PDR in '03 but were just #100, #103, #119, #101 and #91 the next 5 years. In '09 they moved up to #64. In '10 Utah St had to replace 2 st'rs. Surprisingly they improved to #22 in my PDR (57%, 20-13, tough opp's). Last year USU had to replace 3 st'rs (#4, #5, #6 tkl'rs) incl a #3DC. I said they would not match '10's fine PDR finish and they slipped to #60 (60.5%, 17-4). This year they lose SS Walter McClenton (8 st, 34 tkl), SS Alfred Bowden (5 st, 45 tkl) and S Chris Harris (26 tkl). Not listed in the PSL is Ladale Jackson (5'11" 178 rFr, PS#238). They do return 3 full time starters and CB Will Davis (5 st). This is a more exp'd unit and should move back up my PDR.

SPECIAL TEAMS - Utah St was #63 in my ST rankings in '09 with the leader being Kerwynn Williams who was the top frosh in the country for both total returns and total yds (1,131). In '10 Williams broke the NCAA record for KR yards in a season (1,444). I had him 1st Tm WAC but somehow the league did not even have him on the 2nd Tm! They finished #59. LY they added P Tyler Bennett (43.7 at JC). Bennett avg 43.8 (38.2 tm net). Soph Josh Thompson took over at K and hit 6-10 (L43) and Jacob Haueter, Jaron Bentrude and Thompson combined for 9 TB on 74 KO. Williams' KR numbers dropped (817, 22.7) but he was also the top PR (14.0). The Aggies surprisingly slipped to #103. With all of the key players back, they should make a solid jump and probably have their best finish s/'07 but Williams may see his ST touches limited as the feature RB.

COACHES - Gary Andersen was the HC at S Utah in '03 and the asst HC/DC at Utah for 5 years prior to coming here. Andersen, who is the 7th HC here in 20 years, got the Aggies to their first bowl s/'97 last year. New OC Matt Wells was the QB cch here LY. Wells spent 3 seasons at NMex (WR cch '07-'08, '10) and one season as the L'ville QB cch ('09). Andersen took over as his own DC in '11 but this year hired Dave Aranda who spent the L4Y at Hawaii (DC L/2).

PHIL'S FORECAST

While Brent Guy was just 9-38 in his 4 yrs, he took over a team very low on scholarship players and built it the right way, recruiting frosh and RS most of them. In his final year they were finally up to 85 schlp players and he left the team in much better shape compared to how he had inherited it (56 players first spring, 97 in '08). Gary Andersen inherited 15 ret sts in '09 and had exciting QB Borel, RB Turbin and WR Morrison. The Aggies' 4-8 record featured their most wins s/'02. In '10 the Aggies had 14 ret sts but Morrison and Turbin both RS. Utah St was picked 4th in the WAC coaches poll (never higher than 5th prior). The Aggies dropped to 2-6 in the WAC (-136 ypg, 3rd worst). While they lost QB Borel LY, they ret'd Turbin and Morrison and I said that Andersen in his 3rd yr, had his best tm yet. A key to their success was the unexpectedly strong QB play exhibited by true frosh Chuckie Keeton and JUCO Adam Kennedy. USU outplayed Auburn. In fact, Andersen felt like they were stronger and faster than Auburn. The defending Nat'l Champs got 2 late td's and beat them by 4. USU was tied with Weber St 17-17 at half but won 54-17. They had a 365-232 yd edge vs Colo St but had 2 fmbl'd PR's which all'd CSU to win in 2OT. They led BYU 24-13 in the 4Q but BYU got a 13 yd td pass with :11 left to beat them. It was their 3rd blown double digit lead. They rolled WY 63-19. USU was favored at Fresno and led 21-14 at half but despite a 454-403 yd edge, lost by 10. They had the yd edge (294-232) vs LT but lost by 7 after a fumbled snap by the P and an illegal kick pen gave LT the ball at the USU 11. After a 2-5 start, USU would get 5 wins and most of them were opportunistic. Vs SJSt they trailed 33-21 in the 4Q but got a td with :47 left and blk'd a 67 yd FG at the end. They went into ID and won in 2OT. They were outgained 290-134 at half vs NV but only trailed 10-7 and managed to win 21-17 (-127 yds). USU got a td pass with :35 left to pull out a 3 pt road win vs NMSt. Their luck ran out in the bowl when Ohio got a late score. It was USU's first bowl s/'97 and first time they topped 4 wins s/'00. There are numerous indicators pointing upwards. The Aggies were -9 in TO's LY (almost making my Turnovers=Turnaround article), had a def ypp of 13.1 and they finished #2 in the WAC LY at +45.5 ypg. They also face 3 tms that were FCS members LY. Utah St is the 2nd best tm in the WAC and have a great shot at a 2nd straight bowl.

SAN JOSE ST SPARTANS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '10 Matt Faulkner played in 10 and threw for 206 (54%, 1-1) and rFr Dasmen Stewart played in 2 (2 att). LY I gave HC Mike MacIntyre recruits like rFr 6'4" Blake Jurich (PS#299) and true frosh Joe Gray (PS#116) a shot at the job. Faulkner had the best grasp of the position and won the job but suffered a conc in the opener. Stewart, who is more of a running QB, started vs UCLA and hit just 15-31 but rushed for 47 as the Spartans rushed for 202 yards vs the Pac-12 school. Stewart started vs NV but struggled and Faulkner came in trailing 17-7 and led them to 209 yards and 2 td's on his 4 poss but was int'd in the EZ with 1:10 left. Faulkner started thereafter and threw for 3,149 (64.9%, 13-13). Stewart was the #2 rusher (111, 5.6) with 158 pass. Jurich had 3 att and Gray RS. Faulkner became the first player in SJSt history to top 3,000 yards in a season and departs but this group is just about as exp'd as it was heading into '11 and they add David Fales (PS#135, orig Nev) who had 4,635 yd and 37 td's in 2Y at JUCO.

RUNNING BACKS - Brandon Rutley (PS#182) is a speed back who had 356 (4.5) with 4 sts as a true. He was banged up in '09 and had just 59 (2.0). Rutley led in '10 with just 461 (3.6). David Freeman (PS#129), who is the fastest of the RB's, added 163 (4.2). LY Freeman RS (broken arm). Rutley, who used to dance around looking for the big play, became more of a north/south runner and had an impressive year. He had the first 200 yd gm for a Spartan in 7 yrs (209 vs NMSt). Rutley had 131 vs CSU but was injured and only topped 100 once more (132 vs Navy). His 903 yards was still the best for a Spartan RB s/'06. With Rutley injured, they moved true frosh DB Tyler Ervin (5'10" 176 So, PS#205) to RB (107, 3.7). This year Freeman is back and they add in De'Leon Eskridge (PS#163) who had 15 starts from '08-'10 at Minnesota and was the Gophers' #1 rusher in '10 with 698 (3.6) as well as Alvin Jelks who rushed for 2,552 (6.1) in 2 years at JUCO. This unit has potential and they could be just as productive despite losing their top guy.

RECEIVERS - TE Ryan Otten (7 sts rFr, 10 rec) has drawn comparisons to former DAL star TE Doug Cosbie. He missed 7 in '10 (201, 11.8). LY they had to replace their #1 rec (835, 13.9) but returned Noel Grigsby who had the 3rd most rec yards among FBS frosh in '10 with 822 (14.7). LY Grigsby set the schl single season record with 89 rec (886, 10.0). Chandler Jones, who was #3 (474, 8.8) as a true frosh walk-on in '10, was #3 again (566, 9.3, broken collarbone Wk 12). 1st Tm WAC Otten was #2 with 739 (14.2) while rFr Jabari Carr was #4 with 476 (14.4). Everyone returns and this should be one of the top rec corps in the WAC this year.

OFFENSIVE LINE - In '10 SJSt had 95 career starts back but 2 returning starters comb for just 3 sts (inj) and they only opened holes for 79 ypg rush (2.9) with 32 sks (7.3%). Last year they had to replace 2 st'rs but ret'd those '10 st'rs so it was like having six full-time starters back (91 car sts). The Spartans improved, but only to 102 ypg rush (3.4) but trimmed the sacks to 17 (3.5%), their best s/'05. TY they lose LG Fred Koloto (9 st, 3Y st'r), RT Andres Vargas (12 st, 2Y st'r) and C Robbie Reed (11 st, 2Y st'r). While just 2 full-time starters return, Moa Ngatuvai had 11 st in '07 and returns from a 3 year mission so they have 66 car sts back. They also return 2nd Tm WAC LT David Quessenberry and vs the watered down WAC, should produce better O-line numbers.

DEFENSIVE LINE - Six times in the 10 yrs prior to former HC Dick Tomey's arrival ('05), SJSt allowed 5.0+ ypc rushing. In Tomey's first 4 seasons they were much tougher allowing 3.5, 4.1, 4.5 and 4.0 ypc. SJSt had an injury plagued unit in '09 with no DL starting more than 8 and allowed 259 ypg and 6.1 ypc (worst ypc in over 20 yrs). In '10 they had to replace 2 starters (2nd Tm WAC DE) and lost DE Mohamed Marah after 2 starts. Despite the inexperience, I said they could only improve and that they did (203 ypg, 5.1, 24 sk). Last year they had 9 back w/st exp incl 5 who had started 9+ and I called it one of the Most Improved D-lines in the country. MacIntyre felt the DL was 10-deep up front, quick off the ball and relentless. The numbers were surprisingly similar to '10 (204 ypg, 4.9, 16 sk). DE Travis Johnson was named 1st Tm WAC (9.5 sk). TY they lose Marah (10 st, 22 tkl, 1 sk), and DT Andrew Moeaki (9 st, 39 tkl) while Cedric Lousi (2 st, 20 tkl) is expected to go on a mission. They do get back Joe Nigos (6 st '08-'10) who was OFY after 3 starts LY. Despite being less experienced I'll call for improved rush numbers and this figures to be an underrated unit in '12.

LINEBACKERS - MacIntyre uses the TCU philosophy on D as he likes to recruit RB's to play LB. In '10 they had to replace their #4 and #5 tkl'rs then lost their #3 tkl'r Pompey Festejo prior to the season. The Spartans allowed 34.7 ppg. LY they ret'd the WAC FPOY Keith Smith who had 89 tkls the last 7 gms (#1 tkl'r), their #2 and their #5 tkl'rs and got back Festejo. They improved to yielding 30.3 ppg. TY they lose Tiuke Tuipulotu (12 st, #6 tkl'r, 3.5 tfl) and Festejo (9 st, #5 tkl'r, 3 tfl). While a little less exp'd with the loss of 2 of their top 3, Vince Buhagiar was #2 in '10 (#8 in '11) and they should come close to '11's production.

DEFENSIVE BACKS - Tomey always fielded a top-notch secondary and finished #52 in my PDR in '06, #39 in '07 and then #6 in '08 with 2 super CB's. In '09 they had to replace 3 st'rs (#3 and #6 DC's) and the one ret st'r lost his job (5 sts). As you would expect, they dropped to #78. At the end of the year the st'rs were 3 soph and a frosh. In '10 their star player Duke Ihenacho (#2 tkl'r '09) was lost after 2 sts and S Tanner Burns (#1 tkl'r) transferred to K-St. The Spartans finished #77 (62%, 16-10). LY the unit ret'd intact and got back Ihenacho. They did lose their top cover CB Brandon Driver after 5 sts (Achilles). The Spartans finished #79 (61.8%, 19-13) despite the presence of 1st Tm WAC S Ihenacho and James Orth who had an int in 4 str gms (tie schl rec). TY they lose Ihenacho (11 st, #4 tkl'r), CB Peyton Thompson (11 st, #7 tkl'r, 3 int, 3 pbu), Driver (5 st, 18 tkl, 2 pbu) and Alex Germany (8 st '10, 10 tkl '11). Despite losing their star, they could move up in my PDR.

SPECIAL TEAMS - Team depth is important to ST play and it has affected the Spartans incl a #112 finish in my ST rankings in '09. They improved to #77 in '10. LY they ret'd K/P Harrison Waid and their top RM and finally were up to their full limit of scholarships. JUCO Jens Alvernik, who grew up in Sweden (big leg), took over the FG duties after Waid struggled (2-5, L25). Alvernik set the school record with 18 FG made (18-25, L44). Waid still handled KO (8 TB, 65 KO) and improved his punting (37.6 net, tm net 35.6 '10). Frosh Tyler Ervin was a solid KR (24.0). This year they lose Alvernik but Waid has plenty of exp and the Spartans could improve upon LY's #68 finish which was actually their best s/'06.

COACHES - Mike MacIntyre took over in '10 after spending the previous 2 years as the DC of Duke where he was named AFCA FBS Asst of the Year in '09. MacIntyre also spent 5 years coaching DB's in the NFL (NYJ '07, DAL '03-'06) and 4 years at Ole Miss (WR, DB cch). The new OC is Brian Lindgren who was N Ariz's OC the last 4 years. Kent Baer is in his 5th season here (3rd as DC). He's been a DC at 8 different schools s/'83, most recently at Washington ('05-'07).

PHIL'S FORECAST

In '10 MacIntyre took over a 2-10 team that had to replace 27 lett and had many of the returnees switching positions. SJSt started 6 true frosh (more than rest of WAC comb) at Wisconsin and had just 4 schlp Sr's available vs ID (only 47 schlp players made the trip). Despite going 0-6 down the stretch, SJSt only had losses by 2, 4, 7 and 3 pts and outgained their final 2 opp's. That team had 59 sts lost to injury and 4 net close losses. After barely coming up with 80 players for the spring in '10, they had 101 LY and 22 were 6'4" or taller. The Spartans had 18 ret sts and for the first time in school history and were up to the allotted 85 schlp players. My only ? coming into the yr was not if SJSt would be improved (no brainer), but if I should include them on my Most Improved List. While I proj'd SJSt to win more games than the previous 2 yrs comb, their grueling schedule (4 tough non-conf road gms) had me just barely leaving them off the list. The Spartans very nearly had a winning season with numerous close losses. SJSt played Stanford much tougher than the 57-3 final as they had 169-159 yd and 9-8 FD edges at the half. QB Faulkner suffered a conc and missed UCLA and they were tied at 17 in the 3Q but lost by 10. Bkp QB Stewart st'd vs NV but Faulkner led two 4Q td drives and they were at the NV15 when on 3&9 they were int'd in the EZ and came up 3 pts short. SJSt ended their 13 gm losing streak with a 10 pt win vs NMSt then snapped their road losing streak at 16 with a 38-31 win at CSU getting a td with :54 left. They were int'd at the BYU23 with 5:11 left and lost by 13 but then beat Hawaii on a big Friday night game with an enthusiastic home crowd (24,643) and the fans stormed the field at the end. After losing to eventual WAC champ LT on the road by 10, they led ID 22-7 when they missed a 46 yd FG with :39 left in the 1H and ID got a 55 yd FG on the final play to make it 22-10 at half. SJSt gave up three 4Q td drives to lose 32-29. SJSt led Utah St 20-7 at half but gave up a td with :47 left and lost by 1 having a 67 yd FG blk'd on the final play. SJSt knocked Navy out of bowl contention with an upset then got their first win in Fresno s/'87. SJSt was -46.1 ypg in the WAC (3rd worst). TY the Spartans are much less exp'd dropping to 11 ret sts and lose their QB, top RB and 5 of their top 9 tkl'rs. They did have poor off (15.5) and def (14.0) ypp's (see pg 309) and play a much softer schedule versus 3 tms that were FCS members LY. This is McIntyre's best tm yet and this time makes my coveted Most Improved List!

IDAHO VANDALS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Idaho has had some outstanding QB's with John Friesz, Doug Nussmeier, Ken Hobart, Ryan Fien and John Welsh all producing 3,000+ yd seasons. In '07, Nathan Enderle threw for 1,787 (44%, 10-18). Enderle made significant improvements in '08 (2077, 54%, 20-17) and missed 2 sts in '09 and threw for 2,906 (62%, 22-9). Brian Reader threw for 801 (58%, 6-6). In '10 Enderle was rated one of the top 5 senior QB's for the NFL draft. While his comp % (57) and ratio (22-16) both dropped, he became the first Vandal in 10 years to top 3,000 with 3,314. Reader played in 10 (568, 59%, 5-1). LY they had to replace their #3 career passer (#5DC). I was impressed with Reader in his first 2 yrs and thought he could top Enderle's pass eff rating (123.4) but he fell short at 103.6 (1974, 54.2%, 10-12). With the offense struggling to get in the EZ, soph Taylor Davis st'd vs Hawaii. He hit just 6-17 and Reader played the 4Q, almost guiding the comeback. Davis st'd vs SJSt (13-20-162) in the upset win but hit just 7-21-27 in the final 3 (DNP vs USU). Davis is mobile and athletic with a strong arm but surprisingly had -14 rush yards. The unit's numbers LY were the lowest in 4Y (52.7%, 11-16). This year my projected starter is Dominique Blackman (6'5" 274, PS#35, orig Wash) who was the Scout Tm POY here last year and threw for 3,711 (63%) with 35 td's at JC in '09 and RS at Old Dominion in '10. Despite the loss of Reader, I look for improved passing stats.

RUNNING BACKS - Last year the Vandals had to replace their top RB (only 442, 3.9) and they ret'd Princeton McCarty (#2, 380, 4.3), Kama Bailey (290, 7.2), Troy Vital (163, 3.8) and added in Ariz St transfer Ryan Bass (PS#4) so I had high expectations for the unit. McCarty had 236 all-purp yds vs NMSt, 99 vs UH and 127 vs BYU finishing #1 with 705 (4.7). Bailey got his 1st career 100 yd game vs SJSt (163) and 110 vs USU and was named the team's OPOY and finished #2 (441, 4.5, #4 rec). Bass played in just 7 (2 st, 175, 4.0). Not listed in the PSL is FB Henry Asuega (6'0" 266 Sr, PS#226DL) who had 3 st. This year they lose their top 2 but add James Baker (6'2" 220) a power-type RB who in 2 yrs at JC rushed for 1,158 yds (4.2) but saved his best for last rushing for 119 ypg in his final 3. If Bass can stay healthy and live up to his VHT billing, this unit could actually be improved.

RECEIVERS - Last year Idaho had to replace 3 of their top 4 rec's with the top returnees being Justin Veltung (497, 19.9), RB Kama Bailey (326, 10.5) and perhaps the team's fastest player Armauni Johnson (319, 15.2). Johnson broke his arm and despite missing the final 4, still finished #2 (311, 13.5). JUCO Mike Scott led with 691 (12.6) and RB Bailey was #4 with 256 (7.5). TE Michael LaGrone had 7 sts (262, 12.5) and Veltung battled turf toe and had 20 rec (11.6). TY they only lose Johnson (6 st) and Landon Weaver (4 rec) making this unit much more exp'd. They should remain healthier and have added talent.

OFFENSIVE LINE - In '09 Idaho had to replace 3 st'rs and ret'd just 54 car sts but I mentioned they could improve upon '08's underachieving numbers. They did just that with 164 ypg (4.7) rush, their best since 1998 while allowing just 25 sks. The unit was led by 1st Tm AA LG Mike Iupati. In '10 they had to replace 4 st'rs incl Iupati (#1DC). As you would expect, the inexp'd unit (19 car sts) slipped to just 88 ypg rush (3.1) with 45 sks. LY they had 8 of the top 10 back (61 car sts). The veteran unit was among the NCAA's largest (avg 6'3" 308) and improved to 113 ypg (3.5, 28 sk, 6.7%). This year they lose 1st Tm WAC LT Matt Cleveland (11 st, 3Y st'r), RT Tyrone Novikoff (12 st, 3Y st'r) and LG Sam Tupua (11 st, 2Y st'r). They have 7 of the top 10 back and while less exp'd (31 car sts), could put up better numbers vs the now diluted WAC.

DEFENSIVE LINE - The Vandals had an exp'd def front in '08 but surprisingly allowed 210 ypg rush while their 5.6 ypc was by far their worst in IA ball (s/'97). In '09 they had to replace 2 st'rs but I said they could only improve. The Vandals trimmed it to 155 ypg rush (4.7). In '10 they had all 4 st'rs back. The focus in Aug was generating a better pass rush and they improved from 15 to 31 sks. Surprisingly Idaho slipped to 189 ypg (5.0). Last year they had to replace a 2nd Tm WAC DE and their starting NT. They did return 3 who had been full-time st'rs and added in a couple of JUCO's (neither st'd). I thought they'd be tougher vs the run, which they were (159 ypg, 4.2), but had only 17 sks. This year they lose DE Charles Smith (12 st, 17 tkl, 1 sk), DT Michael Cosgrove (11 st, 29 tkl, 1 sk) and DE Andre Ferguson (6 st, 18 tkl, 0 sk). They return 5 who started LY (comb 19 sts) but might be down a notch.

LINEBACKERS - After having inexperienced units in both '08 and '09, the Vandals' LB unit ret'd intact in '10 (#2, #3, #7 and #8 tkl'rs). They also added PS#143JC Homer Mauga that ssn and he st'd 12. The Vandals improved to allowing 28.3 ppg. LY they had to replace 1 LB (7 st until inj). That injury gave them a jump start on '11 as basically all 3 st'rs ret'd and they added in another JUCO. Unfortunately Robert Siavii (knee) RS so 2 st'rs were back. Korey Toomer was named Tm MVP as he and TréShawn Robinson (#1 tkl'r) each earned 2nd Tm WAC. TY they lose Robinson (12 st, 117 tkl, 2 sk, 5.5 tfl), Toomer (11 st, 68 tkl, 4 sk, 6.5 tfl, #5DC SEA), Tyler Brooks (10 tkl) and John McKinley (22 tkl). They return 1 starter but get Siavii back as well as Mauga who was the #4 tkl'r in '10. So basically they have 3 LB's that have been full-time starters making them more experienced and improved. Even with the loss of a pair of All-WAC LB's, Idaho could improve on that ppg.

DEFENSIVE BACKS - Idaho finished #115 in my PDR in '08. In '09, despite the presence of defensive leader Shiloh Keo, they finished #119 (66%, 34-7). In '10 they ret'd 6 of the top 8 but did lose CB Isaac Butts after 5 sts. Even in a losing season, they improved to #72. Last year they had to replace 2nd Tm WAC SS Keo (#5DC) and CB Butts. Six ret'd who st'd in '10 but Kenneth Patten (21 car st) DNP (knee) so they basically had 2 ret st'rs. The Vandals dropped to #100 (64.3%, 28-9). This yr they lose SS Quin Ashley (12 st, #4 tkl'r, 3 int), CB Matthew Harvey (12 st, 38 tkl, 1 int, 5 pbu, 2nd Tm WAC) and return 2 st'rs again but can only improve upon LY's poor PDR.

SPECIAL TEAMS - Idaho did finish #40 in my ST rankings in Akey's first year of '07 but slipped to #73 in '08 and #99 in '09. In '10 all of the key players ret'd and as expected, they moved up to #45. Trey Farquhar hit 18-25 FG's (1-3 50+) and had 21 TB on 67 KO. P Bobby Cowan (34.0 net rFr) improved to 45.1 (39.2 net). Last year they had to replace their LS and top PR and their new LS was Marius Burgsmueller (from Germany.) Cowan punted 88 times for 4,084 yds (46.4) with an outstanding net of 40.8 and was the FWAA AA punter (2nd UI ply'r in schl hist to make the tm). Farquhar hit 10-15 FG (incl from 55 & 50!) with 1 miss from 53 but only had 2 TB on 47 KO. They allowed 28.5 per KR dropping them down to #65. ST is a priority here and both off and def st'rs see action. This year all of the key players return and Idaho has a shot at a Top 20 finish.

COACHES - Robb Akey took over the reigns in '07 and was the 3rd HC in 3 yrs here. He was the DL cch at Wash St (99-'02) and the DC there from '03-'06 and in his 3rd season, Akey took his team from 2-10 to 8-5 with a bowl win (1st bowl s/'98)! Veteran OC Steve Axman was here for 5 seasons but retired. New OC Jason Gesser was a Wash St QB and was in the NFL for 3 yrs and moves up from RB cch here. Sixth year DC Mark Criner was previously the LB/ST cch at Minny ('06) and DC at MT ('05), Cincy ('03) and Portland St ('00-'01).

PHIL'S FORECAST

Idaho had just 1 losing year from 1982-'99 but then suffered 9 straight losing seasons heading into '09. The Vandals play their home games in the Kibbie Dome (122-68-1 there s/'75). Idaho had been in 3 diff conf's since they last had a winning conf record which came in 2000 (Big West). They were in the Sun Belt from '01-'04 and have been WAC members s/'05. Prior to '09 they were 6-26 in WAC play. Coaches are usually poised for success in their 3rd year and Robb Akey's 2nd team was -14 in TO's and had an 11.0 def ypp. They also had a veteran QB, a 1,000 yd rusher and some solid skill players. Idaho caught some breaks in '09 and went from 2-10 up to 8-5 for their first winning season s/'99. In '10 I pointed out that they had benefitted from 4 net close wins (pg 309) and only had 4 sts lost to injury in '09. They did have 14 ret sts and had the edge of extra bowl practices but none of my 9 sets of power ratings called for a winning year. Idaho even had a stretch where they played 5 gms in 5 diff time zones. The Vandals dropped to 6-7 and were -116 in WAC play (+8 in '09) but were 8-4 in the Kibbie Dome in '09 and '10. LY they had to replace their QB, top RB and 3 of their top 4 rec's but they got 4 HG's in WAC play and had 76% lett returning. In '10 they took on 8 tms that did not go to bowls and won 6 of them by an avg score of 33-11 with their 2 losses by an avg of 7 pts. LY Idaho took on 6 tms that did not play in a bowl but only won 2. They jumped out to a 7-0 lead vs BG then were dominated at home (outgained 478-280). After whipping NDak 44-14, they lost their next 2 by 30 and 24. The Vandals then had a stretch where they scored a def or ST td in 4 straight gms but their offense had just 3 td's in that span. A blk'd punt for a td got them to OT vs a bowl bound Virginia but they lost. They had a 185-160 yd edge at the half vs eventual WAC Champ LT but lost by 13. Idaho trailed NMSt 31-24 when they were SOD at the 1 (:21) and lost by 7. Hawaii got a 35 yd FG with :32 left to pull out the win. (UH 353-234 yd edge). At SJSt they trailed 20-0 but after having 126 yds in the first 3Q's, had 219 in the 4Q and rallied for a 32-29 win. After being waxed by BYU by 35, Idaho lost in 2 OT's to bowl bound Utah St in their FHG then had little left in the tank and was blown out 56-3 by Nevada. LY's team had 11 ret sts and this year just 10. Idaho was -122.7 ypg in WAC play (62.3 worse than the #7 tm). On the positive side, LY's squad had 3 net close losses (pg 309), was -7 in TO's and had a def ypp of 13.1 plus are going up in my Stock Market Indicator (pg 27). While LSU and UNC jumped on the sked, the Vandals face 3 tms that were FCS members last year in the watered down WAC. Three of my 9 sets of power ratings call for bowl eligibility and they should at least double LY's win total.

NEW MEXICO ST AGGIES

LT Davonte Wallace

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In Hal Mumme's final 3 yrs ('06-'08) NMSt threw for 399 (69%), 332 (69%) and 301 ypg (67%). In DeWayne Walker's first year ('09) they emphasized the run. Jeff Fleming and Trevor Walls battled all year but comb for a paltry 88 ypg passing (49%) with a 6-17 ratio. In '10 Fleming battled Matt Christian (PS#139JC). Christian won the job in Aug, so Fleming trans and the bkps were rFr Tanner Rust (PS#95) and PS#57 true frosh Andrew Manley (Walls to TE). The 3 QB's had 0 career pass att's here. Christian started the first 4 but was injured and Rust started vs NM. Manley took off his RS and st'd the last 4 (604, 52%, 1-6). Manley was the clear-cut starter LY but was OFY in the 3rd gm (892, 56.9%, 6-3) and RS. They ran more option with Christian but he was inj'd often and gutted it out through the final 8, throwing for 2,158 (52.3%, 15-8, #2 rush). True frosh Travaughn Colwell (PS#207) played in 7 (419, 65%, 2-3). TY they lose Christian but provided Manley is healthy, he and Colwell could produce improved numbers and they also add in PS#93JC Andrew McDonald who was IFS.

RUNNING BACKS - In Mumme's pass happy offense in '08 Marquell Colston led with 384 (4.7). In '09 Seth Smith ran 246 times for 1,016 yds (4.1). Smith was not the perfect fit for the new spread offense in '10. They did add in 24 year old Kenny Turner (1513, 6.4 JC '09). Smith's numbers fell to 385 (3.8). Turner rushed for 219 in a 3 game stretch and led with 461 (4.0, 203 rec) despite missing 2. Soph Robert Clay (PS#173) led in rushing twice (108 vs LT). Last year they had to replace Smith and Turner was moved to HB. Clay, who is a tough inside runner, was the clear #1 RB and had 97 (4.9) vs Minn but was inj'd and played in just 9 (133, 3.2). When QB Manley was inj'd they went to more option and Turner moved back to RB and had six 100 yd games (incl 171 vs ID) and led with 1,074 (4.9) while also finishing as the #4 rec (514, 11.2). With Turner leaving early for the NFL (undrafted), this group is less exp and talented but HC Walker did say he thinks new JC Akeelie Mustafa is an upgrade in speed.

RECEIVERS - LY NMSt had to replace their top 2 rec's who comb for 969 (11.7) but ret'd Taveon Rogers (278, 15.4) and 5'9" Todd Lee who was #3 in '10 (280, 11.7). They added JUCO Kemonté Bateman (PS#19 @ Ariz St '08) and true frosh Austin Franklin, a pair of good-sized athletic playmakers. True frosh TE Jackson Kaka earned the starting job. Rogers set an Aggie record with 412 all-purp yards vs Fresno and led with 1,048 (17.8). He missed NM (inj) and Franklin filled in with 5 rec (115 yd) and finished #3 (524, 15.4). Lee was #2 (592, 15.2) and Bateman added 414 (14.8). They are in the same shape they were in last year losing their top 2 (also Kaka lost, mission), but this time those 2 comb for 1,640 (16.7) leaving bigger shoes to fill. They do add in Oregon St transfer Kevan Walker (PS#88, HC's son) giving them two former P12 WR's.

OFFENSIVE LINE - In '10 NMSt had to replace 2 starters but added in VHT Aundre McGaskey (PS#22). They lost starting RG Sioeli Fakalata (13 st '09) in the opener so basically had 2 st'rs back. NMSt rushed for 129 ypg (3.4, 19 sk). Last year they only had to replace 3 backups (comb 8 sts) and had 6 back who had been full-time st'rs (97 car sts). On paper, it was clearly Walker's best O-line but the unit underachieved (125 ypg, 3.6, 36 sk, 8%). Fakalata was plugged into C but had trouble with snaps (snap over QB's head vs Ohio for a saf) and Mike Grady reclaimed those duties. This year they lose RT McGaskey (13 st, 2Y st'r), G Fakalata (10 st, 2Y st'r) and 3rd Tm WAC Grady (11 st, 4Y st'r). They do return 59 career sts with 2 full-time st'rs incl 2nd Tm WAC LT Davonte Wallace as well as a 6 gm st'r. They also have Maveu Heimuli who has 19 car sts and add an additional HT JUCO quite possibly making them stronger after underachieving a yr ago.

DEFENSIVE LINE - In '09 the Aggies were very inexp (5 car sts) and learning a new system (3-3-5 to 4-3). As you would expect they allowed their worst ypc (5.6, 221 ypg) in over 15 years. The DE combo of Donte Savage and Pierre Fils comb for 13 sks (tm 21) with Fils' 7 being the most here s/'92. In '10 Walker called this unit the strength of the defense (3 ret st'rs). Surprisingly they did not record a sack until Wk 5 (9 on yr) and allowed an even worse ypc (5.8, 207 ypg). Last year they had to replace 3 DL's (comb 19 sts, 73 tkl) and added a 300 lb, PS#82JC in Walton Taumoepeau and a 253 lb JC DE. What I didn't anticipate was that DE Savage (23 st, 9 sks '09-'10) and Augafa Vaaulu (6 st, 24 tkl '10) would both be lost over the summer so they had 1 ret st'r. The Aggies did trim their ypc to 5.4 (219 ypg, 18 sk). TY they lose DE David Niumatalolo (13 st, 84 tkl, 7 sk), DE Fils (13 st, 54 tkl, 3 sk), DT David Mahoney (12 st, 34 tkl, 2 sk), DT Dejuan Yates (6 st, 20 tkl, 1 sk) and Stephen Meredith (6'4" 240 So) was lost to a ssn ending inj in spg. With the return of Savage they have 2 back who have been full-time st'rs and add in 3 HT JUCO's (all IFS) and will continue to show improvement.

LINEBACKERS - The unit was wiped out in '10 as they lost their #1, #2 and #10 tkl'rs and top 2 bkps. The unit ret'd 1 career start. As expected, the Aggies slipped to allowing 39.5 ppg. LY they only had to replace 1 st'r (#7 tkl'r) and ret'd their #2 and #3 tkl'rs. They also added in Alexander LaVoy (PS#185JC) who was highly productive prior to missing 4 with a broken foot (7 st). NMSt allowed 36.8 ppg. TY they lose Boyblue Aoelua (11 st, #3 tkl'r, 4 tfl) but have 5 of the top 6 back (incl #6, #9 and #11 tkl'rs) and add in a PS#95JC who was IFS. This unit should help spearhead an improved Aggie defense.

DEFENSIVE BACKS - In '08 and '09 NMSt finished #53 and #47 in my PDR but that might have had something to do with teams running at will on them. In '10 they returned 1st Tm WAC CB Davon House and former WR Donyae Coleman found a home at FS (#1 tkl'r). House's 319 career IR yards set an Aggie record. The unit was still solid despite the drop to #87. Last year they had to replace 1st Tm WAC House (#4DC) and 1 other st'r. After my magazine was published, they added UCLA transfer CB Courtney Viney (PS#50). The unit was one of the team's strengths but despite 4 Sr st'rs, they only moved up to #78 (59.6%, 26-10). This year they lose Viney (13 st, #5 tkl'r, 4 pbu), 2nd Tm WAC CB Jonte Green (13 st, #7 tkl'r, 2 int, 14 pbu, #6DC DET), FS Ben Bradley (13 st, #2 tkl'r, 1 int, 3 pbu) and 1st Tm WAC SS Coleman (12 st, #1 tkl'r w/133, 6 int, 7 pbu). They do add in a JC who RS, an IFS JC and an Ole Miss transfer. With 0 starters returning and some outstanding players lost, this unit will drop in the PDR.

SPECIAL TEAMS - Walker's first unit finished #77 in my ST rankings. In '10 they had to replace their 2 yr K/P (unexp loss in Aug) as well as their top PR and KR. JC Tyler Stampler hit 16-19 FG (L48). Taveon Rogers set a schl record with 219 KR yds vs Kan and finished with 1,410 (27.1). They finished #86 and the unit ret'd intact LY. Rogers had 1,318 (25.8, 3 td) on KR but the other parts struggled. Stampler hit just 7-12 FG (L39) and with Jake Capraro the tm net fell from 33.8 in '10 to 32.7. The PR's were below avg (5.6) but NMSt was hurt most by other factors as they allowed 5 return td's and 1 blk'd punt for a td. The Aggies finished #117 so despite losing their star (Rogers) and only have one way to go in the rankings.

COACHES - DeWayne Walker was UCLA's DC from '06-'08 and the interim HC in their '07 bowl. There was improvement in his 3rd ssn as NMSt's 4 wins matched a 7 yr high as did their 2 conf wins. Doug Martin departs after one ssn as the OC after the offense went from 15.7 ppg to 24.5 LY. To keep continuity, the new OC was Martin's RB cch at Kent St from '05-'10, Jerry McManus. HC Walker served as his own DC his first season and decided not to renew LY's DC Dale Lindsey's contract. The new DC is David Elson, who was a HS DC LY and an Ind asst in '10 but is better known as WKU's HC from '03-'09.

PHIL'S FORECAST

This team has had 4 winning yrs since 1967 (44 yrs). NMSt has not played in the postseason s/'60, the longest run in the country. In '05 Hal Mumme shifted them from the option to the "Air Raid" offense and they went 0-12. They had 4, 4 and 3 wins in his final 3 yrs. I mentioned in '09 that by switching the offense back to a run based attack, the Aggies would continue to struggle and they went just 3-10 in DeWayne Walker's first year. They also had their lowest ppg (11.5) by far in over 20 yrs. Their 3 wins came over an FCS team and in games they were outgained by 138 and 199 yds. In '10 they had 13 ret sts but slipped to 2-10. NMSt was -144 ypg in WAC play (-230 ypg, '09). Walker's 5 wins in his first 2 yrs were all by 3 pts or less and the record of the 4 FBS teams they'd beaten was 7-42. LY they had 4 WAC HG's and both their off (18.9) and def (11.5) ypp's qualified for improvement (pg 309). I mentioned that I liked the JUCO additions LY and called it by far Walker's best team in his 3 yrs. The Aggies had their moments as after getting outplayed by Ohio in the opener, they got their first win vs a BCS tm s/'99 (Arz) with their big upset over Minn where Walker was a 2 yr st'r at CB. UTEP was w/o their starting QB but beat NMSt 16-10. The next week NMSt QB Manley was OFY and they used more zone read option with Christian at QB. They led 24-14 late 3Q but lost 34-24 at SJSt. NM fired their HC and the Aggies beat them for the 3rd consec yr (1st time in over 40 yrs). The Aggies had a bye and then beat ID at home 31-24 (394-281 yd edge). The next 3 wks they went to Hawaii, hosted NV and were at UGA and lost by 11, 14 and 47. They got a 37 yd td pass with 1:50 left to pull out a 48-45 win over Fresno but then were pummelled on the road by BYU and LT (comb 86-7). They led Utah St 21-17 with 8:29 left but gave up a td with :35 left and lost by 3. TY they only have 7 ret sts and lose 7 of the top 8 tkl'rs. NMSt was -60.4 ypg in the WAC LY. Their off (16.2) and def (12.6) ypp's point to improvement. They play in a diluted WAC and Walker feels this will be the year they take it to another level as he brought in a ton of JC's who were IFS.

TEXAS STATE BOBCATS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '10 TXST had to replace a 3 yr starter in Brad George (PS#124) who was the Southland OPY (3121, 63%, 23-11). Tim Hawkins RS in '08 and to get him on the field, he started 3 at SB in '09 (9 att, 1 rec, 165 rush, 8.2). In '10 Hawkins st'd the opener but was replaced by true frosh Tyler Arndt (PS#61). Arndt spurned offers from TCU, Missouri and Ariz and threw for 1,364 (55%, 9-7). Arndt was inj'd and Hawkins st'd the last 4 (694, 52%, 7-6, 312 rush). LY Hawkins was moved to RB (4 pass att). They also added PS#345JC Shaun Rutherford who was the bkp to Cam Newton at Blinn JC (both QB & WR there). Rutherford started 10 and threw for 1,227 (58.3%, 12-4) and was the #3 rusher (449, 3.5). Rutherford was injured 1Q vs PVA&M and Arndt (bothered by inj) hit 13-18-121 in that game and st'd the last two (576, 51.4%, 3-3). This year everyone returns and even with the step up in competition, I would expect TXST to have its best QB play since George left.

RUNNING BACKS - In '07 Karrington Bush was the Southland FPOY rushing for 1,039 (7.6). He led again in '08 (1065, 7.8) and returned in '09 along with Alvin Canady who had 322 (4.4). Bush missed 7 games due to injury but still finished #2 with 385 (6.5). Canady led with 546 (4.3). The Bobcats had a streak of all-conf RB/FB for 3 straight years from '07-'09 but that ended in '10. Canady departed but Bush, whose status was ? over the summer, led with 704 (4.9) while Dexter Imade was #2 (414, 4.0). LY they had to replace Bush but added in Marcus Curry who had 11 sts at SB at Navy in '09 (585 rush, 7.3, 287 rec, 28.7). Curry had a fine year with 637 (5.0) but rFr Terrence Franks led with 863 (5.9) incl 234 vs SEL. They used QB Hawkins more at RB (288, 4.3) while Imade did not get a carry. The run gm is TXST's strength and TY the unit returns intact making it much more exp'd than the '11 version.

RECEIVERS - In 2009 the Bobcats returned 4 of their top 5 WR's. The unit was led by 2nd Tm Southland WR Da'Marcus Griggs (969, 12.1), Daren Dillard (643, 15.0) and QB/WR Alvaro Garcia (305, 13.9). Those 3 all ret'd in '10. Griggs led again with 920 (14.2) and was 1st Tm Southland while Dillard was #2 with 510 (13.8) and Darius Bolden (204, 13.6 in '09) was #3 with 340 (12.6). LY they had to replace their top 2 in Griggs and Dillard and HC Dennis Franchione said it was a priority to recruit TE's and he signed 2 JUCO's incl VHT PS#27JC Chase Harper. This time Bolden led but with just 473 (15.8) which was about half the yards Griggs led with in both '09 and '10. JUCO WR Isaiah Battle had 368 (13.6), Harper added 287 (14.4) and Garcia had 92 (9.2). TY they lose Bolden (7 st, #1 rec), Garcia (6 st) and Corey Scott (1 st, 0 rec). They add in VHT PS#61JC Rodney Woodland, ex QB/RB Hawkins, and N Mex transfer PS#77TE Bradley Miller (6'5" 215 So) so this group is a little more exp'd and should be more productive.

OFFENSIVE LINE - In '10 TXST had to replace a pair of 3 yr st'rs (both OT) and a LG (6 st). While they actually improved to 145 ypg they fell again to a recent low of 3.7 ypc while allowing a recent high 28 sks (9.2%). LY they only had 2 st'rs back. RG DJ Hall (4Y st'r) was 1st Tm SLC for 3 straight years (2nd Tm as Fr). Despite losing 3 st'rs I expected improvement and they moved up to 195 ypg rush (4.4) with 21 sks. TY they lose 2nd Tm AA RG DJ Hall (12 st, 4Y st'r), LG Jon Vernon (12 st), LT Michael Chambers (10 st, 2Y st'r) and C Steven Kenney (5 st, 24 car st). This unit has just 43 career starts returning (65 LY) making them less exp'd and without their top guy they figure to be down a few notches. TXST did move in a pair of DL's that had been full time starters on the other side of the trenches in Jeff Clermond (11 st @ DT in '10) and Adley Eshraghipour (11 st @ DT in '09, HM SLC). They also bring in some JUCO's and had 16 OL's battling for the 5 spots at the start of spring.

DEFENSIVE LINE - In '09 the Bobcats had to replace 3 st'rs and allowed 185 ypg rush (4.9) while the D had just 14 sacks. They seemed more experienced heading into '10 even after replacing a 2nd Tm SLC DE. One of the ret sts, DT Adley Eshraghipour, DNP after earning HM SLC in '09 with 42 tkls, so they had just 1 st'r back. The numbers improved only a little to 181 ypg rush (4.6) with 13 sacks. LY they had to replace 1 st'r and 3 bkps who combined for 65 tkl, 15.5 tfl and got back Eshraghipour. It was their most exp'd D-line in 3 yrs and they improved to allowing 165 ypg rush (4.5) with 31 sks. TY they lose Texas A&M trans PS#61 DE Michael Ebbitt (11 st, 35 tkl, 11.5 sks!), DE Charles Holmes (1 st, 8 tkl) and DE Ron Jackson (18 tkl). They add in 3 JC's and have 3 ret sts but of course are facing a different caliber of opponent.

LINEBACKERS - In '09 TXST had to replace their #1 tkl'r but returned 4 who combined for 29 starts and the team improved to allowing 28.8 ppg. In '10 they had to replace 1 st'r but returned their top 2 tacklers. Surprisingly they slipped to yielding 34.3 ppg. LY for a 3rd straight season, they lost only 1 st'r but this time it was their #1 tkl'r. They rotate a lot of players so they moved productive backup Joplo Bartu (#6 tkl'r) to the open spot and the 3 bkps had 48, 31 and 19 tkls in '10. I speculated that despite playing a pair of FBS teams that they should improve their numbers, and that they did yielding just 28.5 ppg. This year they lose Josh Minde (9 st, #4 tkl'r, 6 tfl) and Bryan Iwuji (4 st, #9 tkl'r, 5.5 tfl). They return their #2, #5, #6 and #8 tkl'rs and add a couple of JUCO's so this is a pretty exp'd unit for their first year in the WAC.

DEFENSIVE BACKS - In '08 the secondary ret'd 2 starters (#3, #5) and added Iowa St transfer Denard Williams. They remained last in the SLC in pass D allowing a 32-15 ratio. In '09 they had to replace 2 st'rs (#3, #7 tkl'rs) and then CB Williams RS. They still improved to #5 allowing a 14-9 ratio but they did allow 64.9%. In '10 they only had to replace 1 st'r and improved to yielding 207 ypg (best in 4 yrs) and 62.4%. LY they had to replace 3 st'rs but much like the LB's, many players took reps in '10. They ret'd 2nd Tm SLC CB Darryl Morris and 3 others that had 29, 24 and 23 tkls. TXST improved to allowing 50.6%, their best s/'05, but yielded 235 ypg (13-9). TY they have their most veteran secondary in yrs with the only losses being S Matt Harris (1 st, 7 tkl) and CB Cedric Alexander (3 tkl). They return all 4 st'rs and are much more exp'd than the '11 version.

SPECIAL TEAMS - TXST struggled at K in '10 with two who comb to hit 6-14 FG (L42). LY Will Johnson (PS#58) stepped in as a true frosh and hit 13-24 FG's (incl a 53 yd'r) and was 9-16 from 40+. They do lose exceptional P Ben Follis (37.2 tm net) and their top KR Derek Lopez (21.1). If a new punter emerges, this has the makings of a pretty good group.

COACHES - This program was a launching point to the FBS for HC's Jim Wacker (TCU & Minn) and David Bailiff (Rice). Brad Wright took over here in '07 and in '08 led the Bobcats to their first outright conf title s/'82 but was let go after a disappointing '10 season (4-7). They looked for veteran leadership in the transition to the WAC and hired Dennis Franchione in '11. Franchione was the HC here from '90-'91 and since that time was at New Mex ('92-'97), TCU ('98-'00), Alabama ('01-'02) and Texas A&M ('03-'07). Mike Schultz is in his 2nd year here as co-OC and was the OC as MTSU in '10, Ill in '09 and at TCU from '01-'08. Jeff Conway is the new co-OC coming from FCS Nat'l Finalist Sam Houston St (WR cch, asst HC 2Y). Craig Naivar also returned LY as DC which is the role he held here from '04-'06. He spent '07-'10 at Rice including 3 years as co-DC.

PHIL'S FORECAST

In '08 TXST finished 8-5 and in '09, 7-4. It was their first B2B winning seasons since 1990-'91 which just happened to be the last time Coach Dennis Franchione was here. In 1990 Franchione lead the Bobcats to their 1st winning record s/'84. In 2010 TXST ret'd just 4 st'rs on offense but had 7 back on D. They did draw a tough schedule in the Southland Conf (most of top tms on road) and also had to play Houston. They knocked off #18 Cal Poly and were 3-1 and #15 in the FCS polls after 4 weeks but the bottom dropped out and they went 1-6 in their last 7 and they opted to let Coach Brad Wright go and return Franchione. When he took over at New Mexico, the team had won just 26 of their previous 106 gms but went 33-36 under him and in '97 got to their first bowl s/'91. TXST was an Independent LY as they were getting ready for their move to the WAC and had 12 ret sts. They led TTech 10-9 at the half but 4 fumbles in the 2H cost them as it turned into a 50-10 loss and then they were pummelled by Wyoming (outgained 618-189) and lost by 35. After a closer than expected win over Tarleton St (38-28), QB Rutherford got a 22 yd td run with 2:30 left to clinch the win over SF Austin 35-26. TXST beat Nich St 38-12 and then leading 21-14 at McNeese St, their P fumbled the snap with :16 left but they still held on for the 7 pt win. The Bobcats led Lamar 35-0 mid 2Q and moved to 5-2. SEL came in with a 4 game losing streak and despite TXST having a 508-496 yd edge they lost by 10 with RB Terrence Franks rushing for 234 yards. They fumbled at the 13 and 4 yd lines in the 1H vs NW St and despite a 330-290 yd edge, lost 23-10. They beat PVA&M but were outgained 424-331 benefitting from a 93 yd KR td by Battle. TXST led CArk at half benefitting from a 63 yd FR td and an 81 yd KR. They were outgained 556-208 but lost by 1. In the season finale vs an undefeated SHSt they trailed 26-14 in the 4Q and had a FG blk'd and lost by 22 but held them to a respectable 368 yds. That dropped their record to 6-6. TXST is building a new north endzone complex which will raise their seating capacity from 16,000 to 30,000 while also adding a new video board and scoreboard. While TXST is new to the FBS, this is their 108th season and they have an all-time record of 490-409-26 with 13 conf championships incl an outright Southland Title in '08. They have 16 ret sts and are on par with the lower div tms of the WAC. They play a much tougher schedule than UTSA. TXST will not match LY's 6 win total as all of those were vs FCS or lower tms and they face UTSA plus 10 other FBS foes TY with 6 of them on the road.

UTSA ROADRUNNERS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - UTSA had 4 QB's on their roster in '10 and it was clear early that the leader of this group was Texas St transfer Eric Soza. Soza RS at Texas St in '09 making him the most veteran of the group. Then OC Travis Bush was the co-OC and QB coach at Texas St for 6 years giving them familiarity. There were 3 other rFr with John Simmons having taken the most snaps among them. They added in Ryan Polite (PS#104) a dual threat QB but he RS. Soza threw for 2,148 (56%, 14-9) while Simmons hit 5-6-49. This year the unit returns intact and it was a 3 man battle in spring as they also add in PS#190JC Tucker Carter. Soza goes into the fall as the #1 but will again be challenged. Carter, who is the biggest and strongest of the 3, threw for 2,654 (62%) at Trinity CC in '11. Polite is the best runner in the group giving them options. The unit is much more experienced and clearly more talented in '12.

RUNNING BACKS - Naturally in the first year of a program there is little experience at RB but they did have a couple of solid recruits in true frosh Tevin Williams (PS#117) and rFr Chris Johnson (PS#216) who was also recruited by Colorado. Unheralded rFr David Glasco started 8 games but was just the team's #5 rusher with 149 (3.4). Johnson finished #3 with 176 (3.6) and QB Soza was #2 with 285 (3.0). The leading rusher turned out to be HB Evans Okotcha who had 326 (6.5). Not listed in the PSL is CheRod Simpson (6'0" 195 Jr, PS#302), Richard Mendoza (5'10" 190 Sr), Eddie Pitts (5'10" 220 Jr) and HB Nate Shaw (6'0" 225 So). This year they lose Williams (93, 3.9) and Johnson. This figures to be an underrated group.

RECEIVERS - Naturally LY this was an inexp'd unit made up mostly of rFr and true frosh and Kam Jones was identified as the top WR by HC Larry Coker when I talked to him in the summer. Jones led with 578 (14.8). Brandon Freeman, who transferred from New Mex St (RS '10), was #2 with 419 (14.0), TE David Morgan (2 st) was #3 with 214 (16.5) and Kenny Harrison had 2 starts and was #4 with 209 (7.5). TY the unit loses Jake Wanamaker (1 st, 123, 17.6) and while not an overwhelming group, it does have 8 different players who drew sts LY. They are also high on a pair of rFr in Kenny Bias and Sean Hesler.

OFFENSIVE LINE - LY was the first year for the OL to work together and participate in games. They did add a couple of FBS transfers in Patrick Hoog (PS#107, Okla St) and Houston transfer Mike Sanchez. Surprisingly those two combined for just 3 sts as it was a frosh laden line that avg 283 lb per man. They did open holes for 4.2 ypc rush and only allowed 16 sacks so they did a credible job. Only 2 players started all 10 gms at the same position and they are the only 2 entrenched as st'rs for '12 in LT Drew Phillips and C Nate Leonard who is the anchor of this unit. In the spg many players switched positions and you'll find an influx of newcomers among the 2-deep. This year they only lose Sanchez (1 st) and now are a year older, stronger and bigger (add 2 JC's) and will continue to make strides.

DEFENSIVE LINE - UTSA brought in some transfers LY in DE William Ritter (RS at Western Illinois in '09), 6'6" DE Marlon Smith (played basketball at St Mary's) and DT Ashaad Mabry (PS#140) who originally signed at Okla St. Smith (8 st) did lead the tm with 8 sks. UTSA had some adequate numbers as they yielded just 126 ypg rush (3.5) while recording 26 sks but 17 sks came in their 4 gms vs DII or lower opp. TY the unit returns intact with 7 DL back with starting exp. To aid in the outside pass rush this unit also adds Ole Miss transfer Lekenwic Haynes (6'3" 235 Sr) who was a SS LY. Not exactly the Fearsome Foursome, but they do have 40 car sts that they did not have heading into '11.

LINEBACKERS - UTSA uses a 4-2-5 defense but I'll put the DAWG in the LB write-up as I limit the secondary to 4 players. Steven Kurfehs was deemed perhaps the team's best def player heading into last year and the Eastern NM transfer lived up to that billing as he had 61 tkls and 4 tfl despite playing in just 7 games. Brandon Reeves (9 st) was the team's #1 tkl'r (6 sk) and Nic Johnston (10 st, #4 tkl'r) filled out the unit. Not listed in the PSL below is Drew Douglas (6'2" 220 rFr). Naturally the unit returns intact plus they add in PS#202JC Brandon Guerrero who was IFS and hopefully Kurfehs is able to stay healthy all year making this a much upgraded unit.

DEFENSIVE BACKS - The Roadrunners' secondary was actually their most veteran unit LY as they had a senior, a junior and a soph in the 2 deep! NMSt transfer FS Mark Waters (10 st) was the #2 tkl'r and is the only starter lost this year. UTSA allowed 54.4% and yielded 212 ypg passing with an 11-10 ratio. They of course have 7 of the top 8 back and add in PS#211JC Cody Berry and PS#332JC Maurice Poullard. Their best cover CB is Darrien Starling (10 st, 35 tkl, 2 int, 4 pbu) and Erik Brown (6 st, 26 tkl) was a worthy cohort after transferring from Fresno St. Even though this unit is the only one on the team that loses a starter, it is naturally much more experienced and should fare well in their step up to FBS ball.

SPECIAL TEAMS - LY 2 punters split the duties in Josh Ward (35.1) and Kristian Stern (40.9) and the 2 combined for a team net of just 29.6. K Sean Ianno did hit 11-18 FG (L48) with 1 miss from 50+ and KR Kenny Harrison was dynamic (26.8). The average opponents starting position on KO's was the 20 yd line, which was 2 yds better than any FBS team in '11. Naturally everyone returns and I would expect improved net punting and PR's despite the increase in the level of competition.

COACHES - The UTSA football program "officially" began on March 6, 2009 when they hired Nat'l Champ HC Larry Coker. Coker spent 1996-2006 at Mia, Fl as the OC the first 5 yrs and the HC the last 6 winning his first 24 games and becoming the 2nd ever HC to win a championship in his first season. He spent two seasons as an ESPN analyst before taking over here. Both coordinators have been with the team since its inception as 2010 was their first recruiting class but 2011 was their first year with games. Kevin Brown is the OC and QB cch after spending 4Y ('07-'10) as the WR cch at Texas St. Neal Neathery handles the defense with his previous experience at Drake (DC '08-'09) and DIII Wabash (DC '01-'07).

PHIL'S FORECAST

On March 6, 2009 former Miami Hurricane HC Larry Coker was hired as the first ever Roadrunners HC. The original plans were for UTSA to be an FCS Independent but plans changed when an invitation arrived from the WAC. They were an FCS Independent in '11 playing 10 gms vs FCS opp's or lower. They signed 27 players on Feb 3, 2010 who along with the walk-ons all RS in '10 and practiced with the same schedule and restrictions as every FCS team did, but scrimmaged on fall Saturday's instead of playing games. They signed their 2nd class in Feb '11 so they were well below their scholarship allotment. The Roadrunners have brought in a Nat'l Championship HC while also being able to boast the Alamodome as their home field. They also benefit from being in a major city. UTSA already has plans to build practice fields and a training center giving them top-notch facilities. LY they faced 6 FCS, 1 NAIA, 2 DII and a DIII team. Showing their large fan base they set the record for attendance in an inaugural game with 56,743 topping USF's record (49,212 in '97). In that gm vs DIII Northeastern St they won 31-3 with a 373-307 yd edge. The next week in front of 31,634 they lost to Div II McMurry despite a 487-375 yd edge as they gave up a 32 yd td pass with :19 left. In their first ever road game they were blasted by Southern Utah 45-22 jumping out to a 7-0 lead but then giving up 38 unanswered points. I have been following college football for over 40 yrs but I have never even heard of Bacone (NAIA) and that is the team UTSA rolled in their next game 54-7. Sam Houston St played in the Nat'l Title game so a 22-7 road loss (348-246 yd deficit) to the Bearkats was respectable. South Alabama, which joins the Sun Belt TY, had a 2 yr head start (st'd FB in '09) on UTSA and won in the Alamodome in double overtime 30-27. UTSA had a game winning 26 yd FG blk'd at the end of regulation. For the 2nd time UTSA scored 1st but then allowed 38 unanswered in a 38-17 loss at UC Davis. They trailed Georgia St (in their 2nd yr of football) by 14 but rallied for a 17-14 OT win, sending it to OT on a 39 yd FG with :24 left. Their hopes of avoiding a losing season ended with a 24-21 loss at McNeese St. They beat 2-8 Minot St (DII) 49-7 in their final game to finish 4-6. They signed another decent recruiting class and have 21 st'rs returning but have just 8 seniors on the team. This year's schedule is obviously a huge step up in competition but leaves room for some wins. They face the 5 established WAC opponents plus Rice is their only other FBS foe. WAC newcomer Texas St and South Alabama (SBC) both join them in the move from the FCS while their other 4 opponents incl two FCS teams, a DII and an NAIA team. They actually have a decent shot of at least matching LY's 4 win total and it would not surprise me if they surpass it even on a team with so few Sr's, taking a step up and playing just their 2nd year of football.

PHIL STEELE'S 2012 SUN BELT FORECAST

1. FIU - Last year FIU was coming off their first ever winning season in the SBC and were the defending league champs. Unfortunately they opened up SBC play just 2-3 eliminating them from contention and only finished 4th. They went from +67.1 ypg in '10 to just +5.5 ypg LY. This year they lose their most dynamic player in T.Y. Hilton. They say that defense wins championships and you only need to look on the next page to see my rankings for the DL, LB and DB's in the SBC to see that I have FIU #1 in all 3 categories. Also, if you are strong at the line of scrimmage you win a lot of games and I have FIU #1 on the OL and also at RB. They have to play Troy on the road but also play the league's bottom 2 on the road meaning most of their tough match ups are at home and that makes the Panthers my pick for the SBC Title in 2012.

2. TROY - I was shocked by Troy's performance LY as amazingly they were -119.5 ypg in the SBC which was 2nd worst. It was just the 2nd time (-0.7 in '05) they had ever even been outgained in league play in the last 8 years. Troy had won at least its share of 5 straight SBC Titles but went 3-9 overall and 2-6 in the conf finishing 7th. It was a team that started out competitive vs BCS foes as they led Clemson at the half and only lost to Arkansas by 10. There are a lot of indicators pointing upward for Troy with the key 2 being that they were -12 in TO's last year (pg 322) and my Stock Market Indicator (pg 27). Troy has 15 returning starters, which is unusual for a Blakeney team (most s/'04) and after LY's unusual finish, I expect Troy to come out with a vengeance and be a prime contender. Troy fans circle Oct 20th because that will be a deciding factor if Troy can win their 6th SBC Title in 7 yrs.

3. LOUISIANA - UL was picked by one publication (not mine) as the last team out of the 120 FBS teams last year but ended up 9-4 with a New Orleans Bowl win over San Diego St. This year they actually have more returning starters with 13, a veteran QB in Blaine Gautier, their leading rusher, top 2 receivers and 4 OL st'rs back. They have the SBC's top offense but they lose 8 of their top 12 tacklers on D. UL does have a favorable schedule with FIU, ASU and WKU all at home and must be considered a legitimate challenger for the SBC Title but they did benefit from 5 close wins LY and despite their 6-2 SBC record, were only +31.0 in SBC play.

4. WKU - WKU probably overachieved a little bit last year as they opened the season 0-4 incl a 44-16 loss to FCS Indiana St. Despite being outgained by ULM 456-283 they won in OT and got a FG on the last play to beat FIU. They played NT with the Mean Green not having star RB Lance Dunbar and got to 7-5 including 7-1 in the SBC despite the fact that they were only +25.7 ypg in conf play. TY, however, WKU returns 48 of their 58 lettermen including 16 returning starters and are a much stronger team. If you look at the next page, they have my #2 rated O-line and #3 rated D-line which makes them the 2nd strongest in the league along the LOS. WKU unfortunately misses South Alabama in league play and despite having Alabama and Southern Miss on the schedule, 2 of my 9 sets of power ratings actually call for a double digit win season. I'm not quite as high as that, but do think WKU finishes in the upper half of the SBC standings for a 2nd straight year.

4. ARKANSAS ST - Calm down Red Wolves fans. I clearly feel ASU was the best team in the SBC for a couple of reasons. First of all, not only were they the only team with a perfect record at 8-0, but there was nothing fluky about it as ASU was +131.0 ypg in league play which was easily the best. ASU returns their QB, who was also their top rusher as well as 5 of their top 6 rec's and 3 of their top 5 tkl'rs. That will make them a preseason favorite for the SBC this season but there are some troubling factors. They benefitted from positive off and def ypp's, were +2 net close wins, my Stock Market Indicator points downward (pg 27) and their 10 ret sts are fewest in the league with their 26 lett lost the 2nd most. They also have the largest amount of All-Conf players lost and unfortunately don't get to face FAU in the league schedule. It will be another successful year for ASU but I don't see them matching last years DD win season.

5. ULM - LY ULM had a disappointing SBC record at 3-5. Their first 2 years under Todd Berry have gone opposite my expectations. In year one they went 4-4 despite being outscored by 16 points in conference play and LY were actually 2nd best in the SBC at +105.5 ypg despite their losing record. They had some tough losses during the year especially against rival UL as they led 35-24 with 3:08 left and the team overall had 3 net close losses. While they only have 13 returning starters they do only lose 19 of 60 lettermen and ULM does avoid Troy in SBC play and have a solid shot at bowl eligibility this year.

5. MIDDLE TENNESSEE - Not a lot went right for the Blue Raiders last year. MT was 25-12 in SBC play from 2006-'10 but went 1-7 in SBC action LY despite the fact that they were only -20.9 ypg in league play. While MT has just 13 ret st's and they lose 26 lett this year, I feel they'll be stronger in almost every area and my Most Improved rankings do have them as a much stronger team this year. The Stock Market Indicator and a -8 in TO's plus 2 net close losses are all key factors pointing upward for MT this year and after greatly underachieving LY, I look for them to have a good shot at gaining bowl eligibility this year.

8. NORTH TEXAS - It's tough to pick NT this low in the SBC with Dan McCarney as their HC. He got more out of the team than almost anyone expected LY at 4-4 and they could have been even better. However, they were -29.5 ypg in SBC play despite their .500 record and benefitted from +9 in TO's. Also NT loses 27 lettermen and returns just 35, the lowest % of lett returning in the league. They avoid FIU in SBC play and 4 of my 9 sets of power ratings actually call for bowl eligibility but I will call for them to come up just short.

9. FLORIDA ATLANTIC - Howard Schnellenberger was the only HC that FAU ever had and that stepped aside after what was clearly a very disappointing final season. Carl Pelini steps into a tremendous situation. In fact, FAU is in the top 5 of my Most Improved Teams in the country and if you read the team page, you will see numerous factors pointing towards a much improved season this year and including 15 returning starters. The Owls do have a lot of ground to make up as they were dead last in the SBC at -128.9 ypg but almost pulled off a couple of conf wins LY and figure to pull a few upsets this season.

9. SOUTH ALABAMA - South Alabama has won 85% of their games in their history (23-4). LY they only faced 5 FCS and 2 FBS opponents playing 3 lower div teams. While they do have talent and numerous HT's on the roster, they are taking a large step up this year, playing 11 teams that were in the FBS LY and 2 that were in the FCS with no lower div squads. I think USA will be competitive in the Sun Belt and they do get to host FAU but this figures to be a transitional season in their step up.

SUN BELT NOTES - The Sun Belt expands this year with the addition of South Alabama and now Georgia St is slated to join the league in 2013 and be eligible for the title in 2014. Of course a lot can happen this year in terms of teams moving out or into the conference so keep track at PhilSteele.com. The Sun Belt was an upside down conference LY with Troy, which had won or shared 5 str SBC Titles, finishing 2-6 and teams that were picked 7th and 8th in the SBC preseason poll (WKU, UL) going a comb 13-3 in league play. Troy had a 40-11 SBC record prior to '11. After going 0-26 vs BCS conf tms in '10 the SBC got a pair of wins LY (2-18) with FIU upsetting L'ville and NTexas beating Indiana. They were also 7-6 vs non-BCS FBS tms (5-2 vs CUSA!). In 2010 the league was 2-1 in bowls (all vs MAC) but LY was 1-2 with Louisiana upsetting SDSt but Ark St and FIU losing to tms from the MAC and CUSA. Nine of the leagues top 10 QB's in pass eff are back but they do lose 3 of the four 1,000 yd rushers along with 2 of the 3 thousand yd rec's.

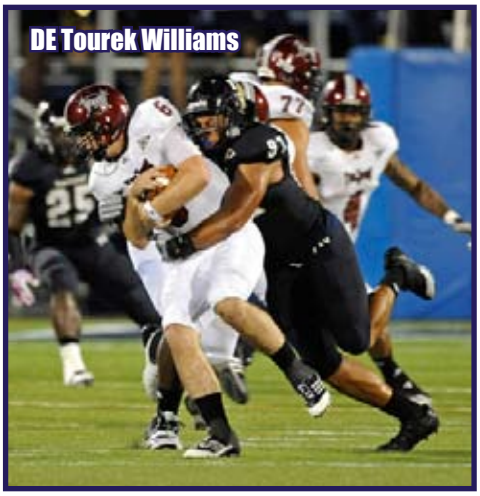
FIU GOLDEN PANTHERS



DE Tourek Williams

POSITION OUTLOOK FOR 2012

QUARTERBACKS - Wayne Younger made 11 sts as a rFr in '07 but the next 2Y (507, 44%, 1-4) only made 1 st. He returned in '10 but I projected transfer Wesley Carroll (PS#92) as the st'r. Carroll had 9 sts at Miss St in '07 (All-SEC Frosh Tm) and started the first 4 in '08 for the Bulldogs. In his 2 years there he threw for 1,952 (51%, 12-14, 246 rush) incl an MSU record with 137 passes without an int (1 away from NCAA frosh rec). Carroll took control in '10 and threw for 2,623 (62%, 16-14). True frosh Jake Medlock (PS#167) impressed HC Mario Cristobal on the scout tm. Carroll was the clear-cut starter LY and was having a fine year as he was int free in the first 5 gms but over the next 4 had a 3-4 ratio. Medlock was the surprise starter against FAU and FIU won 41-7, but he was inj'd on the 2nd play of the next game, Carroll replaced him for the final 2. Carroll threw for 2,374 (60.2%, 14-4) while Medlock had 376 (66.1%, 1-1). Medlock (87 rush, 4.6) runs like a FB and even knocked a Louisiana LB out of the game. This year they lose Carroll so they are less exp'd but had Medlock stayed healthy, he most likely would have started the final 4 and the freshmen listed below had solid springs (Hammonds is an electrifying runner).

RUNNING BACKS - The leading rusher for FIU had 537 (5.5) in '05, 445 (4.7) in '06, 581 (4.1) in '07, 481 (3.4) in '08 and just 376 (4.0) in '09. Darriet Perry (PS#151) burned his RS the last 2 gms in '08 as a true rushing for 173 (5.6) and his 87 ypg were double that of the top man. Perry was banged up in '09 (301, 2.9) but returned and led in '10 with 839 (4.9). Syracuse transfer Jeremiah Harden (PS#125) had 327 (3.9) and Kedrick Rhodes (PS#133) had 293 (7.3) as a true frosh despite missing 4. Darian Mallary (5'8" 180, PS#366) was #2 with 679 (5.6). All 4 ret'd LY and surprisingly Harden had just 90 (4.3) while Mallary saw just 7 carries (1.6). Perry finished #2 with 496 (3.8) while Rhodes set the school rush record with 1,149 (4.9) (Rashad Smith, 1133 in '04). This year they lose Perry but Rhodes could have another record setting year. Added to the mix is West Virginia trans Daquan Hargrett (PS#105), the teams fastest RB rFr Shane Coleman (5'8" 192, PS#152) and true Lamarq Caldwell (210 lbs, IFS).

RECEIVERS - In '08 true frosh T.Y. Hilton (4.2 spd) easily set the school record with 1,013 rec yds (24.7!) along with his return exploits. In '09 Hilton's numbers dropped to 632 (11.1) while Greg Ellingson (574, 16.4 in '08) had 528 (15.5). Both ret'd in '10. Hilton had 0 td's in the first 4, but 8 in the next 5 and led with 848 (14.4, 282 rush). Ellingson was #2 with 612 (14.2) and Wayne Times finished #3 with 341 (12.2). LY they had to replace Ellingson. Hilton, despite missing some time (inj's), had a schl record 72 rec (1038, 14.4). Times was #2 with 540 (10.0) while Jacob Younger was #3 with 286 (13.6). Soph Glen Coleman (PS#186) had 128 (9.1). This year they lose their star in Hilton (12 st, #3DC IND), TE Jonathan Faucher (9 st, 8 rec) and TE Colt Anderson (1 st, 7 rec). They add in Ohio St transfer James Louis (PS#32) and some talented frosh. It will be tough to replace Hilton who could produce instant td's but I do like the overall talent of this group.

OFFENSIVE LINE - FIU did not get a lot of push up front from 2006-'09. In fact, in '09 with 5 st'rs back they only improved to 104 ypg rush (3.0) and allowed 34 sks which was just the 2nd best mark of the 4Y. In '10 they had to replace a pair of 4Y st'rs as well as a 3Y st'r and 2 bkps (comb 7 sts). They did have 55 career sts ret and coaches raved about their improved depth and competition at OL, which had previously been their weak link. FIU's O-line made better than expected strides to 188 ypg rush (4.7) with just 20 sks. LY they had to replace a 1st Tm SBC C (4Y st'r) and a 3rd Tm SBC LG but had 3 st'rs back (50 car sts). Their numbers dropped to 146 ypg (4.0) but with just 15 sks (3.8%). TY they lose RG Curtis Bryant (11 st, 2Y st'r), Kevin Van Kirk (2 st) and Ceedrick Davis (1 st) but have 7 of their top 10 back (103 car sts) including 2nd Tm SBC LT Caylin Hauptmann and this is their best OL in program history.

DEFENSIVE LINE - In '10 FIU had to replace 3 st'rs and had just 11 car sts ret ('09 had 46). I mentioned even though they were less exp'd, they could still show improvement over '09's poor numbers (233 ypg rush, 5.4) and that they did, allowing just 169 ypg (4.6, 33 sks). I mentioned it would be interesting to see who emerged and it was Jarvis Wilson who after just 0.5 sks in his first 3 yrs had 9.5 as a Sr. LY they had to replace 1st Tm SBC DE Wilson but returned 8 w/st exp. DE Tourek Williams added 17 lbs and earned 2nd Tm SBC. FIU had their best ever numbers allowing 118 ypg rush (3.4, 35 sks). Their top sack man (5) was Gregory Hickman who is 274 lbs, explosive and smart. TY their only loss is DE James Jones (9 st, 33 tkl, 3 sk) so this looks like the SBC's best D-line.

LINEBACKERS - In '10 the Panthers had to replace a 2nd Tm SBC SLB (#1 tkl'r) and their #8 and #9 tkl'rs (comb 10 sts). FIU still improved their numbers by over a td allowing just 27.3 ppg. LY they had to replace two 1st Tm SBC LB's (#2, #5 tkl'rs) and a backup (21 tkl). They ret'd their #3 and #12 tkl'rs. Winston Fraser earned 1st Tm SBC (#1 tkl'r, 4 sk). They improved again by over a td to 19.5 ppg. TY they lose Chris Edwards (12 tkl, 1 sk) but return their 3 st'rs (#1, #2 #12 tkl'rs) and this is clearly one of the SBC's top LB corps.

DEFENSIVE BACKS - FIU was #118 in my PDR in '04 and dead last at #119 in '05. They then improved to #75, fell to #103 and in '08 with 3 st'rs back, surprisingly moved all the way up to #38. In '09 with 2 st'rs back they plummeted back to #95. In '10 they again had to replace 2 st'rs. FS Ashlyn Parker missed almost all of '08 and '09. I was surprised he was able to start all 13 (#4 tkl'r) and the Panthers moved up to #27 (55%, 19-15). LY they had to replace Parker and 2 bkps. They had another solid finish at #25 (57.1%, 11-14). TY they only lose DB Jarrell McGee (8 tkl) and S Emmanuel Souarin (13 tkl). JUCO Demarkus Perkins orig committed to Ariz St but was a late signee here LY who RS. Justin Halley DNP the first 5 as a rFr but started the last 3 at FS (26 tkl, 4 int). They have 8 back with starting experience incl the entire 2 deep and while they won't improve much in my PDR, this is the SBC's best secondary.

SPECIAL TEAMS - FIU was #105 in my ST rankings in '05, #118 in '06 and #97 in '07. In '08 they had an exciting true frosh in T.Y. Hilton and the unit moved up to #31 and in '09 was #34. In '10 they had to replace their K and P while Hilton was banged up and they fell all the way down to #93. Soph K Jack Griffin hit 17-20 (L50) and Dylan Lynch hit 8 TB on 66 KO while P Josh Brisk avg 39.3 but the tm had only a 31.0 net. LY I called them one of the most improved ST units in the country and they moved all the way up to #17. Hilton avg a tremendous 23.2 on 8 PR and was also their top KR (30.4). Griffin hit a schl rec 22-26 FG (L46) and had 5 TB on 68 KO. Brisk improved his punting to 42.3 (34.2 tm net). Griffin had 5 TB on 68 KO. This year their K and P return but they do lose the incomparable Hilton and could drop significantly in my ratings.

COACHES - In 2007 Mario Cristobal became the first Cuban-American HC in FBS history. He was an All-Big East OT at Miami and was the TE coach there from '04-'05 and then the OL cch in '06. Cristobal was just 36 yrs old when he became HC and 4 ssn after taking over an 0-12 program he earned SBC COY and a bowl win. TY they have a new OC in Tim Cramsey who spent the L9Y at New Hampshire where he coached QB's and was also the OC the L2Y. The Panthers had 3 DC's in 3 seasons ('09-'11) but Todd Orlando now returns for his 2nd season. He was previously at Conn for 12 seasons (5 as DC).

PHIL'S FORECAST

FIU just started playing football in '02. They had losing seasons their first 8 yrs reaching 5 wins 3 times. In '10 they had just 11 ret sts, opened with 4 gms vs BCS teams and played 7 on the road in a 9 gm span (13,000 miles). After playing Rutgers and MD tough, they still opened 0-4 but rallied to go 7-2 down the stretch including getting a final play FG to knock off Toledo in the Little Caesars Pizza Bowl for their first winning season in school history (7-6). FIU was a league best +67 ypg in SBC play. LY they had 15 ret sts and were the preseason favorite to win the SBC Title. I called for them to set another schl rec and top their 7 win total and that they did. Things opened great as they waxed NT in the opener, 41-16. Hilton had 74 and 83 yd td's and the tm had a 71 yd IR td as they knocked off their first BCS tm, Louisville 24-17 despite getting outFD'd 24-9. FIU hosted UCF and got a 51 yd FR with :06 before the half propelling them to a 17-10 win. They drew 4 votes in the AP poll at 3-0 and *GameDay* dropped in to do a feature on FIU. That wk FIU lost at home to Louisiana, 36-31 with QB Carroll getting inj'd in the 1Q while Hilton was banged up (32 yds). The next wk FIU led 27-17 in the 4Q vs Duke but the Blue Devils got 2 td's including one with 2:29 left and despite a 568-384 yd edge, FIU lost. They dominated Akron on the road with a 28-14 FD edge (10 pt win) and led Ark St 16-13 but lost 34-16. After getting past Troy in OT 23-20 (521-299 yd edge) they gave up a 34 yd FG on the last play vs WKU and lost by 1 on the road as they were outFD'd 22-8 and outgained 324-180. That was their 3rd SBC loss knocking them out of the conf race. In their FHG for 14 seniors, they whipped rival FAU 41-7 with Medlock getting the surprise start at QB. FIU led ULM 28-10 at the half with a 283-135 yd edge and held on for an 11 pt road win. They led MT 21-6 in the 3Q en route to a 31-18 win. They dropped their second ever post season appearance in St Petersburg (Beef O'Brady Bowl) to Marshall by 10. This year FIU has 17 ret sts and Medlock at least has some exp as a starting QB. FIU benefitted from fortunate ypp's on both off (14.4) and def (17.7) thanks to their +5 in TO's and Hilton's return ability which will be greatly missed. Despite those factors FIU has a great shot at their 2nd SBC Title in the last 3 years.

LY in the schools 1st and only meeting FIU trailed 10-3 late 2Q but from that point on outgained UA 359-186 (UA102 yds L/2 drives). The Golden Panthers are 3-7 in home openers (1-6 vs FBS tms).

These instate schools will play for just the 2nd time. LY FIU trailed 7-0 but w/UCF driving late 2Q got a 51 yd FR td w/:06 before HT which sparked 17 unanswered. Into '12, FIU is 3-18 in non-conf AG's S/'05.

The only prior meeting was LY. FIU took a 7-0 lead on a 71 yd IR td mid-1Q and opened the gm up w/B2B 80 & 82 yd td drives to lead 21-10 at HT. FIU is 0-4 hosting BCS conf schools.

LTH FIU had 7 sks and 3 ints but the key play happened w/FIU up 7-3 late 2Q. Their punt was blk'd setting UL up at the F2 but on 4&gl was SOD. FIU tacked on 2 scores early 3Q and never looked back.

Golden Panthers are 2-5 vs the Red Wolves. LY FIU had a 16-13 lead after 3Q's but allowed 21 4Q pts as their L/2 drives ended on a int at their 9 (set up td) and fum at the ASU46.

FIU is 1-3 in Troy but won the LTH. The Golden Panthers had a program history high 668 yds and the 52 pts (led 31-7) is tied for #2 all-time (52 vs FAU in '05 & 55 vs Jacksonville in '03).

The loss LY snapped a 4 gm series winning streak. The gm had 4 lead changes (2 in 4Q). Up 9-7 FIU allowed a 36/8pl 34 yd fg as time exp'd. Into '12, FIU is 12-5 their L/17 SBC HG's.

First meeting. FIU started in SBC play in '05 & into '12 are 8-16 in conf road gms (5-3 the L2Y).

FAU: The only previous time FIU beat rival FAU ('05) the next yr they lost 31-0 (only series shutout).

LTH FIU led 9-7 3Q but all'd 14 str as their L/4 drives ended on a SOD at the FAU2 and 3 str int's (last at FAU32).

LY the Golden Panthers led 28-10 at HT but were shutout in the 2H (just 52 yds on 28 plays ran).

ULM in the 2H was SOD at the FIU22, missed a 43 yd fg and int in the EZ. FIU is 6-4 in home finales.

TROY TROJANS

DL Tony Davis

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 Levi Brown had a streak of 256 passes w/o an int and became the first player in SBC history to top 4,000 yds passing (4254, 23-9). In '10 Troy had to replace Brown (#7DC) and rFr Corey Robinson (PS#113) beat out Jamie Hampton (5 st '08, inj '09) for the starting job. Robinson had an 11-3 ratio in his first 5 but then an 8-11 in the next 5 with Troy losing 3 of those. He rebounded and earned the Bowl MVP while throwing for 3,726 (64%, 28-15). Hampton was inj'd after 5. LY both ret'd. Robinson threw for 373 vs Ark, 348 vs MT, 349 vs UAB and 322 vs UL. The next 3 gms he avg just 161 ypg but then threw for 396, 303 and 311 in the final 3. Robinson finished with 3,411 (62.2%, 21-15). Hampton alternated with Robinson in the 2H vs Navy and played in 5 (13-19) but was OFY vs NT. They bring in Deon Anthony (PS#226JC) who will battle Robinson and at worst he could be used in the Wildcat as he is a solid running QB. Robinson already has 7,137 yds bumping Levi Brown (6,284) out of the #3 career spot and should have his best season yet as a junior.

RUNNING BACKS - In 2008 DuJuan Harris become just the fifth 1,000 yd rusher in school history (1077, 5.1). Harris had only 583 (3.9) in '09 and Shawn Southward emerged earning the SBC FPOY despite making just 2 sts (602, 5.5). In '10 Southward led again with 623 (5.4) and Harris added 603 (6.2) while soph Chris Anderson (PS#83) had 388 (4.1). LY they lost Harris. Southward led again with 556 (4.5) and DJ Taylor, who had 168 in 5 sts his first 2 yrs, was #2 with 367 (4.5). Anderson finished #3 with 217 (3.7). TJ Mitchell (5'8" 188 Sr, PS#391) had 74 (4.6) in '10 but just 2 att LY. This year the unit returns intact and should have much improved production.

RECEIVERS - Jerrel Jernigan was Troy's top offensive player and was the top WR in '08 (868, 11.3), '09 (1101, 15.5) and '10 (822, 9.8) while also being a dangerous RM. LY they had to replace Jernigan (#3DC) their career leading receiver, as well as their #2 and #3 rec's. Over the summer they then lost their #4 and #5 rec's. Their leading returning WR was Eric Thomas (#8, 120, 13.3). The unit's lack of exp hurt the offense. Thomas led with 875 (13.1) while Corey Johnson (PS#78 bro Ronald w/ NFL's Eagles) was #2 with 440 (10.2). Auburn transfer Justin Albert (PS#164) had 338 (8.4) and true frosh Chandler Worthy had 392 (17.8). Stanley Arukwe (track tm) avg 19.2 on his 12 rec. While the TE is not a major part of the off James Teknipp (6'5" 245, PS#66) made 5 st (3 rec). This year they lose Arukwe and Brett Moncrief (17 rec). They return Chip Reeves (515, 17.2 in '10) and Jamel Johnson (258, 11.2 in '10) who both missed LY and impressed in spring. Corey Johnson did tear his ACL in the spring and is ? for the ssn. This unit is vastly more exp'd and will be a big part of their much improved offense.

OFFENSIVE LINE - In '10 the Trojans had to replace 2 starters (57 car sts ret). Troy improved to 157 ypg (4.3, 24 sks). LY they had to replace 3 st'rs (1st Tm SBC C, 3.5Y st'r). They ret'd a pair of 2 yr st'rs (54 car sts ret). Even with 1 less starter it was surprising their numbers plummeted to just 89 ypg rush (3.2) but they did allow a respectable 20 sks (3.8%). This year they lose 1st Tm SBC LT James Brown (12 st, 3Y st'r), C Zach Swindall (12 st) and RG Jacob Creech (5 st). LY's unit was injury plagued so this year they do return 4 who started 5+ games (56 car sts) so despite losing their top OL, Troy should produce much improved numbers.

DEFENSIVE LINE - Troy's D-line has produced a #2 NFL DC in Osi Umenyiora ('02) and a #1 DC in DeMarcus Ware ('04). Troy had a star studded D-line in '09 incl Brandon Lang (17.5 tfl '08) and DE Cameron Sheffield (both 1st Tm SBC in '08) and they added in 3 VHT's. It was surprising that they allowed 138 ypg rush (4.2) with just 33 sks. In '10 they had to replace all 4 st'rs (#5DC). As you would expect, their number regressed to 165 ypg (4.4) but surprisingly the D-line accounted for 30.5 of the tm's 40 sks. LY they had to replace a 2nd Tm SBC DE but ret'd 3 st'rs. They lost proj'd starting NT Sidell Corley (PS#14) prior to the ssn. It was surprising that with a more exp'd DL, Troy slipped again to allowing 204 ypg (4.5) and the sks dropped to 19. TY they lose 1st Tm SBC DE Jonathan Massaquoi (12 st, 52 tkl, 6 sk, #5DC ATL), 3rd Tm SBC DE John Robles (11 st, 60 tkl, 7.5 tfl), DT Emmanuel Dudley (3 st, 21 tkl, 1 sk), Brandon Boudreaux (9 tkl) and Corley. They ret Shermane TeArt who was the #4 NT as of the start of the year but came on strong during the season and started 5 (inj'd 4). They could also add in Ark trans Lonnie Gosha (6'2" 277 So, PS#52), who is trying to become eligible. Clearly this unit is less exp'd but despite the losses, they could actually improve upon '11's poor numbers.

LINEBACKERS - In '10 Troy had to replace the "Killer Bees" in Boris Lee and Bear Woods (#1,#2 tkl'r, both 1st Tm SBC) as well as their #11 tkl'r. They ret'd their #8 and #12 tkl'r and then a LB who st'd the first 7 left the team after gm 9. Troy yielded 30.2 ppg (tm highest in IA ball). LY they had to replace their #2 and #10 tkl'rs but ret'd their top guy Xavier Lamb (#1 tkl'r, 2nd Tm SBC) and 2 of the 3 LB's who st'd the last 4 in '10. Kanorris Davis was OFY after 8 st and with Troy having clinched a losing season, more bkps saw action. Troy's def numbers got even worse (33.7 ppg). TY they lose 3rd Tm SBC Lamb (#2 tkl'r, 2 tfl) but return 5 of their top 6 incl their #4 and #6 tkl'rs and while on par with LY in terms of experience, they add in 4 JC's and I'll call for improved numbers.

DEFENSIVE BACKS - Troy usually gets a lot of int's and ranks high in my PDR. They finished #49 in '07 and despite losing both CB's, moved up to #10 (18-21 ratio) in '08. The Trojans had zero ret sts in '09 and plummeted to #105 (29-10). In '10 they had to replace 2 st'rs but did return 2nd Tm Fr AA Bryan Willis (13 st) along with adding PS#33JC Jimmie Anderson. They then lost S Barry Valcin (11 st '09) in Aug so Willis was the only ret st'r. The unit was still more experienced than '09 and moved up to #65 (23-14). LY they only had to replace 1 st'r and 4 bkp (comb 67 tkl). They also ret'd Valcin so they had 6 who st'd 6+ and added Mich St trans Brynden Trawick (PS#94) at SS. Given that criteria and Troy's past, I would have expected a high finish in my PDR but they finished just #105 (23-8 ratio), even with Trawick earning 2nd Tm SBC. TY they lose CB Anderson (8 st, 37 tkl, 2 int, 4 pbu) and FS LaDarrius Madden (10 st, #3 tkl'r, 2 int, 3 pbu). I felt the unit underachieved LY and they should finish much higher in '12.

SPECIAL TEAMS - Troy usually does well on ST under HC Blakeney and in '08 they finished #17 in my ST rankigs but dropped to #72 in '09. In '10 they had everyone back and plugged in WR Jernigan for PR's where he excelled (13.3) and improved on KR (25.2). Will Goggans improved his avg to 42.2 (37.6 net). Michael Taylor had just 9 TB on 85 KO but hit 17-22 FG (L50 in bowl). LY they had to replace Jernigan and it figured to be tough to top their #65 finish of '10 and Troy dropped to #95. The return game was average and Taylor hit 8-14 FG's (L48) with 11 TB on 55 KO while Goggans avg dropped to 40.8 (36.6 tm net). This year they lose both Taylor and Goggans but history has shown me that this unit overachieves.

COACHES - In Larry Blakeney's 21 years here he has guided Troy from Div II to IAA and finally to IA ('01). Troy won or shared 5 straight Sun Belt Titles from '06-'10 with a conf record of 32-5 but LY the Trojans suffered their worst season under Blakeney and worst overall s'/82 (3-9). The OC for a 3rd straight year is Kenny Edenfield (inside rec cch here '08-'09). PHIL'S FORECAST

Troy went from Div II to IAA to IA in 13 yrs and joined the Sun Belt in '04. Troy has had just 4 losing seasons in the last 20 yrs despite the increased schedule strength. Heading into LY their last losing ssn was '05 (4-7). From '06-'10 Troy had just 10, 13, 14,11 and 8 ret sts but won 8, 8, 8, 9 and 8 gms and at least a share of the SBC Title all 5 yrs. Troy went 32-5 in SBC play and +93.6 ypg over that span which is 68.1 ypg better than the #2 team. LY Troy failed to capture their 6th straight title and their 3-9 season was quite a surprise. Troy led Clemson 16-13 at half (195-121 yd) but lost by 24 (-45 yds). They then only lost to #14 Ark by 10 (Troy 457-454 yd edge). They were outgained 296-162 at half by MT and trailed 21-14 but rallied for a 38-35 win. The Trojans got a td with 4:07 left to get past UAB 24-23 with UAB losing QB Ellis to injury. With 2 expected losses and 2 wins incl vs their rival they travelled to Louisiana and stunningly lost (trailed 24-3, 1H). They were tied at 3 at home vs ULM but they were mauled 38-10 (outgained 523-126) which was their largest home loss s/'89. Troy went to FIU on a Tues night and were outgained 521-299 but lost in OT after blowing a 20-17 4Q lead. They were annihilated by Navy (trailed 35-0 at half). They lost their 2nd straight home game for the first time under Blakeney when NT upset them 38-33 (NT 503-383 yd edge). They rebounded in their final HG as they whipped FAU 34-7 but then at WKU, trailed 27-18 after 3Q's and lost 41-18. In the season finale vs Ark St they had a 306-206 yd edge at half but trailed 24-14 (blk'd punt, FR td's) and lost by 31. Troy was a shocking -119.5 ypg in SBC play (2nd worst) which was the first time they had been outgained in league play in their 8 yrs. Naturally there are a lot of indicators pointing upwards this year as Troy does have 15 ret sts, the most s/'04 (avg'd just 12). They were -12 in TO's in '11, had poor off (17.0) and def (13.8) ypp's and my Stock Market Indicator has them near the top (pg 27). This team will bounce back toward the top of the Sun Belt and also makes my Most Improved List.

LOUISIANA RAGIN' CAJUNS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 UL had to replace a 2 yr st'r. Chris Masson, who threw 9 passes in '08, finished with 2,406 (60% 10-8) and his 222 comp were just 2 short of the schl record (Jon Van Cleave '01). Brad McGuire was brought in mostly to run (197, 3.7). Blaine Gautier (PS#161, lefty) had 17 att on the ssn and led a td drive in the finale. In '10 McGuire moved to FB, but then was inj'd. In McGuire's first game back (Ohio, gm #8), Masson was inj'd in the 1st series and McGuire threw for 384, becoming the first QB other than Masson to start s/'08 (20 gm) but then he inj'd his thumb (OFY). Gautier, who is very accurate throwing the ball deep, st'd 2 and was the leading rusher in both (198 comb) hitting 34-65-440 but had 3 int's vs FIU. Masson st'd the finale and finished with 1,842 (53%, 11-6). The more mobile Gautier won the starting job for the opener in '11. Masson would start the next 2 but then Gautier took over the job. Gautier got banged up late but his 23 td's topped Jake Delhomme's schl rec (20) and he threw for 2,958 (62.8% 23-6, #2 rush, 486). Masson threw for 437 (54.2%, 2-4) and Brady Thomas hit 2-2-30. This year they lose Masson and McGuire. They add VHT Houston trans Terrance Broadway (PS#30) who had 1 st at UH (30-42-424-3-1 in 4 gm), burning his RS after Case Keenum was inj'd. Despite the loss of a QB who had 4,757 career yds (2 sts LY), I will call this an improved unit in the 2nd yr of the Mark Hudspeth offense.

RUNNING BACKS - Prior to '05, UL had NEVER produced a 1,000 yd RB. Tyrell Fenroy took over as a true frosh and became just the 8th RB in NCAA history to top 1,000 in 4 straight yrs. After his departure in '09 the leading rusher had just 432 (4.5). In '10, for the 2nd str yr, they lost their top RB to inj as Kevis Streeter (153, 7.7) was lost in Wk4. A RB did not top 50 in a gm the rest of the ssn. Soph Aaron Spikes (PS#107) finished #1 with 339 (3.3, #2 rec 398) and QB Gautier was #2. LY they added in 2 solid true frosh in Qyendarius Griffin (PS#148, Mr FB in Miss) and Alonzo Harris (PS#77). Harris, after only 30 yds the first 2 gms, took over as the top man and produced the unit's only 100 yd effort (189 vs MT) and led with 700 (4.3). QB Gautier was #2 (486, 4.1) and Griffin #3 (210, 3.1). Spikes, even with 2 sts and 77 vs WKU only had 118 (3.8). TY Griffin moves to LB but Harris is back and they should have their best production from their RB's since the Fenroy era ended.

RECEIVERS - In '09 TE Ladarius Green led the tm in rec (533, 16.7) and was a John Mackey Award semi-finalist. He led again in '10 (794, 18.0) while RB Aaron Spikes was #2. The top WR Vernon Wolfe had 295 (15.5). It would have been Javone Lawson who had 271 (14.3) but he was inj'd after 6 (OFY). LY they only had to replace Wolfe and Hudspeth felt the UL WR's were on par with the group he had at Miss St. JC Harry Peoples had a huge game vs FAU (12-176) tying a Cajun Field record for most catches (Brandon Stokley, '95). He finished #2 with 697 (12.0). Lawson topped 100+ five times incl 137 vs Ariz and 193 in the bowl to finish #1 with 1,092 and an impressive 17.3 ypc (1st Tm SBC, 8 td). Green was bothered by a shoulder inj and was #3 (606, 11.9) while the field stretching soph Darryl Surgent was #4 with 518 (18.5!). This year they lose Green (12 st, #4DC SD) and Andrew Joseph (1 st, 7 rec). Even with the loss of their star TE, this group could be just as solid.

OFFENSIVE LINE - In '10 UL had 7 of their top 10 OL back (65 car sts) but had to replace three 1st Tm SBC starters (two 3Y and one 4Y st'r). As expected, their numbers dropped to 101 ypg rush (2.9) and they allowed 39 sacks (5th most FBS, SBC high). LY they had to replace 3 starters again but only one all-conf (2nd Tm). They had 3 back who had 7+ starts (27 car sts). All 5 starters started all 13 and they showed a little improvement to 125 ypg (3.6, 25 sk). TY they lose LG Kyle Plouhar (2Y st'r) but have 73 car sts returning and this should be one of the SBC's top O-lines this season.

DEFENSIVE LINE - LY UL's DL had to replace 1 st'r and 2 bkps. They then lost BAN DE Nate Douglas (6 st) prior to the year and those 4 comb'd for 64 tkl and 8 tfl in '10. LY I called for a bigger impact out of Bernard Smith (orig WV) who had 31 tkls and 2 sk in '10 despite not starting. Smith stepped it up earning 1st Tm SBC (6.5 sks, 6.5 tfl) and UL improved to 28 sks and trimmed their rush D to 139 ypg (3.7). TY they lose DE Smith (8 st), DT Tyrell Gaddies (9 st, 31 tkl, 2 sk, 5.5 tfl), DT Derreck Dean (13 st, 42 tkl, 6.5 tfl) and DE Chris Tucker (5 st, 28 tkl, 3.5 sk). They return Cordian Hagans (orig LSU) and 2 others who st'd LY but they comb for just 5 sts making this group a lot less exp'd. They do add in VHT's Jalen Fields (PS#38 orig Georgia) and Delvin Jones (PS#45 orig Ole Miss) which adds an SEC flavor to the D-line and could be better than expected.

LINEBACKERS - In '10 UL had to replace their #1 and #3 tkl'rs but ret'd 3rd Tm SBC Grant Fleming (#2) and Daylon McCoy, who had been the #1 tkl'r in '08 (#5 in '09, miss 3). Surprisingly the D went from allowing 30.3 to 37.0 ppg. LY they had to replace those 2 (#1 and #5) and another LB (5 st, 12 tkl). They did return their #2 and #11 tkl'rs and added in Ark transfer Jelani Smith (PS#115) and SS Lance Kelley (5 st, #7). The ppg improved by a td (29.8). TY they lose 1st Tm SBC Kelley (13 st, 118 tkl, 8.5 tfl), Devon Lewis-Buchanan (12 st, 78 tkl, 10.5 tfl) and Smith (8 tkl). With the loss of their #1 & #3 tkl'rs, this group is a little less experienced but return their #6, #9 & #13 tkl'rs and add in 2 JC's and RB Griffin.

DEFENSIVE BACKS - The Ragin' Cajuns have produced 7 NFL DB's s/'00, but only once in that span prior to LY did they finish higher than #80 in my PDR (#77 '08). LY the Cajuns had to replace a 1st tm SBC CB and 2 bkps (comb 4 st, 24 tkl). They also moved SS Lance Kelley (5 st) to LB. Hudspeth felt that the unit was the strongest part of their defense and UL moved up to #75 (63%, 23-14). TY they lose 1st Tm SBC CB Dwight Bentley (13 st, #5 tkl'r, 3 int, 6 pbu, #3DC DET), SS Lionel Stokes (13 st, #4 tkl'r, 2 int, 5 pbu) and Pierre Hill (4 tkl). They have 35 car sts ret but also add in Ole Miss trans Darius Barksdale (PS#7) and I will call for their best PDR finish since the 1990's!

SPECIAL TEAMS - In '10 UL ret'd almost all of their top ST players but slipped down to #114 (#73 in '09) in my ST rankings. Brett Baer took over as their starting K and hit all 7 FG's but had just 1 TB on 92 KO in 2 yrs. LY they had to replace their other K as well as their P (35.6 net) and top PR. Harry Peoples (30.5 KR, 19.7 PR's at JC '10) had just 126 ttl ret yds and Soph Darryl Surgent led in both. Hudspeth did not want Baer handling all 3 duties and that was a smart move. Baer proved to be an exceptional K hitting 18-20 incl 6-7 from 40+ and did well on punts with a 40.3 avg (37.8 tm net). Hunter Stover had 1 TB on 47 KO but when he was inj'd they took the RS off true frosh Carlos Alvarez (1 TB, 15 KO, 5 gm). The tm also lost LS Matt Rosenbalm in Nov. The unit finished #48 which was their best s/'02 (45). With all the key players back they will challenge to reach new heights in my ST rankings.

COACHES - Mark Hudspeth was the pass game coor at Miss St in '09-'10 and was hired as the Cajuns' 25th HC. Prior to that he spent 7 yrs as a DII HC at North Alabama (66-21). Hudspeth exceeded everyone's expectations LY as the Cajuns finished with 9 wins for the first time s/'76 and got to and won their first ever bowl. Hudspeth returns his entire coaching staff for a second season. The OC Jay Johnson was the QB coach at C Mich ('10), L'ville ('08-'09) and S Miss ('03-'07). The DC is Greg Stewart who was on the Jacksonville St staff for 18 years including 11 as the DC.

PHIL'S FORECAST

Prior to Rickey Bustle taking over in 2003, UL had 6 str losing seasons. In '05 I called for UL to have its first winning season s/'95 and they were arguably the best team in the SBC. The Cajuns were 5-2 (+68.2 ypg) vs the SBC and finished 6-5. Bustle guided the team to a 6-6 record in 3 of the next 4 yrs including '08 when they made my Most Improved List and became bowl eligible. From '05-'09, Bustle was 20-21 in Sun Belt play and had upsets of Kan St and Houston. Not a lot went right in Bustle's final ssn and they dropped to 3-9. Hudspeth took over in '11 and the excitement was obvious with 5,215 at the spring gm. They did have just 12 ret sts but were motivated by a national publication (not mine) ranking them #120 out of 120 teams. UL was rolled by Okla St in the opener, 61-34, despite benefitting from 2 def td's. In the rain at Kent St they were outgained 186-159 but won 20-12. They blk'd a FG for a td and got a 41 yd IR td to get past Nich St, 38-21 (only 280 yds). FIU QB Carroll was inj'd in the 1Q while Gautier started for UL and they prevailed on the road, 36-31. UL got a 26 yd FG on the last play vs FAU to pull out a 37-34 win but did have a 459-324 yd edge. They got an 89 yd IR td with :03 left in the half to go up 24-3 on Troy and won by 14, knocking off the '10 SBC co-champs in B2B wks. It was 13-10 in the 4Q vs NT but UL won by 20 (345-232 yd) and stood at 6-1. UL lost at WKU 42-23 with one of WKU's td's coming on a pass that went through a DB's hands. Gautier got an 80 yd TD run to open up a 28-0 lead vs MT and they won 45-20. They trailed rival ULM 35-24 with 3:08 left but rallied for 2 td's and the win (outFD'd 26-19). Playing for the SBC Title, UL went into Ark St. After trailing 20-7 they led 21-20 in the 3Q but lost on the road by 9 pts. They then lost at Arizona by 8. In the bowl, UL fans flooded the in-state Superdome and set a New Orleans bowl gm att record (42,841) and they prevailed 32-30. UL joined the 1921, 1970 and 1976 teams as the only ones in schl history to win 9. It was their first post season appearance s/'70 and their first ever bowl. There are factors pointing downward for TY. LY's squad benefitted from 5 net close wins and had an off ypp of 12.2. Also, despite their 6-2 record, they were only +31.0 ypg in SBC play (3rd best). However, UL gets a key game vs FIU at home and must be considered one of the favorites to win the Sun Belt this year.

UL is 16-10 vs Lamar but this is the 1st gm S'/'89. LU dropped their program after that ssn and in '10 returned from a 21 yr hiatus. These schools play for the Sabine Shoe. UL has won 7 of 8 home openers.

UL last beat Troy 2 str ssns in '51 & '52. LTH UL was up 21-17 4Q but fum at the T5. Later with the gm tied 24-24 Troy went 53/7pl for the GW td. Ragin' Cajuns have lost 21 str road openers.

UL is 0-8 vs OSU w/5 losses at Stillwater by 31 ppg. LY UL scored a series high 34 pts but also all'd a series high 61 pts. The Ragin' Cajuns are 1-26 vs ranked opp's (only win in '96 vs #25 Texas A&M).

Bonus: For 7 straight years Louisiana has won at least two SBC away games.

UL is 7-2 vs FIU. LY FIU led 7-0 early but UL went up 8-7 early 2Q never relinquishing the lead. Up just 5 in the 4Q UL stopped FIU at the FIU41 and int'd a pass at their 17 on the gms final play.

These two instate schools are 135 miles apart. They played 13 times from '83-'00. UL is 4-20 incl 4 str losses by 32 ppg. L/gm took place in Lafayette in '00, UL lost 38-37.

Louisiana has won 5 straight overall and 3 straight in Denton. LTH UL led 28-14 into the 4Q. The Ragin' Cajuns up 7 allowed a 91/11pl td drive w/:31 left but blocked the xp.

The home team is 11-1. LY UL trailed 17-0 but led 21-20 mid-3Q. UL was int'd at the ASU21 and that led to the GW td. UL's L/3 drives ended in 2 punts and time at their own 38.

Bonus: Since '89 Louisiana is 5-0 the following year after a loss to ASU, 3 wins by a ttl of 9 pts.

The L/2 gms in this instate rivalry have been decided by 1 pt each. LTH Louisiana led by 10 in the 4Q but needed a blocked XP w/4:55 left to preserve the win.

UL is 0-4 vs Florida (all gms in Gainesville) with the avg loss by 43 ppg. The L/gm was in '96, UL lost 55-21.

UL dropped B2B gms after opening series 3-0. LY UL never led but got as close as 4 on 3 separate occasions.

First meeting. Into '12, the Ragin' Cajuns are 10-5 the L/4 ssns hosting SBC foes (4-0 LY, avg win by 10 ppg).

LTH UL trailed 24-14 4Q but after a td w/1:45 left (down 1) went for the 2pt conv, but their pass was inc.

WKU HILLTOPPERS

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '09 rFr Kawaun Jakes (PS#128) played in each of the first 3 and then when the st'r was inj'd, took over. He st'd 8 and threw for 1,516 (61%, 9-9, #2 rush). In '10 Jakes was inj'd in a pickup basketball game (miss 2 wk spg) which did not make HC Willie Taggart happy. Jakes was demoted but reclaimed his job and threw for 1,680 (51%, 10-6, 200 rush). He threw for just 103 ypg (43%, 2-2) over his final 5 (top WR & TE out). LY Jakes beat out Taggart recruit rFr Brandon Doughty (PS#95) who drew interest from Miss St. Doughty made every road trip in '10 but still RS. Jakes struggled to start out LY and Doughty QB'd the 2H vs Navy and did enough to win the starting job. Three plays into his first start, Doughty was inj'd and OFY. Against NT Jakes became the first WKU QB with 3 td's in a gm since '05 (Justin Haddix) and finished throwing for 1,854 (55.4%, 10-12, 161 rush). 6'7" James Mauro (PS#138) turned down 2 Big Ten schools (Wisc, NW) and he was the bkp but RS. While all 3 are back, I expect either Doughty or Mauro to ultimately win the starting job and regardless of who the QB is, they should put up improved numbers.

RUNNING BACKS - Bobby Rainey was leading the team in rushing in '08 (248 all-purp yds vs UK) but was inj'd and finished with just 259 (6.2). The leading RB had just 388 (4.2). In '09 Rainey led with 939 (6.5). Rainey was #3 in the FBS in '10 with 1,649 (4.8 with 15 td's, #3 rec yds). Antonio Andrews (PS#137QB) was Kentucky's Mr. Football in '09. Andrews arrived late Aug '10 and played in just 9 (174, 5.4). 2011 started just like '10 finished with Rainey topping 100 yds the first 3 gms and he became the 1st WKU RB to top 100 in 10 diff gms in a ssn. He also became the first WKU player to top 150 in B2B wks in 11 yrs. Rainey set the single season schl rec with 1,695 (4.6) earning my 4th Tm AA honors and departs as WKU all-time leader. Keshawn Simpson (6'0" 243 Jr, PS#328) had 134 (4.2) and FB Kadeem Jones added 90 (2.9). Andrews played in 8 (42, 2.8) but impressed in the spring (154 and 121 yd efforts). Naturally with the loss of the 2 time SBC OPOY, this unit looks a lot weaker in '12 but true frosh Anthony Wales (PS#54) could surprise.

RECEIVERS - LY Willie McNeal (#1 '10, 360, 13.8) inj'd his knee in spg and RS and Marcus Vasquez (#2 '10, 332,11.1) was OFY vs Ind St (gm 3) leaving the team with 12 of their 13 WR's being underclassmen and it showed. TE Jack Doyle (#4 '10, 224, 11.2) earned 2nd Tm SBC and led with 614 (11.8). Rainey was #2 and their top WR was rFr Rico Brown who had just 185 (14.2). This year everyone is back, they get the return of Vasquez and McNeal and should have one of the most improved receiving corps in the country.

OFFENSIVE LINE - With a mobile QB and 3 OL st'rs back in '09, WKU improved to 173 ypg rush (4.7) but allowed 39 sks (12.5%). In '10 they had to replace a 3Y st'r but ret'd their other 4. While their rush numbers only improved to 175 ypg (4.2), they trimmed the sks to 28 (9.5%). LY they had to replace a pair of st'rs (2Y and 3Y) but had 8 of their top 10 back, went from 57 ('10) to 71 car sts and were in the 2nd year of the offense. Their numbers only improved to 182 ypg rush (4.0, 22 sk, 7.3%) despite the presence of Bobby Rainey. They had 3 players earn All-SBC and 2 of those return. The only loss TY is 1st Tm SBC LT Wes Jeffries (12 st, 4Y st'r). They are more exp'd (88 car sts) and stronger but may struggle to match LY's rushing numbers with the loss of Rainey.

DEFENSIVE LINE - In '09 the top 5 DL departed and the 3 st'rs at the beginning of the season were 2 rFr and a true soph (18 career tkl). RFr Jamarcus Allen was lost after 4 sts. As you would expect, they allowed a poor 245 ypg rush (5.6), their worst numbers in over half a century. In '10 the entire 2 deep ret'd and they trimmed it to 177 ypg (5.0, 12 sks). LY the unit ret'd intact (96 car sts). DE Jared Clendenin was OFY after 9 sts but as expected, WKU improved to 135 ypg (4.4) and their 27 sks were the most s'05. TY they lose Clendenin (37 tkl, 9 tfl) and DE Bo Adebayo (10 st, 31 tkl, 4 sk, 4.5 tfl) but have 6 of their top 8 back. Despite being a little less exp'd (89 car sts) this group is on par with the '11 unit.

LINEBACKERS - LY WKU had to replace a 1st Tm SBC MLB (#1 tkl'r), HM SBC WLB (#3) and their SLB (#4). They were a lightly exp'd group with the leading returnee being Xavius Boyd (7 st, #13 tkl'r). Taggart said that soph Andrew Jackson played angry and it was good to see a 250 lb LB that can run like he does and practices the way he does. Jackson came out of nowhere (not on spg 2 deep) to start all 12 and was #1 w/109 tkls (17 tfl) earning 1st Tm SBC. WKU improved for a 2nd straight season to allowing 24.8 ppg. TY they lose WLB Ben Duvall (6 st, #7, 5.5 tfl) and Tenerio Davis (1 st, 7 tkl) but have 5 of their top 6 back including their #1 and #2 tkl'rs. This group is much more exp'd and has their star back.

DEFENSIVE BACKS - In '09 WKU only had 1 ret st'r and finished dead last in my PDR (68%, 27-6). Only 2 of the tm's 6 int's were by DB's. In '10, 3 st'rs ret but they comb to start just 6 gms at DB. After 3 gms WKU had allowed 296 ypg passing (8 td) and Taggart inserted true frosh CB's Tyree Robinson and Arius Wright. WKU allowed just 172 ypg and 8 td in the last 9 and moved up to #82 (62%, 16-8). Seven of their top 8 ret'd LY and they moved up to #69 (55.6%, 20-13). TY they lose 2nd Tm CB Derrius Brooks (8 st, #5 tkl'r, 4 int, 10 pbu) and S Ryan Beard (10 st, #3 tkl'r). The team st'd a NB 6 times so they return 3 who had 8+ sts LY and 6 who drew sts overall. Added to the mix is VHT Florida transfer Jonathan Dowling (PS#18, spg gm MVP) so despite the loss of 2 st'rs, this looks like one of the top secondaries in the SBC.

SPECIAL TEAMS - Had WKU been eligible in my ST rankings in '07, they would have been #45. In '08 they were #72 and in '09 #62. In '10 true frosh Willie McNeal had a 90 yd KR td vs Ind ending a 73 gm drought without a KR td ('03 Jeremy Chandler). WKU had not blk'd a punt in 2 yrs but Bar'ee Boyd blocked 2 vs MT. LY McNeal was OFY but after a surprising drop to #107 in '10 they made a significant rise up to #58. Hendrix Brakefield improved his punting to 41.6 and the net improved by almost 5 yds to 37.9. The K's struggled as 3 comb to hit only 5 of 20 FG. True frosh John Evans was #2 FBS in KR (32.2!). While WKU can only get better in the FG dept, another move up would mean another best ever FBS finish for them.

COACHES - WKU moved up from the FCS in 2008 but after going 2-22, 7 yr vet David Elson was fired. HC Willie Taggart was an AA QB here from '95-'98 (jersey retired). He stayed and coached the next 7 yrs and was the asst HC ('03-'06). He then went to Stanford where he schooled Toby Gerhart as the RB cch ('07-'09). Taggart was his own OC in '10 but brought in Zach Azzanni LY but he left for Wisc in the off season. The run gm coor is Walt Wells (OL cch 9Y) who was the OC here in '09. The pass game will be handled by Nick Sheridan (grad asst LY). Lance Guidry is in his 2nd season as DC. He spent 2Y at Miami, Oh as a DB cch and received acclaim nationally after his pre-game speech as the interim HC in Miami's '10 bowl win.

PHIL'S FORECAST

WKU had a streak of 12 straight winning season's heading into '08. They made the IAA playoffs 5 times this past decade. In '07 they made the step from IAA (FCS) to a transitional FBS team and played just 6 FBS tms (1-2 vs SBC). WKU took care of business vs its non-FBS foes winning all 6 and finished 7-5. They put up great stats due to blowout wins of 87-0, 56-7, 50-14 and 52-12. WKU did outgain Troy (416-363). In '08 they had just 2 FCS tms on their schedule and 5 vs SBC opp's and WKU had 13 st'rs back. I called for an end to WKU's streak of winning seasons and they dropped to just 2-10. Their 2 wins came vs EKU and Murray St by a comb 87-22 (lost by avg of 30-12 vs FBS). In '09 they entered their first year of full eligibility in the SBC and FBS. They lost 21 schlp Sr's while returning just 12 Sr's and 17 Jr's. The team plummeted to 0-12 (-122.5 ypg in SBC) and at 0-9, Elson was told he would not be returning. WKU nearly won each of their last 3 but lost by 3, 6 and 4. They had the nation's longest losing streak heading into '10 but Willie Taggart took over with 17 ret sts. WKU still played 25 frosh in '10 (4th highest FBS). They showed improvement moving to 2-10 and were just -20.3 ypg in conf play (6th best SBC). WKU did have 3 net close losses and a def ypp of 11.5 (pg 309). LY I said they had a great shot at doubling the previous yr's win total but they far exceeded both mine and the SBC coaches (picked 7th) expectations. WKU went from 2-6 to 7-1 with their 5 game turnaround being the largest ever in SBC play. WKU opened at Kentucky and had an 86-45 yd edge at the half but lost by 11. In sloppy conditions they were rolled by Navy, 40-14. They had their 17th straight home loss and it came vs FCS Ind St 44-16. After a bye, they lost at home to ASU (outgained 444-311yds) to drop to 0-4. Surprisingly they beat MT on the road 36-33 in 2OT (outgained 482-390). In FAU's first game at their new stadium, WKU got the shutout win, 20-0 (289-121 yds). Gaining confidence, they rolled over Louisiana 42-23 snapping their home losing streak. They were outgained 456-283 at ULM but prevailed in OT 31-28. In perhaps the biggest HG in schl history, they got a 34 yd FG on the last play to pull out a 10-9 win vs FIU (324-180 yd edge). They took on #1 LSU the wk after the Tigers knocked off Bama and only trailed 14-7 at half but lost by 33. NT was w/o RB Lance Dunbar and Rainey rushed for 214 in a 31-21 road win. In their ssn finale, they only led Troy 27-18 into the 4Q but won by 23 (494-330 yd edge). Nine players were named to the All-SBC team, 2 more than the previous 2 seasons comb and Taggart was given a new contract ($225 to $475K). Even though WKU finished with a 7-5 record, they did not get a bowl invite. WKU was just +25.7 ypg in SBC play despite a 7-1 mark but this year they have 16 ret sts. They also ret 48 of 58 lett (83%) which is the highest % in the SBC and have my #2 rated defense in the conf. WKU was fortunate LY as they were outgained in 4 of their SBC games. Finishing with the same overall record should be viewed as a success.

WKU is 34-6-1 vs AP and has never lost hosting them (19-0-1). The L/gm was in '06, WKU won 24-14. WKU is 2-9 in ssn openers (6 str losses by 34 ppg). The Governors went 3-8 LY (4th str losing ssn).

The Hilltoppers lost 41-7 LTH ('08, only prior meeting). WKU is 1-9 in 'true' road openers with the 9 losses vs BCS foes & the win LY vs Middle Tenn. WKU is 0-8 vs ranked opp's, avg score 38-9.

Hilltoppers are 0-3, avg loss by 28 ppg. LTH WKU led 7-0 but UK scored the next 35 pts as the closest WKU got the rest of the gm was 21 pts. Into '12, WKU is 3-14 on the road vs non-SBC tms (0-14 vs FBS).

First meeting. Into 2012, WKU has lost 6 straight non-conf HG's. This is the 4th non-conf FBS team to visit in the last 4 years (Navy, Indiana & USF) losing by an avg score of 38-16.

WKU's only loss in Jonesboro was in '48. LTH WKU led 21-7 into the 4Q but needed a td pass on the final play to force OT (drive setup after bad ASU snap on punt). In OT WKU went for 2 and the gamble paid off.

Bonus: Into 2012, WKU is 9-15 in SBC action including 3-9 hosting conference foes.
Bonus: WKU and Ball St are the only schools that were bowl eligible LY that DN get an invite.

WKU is now 1-8-1 vs Troy with LY's win. LTH WKU lost 28-14. The gm was tied 14-14 into the 4Q. WKU was pinned deep and forced to punt and on the next play allowed a 47 yd td pass.

WKU last won B2B in '53 & '54. LY WKU led 20-7 into the 4Q. After trailing 21-20 WKU got a td (after 79 yd KR) to lead w/:38 left. ULM went 77/3pl tying the gm w:06. In OT ULM was int'd and WKU won on a 24 yd fg.

WKU is 1-3 in Miami incl 3 str losses by 11 ppg. LTH WKU trailed 21-0 but pulled within 7 w/5:47 4Q. After forcing a short punt WKU got a FD at the FIU24 but fired inc on 4&8 w/:33 left.

HT is 1-5. LY WKU up 23-16 all'd a 86/15pl gm tying td w/4:55 left (WKU had a 46 yd fg blk'd as time exp'd). After an exchange of td's in OT, MT settled for a fg & WKU got a GW 7 yd td pass in the 2OT.

Hilltoppers are 1-3 all-time vs the Owls. Last year in the shutout FAU ran just 8 of their L/9 total plays (16%) in WKU territory with their deepest penetration to the WKU39.

Last time here (Taggart's first win as a HC) WKU led 27-7 at HT never looking back. The win snapped a Western Kentucky record 26 game losing streak.

HT is 1-3 L4Y. LY WKU trailed 14-10 late 2Q but scored the gms next 21 pts (306-109 yd edge) before NT got a garbage td w/:46 left. WKU is 1-3 in home finales (won LY).

ARKANSAS ST RED WOLVES

LB Nathan Herrold

POSITION OUTLOOK FOR 2012

QUARTERBACKS - In '06 rFr Corey Leonard (PS#90) took over the starting job in Wk 5 and 3Y later departed as the school's all-time leader in total offense. Twice in '09 he was benched and rFr Ryan Aplin threw for 889 (65%, 3-6) and was the #2 rusher (253, 4.0). Aplin missed the spg of '10 (shoulder) so rFr Phillip Butterfield (PS#50) got almost all the snaps. Aplin set a single game schl record with 438 pass yds vs UL (Nick Noce 418 '04) and then a single gm schl rec for comp hitting 33-44-275 vs Indiana (Johnny Covington '95). He also set single season rec's for passing yds (Cleo Lemon 2,721 in '98), pass td's and total off (Leonard '08) throwing for 2,939 (62%, 21-11, #2 rush, 477). Butterfield had just 26 pass att but then HC Hugh Freeze still felt he was a legitimate contender to unseat Aplin in '11. LY I said ASU could have the best pass offense in the SBC. Butterfield went out with an inj so they lightened up on Aplin's QB runs early but he stayed healthy and threw for 3,588 (63.9%, 19-16) and due to RB inj's was also the #1 rusher (588, 3.7). The bkp was TE Andre Smith (6'1" 215, PS#253) who played in 7 (20-22-204). While Aplin is entrenched as the starter new HC Gus Malzahn did recruit Butterfield at Tulsa. Adding depth are Zach Davis (6'2" 195 rFr) and Stephen Hogan (6'4" 205 rFr). Even with the coaching change, I look for continued improvement from the ASU QB's.

RUNNING BACKS - Reggie Arnold (#2 car rusher) topped 1,000 in each of his first 3 yrs but in '09 only led with 723 (4.3). Derek Lawson had 695 (7.2) as a rFr in '08 and 244 (4.4) in '09. In '10 he had the team's only 100 yd effort (104 vs MT) and led with 500 (4.8). QB Aplin was the #2 rusher. Jermaine Robertson (97, 5.1 '08-'09), had 348 (5.0) incl 92 vs Navy. True frosh Sirgregory Thornton had the best ypc of the RB's (6.8, 258 yd). LY everyone ret'd and they added in exciting rFr Frankie Jackson (PS#138). Jackson rushed for 101 vs Mem but was banged up and finished as the #2 RB with 355 (4.0). Lawson emerged down the stretch and was the #1 RB with 484 (3.9). This year they lose Robertson (212, 4.0) and Lawson (10 st) but Jackson should remain healthier. They may also get a SUPER addition in Auburn transfer Michael Dyer (PS#2) who had a pair of 1,000 yd seasons in the SEC and is trying to gain eligibility. With or without Dyer, this unit should remain healthier and be more productive this ssn.

RECEIVERS - In '10 the Red Wolves had to replace 6 of their top 7 rec's and the leading returnee was Taylor Stockemer (#3, 347, 21.7!). Dwayne Frampton (PS#72JC) is only 5'9" and lacks blazing speed but was #1 (738, 10.7). Soph Allen Muse was #2 (635, 15.1) and Stockemer was #3 (560, 16.5). LY all 3 ret'd as did 265 lb TE Kedric Murry (PS#79, 9 rec, solid blk'r). Frampton set the ASU record for catches in a gm (13 vs ULM) and set single season rec's with 94 rec's and 1,156 yds (12.3) breaking Robert Kilow's '00 marks. They also added a late transfer in Josh Jarboe (PS#23) who orig signed at Okla and finished #3 with 730 (13.5). After a huge bowl game (11-185) Stockemer finished #2 with 756 (15.8). This year they lose their top guy Frampton (11 st) and #7 Roderick Hall (109, 7.3). Frampton was Aplin's security blanket but even with his loss, this unit will not drop too far.

OFFENSIVE LINE - LY ASU had to replace 6 OL (4 st'rs) including a 1st Tm SBC RT Derek Newton (#7DC). They had 112 car sts departing with just 28 back. Luckily C Tom Castilaw was granted a 6th year and he earned 1st Tm SBC. ASU improved to 154 ypg rush although their ypc dropped to 3.9 and their sks all'd increased to 27 (5.4%). TY they lose their top guy in Castilaw (13 st, 2Y st'r), along with LG Alex Kautai (13 st) and 2nd Tm SBC LT Delano Moore (13 st). While they have to replace 2 all-conf OL's and have just 2 ret st'rs they are actually a little more exp'd (33 car sts) plus 2 of their top 6 recruits are OL and should produce similar numbers.

DEFENSIVE LINE - With an exp'd front in '09 ASU showed improvement allowing 122 ypg rush (3.5), their best since '94. In '10 they had to replace 3 st'rs (#3DC) and their numbers ballooned to 206 ypg (4.5), their worst since 2000. Brian Hall was the SBC Pressn DPOY and earned 1st Tm SBC with 8.5 sks. LY they lost Hall but had 8 back who st'd in '10 and had 7 Sr's (5 in 2 deep). I called for a large improvement in the rush D and they basically cut the ypg in half (104 ypg, 3.0, 35 sks). DE Brandon Joiner had 4 sks vs UL and had the 2nd most (13) in ASU history (Lynn Rowland 14 in '89). Naturally the losses are heavy TY. Gone are the SBC DPOY Joiner (11 st, 48 tkl), 2nd Tm SBC DT Dorvus Woods (13 st, 21 tkl, 3.5 sk), NG Greg McCall (7 st, 16 tkl), DE Justin Robertson (12 st, 36 tkl, 2.5 sk, 5.5 tfl), DE Jeremy Gibson (3 st, 17 tkl, 3 tfl), DT Alfonzo Simmons (9 tkl, 1.5 tfl) and DE Elroy Brown (18 tkl, 2 sk). They have just 1 st'r back and LY had their best rush D since they joined IA. They will look for help from 4 JUCO's so as not to slide too far.

LINEBACKERS - The '09 D set a then IA best for the Red Wolves all'g 23.3 ppg. In '10 ASU ret'd their #1 tkl'r in Demario Davis and only had to replace 1 st'r (#10 tkl'r). Surprisingly with Davis earning 1st Tm SBC, the tm all'd 7.5 ppg and 95 ypg more. LY they had to replace a 2nd Tm SBC LB (8 st, #1 tkl'r) but had back their #4, #5 and #6 tkl'rs and 2 bkps (comb 3 sts, 50 tkl). I said that after '10's poor numbers, they would be improved and ASU set a new low at 20.8 ppg. TY they lose 1st Tm SBC Davis (13 st, #1 tkl'r, 3 sk, 7 tfl, #3DC NYJ) and Najel Byrd (3 st, #6, 2.5 sk) while NB Don Jones (10 st, #4) moves to SS. They return their #3, #7 and #12 tkl'rs, add in VHT PS#33JC Eddie Porter and could be just as strong.

DEFENSIVE BACKS - In '08 ASU had to replace all 4 st'rs but shockingly only allowed a 14-15 ratio vs a tough slate of opp QB's and finished #14 in my PDR! In '09 they had 2 st'rs back but slipped to #89 (19-8). In '10 they had to replace both CB's. PS#93JC Darron Edwards led the SBC in pbu (10) but they finished #94 (57%, 24-11). LY they had to replace a 1st Tm SBC FS (#2 tkl'r) and 2 CB's (comb 13 sts). They ret'd Edwards and 3rd Tm SBC SS Kelcie McCray (#3 tkl'r). I said they could improve upon their lowest finish in my PDR in 5 yrs and they did (#30, 56.6%, 20-19). TY they lose 2nd Tm SBC CB Edwards (11 st, #7, 4 pbu, 3 int), 1st Tm SBC CB Darryl Feemster (13 st, #11, 7 pbu, 5 int), 1st Tm SBC SS McCray (13 st, #1, 4 int, 4 pbu), FS Adrian Hills (6 st, #10, 2 pbu) and Jaquan Kilcrease (27 tkl). They return their #5 and #14 tkl'rs (9 comb sts) and move their NB (10 sts) to SS. This is a less exp'd group (lose 3 all-conf DB) and won't match LY's unexpectedly high pass D finish.

SPECIAL TEAMS - ASU's best finish in my ST rankings under former HC Steve Roberts was #40 in '09 but they dropped to #78 in '10 (12-21 FG, 2nd lowest % SBC). Roderick Hall (5'7" 165) was an August JC signee and became one of the SBC's top RM with 936 net yds (23.1 KR, 8.2 PR) in '10. With all of the key players back LY incl P Neely Sullivent (37.2 tm net '10) I called for improvement and they moved up to #19 in my ST rankings. Bobby Zalud nailed a 56 yd FG (3rd longest schl hist). Brian Davis set a schl record with 6 FG's vs UCA and hit 18-23 (long 47). Sullivent (39.3) split the P duties with Ryan Wilbourn (tm net 36.5). The return game was avg. This year they lose Sullivent, Zalud and PR Frampton but have everyone else back and are one of the SBC's top ST units.

COACHES - Steve Roberts was the HC here for 9Y, never topping 6 wins. Huge Freeze was the OC here in '10 and was promoted to HC LY. It was one-and-done for Freeze, leading the Red Wolves to their best ever FBS 10 wins (6 wins next best) before taking the Ole Miss job. Players discontent quickly turned to excitement when Gus Malzahn was named HC. The '10 Broyles winner led the Auburn offense the L3Y incl earning a Nat'l Title with Cam Newton at QB. The OC will be Rhett Lashlee (grad asst Aub '09 & '10) who was Samford's OC LY. The DC is John Thompson, who has 25 yrs of exp as a coor and was the DC at Ga St the L4Y's. David Gunn, who was ASU's interim HC for LY's bowl was retained as RB cch.

PHIL'S FORECAST

Heading into LY ASU had never had a winning record vs true Div IA competition. Since 1995, ASU has had 8 ssns of 5+ wins and Steve Roberts was at the helm for 6 of them. The '05 ssn was Roberts' best year as they won a share of the Sun Belt crown and played in the New Orleans Bowl but did finish just 6-6. In Roberts' 9 yrs, they did not have a winning season despite reaching 6 wins 4 times. Roberts did have an outstanding 33-12 record at ASU Stadium (22-9 vs SBC). In '10 ASU was coming off a 4-8 season and had just 11 ret sts. They also had 5 road games in the first 7 (incl Nat'l Champ Aub). The team struggled to another 4-8 finish. There were some factors pointing upward in Freeze's first yr as HC (OC in '10 when the tm avg 403 ypg, 30.0 ppg). ASU had 4 net close losses in '10 (pg 309) and I mentioned that getting league powers Troy and FIU at home could make them a surprise contender. Still more factors were that one of my 9 sets of power ratings called for 10 wins with 6 projecting a winning ssn and that Freeze would not go through the normal learning curve of a 1st yr HC. After an expected loss at Illinois, ASU got their largest FBS win ever (47-3) at home vs Memphis. They only lost to VT by 19. UCA was w/o their starting QB and ASU rolled to a 53-24 win (646-322 yd). ASU got a td with :43 left to pull out a 26-22 win at WKU. They got a blk'd punt td in the 3Q and a 51 yd IR in the 4Q that set up a td to overcome a 13-10 halftime deficit and won 24-19 at ULM. ASU got a 49 yd FG on the last play of the 1H to tie FIU at 6 and despite trailing 16-13 after 3Q's prevailed with a 385-289 yd edge. NT lost their starting QB on the 2nd play and ASU routed them 37-14. They trailed FAU 21-18 in the 3Q but rolled to a 39-21 win. Vs Louisiana they led 20-7 at half, winning by 9 and at MTSt got their 4th straight road win (1st time s/'75) in easy fashion (45-19). Troy had a 275-206 yd edge at half but ASU led 24-14 and won by 31. In the late bowl (Jan 8th) they lost to NIU by 18. They were 1 of just 2 tms in the country to lead their conf in ttl off and def (Boise). Their 8-0 SBC record was their most conf wins ever and they were +131 ypg (best SBC). LY's squad did benefit from 2 net close wins and had beneficial off (13.8) and def (16.0) ypp's. TY they have a new HC and have just 10 ret sts which is fewest in the SBC. They were the best in the SBC LY but won't match LY's DD win total.

First meeting. The Red Wolves have dropped 22 str (S/'90) vs ranked foes by an avg score 40-10. ASU is just 1-19 in road openers S/'92 (1st ssn at the FBS level, win was at Texas A&M in '08).

HT has won 3 str (all after '07). LY ASU led 23-0 late 2Q and was never threatened (12 of UM's 14 drives were 6 plays or less, 103 yds). ASU has won 7 str home openers, ironically L/loss was vs UM in '04.

The only prior meeting was in '09, ASU lost 38-9 in Lincoln. Into 2012, the Red Wolves have dropped 10 str non-conf away gms by 17 ppg. ASU won 4 road gms LY, the most in one ssn since 1987.

First meeting. Braves went 2-8 LY and last played a FBS opp in '10 (lost 46-16 at Miss St). ASU made the jump to FBS (IA) status in '92 and since are 21-7 vs current FCS tms (8-0 S/'02 w/a avg score 51-10).

Home team is 0-3. LY ASU trailed 14-10 after 3Q's but there were 3 lead changes in the 4Q as ASU trailed 22-19 but went 67/9pl getting the GW td w/:43 left (WKU ran out of time at the ASU37).

The visitor has dropped 5 str and is 1-6 overall in this series. LTH ASU was up 24-23 in the 4Q but allowed a 80/11pl GW drive (42 yd td pass on 3&9 w/1:42 left). ASU was SOD at their own 40.

First meeting. Red Wolves are 8-1 on HC. Into '12, ASU is 21-5 the L/7 yrs hosting SBC foes (8-1 run w/the only loss in OT). TY ASU's 6 home opp's went a combined 23-45 LY w/no bowl appearances.

ASU is 6-15 vs UL and only has won B2B gms once in that span ('99 and '01). LTH was misleading as ASU trailed 31-7 after 3Q's gaining 37% (167) of their yds in the 4Q in a 7 pt loss.

Bonus: HC Gus Malzahn served as the Auburn OC the L3Y. Prior to that he was the OC at Tulsa from 2006-'08 and served in the same position at Arkansas in 2006.

ASU's 7 gm series winning streak over NT is their longest among FBS schools (7 straight vs Northern Alabama).

ASU is 7-3. LY down 13-10 at HT ASU got a blk'd punt td to spark a 2H comeback. ASU was -9 FD.

ASU won the first 3 SBC meetings but have lost 4 of the L/5. LTH the Red Wolves rallied from a 4Q DD deficit taking a 1 pt lead w/:50 left only to allow a 67/5pl GW drive (17 yd td pass) w/:22 left.

HT is 4-1. LY ASU led just 25-19 at HT but outgained MT 300-68 in the 2H as MT ran just 4 plays in ASU territory.

ULM WARHAWKS

RB Centarius Donald

POSITION OUTLOOK FOR 2012

QUARTERBACKS - HC Todd Berry is known for playing 2 QB's all season during his 28 yrs of coaching. In Berry's first year here as HC ('10), ULM ret'd starting QB Trey Revell (1739, 58%, 12-12, #2 rusher) and Soph Cody Wells who started 2 in '09 (762, 56%, 6-7). RFr Kolton Browning (PS#179) won the job and Revell moved to TE despite being on the Unitas Preseason Watch List. Browning topped 200 pass yds in 8 consec gms, tying Stan Humphries' schl record (1987). The left handed QB is a bull-like rusher and was #1 in gross rush yds (648). In one season he already had 2 of the top 6 offensive totals in ULM SBC history (350 vs ASU, 409 vs FIU). Browning broke a bone in his foot and wore a boot between games the last 5 wks. Wells played in 12 but threw for just 67 (56%, 0-2). Browning threw for 2,552 (62%, 18-12, #2 rush) earning HM SBC. LY both ret'd. Browning has led in rushing as a QB a schl record 10 times and set the schl rec for total off plays in a gm with 25 runs and 59 passes vs FIU (Doug Pederson '89). ULM's 238 ypg passing was their most since they joined the FBS. Browning's 2,926 yds of total off just missed the schl rec set by Robert Cobb (2965 in '93). Berry wanted to give Wells a 1H series in each game and he led ULM to td's on 2 of his 1st three 1H series (incl TCU). Against Iowa, ULM used a 2 QB formation (shotgun and RB), as the 2nd QB received the handoff, sprinted towards the sidelines and usually completed the pass to their side of the field (ULM 44 att gm). Not listed in the PSL are Brayle Brown (6'1" 184 rFr, PS#173) and Ian McCoig (6'1" 218 So). It's Browning's 3rd year in the system and he should be one of the SBC's best.

RUNNING BACKS - LY ULM had to replace their #3 all-time career rusher in Frank Goodin who led in '10 but with just 438 (3.3) after coming off a 1,126 (5.1) season in '09. They returned Jyruss Edwards who had moved from DB in the spring and was #3 in '10 with 375 (4.5) while the QB was #2. Centarius Donald (PS#226) was the #3 RB with just 66 (3.1). LY Donald was leading with 414 the first 7 with an impressive 7.0 ypc when he was OFY vs NT (miss 5). Edwards was never fully healthy and in fact, Berry said that if he was, he would have easily scored on a 25 yd run in OT vs WKU. He had 7 td's over the next 2 gms and led with 667 (4.7). Ark transfer Mitchell Bailey (#3, 212, 3.3) rushed for 70 vs FAU in the ssn finale. Not listed in the PSL are Carl Elie (5'8" 191 Sr, PS#155) and Monterrell Washington (5'10" 199 Jr, PS#421). With everyone back, this unit should remain much healthier and be their most productive s/'09.

RECEIVERS - In '10 ULM had to replace 1st and 3rd Tm SBC WR's who had 784 (19.6) and 542 (14.3). The leading returnee was Luther Ambrose (PS#103, 455, 13.4). Ambrose was the 2nd fastest in college football (behind Florida RB Demps) with a 10.12 (#3) 100M in the NCAA Track Champ and led with 752 (11.6). RFr Tavarese Maye was #2 with 505 (11.7), Anthony McCall had 479 (14.5) and Brent Leonard added 377 (11.4). LY their top 4 all ret'd. Leonard had 13 rec vs TCU (#2 schl hist, Jackie Harris 16 in '88) and led with 751 (10.9). Ambrose surprisingly slipped to just 133 and his 6.3 ypc was the lowest of any WR in the FBS but he was explosive on KR (31.2). RFr Colby Harper had 8 rec for 110 yds vs WKU but just 19 in his other 11 (291, 10.8). They moved DE Keavon Milton (11 st '10, 24 tkl) to TE and he started 2 (8 rec). Maye was a solid #2 with 617 (12.3) and Je'Ron Hamm was #4 (257, rFr). This year they lose Ambrose (5 st) and McCall (11 st, 249, 11.3). With their top 4 all back, this should be one of the SBC's stronger receiving corps.

OFFENSIVE LINE - In '10 ULM had to replace 3 st'rs (35 car sts ret) and had new blocking schemes. I expected a drop and they slipped to 120 ypg rush (3.1) with 34 sks (8.5%), their weakest rush numbers since '03. LY they ret'd all 5 st'rs. ULM improved to 153 ypg rush (3.9) with 34 sks (7.2%) as one of the ret sts, Justin Roberts, did not start and a pair of true frosh comb to start 17 gms. This year they lose 2nd Tm SBC RT Anthony Montgomery (12 st, 2Y st'r), C Ryan McCaul (12 st, 2Y st'r) and Roberts (12 gm, 32 st '08-'10). Despite not being as exp'd as '11 they have 3 st'rs back (69 car sts) and should show continued improvement.

DEFENSIVE LINE - ULM moved to a 3-3-5 in '09 and had to replace 2 st'rs but had 5 DL back (comb 38 sts) including 1st Tm SBC DE Aaron Morgan. As you would expect, the unit greatly improved from allowing 213 ypg rush (5.7) with 13 sks to 110 ypg (3.3) with 27 sks. In '10 they had to replace 2 time 1st Tm SBC DE Morgan, a 3rd Tm SBC NT and then the lone returnee, DE Troy Evans, started just 2 (like 0 ret sts). As expected, they slipped to allowing 159 ypg (4.4, 24 sk). LY they had to replace 4 DL (19 sts, 4 sk). Evans reclaimed his job so it was like having 2 st'rs back and ULM not only improved but posted their best IA numbers at 100 ypg (3.1, 25 sk). This year they lose 1st Tm SBC DE Ken Dorsey (49 tkl, 4.5 sk, 9 tfl), 2nd Tm SBC DE Evans (43 tkl, 6.5 sk, 5.5 tfl) and DE Jordan Landry (9 tkl, 2 sk). While 3 of their top 6 are back they comb for just 52 tkls and 4 car sk. With the loss of their top 2 (92 tkl, 11 sk), this unit is down a few notches but does add Missouri transfer Gerrand Johnson.

LINEBACKERS - In '09 ULM switched to a 3-3-5 D and I list the HAWK in the LB write-up. In '10 ULM had to replace 3 st'rs (#1, #2, #4 tkl'rs) incl SBC co-DPOY Cardia Jackson (schl car tkl leader 381). Their top returnee was the #6 tkl'r and as expected, ULM slipped to allowing 32.4 ppg (most s/'03). LY they had to replace 2 st'rs (#4, #7) and 2 bkps (17 tkl). They moved 3rd Tm SBC Darius Prelow (12 st SS, #3) to HAWK and ret'd their #1 and #2 tkl'rs as well and as you would expect, improved to 25.4 ppg. TY they lose 2nd Tm SBC Jason Edwards (12 st, #1 tkl'r, 1.5 sk), 1st Tm SBC Prelow (12 st, #2 tkl'r, 1 sk) and CC Carpenter (8 tkl). They go from 3 ret sts to 2 (#7, #9) so this unit is less exp'd but they do add a VHT in Arkansas transfer Austin Moss (PS#32).

DEFENSIVE BACKS - ULM had to replace 3 st'rs in both '07 and '08 and finished #68 and #78 in my PDR. In '09 they had 3 st'rs back and FS Greg James set SBC and schl records with 17 career int's. Not surprisingly ULM had their highest finish yet in my PDR at #40. In '10 they had to replace 2 st'rs incl 1st Tm SBC FS James and Nate Brown had a 15 gm starting streak end (3 st, inj, 9 gm, 29 tkl). ULM still finished a solid #42. LY they had to replace a 3rd Tm SBC CB (11 st) and SS Prelow moved to HAWK (LB) but they had 6 of their top 8 back. Otis Peterson (9 st '10) DNP (inj) so they had just 1 st'r back. ULM was still respectable at #56 (58.4%, 23-13). TY they lose CB Tim Taylor (11 st, #6 tkl'r, 5 pbu) and SS Nate Brown (10 st, #5, 4 pbu). They return their #3 and #4 tkl'rs and get back Peterson so this group is more exp'd and has 4 with 9+ car sts.

SPECIAL TEAMS - ULM's highest ever finish in my ST rankings is #80. They came close in '07 (#87) and '08 (#89). They had most of their top guys back in both '09 & '10 but slipped to #113 & #103. Their top KR in '10 was Jyruss Edwards (24.3) but Luther Ambrose became the first ULM player with 2 KR td's in a ssn (#3 FBS, 31.2). True frosh Justin Manton (PS#27) hit 6-14 FG (L43, 1-5 last 6) but Berry likes his leg strength and his moxie. RFr Caleb Gammel (PS#22) has solid height and distance on his kicks and is one of the better athletes on the team. P Aaron Munoz avg 38.6 (35.0 net) in '10 and he and Conner Fryoux combined to avg 36.4 (30.6 net) LY. ULM finished just #106 but they will improve despite the loss of their star KR. I'll call for them to have the largest improvement in net punting in the country in '12.

COACHES - Todd Berry took over in '10 and was previously the HC at Army ('00-'03, 5-36 record) and III St ('96-'99, 24-24). Berry also has exp as an OC (UNLV '07-'09, ULM '04-'05) and is just one of a handful of FBS HC's that also coaches a position (QB cch). His 3 yr OC Steve Farmer was OC at Illinois St in '09 and spent 5 yrs as an asst here at ULM (last 2 as OC). Troy Reffett is now in his 4th year as DC coming here after 5 yrs as a DB coach (DC in '08) at New Mexico.

PHIL'S FORECAST

Two times, Charlie Weatherbie came within one game of achieving a winning record. The '09 ssn was his 7th year here and ULM made my Most Improved List coming off a 4-8 season. ULM did not catch a lot of breaks but still finished 6-6 (bowl eligible) and was +42.1 ypg in SBC play with the 2nd best D in the league allowing just 347 ypg. In '10 they had a new HC in Todd Berry and I expected a losing season. Berry pulled the names off the jerseys until they earned a bowl bid. ULM caught some breaks early and Berry played many young players and in fact, some weeks 10 of the 22 st'rs were Fr or soph's. ULM was +16.8 ypg in SBC play and went 5-7 which exceeded my expectations. LY they had 16 ret sts (most SBC) and I mentioned they probably wouldn't have as good of fortune as in '10 but were clearly more talented. ULM played much better than their final record. For example, in '11 they were +105.5 ypg in SBC play (2nd best) but finished 3-5 in conf play and 4-8 overall. They only trailed TCU 21-17 at half but after road trips to FSU and Iowa as well, they opened an expected 1-3. Ark St blk'd a punt for a td in the 3Q to take a 17-13 lead. QB Browning was inj'd late 4Q and ULM was SOD at the end and lost by 5 at home. They were tied with Troy 3-3 at half but buried them 38-10 with a 523-126 yd edge. At NT it was 14-14 at half but NT went on to a 17 pt win with a 459-343 yd edge. ULM had a 456-283 yd edge at home vs WKU but lost by 3 being int'd at the GL in OT. At UL they led 35-24 with 3:08 left but somehow lost by 1 despite a 456-410 yd edge. ULM scored 5 td's in their first 5 poss and beat MT 42-14. They had a 25-17 FD edge but lost to FIU 28-17 and in Schnellenberger's final game they shutout FAU (424-148 yd edge). There are a lot of signs pointing upwards for ULM as they had 3 net close losses, had poor ypp's on offense (15.9) and def (12.8) and have 13 returning st'rs including their QB. They were the 2nd best team statistically in the SBC at +105.5 ypg and do not have to face Troy this year. Check out page 19 to see if they made my Most Improved List.

MIDDLE TENNESSEE BLUE RAIDERS

OL Josh Walker

POSITION OUTLOOK FOR 2012

QUARTERBACKS - It's not very often that a team loses a long time starting QB and I project an upgrade in their stats, but it happened a few times LY in my magazine. Dwight Dasher became the first SBC player to pass for 4,000 and rush for 2,000 in a career and finished 2nd in MT history in ttl offense (Wes Counts 8181, '98-'01). He was susp the first 4 of '10 and when he did play, was a TO machine. Logan Kilgore (PS#100JC) st'd 3 and threw for 540 (63%, 3-5) while Jeff Murphy (accurate passer) had 1 start (395, 59%, 0-1). The 3 comb for a 9-24 ratio and I called for improvement despite the loss of a 3 yr st'r. Kilgore attended the Manning pass camp over the summer and won the job. He threw for 330 vs Purdue and 415 with 5 td's vs Troy. He then set a schl record by comp his first 19 vs FAU (Wes Counts 15 in '01) and was on pace to break Dasher's single ssn rec of 2,789 ('09). Kilgore who had just 5 int his first 211 att had 5 his next 89 and after he hit just 4-10 vs Tenn, Murphy replaced him. Kilgore started again vs ULM but Murphy also saw action (11-22). Murphy st'd vs Ark St and it was only the 2nd time in the last 26 games that an MT QB did not commit a TO. Kilgore came off the bench vs FIU and st'd the finale but suffered a conc in the 2Q. Kilgore threw for 2,231 (58.6%, 18-12) while Murphy threw for 794 (60%, 3-3) and the unit improved its ratio to 21-15. Murphy tore his ACL in spg but may still try to play TY. Either way they have an exp'd upperclassmen and should continue to improve.

RUNNING BACKS - LY MT had to replace Phillip Tanner (928, 5.8). They ret'd DD Kyles (414, 5.4), Benny Cunningham (355, 4.6) and William Pratcher (56, 2.8). Stockstill called Cunningham the best player on the team and he had 287 in the first 4 but was inj'd vs Mem. Kyles rushed for 105 (7.0) vs Mem and 96 (5.1) vs WKU but then was also inj'd. Pratcher had 106 vs WKU and 125 vs FAU and led in rushing the next 2. He finished #1 with 585 (4.8). Cunningham's best gm after he ret'd was 80 vs NT (501, 4.4). TY they lose Kyles (312, 4.7, miss 5) but add in LSU transfer Drayton Calhoun (PS#33DB). This unit is much more exp'd, should remain healthier and has added talent to be one of the most improved RB units in the country.

RECEIVERS - In '10 MT had to replace their #1 and #3 rec's. Malcolm Beyah (550, 16.7 true, inj '09) led but with just 388 (13.4) and Sancho McDonald was #3 (321, 15.3). LY they had a veteran unit. Beyah, who ran the anchor leg for MT's 4x100 relay team, finished #2 in rec LY(45) but led in yds (497, 11.0). Tavarres Jefferson was #1 in rec (51) and #2 in yds (398, 7.8). McDonald finished #4 (384, 11.0). Duke transfer Kyle Griswould who also saw time at RB finished #3 (390, 12.6) and JUCO Anthony Amos was #5 (379, 14.0). TY they lose McDonald (7 st), Tyler Mason (141, 8.3), Beyah (9 st), TE Jared Bamber (4 st, 6 rec), Shane Blissard (3 st, 124, 7.8) and Andrew Banks (7 rec). Despite the loss of their #1 and #4 rec's, this unit could be more productive.

OFFENSIVE LINE - In '10 the OL unit had to replace a 4 yr st'r and 2 bkps (comb 11 st) but still had 93 car sts ret and added Tenn transfer Preston Bailey (PS#41). Despite Dasher's rushing numbers dropping to 543 (missed 4), MT's O-line produced similar results (181, 4.5, 23 sk). Alex Stuart (8 st '09) RS (knee). LY they had to replace a 2nd Tm SBC OT (4Y st'r) but had 4 ret sts plus got Stuart back giving them 104 car sts. Former OL Coach Stephens said that if they could stay healthy, it was the deepest O-line he's had here. With less running by the QB, their numbers dropped to 147 ypg (4.1) but they allowed just 8 sks (t-#2 FBS, 1.6%). TY they lose 1st Tm SBC C Colin Boss (11 st, 2Y st'r), 2nd Tm SBC LG Brandon McLeroy (8 st, 4Y st'r), LT Mike Williams (12 st, 4Y st'r) and Bailey (4 st) losing 138 car sts. They drop to 2 ret sts (37 car sts) and won't match LY's sack % but could top '11's rush numbers.

DEFENSIVE LINE - In '10 the DL had to replace a 3rd Tm SBC DT and co-SBC Def POY DE. Five frosh DL were signed in '09 (1 ply'd) and they were dubbed "The Greenhorns" (Stockstill said best scout tm D he's had). As expected, their numbers slipped (188 ypg, 4.1, 34 sks). LY they had to replace all 4 st'rs (SBC DPOY DE, 1st Tm SBC DT) and a bkp (4 st, 30 tkl, 4 sk). The unit returned zero car sts (3 car sks). Then a pair from the 2 deep, rFr Patrick McNeil (Achilles) and a JC did not make it to the fall. As you would expect, the inexp'd front yielded 230 ypg (4.7) rush, their weakest total in IA ball while the D which had avg 33 sks over 5 yrs had just 19. This year the only loss is DT SaCoby Carter (5 st, 22 tkl, 2 tfl) making this unit vastly more exp'd and another year bigger, stronger and faster.

LINEBACKERS - Their LB coach in '09 was very high on the 4 true frosh signees of Craig Allen, Roderic Blunt, Justin Jones and Stephen Roberts, 3 of whom RS. In '10 they had to replace their #1 and #2 tkl'rs (both 2nd Tm SBC). Stockstill said the new st'rs were faster and more athletic. I thought they would be down a few notches and MT allowed 28.1 ppg (+4.4 ppg). LY they had to replace 1 st'r (#6 tkl'r) but ret'd their #2, #4 and #12 tkl'rs as those four '09 frosh comb for 102 tkl in '10. They had just 2 upperclassmen and MT all'd 36.8 ppg, their highest in IA ball. They did lose Justin Jones after 3 gms (19 tkl). Stockstill said that if you took the numbers off Darin Davis and Corey Carmichael and put the same numbers on the rest of the LB's you couldn't tell which one was which because they are all long, can run and are athletic. TY they lose 3rd Tm SBC Davis (12 st, #2 tkl'r, 6 tfl), Gorby Loreus (L/5 st, #3, 4 tfl) and Norman Washington (9 tkl). They return 5 who have st'd incl their #6, #7 and #9 tkl'r. I like the athleticism and spd of this group and while on par with '11 in terms of exp, I look for improved production.

DEFENSIVE BACKS - MT usually does well in my PDR. After a #114 finish in '04, they were #57, #67, #46 and #65. In '09 they had 3 st'rs back and I wrote that MT would contend for the top secondary honors in the SBC. MT finished an SBC best #29 (55%, 16-19). MT did break school rec's for tfl and sk which assisted the DB's. In '10 they lost 2 st'rs but ret'd a 1st Tm FS and 2nd Tm SBC SS. Surprisingly MT dropped to #73 (58%, 19-11). LY they lost both S's (#1, #3 tkl'rs) and a 1st Tm CB (12 st, 54 tkl) who was the team's highest DC (#5) s/'03. They slipped even further to #104 (63.2%, 18-4). MT's 4 int's were the fewest ever in a season. TY they lose CB Arness Ikner (12 st, #4 tkl'r, 7 pbu), CB TL Edwards (6 st, 28 tkl, 4 pbu), SS Eric Russell (11 st, #1, 2 int, 3 pbu), FS Derrick Crumpton (9 st, #8, 3 pbu) and Denzell Guerra (1 st, 14 tkl). CB Kenneth Gilstrap won the 55M SBC indoor track title. They add in Jajuan Harley (PS#35, Fla St trans). Despite the fact that they lose 39 sts from '11, this unit is close in terms of experience and has added talent and can only improve.

SPECIAL TEAMS - This unit really surprised me LY. MT finished #39 in my ST rankings in '10 and had all of their key players back LY. P Josh Davis (36.5 tm net '10) lost his spot to Sr Nathaniel Toulson (PS#59). The two comb to avg 40.5 (37.0 net). Alan Gendreau (PS#19, 38-48 first 3Y) hit just 8-14 FG's (1-5 from 40+) but still leaves as MT's all-time leading K scorer (Garth Petrilli '91-'94). KR Eric Russell (26.3 '10) slipped to 20.7 in '11. MT plummeted to #108. MT has blk'd 18 kicks the last 3 yrs. This year they lose Gendreau and Toulson as well as their top PR/KR Eric Russell and I don't expect them to make a huge jump in my ST rankings.

COACHES - Rick Stockstill has been a cch under Lou Holtz, Steve Spurrier, Danny Ford, Ken Hatfield, Tommy West and Tommy Bowden. He was the OC at ECar in '03 (recruit coor SCar '04-'05). The former Fla St QB has recruited 21 NFL signees over the L12Y. In his 1st yr here ('06) he led MT to their first ever DI bowl and was the SBC COY. Their 3rd OC in 3 yrs is Buster Faulkner (QB cch '11). In '11 Steve Ellis was the 3rd DC in 3Y (3 yrs Nich St DC) and TY they add in Tyrone Nix to share the DC duties after serving as DC at Ole Miss ('07-'11), SMiss and SCar.

PHIL'S FORECAST

MT has generally been rated near the top of the Sun Belt each year in the preseason. After an 8-3 overall record in the SBC's inaugural season of '01, MT would have 6 losing seasons in the next 7 yrs. When Stockstill took over in '06 he had just 70 schlp players but got them to their first ever bowl (7-6). By '09 they had a full allotment of schlp players and only had to replace 11 lett. Dwight Dasher had an outstanding year and MT rolled to a 10-3 record with Dasher being the MVP of the bowl vs S Miss. In '10 MT was a consensus favorite to win the SBC. MT got 2 votes in the AP poll (#43), their first ever appearance. Stockstill turned down job offers from ECar and Mem as MT appeared headed for a big season. Dasher was susp'd for the first 4 and then had an off yr upon returning. After benefitting from +12 in TO's in '09, they were -19 in TO's in '10 and dropped to 6-7. MT was -33.9 ypg in SBC play (2nd worst) and had the youngest duo of coor's in the NCAA (30 and 31 yrs old). LY they had just 10 ret sts (lowest in SBC) but only lost 17 lett (3rd fewest). MT almost knocked off Purdue but their 47 yd FG was blk'd on the final play and then they were mauled by GT. They never trailed Troy on the road until 1:11 remained in the 3Q (lost by 3). They needed a 33 yd td pass with :11 left to get past Mem for their first win of the ssn. MT then had 3 TO's inside the WKU20, had xp and FG misses and lost at home by 3 in 2OT. After whipping FAU (479-276 yd), they dropped their final 6. Prior to the ssn finale, Stockstill was already talking as if it was '12 and it showed on the field in their 59-7 loss (trailed 31-0 half) to N Tex. MT had a record breaking year but for all the wrong reasons. They finished with just 2 wins for the 1st time in 30 yrs and only one squad had finished with just 3. MT went winless in conf HG's for the first time in history. Despite the largest crowd in stadium history (30,502) vs GT, their avg att was the lowest in the Stockstill era (18,407) and MT was outscored 246-78 during their 6 gm losing streak. TY MT figures to be one of the most improved tms in the SBC as they now have 13 ret sts including a veteran QB, had 2 net close losses and were -8 in TO's in '11. They also had poor off (18.0) and def (12.0) ypp's and after 16 comb wins in '09 and '10 had just 2 LY. Their +6.0 in that category (see pg 27) gives them a 16-0-1 chance of improving their record. While they were 1-7 in the SBC LY they were only -20.9 ypg. The only question TY is not if MT is stronger but if they made my Most Improved List (see pg 19).

POSITION OUTLOOK FOR 2012

QUARTERBACKS - NT has received uneven QB play ever since Scott Hall departed after NT's '04 bowl season. In '09 with their top 3 QB's inj'd and out, they were forced to take the RS off 6'4" true frosh Derek Thompson (PS#159) who hit 3-3 passes in the season finale. In '10 the unit was again hit hard by inj's. Thompson won the starting job in Wk 3, but broke his leg in that game (11-18-83 ssn). Four diff QB's st'd and NT threw for 173 ypg (58%, 16-9). With the other 3 QB's out of the equation, Thompson was the clear-cut starter heading into LY, although HC Dan McCarney was high on true frosh Andrew McNulty. McNulty made his first start vs Tulsa (gm 5, Thompson late scratch) but threw two pick 6's and Brent Osborn (PS#151JC) led 2 td drives late vs TU bkps. Thompson ret'd and had his most productive game throwing for 332 (59%) and 3 td's vs ULM but then suffered a conc on the 2nd play vs ASU and McNulty hit 14-26-136. Thompson came back vs Troy (301, 82%, 2-0). He st'd and took every snap the final 3 and finished with 1,759 (57.7%, 11-6) while McNulty threw for 352 (54.9%, 1-3). Osborn only played in 3 gms. James Hamilton ran the Wildcat and hit his only pass for 34 yds. This year the unit returns intact and Thompson should be one of the SBC's top QB's.

RUNNING BACKS - In '08 true frosh Lance Dunbar rushed for 178 (4.6) with 2 st but was OFY after 5 gms. He returned in '09 and rushed for 1,378 with an outstanding 6.9 ypc. In '10 Dunbar rushed for 1,553 (5.7) including 270 vs K-St becoming the 2nd NT RB to top 1,000 in consec yrs. James Hamilton (PS#104QB) rushed for 214 (8.2) but was lost after 5. Brandin Byrd (PS#287) rushed for 169 (5.0). LY all 3 ret'd and Hamilton rushed for 406 (4.4) while also playing Wildcat QB and Byrd had 83 (4.2). Dunbar became just the 6th player in NCAA history to have over 4,000 yds rushing (4,224) and 1,000 rec (1,033).He finished his career with a bang as one week after missing WKU (3 att) he set the schl record for rush yds in a game with 313 (Jamario Thomas, 291 '04) which was the most in the FBS LY. He came into the gm needing 140 yds to top Patrick Cobbs ('01-'05) as the all-time career rusher. Naturally with the loss of a player like Dunbar (11 st), as well as Hamilton (1 st), this unit looks significantly weaker for 2012.

RECEIVERS - NT had a veteran rec corps in '10 and the top 3 comb for 1,238 (13.0). LY their #1 WR was dismissed over the summer and Okla transfer Tyler Stradford (#4 in '10) had just 2 rec before giving up football. Michael Outlaw (473, 11.5, 12 sts '09, RS '10) did return. One of the most exciting players was RM/WR Brelan Chancellor and he led with 457 (12.4). Unheralded walk-on Ivan Delgado was #4 (305, 11.7). Chris Bynes was off an Achilles injury but finished #2 (442, 11.9). There were plenty of drops by the inexperienced unit which hurt Thompson's %. This year they lose Outlaw (7 st, 207, 12.2) and Breece Johnson (3 st, 10 rec). With the return of their top 3 WR's, this unit is vastly more experienced.

OFFENSIVE LINE - In '09 I didn't exactly go out on a limb calling this unit the best OL in then HC Todd Dodge's tenure. They ret'd all 5 st'rs (103 car sts, 25 in '08, 39 in '07) and went from avg 119 ypg (3.7) in '07 and 127 (4.1) in '08 to an expected 185 ypg (5.3) with just 12 sk (2.9%). In '10 they had a less mobile QB and had to replace 1 st'r. They then lost starting C JJ Johnson after 1 st and his replacement after 2 st. With more of an emphasis on the run, their rush totals improved to 202 ypg (5.0) but their sks ballooned to 30 (9.5%). LY they had to replace a 1st Tm SBC LT (3Y st'r), 1st Tm SBC RG (4Y st'r) and a 3Y st'r at LG. The career sts dropped to 59 and even further (35) when JJ Johnson st'd just 1 gm (inj). With 2 ret sts and a new system to learn, they dropped to 152 ypg rush (3.8) but only allowed 16 sks (4.6%). TY they lose 1st Tm SBC RT Matt Tomlinson (12 st, 2Y st'r) and C JJ Johnson. They are now in the 2nd year of McCarney's schemes, have 4 ret sts (67 car st) and should have a much improved O-line but do lose RB Dunbar so they won't see a huge improvement in their rush numbers.

DEFENSIVE LINE - In former HC Darrell Dickey's final season ('06) he ran a 3-4 D and NT allowed just 149 ypg (3.9). In Dodge's first year they moved back to the 4-3 and only had to replace 1 st'r but surprisingly yielded 230 ypg and a ghastly 5.7 ypc. They made improvements each of the next 3 yrs. In '10 they had 5 back w/st exp making it their most veteran and strongest def front of the Dodge era and trimmed it to 185 ypg rush (#3 SBC rush D, 4.7). LY they had to replace 2nd and 3rd Tm SBC DT's but I called for similar numbers. They trimmed it to 164 ypg (4.7, 26 sk). DE Brandon Akpunku was #2 in the SBC in sks. TY they lose 2nd Tm SBC Akpunku (12 st, #3 tkl'r, 7.5 sk, 2.5 tfl) but have 7 of their top 8 back including 311 lb DT Tevinn Cantly and look even stronger.

LINEBACKERS - In '10 Craig Robertson was #1 with 133 tkl (12 tfl) with Jeremy Phillips (#2) having just 69. As expected NT improved from allowing 35.6 to 29.7 ppg. LY they had to replace 1st Tm SBC Robertson (12 st, #3 car tkl'r) and their MLB (11 st, #4). They ret'd their #2 and #3 tkl'rs with Zachary Orr (1 st) also having 60 tkls. Orr was lost after 9 st (broken leg) but still earned 2nd Tm SBC. Phillips st'd the first 2 but missed the next 6 (knee) and had just 21 tkl. TY they lose Forlando Johnson (9 st, #9 tkl'r, 2.5 sk) and Julian Herron (#10 tkl'r, 3.5 sk). They return their #1, #5 and #10 tkl'rs plus get the return of Phillips making this a much more experienced group.

DEFENSIVE BACKS - From 2005-'08 NT finished just #113, #105, #111 and #118 in my PDR. In '09 the group had 4 starters back and moved up to #79. In '10 they had brought in 5 JC's but the best one (CB Steven Ford) was OFY in the opener. S DaWaylon Cook (12 st '09) was lost after 2 sts and S Ira Smith (12 st '09) had just 7 sts. NT slipped a little to #93 (57%, 20-8). LY they only had to replace 2 bkps (21 tkl) and had 7 back w/st exp but Cook quit in Sept. Still the exp'd group only moved up to #82 (59.9%, 27-9). This year they lose 4 Sr st'rs in CB Ford (9 st, #6 tkl'r, 2 int, 5 pbu), 3rd Tm SBC CB Royce Hill (12 st, #6 tkl'r, 2 int, 13 pbu), SS Brad Graham (9 st, #4 tkl'r), FS Ryan Downing (12 st, #2 tkl'r), SS John Shorter (3 st, 12 tkl, 4 pbu) and D'Leon McCord (17 tkl). Seven of 8 from LY's final 2 deep depart and they only return a comb 48 tkl from LY. They do add in Okla transfer Marcus Trice (PS#146) but this unit is my biggest ? on the defense.

SPECIAL TEAMS - In Darrell Dickey's final 4 yrs ('03-'06) NT finished #5, #66, #85 and #49 in my ST rankings. In Todd Dodge's 4 yrs ('07-'10) they finished just #118, #120, #100 and #61. In '10 true frosh Zach Olen (PS#26) hit a 53 yd FG (just snuck over crossbar). He connected on 13-15 (2nd Tm SBC). True frosh Brelan Chancellor got NT's first KR td since '98 (143 gm) and avg 28.0 (2 td). P Will Atterberry broke his arm missing the final 5 but the team net still improved from 31.1 in '09 to 34.8 in '10. LY, in McCarney's first year, the unit ret'd intact. Atterberry improved his net to 39.9. Chancellor had a schl rec 1,094 KR yds, but he only avg 21.9 (2.8 PR). Olen hit just 8-16 FG (long 52) and 3 FG's were blk'd (9 TB, 55 KO). The unit finished #69 and this year returns intact again and may be the SBC's best.

COACHES - Dan McCarney led NT to a 4-4 conf record in his 1st season which exceeded the total conf wins from the previous 4 yrs combined. McCarney led Iowa St from 1995-'06 and was most recently the asst HC at Florida ('08-'10). Mike Canales was the interim HC for the final 5 in '10 and was retained as the OC. He was the OC at USF ('07-'09) and AZ ('04-'06). LY's DC was hired away and the new DC is John Skladany. He's led a Top-10 UCF defense ('07, '10-'11) and was the DC at Houston ('08-'09) and Iowa St ('97-'06).

PHIL'S FORECAST

NT has an enrollment of 36,000+ (one of largest in Texas). NT was the dominant team in the Sun Belt with 26 straight conf wins heading into '05 (avg win by 16 ppg) while making 4 straight bowls. They had B2B losing years and then surprisingly got rid of HC Darrell Dickey who had done a tremendous job. Todd Dodge converted the offense away from the power running game to a pass oriented attack and was 5-31 in his first 3 yrs. In '10 they had 16 ret sts and despite their 1-7 SBC record in '09, they were only -18 ypg (5th best). NT outgained Clemson (39 yd) and Rice (69 yd) but was led by an interim HC, OC Mike Canales, in the final 5. The tm went 3-9 (3-5 SBC, -27 ypg). They had 37 sts lost in '10, had 2 net close losses and were opening up the brand new Apogee Stadium with new turf to cut down on inj's. The new HC, Dan McCarney, always got the most out of his teams at Iowa St. NT was mauled in the opener by defending SBC Champ FIU (trailed 31-7 1H) but in their first game of the new stadium only trailed powerful Houston 20-17 at half. They still were outgained 690-290 in the 25 pt loss. NT was whipped by eventual Nat'l Champ Alabama. They dominated Indiana leading 24-0 into the 4Q for McCarney's first win here. QB Thompson was inj'd prior to Tulsa and McNulty st'd as NT trailed 41-3 in the 3Q (3 gbg td's). They were outgained 108-107 in the 1H vs FAU but got 2 IR td's in a :10 span to blow the game open for a 31-17 win (despite -97 yds). NT only trailed Louisiana 13-10 after 3Q's but lost by 20. Against ULM it was 14-14 at half but NT rolled to a 38-21 win (459-343 yd). They were still alive in the SBC Title chase when they were mauled by ASU (trailed 31-0 half). RB Dunbar was hurt in the 1H vs Troy but NT still won on the road, 38-33 (503-383 yd edge). With Dunbar having just 3 att's, they lost at home to WKU 31-21 (outgained 483-322). In their ssn finale, Dunbar finished his career with a vengeance with 313 rush yds in a 59-7 route over MT. Their 5 wins were their most s/'04. TY they have 14 ret sts (11 LY) and are in McCarney's 2nd yr but were +9 in TO's LY and had an off ypp of 13.8. Their -29.5 ypg in SBC play was 3rd worst despite their 4-4 SBC record. McCarney did suffer a mild stroke in the winter but thankfully was fine in the spring. They lose 27 lett and only ret 35. NT does avoid FIU in the SBC and 4 of my 9 sets of power ratings call for bowl eligibility but they do not make my MIP List with LSU, K-St and Houston on their non-conf slate.

LTH NT led 27-21 at HT. NT trailed by 5 two different times in the 4Q but all'd 70+ yd td drives after each.

NT is 4-1 vs WKU winning their only 2 trips to Bowling Green by an avg 19 ppg. LTH NT led just 10-3 at HT but scored

23 pts and had 276 yds in the 2H. It was still a 13 pt gm mid-4Q but WKU had B2B fumbles that led to 2 NT td's.

POSITION OUTLOOK FOR 2012

QUARTERBACKS - While FAU only played its first football game in '01, Rusty Smith's 10,112 yds are worthy of being the career passing mark here and he departed after '09. He threw for 274 ypg (57%, 14-5) in his final ssn but was lost in game 7. Jeff Van Camp st'd the final 5 (1,372, 59%, 12-2). Smith was the first FAU player to make an NFL roster and also start an NFL gm (TEN). In '10 Van Camp was plagued by an inj'd and inexp O-line and often had little time to throw but still, after 6 gms, was #1 in the SBC in pass eff. He threw for 2,459 (57%, 17-13) but it was surprising to me that in the 2H of some blowouts they didn't get more action for their bkp QB's. 6'6" Graham Wilbert (PS#140) played in just 3 (1-5-41). David Kooi (6'7" 210 Sr, PS#128) hit 3-6 in '09, and just 0-2 (4 gm) in '10. He made his 1st start and threw for 168 (54.3%, 1-0) LY. Kooi is faster with a stronger arm but Wilbert is more accurate with a better command of the huddle. Wilbert made 11 sts but threw for just 1,459 (52.4%, 7-15). FAU's 143 pass ypg was their worst in program history. TY they are much more exp'd but will be moving to the spread option, not a good fit for Kooi or Wilbert. Stephen Curtis ran the Wildcat LY and overtook Kooi for #2 in Nov. New coaches like their own recruits and Carl Pelini added JUCO Melvin German and true frosh Grant Flessner (IFS). Let's face it, no matter who wins the job, FAU can only get better QB play.

RUNNING BACKS - Alfred Morris was a bkp FB in '08 but moved to TB in '09. Former HC Howard Schnellenberger said that he was the most complete RB they've had here and those words proved prophetic. Morris was by far the team's MVP rushing for 1,392 (5.3). RFr Xavier Stinson (PS#46) added 94 (3.1). In '10 they lost their solid blocking FB Willie Rose (307 rush, 302 rec) and had an inexp'd O-line. Morris' numbers dropped to 928 (4.1). Stinson moved to FB and had 95 (3.3, 100 rec yd). LY Morris rushed for 1,186 (5.0) including six 100+ yd gms (5 str) with a ssn high 198 vs UAB. He didn't get much help from the O-line needing a lot of broken tackles. Morris (#6DC WAS) became the Owls' career leader in rushing and all-purp yds (Dilvory Edgecomb). Stinson was a distant #2 (88, 2.5). Not listed in the PSL are Travis Jones (5'11" 190 Jr, 1 att, 3 rec), Damian Fortner (5'10" 195 Jr, 27, 2.5), Tony Moore (5'11" 220 So, 14, 4.7), Antonio Washington (6'2" 195 So) and FB Chris Jackson (6'1" 230 Jr, 13, 4.3). Naturally with the loss of their star player, this unit looks weaker in '12.

RECEIVERS - The Owls had to replace 5 of their top 6 rec's in '10 and lost their top 3 rec's once again LY. FAU's returning WR's had a total of 12 career catches, all by DeAndre Richardson. Richardson led in rec's with 32 (8.4) while TE Darian Williams (110, 12.2 in '10) led in yds (291, 11.2). TE Nexon Dorvilus was #4 with 226 (11.3). WR Marcus Cunningham was #3 with 257 (14.3) and RB's were #5 and #6. This year they only lose Williams (7 st). This is the most exp'd the receiving corps has been in 3 years and should have much improved stats.

OFFENSIVE LINE - In '09 Schnellenberger fielded his biggest OL yet (avg 312 lb) and all 5 st'd all 12. Their rush ypg numbers improved to 152 (4.2) with 21 sks (4.7%). In '10 they had the least exp'd O-line in the country (0 car sts ret) and naturally it was my biggest concern on the team. They were a lot smaller (avg 282 lb) and the unit was hit hard by inj's with proj'd starting C Jordan Sessa OFY. Nine diff players st'd. As you would expect, they avg'd just 94 ypg (2.8, 36 sks), their worst numbers s/'02 (2nd ssn). LY all 5 st'rs ret'd (59 car sts) although RT Max Karrick was lost after 4 sts. Surprisingly their numbers only improved to 106 ypg (3.3, 33 sks, 9.4%) despite the presence of RB Morris. TY they lose 3rd Tm SBC LT Samuel McRoy (12 st, 2Y st'r), Karrick (15 st 2Y) and RG Chris Newbold (12 st, 2Y st'r). They have 3 st'rs back (57 car sts) and add in 2 JC's plus a Minny transfer and should be a much improved group.

DEFENSIVE LINE - In '08 FAU allowed only 4.4 ypc (179 ypg rush) which was their best in 4 yrs. In '09 they had to replace 3 st'rs. The LB's were also wiped out and as you would expect, FAU's rush D yielded 221 ypg and 6.1 ypc, both worst in schl history (just 12 sks). In '10 they only had to replace 1 st'r and trimmed the ypc to 4.6 (204 ypg, 20 sks). The top DL from '09, Kevin Cyrille (limited early), dropped from 11.5 tfl to 6.5 as FAU used an 8 DL rotation. LY they had to replace 2 DL (16 sts, 8.5 tfl) and switched to a 3-4 so they looked stronger. Even though FAU's win total dropped from 4 to 1, their rush D improved to 169 ypg (4.0, 17 sk). TY they lose 3rd Tm SBC DE Cyrille (36 tkl, 4.5 sk), NT Jarvis Givens (8 st, 32 tkl, 2 sk) and DE Jamere Johnson (3 st, 22 tkl, 1.5 tfl). The ret DL's comb for just 1 sk LY (lose 6.5). They move back to a 4-3 and move in OLB Cory Henry (8 st, 1.5 sk) but this group is less exp'd and will likely drop a few notches.

LINEBACKERS - In '09 the LB unit was my biggest concern on the Owl's D as they had to replace their #1, #4 and #5 tkl'rs (top ret #9). David Hinds became the Owls' first true frosh st'r on D s/'05 when he replaced a banged up Michael Lockley late. Lockley was still the #2 tkl'r. In '10 they only had to replace their #3 tkl'r (5 of top 6 back) and FAU went from allowing 33.8 ppg to just 29.3. LY they had to replace 1st Tm SBC MLB Lockley (#1) and a 3rd Tm SLB (#2) while returning their #7 and #8 tkl'rs along with Hinds (48 tkls, 2Y). The unit was less exp'd and added another LB spot (move 3-4 D). They then lost Yourhighness Morgan (6 st, 47 tkl in '10) in Aug so their top returnee had just 5 sts in '10. Hinds was the #1 tkl'r with 110 (8.5 tfl). The inexp'd corps was one of the reasons FAU all'd 34.7 ppg (most in schl hist). TY the unit returns their #1, #2 and #3 tkl'rs to the 3 man unit. This is one of the most improved LB corps in the country.

DEFENSIVE BACKS - From 2005-'08 the Owls finished #51, #53, #80 and #87 in my PDR. They had to replace a pair of 1st Tm SBC st'rs in '09 and dropped down to #115 (67%, 17-5). In '10 they had all 4 st'rs back and rose back up to their accustomed level (#67). LY they had to replace 3 st'rs (two 2nd Tm SBC CB's, #4, #5 and #6 tkl'rs). They did return 2nd Tm SBC FS Marcus Bartels (#3) but were clearly a less exp'd unit despite 6 DB's back with starting exp. As you would expect, FAU slipped to #91 (66.6%, 19-10). TY they lose Bartels (12 st, #4 tkl'r, 4 pd) and Curtis Cross (4 st, #8 tkl'r). They return 3 st'rs (#5, #6, #7 tkl'rs) and add in Tony Grimes who st'd at Ole Miss in '10, making this unit much more exp'd.

SPECIAL TEAMS - In '10 I called for FAU to have their best ST finish in 10 yrs and they accomplished that despite finishing just #89 (#117, #104, #105, #108 and #114 prior). LY they only had to replace their K (8-13 FG, L41) so it surprised me that they dropped to #118. P Mickey Groody (PS#15) set a schl record for career punts (Andy Rosas '01-'03) and also for punts in a gm (11). Naturally that tells you a lot about their offense. Groody had a 45.7 avg (super 38.8 tm net) in '10 but slipped to 42.0 and the tm net plummeted to 32.8 (#111 FBS). Willie Floyd set the school record for career KR (98) and LY had 32 (21.4). True frosh DJ Frye-Smith had 23 KR (20.9). Marcelo Bonani was just the 2nd P/K that Schnellenberger signed and he had 2 TB on 28 KO. Vinny Zaccario took over at K (7-11 FG, L43). The team's PR unit finished #109 FBS (4.0). TY they lose their P along with Floyd and will struggle here again.

COACHES - Howard Schnellenberger took over struggling teams at L'ville and Miami where he, of course, won a Nat'l Title. He got FAU's FB program started in '01, watched them move up to 1A in '04, won B2B bowls in '07 and '08 and saw the opening of a new on-campus stadium LY. He announced his retirement and then went thru a difficult 1-11 ssn. Carl Pelini becomes the 2nd ever FAU HC. Pelini was the DC at Neb under his brother Bo the L4Y and was the DL cch at Ohio ('05-'07). The OC will be Brian Wright who spent the L7Y as an FCS OC (Mont St '10-'11, Youngstown St '05-'09). New DC Pete Rekstis was the DC/DB cch at Kent St ('04-'10) and Miami, Oh in 2011.

PHIL'S FORECAST

FAU did not play its first true football game until '01. Howard Schnellenberger did a remarkable job in '03 guiding them to an 11-3 finish, beating a pair of ranked IAA tms and SBC member MT all on the road. They were the youngest startup program to make the IAA playoffs falling one game short of the title game (finished #4). In '04 FAU moved to IA and had 19 st'rs back. They opened with five consec road wins (upset Hawaii, NT & MT) and finished 9-3. The '05 season was the first year they had to replace a senior class (just 6 ret sts). I pegged FAU 7th in the SBC and they finished 2-9 (T-7th). Over the next 5 yrs, they had just 2 winning seasons. In '07 the Owls were surprisingly picked for 6th (cch) in the SBC but I pegged them 2nd. FAU upset Troy and amazingly in their 4th year of IA ball, won the SBC Title and spanked Memphis in the bowl. After another bowl win in '08, they struggled the next 2 yrs (9-15). In '10 FAU was -91.9 ypg in SBC play. LY they opened their new stadium and I put blind faith in Schnellenberger picking the Owls 7th in the Sun Belt even though 7 of my 9 sets of power ratings called FAU the weakest team in the FBS. As usual, FAU mailed it in vs the BCS foes losing by 38 to Florida and vs Mich St they had just 1 FD! They gave a decent effort vs Auburn, losing by 16. FAU went into Louisiana and UL needed a 26 yd FG on the last play to pull out a 37-34 win. In their 5th straight AG, they had a 334-237 yd edge but gave up a pair of IR td's in a :10 span and a 4 yd td drive (fmbl PR) losing 31-17 to NT. In the game that Snellenberger called the "most important game in program history" they opened the stadium with a shutout loss to WKU (121 yds). The next week, in a half empty stadium, they were rolled by MT by 24. They led eventual SBC Champ ASU 21-18 in the 3Q but lost by 18. FIU had just 1 win in their rivalry vs FAU but wanted it bad and got it with a 41-7 win. FAU only trailed Troy 17-7 at half but lost by 27. Against UAB the Owls went for it on 4th down 5 times (conv all 5) and got Howie his first win of the season, 38-35. However in their FHG it was their 3rd shutout loss (148 yds) and less than 4,000 were in attendance. New HC Pelini does have a more veteran group with 15 ret sts and LY's team was -9 in TO's (pg 322) and had poor off (19.3) and def (11.3) ypp's. They were -128.9 ypg in SBC play (SBC worst) but Pelini says "this was kind of a sleeping giant ready to take off." FAU will be much more competitive and will pull some upsets but probably not enough to make it to a bowl.

SOUTH ALABAMA JAGUARS

SS Charles Harris

POSITION OUTLOOK FOR 2012

QUARTERBACKS - South Alabama's first ever football game was on Sept 5, 2009 as they played a prep school schedule (see '09 results). Three QB's split time comb for 1,205 (65%, 11-4). In '10 true frosh CJ Bennett (PS#84) took the starting job away from the 2 returnees down the stretch starting the last 3 and throwing for 1,189 (61%, 9-2) with 163 rush. LY they had to replace Brennan Sim (532, 67%, 6-2). Bennett started all 10 and threw for 1,640 (54.9%, 7-17) vs upgraded opp's. Myles Gibbon (6'2" 220, PS#422), who had 2 sts in '10 (325, 61%, 2-1), hit 6-15-82 yds. TY both return and not listed below are Logan Rogers (5'10" 200 Sr, PS#343) and Kolt Peavy (6'0" 180 rFr, PS#246). They also add in Virginia transfer Ross Metheny (PS#59) who hit 15-19 (79%) for 207 yds with a 3-1 ratio in 7 gms over 2 years for the Cavs. While their numbers might not improve much with another step up in competition, they switch to the spread offense and Bennett is an HT that now has 2 years under his belt.

RUNNING BACKS - In '09 Memphis trans Brandon Ross (PS#270) led with 594 (7.9) with 13 td's in their 7 games. Santuan McGee had 350 (7.1). In '10 while Ross (274, 7.6) and McGee (234, 5.7) both made sts, the leader was PS#207 Fr Kendall Houston (891, 6.4) who had been at Ark St during the spg but transferred here in the summer. LY everyone was back and they added in UGA transfer Demetre Baker (PS#52LB, 4.45 spd). Houston led again with 558 (4.6) while Baker was #2 with 491 (4.8). JJ Keels (PS#127), who orig committed to Vandy, started 3 and was #3 with 142 (3.8). TY all 3 return along with Ellis Hill (5'9" 205 Jr, PS#311) who has a comb 253 (4.9) in 3Y and Ross (6'0" 240) who DNP LY. Not listed in the PSL are Desmond Jones (5'11" 230 So), Terrance Timmons (5'7" 175 rFr, PS#363) and Julien Valentin (5'9" 200 Jr). This will be one of the SBC's top RB corps.

RECEIVERS - LY the Jaguars had to replace their top rec who had 592 (15.6) in '10 with the top returnees being Corey Waldon (291, 20.8), Bryant Lavender (276, 17.2), TJ Glover (155, 11.1) and Jeremé Jones (142, 9.5). This time the top rec only had 370 (13.2) and that was Lavender. Waldon improved some to 294 (12.8) and Jones added 205 (9.8). TY they lose Lamontis Gardner (6 st, 246, 12.3), TE Kevin Helms (10 st, 216, 15.4) and TE Paul Bennett (8 st, 38 yds). Not listed in the PSL are TE's Ethan Stokley (6'2" 190 rFr), Jared Palmer (6'2" 205 Jr), Devin Robinson (6'1" 215 rFr) and Ryan Onkka (6'4" 240 So). While they basically lose 2 starters from this unit, the top 2 are back and with the move to a spread offense they can only improve upon last year's production.

OFFENSIVE LINE - In their first season ('09) USA rushed for 267 ypg (6.1) vs very weak opp's in a 7 game schedule. In '10 they rushed for 232 ypg (5.7) in a 10 gm schedule with 6 lower division teams. LY 4 full-time starters returned but USA was facing a tougher schedule and slipped to 155 ypg rush (4.0) while allowing 21 sacks (8.3%). TY they lose LT Brian Krauskopf (10 st, 3Y st'r), LG Jon Griffin (10 st, 2Y st'r), RT Chris Brunson (10 st, 1.5Y st'r) and Ryan Norris (2nd string). They add in Alabama transfer Darius McKeller (PS#84) who is 6'6" 350 and gives them an upgrade inside. This unit will be taking on tougher opponents yet again so their numbers may not rise, but they should be equal or even better than LY's group.

DEFENSIVE LINE - The Jaguars run a 3-4 D, and similar to the offensive ones these numbers are skewed due to their strength of schedule. In '09 they allowed 61 ypg rush and only 1.8 ypc and in '10 they allowed 81 ypg and 2.8 ypc. LY all 3 starters returned but facing a much tougher schedule they yielded 143 ypg rush (3.4) while recording just 15 sks. Not listed in the PSL are Justin Walker (5'10" 265, Jr), Trevor Barry (5'11" 250) and Byron Sneed (6'4" 240 Jr). TY they take another step up in competition but the good news is that the entire 3 deep returns led by 2Y st'r NT Montavious Williams (27 tkl, 5 tfl) and could stop the trend of weaker rush D numbers.

LINEBACKERS - In South Alabama's first 2 years they were very stingy allowing points as in '09, vs prep schools, they yielded just 5.9 ppg with 2 shutouts. In '10 they played 4 FCS teams in their 10 game schedule and yielded 13.0 ppg with shutouts of Pikeville, Edward Waters and Lamar. LY they had to replace their #2 and #6 tkl'rs, returning their #1, #5 and #7 tkl'rs while adding Va Tech trans Jake Johnson (PS#85). Now facing 2 FBS opponents and 6 FCS teams, their numbers slipped as you would expect to yielding 21.7 ppg and 310 ypg. Not listed in the PSL are Andrew Philon (5'11" 205 rFr), Robert Terrell (6'0" 260 rFr) PS#217, Ramon Lewis (5'10" 245 rFr, PS#540) and Dylan Hutto (6'0" 190 rFr). TY they only lose Ken Barefield (10 st, #4 tkl'r, 2 sk). They ret 3 st'rs in MLB Johnson (#1 tkl'r, 6.5 tfl), WLB Enrique Williams (#3, 4.5 tfl) and SLB Clifton Crews (#6, 5 tfl) along with 2 that tied for #11. Even with the step up in competition, they could improve upon LY's numbers.

DEFENSIVE BACKS - In their inaugural season the secondary allowed 173 ypg and 50% completions. In '10 with a more exp'd unit, even against a tougher schedule they allowed 173 ypg again, but only 49%. LY they had to replace 1 st'r but added in VHT Alabama transfer BJ Scott (PS#16). Once again, increasing their strength of opponents, they still allowed a respectable 167 ypg (55%, 14-8). TY they lose Anton Graphenreed (9 st, 29 tkl) and Damond Smith (4 st, 18 tkl). They return 4 who combined for 27 sts LY incl all-conf cand SS Charles Harris (#2 tkl'r), the anchor off the unit FS Scott (#5, out L/3 inj) and CB Gabe Loper (#7, 2 int) who moved to SS in spring. They also add in PS#337 JUCO Darrius Morrow who was IFS. This should be one of the SBC's better secondaries.

SPECIAL TEAMS - South Alabama had a pretty good ST unit in '10 as K Lawson McGlon hit 12-17 (L40) while P Scott Garber avg'd 40.4 (tm net 35.3). TJ Glover was the top KR (30.3) and a main PR (13.7). Jeremé Jones avg 19.4 on PR's vs light competition. LY McGlon lost his starting spot to Alabama transfer Jordan Means who hit 13-15 FG's with a long of 48. Garber improved his punting to 41.7 (34.1 tm net). Against tougher competition their PR numbers dropped (16.0 in '10 to 8.8) but their KR's improved (22.7 in '10 to 23.9). This year they lose their top guy in Means and take another step up in their level of competition.

COACHES - South Alabama hired Joey Jones to be their 1st HC. He had a unique situation as they were unclassified their first 2 seasons and he guided them to a 17-0 record vs overmatched foes. LY he led them in a step-up in competition with an FCS schedule and this yr leads them to another step up to the Sun Belt. Jones was an All-SEC WR at Alabama before becoming a HS HC for 14Y and spending 2Y as the HC at DIII Birmingham-Southern. Robert Matthews is in his 1st season as OC and was most recently the TE cch and recruiting coor at Southern Miss ('10-'11). DC Bill Clark was also a HS HC ('99-'07) before getting hired in 2008 to help to start this program.

PHIL'S FORECAST

On Dec 6, 2007 the USA Board of Trustees approved the addition of football. They hired Joey Jones on Feb 15, 2008 and won their inaugural game on Sep 5, 2009. The start up of this program is certainly unique as they had no league affiliation their first 2 seasons playing a mixture of FCS, DII, NAIA and prep teams. They went 7-0 in their inaugural season winning by a combined 321-41. In 2010 they played 10 games, again running the table. They played 6 lower div teams and 4 FCS opp's. Against the FCS they beat a Nicholls St team that finished 4-7, (39-21) then shut out Lamar who finished 5-6 on the year. They traveled to UC Davis (6-5) and got a 3 pt win and knocked off Georgia St 39-34 who was in their 1st season (6-5). Not only did they outgain all 4 but they did so by 138 ypg. The NCAA did not recognize USA as a varsity program in '09 and '10, so players were able to basically compete for two ssn's which equalled one RS ssn. Their 1st two season's they were a PERFECT 17-0 and last year they played 6 FCS teams and also faced Kent St and NCSt. They opened with an expected 20-10 win over Div II West Alabama. They moved to 19-0 in their history with an impressive 30-8 win over Lamar (finish 4-7). Their streak finally ended at NCSt despite outrushing the Wolfpack 104-95 and only having 1 less FD (lost by 22). They were done in by 1H turnovers at Kent St as they trailed 26-0 at the half and lost 33-25 despite finishing with a 374-281 yd edge. Down by one score they had the ball twice at the end but were int'd and their last drive got to the KSU 23 but they ran out of time. USA travelled to face UTSA (1st yr football) and needed to block a 26 yd FG at the end of reg to win 30-27 in 2OT as they were outgained 409-352. UT Martin came into their game leading the FCS in scoring (45.2 ppg) and ttl off (512 ypg) but USA held them to 325 yds and led 33-13 at one point with a commanding 239-64 yd edge at the half (held on for the 33-30 win). In a 2nd straight road game they needed a late score (td :04 left) to force OT, this time vs Georgia St (2nd yr football) but after blocking a 24 yd FG in the 1st OT to stay alive, they lost in the 2nd OT 27-20 (outgained 429-323). In the 1H they were int'd deep in GSt territory and also fumbled at the 10 and were int'd at the 1 in OT. They forced a school record 7 TO's in their 28-3 win over Div II Henderson St (375-210 yd edge). Miss Valley St which finished just 1-10, was no match as USA won 35-3. In their home and season finale they took on a much tougher Cal Poly team that runs the triple option and were thrashed 41-10 to finish 6-4 and 23-4 in their history. This year they face 11 teams that were in the FBS LY making it a much tougher schedule. While they will be competitive in the Sun Belt, I will call for a team that has won 85% of their games to have their first losing season in school history.

WHAT EXACTLY IS A PS NUMBER??

One very important part of my College Football Preview Magazine is an individual player's "PS#". You will see them on almost every page and I find them vital in my analysis of a team. If you have purchased my magazine before, I am sure you are very familiar with what each player's PS# stands for. This article is for those of you picking up my magazine for the first time and are asking the question listed at the top of the page.

A simple definition for a PS# is my ranking of the players at their positions coming out of high school or from a Junior College (JC or JUCO). The PS naturally stands for Phil Steele with the number representing a players rank at that position. I personally do not scout high school games or rate players. Covering college football as I do takes 52 weeks of the year as it is. I compile my PS#'s based on the many different recruiting services across the country. I not only use all of the biggest but use regional reports as well. On the bottom left of this page, I list the top recruiting services from which I compile information.

When we receive a recruiting magazine, we translate each player's ranking into a point system from 1-100. Brandon, Christy and Logan then log each and every player into the computer and give them a point total from each source. This is a very time-consuming process. This year's 2012 Freshmen List has roughly 13,000 players on it!!! Many players are listed by just one or two sources. The higher ranked recruits are mentioned by almost every source. The more they are mentioned and the higher they are rated in each publication, the more total points they accrue. After months of entering all of this information, I sort the list by each position and by total points. Naturally, the QB with the most total points then becomes PS#1QB for that year. If a player is PS#99QB, that means he ranks 99th in total points of all QB's coming out of high school that year.

Some positions simply do not have as many players as others. For example, this year's PS#100TE totaled just 261 points in my system, while this year's PS#100OL has 556 points!! The reason is simple. There are FIVE offensive linemen and just one TE on the field. Naturally, there are 5 times as many OL's to choose from as TE's, making it much more competitive. A player with 261 points on the offensive line is rated as a PS#319OL this year. The PS# is not their overall rank in the freshmen class, but their overall rank AT THAT POSITION in the freshmen class.

I also track JUCO's. A JUCO is a player who went to a Junior College (JC) after high school and played football there. They use up a year of their college eligibility for every year they play and most come in as juniors. They are older, more seasoned players, and usually can make an immediate impact. A players' PS number out of a JUCO are not separated by positions but instead all players at all positions get a JC number.

So what is the big deal about where they are ranked out of high school? I equate it to where a player ranks in the NFL draft. Obviously, there are some outstanding players in the NFL who were low-round draft picks or even signed as undrafted free agents. However, the majority of the all-stars in the NFL are higher round draft picks and 1st round picks usually make an impact much quicker.

Colleges are much the same. There are plenty of players without a high PS# who end up making it big. For example, Adam Archuleta was an unheralded walk-on at Arizona State who arrived as a slender 180 lb freshman. He left the Sun Devils' program as one of the most feared defenders in the Pac-10. He increased his weight to a chiseled 215 lbs, while bench pressing over 225 lbs 31 times with 4.36 speed, going as the 1st DB in the 1st round of 2001's NFL Draft. Some kids enter college at 17 or 18, undersized and not yet matured, but then grow into big, strong, fast players and make all-conference teams. Just like the NFL, there are a good number of these types of stories. For example, 2000 MVP Kurt Warner was not drafted and played in NFL Europe and the Arena Football League. Other notable UFA's are QB Tony Romo (Dallas), RB Arian Foster (Houston) and TE Antonio Gates (SD). Also, just like the NFL, there are MORE cases of those players who come in highly ranked out of high school, becoming stars and making an immediate impact.

QB Cam Newton was PS#2JC in 2010. He was taken as the #1 overall pick to Carolina LY and set an NFL rookie record with 4,051 pass yds and added 706 (5.6) rushing.

Here are some examples of the previously mentioned highly ranked high school players that made an immediate impact in the NFL: In 2006, Percy Harvin was a PS#1WR. In 2009 he was the #1DC (22nd pick) of Minnesota and was named the NFL Rookie of the Year with 790 yds (13.2). In 2005, Jonathan Stewart was a PS#1RB. He came out early as the #1DC (13th pick) of Carolina and finished the 2008 NFL season with 836 yards (4.5) and 10 td's. In 2004, Adrian Peterson was a PS#1RB and had an amazing season of 1,341 yards. LaVar Arrington was PS#1LB in 1997 and ended up the #2 overall pick in the draft. Peyton Manning was PS#2QB in 1994 and started as a true frosh, TE Tony Gonzalez was PS#1TE, Orlando Pace was PS#1OL and started as a true frosh and like Manning, was the first overall pick in the NFL draft. In 1995, the top 2 RB's were PS#1 and PS#2 (Kevin Faulk and Ahman Green) while Randy Moss was PS#1WR. These are just some examples but as you can see, the stronger the PS#, the better chance the player has of making a big impact in college.

Many times after players graduate, the talent behind them is unknown because they have not played a lot of college ball. You would expect a 1st or 2nd round draft pick in the NFL to be able to step into an open starting spot quickly and the higher-rated players can usually do just that in college as well. That is the value of a PS#.

On each individual right hand team page we list the Top Newcomers which includes both freshmen and JUCO's. These are ranked by each player's combined frosh rating (not by PS#'s) so therefore the top player listed earned the highest ranking in the comb frosh rating (which does take into account total points).

Who is a VHT and who is a HT? To the right you will find a chart simplifying our distinctions between these categories. To use the QB's as an example: any QB from PS#1 thru PS#30 I consider a VHT (Very Highly Touted). QB's from PS#31 thru PS#100 are HT's (Highly Touted). Many recruiting publications do not distinguish between OL and DL for their lineman. As a general rule, we put them into the OL category so that position has, by far, the largest amount of players.

PHIL STEELE'S 2012 PS RANKINGS

POS	VHT	HT
QB	30	100
RB	50	150
WR	50	150
TE	15	75
OL	100	250
DL	60	250
LB	60	200
CB	60	250
K	10	35
JC	100	200

Also new last year on every Top Newcomers list is the number of VHT's and HT's that each team brings in this year. For example, Texas signed the most number of VHT's (22) and HT's (6) combined with 28 while Ohio St (20) and Alabama (19) were #2 and #3 in VHT signings. This is also a nice quick way to compare how your favorite team did in the recruiting wars vs other conf foes. For example, Arkansas St signed 3 VHT players while the rest of the Sun Belt only brought in 4 other VHT players combined! To check out how your team did on our overall recruiting ranking see pg 307.

A quick note about the players in my write-ups. Sometimes on the offensive line I will mention that a player was a top-notch wrestler in high school. To me, a top wrestler has very good body control and athleticism which makes for a quality lineman. I also list when a player is from Canada. I do this because not all of the recruiting services cover Canada so those players are generally rated lower in the PS#'s than their U.S. counterparts. Many times the top player out of Canada is an NFL prospect but only has a PS# around 150 or 200. Therefore, they are often more talented than their PS# would give them credit for.

On page 305 are all of this year's top freshmen and JUCO's. By the end of the year, many will have played and some will already be stars. If you like this type of information, you will love my 2007-2012 Complete Freshmen Recruiting Report. It is just $15 and lists all of the top recruits for all of the different positions over the last 6 years.

CONFERENCE BY CONFERENCE 2012 RECRUITING RATINGS

Here are my 2012 recruiting rankings for each conference. They take into account the strength of the Top 5 signees, the Top 10 signees and the average signing grade per player for the overall class. This list is not about the quantity of the recruits signed but the overall quality of the class. Sometimes a team with a small class of just 15 players may rate higher than one with 30. This year's #1 and #2 classes are perfect examples of that with Florida St coming out on top despite signing only 19 players. HC Jimbo Fisher continues to impress on the recruiting trail nabbing the Seminoles' 2nd straight Top 5 Class and their highest rating since 2002! Here are some interesting notes on this year's signing ratings. It is USC's 11th straight year as the top class in the Pac-12. The defending champion Crimson Tide rank in my Top 5 for a 5th consecutive year while Texas signed their 14th straight Top 10 class! Stanford signed their best class in the history of my ratings coming in at #7! Obviously, recruiting rankings are a good tool to predict a team's future success, but are clearly just a part of a team's success. A good example of this is Virginia Tech, which has won 3 ACC Titles the last 5 years despite finishing no higher than 4th in the conference or #24 nationally since 2007 in recruiting rankings. The rankings for Air Force, Army and Navy are not complete because the service academies do not release official signee lists until summer (and even then most recruits head to prep schools). I hope your favorite team did well in the recruiting wars.

For Better or for Worse

By Phil Steele

Close Wins, Close Losses

Give me a computer full of NCAA football statistics and an entire offseason and I'm always going to try and uncover something new. A few years ago I was thinking, What happens if a team was fortunate and won a lot of close games? I figured that those teams would probably not be as fortunate the next year. On the flip side, teams which suffered a lot of close losses the previous year, would be undervalued. A few years back I did the research from the previous six years and logged in all of the teams that had close wins and close losses (games decided by a td or less) the previous year. I then ranked the category by NET close wins and losses.

For example: In 2007 Hawaii benefited from 5 close wins with 0 close losses. Therefore, they had a total of 5 NET close wins. Also, Tennessee had 4 close wins and 1 close loss for 3 NET close wins. Minnesota, had one close win and 6 close losses for a total of 5 net close losses. I have now run the records for each of the past 10 years to see how the teams did and I'm pleased to report the trends came up just as expected.

While I use a touchdown or less as the standard for a close win and loss, if there is a late misleading score, I will either include or exclude it accordingly.

Looking back over the past ten years, there have been a total of 255 teams that had 2 NET close losses or more the previous year and of those, just 58 had a worse record the next year, giving this idea a 77% grade. Over the last 5 years there were 26 teams with 4 or more net close losses the previous year and 21 (81%) had a better record. **In '10 Maryland (4 net close losses) went from 2-10 to 9-4!! Last year Arkansas (4 net close losses) went from 4-8 to 10-3.** Memphis went from 2-10 to 7-6 in '07 and in '08 Minnesota went from 1-11 to a bowl (7-6). Illinois went from 2-10 in '06 to the Rose Bowl in '07! A couple of examples from 2006 were Arkansas (from 4-7 to 10-4), San Jose St (3-8 to 9-4) and BYU (6-6 to 11-2). In 2004 Penn St had 2 net close losses and improved from 4-7 to 11-1.

Listed below is a chart analyzing data from the last ten years. The chart lists the total amount of teams that had 2 or more net close losses, how many improved the next year, how many had the same record and how many actually had a worse record. As you can see, the success rate is 77%.

	Total Last 10 Years	Stronger Next Year	Same Next Year	Weaker Next Year	% BETTER or Same Next Yr
Previous Year 4+ Net Close Losses	47	37	4	6	91.4%
Previous Year 3 Net Close Losses	83	58	9	16	80.7%
Previous Year 2 Net Close Losses	125	73	16	36	71.2%
2 or More Net Close Losses	255	168	29	58	77.2%

Here are the teams that had the bad fortune of 3 or more net close losses last year:

	2011 CLOSE WINS	2011 CLOSE LOSSES	NET CLOSE LOSSES		2011 CLOSE WINS	2011 CLOSE LOSSES	NET CLOSE LOSSES

These are the teams that had 2 net close losses: Arizona St, Colorado St, Duke, Fresno St, Hawaii, Louisville, Miami (Oh), Middle Tenn, Mississippi, Nevada, Oklahoma, Temple, UTSA, Western Mich, Wisconsin.

Now let's take at look at how teams performed the season after having multiple close wins. Teams that had 3 or more net close wins the previous year did see their record either stay the same or get weaker 114 of 145 times (79%). Teams with just 2 net close wins, still had a weaker or the same record 201 of 273 times (74%).

	Total Last 10 Years	Weaker Next Year	Same Next Year	Stronger Next Year	% WEAKER or Same Next Yr
Previous Year 6 or 7 Net Close Wins	6	6	0	0	100%
Previous Year 4 or 5 Net Close Wins	48	36	4	8	83.3%

3 or More Net Close Wins	145	102	12	31	78.6%
2 or More Net Close Wins	273	179	22	72	73.6%

Over the last 6 years, 36 teams were coming off a season of 4 or more net close wins and 27 had a weaker record (3 were same). In last years article there were 28 teams that had 2 or more net close wins with 21 having a worse record (3 same). By eliminating the 3 teams that were coming off a non-winning season 19 had a worse record (2 the same) and only 4 improved. LY the defending National Champion Auburn Tigers were off a 14-0 season where they benefitted from 7 net close wins and fell way back to 8-5 in '11. In 2009, Cincinnati benefitted from 4 net close wins and after a 12-1 season plummeted to 4-8 in 2010. In '08 Hawaii led the chart with 5 net close wins and went from 12-1 to 7-7. This year there are 20 teams that benefitted from 3 or more net close wins last year and I list them in the chart below. By looking at the chart above you'll see that in the last 10 years only 6 teams were coming off 6+ net close wins and Kansas St falls into that category this season.

Here are the teams that had the good fortune of 3 or more net close wins last year:

	2011 CLOSE WINS	2011 CLOSE LOSSES	NET CLOSE WINS		2011 CLOSE WINS	2011 CLOSE LOSSES	NET CLOSE WINS
Kansas St	8	1	7	BYU	4	1	3

These are the teams that had 2 net close wins: Arkansas St, Cincinnati, Clemson, Illinois, North Texas, Ohio, Oklahoma St, Purdue, Southern Miss, Syracuse, WKU.

Much like a stock broker, my job is to find value. The same is true in the magazine business and I am very proud of our #1 Most Accurate Title over the last 14 years. I would attribute that Title to the fact that I work on nothing but football 365 days a year and I am always looking to uncover any system or trend that would give me an edge. Here are two more methods for uncovering both over and underrated teams.

YPP Factor

Nine years ago I did an article on ypp and every year there are some solid charts for you to review. First of all, let's explain what ypp is exactly. A ypp is simply **yards per point**. An offense is more efficient when their ypp is a **lower** number. If a team had an offensive ypp of 10.0, that would mean for every 200 yards they gained, they scored 20 points. Meanwhile, if they had an offensive ypp of 20.0, then for every 200 yards they gained, they only scored 10 points. On the other side of the ball, defenses want to have a **higher** ypp. Inverting the same thought, if a team allowed 200 yards and had a 20.0 ypp, that means they would allow just 10 points for every 200 yards the opposition traveled, whereas a 10.0 ypp would be 20 points for every 200 yards allowed. When I started this research in 1990, the average ypp for a team was 15.44 and the median was 15.49. It surprises me how much the median has dropped inside this decade.

OFFENSIVE YPP • PREVIOUS YEAR SINCE 1990

PREV YR YPP GREATER THAN	Happen Times S/1990	Stronger Record Next Yr	Same Record Next Yr	Weaker Record Next Yr	BETTER Or Same S/1990
22.3	**27**	**26**	**1**	**0**	**100.0%**
20.3	75	57	5	13	82.7%
18.4	192	134	21	37	80.7%
17.5	302	221	26	55	81.7%

The teams that fall into this category this year are:
New Mexico 24.68, Akron 19.61, FAU 19.26, UAB 18.05, Middle Tenn 18.03, Penn St 17.73, Colorado 17.52

Last year the avg was just 14.4 and the median was 14.2. I found teams that have a high offensive ypp (move the ball but do not score) the previous year generally have a stronger record the next season. Let's look at teams that had an unusually high ypp the previous year (an inefficient offense). If you look at the chart above you will see that 27 teams have had a ypp greater than 22.3 since 1990 and ALL 27 have had a stronger or identical record the next year. Wyoming who was the last team over 22.3 (23.35 in '08) went from 4-8 to a bowl. In '10 Miami, Oh was atop the chart at 22.04 and went from 1-11 to 10-4!! As you can see, the chart goes to 17.5 which still has a solid success record, as teams will either have the same or a stronger record 81.7% of the time. Last year 6 teams received mention in this box and only one had a weaker record last year with the other 5 going from a combined 13-60 in '10 to 18-55 in '11.

OFFENSIVE YPP • PREVIOUS YEAR SINCE 1990

PREV YEAR YPP LESS THAN	Happen Times S/1990	Weaker Record Next Yr	Same Record Next Yr	Stronger Record Next Yr	WEAKER Or Same Record S/1990
11.56	117	70	16	31	73.5%
13.56	763	450	64	249	67.4%

This year's teams that fall into the top category are:
LSU 9.94, Kansas St 10.61, Wisconsin 10.64, TCU 10.78, Boise St 10.88, Oklahoma St 11.21, Stanford 11.34, Oregon 11.35, Toledo 11.40

Teams that had an extremely low ypp the previous year usually have a weaker record the next season. The statistics are not as dominant as the high ypp, probably because there are some teams that benefit from turnovers on a yearly basis, keeping their ypp low. Still, according to the chart to the right, teams whose ypp were less than 11.56 the previous year had either a weaker or the same record 73.5% of the time the next year. There are a lot of teams that fit into the category of 11.56-13.56, so look on the individual team pages for those numbers. Looking at the history of offensive ypp, these teams have a 67.4% chance of a weaker record this season.

Now let's take a look at the teams under the defensive ypp that were fortunate and not so fortunate last year. As the chart to the right shows, if a team allows a defensive ypp of 13.29 or lower (meaning they gave up a lot of points but not a lot of yds), their record improves or is the same the next year 68.9% of the time. Teams that allowed a lot of yards but not a lot of points are generally considered bend but don't break D's. However as shown below, teams whose defensive ypp was 17.35 or greater the previous year have a weaker or the same record the following year 65.4% of the time. Back in 2007 just 5 fit the 20.35 and higher standard and ALL 5 had the same or weaker record (4 weaker).

There are a lot of teams that fit this category:
Tulane 10.95, UNLV 10.96, Akron 11.10, FAU 11.31, East Carolina 11.67, Kansas 11.80, New Mexico 11.81, Middle Tenn 12.00, Colorado 12.02, Indiana 12.29, Texas Tech 12.37

Of the 375 teams listed in ypp & close wins/losses the last 5 years an outstanding 73% had their record get stronger or weaker, as was forecast by the ypp chart. Over the last 7 years 336 of the 432 teams have had their record get stronger or weaker (or stay the same) as was forecast by the ypp chart for a 77.7% success rate!

DRAFT DAY PARTY HANGOVER

Draft day is an exciting day for many college football players, as they find out which professional team they have a shot at playing for in the future. Many players who will be 1st or 2nd round draft picks have draft parties to celebrate their high selection and the upcoming riches they will receive by signing an NFL contract. Networks often broadcast from high profile draftees' living rooms showing them celebrating when and where they get drafted. College football teams also enjoy draft day, as having players selected to the NFL gives coaches a future recruiting edge. They can then tell incoming high school recruits how many different players they have sent on to NFL careers. The more successful programs will always land the top-notch athletes who seek a pro career.

While there is a lot of happiness on draft day, it can be a precursor for trouble for many college programs. My staff and I went back and researched how teams performed after having a large amount of players selected in the draft. We found almost 7 out of every 10 teams that rank among the top in the NCAA in players drafted struggle the next year and have a weaker record. I call it the Draft Day Party Hangover Effect.

Kendall Wright, Baylor
#1 DC of the Tennessee Titans

Let me explain how I came up with this theory. I have taken the last 15 drafts and analyzed not only the amount of players selected, but also the rounds in which they were selected. Let's face it, there are only 32 players in all of college football who end up being a 1st round draft pick in a season. Replacing a player with that ability is often very difficult. For the system I created, 7 points are awarded if a player was picked in the 1st round. A 2nd round pick garnered 5 points, a 3rd round pick four, 4th round three and a 5th round two. In the NFL there's not much difference between a 6th or 7th round pick and a high quality undrafted free agent signee so I award 1 point to a 6th or 7th round pick. I do not lend a high level of merit to being picked in the last 2 rounds. Using this point system I went back and plugged in the data for the last 15 years' and found some interesting results. I limited my research to those teams that totaled 12 or more points, which makes them among the best in the NCAA.

I do eliminate a team from my list that totalled 12 or more points if that is less than the previous year's total. There is no question some programs turn out numerous draft picks every year and 12 is a low total for some teams. For example, in 2006 Oklahoma "earned" 25 points but did not make the list because in 2005 they had earned 41 points. The 2006 squad was in much better shape than the draft-ravaged 2005 squad and would have been a National Title contender if not for the officiating in the Oregon game. This year North Carolina goes from 31 points lost in the 2011 draft to 12 in 2012 and I will be keeping a close eye on them this season.

In the past 15 years I have gone thru season-by-season and re-capped how the teams that earned 12 or more points have fared. The results have been VERY consistent. In the 15 years there have been 272 teams that have earned 12 or more points while having more points than what they earned the previous year. Of those 272 teams, 179 or 65.8% had a WEAKER record the next season and 25 had the same record (9.2%). Only 68 (25%) managed to improve their record. That means basically 7 out of every 10 teams that earn 12 points or more in the draft will have a weaker record the next year. The best year for this system of NFL Draft Hangover was 1998 when 18 of the 21 teams had a weaker record the following season. I will give you a couple of examples and then fine-tune the system even further to reveal systems that have hit 87.5% over the past 15 years!!!

I will now review these results for you year-by-year. Here are some examples of the teams that earned 12 points and how they have done from one year to the next. In **2002,** Stanford (14 pts) went from 9-3 down to 2-9 and BYU (14 pts) went from 12-2 in '01 to a losing record of 5-7. In **2001**, Oregon went from 11-1 (BCS bowl) to 7-6 after earning 21 draft points. In **2003,** Notre Dame (16 pts) went from 10-3 to 5-7 and Illinois (13 pts) went from 5-7 to 1-11. In **2004,** Mississippi (12 pts) went from 10-3 to 4-7, Washington (17 pts) went from 6-6 to 1-10 and Maryland (14 pts) went from 10-3 to 5-6. In **2005,** Utah earned 14 pts and went from 12-0 down to 7-5. In **2006,** NC State had 26 pts (3 #1 DC's) and dropped from 7-5 to 3-9. A great example in **2007** was when Notre Dame (21 pts) went from 10-3 to 3-9. In **2008**, the 5 best examples were: Ariz St (13 pts), Auburn (18 pts), Kansas (14 pts), Purdue (14 pts) and Virginia (15 pts) as they combined for a 48-17 (74%) record in '07 but fell to a combined 27-34 (44%) in 2008 with 4 of the 5 having losing records! In **2009**, Maryland returned from a successful 8-5 season highlighted by an upset win over Nevada in the Humanitarian Bowl, only to drop to 2-10. In **2010**, Texas was coming off a 13-1 season but after 6 players were drafted in the 1st 4 rounds they dropped to 5-7 for their 1st losing season in the Mack Brown era. Last year defending national champ Auburn (16 pts) went from an undefeated 14-0 season to just 8-5. Ohio St (14 pts) went from 12-1 to 6-7 their most losses in a single season since 1897!

In 2006's magazine I went through the records of teams in the chart and noticed that of the TOP 7 I had listed, ALL 7 had a weaker record in 2006! The 2006 results verified my theory that the more points a team earns (which means the bigger the draft losses), the higher chance they would have of a weaker record the next year. If you go back over the last 15 years, there have been 68 teams that have accumulated 24 or more points. Of those 68 teams, 55 had a weaker record the next year (2 had the same record). That means 57 of the 68 teams (83.8%) failed to improve their record the next year after earning 24 or more draft points. Here are some notable losers from this segment of draft casualties. In 2001, Wisconsin (29 pts) went from 9-4 to 5-7. In 2000, Michigan St (24 pts) went from 10-2 to 5-6. West Virginia was 8-4 in 1998 but after earning 26 points dropped to 4-7 in 1999. In 1997, Colorado (24 pts) went from 10-2 to 5-6. **Alabama, Stanford, LSU and Illinois are the teams that have 24 or more points for 2012.**

In 2004, Ohio St set an NFL record for the number of players drafted in a 7 round draft and, in the process, earned 51 draft points in my system. The Buckeyes went from 11-2 to just 8-4. My next question is, how do the biggest draft losers fare the next season? In the past 15 years there have only been 16 teams that have earned 35 or more points. Fourteen of 16 had a weaker record the next season with the '06 Ohio St Buckeyes and '08 USC Trojans being the only teams to have a better record. The biggest fall from this group was Penn St, which went from 9-4 in '02 to just 3-9. In 2010 Florida had 45 points and went from 13-1 to 8-5. In 2010, I did make one tweak however. Oklahoma had 35 points but TE Jermaine Gresham a #1 pick (7 pts) did not play a single down.

Over the last 15 years teams that earned more points than the previous year and accumulated....

12 or more points - Weaker or same record 204 of 272 (75%)
24 or more points - Weaker or same record 57 of 68 (83.8%)
35 or more points - Weaker record occurred 14 of 16 (87.5%)

With that in mind for the 2012 season, there are 22 teams that earned 12 points or more from their losses in the NFL draft. There are 7 teams on that list for this year that have LESS points than last year including Wisconsin (22), Georgia (17), USC (17), Miami, Fl (16), Iowa (16), Clemson (16), and North Carolina (12).

One thing I pointed out in past years is that the National Champ does have a good shot at appearing on these lists. In the past 15 years there have been 16 National Champs (LSU and USC were co-champs in '03) with 13 of the 16 having earned 12 or more points in the draft the previous year. The exceptions were 2006 Florida (7 pts), 2008 Florida (11 pts) and 2010 Auburn (7 pts). The two teams that overcame the biggest draft losses and still managed to win a title were the 2001 Miami Hurricanes, who had 34, and the 1998 Tennessee Volunteers (32). Eight of the 16 actually earned 20 or more points in the draft loss category.

According to past history, in reviewing the 15 teams in the box below, only 3 or 4 will manage to improve their record this year. As I mentioned earlier, the National Champ is very likely to be on the Draft Day Hangover List and last year's Champ Alabama is on top.

2011 SPECIAL TEAMS RATINGS

In the text of the team write-ups, I have ranked each special teams unit. I devised a formula, which takes into account net punting, kick returns, punt returns & kick return defense. The total opportunities each team had was also factored into the equation. For an example, LY Akron punted EIGHTY FOUR times and returned only 11 punts all year. Their net punting average was weighed 7.6 times as much as their punt return average ranking due to the difference in attempts. I also have a net td/blk's category. A negative number means a team allowed more blocks & td's than they garnered. A positive number means that they blk'd more kicks and scored more td's than they allowed. If a team blocked a punt AND returned the same punt for a td, I only give credit for one td/blk. However, if a team fumbled a punt snap and the other team recovered I counted that as a blocked punt. I do not count blocked FG's in the category as a missed FG has the same result and is not a game-changing play. The only time I count a blocked FG is if it was returned for a td.

A few years ago I added a formula to grade the kickers taking into account 6 categories. The first was overall accuracy and that % was multiplied times 5 (everything graded on a scale of 1-5). Then I took the amount of FG's made and divided it into the largest amount of FG's made in the NCAA and that percentage was multiplied by 5. Each counted for 30% of the overall grade. Then I factor FG's from 40-49 yds (both # of kicks and %) and did the same and they counted for 30% of the grade each. I then factor FG's of 50+ yds and they counted for 10% of the grade. In 2011, I improved the formula even more by deducting for each miss. A kickers grade would be hurt more by a missed shorter FG and much less if the miss was from 40-49 yds. I also gave no penalty for FG's that were missed from 50+ because I felt that a very long made FG benefits a team but a miss doesn't negatively affect them. A 50+ yd FG with the exception of right before the Half usually means you have an elite kicker.

Up until LY my KR Defense grade included a formula for TB's on kickoffs. It graded a TB as a 12.5 yard return (avg KO goes to the 7.5) and an OOB KO as a 30 yard return so my numbers differed from the schools in that column. For 2011 I also upgraded my KR and KRD by incorporating the net KO. This number gives me a much more accurate assessment of a team average starting position. Two examples from 2011 on why this is far more accurate are Toledo and UTEP. The Rockets dynamic KR Eric Page avg'd 31.1 per/KR with 3 td's in 2010. Teams refused to kick to him LY and Toledo only avg'd 19.2 per KR (#111 FBS) BUT they had the 6th best avg starting field position (31 yd line) as their opponent's had short KO's (55.4). On the opposite end the Miners avg'd 26.3 per KR (#4 FBS) but in the thin air opponents had 24% of their KO go for TB's. UTEP's opponents averaged 65.0 per KO making the Miners' average starting position the 27 yd line, which was #52.

As you check out your favorite team below, I've included the K ranking (1/3 of grade) as well as the ST ranking (2/3). I want to give you a reference as to what the #60 team of 120 teams did in 2011 NCAA ratings. Net Punting (36.5, 36.4 in '10), Kick Return Offense (21.8, 22.0 in '10), Punt Return Offense (8.4, 8.2 in '10) and Kick Return Defense (21.6, 21.4 in '10).

PHIL STEELE'S DRAFT GUIDE

On Page 1 of the magazine, I thanked you for your purchase of my *Phil Steele's College Football Preview* and you really do have my heartfelt appreciation for that!! I could have also noted the additional bonus you receive in my 2012-'13 Draft Guide, as it is basically included in the magazine! Let me explain:

In the front of the magazine I list my Top QB's, RB's, WR's, etc. for each season with a heavy emphasis on who I think will be taken in next year's draft. On this page are 165 players from my 2011 All American Team. Overall 99 players were drafted, 28 opted for another year of College Football & 38 players went undrafted. However, 33 of those 38 undrafted free agents or UFA's were signed by an NFL team (86.8%).

In the past four years 59 of 66 WR's were either drafted or signed as a UFA with a team (89.4%). In that span 49 of 61 DT's (80.3%) and 28 of 35 ILB's (80.0%) were also given a chance by an NFL team to continue their dreams. Also since 2009, no DT's, OLB's or CB's listed on these pages have not been given a chance to continue their careers in the NFL.

Over the past 9 editions of this page of "Tops" there have been 1,535 players listed. There have been 1,231 players who were drafted or returned to school (80.2%). There were 232 UFA's (15.1%) signed. Only 72 players listed on these pages were not drafted, not signed as a free agent or did not return to their schools (4.7%). That's 95.3% of players listed finding a home!!!

2011 PASS EFFICIENCY DEFENSE RANKINGS

Here are my rankings for pass efficiency defense. Taken into account are total yards, td's, int's and completion % just like the NCAA does. **THE KEY DIFFERENCE between the NCAA pass D rankings and mine is that I factor in the strength of opposing pass attacks.** When looking at teams I have ranked higher than the NCAA you'll find 4 of the 6 largest differences are from Pac-12 teams in Stanford (+37 spots), UCLA (+34 spots), Washington (+33 spots), and California (+23 spots). The Huskies, as an example in 2011, faced this year's #1 and #2 draft picks in Andrew Luck and Robert Griffin III, next year's potential #1 pick in Matt Barkley PLUS 4 additional top 20 pass offenses (#3 Ariz, #9 Wash St, #12 Hawaii, #19 Oregon St). On the flip side 6 of the 12 teams with biggest differences that I have ranked lower compared to the NCAA are from the MAC whose level of QB's can not compare to the Pac-12. The biggest difference is on Temple (-26 spots) followed by Miami, Oh (-22 spots), Western Michigan (-21 spots), Eastern Michigan and Kent St (-19 spots) as well as Northern Illinois (-17 spots). BCS teams also can play a schedule loaded with under-performing pass attacks. Wisconsin is that example from 2011 as the NCAA ranked them #35 in pass eff D while they finished 26 spots lower in my rankings at #61. The Badgers' opponents averaged #83 in passing offense as they faced just ONE team in the top 40 and that was Oregon St with a QB making his first road start while lining up against 6 teams that finished #91 or worse in the NCAA pass rankings.

Let me show you a couple of overrated and underrated secondaries on the NCAA pass D chart from the past few years. **Army was 3-9 in 2007 but ranked #16 in the NCAA pass D rankings.** One of the main reasons is they only allowed 190 ypg passing. Another reason is that teams ran the ball at will on them, as they were #117 in rush D. When teams did pass they allowed 64.6% completions and a 12-7 ratio. Another reason they allowed just 190 ypg was their opponents. Air Force and Navy were last and second to last in pass offense as both ran the option. Rhode Island also ran an option offense and had the #110 pass offense of FCS teams (out of 116!). They also faced the #76 pass offense of Arkansas St, #73 Temple, #100 Akron, #84 Wake Forest, #89 Tulane and #98 Georgia Tech. They only faced 3 other teams that ranked in the top 70 in pass offense all season. Those three teams hit a combined 90 of 126 (71.4%) and 349 ypg! **Does this sound like the #16 pass defense in the country? My pass D rankings had Army at #100!!!**

Florida St finished 9-4 in 2008, but their #26 finish in the NCAA pass efficiency D rankings was definitely misleading. Florida St's opponents only completed 51% for 162 ypg, but the Seminoles faced the #113 set of opposing QB's and still allowed a 15-9 ratio. They faced NONE of the top FBS pass offenses (#58 Clemson was the high), played 2 FCS teams (#60 and #99 in FCS rankings) and faced the #116 ranked pass offense of Georgia Tech and #111 Virginia Tech. FSU's pass D was obviously overrated in the NCAA rankings as they finished #60 in my rankings.

Oklahoma finished 12-2 in 2008 and went to the BCS Title game, but finished #46 in the NCAA pass D rankings. They allowed 252 ypg passing but that came against the 7th toughest slate of opposing QB's. The Sooners faced 8 of the top 17 QB's in the NCAA's pass efficiency rankings. The Big 12 was loaded at QB as OU faced Heisman runner-up Colt McCoy (#3, 3859 yds), Zac Robinson (#5, 3064), Graham Harrell (#8, 5111), Chase Daniel twice (#10, 4335), Joe Ganz (#14, 3568), Todd Reesing (#17, 3888) as well as #1DC Josh Freeman (#34, 2945), all in conference play. They also faced the '07 Heisman winner Tim Tebow (#4, 2746) in the Title game. The Sooners only allowed 55.4 % comp with a 22-19 ratio against a star-studded class of QB's. **Clearly, the Sooners were better than the #46 pass defense in the country and my PDR ranked them #11.**

Listed below are the raw numbers for the 2011 season as well as my final grade, taking into account the strength of the opponent faced. Last year I added where each team was ranked in the NCAA and there are 8 teams that have a difference of 24+ positions. If you would like to get my PDR updated weekly, go to **PhilSteele.com** on Friday and get my current pass D rankings which take into account the strength of opponent faced, **FREE**.

THE MOST ACCURATE PRESEASON MAGAZINE THE LAST 14 YEARS!

The Stassen site is so complete that it keeps tabulations of how the magazines have fared in each of the past seasons and also has charts based on the past 3, 5 and 10 years. It even has an all-time chart which rates just the 4 magazines that have been around from 1993-2011. Steele's magazine did not get placed on the all-time list because it was not around until 1995. It did however come up #1 overall in the past 14 years (1998-2011) in the category of Prediction Accuracy. The accompanying table shows the complete results.

In 2010, Phil had projected USC and North Carolina higher than most magazines but in the summer USC was hit with major NCAA sanctions and North Carolina saw 13 of their best players suspended for parts or all of the season. Last summer Phil picked Ohio St to win the Big Ten Leaders Division but after his magazine went to press it was announced that Jim Tressel would resign as head coach and QB Terrelle Pryor would not play a single down. Also relevant to his Big Ten predictions was that former NC State star QB Russell Wilson had not chosen to transfer to Wisconsin yet which would have made the Badgers his favorite to win the conference.

Nonetheless, Phil still had one of his stronger finishes and as the above chart shows, over the course of time only one magazine consistently stands apart from the pack when it comes to accuracy and that is Mr. Steele's.

Prediction accuracy is just one aspect that makes Phil's magazine the best of the bunch. Living in today's information age everyone wants team schedules, stats, depth charts and previous results immediately right at their fingertips. Look no further. Phil's magazine has everything you need to become an expert on all 124 FBS schools!

While many of the magazines on the newsstands have 500-1,000 word write-ups on the major schools, Phil's jam-packed guide delivers with more than 2,000 words on every single school and that does not even count his pages with the schedules, stats and results!

When I hosted and produced sports radio shows in the past, there was only one magazine that was at the side of each and every producer and host not only during the summer months but throughout the entire season....*Phil Steele's College Football Preview.*

It's nearly impossible for anyone not named Phil Steele to have a legitimate grasp on all the teams across the country so when a caller would call into a show asking about a random team or player; time and time again Phil's magazine came through making everyone seem more like an expert than what they really were. Trust me, while it is tough to admit that "dirty little secret" in the radio business anyone who has hosted a radio show knows that Phil's magazine has helped numerous times with random college football questions.

Need some examples? How about a team's overall record from the past 10 years or the results of a team's last 5 bowl games? Phil has it covered. What about the number of rush yards a team had in any individual game from a year ago? Steele comes through yet again. What about a mini-bio on each and every player in the projected starting line-up? You guessed it, Phil Steele to the rescue.

Accuracy and information are not the only variables that makes Phil's magazine cutting edge. Before cell phones and texting even became a fixture in our every day lives, Phil was "Mr. Abbreviation" before it was even cool to be. How else could you get so much information onto a single page?

By now everyone knows what OMG and LOL stand for but what about KD? Knockdowns. How about TFL? Tackles For Loss. VHT? Well, that's a Very Highly Touted recruit. All of these can be found in Steele's magazine that comes with a handy reference table (pg 3) with more than 150 abbreviations. While the casual fan of college football may find these acronyms somewhat hard to digest, the end result is having the most complete publication and reference source for anyone who loves college football.

When it came time to decide what I really wanted to do with myself after college, I wanted to pursue a career in my greatest passion and there was no better person I could think of to learn this business from than Phil Steele.

Leaving a radio job that I loved and moving to a city away from my family and friends was the hardest decision of my life. But there is not a day that goes by where I do not thank my lucky stars for getting a chance to be a part of greatness and one of those seemingly unbeatable sports streaks. I look forward to writing or reading an updated version of this article in 5, 10 or maybe even 20 years from now and there is no doubt in my mind that Phil will still have the tag of "most accurate" college football magazine.

While some records were meant to be broken, others live forever!

#1 FOURTEEN STRAIGHT YEARS!!

by Brandon Pertner

Oklahoma's 47 game win streak, Florida State's fourteen straight Top 5 finishes, Joe Paterno's 409 career FBS wins; there are many college football records that may never be broken and when it comes to preseason publications one magazine is in the midst of a seemingly unbreakable streak.

Phil Steele's College Football Preview magazine is not only the most informative on the market today but for 14 straight yrs it has held on to the title as the #1 ranked college football magazine as determined by an independent website uncorrupted by subjective opinion.

Stassen.com features a two-pronged survey developed by Chris Stassen. First, he rates preseason football publications using several different variables including prediction accuracy, information quality, information quantity, recapping information and price blending them into a complex mathematical formula.

Each magazine is then graded on a scale of 1-80 with 80 being a perfect score. Like clockwork, Phil Steele's blows the competition away every year in this mathematical review. Last year was no exception, with an overall score of 78!

Then after the season is complete, Stassen grades each publication on the accuracy of their predictions which ultimately determines "the most accurate" title. If you check the records on the next page you will see that once again Phil is the #1 most accurate over the past 14 years and it is by a good-sized margin!

The survey began in '93, two yrs before Phil's first publication and Phil didn't even know about Stassen's site until he stumbled across the survey on the internet in '97. Not that the slow start has deterred the decade plus run of dominance in the standings.

In that first year, Phil finished sixth among the competition which was heavily influenced by his below average performance in prediction accuracy. While most would have been content with that solid finish, Phil was bothered by the results because he knew that his preseason Top 25 identified more bowl-bound teams than his competition did. But the drawback in this scenario was that Stassen's assessment was based on final conference standings.

Phil's ratings, on the other hand, were geared toward how the teams would finish according to their overall regular season records. For example from that first year, Phil forecasted that Cincinnati would finish with a stronger overall record than East Carolina. The Bearcats finished 7-4 that year and East Carolina went just 5-6. While Phil's predictions were correct, the Stassen ratings took into account their conference record and East Carolina was 4-2 in CUSA play while Cincinnati finished 2-4 which ultimately hurt Phil in the ratings.

Again, while most people of Phil's stature may have called Stassen on the phone and told him to rethink his formula, Phil respected the integrity of the ratings and decided to tweak his publication in accordance with the Stassen competition. This not only meant adjusting his forecasts to the Stassen style but also adding teams to better satisfy the yardstick of information quality.

For example, in 1995, his first annual had write-ups on 88 teams. By 1998, his list of teams included all programs in Division IA with the smaller schools initially getting a summary paragraph. By 2002, he was up to 117 teams and expanded the content to two full pages on every Div 1A team. Now, there are 2 full pages on all 124 FBS teams and the amount of information jam-packed in those pages almost feels like 124 different media guides with one for each team.

After adjusting his ratings Phil finished fifth in 1998 and the margin separating the top 5 was slim. However that fifth place finish served as extra motivation for Phil in the future and he and his college football "Bible" have never looked back.

Since 1998, Phil is tops in overall score and before I get into how each point total is calculated, keep in mind the lower the number the better the score, similar to golf. In the past 14 years Phil's overall score is 1,957. The closest magazine to him, is *Athlon* at 1,990 which is nearly five touchdowns away!

Now, let's break down the point system for a clearer picture. Stassen tabulates each publication's forecasting accuracy by comparing the predicted finish with the actual finish of each team in each conference. In cases where two or more teams shared a placement by finishing with identical conference records, the score for that team is derived from the most favorable to the predictions of the tied positions.

To better illustrate, take a look at the final standings in the SEC East last season. Had you picked up a copy of Phil's preview nearly seven months prior you would have read that Georgia was his #3 Surprise team in the country and his surprise favorite to win the SEC East since they avoided the top three SEC West teams in Alabama, LSU and Arkansas. After just two games Georgia stood at 0-2 including a home loss to South Carolina where the Gamecocks benefitted from three non-offensive td's. Many across the country were ridiculing Phil for his prediction. Those doubters should have kept quiet for a little longer as the Bulldogs, taking advantage of that fortuitous schedule, would go on to win their next 10 games to take home the SEC East crown!

TOTAL POINTS	**3**	**5**	**7**	**5**	**5.5**	**6**	**3**	**5**	**7**	

The official breakdown, in the end, went like this: Georgia (7-1), South Carolina (6-2), Florida (3-5), Vanderbilt (2-6), Kentucky (2-6), and Tennessee (1-7).

While no one is perfect, in this instance Phil flirted with perfection for the entire division! Phil was one of very few publications to correctly pick the Bulldogs to take home the crown instead of defending East Champ South Carolina and in fact Phil was one of only two publications (GamePlan) to nail all three of the top SEC East teams in the correct order!

In the end, Phil called five of the six SEC East teams within one point of their actual finish! He closed the division with only three total points matched only by *GamePlan*. The rest of the competition? No one better than five points, and as bad as seven.

Let's use even a better example to show Phil's accuracy dominance. The Pac-12 South was an interesting division to predict last year as USC was ineligible to play in the Pac-12 Title game but the Trojans would still be counted in Stassen's formula.

The final standings were: USC (7-2), UCLA (5-4), Arizona St (4-5), Utah (4-5), Arizona (2-7) and Colorado (2-7).

Phil dominated the competition correctly projecting every single team in the division within a single point of their finish including correctly projecting the Trojans to take home the standings title. Phil's 2.5 total points for the division was an incredible double, or 2.5 points better, than the 2nd place finishers and one publication had a total of 10 points.

To get a total score for each magazine, Stassen tabulates all of the conferences and then creates the overall standings based on accuracy. There have been many years in which the difference between the top and bottom tiers are minimal. Last year Phil was just one point away from taking home yet another season title among the preseason publications finishing with 148 total points which was second to *GamePlan* who finished first with 147 points. Phil did widen the gap on his overall 14-year total score over 2nd place Athlon by an additional six points but knowing Phil like I do any season where he doesn't win the season accuracy title is considered a disappointment.

One thing that has hurt Phil over the past couple of seasons is the fact that he sends his magazine to the press in mid-May so it can be on the newsstands come the first part of June while some of his competition has later deadlines. The past two summers have produced major off-the-field news in college football which have directly affected Phil's accuracy finishes.

2012 NFL DRAFT A DAY FOR VHT'S!!!

By Phil Steele

The NFL Draft is always a big day for the top graduating seniors, some high-quality juniors and a few sophomores in college football. It is the chance to move on to the NFL and make a living playing the sport they have participated in for most of their lives. For first round draft picks it means millions of dollars and sudden wealth. Colleges benefit by having former players being drafted highly as it allows them to use it to attract future recruiting classes. While lower round draft picks do not make millions, everyone has the potential to make a substantial income and that is why a big final year in college is very important.

Being a first round draft pick does not guarantee success. The NFL has lots of stories of first round "busts" over the years, players who never lived up to their potential due to injuries or just poor performance. Every franchise has had a #1 pick who never panned out or who never even started an NFL game. However, the majority of 1st round picks do make it big and have an impact on their team and the NFL. For the second year in a row the top two picks in the NFL Draft won the Offensive/Defensive Rookie of the Year Awards in 2011. Cam Newton (#1 pick) had arguably the best rookie season ever with 4,051 yds passing while completing 60% of his passes and scoring 35 total td's. Von Miller (#2) tallied 11.5 sacks for a defense that had just 23 in 2010 and became just the second DEN rookie to reach the Pro Bowl. AJ Green (#4) was the 1st rookie WR to reach the Pro Bowl since 2003 while Patrick Peterson (#5) was named to the All-Pro team for his special teams work.

How does a player get to be a first round draft pick? A good starting point in determining a player's grade coming out of college is how that player performs on the field. In most cases, you must be among the most productive players in the college game. However, productivity is not the only criteria. Case Keenum became the NCAA's leader for career passing yards (19,217), completions (1,546) and TD passes (155) in 2011 with the Houston Cougars. However, he went undrafted and signed with the Texans. Kellen Moore owns the FBS record for wins by a QB (50) but signed with the Lions as a UFA.

NFL scouts concentrate primarily on a players' size, speed and strength ratings. A player could have a great senior year, but if his performance in the 40 yard dash is disappointing, he could drop a round or two in the draft. If a player shows up at the NFL Combine out of shape, he probably cost himself a large chunk of money in his contract, as he will be drafted lower than expected (Alabama OLB Courtney Upshaw). It's all about how many reps a player can do at 225 pounds in the bench press and other measurable physical characteristics.

Even after all the number crunching, there are plenty of stories about players who were very late round DC's or not even drafted who went on to have great success in the NFL. Seahawks WR Doug Baldwin became the first UFA WR to lead his team in both receptions and yards since 1960 when the Oilers' Bill Groman did it. Broncos CB Chris Harris was the only UFA to make the team in 2011 as he locked down the nickel DB spot. He finished 4th in tackles for the team and allowed just 1 TD pass during the regular season. These stories are great, but the majority of the stars in the NFL are the players who were graded high enough to be upper round draft picks.

Colleges do not have a draft of high school players, but every school is given an allotment of scholarships and has to recruit players from around the country to fill their needs. Most high school athletes will take the big name schools' scholarship offers over the smaller ones. If you are lucky enough to have Alabama, Ohio St or USC offer you one of their precious 15 to 25 scholarships, you usually jump at it. Many non-BCS schools do not even bother to recruit most of the top athletes coming out, as they really have little chance to land them (unless it's a local prospect).

Since there is no draft, how do you rate players out of high school? I rely on some great recruiting sources & have a computer rating system that ranked over 13,000 high school & junior college players this season. I then assign every player a PS# which shows how highly rated each player is out of high school or JC. I have an entire page devoted to how I determine a PS# (see page 304).

I have come up with my own terminology for the players' ratings out of high school on that page. An HT (Highly Touted) is a player who is rated highly at his position. Out of the 13,000 or so kids who are on my list coming out of high school, the top 1,660 fall into the HT category (about 12.5%). A VHT (Very Highly Touted) is similar to a first round draft pick. There are only 535 of these players each year (4.1%), with varying amounts at each position. That comes out to just 10.7 players per state, so we are talking about the crème de la crème of recruits.

Brian Orakpo (PS#45DL) originally went to Texas to play basketball and weighed 210 lbs. The former Longhorn DE (4.6 spd) now benches 515 lbs and can squat 600 lbs. He won the Lombardi, Nagurski and Hendricks Awards and was drafted 13th by the Redskins. Orakpo would go on to lead NFL rookies with 11 sacks in 2009. When a player moves into a college program, he benefits from vastly upgraded weight rooms and nutritional programs. Players will show much greater gains in size, speed and strength in their 3 to 5 years in college than they do once an NFL team drafts them. The recruiting ratings are not an exact science. However, much like the NFL, you will find that the most sought after kids out of high school usually turn out to be the stars of the college game. There are many cases of VHT players stepping in and starting in their true freshman seasons.

This year, I once again look at the end product of the college game. In early May, after the 2012 NFL Draft was complete, I went back and looked at the PS#'s of all the top picks. **What I found was that 2012 was yet another very deep draft for VHT's!! Looking back, 17 selections were VHT's with 11 of those going in the Top 17.** For 2011, 21 draftees in the 1st Round were VHT's with 12 being in the Top 15. In 2010, 21 of the top 30 players were VHT's, with 13 of the top 16 draftees (81.3%) being VHT's!! In 2008 and in 2009, 14 of the top 23 players were VHT's. In 2007, 21 of the top 27 players were VHT's (78%). There are around 3,000 players who are signed to a scholarship by FBS schools each year. Since there are just 535 players who meet my criteria for a VHT, that means that roughly 18% of all signees are classified as a VHT. In the last 13 years, 100 of the 156 top 12 picks in the draft have been VHT's!! That means 64% of the top spots were VHT's which proves the significance of the rating. Here is a list of this year's Top 32 NFL Draft selections and how they were rated out of high school. As you can see, the 2012 NFL Draft was another VHT day.

It will be interesting to see if VHT's dominate the 2013 NFL Draft as well. Over the last 12 years I have provided my list of top players for the upcoming NFL Draft. In 2008, two of my 32 projections came out early and were taken in the 2007 Supplemental Draft (LT Jared Gaither and CB Paul Oliver). Of the remaining top 15, 8 were 1st RD DC's and 3 were 2nd RD DC's. For 2009, 11 of the top 12 were drafted in the 1st (8) or 2nd (3) rounds, 17 players were selected in the 1st or 2nd round and 24 of 32 were drafted overall with 7 players returning (1 UFA). Of the 32 players I listed, 75% of them were either a 1st or 2nd round pick or opted to return for 2009.

In 2010 there were seven 1st RD DC's and four 2nd RD DC's in the top 11 picks. Overall 21 players were taken in the 1st (14) or 2nd (7) RD's with another 2 players (Mark Herzlich and Marvin Austin) returning for 2011.

My 2011 projection had 25 of 32 players being either a 1st RD DC (14), 2nd RD DC (6) or returning. 2012 was a bit of a disappointment as 21 players were either a 1st RD DC (9), 2nd RD DC (8) or returning. Ten others had also joined an NFL team. Obviously draft positions often will be affected by a player's 2012 performance. Below are my top players for the 2013 Draft:

Congratulations to the 2011 Phil Steele College Coach of the Year

Bill Snyder, Kansas State

Snyder had another successful 2011 season with Kansas State and enters his 21st year overall at the helm. Snyder has an overall record of 159-83-1 and is 60-30 against current Big 12 schools. His 159 wins is 120 more than Kansas State's #2 all-time HC (Mike F Ahearn; 39-12 from 1905-1910)! Last year Kansas State was picked 8th by the Big 12 Media prior to the season but he guided KSU to a 10-2 regular season record (ranked #11 at the end of regular season) and a 2nd place finish in the Big 12. The Wildcats pulled off an amazing SIX upsets during the year!

Kansas State Wildcats HC Bill Snyder was named by Phil Steele as the 2011 Collegiate Coach of the Year.

FOOTBALL 365 DAYS OF THE YEAR!

NCAA EXPERIENCE CHART

For 7 years I had listed an experience chart which broke down the number of Seniors, Juniors, Sophomores and Freshmen each team had in the two deep and rated the teams experience level with a formula I devised. In 2009 I made the experience chart FIVE TIMES better. I had just listed the Senior starters, and the seniors in the two deep and the points accumulated by using the old system. In the chart listed below I have now included 4 other factors. The 2nd factor listed is the % of lettermen returning. I devised a point system for this and go into it in depth on page 338. The next part that was added was the % of offensive yards returning. I took the total yards passing, rushing and receiving for each team and added them up and then got the stats for just the players returning and the yards returning % listed below is that figure. I did the same with the total tackles from last year and the % of tackles returning. This gives us an idea of the defense's experience. The final factor is the career starts returning for the offensive line. These players are not included in the stats but are a vital part of any offense. I then devised a formula that factors all 5 into the total points equation and then turned the point total into a number from 100 to 0. A 100 would be a team with 25 seniors (NCAA scholarship limit) in the two deep and every yard and tackle returning and 120+ career OL starts. A 0 would be a team with no experience and 0 seniors in the two deep. Just like in years past the first number is where each team ranks in the NCAA. This list reflects the realignment as well as the addition of the four teams coming up from the FCS to the FBS.

TURNOVERS = TURNAROUND

BY PHIL STEELE

Turnovers can have a huge impact on games and on a team's season. They can also lead to many misleading final scores. During the season **I list all of the previous week's misleading final scores on PhilSteele.com on my Monday Daily Blog.** By reading about them each week you can uncover some underrated and overrated teams throughout the season.

Here is a great example from last year. Utah benefitted from being +5 in TO's crushing their arch rival BYU 54-10 on the road, however the next week they were a 10 point home favorite vs Washington but were -4 in TO's and were beaten 31-14. Then the next week they were -5 in TO's to Arizona St and lost 35-14 at home!

In 2010 Iowa St benefitted in B2B weeks from a combined +8 in TO's beating Northern Iowa and Texas Tech by a combined 79-38. The next week they were even in TO's vs Utah and were pummeled at home losing 68-27.

West Virginia outgained Conn 414-278 and had a 24-16 FD edge but were -4 in TO's and lost 16-13. The next week they hammered Cincinnati 37-10 as a small favorite.

In 2009, Iowa St benefitted from +8 in TO's vs Nebraska and pulled out a 9-7 win. Nebraska turned it over 4 times inside the 5 yard line and lost despite a 362-239 yard edge. The next 2 weeks Iowa St was overrated and they lost by a combined 69-18 vs Texas A&M and Oklahoma St despite only being a slight underdog in each.

In 2008, Ole Miss should have beaten Vanderbilt as they had a 385-202 yard edge but they were done in by being -4 in turnovers. The next week Ole Miss went into the Swamp and dealt the Florida Gators their only loss of the season in a huge upset (+2 in TO).

In 2007, Nebraska was mauled by Kansas 76-39 (-5 in turnovers). The next week they were even in TO's and despite being a home dog to Kansas St they rolled to a 73-31 win.

In 2006, Arkansas was -5 turnovers vs USC which led to a 50-14 loss. I picked Arkansas, which had finished 4-7 the previous year, #13 in my magazine and took some flak for that prediction. Arkansas recovered from that disappointing performance, WON the SEC West and finished #12 in the final regular season poll.

I could list many more examples, but as you can see, turnovers can determine the outcome of a gm. On my website, PhilSteele.com, I have many more examples listed. TO's can not only make a difference in a game but can make the difference between a winning and losing season.

One of the best examples was in 1999 when big turnaround seasons were had by Air Force, Arizona, Tulane and UCLA, which all finished with positive double digit turnover margins in 1998. Those 4 were a combined 46-4 for the '98 season!!! In 1999, those 4 were just 19-26!! Wow, turnovers can indeed equal turnaround. The NCAA's largest single season turnaround happened in 1999 when Hawaii went from 0-12 to 9-4. The Warriors made this article that year as they were -10 turnovers in 1998 but finished +1 in 1999.

More recently Miami, Oh made this article in B2B seasons. In 2010, they were my #1 "Going Up" team coming off a 1-11 season being -24 in turnovers. They finished 10-4 winning the MAC Championship. Last year they were listed as a "Going Down" team with +11 turnovers and as true to the formula fell back to 4-8.

Minnesota also made this article in B2B seasons. In 2007 they were my #1 "Going Down" team coming off a 6-7 season being +18 in turnovers. They finished 1-11 and in 2008 were listed as a "Going Up" team with -15 turnovers. They did rebound and after just one win the previous year finished with a 7-5 reg season and earned a bowl bid.

Last year 18 teams were in the "Going Down" box and only 3 managed to slightly improve their records. The teams with the biggest drops offs were Maryland which went from 9-4 to 2-10 and **Ohio St which went from 12-1 to 6-7, their first losing season since 1988 and their most losses in a single season since 1897 (in fact tied for their most loses ever in a single ssn)!**

In 2010, 11 teams were in the "Going Down" box and only 4 managed to very slightly improve their records. The teams with the biggest drop offs were **Rutgers which went from 9-4 to 4-8** and ended a streak of 5 straight bowls and Middle Tenn which went from 10-3 to 6-7.

In 2009, 17 teams were in the "Going Down" box and only 4 managed to slightly improve their records including Virginia Tech which went from 10-4 to 10-3. The teams with the biggest dropoffs were Rice which went from 10-3 to 2-10 and Oklahoma (12-2 to 8-5).

In 2008, Kansas went from 12-1 in '07 to 8-5 in '08 and LSU went from 12-2 to 8-5, Buffalo won the MAC Title thanks mostly to being +19 in turnovers. They were actually outgained by an avg of 408-370 during the season! Then in 2009 they had 13 returning starters and this time outgained foes 405-343. That means they went from -38 ypg to +62 ypg (100 ypg better) but their record dropped to 5-7 as their TO margin was -7.

In 2007, eleven teams made this article in the "Going Down" box. Of those 11 only ONE (Boston College) managed to improve its record and that was from 10-3 to 11-3. The biggest drop-off was Minnesota which went from a bowl game to just 1-11. Two others went from bowls to losing seasons.

Teams that benefitted from double-digit turnovers the previous year rarely get a repeat of that good fortune. In the last 19 years, 281 teams have had plus double-digit turnovers. Of those 281, 182 have had weaker records the following year (64.8%). Only 65 teams (23.1%) have improved their record and the other 34 had the same record. **Teams with a positive double-digit TO ratio had the same or weaker records 76.9% of the time since 1996.** Also new for the past couple of years is limiting the teams to those that were +11 or more in turnovers. Every team now plays 12 games and most play an FCS team which should increase their TO total so I have raised the number. Listed below are last year's most fortunate teams:

GOING DOWN?

Oklahoma St	+21	Memphis	+12
LSU	+20	Cincinnati	+12
Toledo	+16	Kansas St	+12
Houston	+16	San Diego St	+12
Wisconsin	+16	Wyoming	+12
NC State	+14	Louisiana Tech	+11
Kent St	+12		

Let's take a look at some teams who had terrible luck (lots of turnovers) in one year then drastically improved the next year without those turnovers. Unlike the "Going Down" changes I kept the "Going Down" category at -10 or more because TO's even to an FCS team can cost you a game (VT -3 TO's in loss to James Madison in 2010). **Last year Cincinnati was near the top of the "Going Up" box as they were -15 in TO's in 2010 and finished 4-8. Last year they rebounded in a big way going 10-3 and were +12 in TO's.** Eastern Michigan also made the box with -11 TO's in 2010 going 2-10. Last year they simply achieved their first .500 or better season since 1995 going 6-6! Of the 12 teams that made the box last year only 2 saw their record get worse. The 12 teams were a combined 57-98 (36.8%) in 2010 and improved to a combined 64-87 (42.4%) in 2011.

As mentioned earlier in 2010, Miami, Oh was at the top of the "Going Up" box as they were -24 in Turnovers in 2009. They simply became the FIRST TEAM IN NCAA HISTORY to go from double digit LOSSES to Double Digit WINS! (1-11 to 10-4)!!! Of the 12 teams that made the box in 2010 only two failed to improve their records including New Mexico St which went from 3-10 to 2-10 (1 less FCS foe). The 12 teams in the box were a combined 50-98 33.8% in 2009 but improved to a combined 78-76 51% in 2010!!

In 2009, a record high 17 teams made the "Going Up" box which meant they had suffered negative double digit turnovers in 2008 and were poised to receive better fortune. **Of the 17 teams, 13 (or 76.5%!) had a better record than 2008,** 1 had the same record and only 3 of the 17 (17.6%) had a weaker record. There were SIX teams on that list that went from a losing season to a bowl game! **Those 6 teams were SMU, Idaho, Ohio, Wyoming, Texas A&M and UCLA!!**

In 2008, 13 teams made the "Going Up" box. Of the 13, 9 had an improved record, 3 had a weaker record and 1 had the same record. Ole Miss went from 3-9 to Cotton Bowl champs, Minnesota went from 1-11 to 7-6 and a bowl. Both Northern Illinois and Nebraska improved by 4 wins with the Huskies going from 2-10 to a bowl and Nebraska from a losing record to a New Years Day bowl win!

As previously stated, if a team received bad breaks the year before, they will usually be headed for better fortune the following year. In the past 19 years, there have been 232 teams that have finished the season minus double-digits in turnovers. Of those 232 teams, 159 (68.5%) have had better records the next year! **Teams with a negative double-digit TO ratio had the same or stronger records 81% of the time since 1996.** I have kept the "Going Up" box for teams with -10 or more TO's. Which teams are headed for better fortunes and better seasons?

GOING UP?

SMU	-16	Troy	-12
Notre Dame	-15	Central Michigan	-12
East Carolina	-14	Florida	-12
Fresno St	-14	Iowa St	-11
Bowling Green	-13

Continued from page 17

I finally wrap-up the magazine in early May. My next month is spent going over each individual game for the upcoming year. I look at all the history between the teams, read the last 2 years of past histories for the matchups and then analyze the matchup to see if there are any mismatches (big, strong O-line vs small, weak DL, etc). At this point my staff is hard at work on the FCS magazine which has one full page on all 122 schools. In 2009, we revamped the NFL magazine with 6 full pages on each NFL team in full color (see page 341). It came out even better than I expected with more NFL information at your fingertips than any other magazine and **in '09 I predicted 7 of the 8 NFL Division champs, the best in the country**! There was only one magazine in the country that had New Orleans even winning its DIVISION and that was mine. All others had either Atlanta or Carolina! Last year I had the Patriots winning the Super Bowl and Alabama winning the National Title. The NY Giants ended my bid for a sweep in the Super Bowl game. In June and July, I go through the NFL for the upcoming year and do hundreds of radio shows. Before you know it, it's August and time to start watching the games. I pride myself in being the Most Accurate Preseason Magazine over the last 14 years and there is a lot of information on these pages.

Temple
NT Levi Brown

To help you out a little bit, I will give you a few guidelines on the best ways to use this magazine. I will go over some of the abbreviations and things that you normally do not see in other magazines.

First of all, let's take a look at the player rankings in the front of the magazine. As mentioned on page 313, I feel that you are also getting a quality NFL draft guide with my individual position ratings. These ratings do not always match the conference rankings of the players. This year I will go over a couple of things that stand out. **I have turned the top player rankings in the magazine into a pure NFL ranking. I have eliminated all true and redshirt frosh as well as true sophomores from the list. If you check out my All-American teams you will see WR Sammy Watkins of Clemson who starred as a true frosh. He is on my 1st Team All-American list but not listed under my Top 70 WR's because he is not eligible for the 2013 draft.** You will also notice that sometimes I have a player rated 1st Team All-Conf and yet in the front of the magazine he is listed behind a player whom I list 3rd Team. My All-Conference lists are how I think the players will perform **this year** in college football. The lists in the front are where I think they are **in terms of NFL draft possibilities**. A clear example from 2008 was Texas Tech QB Graham Harrell who was 4th in the Heisman voting throwing for 5,111 yards (71%) with a 45-9 ratio. Harrell was a super college QB and had a tremendous 2008 season but was not drafted! In 2006 Troy Smith of Ohio St took home the Heisman Trophy and 1st Tm AA honors but was not selected in the draft until the 5th round and was the 8th QB taken overall. During the season I got a lot of flak from Ohio St fans about how I had him rated the 10th best QB. I actually may have had him a little overrated at #10 as 3 of the QB's I had listed before him were coming back in 2007! Deep teams like USC actually have 5 or 6 NFL prospects on my list at a position like RB but do not rate highly on the All-Pac-12 Team. The reason is that they split the carries with so much talent in the backfield, and they are not likely to produce a 1,000 yard back unless someone steps to the forefront in the fall and takes over as the feature back. Last year I had Kellen Moore as my 3rd Tm AA QB, but did not have him in the Top 7 QB's below and he finished his extraordinary career and then was not drafted.

Sometimes my overall rankings do not coincide with my conference predictions. This is not sloppiness on my part but rather being meticulous. This year I have Florida tied for first in the SEC with Georgia and list Florida 1st because I expect them to win their meeting in Jacksonville and they will have the tie-breaker and be in the SEC Title game. However, I have Georgia rated higher than Florida in my Preseason Top 40. Florida has to face potentially FOUR Top 5 teams in LSU, Fla St, Georgia, and the SEC West champ. Georgia does not have to face any of the top 3 from the West and would not lose an SEC Title game and therefore would finish higher in the final polls much like 2007 when they did not play in the Title game but finished #2. My conference predictions are based on what each team's record will be in conference play and where they will finish in the final standings. As I mention in the Top 40, my Power Poll Ranking (pg 331) is the overall strength of each team. Sometimes teams will be ranked a lot higher or lower in my Top 40 than the Power Poll ranking. This is due to scheduling.

On each conference page I list unit rankings and I feel they are the best set of unit rankings you will find. Each conference was done by me so they will be more consistent than the other magazines. One area that may raise some questions is the coach's ranking. I take into account years at the program as it is usually a two to three year process for new head coaches to get up to 100% speed at their new school. A new head coach has to learn the strengths and weaknesses of all the players and the players have to learn new schemes on both offense and defense and many times that is a slow process. Listen to any 2nd year HC talk about the upcoming year and he will say they are light years ahead of where they were the year before. Also a new HC sometimes does not mix with the previous coaches recruits and we see a large number of players quitting or transferring over the spring and summer. **I have most first year HC's ranked lower than you would normally think due to this process and then bring them up in the rankings the next 2 years.** In their 3rd year over half the team is their own recruits and that is when I rank them completely according to their coaching productivity.

On the right hand pages for each team I have listed several interesting notes about each series. I have very little space on the two lines provided, so **if a specific stat is given that was produced by a player or a team and the year is NOT mentioned, then it is about last year's game.**

As you can tell by going through the magazine there is very little advertising and as I wrapped this article up I found out I needed one more page in the magazine. One of the pages I wanted to add was an article on starters lost during the year. Remember when Oklahoma won the National Title in 2000? Not a single OU starter lost a single start due to injury! My research has shown that teams that benefited from very few injuries, in this case 6 or less, usually have a weaker season the next year. I go into great detail with a lot of numbers backing up my research at PhilSteele.com.

The bottom line is, teams that have suffered a lot of injuries the previous year will generally have a better year the next season. A lot of backups were forced to play during the injury-riddled year, hence gaining valuable experience and the team figures to not be so injury-prone the next year. **In a study over the last 8 years, my research shows that if a team had 32 or more starts lost to injury the prior season, they improved or had the same record the next year on 62 out of 76 occasions for an 81.6% success rate.** Last year only 3 teams that made this category did not improve and that was North Carolina, Navy and UTEP. How about teams that are really banged up? Well from 2001-2005 12 teams went through seasons of having 40 or more combined starts lost and ALL 12 had the same or better record the next season. It surprises me that 17 teams met that criteria in 2006-'07 but only 7 had a stronger record the next year whil 9 had a weaker record.

In 2008, Utah was at the top of the chart with 51 starts lost to injury and they went from 9-4 to 13-0 and #2 in the country! 2010 was another solid year as 9 teams had 35 or more sts lost to injury in '09 and 8 of the 9 improved or had the same record (88%). Last year 6 of the 9 teams that made the box improved their record. For space purposes I will just list those with the highest amount of starts lost in 2011 due to injuries or suspension. **For a complete list check out PhilSteele.com**.

Most Starts Lost to Injury

1. Maryland (59)
2. Boston College (55)
2. Ohio St (55)
4. Oregon St (54)
5. Toledo (53)
6. Colorado St (52)
7. Army (51)
8. Florida St (46)
9. Memphis (44)
10. Miami, Fl (42)
10. Vanderbilt (42)

Now let's look at the teams that had great fortune with very few injuries. With teams playing a 12 game schedule, I went for the magic number of 6 lost, figuring that is less than one half of one starter lost to injury during the year. Over the past 9 years only 21 of the 64 teams (32.8%) that had this good fortune managed to improve their record the next year. **In 2010 there were NINE teams on this list and ALL NINE had a weaker record with SIX of them bowl teams from 2009 that finished with a losing record in 2010!!!** 5 teams went from 8 or more wins in '09 to losing seasons in 2010. You can get the remainder of the teams on PhilSteele.com right now.

Least Starts Lost to Injury

1. Arkansas St (2)
2. California (3)
3. FIU (4)
3. Virginia (4)
5. Rutgers (5)
6. Houston (6)
7. Northern Illinois (7)
7. South Alabama (7)
7. Temple (7)

PhilSteele.com will have a page updated weekly dedicated to starts lost again this year. We will track each team's starts lost for the 2012 season so you can see which teams are really banged up and those that have remained very healthy. We even include start charts for each of the teams and also update them weekly!

Finally, I told you about most of my "Football Only" months but my most relaxing months are over the summer as those are the months I get to talk to my readers. We will have a list of all the radio shows I will be doing on PhilSteele.com and if you can't talk to me on the radio then you can email me your football questions from the website. I also answer all questions that are posted on my Phil Steele Fan Site on Facebook. I really do appreciate each and every person who buys my magazine and I hope to get the chance to talk with you in the next couple of months!

2011 OFFENSIVE YARDS PER PLAY

It is the era of the fast paced hurry up offense where teams try to run as many plays as possible to put a high stress factor on defenses and wear them down. The Oregon Ducks are among the elite in this philosophy. The amount of plays a team runs on offense depends on its pace, it's 3rd down effectiveness, how quickly the defense gets the other teams offense off the field, etc. This past year the most effective offense was Baylor led by Heisman winner RGIII as they averaged 7.63 yards per play and ranked in the top 10 in total plays run as well. Surprisingly Oregon was just #31 in plays run per game (72.5) but that was due to their effectiveness as they avg 7.21 yards per play (#4) and TD's ended many drives with few plays. Wisconsin was #5 on offense despite being just #84 in plays run and that is reflected by their 7.02 yards per play. The median of offense is 5.58 ypp and the lowest was Kent St which averaged just 3.91 yards per play. This chart shows the raw numbers and the rankings on Yards Per Play, Offensive Plays per game, ypc rush, yards per pass attempt, 3rd down conversions (Wisconsin was #1 LY) and then how the team ranked in total offensive yards per game so you can compare. I have the complete defensive numbers like this on page 333.

JIM THORPE AWARD

The Jim Thorpe Award is one of college football's most sought after and prestigious awards. It is named after history's greatest all-around athlete, a man who excelled as a running back, passer and kicker on offense, but also was an awesome defensive back. Recognized in the Pro Football Hall of Fame simply as "The Legend", Thorpe also played professional baseball and won Olympic gold medals in the decathlon and pentathlon.

The candidates for the award are selected by a "screening committee" of Jim Thorpe Association members who follow several players throughout the season, watching games and researching information sources to grade Thorpe Award candidates on the basis of performance on the field, athletic ability and character. The committee then narrows the field down to three finalists and the names of these finalists are submitted to a national panel of about 50 sports writers, sportscasters, coaches and former players who vote to determine the winner.

Each week during the football season, Phil Steele overlooks the candidates issued by the school, the conference and distinguished committee members. After including his own personal input, the winner is announced every Thursday at jimthorpeassoc.org and PhilSteele.com.

O'BRIEN QUARTERBACK AWARD

DAVEY O'BRIEN
NATIONAL QUARTERBACK AWARD

MISSION

To honor the nation's best college quarterback of the year and inspire student-athletes to triumph both on and off the field.

WHAT WE DO

• What began in 1977 as the Davey O'Brien Memorial Trophy, awarded to the best player in the Southwest region, was expanded in scope and limited to the quarterback position in 1981, becoming the Davey O'Brien National Quarterback Award®.

• The Davey O'Brien is awarded to the nation's best collegiate quarterback, evaluating each candidate on the criteria of quarterback skills/athletic ability, academics, reputation as a team player, character, leadership and sportsmanship.

WHO WE ARE

• The award honors the legacy of Davey O'Brien, the first player ever to win the Heisman, Maxwell and Walter Camp trophies in the same year, while leading TCU to one of their two National Championships.

• The Davey O'Brien National Quarterback Award is overseen by the Davey O'Brien Foundation, which is headquartered in Fort Worth, Texas, and provides scholarships and university grants to help high school and college athletes transform leadership on the field into leadership in life.

• Finalists must exemplify Davey O'Brien's enduring character while exhibiting teamwork, sportsmanship, leadership and character in both the athletic and academic arenas.

VOTING PROCESS

• Throughout the season, quarterbacks are voted upon by a Selection Committee comprised of prestigious journalists and previous winners.

• The watch list is refined into semi-finalists and finalists before The Davey O'Brien winner is announced on The Home Depot College Football Awards Show on ESPN in December.

• 2007 marked the inaugural year for the inclusion of the Fan Vote. Fans will have the ability to vote for their favorite quarterback throughout the season, and unlike any other award in college football, their vote will count as 5% during each round.

WHICH TEAM PLAYS THE TOUGHEST SCHEDULE?

The question arises each year, "who plays the toughest schedule?" At the beginning of the season, the NCAA usually releases a rating of each team's schedule based on their opponents' win/loss record from the previous season. This is a good method but it does have its obvious flaws.

The first flaw is basing the ratings on opp's records from the PREVIOUS season. Let's look at a couple of examples. At the start of '07 I had Illinois rated as one of the top teams in the Big Ten and they went on to knock off #1 Ohio St and play in the ROSE BOWL. My ratings had them as an above avg opp at the start of the year and they finished the reg season #13 (AP). Using 2006's record as the criteria for determining the strength of an opp's schedule however, you would count them as a 2-10 team! LY I had Houston in my Top 25 and they finished 13-1 and ranked #18. I also had Georgia and Clemson on my MIT List and counted them as a ranked tm for the upcoming schedule and they finished the reg season ranked #12 and #21. If you used the NCAA method you only got credit for playing 3 tms with losing records (all below .500 in '10). On the flip side of the coin Notre Dame was in an obvious rebuilding year in '07 yet was still counted as a 10-3 team if you based strength of schedule on 2006's record, and they were far from a January bowl team in '07 at just 3-9!

The second flaw is basing it on pure overall records. If a team played an FCS school that was 11-1 in 2007, that counted as a MUCH tougher game in the NCAA ratings than facing a team like Alabama who was 7-6 in '07 but #1 at the end of '08 reg ssn! My ratings had Bama ranked as a MUCH tougher team than any FCS foe. In '02, my ratings foresaw that teams playing Kansas St were facing a Top 10 team based on my preseason ratings. The NCAA strength of schedule ranking rated a game against Kan St as just a game vs a 6-6 opp ('01 record). Kansas St finished #7 AP for '02 and walloped their opp's by an avg of 45-12, not exactly numbers from a typical middle-of-the-road opponent. **On the flip side let's look at 2009's Ball St team. They were in an obvious rebuilding year and my power ratings had them only winning 2 or 3 games. MY methods gave teams credit for a weak foe when facing Ball St but basing it on the previous year's record, teams were given credit for playing a 12-2 team which is what they finished in 2008! That is a MAJOR flaw!**

Let me delve a little further into 2003's ratings. Coming into the season, I rated Notre Dame as the team that would face the NCAA's toughest schedule. When the season was over, they did indeed face THE TOUGHEST schedule. The NCAA rankings at the start of the year only had ND's schedule ranked as the 49th toughest! The Irish faced 10 bowl eligible tms. Their opp's in '03 finished a comb 97-55. **Once again, my strength of schedule is based on THIS YEAR'S strength of opp's NOT on opp's records from the previous year.** Basing it on their opp's final records of '02, it looked like a mediocre slate. They ended up facing teams that were ranked #1, #6, #9, #11 and #18, plus 4 other bowl teams. Hardly a mediocre schedule (9 tms with winning records, 2nd highest FBS that year!).

I have many more examples from years past on my website PhilSteele.com for those of you who want a little more in-depth history on strength of schedule. These examples clearly show that basing schedule strength on LAST year's opp's record is flawed and inaccurate.

One chart that I find very helpful is comparing TY's schedule with last year's in determining who ended up playing the toughest schedules in 2011. The 2011 bowl eligible teams are in **boldface**. Of the teams that took on the top 14 toughest schedules, only TWO managed to win more than 7 reg season gms with only 3 improving their record from '10 (Baylor, Texas and UCLA)! Of the teams that took on the 9 weakest schedules, only ONE had less than 8 wins (other 8 avg 10.25 wins).

Now let's turn our attention to 2012. This year I again decided to see what the NCAA method would come up with for toughest opp's faced and compared it to my chart, which I always list in the magazine. Let's first look at the NCAA rankings. To the right is a chart of all 124 teams and the combined 2011 opp's records. It is ranked in order of highest % of opp wins (or toughest schedule) to lowest % of opp wins (or easiest schedule).

On the next page are my rankings for the nation's toughest schedules this year. These rankings take two major factors into account. The first is my 9 sets of Power Ratings. This ensures that an FCS team is rated much lower than Ohio St or USF, two teams that finished with losing records last year!

The second factor is the amount of home and away games played. As an example, this year some teams will have as many as 8 home games, while others play as many as 8 on the road. LY Central Mich played 7 road gms and this year they have 7 at home.

The box on page 328 with this year's toughest schedules ranks them from the most difficult to the easiest. The toughest schedule this year according to my rankings belongs to Notre Dame while the easiest belongs to UTSA.

Let's pick out 2 teams to show you the flaws of just using last year's overall opp records. Based on 2011's opponent records Army ties for the 36th toughest schedule while Stanford takes on an easy #96 slate. Stanford's "cupcake" #96 schedule features 6 road trips vs BCS foes, USC, Oregon, 11 AQ conf foes and their lone game vs a non-AQ is San Jose St which I think will be bowl eligible. Army's much "tougher" slate has just 4 AQ tms (WF, Rut, BC and Temple), none of which will be ranked and also one FCS team. Put Stanford vs the #36 Army schedule and they are double-digit favorites in ALL 12 games! Army could be favored in 6 or 7 games TY vs their #36 sked but would be favored in ONE gm vs Stanford's #96 sked. Do you really think Rich Ellerson would trade schedules? MY SOS has Stanford at #12 and Army's at #106.

Here are the teams with the biggest discrepancy in the two methods of determining toughest schedule and you can check out each team's schedules to see which method you think is better. I list the difference in rankings between the two in ( )'s. **Most UNDERRATED schedules** (tms that face a tougher slate than the NCAA's % rankings): 1. Stanford (84) 2. Utah (50) 3. Ariz St (46) 4. Wake Forest (36) 5. Massachusetts (35) 6. Temple (34) 7. Colorado (30) 8. Florida St (29) 8. Ball St (29) 10. Illinois (28).

Look for a Blog on PhilSteele.com in June where I will compare and contrast some other teams to point out more obvious flaws.

Here are the **Most OVERRATED Schedules** (teams that face an easier slate than the NCAA's % rankings): 1. Army (71) 2. CMU (41) 3. Colo St (40) 3. N Texas (40) 3. SMU (40) 6. Texas Tech (38) 7. Iowa (36) 8. E Carolina (34) 9. Pitt (33) 10. Buffalo (32).

Naturally tms would much rather face a team from a non-BCS conf like Houston that went 13-1 LY (but does lose Keenum) than say a team like Ohio St that went 6-7 but will be ranked this year. Temple (9-4 LY) will likely have a losing season. Based only on LY's record, Temple is a vastly superior squad to Ohio St (major flaw).

In '04 on these pages, I looked at Iowa St's schedule and forecasted a turnaround season. Of their 11 foes, only 1 ranked in my Top 25 at the start of the year. While teams like N Ill, Kansas and Neb all had great seasons in '03, they were far from powers in '04. Based on '03's records, Iowa St faced the 8th toughest schedule in the country!!!!! My ratings had their schedule at #60. When the dust cleared, Iowa St faced only five bowl teams and came within a missed FG of winning the then weak Big 12 North, hardly the 8th toughest schedule in the land.

As a comparison, based on '03's record, Kentucky had the #105 toughest schedule or #14 easiest schedule in '04, with their opp's just 63-76 (45%). I looked at their schedule and saw FIVE Top 25 tms. I said that UK clearly played a much tougher schedule than Iowa St, yet based strictly on 04's records, Iowa St played the 8th toughest and Kentucky the 14th easiest. UK's foes finished the yr at 72-56 (#20), much better than Iowa St's.

In 1996, Army & Wyoming faced the two easiest schedules and were a combined 20-2 during the regular season. In 1998 (in this article) I pointed out that Tulane had a similar soft schedule and they simply went UNDEFEATED! In 1999, I asked, "Who will be this year's Tulane?" I answered myself by saying Marshall. The Herd then thundered their way to another UNDEFEATED season!!! In '03, I noted the strongest teams playing the easiest schedules. I said TCU, facing the #96 schedule, was one of my surprise teams and they flirted with an undefeated season. **In 2004, I listed both Utah and Boise St as non-BCS teams with talent, an easy schedule and a shot to run the table and both finished the regular season unbeaten!!!** In '05 Ark St played the #119 schedule and made it to a bowl after going 3-8 in '04! In '06 Boise St faced the 11th easiest schedule and went undefeated while winning a BCS bowl. **In '07 Hawaii faced the 2nd easiest schedule. I called for them to get to a BCS bowl and they played in the Sugar Bowl!** In '08 Ball St faced the #120 slate and went 12-0. Tulsa had my projected #120 schedule in '08 and flirted with an unbeaten season. In '09 Boise had my #117 schedule in the magazine and went 14-0 and finished #4. In '10 UCF faced my #116 sked and won the CUSA Title.

If you go to PhilSteele.com you will find out that teams that play a top 20 schedule normally do not fare well.

LY five teams that faced my bottom 15 skeds had DD wins including Ohio and NIU (played MAC Title gm), UH and SM (played CUSA Title gm) and Ark St (won Sun Belt).

In 2004 I added a new feature to this article and took a look at the teams who have much easier, or much tougher schedules than the previous year. I listed the 10 teams who took on the most improved (softer) schedules in '04 than '03. Out of the 10 teams, NINE had better records in '04 than '03 or 90%!!!!! Overall the 10 tms had a comb record in '03 of 51-75 40% and improved to 69-50 58% in '04, including Auburn, which went from 8-5 to a perfect 13-0 and Iowa St which went from 2-10 to a bowl!! In '05, of the 10 teams in the "Going Up" box, EIGHT improved their records. Four went from a losing season to a bowl. In '06 of the 10 teams in this box, 8 ended with better records including Wake Forest and Ark, who both went from losing seasons to January Bowls!!! In '07, 9 of the 12 listed tms had the same or better record than in '06 (3 losing season to bowl). In '08, 8 of the 10 improved their records incl Utah which went 13-0 and #2 AP and ND, AZ and NC who all went from losing records to bowls. In '09 of the 10 teams in my Going Up box, SMU had the biggest improvement (1-11 to 8-5!). In '10 the 12 teams in the "Going Up" box included Oregon (played in Nat'l Title gm), two tms that went from mediocre bowls to a BCS bowl (Ark, VT), UCF which won the CUSA Title, Maryland which went from 2-10 to 9-4 and Mich St (6-7 to Big Ten Co-Champs). Two teams that did not improve were hit with unexpected losses in USC (probation) and Purdue (injuries). LY the two most improved tms in the country were Houston and Cincy and both made the Going Up Box. Fourteen of LY's 19 tms improved their record and 1 was the same. Of the 4 that had weaker records NC used an interim HC during the season, firing Butch Davis just before fall camp. **In the 8 years of the Going Up Box, 71 out of the 93 teams (76%) have the same or a better record the next year!!**

Here are 18 teams with easier schedules that should have better success in 2012 and the number in the parentheses is the difference (easier) from LY's schedule:

GOING UP???

1. Tulsa (77)
2. Navy (62)
3. New Mexico (46)
4. North Carolina (45)
5. UNLV (43)
6. Tennessee (39)
7. San Jose St (35)
8. Minnesota (32)
9. Central Michigan (31)
10. East Carolina (28)
10. New Mexico St (28)
10. Louisiana Tech (28)
13. Rice (27)
14. Pittsburgh (26)
15. Texas (25)
15. Texas Tech (25)
17. Mississippi St (20)
18. Georgia (20)

In 2004, I took a look at the 10 teams that faced a tougher schedule and said their records may drop because of it. Those ten teams comb for a 72-55 57% mark in '03 but the same 10 were just 44-67 39.6% in '04!!!! 90% of the teams saw their record get weaker and the only team that did not was Vanderbilt, which went from 2-10 to 2-9 (played one less game)!! The most notable drops that made the list were Kan St and MD who were coming off 11 and 10 win seasons and both had losing seasons!! In '05 only ONE of 10 tms in the "Going Down" box managed to have a better record. In '06 8 of the 10 had weaker records (Iowa St, Virg both bowl to losing record). In '08 8 of the ten tms I listed had a weaker record with Ark, Ohio, Virginia, Purdue and NM all going from a bowl to a losing year. In '09 only 7 teams made the box and only ONE improved their record. **In '10 I had 8 teams listed in the Going Down Box and SEVEN had a weaker record (Iowa St, Oreg St and Idaho all bowl to a losing record!).** Last year Ohio St made the box and went from 12-1 to a losing season! Only 2 of the 11 tms listed improved their record. **That means over 8 years 83% of the teams in the Going Down box have had the same or a weaker record the next year.**

Here are the teams with harder schedules that may see some dropoff in 2011 and the number in the parentheses is the difference (harder) from last year's schedule:

GOING DOWN???

1. TCU (76)
2. Michigan St (53)
3. Eastern Michigan (49)
4. Temple (49)
5. Massachusetts (43)
6. West Virginia (37)
7. Miami, Fl (34)
8. South Carolina (34)
9. UTEP (34)
10. Southern Miss (34)
11. Stanford (34)
12. Georgia Tech (32)
13. Wisconsin (32)
14. Michigan (30)

The computer shows me that there are some other teams that one or more of my sets of Power Ratings call for them to have undefeated seasons. Naturally, if a team is projected at the top of my Power Ratings, it has a greater chance of going unbeaten. In 2002, three sets of my ratings called for Ohio St to go unbeaten and the Buckeyes were the surprise team of the country. In 2003, 11 teams were rated in two or more sets of my Power Ratings with a perfect record. In '11 TCU was on that list. Basically any team that has finished unbeaten in the past 10 yrs has made this list. **Check out my June 15 blog on PhilSteele.com** for my complete list for this year (and there are some surprises on it!)

Keep in mind that good health, a positive turnover ratio and a little luck are needed to go unbeaten. I hope your favorite team has a favorable schedule.

Hardcore Fans! There is so much information that I packed into these pages but just not enough room. Therefore, we utlilize Philsteele.com to give you even further information on your favorite team.

ARKANSAS - In Bobby Petrino's first yr ('08) Ark had to replace 4 st'rs. As you would expect in a new system (run blk to pass blk), their rush numbers plummeted (had led SEC in rushing 5 of 6 yrs) to just 114 ypg (3.6) with 46 sks (2nd most FBS). In '09 Ark had to replace 3 st'rs but improved to 132 ypg rush (4.3, 24 sk).
EASTERN MICHIGAN - Jabar Westerman (6'2" 285) made 26 tkl, 6 tfl and 4 sk LY and became the 9th Eastern Michigan player to be selected in the CFL draft (Canadian Football League) and the highest selection overall (#2DC).
MISSOURI - At 245 lbs, WR Michael Egnew was bigger than both Martin Rucker and Chase Coffman, both played TE for the Missouri Tigers with Coffman the #3 all-time career receiving leader (2,659 yds from 2005-'08).
OKLAHOMA - The Oklahoma Sooners always fare well in my PDR and despite losing 3 st'rs were #11 in 2008. In '09 they had to replace 2 st'rs (1st & 2nd Tm B12). It surprised me that 3 of the st'rs were not VHT's but OU finished #3. In '10 they had to replace 2 st'rs (1st & 2nd Tm B12). One ret st'r lost his job. CB Jamell Fleming led the Big 12 in pd (#2 FBS). The Oklahoma Sooners finished #7.
PURDUE - Iowa came in and beat them 31-21 (outgained 408-282) but HC Danny Hope brought a picture to his press conf which showed a fumble that was ruled a TB but instead should have been spotted on the inch line to give PU the FD.

Hardcore Fans! More of this at PhilSteele.com

STANFORD - The Stanford Cardinal OL unit has made strides in recent years. In 2006, with injuries decimating them Stanford avg'd just 65 ypg (2.1) rushing (worst since 1993 when they just 65 ypg rush, 2.4) and yielded an FBS worst 50 sk (15.8%!). They showed improvement in '07 and in '08 with 3 st'rs back they improved to 200 ypg (4.9, 21 sk). In 2009 they had to replace 2 st'rs and their OL coach. Still the unit improved to 218 ypg (5.3) all'g the 2nd fewest sks in the FBS (7).
TENNESSEE - In '09 UT had to replace 3 LB's (comb 23 st, #1, #4 tkl'r) and had the smallest unit in the SEC. Nick Reveiz tore his ACL after 4 st and his replacement Savion Frazier tore his 4 gms later. At the end of '09 they were down to 7 LB's incl 2 walk-ons. In '10 UT had to replace a 2nd Tm SEC LB but had 5 w/st exp.
TEXAS - In '06 UT had 3 st'rs back and had their best rush D s/'42 all'g 61 ypg (2.3). In '07 despite just 1 ret st'r, they all'd 93 ypg (2.9). In '08 they had to replace 2 DT's but all'd just 84 ypg (3.1) with an FBS leading 47 sk. In '09 they had to replace 3 st'rs (#1, #3, #4 DC's) but all'd just 72 ypg (2.2, 44 sk)...In the recent past, Texas divided its playing time at LB and at times the bkps had more tkls than the st'rs...After a #6 finish in my PDR in '05, the Horns yielded a school record 236 ypg passing in '06 (#63 PDR). In '07 UT had to replace 3 st'rs (Thorpe winner) and allowed a new record of 278 ypg (#109 FBS). They still finished #45 in my PDR (tough slate of opp QB's). In '08 UT had to replace 3 st'rs but moved up to #19. The Texas Longhorns climbed to #4 in '09 trimming the ypg to 180 (14-25 ratio).
TEXAS TECH - The Red Raiders finished #33 in my PDR in 2007, #45 in '08 and even replacing a pair of 1st Tm B12 st'rs (#2DC) and 4 bkp (comb 88 tkl), TT climbed to #22 in '09. I mentioned despite being more exp'd in '10 that they could drop and that they did (#55).

DETROIT LIONS

PS '11 OFF RANK #19
PS '11 DEF RANK #16

QB's: Just as I said I wasn't opposed to anyone drafting Jay Cutler as a backup with a "who knows" attitude, the same thing goes for Matthew Stafford. The kid has a cannon, but most of the time you're watching him in a sweatshirt and pants on the sideline. He has missed 19 of the 32 games his team has played as a pro. In fact, he only played 3 games last year so you have to wonder if he's going to turn the corner. But, in those 3 games, he did have 6 td passes and only one pick. Plus, he does have Megatron on the outside. Clearly, in his 13 NFL starts, Stafford's fantasy stats make him starter-worthy. Like Orton or Cutler, I wouldn't want to go to war with Stafford as my guy, but I wouldn't be upset if he was my backup either.
When Shuan Hill plays he plays pretty well and he seems to play often as Matthew Stafford. But Hill isn't exactly the Cal Ripken of signal callers either. He went down in the Thanksgiving day game.
RB's: Durability is the big question with Jahvid Best, he's not a big guy and he was banged up both in college and in his rookie season in Detroit. When Best has been healthy, he has been dynamic at times. For instance, look at the first 2 weeks of last season and you'll blush over your own giddiness. I just don't think Best is ever going to be a healthy 16 game, 25 touch guy and so I'm probably less optimistic than most. Plus, despite the fact that he is considered a speed RB, less than 8% of his runs went for more than 10 yards. Also (predictably) small guys can wear down towards the end of the year. Best only rushed for about 100 yards combined in the team's last 4 games. Plus, Best didn't score between weeks 3 through 15. With the Lions drafting Mikel Leshoure, I wonder if Best is considered every down back.
Mikel Leshoure is a rookie and becomes the 2nd rookie RB in as many years to work into the fold in Detroit. He did score 20 td's last year at Illinois which leads me to believe he will carry the ball down near the goal line. Add in the fact that Jahvid Best is not a big RB, nor has he shown a nose for the endzone and Mikel Leshoure could surprise you with a number of td's. If you can draft him late and stash him on your bench, he may make you happy in the second half of the season.
WR's: Calvin Johnson has missed 3 games over the last 2 years and has had to play with a multitude of QB's. Still the production is there. He had 12 td's last year (13 if you give him the one unfairly wiped out against Chicago). Megatron is simply a beast. If he gets some consistency with his QB, I expect the numbers to increase, at least as far as receptions and yards are concerned. The big concern for Calvin Johnson is that he disappears a lot. He was held under 60 yards receiving in more than half of his games last year. Also he's never had 80 catches in any year. I think the 80 catches will change and I think he'll be more consistent in 2011. I'm very bullish on Calvin Johnson.
TE's: Brandon Pettigrew was a 1st round pick out of Oklahoma St by the Lions and now entering his 3rd year, he has shown signs of promise. Last season he was in the top 3 in TE receptions and had at least 4 grabs in ten different games. He's big and if Matt Stafford is healthy, could have a really nice year and be a compliment to Calvin Johnson. Pettigrew is an excellent gamble as your #2 TE.
DEFENSES/ST: Yeah, I'm going to like Detroit more than most people but guess what? The Lions have been acquiring players for this side of the ball. They did force almost 30 turnovers last year and Ndamukong Suh is only going to improve. Forty-four sacks is nothing to sneeze at. If they can bolster the int total and give up less points, they will be in the top half of the fantasy defenses.
KICKER: Jason Hanson was drafted 2 years after the end of the stone age but he's held down the job and has had more highlights than low lights as an NFL kicker. Perhaps the worst thing you can say about his career was that his injury led to Ndamukong Suh having to attempt a kick (Yikes!). Hanson has value as a #2 kicker.

ERIK'S CRAZY NOTES:
- Matthew Stafford has missed 19 of the 32 games his team has played as a pro, but in the 3 games he played last, he did have 6 td passes and only one pick.
- If you're high on Jahvid Best, consider that he only rushed for about 100 yards combined in the team's last 4 games, and he didn't score between weeks 3 through 15.
- Don't sleep on Brandon Pettigrew. Last season he was in the top 3 in TE receptions and had at least 4 grabs in ten different games.

THE POWER POLL TOP 124

Once again, I would like to thank EVERYONE who has sent in their questionnaires over the last few years for taking the time to let me know your feelings about my magazine. Again, I am overwhelmed by the kind comments from those of you who appreciate all the hard work that goes into this magazine each year.

As I clearly point out in the front of the magazine, MY College Top 40 is based solely on where I think each team will finish and NOT how I rate the teams talent-wise. I stress each year that my Surprise Teams are often teams that have decent talent but a GREAT schedule. An example from this year is Ohio which is just #71 in my Power Poll but #31 in my Top 40 as they face my #123 schedule and should have double digit wins. Missouri is #26 in my Power Poll but is unranked as they face the 19th toughest schedule.

To come up with the order for this article I could have continued on from teams I list in my Top 40 article and extended the list to #124 using that method. However, the weakest teams listed in my Top 40 may be those that faced the toughest schedules, so I did not feel that would be a fair representation. Therefore, I decided to give you my Power Poll Top 124. Let me explain why I call it the Power Poll and how it was derived.

A few years back, before computers became part of the BCS rankings system, there was without a doubt some flaws in the polls. Teams rated #2 or #3 in the country really were not that talented and were maybe the 5th or 6th best. One internet site decided to produce a poll of some of the top analysts and experts each week and invited me to join. I myself work 365 days a year. During magazine time (March, April, May) and throughout the football season (August through January) there are many 15-18 hour days put in and all of them are spent solely working on FOOTBALL. When they invited me to join the poll, I wanted to give them the best set of power ratings in the country to help make the poll as accurate as possible. The dilemma I had was which set? As I mention throughout the magazine, I now have NINE sets of power ratings that are based on different factors. For example, one is based on the individual talent level and performance of each position on each team and those are added up for the rating. Another is based on my Power Plays numbers which include rushing and passing offenses, defenses and special teams. Another is a continually updated power rating based on the score of the games and the strength of opponent.

What I decided to do was combine all nine into one rating which gives me a very solid overall ranking for each team. The rating takes into account EVERY factor, using it as my main set of power ratings. These numbers will differ from my "Plus or Minus" ratings on page 337 as THAT set is just ONE of the NINE used to compile this main number. As mentioned earlier, these numbers will differ from my Top 40 because the Power Poll is concerned ONLY with the strength of the team and does not factor in who they will play for the upcoming season or how many games they should win in 2012. Keep in mind, this is basically MY COMPUTER'S Top 124. Without further adieu and at YOUR REQUEST, here is my 2012 Preseason Power Poll:

2011 DEFENSIVE YARDS PER PLAY

For years I have talked about how a defense can be hurt by a fast paced high scoring offense. This past spring I was startled to hear that Stanford's defense which allowed just 338 ypg faced a total of 815 plays. Oregon had a much maligned defense LY but they did face 1077 plays or 262 more!! The Ducks D which finished #115 in the NCAA acually was #67 in total yards allowed per play by the opposing teams offenses. Now there are numerous factors in how many yards a team gives up. The first is the quality of the D. As you see by Kansas down at #120 they allowed 7.16 yards per play! Now that was a BAD defense. Contributing to the amount of plays a teams faces are 3rd down conversions, the quality of the D and the pace not only of their own offense but of the opponents offenses as well. This is an era where many head coaches are talking about running plays as fast as they can as Oregon is one team that has had great success with that. The chart listed below ranks each defense by the yards per play they allowed last year. It also ranks the total plays a team faced per game, the ypc rush allowed, the yards per pass attempt allowed and 3rd down conversions. The final column is also the 2011 total defense ranking in total yards allowed per game so you can contrast the differences.

SPRING GAME NOTES. . .

For years you have checked out the back pages of my magazine to get all the latest news from the spring games. Unfortunately there are only so many pages in my magazine and in the past I could only allot 3 pages for the spring notes. My website PhilSteele.com has UNLIMITED PAGES that I can devote to spring ball. Instead of trying to write just a paragraph for half the teams, we will write a full summary of what happened in the spring for all 124 FBS teams! We will even include box scores. Just go to PhilSteele.com today and get all the latest spring game information and more. My goal is to make it like having 124 different media guides all in one location and in one format. You will be able to access school records, career leaders, all of this year's information and more. While you could go to each school's website and try to find the info on each team, I will have it all at one website. (Did I mention PhilSteele.com?)

Last 15 Years Matchups on Every FBS Game This Year... Only at PhilSteele.com

PhilSteele.com is loaded with information but the chart above is my favorite type of info on the site and it is exclusively at PhilSteele.com. When you click on this year's schedule for each team you can click on any opponent and the past matchups chart will pop up. I used the Texas/Oklahoma matchup above as an example as it is one of the top rivalry games. The chart not only gives you the score of each of the past 15 years but it gives you the complete box score and much more. You will notice the matchup above is from the Texas team page. Therefore green numbers are good for Texas and red numbers are bad. At a glance you can see that Texas had a streak of 5 straight losses from '00-'04 but has won 4 of the last 7 since. A check of the last column quickly shows you that last year was the first time in 5 years that one team outgained the other by 100 yds. The Individual Game Grade is something I devised 3 years ago so it only goes back that far. If you look at the ranked columns to the left you see that both teams have been ranked in 11 of the last 12 meetings (6 str years). The "Upset" column lets you quickly see how many upsets there have been in the series (4) the last 15 years. This is available RIGHT NOW for EVERY FBS game being played this year! Go to PhilSteele.com and become an expert on every matchup for 2012!

JOHNNY "THE JET" RODGERS

Congratulations to the 2011 Award Winner: Joe Adams Arkansas

NATIONAL COLLEGE FOOTBALL RETURN SPECIALIST AWARD

Since its inception college football has been widely heralded as the most exciting, dramatic and fascinating sport in the nation. The spirit of the sport is readily captivated in the play known as the return. For every return there is a returner and indeed they are special. Throughout the sport every position has been targeted for a post season award, with one exception.

For the 2011 season that all changed. We honored the most exciting and electrifying play in college football, The Return, and those daredevils that dare to participate who we call Specialists. Thus in the 2011 season, we introduced the first Return Specialist Award.

"The Jet" award is presented to the previous season's most electrifying punt and kick-off return specialist in NCAA Division I football.

This award is named for Johnny "The Jet" Rodgers. He was the 1972 Heisman Trophy winner, National College Football Hall of Famer and return specialist for the 1971 University of Nebraska Cornhuskers National Championship team.

Proceeds from the event benefit the Johnny Rodgers Youth Foundation, a 501(c)(3) charitable organization, which awards scholarships to deserving students and donates to area youth organizations.

PHIL STEELE'S 2012 PLUS/MINUS POWER RATINGS

If you have read the other parts of the magazine, I am sure you are familiar with the fact that I have NINE different sets of power ratings that I create each preseason to give me 9 different ways of analyzing a team. The last few years I have provided you with one of those sets here. It is the one that will most closely resemble the Top 25 polls as it is based on last year's scores with adjustments made for this year. Let me take a minute of your time to give you a little history of my fascination and dependency on power ratings when analyzing a team in the preseason and during the season. I am in my early 50's and I started following college football with great intensity at about 10 years old. At that time (being a numbers guy) I devised my own set of power ratings which was based mostly on where the preseason magazines I was reading ranked the teams. I even awarded points at that time for how many pictured players each team had in the magazines. I updated those ratings during the season based on the final scores of the games.

One of the reasons for this particular article is that a few years later after compiling my ratings (and no longer counting pictures), I stumbled upon the *GamePlan* magazine. In the front of the magazine was a set of power ratings for each team!! I now had two sets of power ratings on each team and I updated them both during the year giving me two different ways of looking at the strength of a team. This year I thought for all of you who like to use a set of power ratings that I would provide you with one of my 9 sets. Is this the main set of ratings I use? No, that would be my Power Poll rankings which are a combination of the 9 sets. This is a solid set of numbers and what I have noticed is it most closely resembles what the general perception of each team is heading into 2012.

Let me tell you about some of my other power ratings. One of my main sets is the talent rating. For this, I rank each position on every team from 4 for the weakest to 10 for the strongest in the country. They are ranked to the decimal. For example, I will rate a QB position at 7.87 if I feel they are a hair weaker than a 7.89 team. I add all of the positions up, add in special teams and coaching and that set is ready. The second set to look at is the Power Plays numbers. I take a look at last year's final numbers, which not only take into account the score of the game, but the strength of each team's offensive rush and pass and also the defensive rush and pass. When doing my power ratings I always award what I call a Plus/Minus for each position. If a team had an All-American VHT QB last year and is going to an inexperienced one who is not a VHT, then they would rate a minus 6. If a team had no experience at a position and suffered through injuries last year with poor production but now has everyone back, including the injured players who are more experienced while adding new talent to the mix, they would rate a plus 6. Everything else falls in between. To make my Power Plays numbers for THIS year I looked at last year's and applied the Plus/Minus for each position to them to develop the computer projection. I mentioned that I rank each position from 4 to 10, which gives me a fresh set of numbers based just on this year and I have a formula which takes the talent of each position (example: pass offense would be QB plus WR plus O-line) and converts it to a Power Plays number. I compare the two Power Plays numbers derived from two different methods then put my own thoughts into refining the figures and come up with an opening number for the next season. I could write a book (or a magazine for that matter) on how I devise each of the 9 sets but that gives you some idea of how I do two sets of my power ratings.

As for the ratings listed below, these are my Plus/Minus ratings. I first take last year's final Plus/Minus ratings, which are calculated mostly by the score of each game last year and the strength of opponents played. Losing to Alabama by 5 would move a team up in the ratings (Alabama would have been expected to win big), while beating Akron by 15 in 2011 would probably have moved the same team down. I then take my aforementioned Plus/Minus ratings and add them to the totals. Some teams are weaker than last year and drop in the rankings, while the ones that are improved move up. **As mentioned this is just ONE set of my power ratings. A note here is that on page 331 I rank the teams based on the Power Poll, which is all 9 ratings combined, so that page does indeed differ with this one as far as rankings. The Plus/Minus ratings are a good set of ratings but I personally put more weight into the Power Poll.** Below I list my preseason 2012 Plus/Minus ratings for the upcoming season. I hope you find them useful.

LETTERMEN RETURNING/ LOST SYSTEM

BY PHIL STEELE

For the last couple of years I have put an experience chart in the magazine which counts the number of Freshmen, Sophomores, Juniors and Seniors each team has and adds them up with a point system. Last year I went back and looked at percentages of lettermen returning and lost. Using percentages is more reliable than the amount of returning or lost lettermen because schools give out letters in different manners. Some schools hand out a lot of letters and others far fewer. Getting a letter at Syracuse under Paul Pasqualoni was tough, as he handed out just 38 total letters in 2004 and 40 in 2003. This year the low's went to Ball St with 47 and Connecticut with 49 (also under Pasqualoni). In 2001 Nebraska handed out 82 letters or over double what Syracuse was giving out. It was also the most given out by any school in the previous 6 years. In 2007, Ohio broke all records with an amazing 91 letters given out while Hawaii had 90! Last year BYU was #1 with 89 lettermen and Florida St was #2 with 88.

The first category I looked at was teams with a high percentage of lettermen returning. I tossed the numbers into an Excel spreadsheet. Common sense would say teams that had a high percentage of lettermen returning should be much stronger the next year and have a better record. In the last 11 years a total of 112 teams have had 79% or more lettermen returning. That comes out to 10.2 per year. Of those 112, 80 have had the same or better record the next year or 71.4%. Last year WKU was the most productive from this category going from 2-10 to 7-5.

I was looking for a higher percentage so I started to eliminate some groups. Naturally, when I limited the group of teams that had 79% of their lettermen returning to those that also had at least 16 starters returning, the percentage went up. Out of the now smaller group of 62 teams, 48 or 77.4% had the same or better record and 43 of the 62 had an improved record (69.4%). In 2008, I mentioned in this article that Florida, which was coming off a 9-4 season, made the group and I called for them to win the National Title and they delivered. Overall those are, once again, nice numbers but I wanted an even higher percentage so I narrowed the group further.

I devised a rather simple formula to cut the group. I multiplied the returning lettermen by 100 which means 87% returning lettermen would count for 87 pts, 67% for 67 points, etc. I then multiplied the returning st'rs by 5. A team with 19 returning starters earned 95 points, a team with just 9 returning starters only earned 45 points. A final factor I added in was QB experience. If a team had a returning starting QB they got an additional 25 points. I ran these numbers through the computer and found some magic numbers. Since 2001 there have been 82 teams that accumulated 185.1 points or more of experience from the previous year. Of those 82, 65 (79.3%) had a stronger or equal record to the previous year. By tightening it a little further **I found that 86.7% of teams that had 190.1 points or more (39 out of 45) had a stronger or the same record the next year!** Last year I had listed the Tulsa Golden Hurricanes in the box to the right but they lost WR Damaris Johnson and CB John Flanders over the summer (both players were All CUSA!) and did not end up hitting that magical 190.1 barrier (only 188.6).

Let me give you a couple of examples. In 2006, I called Arkansas the Most Improved Team in the country. They had 80% lettermen returning (19 starters). The Hogs, who were 4-7 in 2005, vaulted to 10-1 and a #5 ranking before a disappointing finish left them at "only" 10-4 (#15) for the season. They were the SEC West Champs and went from 4-7 to a New Year's Day Bowl. Wake Forest was just 4-7 in 2005 but had 83% lettermen returning (19 starters). Wake had low expectations and then lost their starting QB and RB to injuries. They still managed to improve to an amazing 11-2 when they not only got to play in the ACC Title game but also WON THEIR FIRST ACC TITLE SINCE 1970 (37 years!). They had been picked last in the preseason ACC poll! In 2004, Mike Price inherited a team with 17 ret starters (195.2 exp pts) and UTEP went from 2-11 to an 8-3 reg season and the Houston Bowl. In 2001, Colorado made my Most Improved List AND Surprise Team List and after a 3-8 2000 season they went 10-2, won the Big 12 Title and came within inches of playing in the National Title game. In 2006, Boise St was coming off a 9-4 season but with 195.7 exp points they went undefeated and knocked off Oklahoma in the Fiesta Bowl! Also in 2006 Ohio had 193.1 exp pts and went from 4-7 to a 9-3 reg season and played in the MAC Title game. In 2008, the most successful member on the 190+ group was Northern Illinois which went from 2-10 to the Independence Bowl. In 2009 a couple of members of the +185.1 club were Central Michigan (MAC Champs), which went from 8-5 to 12-2 and Washington, which was 0-12 in '08 but knocked off USC and just missed out on a bowl at 5-7. **The last three years 11 teams have made the 190.1 pts level and 9 improved their record.**

This year there are only 2 tms that have 190.1 or more exp pts returning which means they have an 87.0% shot at an improved record this year and I list those 2 teams in the box below. I also list 3 additional teams that reached the 185.1 level this year and they have a 79.2% chance of a stronger record:

190.1+ Exp Pts Ret Lettermen, Ret Starters QB Experience
87.0% chance improve

- Tennessee
- UTSA

3 teams w/185.1+ pts (79%)

- Florida State
- Mississippi
- WKU

Now, let's look at the opposite end of the spectrum, teams that have a low percentage of lettermen returning. If you look at teams that had 60% or less lettermen returning, there are 93 in the last 11 years. As you would expect, 60 of those had a weaker or the same record the next year or 65%.

In 2008, I noted that of the teams with 60.5% or less returning lettermen, 11 or less returning starters AND did not return their starting QB almost always regressed. Teams in that category had a worse record the next year, 70% of the time, and the same or weaker record, 78.7%. It has happened 38 times in the last 11 years and only 8 teams managed to improve their record with two of those being the 2006 Temple team, which went from 0-11 to 1-11 and the '06 Ole Miss team, which went from 3-8 to 4-8. That means that only 5 of the 38 had less losses than the previous year or just 13.2%. The biggest four dropoffs have happened over the past eight years. In 2004, Kansas St had been a dynasty under Bill Snyder but could not overcome the "60.5%, 11, 0 QB Plan" and went from a very successful 11-4 season to just 4-7, a huge drop of 7 wins! In '05 Florida Atlantic had just 50.8% returning lettermen, 8 ret st'rs and a new QB. They went from 9-3 in '04 to just 2-9 in '05, another 7 game drop. In '06, Miami, OH had just 58.9% ret lett, 7 ret sts and an inexp QB. They not only had a great streak of ELEVEN STRAIGHT WINNING SEASONS snapped but dropped from 7-4 to just 2-10! In 2007, Notre Dame was one of 3 teams on this list (Florida and Baylor also had weaker records) and the Irish plummeted from a Sugar Bowl berth in 2006 to 3-9 the following season! Last year Memphis was the only team to beat the system but only went from 1-11 to 2-10 as they took on a FCS team (Austin Peay) and did not face one in '10. Auburn was on that list last year and went from 13-0 and National Champs to 8-5. Navy had their streak of 8 straight winning years snapped and Iowa had their weakest record (7-6) since 2007. This year only one team fits into the final category of 60.5% or less lettermen returning, 11 or less returning starters and an inexperienced QB **and Colorado is the team with a 13.2% chance of a stronger record.**

Now let's look at the experience points system I devised. Since 2001 there have been 91 teams that have accumulated 114.5 or less points on the chart. Of those 93 teams, 75 have had a weaker or the same record the next year or 80.6%! The last four years 22 teams made the list with only 3 improving their record. Teams that have 118.55 or less points returning have the same or weaker record 101 out of 128 times (78.9%). In '08, Michigan (116.2) suffered its first losing season in 40 years. In '09 Ball St (117.3) crashed from 12-2 to 2-10. In '10 Ole Miss went from 9-4 to 4-8 and Bowling Green from 7-6 to 2-10. In the box below I list the seven teams that are in the 114.5 category that are most likely headed down this year. This year Southern Miss just missed at 114.62 and fits into the 78.9% category.

My Power Plays Projections take into account the strength of opponent faced. Each week during the season it projects a box score for each upcoming game with yards rushing, passing and points, etc. I thought it would be fun to plug in the Power Plays numbers vs their opponents' ratings and project the entire season. The chart to the left is projected statistics for the 2012 season.

DEFENSIVE OUTLOOK FOR 2011
DEFENSIVE LINE - The Giants have the best 8-deep DL rotation in the league. In fact, their strength is arguably better than any of the league's #1's. In 2010, NY was indicating around opposing QB's like it did back in 2007 while also shutting down the run. The NFC's top RB's such as Adrian Peterson and Arian Foster The Giants shut him down in the 4th QTR. The Giants will be tough to run against and they get great up-field rush. The Giants led the league in rest zone defense (56 of 256, 21.7%), were 8th in the league in sacks (44) with 46 sacks (tied for 2nd most here in the LY) only DE's Justin Tuck and Osi Umenyiora each had 11.5 sacks and Umenyiora is the primary physical and vocal presence on the defense after Michael Strahan and Jeremy Shockey departed. He plays the run equally well, chipping in 76 tackles. Umenyiora was rejuvenated after a subpar 2009 and began last year's second strong season before coming up. He has lost or tied for 5 team lead in sacks 5 of the last 6 years but did spend the offseason in the news regarding a contract dispute, and it's uncertain at presentime whether we will be with the Giants in 2011. Mathias Kiwanuka only played 5 (hrt) in the season, but when he did, he may have been the DEs top player after notching 4 sacks. Jason Pierre-Paul benefited as a rookie from opponents scheming to stop the other 2 DE's on the team. NY's 1st RD selection in 2010 (#15 overall) had 6 sacks and showed a lot of promise as a rookie. He has the physical tools and should improve on his 6 sacks in 2011. One of the learning curves he'll have to overcome is NT Barry Cofield who accepted contract offer with the Jets. Rookie Linval Joseph (Cofield in the starting rotation a 2010 2nd rounder Linval Joseph who barely played as a rookie because of the depth ahead of him and definitely a notch or two below Cofield's level. Chris Canty holds the point and the other starting DT spot and he uses his bulk to lower his pad level to compensate for his 'giant 6'7' frame. NY went for another DT in the 3rd RD'7 in Marvin Austin, who drafted as a 4th North Carolina LV due to receiving improper benefits. Austin has a lot to prove, and is an explosive 3-technique penetrator with the qtks. As long as everyone remains healthy and the Giants are able to rekindle a good relationship with Umenyiora, this will remain a dangerous unit for the upcoming season.

LINEBACKERS - The Giants had an average LB corps before LT's retirement of Antonio Pierce, leaving this as just a pedestrian unit on what is still one of the NFC's best defenses. Overall, NY showed the 2nd fewest 1st downs in 2010 (263) but gave up 21.7 ppg, including 38 and 45 points in B2B losses with the playoffs on the line. The LB's lack punch and don't make big plays. In an attempt to invigorate the group LT, the Giants signed Keith Bulluck, who had 10 solid yrs in TEN but was coming off knee surgery and a natural leader. Bulluck started much of the year at MLB, making 31 tackles. He slid outside midway through the season to clear room for Clint Sintim's inconsistency. Bulluck may be brought back for his 12th year (has not re-signed as of presstime). Sintim, a #2 DC in '09, was a 1st time starter and hasn't developed nor adjusted to a 4-3 scheme. Mathias Kiwanuka was a pleasant surprise, with the speed to run with TE's and RB's. Phillip Dillard, a #4 DC in '10, could be a long-term answer at MLB because he's a natural leader in the middle but will take a little more time to develop. Backup SLB Chase Blackburn is a ST ace who played all of LY' with 3 shoulder inj's but has yet to re-sign. Two defenders, MLB Greg Jones (6th) and rookie OLB Jacquian Williams (7th) add depth. Jones is undersized (6'0" 242), but his smarts could win him playing time. OLB's Adrian Tracy and Gerris Wilkinson (7th rd pick) are primarily contributors for playing time. NY chose not to address LB high on the draft but could go back to the well in 2012. Rookie LB RUSH LY to help bolster a group that remains the biggest question mark on the NY defense.

DEFENSIVE BACKS - The Giants unveiled a new 3 safety nickel package in 2010, one they used often in passing downs (the 9th best pass defense (210 ypg), improving from 15th (214 ypg) in 09. The Giants also led the NFL with 28 takeaways (23 fumbles, 16 int) and held opponents to a 57.1% completion rate (5th). Two of the attempts were made from outside the 50 yard line. Tynes is a UFA after 3 seasons with the Giants. Ryan Allen (ARZ) and Devon Grant (SEA). Phillips played in all 16 games (15 qbs) and made 77 tackles. Rolle plays alm/stl like a LB in the Nickle 5 alignment, floating in coverage with the freedom to blitz, which he did 7 times. Phillips was signed to a 1 yr deal. Only Rolle's pass coverage may have stopped a little, he made 87 tackles in his road-and-road 11 games. Grant had made a full recoverable start prior to 2010 but had only 8 1/2 and probably won't be back. Reserve Brian Jackson played in a majority of qbs/tms (10) and Terrell Thomas and the holdovers at CB, although they were expected to be pushed because of concerns over injuries being a big part of their game (last 2 months). Thomas has led the team in tackles and int the last 2 seasons (5 int, 104 tkls in 2009) and Webster is now a consistent starter if he can stay in the lineup. Webster added 4 int and is a big hitter when healthy. The NY secondary was expected to help Umenyiora, the 19th overall DC, has technique issues but he is one of the most disruptive DE in the league. The Giants' DL's help be found in zone coverage and against the run but the injury will limit a 2011 production to a minimum. Aaron Ross was a #1CC in 2007, but injuries have kept him from being dependable (only missed 2 GP). The Giants could look to find one with the Giants, if he even lasts through training camp. Chad Jones, a #3DC in 2010, missed all of camp injuring his leg in a pre-season game and will likely keep him out for 2011 as well. Bruce Johnson added depth at CB and Prince Amukamara (#1 pick) was removed from the doghouse after suspended two full games in early Aug. The secondary is one of the deepest groups in the NFL and this could improve upon its ranking of 9th against the pass.

SPECIAL TEAMS - The NY special tms unit is solid and actually cost them a playoff berth when they allowed DeSean Jackson to score on a punt return in the NFC Championship game. In fact, NY's 2nd ranked 29th in 2010, the lowest ranking in Coughlin's 7 years as the tm's head coach. Jeff Feagles retired, Hartland was released, and struggled on P coverage ranking 31st (14.9 avg), better than 2nd year UFA Steve Weatherford (2 TB tms) was drafted in the 7th RD by KC but he was inconsistent, kicked too many line drives and no single-handedly lost the game to PHI. Last year he was 9th in the NFL in avg (44.8) but #30 in net (34.8) and had just 20 in/20 TB. Weatherford is a big guy who has the leg to boom it, but is he worth the risk? Those questions will be answered in TC as Dodge will battle Steve Weatherford for the job. Washington's punt unit ranked 42.5 a year ago (28.1 net) and is acclimated to the swirling winds. Lawrence Tynes was solid on FG attempts (23/26) but was 4th in the NFL with 39 touchbacks on kickoffs (23 fumbles, 16 int) and held opponents to a 57.1% completion rate (5th). Two of the attempts were made from outside the 50 yard line. Tynes is a UFA after 3 seasons with the Giants. Ryan Allen (ARZ) and Devon Grant (SEA). JOHN MACKEY AWARD

The prestigious John Mackey Award, presented by the Nassau County Sports Commission, is awarded annually to the most outstanding Tight End in FBS college football. The NCSC presides over the award, managing the watch list, supervising the voting by the distinguished selection committee and honoring the recipient at its annual award dinner. In addition to demonstrating outstanding athletic prowess on the field, the recipient must demonstrate positive sportsmanship-like behavior, be in good academic standing and strive to embody the leadership abilities of John Mackey both on and off the field.

Throughout his career Mackey vigorously supported many organizations and served on the Board of Advisors to the Leukemia Society of America, the Syracuse University Business School and the Board of Directors for the Syracuse University Alumni Association. He also was the Chairman of the Board of Advisors of the Community for Education Foundation and its "Overcoming Obstacles" program.

The Nassau County Sports Commission is an organization where every dollar raised is another child, senior citizen or differently-abled athlete experiencing the thrill of sports and competition. The non-governmental, non-profit NCSC is dedicated to "improving lives through sports" and operates the "Let's Do It!" children's sports programs. Since its inception in 1992, the NCSC has quietly accomplished many of its original mission objectives, establishing exceptional participatory and educational youth sports programs, partnering with County government to enhance sports facilities and attract sporting events and organizations to the heart of Long Island, Nassau County. The Commission has quietly built an impressive track record of success in providing sports programming and attracting sporting events and businesses to Nassau County.

The Commission has set ambitious goals for the future. These goals involve the advancement of youth, amateur and professional sports from the grassroots to the elite level; the development and dissemination of brochures, such as "How Sports Can Combat Childhood Obesity" for elementary school students and the "Perils of Performance Enhancing Drugs" for middle and high school students; the organization of more conferences, workshops and clinics; the implementation of new initiatives; bringing new sports events and businesses to the County; and most importantly, the expansion of our youth programs to serve a broader spectrum of the community and a greater number of children.

PHIL'S FORECAST : GEORGIA 34 GEORGIA TECH 24

WHO WILL WIN THE HEISMAN?

Since 1935, the best college football player of the season receives the Heisman Trophy, the most talked about award in college football. Every week, sports shows list which prospective candidates are rising & falling on the list to win the Trophy. Phil Steele is proud to be a member of the Heisman voting committee.

Predicting who will win the Heisman is a tough task, even with a couple of weeks left in the regular season and there is always plenty of debate. With just a few weeks left in 2002's race, Carson Palmer was not even in the Top 5 but he still ended up winning. Naturally, it is even tougher predicting the winner four months prior to the season.

In 1998 I listed Ricky Williams (Texas) as my Heisman Trophy favorite. Things did not look good for Ricky when Texas was humiliated by UCLA and Kansas St in B2B weeks and he had just average games in both. At the time it looked like his Heisman chances were GONE. When the smoke cleared Ricky broke the NCAA career rushing record and was the recipient of the coveted trophy.

In 1999 I listed Ron Dayne of Wisconsin as my Heisman favorite. Much like Ricky, Ron's chances of winning the Heisman appeared to go out the window after Michigan shut him down and then he fumbled late in the Badgers' upset loss to Cincinnati. When the season was over, Wisconsin was in the Rose Bowl and Dayne had broken Williams' career rushing mark and won the Heisman.

In 2000 I had the only preseason publication in the country which called for Chris Weinke to win the Heisman and he was not even on many folks' lists at the start of the year. This long shot simply delivered my THIRD straight winner, despite the big odds. Michael Vick was by far the preseason favorite in 2000 but came up short.

In 2001 I missed with Chris Simms but did have Heisman winner Eric Crouch listed as #3 coming into the year. It would have been tough to pick who was going to win the Heisman that year, even on the morning of the presentation, as the voting was one of the closest ever.

In 2002 NO ONE pegged Carson Palmer to win the Heisman prior to the year and he was about a 100-1 long shot over the summer but I did have him #7 on my list of Preseason Heisman Favorites.

In 2003 Jason White was posted at 30-1 odds to win the Heisman with 20 players listed ahead of him so another darkhorse won the award. In 2004 White finished 3rd in the voting but one of the favorites, Matt Leinart, took home the trophy.

In 2005 Leinart was my pick but he didn't become the second two-time winner with his teammate Reggie Bush beating him out. If the vote had taken place AFTER the bowls, Vince Young of Texas most likely would have won it.

In 2006 the QB of the #1 team in the country led from start to finish in the Heisman race as Troy Smith took home the award in a landslide. In '07 Tim Tebow became the first soph to win it while in '08 Sam Bradford became the 2nd straight soph.

In 2009 RB Mark Ingram became Alabama's first ever Heisman Trophy winner despite the preseason favorites being Tebow, Bradford and Colt McCoy. Stanford RB Toby Gerhart finished a very close 2nd!

In 2010 Cam Newton surprised everyone as a 1st year starter one year removed from JC. I had him as a "Possibility" but no one had him on their main preseason list.

Last year Robert Griffin III of Baylor, who I had listed again as a "Possibility", edged out Andrew Luck of Stanford and my preseason favorite Trent Richardson of Alabama.

MY FAVORITES

1. Matt Barkley, USC

Barkley would likely have been the #2 pick in this past year's NFL Draft but opted to return for his senior year. He QB's a loaded USC team that will either be #1 or #2 in the preseason AP Poll.

2. Landry Jones, Oklahoma

In 2010 Jones threw for 4,718 yds (66%) with 38 td's in his 2nd year as a starter. LY his numbers tallied off after WR Ryan Broyles was injured but he still threw for 4,463 yards (63%, 29-15) and should have his best season yet as a senior.

3. EJ Manuel, Florida St

I have high expectations for FSU this year. Manuel is 6"5" 238 and is the most accurate FSU QB in history. He did not start 2 games LY and FSU lost both.

4. Tyler Wilson, Arkansas

LY Wilson, in his first year as a starter, threw for 3,638 yards (63%) with a 24-6 ratio despite getting thrown around like a rag doll at times. This year he will have better protection and be among the nation's passing leaders in the wide open Hog offense. Remember UA gets both Bama and LSU at home.

5. Marcus Lattimore, S Carolina

After making a big splash as a true frosh, Lattimore rushed for 818 yards (5.0) in just 7 starts in '11 before being lost to injury. If healthy, he could be the top RB in the country.

6. Montee Ball, Wisconsin

Ball was a Heisman finalist in '11 and tied Barry Sanders' single season TD record with 39 while also leading the nation in rushing yards with 1,923 (6.3). He turned down the NFL and will be the focal point of the Badger offense.

7. Denard Robinson, Michigan

Michigan will be the preseason favorite to win the Big Ten and Robinson is arguably the most electrifying player in the country. He has recorded B2B 2,000 yards passing and 1,000 yards rushing seasons.

8. Geno Smith, West Virginia

Smith adapted well to HC Dana Holgorsen's offense in 2011 and now has a full year under his belt with one of the top receiving corps in the country. He had 401 yards and 6 td's in the Orange Bowl!

9. Logan Thomas, Virginia Tech

Thomas got better by the week last year and now is in his 2nd full year at QB. The 6'6" 262 lb QB was recruited as a TE (PS#3)!

10. Sammy Watkins, Clemson

The nation's best true frosh in '11. He had 1,219 (14.9) yards receiving, 838 in returns AND 231 rushing (7.2) despite only starting 10 games.
